JOHN G. HOLMES, Editor. THURSDAY, AUGUST 11, 1881.

Central Kentucky is suffering from a severe drought. Prohibition lacked 60,000 votes of having a majority in North Carolina.

Canada spends \$29,000 a year for fish culture, and the State of Michigan \$7,500 for the same purpose. The main building of the centennial exposition was sold Tuesday for \$97,000. It cost \$1,600,000.

A steam threshing engine burst near Columbia, Ill., Tuesday, and killed five persons and wounded five others.

James D. Cole, one of the Judges of the Supreme Court of Massachusetts, committed suicide by shooting himself in the head Tuesday. He was 65 years of age. The cause of this act is not known.

Dr. Tanner has proposed, to the medical magnates at New York, a three months fast which he would like to hold in a room through which a current of bottled electricity should continually pass. He believes the current will feed the tissues as they are in need, and give him all the necessary nourishment.

A sagacious Philadelphia paper suggests horse-whipping as the thing to cure fools of the idea that they have a mission to kill some one.

Spotted Tail, the great Indian Chief, was shot and instantly killed at Pine Ridge, Neb., last Thursday, by another Indian.

The town of Fenimore, Wisconsin, is considerably excited over the death at that place of Alvorn Palmer, of genuine Asiatic cholera. They find no cucumbers connected with this case.

Chicago people complain that the peaches sent to that market this far this year are so small that they have to use a magnifying glass to see them.

\$65,000,000 of United States bonds fall due this month and next, and will be paid out of the balance of cash in the treasury.

Since its reduction of the fare the Grand Trunk railroad is having all of the Boston passengers it can accommodate. 270 went by one train last week.

The Chicago river water stinks so badly that children are being born there without noses. It is wonderful how nature will adapt herself to cases of necessity.

The Erie canal is feeling the effect of the low freight rates on railroads in such a way that the managers find it necessary to discharge a large number of men, for want of work for them to do.

It costs over forty times as much to carry a man from Chicago to New York as it does to carry a barrel of flour over the same road. No one but an extensive railroad owner can see the reason for this difference.

A great prohibition convention in Ohio was attended by representatives from 19 of the 88 counties of the State. The appearance is that people are losing faith in prohibition as the proper method of fighting intemperance.

Uncle Sam is after his Canadian brother with a sharp stick for using his mail pouches and not returning them. His servant James, under whose special care this department is placed, has discovered this sharp practice and proposes to have it corrected.

Charles Albert Cook was standing by and overheard a man rejoice at the prospect of the death of President Garfield, and slapped the rejoicer across the mouth. For this he was fined \$92. The Cincinnati Commercial proposed a one cent testimonial fund for Mr. Cook, and up to Sunday it had been signed by 27,000 persons.

There was more trouble in the sick room at the White House Monday, caused by the forming of another pus sack within the wound, and making a second incision with the knife necessary, to give the wound proper drainage. This was done by Dr. Hamilton Monday morning. Since that time the course of improvement was resumed.

A convention of Irish Nationalists was held in the Palmer House in Chicago Monday, and so secret were its workings that the members all registered in fictitious names. When conventions get so decidedly secret that they have no good appearance connected with them and ought to be kept under the eye of the peace authorities, especially at the present time when blowing up English ships and prominent people is the main subject under discussion by the league.

Postmaster General James announces it as his purpose to try to reduce letter postage to two cents in case he can make the post office department self sustaining during his administration.

The head that wears the crown of Russia is truly an uneasy one. About once a week he is either warned of an attempt to murder him, or a plot to do so is discovered and the details made public. He can hardly turn round without fear of assassination.

Jefferson Davis' book is not making friends for its writer in the South much faster than in the North. The inaccuracies of the work in matters of history are taken to account in one section, and the unjust criticisms of some of the best men of the confederacy is bringing down vengeance upon him from the other.

The mail pouch business in Canada begins to look bad. The department has had agents investigating the steal and they discover that nearly all of the pouches used by the Canadian postal service belong to the United States, the Canucks having simply changed the locks and made Canadian property of them.

DATES for county fairs in this State have been fixed as follows: Oakland—Pontiac, Aug. 30 to Sept. 2. Macomb—Richmond, Sept. 14-16. Bay—Bay City, Sept. 20-23. Berrien—Niles, Sept. 28-30. Allagan—Plainville, Oct. 4-7. Van Buren—Paw Paw, Oct. 4-7. Monroe—Monroe, Oct. 4-7. Ionia—Ionia, Oct. 4-7. Hillsdale—Hillsdale, Oct. 4-7. Macomb—Armada, Oct. 5-7. Gratiot—Ithaca, Oct. 5-7. Tuscola—Watrousville, Oct. 5-7. Other fairs will be held as follows: Annual Floral Fair—Colon, St. Joseph county, Aug. 30 to Sept. 2. Michigan State Agricultural Society—Jackson, Sept. 19-23. Michigan State Horticultural Society—Jackson, Sept. 19-23. Western Michigan Agricultural Society—Grand Rapids, Sept. 27-30. Eastern Michigan Agricultural Society—Ypsilanti, Sept. 28-30. North-eastern District Society—East Saginaw, Sept. 27-30. Central Michigan Agricultural Society—Lansing, Oct. 2-7. Union Agricultural Society—Ovid, Oct. 11-13.

Annual Fair of the Ottawa, Muskegon and West Kent Agricultural Society—Berlin, Oct. 5-7.

The statistics of the United States customs house at Port Huron show that during the month of July 4,251 immigrants entered at that port, bound for homes in the United States. The value of imports for the month was \$13,583; duties thereon, \$4,810.44; value of exports, \$620,044; free goods, \$60,702; goods entered for immediate consumption, \$42,540; duties thereon, \$215,546.67; bonded goods for Manitoba, \$111,153; duties thereon, \$112,402.—Evening News.

Venmor for August. "August, in striking contrast to the same month in 1880, looks decidedly moist, and will probably resemble that of 1877 in Canada and the United States. The month will enter warm, but cooler and unseasonable weather may occur on the 4th and 5th, after which sultry and stormy weather will again set in. Thunder and lightning and hail storms are likely to cause considerable damage over widespread areas both in Canada and United States, especially in western sections, and the month again promises to resemble that of the year 1877."

STATE ITEMS. Battle Creek is soon to have a steam fire engine. Forest fires are raging in the vicinity of the Saginaws. The army work has found Hartford, Van Buren County.

Colburn Blake died at South Haven from drinking ice water. The School Moderator, recently started in Grand Rapids, is to be moved to Newaygo. The only Democratic paper published in Gariot county has suspended for want of support. Capt. Israel Geer, of Hastings, died of Asiatic cholera, in that city, on Sunday morning. Fine destroyed the Excelsior factory in Grand Rapids Monday afternoon, incurring a loss of \$6,000. Insurance \$1,000.

Three farmers living near Sparta Center have each had to pay a fine of \$5 and costs for getting drunk on hard cider kept in their own cellars. The funeral ceremonies in honor of ex-Governor Bagley were held in Detroit last Sunday, and was attended by parties from all parts of the State. The State firemen's tournament for this year is to be held in Coldwater the first week in September. A crowd of 20,000 people is expected to be in the city.

A Delhi butcher who has been running a periodical meat market, that is when he could steal his meat, finally had a case run so near to his door that he pleaded guilty, and the good-natured justice let him off with a \$25 fine. Chas. Davis recently discovered an old Indian relic in the form of a peculiar chain apparently composed of a composition of minerals ingeniously constructed after the fashion of the ball and socket. The article was found in digging a new well, about 20 feet under the surface of the earth, and is probably hundreds of years old.—Day City Call.

In Atlanta, Georgia, a great many colored women earn a living by washing, but the striking fever has gone that way, and they all caught it and demanded an advance on their already good wages, on the threat of no such advances. Steam laundries will be introduced and their assistance will no longer be needed. The repeated failure of organized strikes to bring about good results in this country ought to teach the laboring class that to enter into them is the height of folly.

Samuel Kingsley, of Romulus, had a nice cow bleed to death last week from being cut with the wire fence along the railroad. Mr. Kingsley had just bought the cow a few hours before.—Wayne County Review.

Dr. Ira P. Bingham, a prominent citizen of Livingston county, died Saturday night of apoplexy, at the age of forty years. Mr. Bingham has been one of the prominent men of Michigan, and was a member of the State delegation to the Convention that nominated President Garfield.

An Alpena, Mich., man named Dale is said to have jumped 14 feet and 7 inches at a single leap, standing start, by the use of a pair of 15 pound dumb bells, and now a foolish Alpena man proposes to stake him against the world as a jumper for \$2,500 to \$5,000. Elder James White, founder of the Seventh Day Adventist and president of the publishing association and of the college in Battle Creek, died Saturday night, at the sanitarium, of malarial fever, aged sixty years. He was a direct descendant of Peregrine White, the first white child of the pilgrim fathers.

Mrs. Dolby, near the Lowell mill, lost her thumb last Saturday in a curious manner. A child was holding a horse, feeding in the yard, by a halter. Seeing that the horse was getting restive she took hold of the halter strap, which got wound around her thumb, when the horse gave a quick jerk, taking the thumb off as clean as a turnip, but she had been done with a knife.—Ypsilanti Commercial.

Southern Michigan is being raided by a sharper selling packages for exterminating potato bugs, with directions not to open the packages until wanted for immediate use. On opening, the package is found to contain two blocks of wood, with directions to place a bug on one block and smash him with the other. It is a sure cure, but you can get the same article of cheaper dealers.

A writer advertises that girls who wish to have small mouths should repeat at frequent intervals during the day, "Fanny Finch fried five floundering frogs for Francis Fowler's father."

A Marvelous Memory. In the St. Louis postoffice is employed a man who is a phenomenon. He was taken on in the mailing division about eighteen months ago and given the lowest position. He has several times been promoted on account of his good record, and at his last examination gave evidence of his close application and phenomenal memory. It is customary for the examiner to name the postoffices in a certain amount of territory, and require the examinee to give the location. In this case the postoffice was examined on the postoffices of Missouri, in which there are 1,700. He did not need to be questioned, but without prompting named every postoffice in the State and the county in which it was situated, and without missing or stating a postoffice of a county, and did this in thirty minutes.

The New York Evening Post mentions that two young girls in Providence, R. I., have been sent to the Reform School for eight years for smoking cigars in the street. This seems a pretty long term of confinement for the offense of cigar-smoking, but may prove of advantage to the girls thus sentenced, and a wholesome warning to other girls of cigar-smoking proclivities. But if Rhode Island justice finds such discipline an advantage to girls who are given to smoking, would it not be well to try it also upon the boys, and not to allow the latter to monopolize its benefits? There are plenty of boys of younger and older growth who are in need of it.

THE FAMILY DOCTOR. Are stimulants, even tea and coffee, set upon the system as poison, and consequently re injurious. For children, a nearly infallible powder corrective is a fast-day passed in cheerful out-door exercise. Dressing requires leisure. Never eat until you can be sure of leisure for digestion. After rest, give an hour exercise to every pound of food. Poison from bees, hornets, spider bites, etc., is instantly arrested by the application of equal parts of common salt and bi-carbonate of soda, well rubbed in on the place bitten or stung. Embrase the best and at the same time the easiest way to remove a wart is by rubbing the wart morning and night, or as often as convenient, until a sufficient degree of warmth is produced. We have never known a wart so obstinate that it would not disappear with this simple treatment in a week or two at the latest.

For neuralgia in the face and other acute suffering elsewhere the following remedy has been tried with good effect: Cut a thick slice of bread across the forehead, the bread to be removed for a minute in boiling water, and rapidly sprinkle cayenne pepper over the hot side. Apply while still smoking hot to the painful surface. The bread retains the heat long enough for the cayenne to begin to act. Every body does not affect delicate skins as mustard does. It acts as a rubefacient, but not a blister. Another excellent remedy for congestion from cold is to apply a poultice of bread and milk to the face. By keeping a bit of silk on the outside of the poultice-cloth it will retain both heat and moisture for a long time. Inocuous toe-nails are caused by the improper manner of cutting the nail (generally of the great toe), and then wearing a short, badly-made shoe. The nail, beginning to grow too long and rather wide at the corners, is trimmed around the corner, which gives temporary relief. If it then begins to grow in the side where it was cut off, and as the shoe presses the flesh against the corner, the nail cuts more and more into the raw flesh, which becomes exceedingly tender and irritable. If the state continues long the toe becomes more and more painful and ulcerated, and proud flesh sprouts up from the sorest points. Walking greatly increases the suffering. It is positive relief to remove the shoe. Every body growing toe-nails, proceed as follows: Begin the effort to cure by simple application to the tender part of a small quantity of chloride of iron. It is not in the drug stores in a liquid form, though sometimes in powder. There is immediately a moderate sensation of pain or burning. In a few minutes the tender surface is felt to be dried up, tanned or numbed, and it ceases to be painful. The patient will not put his foot to the floor now finds that he can walk without pain. By permitting the hardened, wood-like flesh to remain on or over the toe, it can easily be removed by soaking the toe in warm water. If thereafter the nails be cut no more around the corners or sides, but always cut in across the front end, they in future grow forward, and by growing in a straight line, they will assume their natural shape and will be avoided.

Singers and Public Speakers should use Downs' Elixir, as it removes hoarseness and increases the power of the voice.

The Wedding-Ring. In the days well-known to history as "once upon a time," a certain noble Roman youth was deeply engaged in the excitement of a game of ball. The occasion was an important one to him, for it was his wedding-feast, but the play made him careless of a treasure that he ought to have guarded with the greatest affection. He took off his wedding-ring and placed it upon the figure of a statue of Venus, to remain there until he should wait it again. When, however, a few hours after, he wished to take it, he found it gone. He searched for it, but had become clenched so that it was impossible to remove the ring. He now had to pay the penalty of his rashness, for he was constantly haunted by the thought which kept whispering in his ear: "Embrace me; I am Venus whom you have wedded; I will never restore your ring." The wretched youth continued to be followed by his disagreeable companion, until, after much difficulty, he was able, with the assistance of a priest, to force the goddess to relinquish the ring, and then only was the young man freed.

This legend is widely spread, and has been popular under varied forms; in some of these the Virgin Mary takes the place of Venus, and the owner of the ring, by placing it on the finger of a statue, becomes the betrothed of the Virgin, is obliged to renounce the world and enter a monastery. In another version a certain priest, desiring to enter the marriage state, seeks a license from the Pope, who grants his request on condition he shall first conciliate St. Agnes, who was not only the patroness of his own church but also the patroness of chastity, by placing on the finger of an emerald ring, sent for the purpose by the sovereign pontiff himself. The priest does as is directed, and the ring, on the fourth finger of the figure, but his astonishment is great when the hand which had been put forward to receive the ring is returned to its original position. Attempts to withdraw the ring are ineffectual, and the unfortunate priest realizes the disagreeable truth that he is contracted to St. Agnes and on marry no one else. These stories are particularly interesting as exhibiting the feeling which was universal among the Christians in those days, that wedding and betrothal rings possessed an inherent power and value in themselves—a belief which still lingers in places.

Lincoln's First Appearance in New York. It is a curious fact that while Abraham Lincoln was widely known and highly admired, in what were called the Western States, this city had hardly heard his name. Such a fact shows the ignorance which often characterizes merely commercial centers. Lincoln's appearance here as an orator was due to a few of Beecher's leading members who had learned something of his life and character, and had spoken in their church. This was in the early part of 1860. The public had at that time no idea that any such apostle of truth, liberty and constitutional government was in existence. Hence the effect of his speech was of a deep and solemn character. Instead of Plymouth Church, however, Cooper Union was selected as a profitable place. The house was crowded, and the platform contained the most able men in the Republican party, who were anxious to hear what a Western man would say. When Lincoln was introduced the audience stared at his tall, ungainly figure, which was such a contrast with the tall, slender figure of Bryant and Raymond. The speaker began in a low tone and diffident manner, and some feared a failure, but he soon rose with the subject, and the audience gradually became spell-bound. Never before had so many people undertaken to pursue an unbroken thread of unadorned argument. Never before was political argument more fascinating. The conclusion forced on the leaders of opinion was that the Republican true cause for the Presidency. Such proved the case, and Seward's star began to wane. Greeley went to Chicago for the special purpose of defeating Seward, and his friends in this city realized the full extent of their disappointment. They had taken a portrait of their candidate to the convention, and had it ready to be unfurled as soon as the nomination should be made. They were, however, disappointed, and the man who paid for it died before reaching home. I allude to John L. Schoolcraft, of Albany, who married Seward's niece, and who was one of his confidential advisers. The disappointed man was of a crushing character, and he reached Albany in his coffin. Such was the effect of Lincoln's first and only appearance in this city as a public speaker.—New York Letter.

Cousin Dick's Reply. The late Bishop Wilmer, of Louisiana (the Cousin Joe), and Bishop Wilmer, of Alabama (the Cousin Dick), of the following anecdote, being in Italy together, the latter was enthusiastically pointing out to the former the architectural beauties of a ruin, when his Louisiana reverence rather wearily protested, "It's all very fine, Cousin Dick, but nevertheless, a cheerful field, I think, would be a better." The Bishop of Alabama replied: "Well, Cousin Joe, there is this in favor of your view of it—there is not an ass in all Italy that would not be of the same opinion."—Harper's Drawer.

Reading Notices. PETERSON'S MAGAZINE for September is at hand, as usual, ahead of all others. The leading feature, for all months, is an elegant steel engraving, "Blind Milton Dictating Paradise Lost to his Daughter," after the wonderful picture by Munkacsy, the great Hungarian artist. It is accompanied by an illustrated article on Milton's Life and Poetry, that is of much higher character than such things ordinarily are. Every body ought to be a subscriber to "Peterson," it combines more, for less money, than any other. The price is but two dollars a year. Specimens are sent gratis for the purpose of getting up clubs. If you desire rosy cheeks and a fair complexion, purify the blood by the use of Baxter's Mandrake Bitters.

No Such Word as Fail. "I have used your Spring Blossom for dyspepsia, headache, and constipation, and in the side where it was cut off, and as the shoe presses the flesh against the corner, the nail cuts more and more into the raw flesh, which becomes exceedingly tender and irritable. Short Breath. O. Bortle, Mauchester, N. Y., was troubled with asthma for eleven years. Had been obliged to sit up some ten or twelve nights in succession. Found immediate relief from Thomas' Electric Oil, and now enjoys good health.

The London Lancet. The "London Lancet" says: "Many a life has been saved by the moral courage of the sufferer" and many a life has been saved by taking Spring Blossom in case of fever, indigestion, or other ailments. Price 50 cents, trial bottles 10 cents.

Thomas' Electric Oil has obtained great popularity from its intrinsic value as a reliable medicine, in curing hoarseness, and all irritations of the throat, diseases of the chest, etc. For these it is an incomparable pulmonary

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an incurable lung disease. Consumption, Brown's Bronchial Troche's are certain to give relief in Asthma, Bronchitis, Coughs, Catarrh, Consumptive and Throat Disease. For eighty years the Troche's have been recommended by physicians and always give perfect satisfaction. They are not new or untried, but have been tested by a wide and constant use for nearly an entire generation, they have attracted well-merited notice among the few staple remedies of the age. Public speakers and singers use them to clear and strengthen the voice. Sold at twenty-five cents a box everywhere.

Messrs. White & Burdick, Druggists, Ithaca, N. Y.—I recommend to those suffering (as I have been) with Hay Fever, Hay Cough, Catarrh, etc., to try nearly all the remedies I could find, and give this a decided preference over them all. It has given me immediate relief. T. Stephens, Hardware Merchant, Ithaca, N. Y., Sept. 6, 1880. Price 50 cents.

Hay Fever. Mr. A. L. Ayer, Pharmacist, Newark, N. J.—Having been severely afflicted for eleven years with Hay Fever, after trying almost everything without avail, I gave up all hopes of being cured, when I purchased of you your Cream Balm. It has cured me nearly all the remedies I could find, and give this a decided preference over them all. It has given me immediate relief. T. Stephens, Hardware Merchant, Ithaca, N. Y., Sept. 6, 1880. Price 50 cents.

Now is the Time. Don't wait until you are nearly dead and bed-ridden. Don't wait until you have found, to your sorrow, that mineral poisons, alcohol, stimulants, bitters, etc., will only aggravate diseases of the blood, kidneys and liver. But now, before another day passes, make haste to procure and use Dr. Cassell's Kidney and Bladder Remedy. It never fails to cure all blood and skin diseases, all liver complaints and urinary troubles.

The Greatest Medical Discovery of the Age. Kellogg's Columbia Oil is a powerful remedy, which can be taken internally as well as externally by the tenderest infant. It cures almost instantly, is pleasant, acting directly upon the nervous system, causing a sudden change in the system. In short the wonderful effects of this most wonderful remedy cannot be explained in written language. G. W. NOBLE.

Go to the Merry Makers Carnival Tuesday evening, August 16.

REPRESENTATIVE W. S. MILLARD of Niles was in town Monday.

The crystal springs fish are to go to Paris, Mecosta county.

The Michigan City Dispatch publishes twelve saloon advertisements.

B. H. SPENCER was taken severely ill yesterday afternoon, of cholera morbus.

SEVERAL persons have gone this week for a visit at the lake shore for a few days.

DOX'N' is surprised if we have some more weather before this month is gone.

MR. AND MRS. GEO. M. VALENTINE, of Benton Harbor, were in this place Monday morning.

BENTON HARBOR Marshal shoots dogs that have the courage to appear on the streets without a muzzle.

PARTIES attending court at Berrien Springs are being accommodated by the new railroad this week.

A Niles paper begs for a "circus and a menagerie." A spelling school might help "em out a little.—Evening News.

MR. TRAVIS has bought the Hamner property on the north side of Front street, paying \$900. Cheap enough.

We learn that a well is to be driven on the park ground for the accommodation of those who attend the reunion.

THE man who never thought the President would die is becoming the most numerous article in the market.

A LETTER from Kirwin, Kansas, announces the advent of a boy into the family of Mr. Levi Bins, formerly of this place.

REAL ESTATE appears to have taken a boom in Benton Harbor, and several new business buildings are being erected there.

CAMP MEETING is in full blast at Crystal Springs this week, commencing Tuesday. Quite a number are in attendance from this place.

THE wood pulp mill at Niles, owned by the Millards, and managed by our Representative in the Legislature, is to be considerably enlarged.

We learn that a delegation from South Bend is expected to meet the St. Joseph people at this place to-day to talk over railroad matters.

THE Rough Brothers have moved into their new quarters, their new office at the wagon factory, and are now prepared to entertain their company in fine quarters.

THE most particular man in Berrien county about having his printing done just right, daubs his envelopes all up with a rubber stamp, and is perfectly satisfied with it.

BUCHANAN and vicinity was treated to a refreshing shower Saturday morning. After 101 to 104 in the shade, of the three days before, the shower was truly refreshing.

THE work of painting and repairing the Union school building was commenced Monday morning. This work will quite materially change the appearance of the building.

THE sport of trap-shooting with live pigeons is coming into disrepute, as it should. That and the bulling and cock pit are sports that should go together away from civilization.

FOR several years the market for early apples has been such that farmers have not considered them worth marketing, but this year they bear a good price.

YOU are all invited to come to Buchanan on the 24th of this month, the time of the Soldiers' and Sailors' reunion for South-Western Michigan.

BLACKBERRIES appear to be a pretty scarce article this year. They are now being sold for \$2 a crate in this vicinity. We learn that wild berries are being gathered on the lake shore for the Chicago market.

BENNETT & GARDNER'S Merry Makers will give the G. A. R. Post at this place a benefit next Tuesday evening. You can get a ticket at J. H. Roe's for 25 cents and help the boys, besides seeing a good entertainment.

HENRY JOHNSON threshed from the crop grown on a piece of ground 15 rods and 2 links by 30 rods and 2 links, on J. E. Barnes' place, 79 bushels of wheat. This he calls pretty good for 1881.

An editor who is continually howling at the people to "support your home paper," forgets that if he will not make that home paper worthy of support it will surely be supported.

THE spasmodic symptoms of the old man of the Mirror appear faster than could possibly have been expected. We are sorry to see him fall so fast, but such is life. His arduous labors are evidently too much for him.

A German named John Reith, living in Royaltown township, was overcome by the excessive heat on Friday, and died in a few minutes. He was forty-five years old and leaves a wife and three children.

THE following letters remain in the post office in this place, awaiting claimants: Geo. W. Clymer, J. F. L. Dunn, Mrs. Amy Northrop, Mrs. Rose Ream, Miss Mary T. Wilks, Henry Zerbe, Will J. Brown.

THE new comet may be seen at an early hour near the north-eastern horizon. It may be seen to a better advantage in a short time. Astronomers claim that this will be the brightest and most conspicuous one of this century.

A CASE of assault and battery will come before Justice Dick for settlement to-morrow, in which Amasa Jordan is defendant and McWilliams complainant. Jordan knocked Mc down and kicked him just because he could.

THE first number of the College Speculum, published by the students of the State Agricultural College, and of which Mr. Osmond C. Howe is one of the editors, has reached us. It shows good work for the boys.

THERE were more rich men on street parades this morning than is usual. It takes only about a pint of modern whisky to make millionaires of some men. It is a little strange that they should all be drunk at once.

IT is reported by the Southern Michigan press reporters, few of whom are able to lie, that Major Duncan, of the Niles Republican is about to wed.—Evening News.

Niles papers have harped on that so long that we had come to look upon it as out of the question. Sure you're right this time?

WHEN the editor of a paper publishes the nastiest thing he can think of and then keeps repeating it, there is evidently something serious the matter with him. Second childhood is the only reason we can give for such work.

THE committee on provisions for the reunion have commenced their work of supplying the commissary department. We trust that our farmer friends will respond liberally toward the entertainment of the soldier boys when called upon by the committee.

WALLACE RILEY had his hand caught between a belt and pulley while at work in Black & Willard's shop Monday, and quite badly bruised. Just such things as that sometimes kill people, and it is often that way than any other.

SOME fellow made himself pretty familiar with the surroundings at Wm. B. Hoag's house last night while he and his family were at the entertainment. They heard the hired girl make a disturbance in the house, and left the premises. Just why they were there, they are probably the only ones who will ever know.

MR. HENRY WEAVER, and old and well-to-do resident of Niles township, was kicked by a fractious horse last Thursday night, at about 9 o'clock, from the effect of which he died in about four hours. He was trying to put a poke on the horse at the time of the accident.

IT may be of interest to the hundred or more persons in this place who have a stove pipe running through the roof or sticking through the side of the "shed" to know, first, that such an arrangement is very dangerous, and second, that insurance companies do not pay for losses occurring from one of these arrangements.

MRS. N. S. WELCH is selling quite a number of copies of Gaskell's Compendium in this place. It is one of the best of books of reference on all general subjects, and we are pleased to learn that the greater number of her customers for the book are among the boys, the ones who most need such book.

Leo Hartmann, a foreign socialist, has been "treated" in New York City by his native government and is wanted at home. This was the cause of a meeting of socialists in New York Monday, at which a resolution was passed asking Secretary Blaine what the government proposes to do about it. They seem to be pretty anxious about it.

THE narrow gauge company have found something interesting. About a mile this side of Berrien the road is built across a small swamp, perhaps six rods wide, and this morning the iron and ties form a suspension bridge across that place. The underpinning fell out.

THE Marshal and his help are at work to-day repairing the bridge over the creek at the foot of Day's avenue. It looks to one who will take the pains to peep under that bridge, as if a new bridge is about what will be wanted in that place before many years more. When that is done, one that will stand the wear should be built.

WE understand there are one or two business men in St. Joseph who refuse to give toward manufacturing industries, etc., on which the town must now depend in the greatest degree for its future existence. Such men have no rights that the laboring classes, who are benefited by factories, and who spend their earnings at home, are bound to respect.—St. Joseph Evening Herald.

WE mistrust that Brother Sawyer was on a "saw" of his own Aug. 3, or he would not tell his readers that he came to the St. Joseph Valley train at 4:15, and the train had gone a half hour before its time, and he left. The first train south on that day left Berrien Springs after five o'clock, and arrived here in plenty of time for the Excursion train going west.

THE party from St. Joseph arrived in this place just as we go to press, to the number of about 150 persons, including the Benton Harbor band. This is rather more of a crowd than was expected, and there was consequently a little delay in making additional preparations for dinner, but they appear to take in the situation with good grace and seem to be making themselves at home.

It is somewhat amusing to read the St. Joseph Republican's account of the two picnics held in this county August 3. If we did not know that Ricaby was the name of the man who was elected President by those who gathered at Niles, and also the name of the man who writes for that paper, we should certainly think the writer was crazy, and we are not sure he is not, as it is.

AL. HUNT received a rap behind the right ear, by a bed rail that was thrown over a rip saw, yesterday afternoon, while at work at Spencer & Barnes' shop, cutting a gash about three inches in length, and knocking him senseless. He appears to be getting along finely, and will be about in a short time. He thinks he would rather shovel on the railroad or any where rather than take any more sawing.

BUCHANAN musicians appear to be in good demand abroad. Mr. Frank Brown expects to leave in a few days for an engagement with his clarinet; Charley Wilson has an engagement in New York to play the cornet, and we learn that Al. Hunt also expects to leave Buchanan before long on a similar errand. All to be away during the amusement season.

JOHN DILLON, the comedian, with an excellent support, gave an entertainment in Rough's Opera House last evening to a fair audience. The company will return on the 24th and 25th of this month, when they will present the following programme: The 24th, "Everybody's Friend," and "To Oblige Benson." 25th, "Swap, the Yankee," and "Irish Mesmerism."

THE government officials at Washington have struck a new puzzle in the Chinese question. The celestial government is withdrawing her embassy from this country and calling home all of the young men who are being educated in American colleges at government expense. The puzzle comes in the fact that the Chinese give no hint at the reason for this movement.

WE find that we were misinformed in regard to who was to deliver the oration in this place at the time of the reunion, also the response to the address of welcome. The former is to be by Col. O. T. Beard instead of Mr. Barrett, and the latter by Col. McLean instead of Col. DeLos Phillips. This does not lessen the interest in either as both are well known to be good, interesting speakers, and will fill their places well.

OPEN AIR SERVICE.—The discourse at the open air services, next Sunday at 6 P. M. will be to "our business men." I ask a kind and cordial hearing by the business men of Buchanan, and assure you that you will be addressed in a kind and courteous manner. Singing by the Male Octet. Seats for all. The service is in front of Mr. Molsberry's residence. Make special effort to be out, as so many will be away. In the morning, at 10 1/2, I will give the second lecture on the "Struggles of Protestantism in Holland." J. D. McCord.

YOU can go to Chicago now via the narrow gauge railroad, the river boat and across the lake for \$1.90, seventy cents cheaper than by the Michigan Central, starting from this place at one o'clock in the afternoon and arriving in Chicago at three in the morning, and having a good bed on the boat while crossing the lake. This is a most pleasant trip, besides giving about four hours more for business in Chicago, returning by accommodation or night express.

WHAT will most add to the appearance of our village during the soldiers and sailors' reunion, will be to have each house decorated with flags. Flags that are large enough for this purpose can be had for \$1.75 per dozen, enough to nicely decorate two dozen houses, making the expense very small for each. Persons who are willing to expend a few cents in this way are requested to confer with Mr. Frank Merrill or Mrs. Scott Whitman, members of the committee on decoration, that they may know how many will be needed as soon as convenient, and in time to have them sent here from Chicago.

TO-DAY is the time set for the St. Joseph people to come to Buchanan to see how they like the St. Joseph Valley Railroad, and whether they want to pay anything to have it extended to that place. We learn that the company is receiving considerable inducement to run the road to South Haven. They would not find so good a harbor at that point as at St. Joseph, and would have a more expensive road to build; but on the other hand, they would add very materially in its construction, and would pass through a more productive country. The company will probably decide to-day which route will be taken.

THERE are a number of young boys about this place who have conceived the idea that the only thing necessary to make men of them is for them to smoke a cigar or cigarette, and worse than that, there are one or two dealers in these goods who, for the small percentage of profit there is in it, will degrade themselves to the act of selling to them. Just what kind of treatment is best for both the boys and tobacco dealers is hard to tell, but surely there ought to be some means of stopping this sort of trade.

SOLDIERS' AND SAILORS' REUNION. The large posters just printed at the Record office announce that the third Annual Reunion of the veteran soldiers and sailors of Southwestern Michigan will be held at Buchanan, Wednesday, Thursday and Friday, August 24, 25 and 26, and among the attractions specify an oration by Col. O. T. Beard, of Detroit, a gentleman who has a wide reputation as an orator, an address of welcome by Hon. J. J. Van Riper, of this place, which will be responded to by Col. W. W. Mollvain, of Cassopolis, the President of the Association. Among the speakers who will be present are mentioned Gov. David H. Jerome, Ex-Gov. Austin Blair, who was Governor during the war, and the special friend of the "boys in blue" during the "late unpleasantness," and Gen. A. H. Morrow, of the U. S. Army. Music will be furnished by the Constantine Cornet Band, which has attended each reunion held by this Association in the past, the Buchanan Cornet Band, and probably others will be secured, besides vocal music by the octet club of this place, which can fairly "make the woods ring." Several rallies, including the Michigan Central and its branches, the Grand Trunk, Grand Rapids and Indiana, Chicago and West Michigan, Lake Shore and Michigan Southern, Toledo & South Haven, and St. Joseph Valley, will carry the veterans and their friends to and from the reunion at reduced rates, while some of them will run special trains on the second day (Thursday) for the accommodation of the large number of people who will wish to attend the public exercises of that day.

THE veterans, and people generally, of Buchanan, are taking hold of this enterprise in earnest to make it a grand success, and we can confidently assure the public that nothing will be left undone by the various committees, and all our people, to entertain in good style every veteran who will be here during the reunion. Buchanan will extend a hearty welcome to all who may be with us during the reunion.

THE REUNION OF '81. Owing to the inability of the Diamond Lake management to complete and carry out their engagement with the executive committee of the Soldiers' and Sailors' Association of Southwestern Michigan, it has become necessary to re-locate the encampment announced for Aug. 24, 25 and 26. A cordial and generous proposition from the citizens of Buchanan has therefore been accepted, and the third annual encampment will be held there on the dates named.

A desirable and well equipped ground has been secured, tents and rations will be provided free, and it will only remain for our comrades to muster with blankets, and greetings and reminiscences of old times, and old victories. Turn out and fall in.

S. L. GEORGE, Chairman Ex. Com. BENNETT & GARDNER'S MERRY MAKERS will appear at Rough's Opera House on Tuesday evening, Aug. 16, in their comic opera and refined musical entertainment. They are recommended as one of the most mirth-provoking shows of the day. Mr. Frank Bennett is known as one of the most refined and comical comedians of the day, appearing in his original character of Cupid and Ole Bull in the Grand Opera, entitled "Grand-pa's Birthday." During which all the principal melodies of the late New York successes, viz: "Billie Taylor," "Oloveth," and "Pirates of Penzance." Popular prices, 25 and 35 cents.

As a warranty that those who attend the reunion will be well and properly provided for in the way of refreshments, we can announce that Messrs. Henry Kline, Howell Strong and Jay Dubois have obtained exclusive control of the grounds for that purpose, aside from the commissary department that is to furnish eatables for the soldiers. This must not be understood as meaning that no other place will be provided for furnishing refreshments. Each of the restaurants will be doing their best to accommodate the public, and the hotel will be open on all three days.

THE Irish land leagues formed in this country within the past year are showing symptoms of coming to a bad end. The organ of the league, published at New York, is strongly advocating the policy of blowing up and sinking English merchant and naval ships wherever they may be found. The finding of the infernal machines on a vessel in an English port, a few days since, is now coupled with this work of the organ of the league, and the consequence will be that government authority will soon begin to look after the refractory ones. The Irish citizens of America may retain a friendship for the Emerald Isle; but no such warfare as that proposed by this league must be tolerated, against England or any other country.

CHEESE.—A man named Havens, of Courtland Station, Ill., is corresponding with Messrs. French & Rough regarding the purchase of the cheese factory in this place, and would be pleased to meet those who furnished milk when the factory was being run before, at the office of Rough Bros. Wagon Works next Thursday, August 18, for the purpose of making arrangements with them to furnish milk, in case he makes the purchase. We trust there will be a general turnout, as we want to see the appearance of life about that building once more.

THE report that Fred G. Moon had given up the management of Diamond Lake accommodations on account of financial difficulties is denied. The regatta held there appears to have taught him a lesson in the management of a pleasure resort, and he says that no more regattas, soldiers reunions, or large crowds of any kind may be looked for at Diamond Lake, and that those who seek a cool, quiet resort where they can be properly accommodated, will hereafter find it there without the bother of crowd and bustle. The blame for bringing the gang of thieves and pickpockets, to the number of about 150, there he lays to the rowing association. Their work was held somewhat in check by one of them being shot in the arm, after which they were more quiet.

MR. A. C. EVERETT, a Justice of the Peace at Galien, writes a very pleasing letter, telling about his lack of patronage and appreciation, says he has become tired of wind puddling, and has consequently resigned. That is usually a bad complaint to make, and one that looks as if there might be something wrong both ways. A man who has anything worth patronizing, and makes it known to the public, is pretty sure of a patronage, and if he doesn't get it, it is usually the fault of but one man.

CONSTABLE EVANS has in charge a rather young prisoner on a decidedly serious charge. His name is Wesley Hickman, his age ten years, and he is charged with the burning of a barn on Sol. Rough's farm, at Troy station, about two months ago. The complainant in the case is the Farmers Mutual Insurance company, who paid for the building. The boy is loth to talk about the fire. Upon being questioned about it, he says another boy lit a match and put it into the hay, but says he never saw the boy before or since and doesn't know who he was, although they were playing together at the time. The Insurance Company concluded that Hickman needed only to face a mirror in order to see the boy who lit the match, and have accordingly caused him to be arrested. He is the son of the Hickman who is now serving his time at Michigan City for the murder of the Ponder a few years ago.

GALLEN ITEMS. The following officers were installed in the Good Templar's Lodge Tuesday evening, August 2: W. C. T., Wm. Beach; W. F. S. T., Mrs. C. A. Clark; W. S. T., N. V. Chilton; W. T. S., Wm. Washburn; W. F. S., Wm. McMaster; W. M. Eddie Bakelstein; W. D. M., Dora DeArmond; W. I. G., Emma Nyles; W. O. G., John Beach; R. H. S., Luella Klesner; L. H. S., Emma Norton; W. C. P., F. B. Cushman; P. W. C. T., Porter Churchill. At their last meeting P. W. C. T., P. Churchill was elected a representative to the Grand Lodge.

Little Carl Witte died last Monday morning with brain fever. The funeral services were held at the German church on Tuesday afternoon. The body of Charley Roundy was brought to this place last Monday from Illinois. He was a brother of Amos and Frank Roundy, living south of Galien. He died of brain disease. John Mell lost his little girl last Saturday with cholera infantum. Query: Who hit Jo. McOmber with a basket of potatoes? Miss Sadie Fox, of Jackson, is visiting friends in Galien. J. H. Ritzler is going to start a restaurant first door north of barber shop.

In your paper two weeks ago was an item saying that Dr. Slocum of Buchanan had three cases of scarlet fever in Galien. Now the facts of the case are, there has been but one case which was thought, at first, to be scarlet fever, and that case was attended by Dr. Bulhand of this place. Dr. Slocum has no cases of that kind here nor never had.

Wm. Carpenter has gone into the grocery business, also a pool table, peanuts and soda pop. Messrs. Harris & Urnub will remove their stock of furniture and undertaking goods to Plattsmouth, Nebraska. The school house is being repainted inside and out, by parties from Niles. The grist mill is also to be repainted. Arthur C. Everett, formerly a Justice of the Peace in this township, has resigned his office and gone to Kalamazoo. The Galien boys can now do about as they please, and there will be no one to watch after them. Our marshal can take a recess.

At a regular meeting of Galien Lodge No. 203, I. O. G. T., held Aug. 9, 1881, the following preamble and resolutions were unanimously adopted: WHEREAS, It has pleased the Great Ruler of the Universe to remove from our midst Sister Ann McMaster; and WHEREAS, It is but just that we make a fitting expression of our esteem for the deceased Sister. Therefore be it Resolved, By Galien Lodge No. 203, I. O. G. T., that while we bow with humble submission to the will of the Most High, we do not the less mourn for our Sister who has been taken from us.

Resolved, That in the death of our Sister McMaster, this Lodge laments the loss of one who was an active member of this Society, whose utmost endeavors were exerted for its welfare and prosperity, and a friend who was in every way worthy of our respect and regard. Resolved, That the heart-felt sympathy of this Lodge be extended to her family in this their affliction. Resolved, That these resolutions be spread upon the records of this Lodge, and a copy thereof be transmitted to the family of the deceased Sister, and to the Berrien County Record, and the Michigan Independent and Reporter, and the Galien News.

[Niles Democrat.] B. M. Hance was struck by the engine of the Express train going west, while attempting to cross the track at the depot, in this city on Thursday afternoon last, sustaining severe bruises and a general shock, but nothing of a serious character. A German whose name we have not learned, was badly injured at the Pulp Mill on Thursday last. He was in the act of adjusting a belt, and had a stick in his hand at the time, which caught in the revolving pulley or shaft and struck him just below the breast bone knocking him over. How serious the internal injuries are cannot as yet be determined.

Boots & Shoes at reduced prices, away down for cash. WM. POWERS. You ought to see HIGHS' new Corset; a brand new thing. Remember that our New Goods were bought cheap, for cash, and we will give our customers the benefit. This is a fact. GRANGE STORE. A Great Notion. Many people think it cheaper to buy 25 cent sizes of proprietary medicine but they make a mistake. For instance, Dr. Wistar's Balsam of Wild Cherry contains about eight times the quantity of ordinary 25 cent cough balsams. Besides it takes a less quantity of Wistar's Balsam to cure a cold. A single dose is often sufficient. For deep seated Colds and Consumption it has proven itself to be the best and quickest cure ever discovered. Don't Make a Mistake. Why will you use salves and lotions, and other outward applications for the cure of skin diseases? The relief thus obtained can only be temporary. Why not strike at the root of all skin diseases by getting your blood and liver in a healthy, vigorous condition? This can only be done effectively and thoroughly by the use of Dr. Guyssot's Yellow Doek and Sarsaparilla. From the Berlin (Wm.) Journal. Dr. V. Clarence Fines, the analytical chemist, has visited this city regularly for years. During this time he has built up a practice by no means insignificant, the benefits of which, his patients can truly testify as being worthy of acceptance. He has treated all chronic diseases, none other. He has made them his whole study, both cause and cure, and his system of treatment, as developed in his numerous letters, show that he has the standard in mind. We have had personal dealings with him for years, and found him true to his word in every way. We have no hesitation in warmly recommending him to the public. Dr. Fines' Yellow Doek and Sarsaparilla. Price will be at Niles, Bond House.

Love Your Neighbor. When your friend or neighbor is laboring under bodily affliction, indigestion, biliousness, constipation, caused by impurity of blood, or disorders of the kidneys or liver, don't fail to recommend Burdock Blood Bitters, a sure and safe remedy. Price \$1.00, trial size 10 cents. Will it pay? Is the first question asked by the American people before an investment. That it will pay can be demonstrated to you beyond doubt; the total cost to give to you proof positive of what can be done in the worst case of Rheumatism is 75 cents invested in a bottle of Dr. Bosanko's Rheumatic Cure. The people of the West owe a debt of gratitude to Dr. Ayer for the production of Ayer's Ague Cure. Its timely use will save much suffering and much discouragement, and we recommend it with the greatest confidence in its ability to do all that is promised for it. ELIXIR VITAE FOR WOMEN.—Mrs. Lydia E. Pinkham, 238 Western Avenue, Lynn, Mass

TAKING DIANA'S PHOTOGRAPH.

The Way the Astronomers Make the Exciting Moon Shot for Her Likeness.

Photographs of the moon are not mere scientific curiosities. They not only serve a useful purpose in astronomical research, but they have a commercial value...

America is ahead of Europe in the art of celestial photography. Englishmen of science, who, like all Englishmen, have a keen sense of the value of special excellence in the work of their own countrymen, admit this.

Dr. Thomas, a dentist of Vienna, was summoned to Kirwin, in Russian Poland, to perform a dental operation upon the Countess Walecka.

Genius in the Ranks. "It is surprising," says an illustration, "to find so large a number of illustrious men—poets, authors, and men of science—who have led a soldier's life, and fought by land and sea, at home and abroad."

For those people whose embonpoint is a matter of solicitude, whether because it is uncomfortable or unbecomable, the following diet is proposed:

Anti-Fat Rules. May Eat—Lean mutton and beef, veal and lamb, soups not thickened with egg and broth; poultry, game, fish and eggs; bread in moderation; greens, cresses, lettuce, etc.; green peas, cabbage, cauliflower, onions, fresh fruit without sugar.

THE WHITE MOUNTAINS.

The Indians, it is known, inhabited these mountains long before the settlement of any portion of New England by whites.

The White Mountains, which were the hunting and fishing were good, and the ground favorable to their primitive mode of cultivating it.

It is not precisely known when or how these granite peaks first took the name of White Mountains. We find them so designated in 1673, by Jos. J. ...
