HER PORTRAIT.

Oh, she wears a sea-king's noose When it snows; And her stanning suit is black As a crow's.

RECORD RAKINGS.

Bernhardt is accompanied by three of Pinkerton's detectives, to prevent the robbery of her valuables.

IN PRIVATE, ENEMIES; IN PUBLIC, FRIENDS.

Modern civilization has decreed that no quarrel shall hold good during the progress of a dinner, ball, or any social entertainment whatever.

A BIRD BONANZA.

Down near Old Rocky Hill, Ky., one mile near Settle's mill, on the farm of Mr. Peter Smith, is a rock that equals the pigeon roost of old times.

KIND WORDS NEVER DIE.

An elderly stranger bought a copy of the News from a newsboy and handed him a quarter, but upon the boy's hunting for change the old gentleman said: "Never mind the change sonny, just keep it for yourself."

GASOLINE.

Gasoline is the most dangerous compound, and requires to be very carefully handled. It is the spirits of petroleum.

ROMANCE OF A POCKETBOOK.

It was just twenty-five years ago that Alice Thorne, the daughter and heiress of George Thorne, the great banker.

POLITENESS.

Politeness is something that costs very little, and yet it yields a rich return in all walks of life.

LIVES LOST BY TALKING.

Ettinger, Erb and Meyer, who have been sentenced to death for murder at Snyder, Penn., owe their conviction to their own talking.

SEE HERE, YOUNG MAN!

Many of the young men nowadays are looking around for "a job" which will give them a "fix."

A LITERARY BEAT.

"Where were you last night?" said the Judge the other day to a prisoner.

HER PORTRAIT.

Oh, she wears a sea-king's noose When it snows; And her stanning suit is black As a crow's.

MAIN NEWS.

Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints.

PORTLAND AD.

The Rev. Mr. Talmage said in Sunday's sermon that if when he reached Heaven, he found less than 100,000 souls there saved by his ministry, he would ask permission to come back and finish his work.

Berrien Co. Record.

JOHN G. HOLMES, Editor. THURSDAY, MARCH 3, 1881.

Republican State Ticket.

For Justice of the Supreme Court, ISAAC MARSTON. For Regents of the University, JAMES F. JOY, AUSTIN BLAIR.

86 in the shade and ladies dressed in white is the news from Florida.

Dr. R. V. Pierce's palace hotel, in Buffalo, New York, that cost him \$500,000, is now in ashes.

To-morrow the present Congress will go out on a shutter and a whole country will rejoice.

It has cost the State of Michigan \$5,145.66 for attorney's fees in the Rose-Douglas university case.

Jeff. Davis dedicates his forthcoming history of the rebellion to the widows and orphans of the Confederate dead.

"The worst snow storm in twenty years" is the report that comes from Chicago this morning. The mail train is three hours late at this place.

Between the 21st and 20th of February the national banks have deposited \$11,116,190 in legal tenders for the purpose of retiring their circulation.

The legislature of Arkansas says it must hereafter be pronounced Arkansas. We may soon expect to see Kansas, and Massachusetts.

President Hayes has nominated John L. Frisbie, of this State, special consul at Rio Grande, to be United States consul at Rheims.

A bill has been introduced in the Missouri legislature forbidding the consolidation of parallel or competing railroads or the purchase of one by the other.

Prohibition appears to have no better success in Indiana than in this State. There is reason for believing that it should not have as good.

The Evening News quotes scripture to the Ypsilanti Commercial. Wonder if the News editor hasn't learned ere this that all such efforts are lost.

The Michigan Republicans turn over a valuable leaf by placing in nomination men of the best ability for Regents of the University this year.

None among the Michigan National Banks appear in the list of those proposing to give up their charter on account of the passage of the funding bill.

The decrease in the public debt during President Hayes' administration has been \$208,824,730, and the decrease of annual interest charge during the same time, \$17,557,708.

The Minnesota State House at St. Paul was destroyed by fire Tuesday. The members of the legislature escaped by the aid of firemen's ladders. Loss on building \$100,000, beside a library which cannot be replaced.

The Detroit Free Press is bound to have R. A. Beal "Boss" of Michigan Republicans. Wonder how long the Free Press will have to live to learn that Michigan Republicans have no bosses.

During the short month of February the National debt was reduced \$11,848,155. Surely there ought to be no grumbling at this. The reduction since June 30, 1880, has been \$62,218,852.

Senator Matt. Carpenter, of Wisconsin, died at his residence in Washington last Thursday morning. Mr. Carpenter was a stalwart Republican and one of the leading men of the Senate and of the United States bar.

A vote of the House, in Lansing, taken last Thursday, on the prohibition question failed by four votes of getting the necessary two-thirds to carry the question of amendment to the people, which settles that matter for the present.

Chicago very kindly informs New York that unless she shows more interest in the World's Fair for 1883 she will take the contract off her hands and warrant to make it a success. Chicago has a good reputation for such things.

Memphis is able to spend \$300,000 in Mardi Gras tomfoolery, but is too poor to pay the interest on her debt, or lay sewers in her streets. The high honesty and great business ability exhibited by that city is complimented by the whole country. She is gaining an enviable reputation.

The refunding bill is having the effect to cause many of the prominent national banks to withdraw their circulation rather than continue the national banking business under its provisions. Among others taking this step are the First National Bank of Syracuse, \$200,000 circulation, National Exchange, Albany, an equal amount, besides others. The effect already is and will continue to be a painful stringency in the money market, that the country does not want at this time.

Probably the worst bamboozled set of people on any one question, in the world, is the inhabitants of the State of Michigan in the matter of illuminating oil. So near as the Record is able to learn we are able to get oil in just one place in the world, and that of the Standard Oil Co. of Cleveland, take what they cannot sell to any one else for any price and pay them about three times as much as people in other States do for good oil. This appears to the Record to be a bonanza worth the while of some of our leading men.

One way in which the legislature can best make this State happy is to raise the dog tax to the value of a good dog, say \$3 or \$5 each, and then make it the duty of the collector of taxes to shoot the dog if the tax is not collected. The man who has a good dog that is worth to him the tax will not object to paying it, and the effect would be to rid the country of the army of worthless curs it now contains.

Norvin Green, President of the Western Union Telegraph Company, makes affidavit that his company has, since September, 1877, practically owned the Atlantic and Pacific telegraph company, and has controlled it as completely as it could be done after consolidation. "Where ignorance is bliss, 'tis folly to be wise." If the fact had not been published by the recent "consolidation" the whole country would have been happy.

In the Senate, Mr. Beck has introduced a bill authorizing the issue of circulating notes of denominations not less than \$20, in exchange for gold coin in sums of \$10,000 or more, the gold to be held in the Treasury for the redemption of the notes, and for no other purpose. It provides that the notes so issued shall be legal tender for all indebtedness. This bill of Mr. Beck should not be allowed to become a law. The needs of the country's business call for coins and bills of small denominations. Of these the gold circulation is mostly \$10, \$5, and \$2.50 pieces; but instead of replacing these with redeemable paper circulation of like denominations it proposes to withdraw all of these from circulation and replace them with bills of \$20 or more in denomination that will be practically useless to the mass of traders. This objection alone should kill the bill where it is.

The Lansing Republican has the following on the proposition to submit to a vote of the people the question of a prohibitory amendment to the Constitution. We do not understand the Republican to favor prohibition as the best means of doing away with the traffic, but favors submitting the vote.

"Not one Democrat in the House of Representatives and only one in the Senate has ever voted for the submission of the liquor amendment to the people. The chief organ of the party, the Detroit Free Press, exults over the resolution of the Republican State Convention that this amendment ought to be submitted. As a party, the Democracy have always taken in their platform that side which would be most pleasing to the wisest interest. The Republicans who train with this should remember the fate of all men who have been induced to hinder or prevent the expression of popular sentiment in constitutional ways. The issue in the Republican platform is not prohibition vs. tax law, but legislative authority vs. popular sovereignty."

Following are the resolutions adopted by the Republican State Convention held in Lansing Feb. 23, and with which the Republicans enter the battle as a platform: "Resolved, That we congratulate the people of the republic and the State upon the signal victory of the Republican party in the campaign of 1880, and we pledge our support to the party and the people as the means of continuing our eminent judiciary and brilliant university."

ABOUT thirty-five of Jay G. Du Bois' friends called upon him rather unexpectedly, Tuesday evening, and after making a severe raid on a table full of confectionery that had been prepared for the occasion, spent a few hours in fun, and presented Jay with a fine silver castor and a watch chain. This was all on account of it being Jay's birthday, No. 74, as near as they could calculate. February 29 is the exact day when that occurs.

JUDICIAL CONVENTION.—The Republican Judicial Convention for this district, composed of the counties of Berrien and Cass, was held at Niles yesterday, (Wednesday) and organized by choosing O. W. Coolidge, of Berrien, as Chairman, and E. H. Jones, of Cass, Secretary. A full representation of delegates was present. Judge A. J. Smith, the present incumbent, was nominated by acclamation. The following Judicial Committee was appointed: E. M. Plimpton, W. J. Gilbert, R. D. Dix, of Berrien, E. H. Jones and S. T. Ryan, of Cass.

The annual convention of Path Masters of this county is to be held in Berrien Springs, March 25. The programme, which will be announced as soon as the participants have been decided upon, will be one that will be of interest to every inhabitant of the State who travels on the public highway, and there should be a general attendance both of path masters and of those who are in any way liable to become path masters. The questions to be discussed will be dealt with by men who are well qualified to discuss them, and every means employed to make the meeting an interesting one.

OUR readers undoubtedly notice ere this that the Record does its own typesetting now, instead of depending upon Chicago for that on the first and fourth pages, as we have in the two years past. We have an idea that we can edit our own paper better than it can be done by the wholesale in the city and returned to country ways and means. This places upon ye editor more work and greater expense, but we expect by the change to make the Record better than it has ever been, and we trust that the extra effort to make a good readable paper will be appreciated.

As will be seen by the proceedings in another column, the question of clearing Day's avenue of hay scales came up for discussion at the Council meeting Friday evening, and the committee reported that they wanted more time to study on the matter. This will carry the question over until after the election and will let one member of the committee out. There appears to be one or two obstacles in their way. One is that they are afraid to say "yes" or "no" lest they hurt some one's feelings, and another is that they find in front of nearly every business house in town, and about the several shops and factories, obstructions, such as dry goods boxes, oyster pails, finishing and unfinished wagons, luggies and cutters about the lively stables, and other things too numerous to mention, and they fear that if they commence removing they will never get a chance to quit. There appears but one way out and that is to say no, with a big "X."

THERE is some talk of a move to have about ten sections of the west side of Niles township set off from that township and made a part of Buchanan. A portion of that always belonged to Buchanan, is numbered with Buchanan, and ought to pay their taxes into the Buchanan treasury. The majority of the property holders in the whole ten sections are willing to have the change made—they all trade in Buchanan. Those who live in this township are in favor of that section of the county being a part of Buchanan; and taken as a whole the change would not be entirely out of order. The change cannot be made this year as the legislature has its full load of business for this term and cannot take on any more, but we mistrust that that change will be made at the next meeting of the legislature, and the pros and cons can be discussed in the meantime.

Why?—Why is it that nothing is being done to decrease our village indebtedness? Why was not the \$300 received in payment of the Pennell claim applied on indebtedness instead of placing it to account of the general fund? and, why can't somebody tell where it is now? Why does not our board provide a sinking fund or some other kind of a fund and pay it off, instead of paying eight per cent. interest on \$3,000 or more and instead of raising by tax barely enough to defray current expenses, or less, each year on the score of economy, rather than have some one complain because his tax has been raised a few cents? Why can we not elect a board next Tuesday who will attend to this important part of the village business? Let every man turn out to the caucuses and see that the right kind of men are placed in nomination, and then go to the polls and see that they are elected. There is no sensible reason why we should be paying interest year after year, or allow it to accumulate.

The two fellows who have been running the picture and bracket establishment in the Nash building the past week, left for Dowagiac yesterday. They scraped together a considerable amount of the ready cash of this vicinity. It seems strange that people will go to such places and buy many things that they do not want simply because they think it is cheap when they actually pay full price for it and a good percent more, rather than buy of local dealers at less rate, simply because the manager keeps his mouth open and a noise coming from it all of the time. Go there and buy four lead pencils for ten cents that could have been bought at any store in town, where you could find the same quality for fifteen cents per dozen or two cents each. Pay them sixty cents for a bracket that could be had at any established furniture store for forty; and many other things in proportion. It is an intangible rule that such fellows do not travel about from town to town for nothing, nor to give their goods away. You may say they sell things that cannot be had at other places, which is true. Local dealers almost always keep a better quality of goods.

How Not to Use Lime.—Lime is not a good material to mix with animal manures; it has a tendency to separate and throw off the ammonia; therefore, unless a considerable quantity of dry earth is mixed with the manure, the lime reduces rather than increases the value of manure. If one has large quantities of good muck, with plenty of lime, and a farm with a light soil, it would be desirable and profitable to mix lime with the muck, or in some cases to mix muck with the manure in small quantities.

STATE ITEMS. 224 weddings in Clinton county in 1880. In Ovid dry wood sells for \$1.50 and green for \$1. per cord. Decatur dealers advertise kerosene for 20 cents per gallon. About \$200, damages has recently been done to the stalls of the Cass county fair grounds at Cassopolis by fire. Vassar has voted to spend \$5,000 in building an addition to their high school building. Howard City and Ludington are having a tussel with the small-pox. Ionia wants a new court house so they can conduct murder trials in some kind of style. Owasco people are petitioning the Legislature to pass the bill licensing the engineers of stationary engines. East Saginaw has appealed to the Post Office Department for a free letter delivery. A Cassopolis man drew with one team a sycamore log that weighed over five tons, three and one-half miles, and now brags about it. Addison Beckwith, of Hartford, Van Buren County, becomes suddenly wealthy by the death of a brother in California. A dog belonging to A. O. Revengnah bit a little girl named Saxon in Jackson a few days ago through the lip, and shortly after died of poison. The First National Bank of Holly, recently realized a profit of \$5,400 from the advance in price of United States four per cent. bonds. A Cass county man cut a poplar tree that measured five feet and ten inches across the stump, inside the bark, and 76 feet to the first limb. R. D. Bullock, the big music man of Jackson, goeth about persuading the young men not to drink or use tobacco. And that is not all; he has rare success in his appeals. Cassopolis village has contracted for a tubular well, with windmill and two tanks, for public use, to be located at the street corner. The whole outfit costs them \$97, and \$1.25 per foot for the well. People in Kent county talk as if they thought that papers containing accounts of the Addis divorce case, at Grand Rapids, ought to be excluded from the mail as obscene literature. The supervisors of Macomb county have determined to submit to the votes of the people, this spring, a proposition to build a \$10,000 county jail at Mt. Clemens. You have heard of Henry Clay. It was he who said—"I would rather be right than President." And he was right. But, alas, alas! He has just eloped with two colored wives in Grand Rapids, and the heart of Africa is crushed.—Lansing Journal.

Mrs. Barnard, who was arraigned for the murder of Mrs. Curtis, of Lapeer, by pouring gasoline over her and setting it on fire, has been liberated on giving \$15,000 bail. Our understanding of the Michigan laws was that murder was not a bailable offence. It appears different, however. A Galesburg smarty thought he would have some sport with the new operator, and collecting some friends to witness the sport he pretended to go into a fit. The operator lost no time in deluging him with ice cold water, and the joker got out of his fit and the telegraph office at a single bound, a weter and a wiser man.

Judge C. B. Mills, secretary and treasurer of Hillsdale college, has gone to Concord, N. H., to see about the transfer of \$17,000, a donation of the Free Will Baptists educational society to Hillsdale college. This makes \$32,000 added to the endowment fund of the college within the last six months, the \$15,000 being the gift of the Waldron estate.

The St. Ignace Republican complains of "tarry apples," and explains: Perhaps our readers would like to know what they are. Some of the cellars here are lined with tarred paper, and apples are kept there in barrels. The tarry air is absorbed into the apples. We would not have believed this possible had we been told so, but the stomach can't be fooled out of a truth so glaring.

The return of marriages solemnized in Bay county during the year 1880 number only 218.—Less than one half of the marriages. More than twice that number was returned for 1879. We are credibly informed that there is one minister of the gospel who has made no returns of marriages since he has resided in the city, and also that one of the Justices of the Peace who has also returned no marriages solemnized by him during his term of office.—Bay City Tribune.

Afraid of the Camera. In the Indian Territory a fair was held some time ago to show some of the results of civilizing the savages. A number of tribes attended, and displayed articles of home manufacture, such as needlework, embroidery, &c. &c. &c. Many of the Indians had their photographs taken, and showed a childish delight in looking at their faces. Others, however, could not be persuaded to go near the camera. Yellow Bear, of the Arapahoes, was the first to pass through the ordeal of a sitting. He suffered himself to be properly seated, and the camera brought to bear upon him for the first time. But when the prepared plate was placed in the box and the cloth lifted, he leaped to his feet with a bound, and attempted to leave the tent. A sample of his reason with him failed. At last a photograph of a Cheyenne warrior was shown him, upon which he went quietly back to his chair, and sat there like a statue till his negative was taken. He explained that he did not care for the camera, but that he did care for the Arapahoes, and that he would never offend them.

How Not to Use Lime.—Lime is not a good material to mix with animal manures; it has a tendency to separate and throw off the ammonia; therefore, unless a considerable quantity of dry earth is mixed with the manure, the lime reduces rather than increases the value of manure. If one has large quantities of good muck, with plenty of lime, and a farm with a light soil, it would be desirable and profitable to mix lime with the muck, or in some cases to mix muck with the manure in small quantities.

Berrien Co. Record.

THURSDAY, MARCH 3, 1881

Entered at the Post-Office at Buchanan, Mich., as Second-Class Matter.

SUBSCRIBERS' RECEIPTS.

We wish all our subscribers to be particularly... notice the date against their names upon their bills...

NOBLE NEW GOODS

IS GETTING IN SOME NOBLE NEW GOODS For Spring. We have a new department.

No Trust!

But will sell goods for a less per cent, trusting that we can better.

Please Ourselves and our Customers Thereby.

Registration Notice.

Notice is hereby given that the Village Board of Buchanan has been organized...

Village Election Notice.

Notice is hereby given that the annual election of the Village Board will be held in Buchanan...

Village Cautions.

The voters of the Village of Buchanan are invited to meet at Rough's Opera House on Saturday evening, March 5, 1881...

By Order of Committee.

This is only lent. ARE YOU GOING TO WASHINGTON?

WELL, was it the lion or lamb, or couldn't you tell?

THERE are five wardens at the Clark house in Berrien Springs.

A NEW advertisement for C. C. Digging appears in this paper.

MR. WARREN CHAPMAN, of St. Joseph, was in this city Tuesday.

MR. T. M. FULTON, of Hyde Park, Ill., was in Buchanan Tuesday.

THE VILLAGE BOARD is getting around this way very soon.

A SLEET storm last night and more snow to-day is the weather report.

We take it all back. There is only one Mrs. in this King's family.

ACCORDING to the Review, there is a female undertaker in Bourbon, Ind.

MR. JOHN FERRY, a former resident of Buchanan, was in town Tuesday.

Charles H. Potter, of Pipestone, was found dead in the woods last Wednesday night.—Etc.

THERE ought to be no dissatisfaction because of our not having cold weather enough this winter.

THIS is the 13th day of sleighing in Buchanan, and the prospect good for half as many more.

SEVERAL go from this place this evening to hear the Mendelssohn club in Niles.

THE first thunder and lightning for this year made its appearance last Saturday.

BENTON HARBOR is to have a potato, lye and soap factory. No comments or puns allowed.

THE Lake Shore Daily News has been sold to L. J. Merchant, publisher of the Traveler-Herald.

MISS EDNA M. MARTON, of Sheldon, Ill., is in this place for a visit with her sister, Mrs. D. Weston.

MISS KATIE RICHARDS, who has been confined to her room.

MR. ARTHUR HAIN, night operator for the Michigan Central railroad at Detroit, was in this place Saturday.

A PUBLIC examination of teachers will be held at the Lacey school house in this township, Saturday, March 12.

THE beauty of Michigan climate is a quality we have for telling what weather is to be, so far ahead.

A railroad aid subscription of Elkens is said to have fallen through.—Harbor Times.

THE last load of students from Valparaiso, Ind., made Mr. J. B. Wells a busy man. They returned on Saturday.

THE next of the Home Mission Board will be held at the residence of J. J. Row, on Saturday afternoon at 7 o'clock.

MR. THOMAS H. KINYON, who has been the employer of Kinyon for some time as a business man, is planning to leave here and to place his position in business elsewhere. His place at Kinyon's will be filled by Mr. Ira Emmons.

THE corner on eyes is about broken and they can soon form an important part of the bill of fare of people of ordinary means.

THERE appears to be no lack of applicants for the district summer schools in this vicinity, there being from one to a dozen to each school.

THE case against J. W. Fancher was decided Tuesday by the Justice discharging him for the present, on the evidence of the complaint.

SOUTH BEND people think they have a good prospect of the I. P. & C. Company extending their railroad from Plymouth to their town.

NYLES has a claim by W. A. Sigerson for damages to a horse by getting his foot through a hole in a bridge, causing the loss of the team three days.

MR. J. W. SYDNER has gone to North Manchester, Ind., where he has secured steady employment by a contractor and builder for the coming season.

WE receive calls nearly every day for houses to rent. If any one has anything of the kind they will greatly oblige by reporting.

MR. H. N. MOWREY takes advantage of the reduction in fare to Washington to visit his old home near Winchester, in the Shenandoah Valley, Virginia.

THE subject of discourse in the Presbyterian church next Sabbath evening will be "Intemperance and Prohibition," by the pastor.

JACOB BRENNER drew 93 bushels of wheat from Berrien township to Niles at one load with one team. Haven't heard from the horses yet.

POST MASTER ALEXANDER returned Saturday morning from his trip to New York State, where he had been on business of an estate in which he is interested.

AN exchange advises the man who quits advertising to save expenses to draw in his sign as the next economical move, to keep it from being worn by the weather.

MR. THOMAS GILBERT and wife, of Minneapolis, Minn., who have been visiting in this place for several weeks past, left for their home yesterday morning.

ONE day not long since Mr. J. B. Wells, of Cottage Hill, took some jars, to South Bend to sell, and while he was making his sale some one carried away one of the jars.

TEMPERANCE people should attend the caucus Saturday evening. The other side will be represented, and it is no more than fair that the house should be at least equally divided.

MR. W. MOWREY has bought a stock of boots and shoes, and expects to open a boot and shoe store in connection with his shop as soon as he is able to secure a suitable room for both.

THE Young People's Association entertainment in Niles last Thursday evening was rather slimly attended. A skating rink was in operation on the opposite side of the street.

WATER from the race came near driving N. Hamilton's folks out of the house Monday night. They found too much of the creek water in their well for drinking purposes.

THE lumber for the new building for the Excelsior Manufacturing Company has arrived, and the building will be erected as soon as the weather will permit.

DON'T forget that if you want to vote next Tuesday you must register Saturday, unless you have already registered on the village books. Having your name on the township book will not entitle you to a vote.

MRS. S. K. WILSON died at her home in Dayton, Monday afternoon, after a sickness of several weeks. She was missed by a large circle of friends, as she was a general favorite with all who knew her.

TREASURER SMITH expects to settle up with the county for Buchanan township taxes in a short time now, and wishes those who have not already settled with him to know that time's up.

WE find the following in the Evening News: Mrs. Sarah Howe, of Buchanan, is highly complimented for an essay on "Home and its adornment," read at the Cass county farmer's institute. She manages a large farm very successfully.

IT was amusing to note the suddenness with which Bill Palmer sat down on the brick sidewalk at the Tremont house Saturday morning, after having selected a place that exactly suited him.

THE long, fine, straight timber for the Excelsior Manufacturing Company's new building came from Than Hamilton's farm in Bertrand township. He has the finest lot of tall straight trees in this vicinity.

CITIZENS of Buchanan: After serving you for three years in succession, as Marshal and Street Commissioner, I would say, that if elected, I would serve you one more year. Yours, with respect, H. N. HATHAWAY.

WE have received the first number of the Bourbon, Indiana, Review, by J. C. Waite. It starts with a very liberal patronage of local advertising, a well filled local page, and shows signs of prosperity that are encouraging.

MR. L. S. GILLETTE, of Bertrand township, received a visit of dogs among his sheep, last Friday night. This is the third call they have made his flock this winter.

ONE night last week some of the boys attempted a little game of scare on Earnest Russell by playing burglar and mixing in a little shooting. We have heard of fellows getting just badly enough scared in such places to make wretched work for the jokers. Pretty dangerous business.

ON account of the storm last Sunday, the Illustrated Sermon on "Stephen, The First Martyr," was postponed by Elder Wright till next Sunday evening. A cordial invitation is extended to all by the church and pastor.

MR. LACE WOOSTER, of the Dowagiac Times, who was injured by a railroad smash-up at Decatur a few weeks since, settled with the company through his attorney, Attorney General Van Riper, last Friday, the company paying him \$5,500.

SUDDEN DEATH.—Mrs. Van Vliet died very suddenly at the residence of her daughter, Mrs. Josiah Striker, on Terre Coupee prairie, on Wednesday night of last week. She retired that evening in apparent good health, but when next noticed by the family, a few hours later, was dead.

THERE was a snip in the back of winter last Saturday, the foot or more of snow and excellent sleighing that were on the ground disappeared very rapidly. It mended, however, with equal rapidity during Sunday night, and Monday morning found good sleighing once more.

AN amendment to the river and harbor appropriation bill has been secured by our representative in Congress, providing for an improvement of the river and harbor at St. Joseph and Benton Harbor. So says the Palladium.

THE telephone talk at St. Joseph now contemplates including both towns, and will probably succeed in that way. Hope it will, for we want to see the whole county connected by telephone.

A LATE change in the river and harbor appropriation bill adds \$15,000 to the amount to be used at Michigan City inner harbor, and \$25,000 increase on the amount to be spent on the river and harbor at St. Joseph and Benton Harbor.

A CARD.

I wish to express my heartfelt thanks to the people and new church of Garden for their bounty and good will, as manifested on Wednesday evening, the 23rd inst. at the Redding house. May grace, peace and plenty abide with them forever. J. WILKINSON. MORGAN PARK, Ill., Feb. 23.

STILL the people who live on the east of Berrien Springs continue to howl because the St. Joseph river runs over about half of a mile of the road nearest the river bridge, in some places three or four feet deep, at high water. They act as if they thought howling would stop it, but it will not.

MR. W. H. HASLETT lost one of his old friends by death last Friday night. It was his old horse, that had done faithful service for Mr. H. about twenty-five years, having retired from active duty about seven years ago. He was thirty-two years old and the property of Mr. Haslett during that time.

A LATE copy of the Walkerton, Ind., Republican contains an extended account of the closing exercises of the high school in that place, under the supervision of Prof. J. A. Jones, of this place, who has had charge of the school the past term.

THE fire department wishes us to state that they return their heartfelt thanks to Rough Bros., Buchanan Cornet Band, H. N. Hathaway, John Hamilton and W. H. Cox, for services rendered at the mask social held on Wednesday evening, Feb. 10.

SOME of the residents of Berrien street have an idea that they would like to have that street opened, to connect with the highway south of the Michigan Central railroad. Such a change would tend to enhance the value of property on that street, and need not incur a very heavy expense.

ABOUT sixty of the friends and neighbors of Josiah Rhodes surprised him last Thursday evening, by coming in upon him like an army. He is to move to near Edwardsburg to-day, and they thought that they might as well have some fun with him before he went.

THE Democratic caucus, held in Justice Dick's office Saturday, appointed the following delegates to attend the Democratic county convention held at Berrien Springs yesterday: R. V. Clark, John Mansfield, Dr. Pierce, John C. Dick, Geo. H. Richards, Jacob Imhoff, Hiram Baker, S. W. Redden, Wm. Osborn, John Searls, Wm. B. Hoag and Wm. Batson.

THERE is a good building, about 30 by 80 feet square, and two stories high, in this place, that can be had cheap, for any manufacturing enterprise that may be started here. It would be a good building for a knitting establishment or something else. Correspondence solicited.

QUEER PETS.—Mr. B. T. Morley has some rather peculiar pets making their home in his office in the Star Foundry. They are four mice, that he has taken pains to feed during the cold winter weather, and now has them so tame that they will come at the sound of his whistling, climb upon his lap and eat from his hand.

THE last number of the Scientific American contains an illustration and minute description of a hatching, rooting and combing device for the use of workers in hair goods, recently patented by Mr. Aaron D. Cheney of Three Oaks, Michigan. It is a very simple arrangement, but does the work to perfection.

THE long continued dispute between the Niles Republican and Mirror, about who furnished the most reading matter, has at last been settled. The editor of the Journal has measured them both, and finds the Republican 6,500 eyes ahead, and this, too, without taking quality into account.

A LITTLE game of fistcut and knockdown was the cause of a case before Justice Dick, yesterday afternoon. Van Buren Glendenen was the complainant, and John Huss the one that knocked him down. The Justice thought that ought to be worth about \$5 and costs, amounting in all to \$10.25, and assessed him accordingly.

Buchanan Schools.

Table with columns: No. Enrolled, No. Attending, No. Rec-enters, etc. for Buchanan Schools.

Whole number enrolled to date, 461. Whole number of non-resident pupils, 26. Number of visits for month, 53. J. F. JORDAN, Principal.

NEW LODGE.—Nucleus Lodge No. 348, I. O. O. F., was instituted at Berrien Centre on Saturday last, by Capt. B. F. Rounds, G. C., assisted by members from the Lodges at Benton Harbor, Buchanan, Niles, Berrien Springs, Pokagon, Dowagiac, Coloma, Keeler and Paw Paw. The new Lodge starts out with twenty-five charter members, and nineteen candidates were initiated at the first meeting, thus making forty-four members to start with. Their Lodge room is one of the finest in the county, is finely carpeted, seated with chairs, furnished with fine furniture, and the walls covered with pictures. With its present fine start Nucleus Lodge cannot help but become one of the best in Berrien county. The following are its first officers:

Norman Nims, N. G. J. J. Murphy, V. G. Warren Mr. Daniel, R. Sec. J. L. Bishop, P. Sec. Jacob Brenner, Treas. C. A. Ireland, W. Z. Shaffer, Con. Lewis Lamore, R. S. N. G. Averil Michael, L. S. N. G. Thomas Jones, R. S. V. G. W. E. Peck, L. S. V. G. Giles Swink, R. S. S. Isaac Murphy, L. S. S. W. A. Hess, L. G. E. Cooke, O. G.

ITEMS FROM HILL'S CORNERS. Feb. 25, 1881. Farmers' institute to be held here to-morrow, Feb. 26. The youngest child of George Penell was buried this week. J. B. Cornwall is about to sell his farm. He will go to Niles to live. It is estimated that the expense of building the new church, which is now in operation, after the proposed plan will be \$1,000. It is talked by some that a Grange store will be opened here at no distant day.

THE County Clerk, with some of his friends, was in town this week. Dr. Sober has sold his farm situated in Lake township to G. W. Sober, and takes for pay \$1,400. Mrs. Giles Strong is again afflicted with what they suppose to be a cancer, situated this time in the region of the neck. They have consulted a few operators but don't like their prices. W. J. Jones will soon leave our place to go to his home and engage in a different calling—that of farming. S.

DAYTON ITEMS The Washingtonian social was a success. The receipts of the evening were \$22. The writing school we alluded to some time ago is in full blast. The recent thaw caused considerable surprise with some of our towns people. They had no idea there were so many logs in the market. B. F. Needham knows all about it, though. The friends of Wesley Redding made him happy Friday evening, last, by filling his house to overflowing. Music, mirth and merriment were the features of the evening, followed by a bountiful repast. This week closes many of our district schools. We regret this as it will be lonely without the boys on Saturdays. "Some griefs gnaw deep, some others are hard to bear." Oh, give us butter; we must have butter. Miss Annie Conant is in town visiting friends. G. R. Hall came up Saturday a. m. to see the P. M. George, don't stay away so long again. Nearly every one knows how hard it rained all day Sunday, and what a change took place in the evening. Then it is such a treat to have sleighing again. "ESSAY."

ITEMS FROM GALEEN. The donation held for the benefit of Rev. Wilkinson passed off in good order. The following amounts were received: For silver tickets, \$19.75; for one cake sold, \$12.25; for neckties, 65 cents; outside donations, \$5.90. After paying the expenses of the supper the net receipts were \$30.21. Miss Dora DeArmond received the prize cake. Our warm weather caught a terrible cold on Sunday evening. One of the worst storms this winter visited us on Sunday night and Monday. The roads are drifted very badly in places. The fellows who bought two super tickets at the donation with that bogus half dollar would steal the pennies off from a dead man's eyes if he had as good a chance as he did in passing that money in the hurry and jam to get tickets. Peter Critchet is going to move back onto his place in the spring. He has bought him a span of horses and a new wagon, and getting ready for farming again. The gayest pair of bobs ever brought to Galeen. Peter Critchet got down in Indiana. No one but a Hoosier could ever make the likes. Some one said Oliver Hullett and Z. P. Redding were trying to get them to use in the livery business. John Mell is getting much better. He has been very sick with typhoid fever. Quite a large amount of lumber is being shipped from this station. S. Washburn is going east on a visit. Why don't our marshal have the sidewalks cleared of snow? NIDROD.

HERBERT AND MABEL SMITH spent Sunday in St. Joseph, visiting their sisters, Della and Emma Smith, who are teachers in the Union School of that village. Additional locals on second page.

LOCALS.

New Goods arriving this week at FULTON'S.

When visiting Niles, if you have any old jewelry, take it to J. Crocker Brown, one door east of the Citizens' National Bank, with W. G. Blish, and have it worked over into new.

\$400 worth of Prints that are beautiful, at High's only. A few pair of these wool lined Boots left; will be sold CHEAP. J. K. Woods.

Wait, Wait, Wait for Fulton's New Goods.

500 Corsets to select from, only found at HIGH'S.

\$300 Dollars worth of New Goods en route for FULTON'S.

THREE OAKS ITEMS.

This has been a good winter for business and socials. The Baptist meetings will continue through this week. Capt. T. C. Bradley and family return to Three Oaks March 4. A. B. Wright has an interest in the furniture business. Business men are receiving new goods and preparing for the Spring trade. Mrs. Jacob Houser, an estimable German lady of our village, died March 1st. C. C. Decker has bought some property at Kensington, and will move there. J. Wyeth has sold his lumber business. The lumber goes to the north side of the railroad. John E. Martin will have a public sale to dispose of some personal property, but will not leave the farm. March commenced this year on Feb. 28. Although it is stormy we know the people are happy, for they live in a favored locality. The land is rich and productive. We seldom find of getting good crops. Land is selling lately in this vicinity at higher prices. A. C. Copeland, mail contractor and carrier, had to leave his team on the road to LaPorte and walk about twelve miles, carrying the mail sack. The roads were unpassable for the horses, but Copeland never fails. John U. Parry had a sort of a magazine under the house, consisting of an incubator and part of a barrel of oil. The incubator contained several dozen of eggs. Lights were burning, and in the night the incubator, being in the cellar, burned to ashes, and burned the joist and floor to the carpet. The smoke caused Rev. Mr. Martin and family to investigate, when the fire was discovered and put out. A fortunate escape. At the shoe store, north side of the railroad, a box of ashes was left near the stove, and the room locked. Fred Valentine, who has a barber shop above, about 10 P. M. discovered smoke, went down stairs, found the ash box nearly burned up and the floor somewhat burned. A narrow escape from great damage, the building being in a wooden row. Carelessness. Who will be the next careless person? TREMZER.

Council Proceedings. A regular meeting of the Common Council of the Village of Buchanan was held at the Council Room, in Engine House No. 1, on Friday evening, Feb. 25, 1881. Present: J. D. Ross, President; B. D. Harper, Recorder; Trustees: David Johnson, Mowrey, Powers, Richards and Weisberger. The minutes of the regular meeting held Jan. 28, 1881, were read and approved. The following bills were presented and referred to the Committee on Finance and Claims: J. H. Van Riper, legal services, \$25.00; H. N. Hathaway, services, 40.00; HIGHWAY FUND. H. N. Hathaway, paid for labor, 1.44; J. A. Smith, work on snow plow, 1.75; Jas. Patterson, work on street, 1.25; G. Thompson, 2 1/2 days work on street, 2.30; Wm. Forester, 1 1/2 days work on street, 2.30. The Committee on Finance and Claims reported the bills presented at this meeting as correct, recommending their allowance. Moved by Mr. Mowrey, supported by Mr. Johnson, that the report of the committee be accepted, the bills allowed, and the Recorder directed to draw the proper orders on the Village Treasurer for their payment. Motion adopted. The committee on Streets, Sidewalks and Bridges asked for further time to report upon the petition of Mr. S. A. Wood and others, and that of Mr. E. M. Plimpton and others, on the hay scales question, which was granted. The President appointed Trustee Mowrey as a member of the Boards of Registration and Election. Moved by Mr. Powers, supported by Mr. Johnson, that a committee be appointed to call the attention of the butchers of the village to the by-law regulating the location and care of slaughter houses. Motion adopted. The President appointed as the committee, Trustees Powers and Mowrey. Messrs. Chas. E. Terriere and Chas. E. Butler, a committee appointed at a joint meeting of the Engine and Hose companies, asked that the partition between Fireman's hall and the Council room be removed, so that the whole upper story of the Engine house be in one room, and that the room be used jointly by the Council and the Engine department. Moved by Mr. Johnson, supported by Mr. Powers, that the request of the Engine and Hose companies be granted. Motion adopted. Moved by Mr. Powers, supported by Mr. Johnson, that the Common Council adjourn to Friday evening, March 4, 1881. Motion adopted. COUNTY PRESS. [Niles Democrat.] Young Hall, who recently came from the north to go to school here and who is boarding at the Geo. W. Potter residence, near this place, was all alone at the house a few days ago, and in came a tramp for something to eat, and to get a place to sleep. The tramp had a chance at. But Young Hall quietly went into the adjoining room and got the double barreled shotgun and told Mr. Tramp to "git," and he "got." Mr. Tramp woke up the wrong chapp, that's all. [St. Joseph Traveler-Herald.] The railroad committee is at work. The feeling in favor of the St. Joseph Valley Railroad seems to be growing. St. Joseph MUST have it, gentlemen. The bill re-incorporating Benton Harbor has passed both Houses of the Legislature. It changes the time of the city election to March, and provides that the taxes shall be collected by the Treasurer instead of the Marshal. We understand that R. J. David has purchased the Benton Harbor Palladium. While we regret to lose Mr. C. E. Reeves from our ranks, we welcome Mr. David as his successor, and extend to him our well wishes. Mr. Reeves retires with the good will of his fellow publishers of the quill, and neighbors generally. Additional locals on second page.

For spring trade a new stock of Steel, Iron and Wood Beam Plows, at W. K. SAWYER'S, Three Oaks, Mich. See what ROUGH BROS. have in the line of Stove Furniture.
