

Berrien County Record

WEDNESDAY, FEBRUARY 24, 1881.

12, the Post-Office, Buchanan, Mich., is Second-Class.

COPIERS' RIGHTS. The proprietor of this paper is not responsible for the contents of advertisements...

NO ONE IS GETTING MORE NEW GOODS

For Spring, we have a reputation. No Trust! But we'll sell goods for a less price, rather than we can't.

Please Ourselves and our Customers Thereby.

Republican Judicial Convention. The Michigan Judicial Convention for the Second Circuit of the State of Michigan...

Registration Notice. The Board of Supervisors of Buchanan Township...

Village Election Notice. The Village of Buchanan is holding an election...

J. D. MILLER of Three Oaks, Buchanan Saturday.

W. W. NOBLE has a new advertisement at the old stand at the head of column.

A. AND MRS. GEO. HAYNES of Edlingburg, are visiting relatives in this place.

A meeting was held in Niles last Sunday for the purpose of forming an Fish Land League.

One beauty of Buchanan is that any side-walk in the village is kept so from...

The Mirror says we were mistaken in the report of the bridge having a certain...

E. B. C. SMITH, formerly of Galien, has been elected to the office of Justice of the Peace...

The Young People's Association of Berrien county held their adjourned annual meeting in Niles this evening.

Mr. & Mrs. A. J. CAROTHERS went to Flint, Tuesday, to visit their daughter Jane, who is supping in the deaf and dumb institute.

The next meeting of the Home Mission Band is to be held at the residence of Mr. P. N. Wray, on Second street, to-morrow afternoon at two o'clock.

The Rough Fellers have just bought a new sawmill which they are going to put to work on their timber lot just west of Ewe's school house.

Wm. HARTSEL of Sodus township, engineer in a mill, was caught by a belt, the 15th inst., and received injuries which resulted in his death in a few hours.

This is the 33d day of our sleighing this winter. 1872-3 there were 110 days of continuous good sleighing, the snow being very deep during the whole of that time.

The subject of Dr. Barriek's discourse, at Eyon's Hall last Sunday evening, was "The True Honor of Man." Arrivation is extended to all.

Mr. LUC of Berrien township, has been appointed overseer of the poor farm for ensuing year. We learn Capt. Biley will return to Three Oaks.

B. S. CROFORD is receiving a visit from daughter Carrie, who has been in west away or more. She brought with her, and the swan, O'Neill.

The contest at Benton has at last been brought to a close by the reappointment of A. B. There are several (candidates) disappointed.

Classopolis Vigilant wants an notice. This is a good opening for a young man who is willing to do something to graduate into not at all, however.

Next Sunday at the Ad. on 3d Street as usual. morning sermon "The Crucifixion." A pulpit painting and giving a vivid picture of an Evening an "Illustrated on the first Martyr." Two will be used. Seats free.

The fits of sunshine and storm the past few days gives the appearance that winter is loth to give up its hold on the country.

The fellow who taps his sugar bush pretty soon now is the one who will get what old maple sugar makers call the best run; the first.

A LADY'S pocket book containing a small sum of money was found on the street Monday. The owner can recover it by calling at J. H. Roe's jewelry store.

The Derrick says no weather is warranted genuine this year unless Venor's name is blown in the bottle. So beware of imitations.

A COUPLE of gentlemen from South Bend have opened a stock of pictures and brackets in Nash's building, where they are endeavoring to cry them off at auction.

A Sudden thaw just now will make things considerably interesting for cities that are situated so as to be damaged by flood. There is a great quantity of snow in the country.

The survey for building a railroad from the South Bend division of the Michigan Central to the dam in Niles has been made, and a promise given that the road will be built there.

As the time for the village election draws near, the various candidates make their appearance. So far as we hear there are mentioned, Geo. McNeil, Chas. Evans and J. M. Russell for Marshal.

W. K. SAWYER, of Three Oaks, has sold out his furniture and undertaking establishment, and we presume will devote more attention now to his agricultural implement business, advertised in another column.

A JOINT resolution of the Legislature of this State was presented in Congress asking for an appropriation sufficient to secure an efficient harbor at New Buffalo, and it is hoped Congress will grant the request.

The law firm of Hall & Hill has been dissolved by mutual consent, Mr. Hill's business interest in Berrien county rendering his removal to Buchanan necessary. Mr. Hill is a well read and successful lawyer. We regret his removal and wish him success. -Kalamazoo Telegraph.

MR. HORACE WARREN, of Chickaming township, has recently sold his farm of 50 acres to David Adamson for \$2,700. John Haynes, in the same neighborhood, has sold his 40 acres, the transfer being made last Monday.

We have had more severe cold weather with south winds this winter than we have known. It has been usual for this part of the world to get its cold weather from the north and the warm from the south, but the zones appear to be reversed this time.

Mrs. GRS. KLINGER of New Carlisle, Ind., and Miss Nellie Smith, of this place, entered into a life contract to share each others' good and bad fortunes, last Sunday. This is not one of the kind of contracts that are void if made on Sunday.

An Odd Fellows Lodge will be instituted at Berrien Centre next Saturday. The new Lodge will start out with twenty-six charter members and some ten petitions at the first meeting. This will make the fourteenth Lodge of this order in the county.

TUESDAY afternoon Fred Cadwell learned something in canine natural history. His dog and Jap. Murphy's were fighting on the street and Fred tried to part them, when one of them bit him quite badly, mangle both of his hands in a manner not pleasant to contemplate.

MR. JOHN MONTAGUE is now engaged in drawing 150 cords of three-foot body wood, beech and maple, for the school district in this place, he having taken the contract to furnish that amount for next year's use for \$2.50 per cord.

The Excelsior Manufacturing Company is getting on hand a good pile of basswood bolts ready for business as soon as their building, for which lumber has been purchased, can be erected and the machinery placed in position.

The Mendelsohn Quintette Club, known to all lovers of music as one of the best musical combinations in America, will give one of their entertainments in Peak Hall, Niles, next Thursday evening, March 3. Seats are for sale by J. H. Ames for 50 cents.

REV. R. P. BURTON, of LaFayette, Ind., formerly of this place, writes that over fifty of his friends visited him on Tuesday evening, Feb. 15, leaving them a donation of \$49.50 in cash, and other presents. Mrs. Burton and both children have been having the measles.

The following is a dispatch from Benton Harbor, dated Feb. 21: "Jethor Johnson, a farmer living east of the town, was arrested to-day at the instance of Sabrina Kabe, who charges him with committing rape upon her while in his employ some months ago. She is energetic and charges that he drugged her. Johnson has always borne a good character. He gave \$2,000 bail to appear on the 25th inst.

This has been a winter of deep snows, but the deepest we have had thus far at one fall was last Thursday night, when about twelve inches fell on a perfect level, there being no wind to drift it in the least. That was also the most extensive storm of the season, extending from Texas to far into the North and East.

SURPRISE.—On Wednesday of last week Mr. and Mrs. Isaac Brown went to Three Oaks on a visit, and on their return found that some one had taken possession of their home. Although all was quiet when they entered, it was not long before things were made lively. Their unexpected guests had taken the liberty to have a sumptuous feast prepared, to which fair justice was done. Mrs. Brown was presented with a fine silver caster as a reminder that she was forty years old.

MASONIC LECTURE.—Dr. Rob. Morris, LL.D., whose name is familiar to every Mason in the civilized world, will deliver a lecture in this place on Wednesday evening, March 2. His subject will be "Freemasonry in Holy Land." The lecture is free, but none under the degree of M. M. can be present. All Masons in good standing are invited to attend.

LOOK for election and registration notices in this paper. Do not forget that your registration for the Presidential election is not sufficient for this election. Your name must be on the village registration books or you cannot vote. Leave your name with the Recorder at this office.

MR. FRANK MERSON has killed and packed 500 hogs at his market, in this place, this winter. He proposes to furnish this market with Berrien county pork, without being obliged to pay freight on the live hogs to Chicago, and then on the barreled pork to return.

THERE will be services at the United Brethren church in this place on Friday evening, the first of a series of meetings to be continued over the Sabbath and during next week. Rev. Geo. Siskafoose will be with the pastor, Rev. C. Brigham, during the meetings. All Christians are cordially invited to participate in the meetings.

The salary of the Marshal in this place, for the past year, has amounted to about \$450, and the man who accepts this office is expected to spend his entire time and energies, take the curses of the whole community, and accept this amount. The Recorder does not favor high salaries, but is in favor of a fair remuneration for the services he is expected to render.

The Michigan Central Company are offering specially low rates for passengers who want to attend the inauguration ceremonies in Washington, March 4. The fare from Niles will be \$21.40 for the round trip, going by way of Niagara Falls and Elmira. New York. Tickets to be good from Feb. 27 to March 10, inclusive.

CLOSE COLLECTION.—County Treasurer Rough informs the Recorder that the Treasurer of Niles township has settled for the township taxes, returning only \$2.23 as uncollected. Also, that Mr. John M. Rouch, of Bertrand, returned \$2.88 as uncollected. In both cases this can be looked upon as pretty close work.

HON. A. H. MORRISON, of St. Joseph, was in Constantine on Saturday, inspecting the machinery in the paper mill. Mr. Morrison is proprietor of the extensive Paper Mill Works at St. Joseph and contemplates the erection of paper machinery to supply his works with the paper board used for the journals, and perhaps for general sale. -Constantine Mercury.

At the recent meeting of the Farmers' Institute of Cass county, Mrs. Sarah Howe of this township read an essay on "Home and its Adornment," and Mr. Chas. F. Howe one on "How Best to Keep up the Fertility of the Soil," which were well received, the reading of Mrs. Howe's essay being called for the second time before the Institute adjourned.

A Niles correspondent to the Democrat complains that the Sunday liquor law is neither enforced nor observed by some of the saloons in that place. The law makes that correspondent a proper person to enter complaint in such a case, if he knows of any convicting facts in the case. A complaint by him will go farther to stop this violation of the law than all of the correspondence he can write about it.

We are credibly informed that since the suit has been commenced in the circuit court of this county by Joseph L. Taylor against Eli J. Roe, for damages resulting from the breaking of little Harry Taylor's leg by the team of Roe, Mr. Roe has for the first time since the little boy's leg was broken called upon Mr. Taylor and offered him the large sum of Twenty Dollars in full compensation for the injury received.

On motion of its friends the joint resolution for the prohibitory amendment to the constitution, on the order of its third reading, was laid upon the table by a vote of 67 to 25. Representatives from the second and third districts in this county voted, yea, and the one from the first, nay. This can not be taken as an indication of what the vote will be on its final passage. Those voting against the bill in this case being mainly its friends although the lines were not closely drawn.

A RUNAWAY team went up Front street hill Monday afternoon, turning in at West street were stopped by Henry Kingery before any damage was done. There is a severe penalty for leaving a team standing on the street without hitching. There is no knowing who may be either killed or injured by a team running through the street with a wagon or sleigh and the by-law regarding this neglect should be strictly enforced.

LIST OF LETTERS. Remaining in the Post Office at Buchanan Wednesday, Feb. 23, 1881. Bowen, James F. Orlino, Tom Olina, George Eastman, W. H. REC'D.

DROP LETTERS. Correll, George Orlin, John Kelly, Charles REC'D.

POSTAL COVERS. Eastes, Geo. F. Weaver, Alice 3d class—Alice Weaver. 4th class—Messrs Burns. This list is published free for the information of the readers of the Record, therefore there is no charge for delivery of letters advertised herein. Persons will, however, in claiming any of the above, call for "advertised letters." L. P. ALEXANDER, P. M.

A couple of young blonds from the wilds of Buchanan came to Niles last Sunday and made themselves very obnoxious by attempting to scrape an acquaintance with two of our nicest young ladies. They had better quit such business or they may some day get a sound thrashing for their audacity, and also see their names in print in a not very enviable light. -Niles Mirror.

Any town that keeps so many pretty girls around as Niles pretends to should not set up any such howl as this because some of the boys go to see them. We trust the writer of the above has not had any of his jealous propensities aroused during the coming season.

The First Baptist church of Buchanan Harbor, a fine veneered brick structure was burned on Wednesday night of last week. The loss was about \$15,000, and insured for \$6,000, of which the Agricultural, the company which never insures anything but dwelling houses, bears one-third. The fine pipe organ was also insured for \$1,000. Benton Harbor appears to be an unfortunate place for church buildings.

LAND SALE.—Mr. George Churchill has just bought the lot of the Staple heirs lying between the lots belonging to the United Brethren and Presbyterian churches, and extending north from Third street to the Cotton lot. Also five rods off from the south end of the U. B. lot and corners on Oak and Third streets. This gives Mr. Churchill one of the most desirable residence lots in town, and we learn it is his intention to erect a fine dwelling house at the corner during the coming summer.

THE Buchanan RECORD has not got over its school geography. It says "the north-east corner of this paper.—Benton Harbor Palladium.

Yes, and the editor of the Palladium quit attending school before he got so far along as dictionary. He says in his account of the fire: "The venerated walls furnished splendid fuel for draft and the dense smoke prevented any egress to the main audience room."

Call it square, "won't ye?" SENATOR MARS presented a petition to the Senate, asking that church property be exempted from taxation. The matter mixed, and thought it was a bill exempting church property from taxation, and so the Senator and the supposed bill has been savagely denounced. That's what a man gets for being in public position.—Niles Republic.

The RECORD was led into that mixture upon what it termed good authority. If our memory serves us right, it was one of the Detroit papers.

MR. J. DEMOTT, of Niles township, complains that he was imposed upon in this wise: He attended church in this place last Sunday, hitching his team in the street near the church, and was blanketed. When services were over he found his team unblanketed, sweating profusely, and giving evidence of fatigue. He says it is evident to him that some fellow who wanted to use a team took this way to save a lively hell, and that if he learns who it was he will make it interesting for him.

E. L. KINGSLAND is considerable of a joker, and at the last meeting of the Board of Supervisors he introduced a resolution that the proceedings of the Board be published in any paper in the county, except the Buchanan Record and Berrien Springs Journal. He did it to start those two papers to howling, and they have been dishing it up to their readers by the column ever since, which was the effect Mr. Kingsland desired. Do you here who he is, Mr. K. is regarded as a first-class citizen in every way, but to let those papers tell it, he ought to be in the State prison, and all because of the little joke he played on them; but they can't see the joke, and still they howl.—Benton Harbor Times.

Joking was he? was that what he was doing when he introduced the resolution to move the county seat? We thought it was because he didn't know any better. Our understanding of the duties of a Supervisor is to attend to business, and not to "joking," and if that end of the county can't find one there who knows better, we suppose the rest of the county can stand it. We have the names of some others of the board who thought his last resolution might give them a chance for the sweet revenge they longed.

HAYMAKERS.—A Mr. Cady, of Lawrence, Van Buren county is training about thirty-five or forty of the leading ringers of this place, for the Cantata, "Haymakers," and they propose to give a public entertainment in a short time. The date will be announced in due time by the RECORD and by posters and bills. The entertainment is being prepared under the auspices of the Good Templar lodge in this place, the proceeds to be used for the purpose of paying for an organ for their lodge room that they have just purchased of Messrs. Black & Schray, of their make. We have every assurance that the entertainment will be first-class, as the singers selected to take part are of the best in town, and they speak of Mr. Cady as understanding his business thoroughly.

FUN AMONG THE BOYS.—There was considerable sport on Front street Tuesday afternoon. George Samson having bought a load of wood remarked that he wished some boy would come along that he might hire him to carry that wood up stairs, when Salma Barmore proposed to carry it all up for \$1.25. The bargain made, and the money placed in Steve Wood's hands, he went to work, and after repeated offers and attempts to help him, an injunction by Wood, who claimed that half of the load belonged to him, it having been bought with the firm's money, and a reprimand by Barmore, he succeeded in finishing his job. The next thing was to collect his pay, which brought about one or two attachment suits, and on the whole Salma figures up that he has about \$4 worth of hardware as security for the pay for his work.

MESSRS. L. P. FOX, Geo. H. Richards and Wm. Pears attended the meeting, for the purpose of discussing the question of aiding the St. Joseph Valley railroad in extending its track from Berrien Springs to St. Joseph, held in the latter place last Thursday. They report the citizens of St. Joseph alive to their interests in this enterprise, and anxious to do their part toward the work. The company, by their secretary, offered to build the road to St. Joseph, for \$20,000 and the right of way from Berrien Springs. This looks to us in Buchanan as about \$10,000 too cheap, although the company are supposed to know pretty near what they want. The boat and dock owners in St. Joseph ought to raise the \$20,000 without asking any one else. We, in Buchanan, were obliged to raise \$30,000 for the road, and there is not a person here will be benefited by it as will either of the above in St. Joseph. We think there can not be a doubt but that the road will be completed to St. Joseph during the coming season.

THE President of the Home Mission Band informs us that our type made an error in her report last week. That where it read 11 yards of muslin it should have been 17 yards. This band has done a good work in assisting to provide for the wants of several dependent families during what has been a very severe winter for such people.

We have received a very pitiful letter from Mr. E. D. Pomeroy, the person alluded to in our temperance lecture of a few weeks since. He makes a number of denials to statements made in our account of his actions that we have every reason to believe are false. He denies having gone for provisions but that his house was provided with them. He doesn't say, however, that they were not cooked, nor that there was no means provided for doing that unless it be that his wife got up from her sick bed and do the work herself or depend upon neighbors for the help they proffered. He appears very prudent and acknowledges his wrong in the intemperate use of intoxicating drinks, and closes his quite lengthy letter with the following: "I am writing this with a clear brain, and if it would be any satisfaction to the temperance people of Buchanan to know, let me say for the sake of the little ones still left me and for my own sake over the grave of her I loved the best, I swear, never again to drink liquor in any form. That which she failed to accomplish in life, she has done in death. And now let me ask as a favor and kindness, to be left out of public print alone, with my sorrow and my dead."

HILL'S CORNERS ITEMS. Feb. 18, 1881. Hay is in good demand here. David Stevens is crowded with business in his shop. Some of the people from this place attended the wedding at New Troy last night. Mr. A. Pierce and Miss Myrtle Tiffany were the happy couple. John Hanover does all the horse shoeing in this place. It is intended by some to start a temperance society at the Corners soon. Elmer Adams is moving and will soon leave this section. The Hanover estate is about to be sold to Abram Weaver. Dr. J. H. Royce has gone to Grand Rapids. Understood he had been taken to Jackson. Plenty of new goods at the Hanover establishment. Dayton Mills furnishes the largest scholar that attends school in this place. Horace Morley, who went to labor in the pine woods, lately found himself in Ohio, and will soon return to Michigan. S.

ITEMS FROM DATTON. Mrs. S. K. Wilson is very low. Her many friends are waiting anxiously for her recovery. The ladies give a Washingtonian social in the hall Wednesday evening. We expect to see the little lad and also the cherry tree. In answer to the notice, the patrons of the school met on Tuesday night and decided most emphatically that John Fancher should not occupy the school house longer. He (John) came up Tuesday morning on the train, but he went back. The mill company is happy now. Such a fine stock of logs as they have on hand is enough to make any one glad. It looks like business. There is a great demand for houses in town, none vacant. Why not build some for renting purposes? Wilford Stryker left on Saturday for Lansing Agricultural College. It is Dr. Henderson who knows how to extract teeth. Joe Conover thinks so, if noise is any proof. "ESSAY."

COUNTY PRESS. [Berrien Springs Era.] St. Joseph and Benton Harbor are to be connected by a telephone exchange. Senator Mars informs us that it was a petition, not a bill, that he introduced in the legislature, and it was to have church property taxed and not to remove any tax. [St. Joseph Traveler-Herald.] Frozen champagne thawed out and then allowed to cool in the cold air came near making mince meat of a Mr. C. Campbell, of Detroit, by bursting and scattering the glass broadside at the Park hotel last week. Dr. Webster attended him and dressed his cuts. [Lake Shore Daily News.] A relic of the fire was found in the ruins of the Baptist church yesterday morning. One of the cups belonging to the communion service had melted into a triangular shape, and attached to this was a piece of the leaf belonging to a palm book. By the aid of a microscope the following was made out: "In my father's house I no longer dwell." [Berrien Springs Journal.] Mr. Severns of Kalamazoo, the attorney employed by Lincoln township to fight the railroad claim against them, has just sent in a bill for \$500 for services, and the people begin to think of a compromise. The supervisors of Cass county are publishing their business of 1880 in last week's papers, and the citizens of that county can see how their money was expended. Not so in Berrien county; the tax payer only knows that he pays in his money, but is not allowed to know where it goes to.

[Benton Harbor Times.] Lewis Umphrey, a prominent German, was killed yesterday while returning from Coloma, with a load of empty apple barrels. Driving down Cape's Hill the sleigh runner struck a stone and the barrels slipped, throwing him from the top of the load on the white snow, when the horses commenced kicking, striking him on the head and face. He was dragged about five rods. Accident occurred at 12 M., and death at 4 P. M. Aged 52 years. Deceased was born in Germany, and came to this country in 1848. Mr. Umphrey has been a resident of Water-ville township thirty-five years. Funeral services at the M. E. church, Bainbridge township, at 10 A. M., Feb. 19.

LOCALS. Wm. TRENBETH, Merchant Tailor over Noble's store, has over 600 samples of goods to select from, and in making up garments guarantees satisfaction. Call and see him. Best 5¢ cigar in town, at Weston's Drug Store. The Boss 50¢ Tea, at SMITH'S. The best Cigar in the market, Barmore's Favorites. Try one, 5¢.

KELOGG'S Columbia Oil is a powerful remedy, which can be taken internally as well as externally by the tenderest infant. It is most instantly, is pleasant, acting directly upon the nervous system, causing a sudden buoyancy of the mind. In short the wonderful effects of this most wonderful remedy cannot be explained in written words. A single dose is reported to have done for the suffering sick. It was donated by the doctor to the city of Lowell as a permanent and speaking emblem of the victories both of Science and Arms.—Hagerston (Md.) Press. The Greatest Medical Discovery of the Age.

Don't wait until you are nearly dead and bed-ridden. Don't wait until you have found out your sorrow, that mineral poisons and alcoholic stimulants, biters, etc., will only aggravate diseases of the blood, kidneys and liver. But now, before another day passes, make haste to procure the best and quickest cure ever discovered. Don't Make a Mistake. Why will you use salves and lotions, and other outward applications for the cure of skin diseases? The relief thus obtained can only be temporary. Why not strike at the root of all skin diseases by getting your blood and liver in a healthy, vigorous condition? This can only be done effectively and thoroughly by the use of Dr. Guyssot's Yellow Dock and Sarsaparilla. Many people think it cheaper to buy 25 cent sizes of a proprietary medicine. But they make a mistake. For instance, Dr. Wistar's Balsam of Wild Cherry costs about a dollar a bottle, a quantity of ordinary 25 cent cough balsams. Besides it takes a less quantity of Wistar's Balsam to cure a cold. A single dose is often sufficient. For deep seated Colds and Consumption it has proven itself to be the best and quickest cure ever discovered. Don't Make a Mistake. Why will you use salves and lotions, and other outward applications for the cure of skin diseases? The relief thus obtained can only be temporary. Why not strike at the root of all skin diseases by getting your blood and liver in a healthy, vigorous condition? For deep seated Colds and Consumption it has proven itself to be the best and quickest cure ever discovered. Don't Make a Mistake. Why will you use salves and lotions, and other outward applications for the cure of skin diseases? The relief thus obtained can only be temporary. Why not strike at the root of all skin diseases by getting your blood and liver in a healthy, vigorous condition? This can only be done effectively and thoroughly by the use of Dr. Guyssot's Yellow Dock and Sarsaparilla. Many people think it cheaper to buy 25 cent sizes of a proprietary medicine. But they make a mistake. For instance, Dr. Wistar's Balsam of Wild Cherry costs about a dollar a bottle, a quantity of ordinary 25 cent cough balsams. Besides it takes a less quantity of Wistar's Balsam to cure a cold. A single dose is often sufficient. For deep seated Colds and Consumption it has proven itself to be the best and quickest cure ever discovered. Don't Make a Mistake. An Ant-Bear.

At ant-bear, of the kind to be brought to America alive, lately arrived at New York from Brazil. A reporter of the World describes a visit to the animal, as follows: "The bear rose on its legs, showing a wonderfully elongated and narrow head. It is thickly covered with long, coarse hair, which on the tail is half-way between the filament of heavy wool and the sticks of a fan. The tail is used by the bear with commendable ingenuity as a blanket, being for that purpose brought around a half-circle and spread out sufficiently to entirely cover the body. Besides serving as a cover for warmth it hides the animal. Hunters not accustomed to the forests of Brazil would be much surprised to see a bear without knowing that it is a bear. The color is brown washed with gray on the head and face, and interspersed with pure white hairs on the head and hinder limbs. The throat is very black, and a long, triangular black mass crosses the animal from the throat, passing obliquely over the shoulders. Measuring from the tip of the snout to the end of the tail the bear is more than six feet in length. The head alone is one and a half, and the tail two feet long. The bear has four toes on the forefeet and five on the hind feet. The claws on the fore-feet are extremely long and curved and of no use in walking. They are used as a defense against stronger animals, and are very much planted in the flesh of human being the wound is apt to prove fatal. They are not, also, not to come out, so that the flying man can kill the bear by the desire to see the claws. The most dangerous way is to wind its snake-like head around the body of its foe. Its hug is particularly powerful. The bear turned his claws inward upon a thick, rough palm and walked on the outer edge of the fore-feet in a lazy, awkward manner to a box two feet away. The only indication of intelligence it displayed was in scratching the straw for a bed. It cannot walk long. The bear came from Para by the schooner Thomas Williams. Its owner, Mr. Reiche, has had it standing in cages for less than ten years, to pay a good sum for a live ant-bear, and this animal is the only one ever brought to the United States. It is a very curious animal while it was sleeping, which it is very capable of. Mr. Reiche is negotiating to sell it to the German Zoological Garden Company in Berlin for \$2,500. He says that no zoologist ever before has possessed a live ant-bear. The London Garden could keep one for only a week. It died in the garden.

Power of the Eye.

A story is told of Vin Amburge, the great lion tamer, now dead: On one occasion, while in a box-room, he was asked how he got his wonderful power over animals. He said: "It is by showing them that I'm not the least afraid of them. I'll give you an example of the power of the eye. I was sitting on a loutish fellow who was sitting near by, he said: 'You see that fellow? He's a regular clown. I'll make him come across the room to me and I won't say a word. I'll just look at him on and on, his keen, steady eye on the man. Presently the fellow straightened himself gradually, got up and came slowly over to the lion tamer. When he got close enough he drew back and said: 'You'll knock a tremendous blow under the chin, knocking him clear over the chair with the remark: 'You'll stare at me like that again, won't you?'"

Shutting up a Bachelor.

The baby didn't feel pretty good any more. Poor little thing, the mother was cross and glum, and the baby had only one way in which to express its emotions, so it cried. And how it did cry! Twenty minutes it wept, and no sign of a let up, and the tired mother just smothered it with baby talk and rocking the little thing in her arms. Presently a testy-looking old man, an out-bachelor, came in. He had just returned in his seat and snarled, "Can't you shut that child up?" The light that gleamed from her eyes was dangerous, as she hugged the baby a little closer and the old man shut up. "I can shut you up a great deal quicker." The howl of approbation went all over the car, and he "shut up" with the remark: "You'll stare at me like that again, won't you?"

The Patch Family's Fleas.

A New Hampshire family by the name of Patch has been free from fleas for five years from the wickedest fleas in existence. It appears that in 1876 a member of the family came from a seaport town in a second-hand suit of clothing. Shortly after he returned, he and three members of the household discovered the presence of a black insect. He burrows under the skin of the victim and tortures him day and night. Artificial heat makes him more lively, and hence the family have little or no fire in the house, preferring to endure the cold rather than a terrible burning and itching. They have baked their clothing, and tried internal and external remedies, and still get no relief. They are isolated from the community and in deep trouble.

Growth of the Hair.

There are three reasons why women's hair is longer than men's: First, she has no hair growth on her face, and so has a larger supply of hair-forming material for the scalp; second, the diameter of her hair being larger, it is less liable to break; third, being usually less engaged in mental labor or business work, she has a more constant and even supply of blood to the scalp. In nations where the fashion of long hair in the male is regarded as a protest against church and state, and against general customs, taste and thought, in America it is made a political offense to be so attired. The growth of the hair is the most rapid in the young and middle-aged, and in those living an outdoor life. At the age of 30 a man has long hair, and if his hair and beard have been close-trimmed, he has cut off six and a half inches of hair annually, or about thirty feet in all. The hair is the least destructible part of the body. The hair of the ancient Thebans is, after a lapse of 4,000 years, found to have survived the tombs. The Pyramids of Giza are crumbling, but some of the wigs of human hair, exposed to the mold and moisture of their entombed apartments, are less decayed than the mummies. The hair of the ancient Egyptians is still in existence. There are three coloring pigments to the hair—yellow, red and black, and all the shades are produced by the mixture of these three colors. In pure gold yellow hair, the red is the most abundant, and in dark, the black mixed with red and yellow; in the hair of the negro there is as much red pigment as in the reddest hair, and less black. The hair of the developed—perhaps by the action of the sun—the hair of all negroes would be as heavy a red as the reddest hair of an Englishman.

Sand-Showers in China.

Every year there are serious sand-showers in China when there is neither cloud nor fog in the sky, but the sun is scarcely visible, looking very much as when seen through smoked glass. The sand is filled with minute particles of eyes, nostrils and mouth, and often causing serious diseases of the eye. This dust, or sand, as the people call it, penetrates houses, reaching even apartments on the upper floors. Don't you see that the individual hairs of this race are finer than the hairs of the European. The curl in the negro's hair is caused by effect, during thousands of years, of a perpetual crimping-iron. Hairs do not, as a rule, penetrate the scalp perpendicular, but at an angle. When the angle is but a few degrees from the same, it is possible to give to it the easy sweeps and curves which we generally see it take; but if they are by some freak of nature misplaced, "we have the rebellions 'frizzled' hair, which is so susceptible to the irritation of the brush and comb." Many a poor mother has half-worried her life to try to train her John's rebellious locks into better ways, believing it was John's fault. The sand, which is that which induced such dilapidated-looking head-gear, when it was really none of Johnny's fault at all, but simply a freak of nature in a race of the pale-skinned centers of the "higher civilization." Sometimes fowls suffer from a contrary-wise placing of the feathers—they run the wrong way. The author's father had a hen which would not come toward the body, those on the body and neck toward the head. This gave her a perpetual "out of sorts" look and she could never fly. The erection of the hair of animals during anger in human beings in fright, is caused by a change in the skin and the angle at which the hair enters the head or body.

Line in the Tea-Kettle.

Every good housewife knows that an iron kettle used for heating water, that holds lime in solution, will, in a short time, become coated with that substance. This being a poor conductor of heat, it will, of course, take a longer time to heat the water than when the kettle was new. Copper or tin vessels do not become coated with lime, and it is for this reason that iron has an affinity for lime, which the other vessels have not. But this affinity can be overcome by coating the inner surface of the vessel with a compound of tannic acid and iron, which is insoluble in water and will not precipitate lime. This is easily done. Take a new tea-kettle and put a handful of oak bark into it, and keep it boiling for three or four hours, filling it up from time to time as the water boils away. The iron will get a jet-black coat of tannic acid, and will be proof against lime. This may be renewed from time to time, and it will keep the kettle from becoming coated with lime. A heat a little below that point will destroy the coating. If the lime has been fully removed from a tea-kettle it can be coated in the same manner as a new one, but will require a longer time, and perhaps it will be necessary to repeat the boiling two or three times. It is also said that one or two chemicals kept in the tea-kettle will prevent the lime from setting on the sides. The iron will get a jet-black coat of tannic acid, and will be proof against lime. This may be renewed from time to time, and it will keep the kettle from becoming coated with lime. A heat a little below that point will destroy the coating. If the lime has been fully removed from a tea-kettle it can be coated in the same manner as a new one, but will require a longer time, and perhaps it will be necessary to repeat the boiling two or three times. It is also said that one or two chemicals kept in the tea-kettle will prevent the lime from setting on the sides.

A Sharp Race.

All Armenians have the same strong, hard build; the same thick beetle eyes; the same full aquiline nose; springing directly, and without the intervention of any appreciable depression, from under the forehead; the same dark, lustrous eyes; the same dress of cloths on clothes, all dingy and baggy; the same large brown hand, and written in each curved finger-joint, in every line of the epaulet, plain, and more so, as they go. Shut up all the Jews and all the Armenians of the world together in one Exchange, old Rothschild is reported to have said, "and within half an hour I could tell which of them is an Armenian, and which is a Jew." Rather good, and very American.—Harper's Magazine.

ALL SORTS.

When a man gets tight, the devil generally gets loose. New linen may be embroidered more easily by rubbing it over with fine white soap; it prevents the thread from cracking. You can't suit a man anyway. He will scoff at the microscopic bonnet on the street, and growl at the aspiring one in the theater.—New York Graphic. This new pair of shoes came home for little Sweeney. He tried them on, and finding that his feet were in very close quarters, exclaimed: "O my! they are so tight I can't wink my toes." Good-morning, Patrick; you have got a new coat at last, but it seems to fit you rather too much. "Och, there's nothing surprising in that; sure, I wasn't there when I was measured for it." Mr. Sarrin, who has to give a scintilla of coal upstairs three times a day, reels with prospective joy at the announcement that the coal-fields of the world will be exhausted in 2,000 years. You're gone.—"Might I ask you, miss—'Tis Miss—'Tis very sorry, sir, but I'm engaged for the next three dances, Y. G.—"It is not dancing—it is—it's—beg your pardon, miss; you are sitting on my hat."

W. H. TALBOT, MACHINIST.

The Haskins Engine, Gardner Governor, Utica Steam Gauge. Engines, Threshing Machines, Wood Sawing Machines, Horse Powers, Mowing, Reaping and other Machines repaired. Cider Mill Screws, Saw Arbors, &c., &c., made to order. Shafting, Pulleys, Hangers, Couplings and mill supplies furnished on short notice. Shop on Chicago street, near mill race.

Ayer's Hair Vigor.

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR. It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brassy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

WYMAN & CO.,

Have the facilities for selling goods cheaper than any one that has not a similar system. We are selling goods cheap now. We sell goods cheap all the time. Will you call when in South Bend and see the cheapest goods in the market, and the largest stock in each department we ever have shown?
