

(A true copy.)
Last publication 20th January, 1881.

Berrien Co. Record.

THURSDAY, JANUARY 27, 1881.

Entered at the Post-Office, at Buchanan, Mich., as Second-Class Matter.

SUBSCRIBERS' RECEIPTS.

We wish our subscribers to be particular to notice the date against their names upon their papers, and see that the account is right. We always give receipts for payments made on subscription and this bill should correspond with the last date in your receipt, and denote the time to which the subscriber has paid. If there is any mistake we will be notified at once. Never wait more than two weeks for the date to be changed after payment is made.

NOBLE

WISHES TO CLOSE HIS LARGE STOCK OF

Clothing,

Boots & Shoes,

Hats & Caps.

By January 1, '881.

Look Out for Bargains!

We would kind to like to have our Indian summer before long.

PRETTY cold weather last night, if we are any judge of such things.

MR. WM. R. KOTZ is very sick with strong symptoms of lung fever.

THE January thaw has been postponed to sometime in February or March.

A DAUGHTER of Mr. Alonzo Marsh died Tuesday afternoon, of consumption, aged 28 years.

MR. J. N. STEPHENS makes a flying visit to Buchanan today, and is off again for Leadville.

THE annual meeting of the Lake-Side Horse-Club Association was held in New Troy Tuesday.

FRANK KOTZ had one of his hands cut on the boiling saw in the furniture factory, Tuesday forenoon.

OUR eastern mail was late Saturday evening on account of a smashup that occurred at Matreva.

REV. W. H. PERRINE quite well known in this vicinity, died at his Pastorate in Albion, Saturday.

NEARLY 6,000,000 feet of logs have been drawn into this place this winter, and there is no let up yet.

MESSRS. N. Hamilton, S. Atwood and J. G. DuBois are attending the Masonic Grand Lodge at Detroit this week.

THE peach orchard of Wm. G. Brown of Lake township, containing 500 trees is said to be killed by the extreme cold weather.

MANY of the north and south streets in this place need to have their walks cleared of snow. They are nearly impassable.

SEVEN hundred dollars will buy ten good lots in a good location in this place, at this office. Call if you want them.

MR. S. W. ELEY has sold his tailor shop to Mr. Trembly, and will retire from the tailoring business in this place.

BUCHANAN musicians furnish music for the Three Oaks dancing club to-night. They are some pleasant parties there.

WHILE chopping in the woods, Mr. A. J. Bassford, of Hagar township, was killed by a falling tree January 15. He was 35 years of age.

EGGS must have taken a grand fall last Friday, judging from the pile of broken ones that decorated the road near the Fish place.

STILLMAN WOOD, one of the old citizens of St. Joseph, died in that place last Thursday, aged 92 years. He was a pensioner of the war of 1812.

A lodge called the Ladies of Honor has been formed in St. Joseph. No such lodge is necessary here. The ladies are honorable enough without.

THE narrow gauge coach was placed upon its own track Saturday afternoon, and is now all ready for business, with the exception of a road to run on.

L. S. LAMBERT tied to trim his finger nails on the planer, in the furniture factory, while it was running, and got them too short. He keeps them done up in a rag.

MR. GEORGE SAMSON and Miss Ella Merrill are to be married at the residence of the bride this evening. May they live long and prosper, is the wish of the Record.

A lively sparring match took place in the Engine House Saturday afternoon. If you see any of the boys with black eyes, don't ask any questions. This explains it.

THE machinery for the Excelsior manufactory was brought to this place Tuesday, and is ready for business as soon as a building is built for it, which will be as soon as the weather will fit.

THIS paper we publish the proceedings of the Berrien County Horticultural Society that contains some of interest to fruit growers in vicinity.

BUCHANAN possesses more beautiful places and fewer unsightly places than any village of its pretensions in Michigan. Its citizens are proud with taste.—Benton Harbor Item.

It does appear to be once in a while a country editor who knows what is talking about.

THE passenger car for the St. Joseph Valley railroad arrived in this place, Friday afternoon. It is quite a fine car, although not a palaces compared with the Pullman's or Wagner's.

Mrs. ARWOOD has moved her dressmaking establishment to the upper story of N. Hamilton's building, on Oak street, where she will have more room for her work and to entertain her many customers.

A FUR BOA was left at this office by Mr. Wm. Long, which he picked up west of town. The owner can have it by calling at this office and paying for this notice.

It has just leaked out that a Buchanan girl hung up her stocking on Christmas eve, and all Santa Claus could put into it was a lightning rod.—Era.

There: hold on! no insinuations, if you please.

HORSEMEN who have been in the habit of putting frosty iron bits in their horses' mouths, these cold mornings, should try the thing themselves by just touching their tongue to the bit to see how it seems.

THE Daily News tells of a boy that had his feet smashed and of a little girl who came near being killed by jumping on a sleigh in St. Joseph, one day last week. It is wonderful how soon the broken leg of Mr. Taylor's little boy was forgotten by the boys in this place.

OWING to ill health, Mr. Freeman Franklin has tendered his resignation as superintendent of the Grange Store and the Association has accepted it. Mr. Franklin has shown himself a good business manager and the Association will miss him.

MESSRS. Black & Willard have bought the steam saw-mill at Brown station, and are now moving the machinery to their yard on the park ground. They have the yard well filled with logs, and will now be at work on them in a short time.

Mrs. MARY HERKIMER, an old resident of Portage Prairie, died at the residence of her daughter, Mrs. James Badger, January 18, aged 81 years, 1 month and 4 days. She was sick but a short time.

LAND SALE.—Mr. Wm. Hoag has sold the east 1/2 of the north-east 1/4 of section 10, and the south-west 1/4 of the south-east 1/4 of section 3 in Weesaw township, to Peter Wolkins, Jr. for \$4,250. The papers were made out Monday afternoon.

MR. FREEMAN FRANKLIN intends to return to his farm in a short time. Dr. Smith, of Middlebury, Ind., brother of Mrs. Sarah Howe of this place, has rented the house he leaves, and will settle in Buchanan for the practice of his profession.

Mrs. SARAH KINGSLEY had about \$18 stolen from the pocket of her cloak, that was hanging in her house, Sunday afternoon while she was out riding. Anyone who will steal from a widow in her circumstances ought to be skinned alive.

THE Tennessee Legislature has been trying nearly all of this month to elect a United States Senator, but thus far have not succeeded. It must be entertaining for them to stay there three or four weeks and do nothing else but ballot for United States Senator, and not be any nearer an election than on the first ballot.

THERE is considerable talk of a chair factory being started in this place in the Spring. We have four wholesale furniture factories, and the proprietors of each state that they frequently receive with their orders for furniture an order to send along a few chairs, and give it as their opinion that such a factory here could be made to pay a good dividend.

MR. GEORGE H. ROUGH's palatial residence, on Portage Prairie, was the scene of a lively and jolly dinner party of 50 or more of George's friends who were invited there to turkey last Thursday. He has our thanks for an invitation, but unfortunately for us, the day was one on which it was next to impossible for us to leave Buchanan.

MR. C. H. SPROUSE of Galien township is erecting a steam saw-mill on a piece of timber land he has bought, about two miles north-west of Galien, and is now busily engaged in filling up his yard with logs. Mr. Strong is a stirring business man, and will make things lively in that vicinity.

DETROIT has organized a telephone company to do business between the different towns in the State. The first line will be erected along the Michigan Central road. It is possible South Bend may be able to form a connection with Niles.—South Bend Tribune.

THIS is just what we have been wanting to hear this long time. When it gets along this far Buchanan will take a hand in.

FIRE.—Tuesday afternoon Mr. Geo. G. Rough's frame dwelling house occupied by Mr. Frank Rowley was burned, while Mr. Rowley and family were away from South Bend. The children from the school and a few of the neighbors managed to save a portion of his goods, but the house was a total loss. It was worth about \$1,500.

MR. J. W. FANCHER of this place was arrested Monday afternoon, by Constable Cross of Niles, and taken before Justice Gilbert, on complaint of Frank Burrus of Dayton, charged with assault with intent to commit rape upon Miss Gertrude, the ten-year-old daughter of Mr. Burrus. Mr. Fancher gave bonds to appear for examination on Saturday, February 5th.

List of Letters.

Remaining in the Post Office at Buchanan Wednesday, Jan. 26, 1881.

Commiss. J. P. Phillips, Mrs. W. Scott Crane, M. Darwin Spencer, W. B. Daley, Perry

Drop letters: Martin, S. N.

Held for postage: A. Wagner, Atica, Mich.

This list is published free for the information of the readers of the Record, therefore there is no charge for delivery of letters addressed herein. Persons will, however, in claiming any of the above, call for "advertised letters." L. P. ALEXANDER, P. M.

We have received a postal card from Akron, Ohio, inquiring after Ernest H. Bass who left his home in this place last August, and has not since been heard from. He is described as being 30 years old, about 5 feet and 10 inches high, weighs about 150 pounds and is near sighted, wearing spectacles. Any information of his whereabouts will be paid for by his father S. H. Bass of the above named place.

A Workmen's Protective Association was formed by the employees of the Buchanan Manufacturing company, last evening. They invite the employees of the other manufacturing establishments of Buchanan to join them. Those who wish to join may do so by seeing the committee, F. T. Plimpton, John Alliger and Samuel Bunker. The object of the association is to assist those of the members who are sick and injured or in needy circumstances.

A Republican State Convention, to nominate a candidate for Justice of the Supreme Court in place of Isaac Monston, and two Regents of the University, in place of Edward C. Walker and Andrew Climie, is called to be held in Lansing Wednesday, February 23, 1881. This calls to attention the fact that there is business on hand for local committees. Berrien county is entitled to 12 delegates.

REV. J. H. KEELER, of the Evangelical Association, is conducting revival meetings in his church on Portage Prairie. The meetings are well attended, the church being filled with attentive listeners night after night. On Sabbath evening a number of persons had to return to their homes as the church was already crowded at 6:30 P. M. both the aisles and altar being crowded. A deep interest is being awakened, and the prospects are for a good revival.

In another column of this paper may be found a resolution of the Board of Supervisors, relative to the stock running at large in the public highways. There are portions of this country in which this act of the Supervisors will give satisfaction, but there is still another portion where it will lack considerable of it. There already comes a mail from Oronoko township, and some other townships in the central, northern and western parts of the county, that they want their cows to feed upon the wild lands they have, and do not care to be prohibited from doing so by the Board of Supervisors.

OUR SPECIAL OFFER.—By a special arrangement with the American Book Exchange of New York, we are enabled to offer the Library of Universal Knowledge, 15 volumes, large-size, and neatly bound in full cloth and gilt, with one year's subscription to the Record, for \$12. The volumes offered above are a reprint of the latest Edinburgh edition of Chambers' Encyclopedia, which formerly sold for \$30, with 15,000 new additions by American authors. A sample volume may be seen, by those who desire, at this office.

THE Journal takes the Board of Supervisors to task for not accepting the \$1,000 offered by the bondsmen of John Tate, and settle up the loss without litigation instead of employing a "high-toned lawyer" to sue for \$2,000. We beg leave to differ from the Journal, and hold that the Supervisors erred in not suing for the full amount of delinquency, just what belongs to the county. If there is any good reason for deducting \$800, there is equally as good one for deducting the whole bill, and we fail to see where the Board of Supervisors obtain the right or authority to do either.

THE Berrien County Grange held an institute in Grange Hall Friday afternoon and evening. Papers were read by various members, as announced in the programme last week. The essay by Mr. Reese, on "Common School Education," led to a quite sharp discussion on account of his denunciation of the Bible, as an element of the public schools. These institutes form one of the best mediums of interchange of ideas of the participants upon the subjects discussed, and more prominently show "The Grange as an Educator." Those who are permitted to share its benefits, should see to it that these meetings are continued. They are generally well attended and interesting.

THE members and friends residing on the Rev. J. H. Keeler's charge of the Evangelical Association, on Portage Prairie, made him and his family two very happy and useful surprises recently. The first one on Jan. 7, consisted of ten loads of wood brought to his door, donated by the Rough Bros. and J. Imhoff, of Buchanan, and one load of dry stove wood by Isaac Long, and the second on Jan. 18, consisted of the necessities of life and money to the amount of about \$40.00. For both of these very pleasant and agreeable surprises and donations Mr. Keeler hereby expresses his warmest thanks to the kind donors, and assures those who so kindly participated in them, that these deeds of kindness and love are highly appreciated by himself and children.

A NEW scheme in business presented itself in this place last Friday. A man who had previously gone about town and the adjoining country and taken orders for groceries, and having the purchasers call for them at the depot, where he delivered them. Our first thought was surprise that he should be able to find enough people here to buy of him, a transient stranger, of whom they knew nothing in place of buying of our local dealers, whom you know to be responsible for any error or wrong that may occur, and who must handle only good, honest goods or lose their trade. It is the local dealers who pay the greater portion of the taxes used for improving the town that contains your property, and in which you make your home, and it is they who should receive your support, even if it be but the mere purchase of a profit there is on your groceries. Always help your neighbor in preference to a stranger, especially when the best terms can be obtained at home.

THE Berrien County Horticultural Society.

STEVENSVILLE, Jan. 20, 1881.

The society met pursuant to adjournment. President R. C. Tate in the chair.

Minutes of two preceding meetings were read and approved.

Mr. Geo. Bridgman then presented a paper on "Cultivating and Testing Small Fruits." He drew a graphic picture of the various small fruits, and the various varieties and their uses, and fruit recorder in hand, selecting his varieties and deciding among the plentiful and diverse rules how to raise strawberries. He finally gets a lot of plants from a neighbor, and has a lot of work with them, and as the winter wears on, and the frost sets in, he finds that the plants are not doing well, and he is obliged to give up the idea of raising strawberries. He then turns to the subject of small fruits, and finds that the only way to succeed is to plant them in the fall, and let them grow over winter, and then in the spring they will be ready for the soil, and will give a good crop.

free from rust, but fruit stalks are weak and ripe berries lie in the dirt. Cinderella very much to be pitied, but sets very little fruit. The Sharpless is a very magnificent berry, but not firm enough for shipping. The Shurtz grew in hill with few runners. The Marvin was tender and subject to rust or blight.

A discussion followed concerning rust. W. A. Brown thought it was atmospheric and more liable to attack some varieties than others. In blackberries it was a disease of the root.

Mr. Bridgman said only four varieties of strawberries appeared to be free from rust. These were Crescent, Pearly, Shurtz, Sharpless, and perhaps Black Advance.

Dr. Brown was asked to give his experience with Windsor Chief. He considered it of superior quality and very prolific.
