FOR THE RECORD.

The matter was discussed and finally settled. They will make a square week of it at the beginning.

ROMANTIC MARRIAGE.

A romantic story culminated in a jolly wedding at Hoboken a few days since. The hero in the affair was Joseph Schmidt, who many years since

DIGBY'S REFORM CLUB.

There was a quartette of free and joyous spirits in Burville and Johnny Digby was acknowledged leader thereof.

On a certain Monday evening they were assembled in a small parlor of Lushton's tavern for the purpose of having a good time, as they were wont to do on such occasions.

"As near as I can find out," he said, "the person just about the same as called by name and held us up as a set of knaves and scoundrels."

"I don't know," said John Digby, "but I certainly allude to you very plainly, but the worst he brought against us was that we were prostituting noble powers and opportunities to base and vulgar purposes."

"Blatting with a vengeance," said Tom Lowden. "What business is it of his?"

"Aye," exclaimed Sam Pepper, "what business is it of his? And then look at the hullabaloo they make over this foreign mission business. It was in connection with that that Parson Meekly came here at the tavern."

"That's so," cried Sally. "I say charity is at home. What do you say, John?"

John Digby had listened attentively, and during the conversation he had turned his glass bottom side up on the table.

"There may be truth in what you say," he slowly and thoughtfully replied, "but people who live in glass houses shouldn't throw stones."

"Now we are talking, boys," continued John Digby, pushing his inverted glass away to the center of the table, and leaving it there.

"Hi-yah!" shouted Sam Pepper, "that's the talk. I am with you."

"Are you sure you have got the courage, Sam?"

"Count me in," said Tom. "And me," added Pepper. "Let's shut the old fellow up. What's the programme, Jack?"

"An old fellow Digby, 'I have planned that we shall take the wind out of Parson Meekly's sails by establishing a reform club of our own, and starting a missionary society on the same basis.'"

"Look ye, boys; people besides the parson are talking, hard about us, and we'll shut him up in a lump. I'd like to get him here at the tavern way. I'd like to make them take the back track here in Burville in their own business."

"His hearers were interested and listened eagerly."

"What is it? Tell us how this is to be done."

"Have you the courage to do it?" said Jack.

"Well follow you," said Peter Slade. "I'll be bright!"

"Yes," said Tom. "Then listen."

"Hold on," cried Sam Pepper. "Let's all up before we commence."

"And in addition to this I spend at least \$1 more a week for beer and tobacco on my own hook. How is it with you?"

"The others admitted that \$1 a week was a little on the low side."

"\$10 a week as the result of our combined and individual expenses for rum and tobacco, for one thing I could manage to live through the rest of the winter without any more of it; and for the sake of the experiment I would be willing to put my share of that \$10 to charitable uses."

"There was a hush of novelty and originality about that which captivated them."

"The organization arrived at was simple, but nevertheless effective. They elected John Digby to serve as President and treasurer and secretary; and then they elected an executive committee of four, consisting of John Digby, Peter Slade, Tom Lowden and Sam Pepper."

them. It would be fun to purchase flour and meat and tea and sugar and fuel, and go around to assist the poor and needy. They were young men, full of life and good feeling, and had caused only because of the fun of the thing. Here was promise of fun in another direction, and they would go in for it.

"The matter was discussed and finally settled. They will make a square week of it at the beginning."

"During the week," said Jack, "we will look up the cases of destitution and suffering, and on next Sunday afternoon we will make out a list of names. Then we will take our \$10 and do what we can for those who are suffering most. We must be methodical in this. We are not to spend a penny in this work of charity that is not saved out of our own pockets, and of our own; and he of us who buys a cigar during the week shall deduct it from his contribution on Saturday."

"We should be methodical," suggested Peter, "we must organize. I say if we are going to do anything of this kind, let us do it ship-shape."

Peter's proposition was unanimously accepted, and they proceeded to organize at once.

BELL, who has been Preceptress of our High School during the past year, sends us the following: "I wish to express my grateful thanks to those of my pupils and friends who so kindly remembered me; and assure them that their tokens of regard will ever bring to me only the pleasant memories of my year in Buchanan. HELEN H. BELL."

THE Detroit Post and Tribune of Monday came out in a new dress, changed to a quarto and printed on a new Scott printing machine, all an evidence of prosperity which this sterling old Republican paper richly deserves. The edition before us consists of 32 pages well filled with good reading and evidences that there are live business men in Detroit in the number of large displayed advertisements in its columns.

JAMES G. PORTMAN, superintendent of the State Fisheries at Pokagon, was at the Convention yesterday. He informed us that on last Saturday he bought 125,000 of the State from Troy, N. Y., 12,000 of which he left at Chelsea, 12,000 at Albion, 50,000 at Marshall and vicinity, 8,000 at Kalamazoo and 9,000 at Sister Lakes, in Van Buren county. The balance were taken to Pokagon hatchery. Not less than 500,000 eggs will be distributed in the different parts of the State the current summer.—Jackson Patriot.

A MEETING of ex-soldiers was held at the office of J. C. Dick Tuesday evening, to take steps to organize a Post of the G. A. R. Nothing was done, however, but to talk over the matter and appoint a committee to examine into the two societies, the G. A. R. and O. C. D., and report at the next meeting which, in their opinion, would be the best organization to join. Another meeting is called, to be held at the same place on next Wednesday evening, and all ex-soldiers are earnestly invited to attend.

ROSE BROS.—Have they found your garden yet? They appear to have a natural fondness for cherry leaves, pear leaves, raspberry leaves, blossoms and young shoots, potato vines, squash and melon vines. Well, that isn't all! Clover blossoms, corn, in fact about everything green or growing. When eight or ten—always an even number—of these take a raspberry blossom, or any other fruit blossom, if there is any fruit there it is a miracle. Their work is about that way on about everything they attack and the interesting question is: What are you going to do about it?

NEW BUFFALO has an Improvement Committee, whose duty it is to look after the improvement of the village and vicinity. We learn that the committee have now raised from private subscriptions between \$3,000, and \$4,000, for the improvement of their harbor; also that the sum of \$6,000, now lying in the U. S. Treasury, already appropriated for that purpose, is to be added to this, and an effort made to secure a farther appropriation. This, with the proposed southern extension of the C. & W. M. railroad from that place, gives New Buffalo the prospect for the future a brighter appearance than it has had since that was the terminus of the Michigan Central.

LAST week we mentioned the fact that Mr. Ed. E. Plimpton was suffering with a cancer on his thigh, and that he was under treatment of Mr. Geo. H. Van Order for its removal. Under Mr. Van Order's skillful treatment the removal has been a success, and now Ed. has his "pet" preserved in spirits. It is between three and four inches long, nearly as wide, of an oval shape, and varies in thickness from one-half to one inch. That Mr. Van Order has a cure for cancer, without the use of any cutting instrument, there is no doubt, and others who are troubled with these pests should avail themselves of his services.

THE case against Mr. DeMott for selling pork that was not perfectly pure, brings forth other items of interest, such as that of the farmer who, having a drove of fifty or more hogs that commenced to die at a rapid rate of Cholera, and those that were alive sold to a drover for three cents, when the market was five cents per pound, explaining to the drover the reason for selling at that rate. The question arises, were the live hogs from that drove fit meat for the table? Or the man who buys a steer of a farmer who lives several miles from town, drives the steer to the slaughter pen, bringing it in fatigued and over-heated, kills it at once and places the meat on the market next morning. Is that meat fit for the table?

THERE was a meeting in Rough's hall last Thursday evening for the purpose of making arrangements for the celebration of the Fourth of July in Buchanan. Committees for the several duties pertaining to such an undertaking were appointed. As the success of such a celebration depends upon the work of the finance committee, that committee commenced its work at once and have already secured subscriptions to a sufficient amount to warrant us in saying that Buchanan will celebrate in the old-fashioned style, and shall expect everybody and his neighbors to come here and have a good time. The railroad is completed into Oronoko township, and the company promises to have the train running to Berrien Springs by that time, and make that their grand opening day, and will invite everybody to take a ride. So make your calculations to come to Buchanan to celebrate.

THE Board of Supervisors convened at Berrien Springs Monday and elected James H. Haskins, Rep., as chairman. After this the members paired off in such a way as to form a dead lock, which lasted all day Monday, and no business was done that day. The following committees were appointed: Equalization—John Guy, Charles F. Howe, Wm. Chamberlain.

Finance—E. L. Kingsland, A. Richards, Henry Ashford.

Claims—B. R. Sterns, J. Crocker Brown, J. T. Beckwith.

County Buildings—John Johnson, B. Fisher, Chas. Spencer.

Roads—W. M. Baldwin, H. Edwards, J. Fisher.

Mileage and Per Diem—C. I. Barron, Capt. Keith.

THE Ladies' Home Mission Band held a meeting on Friday afternoon, June 8, for the purpose of electing officers for the coming six months. This society was organized in December last; has now eighteen working members and nine honorary members. During the six months there has been paid in to the treasury, as membership fees, weekly dues and donations, the sum of \$40.50, which amount the society feel has been judiciously used. Many donations of clothing have been given to the society, which have been put in order by the executive committee where it was thought to be most needed.

We of the Mission Band wish to make an appeal to other ladies of our village, asking them to come and join our society and help us in this cause. There is certainly great need of such work being done, and the greater the number of members the more work can be accomplished, thereby further aiding the needy. Ladies, if you feel that you cannot become regular members of this society, we invite you to meet with us as often as possible. Your presence and sympathy in this work will greatly cheer and help us. The sole object of this society, as is well known, is to assist those who are really in need of help, and there are very many in our town in need of this assistance. The next meeting of this society will be published in due time.

Following is the quarterly report of Chairman of Executive Committee: MRS. SCOTT WYTHMAN, Sec.
