Did you bet on the Indiana election?
What has become of the Free Press' poultry?
Ohio and Indiana have decided that they do not want "a change." Now for New York.

Lee and Jackson fought repudiated by the people of OHIO AND INDIANA!

22,000 MAJ. IN OHIO.
Indiana 8,000 to 10,000!

Eight Republican Congressmen in Indiana.
A gain of Three!

Gain of Six Congressmen in Ohio!

The Evening News says that census enumerators are receiving their vouchers and expect to get their pay before it is time to take the next census.

Why does not Hancock telegraph his congratulations to Colquhoun of Georgia, for his magnificent victory, as he did to Plained, the Greenbacker?

The value of the United States marshals and supervisors of elections was seen in Indiana Tuesday. The Democrats don't like them worth a cent.

It is now publicly announced that D. Darwin Hughes, one of the best lawyers in this state and formerly a staunch Democrat, has announced his intention to support Garfield. He says he thinks Hancock is not a bad man, but he has become disgusted with the Democratic party.

The Democrats have about concluded that Grant will not support Hancock, as they prophesied. Immediately after the Chicago convention, their chuckling over their anticipation in that line is growing perceptibly less. His explanation of Hancock's famous Order No. 40, settles them in that regard.

A terribly fatal railroad collision occurred in Pittsburg, Pa. Saturday night. An engine ran into the hind end of a crowded passenger coach, running in as far as the cab, at the same time breaking in the head of the boiler letting the steam and hot water escape upon the victims in the car. Nine persons were killed outright, and up to Sunday morning fifteen others had died from injuries received. The blame appears now to rest with a flagman who neglected to perform his duties properly. The latest report is that forty-eight had died from injuries received.

The report of the Post-office Department has been published and shows that during the fiscal year ending Sept. 30, there were used of postage stamps \$22,414,928; of newspaper stamps \$1,232,003.30; postal cards \$2,782,470; of postage due stamps, \$25,830; of stamped envelopes \$4,777,940.68; and of news paper wrappers \$281,787.00 worth. This report also shows an increase in each of the above from 7.4 to 24.1 per cent. In all excepting postage due stamps in which there was decrease of 31.1 per cent. The aggregate increase of the business of the department of the fiscal year of 1870 is \$2,348,391.37. During the year just past there were 39,661 tons of newspaper matter carried through the mails to regular subscribers.

Has anybody discovered anywhere a Workingman's Hancock Club? It would be a funny spectacle to see a workingman shouting for the reduction of his own wages.

We have it from the best authority that the democratic candidate for governor, in his speech at Quincy, acknowledged that the liquor dealers' circular as published in The News was genuine, and furthermore he made no secret of his pledges and said he was willing to stand or fall by that issue. Liquor men and anti-liquor men can now vote understandingly.—Evening News.

Connecticut has up to the time of her late election, held last week, been considered as one of the doubtful, if not a Democratic state, the Democrats even counting that state in their list, but that election seems to have made a decided change in the political aspect there, giving the Republicans a decided advantage. The Hartford Courant, gives the following footing:

The returns, chiefly official, from 163 of the 165 towns which held elections on Monday gave the following result:—
Republican 91, Democratic 66, divided 16. The two remaining towns were in 1870 one Republican and one Democratic. If they voted the same way the total result in the state will compare with 1870 as follows:

| | | |
|-------------------------------|-------|-------|
| Republican | 1870. | 1880. |
| Democratic | 60 | 92 |
| Divided | 11 | 16 |
| Net Republican gain 23 towns. | | |
| Net Democratic loss 23 towns. | | |

The Republicans have gained control in 26 towns and the Democrats in 10. Of the 16 towns now divided 13 were Democratic in 1870 and consequently may be classed as showing Republican gains. It appears therefore that the Republicans have gained in whole or part 43 towns and the Democrats in 9, making a net Republican gain 30 towns. This taken in connection with the greatly increased Republican vote in the regular towns, is a result which can only be regarded as showing a marked change in political sentiment since 1870. There has never been any doubt that the Republican vote in 1870 was seriously lessened by the disaffection resulting from business depression. Many men voted for a "change" then because they reasoned that any change would be an improvement. There can be as little doubt that the result this year has been influenced by the renewed prosperity of the country under the administration of Grant, and the uncertainties which must result from any change.

"The Soldier's Friend."
Democratic Professors and Democratic Records
From the New York Tribune.

The followers of General Hancock and the Union soldiers who voted for the Democratic party and sold South (which constitutes three-quarters of the Democratic party), because the Democrats have followed Republican example in electing a man who fought for the Union in their candidate. We have shown, however, by an examination of the record of the two parties on the pension votes, some facts which Union soldiers will be likely to take to heart, and here are a few more.

May 20, 1880, a resolution was offered in the House of Representatives giving a preference to honorably discharged Union soldiers in making appointments to the District of Columbia police force. The vote on this resolution was as follows:

| | | |
|--------------------|----|----|
| Confederates | 3 | 46 |
| Border Democrats | 4 | 12 |
| Northern Democrats | 0 | 20 |
| Nationals | 6 | 0 |
| Republicans | 70 | 0 |
| Totals | 86 | 78 |

In the Senate, April 17, 1879, a resolution was offered by Mr. Edmunds that Union soldiers should not be discharged from the places they held under the Secretary of the Senate and Sergeant-at-arms except for specified cause. This resolution was defeated by the following vote:

| | | |
|--------------------|----|----|
| Confederates | 0 | 18 |
| Border Democrats | 0 | 3 |
| Northern Democrats | 0 | 10 |
| Republicans | 25 | 0 |
| Totals | 25 | 31 |

Mr. Carpenter then proposed as an amendment that no Confederate soldier should be appointed to office about the Senate chamber in lieu of a Union soldier. This was defeated by the following vote:

| | | |
|--------------------|----|----|
| Confederates | 0 | 19 |
| Border Democrats | 0 | 3 |
| Northern Democrats | 0 | 12 |
| Republicans | 26 | 0 |
| Totals | 26 | 34 |

A bill being offered in the Senate, February 25, 1880, to allow a Maryland Union soldier to re-enlist in the army. Mr. Garland, of Arkansas, moved as a substitute that the law which prohibits the appointment of Confederate soldiers, sailors and officers to positions in the United States army should be repealed. The vote on the repeal was as follows:

| | | |
|--------------------|----|----|
| Confederates | 19 | 0 |
| Border Democrats | 6 | 0 |
| Northern Democrats | 11 | 0 |
| Republicans | 0 | 23 |
| Totals | 36 | 23 |

It subsequently appeared that the original bill would be defeated if the men who left it in order to make war upon the Union were present. Mr. Garland's proposition was consequently reconsidered. But the record of the party was complete.

For Business Men to Think of.
A thoughtful article in the current number of the Atlantic Monthly says:—"The business issues of the Presidential Campaign" deserves the attention of the commercial and industrial classes. The drift of its argument appears in this extract.

Merchants, manufacturers and others who have to do with the affairs of trade are taking an unaccounted interest in the Republican campaign. The policy of the Republican party in all matters affecting the interests, is now fixed by the practice of three consecutive administrations, and has been repeatedly approved by the platforms of national conventions. If the Republicans are again successful, what will happen if the Democrats succeed? Nobody can predict. In this uncertainty lies one of the chief sources of the weakness of the Democratic party in the present canvass. In all countries where the people are frugal, power shifts from one party to another at longer or shorter intervals of time, and the longer one party has been in control of the government the greater the change in the policy of the party. With this law of politics in their favor, the Democrats who have been 20 years out of power, might reasonably hope for success this year, in spite of the memories of the rebellion and the results of the coming solid of the south, if they were able to give the country assurance that they would do nothing to disturb the prosperity of business. But they can give no such assurance save by the cheap, profligate, and unscrupulous, and the effect of calling attention to the bad record of the party. If it had behaved well in the past there would be no need for its leaders to assert, with such warmth, that it does not intend to destroy the public credit, debase the currency, cripple manufacturing interests, ruin the banks, and generally overturn the whole system of the country.

For the Republicans to make such assertions concerning their party would be absurd. It would be as if a banker of excellent reputation for solvency and integrity should say to a depositor, "Sir, I do not mean to steal your money or squander it in speculation." The depositor would be likely to conceive a suspicion at once, and would advise every man to vote for Porter, Garfield, and a protective tariff.

There are now 1,400 students in the State University, and more coming.

has been doing in the meanwhile it is found that he has been preparing schemes and tricks for the injury to his customers, to put in practice in case he should again be trusted with the management of a bank. His vehement denials, and his professions to be honest in the future, is hardly a reason why he should be given the keys to the bank vault.

How It Will Affect the Industries of the Country.

From "The Notes" of the Penn. Monthly.
I heard a large manufacturer ask his friend the other morning, "What do you think of the chances of Mr. Hancock's election?—I ask it from purely business motives. I want to make some changes in my establishment which are better worth making if they can be done now than if they had to be postponed for a couple of months. They will involve an increase of my working force from 250 to 300 men. But I am not sure that I can make an extension, and then find that we have a free-trade President with a free-trade Congress behind him." He is not the only man who is asking just such questions of the coming Democratic manufacturers of Wheeling and other parts of Western Virginia are asking, also, what can make their business to help by their votes to enact a tariff for revenue only, and thus to clear their establishments, and to prevent their development in accordance with the growing demands of the country. Every manufacturing center, from the Merrimack to the Ohio, is asking the same thing—can it take the business bearings of its vote in November next.

Even so censorious a paper as the New York Nation is compelled to conclude that "the weakness of the stock market, in the teeth of the large railroad earnings and the activity of business in almost every branch of industry, is due in some degree to the increase of uncertainty as to the result of the Presidential election. The business of the country has adapted itself to the situation created for it by the public legislation, and the Republican party has, in the present canvass, the great advantage of being able to promise that if it remains in power this situation will last. It thus appeals to the confidence of the people, and the motives by which the world is governed, when it asks for its retention in office." All that the Democratic party will or can promise is a "change" and that is just what business men dread; it is what workingmen dread, who, in these days of low wages, are anxious to let "well enough alone."—Inter Ocean.

Mr. A. B. Miller, of Akron, Ohio, a prominent manufacturer, always a Democrat, and identified with the local organization of that party, in an open letter renounced all allegiance to the Democracy and declares for Garfield. He gives as a reason for so doing that the sectional and free-trade opposition of the Democratic party is such as he cannot consistently support.

ALL ye who carry watches can get the correct time at Jesse Roe's. He has just been buying the finest regulator in town, brand new, and he says he can warrant that it will be right unless something happens to the sun and that he isn't responsible for.

The following dispatch appeared in Tuesday's Inter-Ocean:
St. Joseph, Mich., Oct. 11.—To-day was being a gala day for the Republicans of Berrien County. At 10 o'clock there were at least 5,000 people in Benton Harbor to listen to speeches from the Hon. D. H. Jerome, Republican candidate for Governor; the Hon. O. D. Conger and Hon. J. C. Burrows, and the Hon. J. H. Rogers, of this State. In front of the speakers' stand the crowd was dense for blocks. In the afternoon Messrs. Jerome and Conger spoke. This evening there was a procession of bands and other guards from both sides of the river, and about 7,300 they halted in front of the speakers' stand to hear Michigan's favorite orator, J. C. Burrows. Everything in this Western part of the State goes to show a large Republican majority for Garfield and Arthur.

SOME curious things may be observed in the way justice is dealt out in this place. One day last week a colored man came walking up Front street making no disturbance of any kind, molesting no one, but was so drunk that he staggered. The Marshal arrested him, took him to the village prison, kept him there all night, and in the morning took him before Justice Dick, and was fined \$5 and costs, amounting in all \$8. Now we enter no complaint at this proceedings, for it is strictly in accordance with the law and perfectly proper, but there are a dozen or more of men in this place who get drunk about once a week and stay drunk about six days at a time, and some of whom make themselves decidedly disagreeable, but from the fact that they belong to a better (?) class of drunkards they are never molested by the officers, and this makes justice appear to the casual observer in a most ridiculous light. If the most violent man in town is a criminal and violates the law, is found drunk upon the street, arrest him just as quick as the lowest devil in christendom or let the whole business alone.

Weather pleasant, roads good, and business lively.
The wheat trade is still booming. Over 11,000 bushels of wheat were taken in at the depot from farmers last week. More wheat would have been received if the railroad agent could have handled it with his facilities. Considerable of the wheat is brought from Laporte county, Ind., from near the Michigan Southern railroad. In fact farmers from south of that railroad brought their wheat here and get a better price, and it is a fact that there is not a flour mill within six miles of us. We want a flour mill.

Ask J. J. Van Riper and W. I. Himes if there is any enthusiasm among Three Oaks Republicans. To hear such speeches as they made is enough to give the Democrats here some Republican enthusiasm.

The Good Templars of Union Pier will hold lodge meetings regularly through the winter. There is a strong temperance element in that vicinity. The Methodist Society of Three Oaks have purchased the McGee property near their church for a parsonage.

On Friday evening next the Methodist Society will have an oyster supper. The public are invited.

A temperance meeting was held at the Methodist church on Sabbath evening last, with a large attendance. Rev. Mr. Tasker, Methodist, and Rev. Mr. Wilkinson, Baptist, gave earnest speeches or sermons on the cause of Temperance. Several others spoke.

Rev. Mr. Sias, of Dowagiac delivered several sermons at the Disciple church, on Saturday and Sunday last.

WHEREAS, The Rev. W. W. Wells has been the pastor of the Presbyterian Church for the past eight years, and by his personal efforts liquidated all existing debts of said church. And WHEREAS, He has been zealous in proclaiming the Gospel of Jesus Christ and has been faithful in every good work, especially in the cause of temperance. Be it

Resolved, That we, as a church and society, reluctantly consent to his withdrawal as our pastor, and as expressive of high esteem in which he and his family are held by us, we extend to them our heart-felt thanks and good will for a future prosperity and usefulness.

Resolved, That the many instructive lessons which we received from him shall ever be cherished in our memories, and treasured in our hearts.

Resolved, That these resolutions be published in the Berrien County Record and the Michigan Independent and Reporter; that they be spread upon the records of this church, and a copy of them be sent to the Rev. W. W. Wells and his family. Signed,

Some laborers while recently excavating for an ice pond in the village of Buchanan, have discovered the entire skeleton of a mammoth. The excavation was on the border of what at one time was a large marsh or shallow lake. The remains were found about five feet below the surface, imbedded in a sandy clay.

James Toney, aged 7 years, in attempting to catch on a freight train at South Bend, one day last week, was run over and so badly injured that he died in a short time.—Harper & Walker, dry goods merchants, made an assignment last Tuesday for the benefit of their creditors. Theo. G. Beaver, Esq., is the assignee. Their liabilities are about \$16,000 to \$18,000, with assets from \$9,000 to \$11,000.

STATE ITEMS.
A party of hunters went out from East Saginaw, Sunday morning, among them being a man named Slough and his son Elmer, a lad of 18. The latter slipped while standing on a log, causing his gun to be discharged, blowing the boy's brains out.

Bay city has a lad who should be placed on the detective list at once. His velocipede was stolen from him Sept. 25, and following the track of wheels he traced it along the track of the J. L. & S. R. R. to East Saginaw, where he followed the thieves, worked up the case and had them arrested.

Our jail is now full to running over, and not the best feature is that the prisoners are, all but one, merely boys. "Tis sad to see our youths crowding the corridors and cells as criminals, and on inquiring, to find that ten-cent novel literature and whisky are the agents that are leading them in the way to ruin.—Newspaper Tribune.

On the trip of Forepaugh's exhibition to this city, Thursday, night, an employee in the elephant car prodded one of the elephants for some misdemeanor, making him angry, and he knocked the man down with his trunk and lay down on him. The "boss" elephant observed what was going on, and released the unfortunate man by obliging the refractory elephant to get up, but the victim was injured so severely that it is believed he cannot survive.—Lansing Republican.

NEW YORK, Oct. 13.—The stock market moved up several points this morning, the advance being attributed to the Republican victories in Ohio and Indiana. Later in the morning there was a slight decline, but the market has since recovered, and at this hour (noon) is firm.

LONDON, Oct. 13.—The news of the Republican success in Ohio and Indiana has resulted in an increased firmness of United States securities of all grades here, with a decided tendency to advance.

TEMPLE MILL, Pa., March 24, 1880.
I am employed in going out number, and my work is very hard, chopping, lifting and wading in the water a good deal. It brought on Kidney complaint and rheumatism, for which I have been taking Kidney-Wort with great benefit. It is the only patent medicine I have ever taken which I can recommend, which I have done to many here, and to the druggist in town.

Profitable Patients.
The most wonderful and marvelous success cases where persons are sick or wasting away from a condition of miserableness, that no one knows what ails them, (profitable patients for doctors) is obtained by the use of Hop Bitters. They begin to cure from the first dose and keep it up until perfect health and strength is restored. Who ever is afflicted in this way need not suffer, when they can get Hop Bitters. Cincinnati Star.

The Elder Man and Liver Pail.
With a Bottle of Foot & Liver Pills, will cure Malaria, Chills and Fever, Intermittent, Remittent and Typhoid Fevers, absolutely without the use of internal medicine. The whole combined remedy for one dollar. For sale by Druggists.

A Quercu Motion.
Many people think it cheaper to buy 25 cent sizes of a proprietary medicine. But they make a mistake. For instance, Dr. Wistar's Balsam of Wild Cherry contains about eight times the quantity of ordinary cheap cough balms. Besides it takes a less quantity of Wistar's Balsam to cure a cold. A single dose is often sufficient. For deep seated Colds and Consumption it has no equal. It is the best and quickest cure ever discovered.

Don't Make a Mistake.
Why will you use salves and lotions, and other outward applications for the cure of skin diseases? The relief thus obtained can only be temporary. Why not strike at the root of all skin diseases by getting your blood and liver in a healthy, vigorous condition? This can only be done effectively and thoroughly by the use of Dr. Guyssot's Yellow Dock and Sarsaparilla.

Old, Tried, and True.
Remember Dr. Guyssot's Yellow Dock and Sarsaparilla is not a new, untried compound, but has been the test of forty years, and has proven itself to be the best vegetable compound ever discovered for curing scrofula, syphilitic disorders, skin and blood diseases, liver complaints, urinary troubles, etc.

Have fitted up a neat little BARBER SHOP
Over Morris' Restaurant, where you can always find them with smiling faces ready to wait on their customers. It is a new and complete establishment for the ladies customers, whom they cordially invite to patronize.

Our Motto—"Do 'auto' others as you wish to be done by."
When you want a new easy shave, as good as a Barber ever gave, just call on us at our shop. At mid or eve, or busy noon. We cut and dress the hair with grace. To please the customer and suit the face. Our shop is neat, our towels clean. We wash and shave with the best soap. To make both ends meet we cannot trust. For when we do we are sure to get satisfaction. And make you have a different feeling. So will our cut and still can be your friend. If you'll just call we'll do you.

Respectfully Yours,
C. C. DIGGINS,

A JOINT debate of the political issues of the day, between, Leo Miller the Greenback head light of this state, and F. D. WE notice that several of our exchanges are publishing the advertisement of Dr. (P.) A. G. Olin, of Chicago. The RECORD had an opportunity to do so too. It cost the RECORD \$3, in 1876, to learn that that man was exceedingly poor pay, and consequently declined. If any of these exchanges get pay for their work, we are mistaken in our guess.

CASS ROZELLE and Mr. H. Phillips' son went, last Thursday, to the Kankakee marsh duck hunting, and when they arrived turned their team into a field, belonging to a friend, and went about their hunting, but when they returned nothing was to be found of the team. Whether the horses had been stolen or had broken out of the field and wandered away, was the question that bothered the boys.

WHEAT is taking a boom. In Eaton Rapids it has reached \$1 per bushel and there is a gradually creeping up in that direction. The Chicago dailies report an advance each day, and there is every appearance that our prophesy of a few weeks since, that the price would be above \$1, will be realized.

The Post and Tribune of Friday contained the following letter and explanation that may be of interest in this place:

What does the "329" chalked about the streets refer to? INQUIRER.

It refers to one of notorious frauds of the South Carolina election of 1876, concerning which "Senate Report No. 335" of the session of 1876 (part 2, p. 148-9) said:

"The supervisor at Hope engine precinct, Charleston, and others testified to their being on tissue ballots visible during the day of election, but 329 were taken out of the ballot-box and counted. They all seemed to lie at the bottom of the box."

Peterson's Magazine is on our table for November, ahead of all others, and is usual, more and more improved. The November issue leads off with a capital steel engraving, "Missy in the Suits," and is followed by one of those double-size steel fashion plates, superbly colored, only seen in this periodical. "Maidy, Queen of Scots," is a perfectly illustrated article on that unhappy queen. With this number appears the prospectus for 1881, when six Original Novels will be given, and in addition a hundred short stories. Also a paper pattern for a dress, every month. The price of "Peterson" is but two dollars a year, or less than any other first-class magazine, postage free. Two copies for \$3.50, with a superb, copyright mezzotint (size 24 inches by 20) "Grandfather's Tells of Yorktown," or an illustrated Album, Quarto, Gift, as a premium. Subscription taken at this office.
