

Berrien Co. Record.

THURSDAY, OCTOBER 20, 1881.

Entered at the Post-Office, at Buchanan, Mich., as Second-Class Matter.

SUBSCRIBERS' RECEIPTS.

We wish all our subscribers to be particular to notice the date and their names upon their papers, and see that the accounts right.

NOBLE!

HAS HIS FALL STOCK OF Clothing,

Furnishing Goods,

BOOTS & SHOES.

Hats and Caps, Now in Store,

Mens Suits from 36 to 46.

Childrens, from 4 to 8 Years Old.

The Walker Boot.

A MAN must be sure of a good sole this weather.

Mrs. D. WESTON is away for a visit with her friends in Illinois.

The Chicago horse disease, pink eye, is complained of in this vicinity.

ALL out doors was white with frost yesterday morning. A real freeze.

AN office of the mutual telegraph company has been established in Niles.

JOHN MANSEFIELD is the happy dad of a seven-penned girl, born Monday.

The Niles district conference is in session in Berrien Springs this week.

WINTER will soon be here. Look out for a good amount of fuel in time.

COUNTY CLERK Himes and Register of Deeds Havens were in town this morning.

Mrs. TOURJE of Marshall, Mich., is visiting with her two sons in this place.

MR. E. BALLENGEE has bought the stock of goods in the post office news stand, of G. R. Hall.

OUR "equinoctial" storm appears to be a little extra this year. It has lasted nearly a month.

HARVEY ROGGE has been quite sick the past two weeks of typho-malarial fever and is still quite low.

Mrs. STANTON, mother of Mr. George Stanton, of this place, was buried in Oak Ridge cemetery yesterday.

Mrs. S. L. KINGERY and little daughter Elsie started this morning for a visit with relatives at Fayette, Ohio.

If Vennor don't let up on his rain we shall be tempted to send some gunner up that way to look after his case.

JAMES A. GARFIELD post No. 30, G. A. R., at Coloma, with 25 members, is the latest one organized in this county.

Miss MATE HOLLENBECK was called to her home in New York, Wednesday, by the news of the death of her brother.

We are under obligations to Mrs. V. Baker for a fine autumnal bouquet, it being composed of splendid specimens of radishes.

The machinery is being placed in Rough Brothers new building, in readiness for the work soon to be done there.

Mrs. ENMA EASTMAN, with her two little children, arrived last night for a short visit with her parents, Mr. and Mrs. N. Hamilton.

ONE would think from reading of the "matinees" in the Expositor that Benton Harbor borders on being a tough place.

THE Evening News Niles correspondent is trying to stuff the world with the idea that the old Reading House in that place cost \$100,000.

FARMERS do not enjoy this arrangement of the weather for doing their fall work. Too much rain for anything but duck hunting.

Mrs. N. FRAMME has a grand opening of millinery at her store to-morrow and next day, to which a number have been invited.

MR. F. F. CLARK informs the RECORD that he finds his corn yielding 50 bushels per acre. He planted early and tended regularly.

MR. JAMES WILSON of Greeley, Iowa, is in Buchanan for a short visit. Called here on account of the shooting of his nephew, Jether Johnson.

BUCHANAN has not been behind her neighbors in furnishing aid to the Michigan fire sufferers, both in cash and goods.

BERRIEN COUNTY was represented at the Yorktown celebration by Messrs. J. J. Van Ripper, Wm. Chamberlain, L. M. Ward and L. C. Fyfe.

CARPENTERS and masons in this place are having all they can do this fall, and it is next to impossible to find one for any small job.

GEO. A. HARRIS, a resident of this place for a number of years, has opened a watch-maker's shop in Niles, and will soon move his family to that city.

THE Mite Society of the Oak street church will be held at the residence of Mrs. Daved Dutton next Thursday afternoon, Oct. 27. All are invited. Gentlemen to tea.

FARMERS who were troubled last spring with replanting their corn on account of seed not being good, should profit by the experience and give it a good care this fall.

In mentioning the marriage of Miss Lura Dutton, last week, we said she married Joseph Skalla, when the groom's name is Paul Skalla. Quite a difference.

A new bridge in the alley leading to Rough & Pears' grist mill, and the filling of gravel at each approach, is a great improvement to that part of town. More work is to be done there yet.

The funeral of John Morrison, Sen., and old and highly respected citizen of Benton Harbor, was held in that village on Monday last. He was 65 years of age.

To see the large number of stoves purchased by our two hardware firms this fall would lead the beholder to think that Buchanan intended to supply the whole county.

The Mirror says that the contract has been let for building a new bridge across the river at Bertrand. The old one was carried away by the high water several months since.

A savage dog fight drew a crowd on Front street. The men who will stand calmly by and see their dogs fight, as in this case, are just a little better than the dogs. Not much.

MR. ROYAL MORRIS has commenced the manufacture of the Excelsior carpet stretchers in the upper story of the Zinc Collar Pad buildings. Back in his old quarters.

THE St. Joseph Republican is well filled with news on the railroad aid bond business. The attempt of the holders of the bonds to force collection of the amounts does not appear to set very well.

FRANK WADE, who was mentioned last week as having been accidentally shot by a revolver in the hands of his cousin, Byron Mason, died Monday evening from the effect of the wound.

Mrs. FRANC WHITMAN has gone for a one month's visit among her relatives in Brooklyn, Jackson county, Michigan. The RECORD endeavors to keep her posted on Berrien county news while away.

MR. JACOB MITCHELL will sell at auction, on Sunday, Oct. 24, at his residence, 3 1/2 miles south-west of Dayton, a lot of personal property, consisting of stock, lumber, stove wood, etc. Charles Evans will do the talking to the crowd.

The following are the officers of the St. Joseph and Benton Harbor street railway company: J. H. Wicker, Pres.; Jas. Higman, Sec. and Treas.; J. C. Caldwell, Supt. The road will not be built until next spring.

FOR a short time only trial subscribers are being taken for THE ECHO, the weekly edition of THE DETROIT EVENING NEWS, at nominal rates. Anyone can have a copy three months for the trifling sum of ten cents. Nothing cheaper in the way of a newspaper was ever known.

THE Benton Harbor canal is getting to be the subject of a great many remarks. People who live along its banks say it stinks from the decayed vegetable matter thrown in it by parties living at its head.

A stock company has been formed in Dowagiac to enlarge the facilities for the manufacture of Warner's spring tooth harrow at that place. They did it just in time, for Buchanan was after that at a good pace.

A young man named Alex. Renno was caught in the fly-wheel of the engine of the Times office, in South Bend, one day last week, and given a few whirrs that broke several bones and badly bruising the flesh.

MR. J. DHOFF was treated to a grand surprise by his friends Saturday evening, the occasion of his 30th birthday, at which he was made the recipient of a fine lot of presents. Mrs. Imhof has the credit of managing the surprise, which was complete.

SEE the new advertisement of the Arcade Clothing Store in this paper. Our experience with the manager of that store leads to the belief that nothing is said in the advertisement that he will not carry out.

AUNT sufferers have put in their appearance and are thicker than fiddlers in h--ades.—St. Joseph Republican. When you go there, Mr. Republican, you will find no fiddlers. There is another place specially prepared for them, nine miles farther on, called Fiddlers' Green.

CONCERT.—Prof. S. W. Straub will give a grand concert at Rough's Opera House on Friday evening, Oct. 23, assisted by Mrs. S. W. Straub, Mrs. Emma Sherwood, the eminent mezzo soprano, and a chorus of eighty well-trained voices of Buchanan. This will undoubtedly be one of the finest entertainments we will have this season and ought to be well patronized. The admission is only 25 cents, with reserved seats at 35 cents.

BEFORE the rains there were several cross-walks in various parts of this place, but it is about impossible now to tell very much about it. Where they were is now from three to eight inches deep with mud, aside from those on Front street in the business part of town. Those who travel in the outskirts of town like to go on clean walks as well as others, and a little time spent in cleaning them would not be badly used.

AN engineer on the Michigan Southern road discovered a lot of silverware secreted in some corn shocks near the track, between Terre Coupee and New Carlisle, last week. He noticed something bright in the side of a shock and stopping his engine went to examine the shock with the above result. The goods are supposed to be a part of those stolen from a party in South Bend a few months since.

MR. W. S. WELLS has bought the house and lot at the northeast corner of Front and Detroit streets, of George McNeill. Price \$2,000. This is a sample of the rise in property in Buchanan. Mr. McNeill paid \$1,000 for the same property eighteen months since.

THERE is a person in this city whose presence sours milk, fresh from the cow, in two hours. That is quicker than thunder and lightning can do it.—Niles Mirror.

We did not think the editor of the Mirror would tell this about himself, but as it was known by everybody else no harm is done.

It is reported here this morning that George Shinn, of this place, who has been working on the Joliet division of the M. C. R. R. as brakeman, had both his legs cut off above the knees, yesterday, near Lake Station, and that he had since died from his injuries. He left here Sunday.

Mrs. DUNNING has gone to Chicago and will return with a large assortment of stylish Bonnets, Hats, Feathers, Plushes, &c.; in fact everything of the latest styles in Millinery. She will remove her stock to her residence, one door west of the post-office, next week, where she will be glad to receive her old friends and patrons, and as many new ones as desire to see her stock. Until then she will be at her old place of business.

It is amusing to see the efforts made by the nearly full-grown boys about town to be engaged in something elevating. The latest employment is standing around the street corners with a tin can and waxed string, pulling the string through their fingers, making the most unearthly noise ever heard. If the same amount of ingenuity were exercised in a useful way the world would hear of a revolution in science at once.

THE case against Dick Mowrey, in St. Joseph county, Ind., court, for assault on Tom Fawcett in New Carlisle a few months since, was tried last week. Mowrey was found guilty and sentenced to pay a fine of \$75, and be imprisoned in the county jail six months. This is a lighter sentence than he or others who knew the circumstances expected or could well have asked for.

A shooting scrape took place near St. Joseph, Oct. 12, in which H. E. Chamberlain shot at his baby then at his wife. When Ed. Wadsworth interfered and received the third shot in his neck, the ball passing clear through the neck near the thorax on the left side to just below the left ear, and in front of the jugular vein. Not a fatal wound.

THE hearing of the DeMott pork case has been continued to next term of court. There are a little less than one hundred witnesses in this case already come to light, and it may develop into considerable of a lawsuit before they get through with it. Plenty of food for hungry lawyers. A rich man in defence against a county. Both able to stand it.

THE potatoes raised in this and adjoining counties this year are unusually large and of a most excellent quality. It may sound like "carrying coals to Newcastle," but before many years large quantities of potatoes will be shipped from this section to the southern portion of the State.—Alpena County Pioneer.

Send down a few carloads now and you will find a ready market for them here at over \$1 per bushel.

MR. EMILE KOENIGSHOF, of Bertrand township, has commenced suit in the circuit court against the drain commissioner of this township for damages to his meadow, in draining Clear lake and the adjoining marsh into the meadow lands below his, thus interfering with the drainage of his meadow. The Clear lake ditch enters the McCoy creek, which runs through Mr. Koenigshof's meadow, below the Drybread marsh, and about one-quarter mile below his meadow.

REV. MELVIN DALRYMPLE of Bengal, Mich., formerly a member of St. Joseph Annual Conference U. M. Church, but now a member of the Michigan Conference, paid his parents and friends of this village a brief visit last week. He was in fine spirits and enjoying good health. He speaks in commendable terms of the country and people where he was called to labor this year.

SEVERAL thousand dollars worth of trade has gone from this vicinity to Chicago by the cheap excursions on the Michigan Central, this fall. Parties go there for sight-seeing purposes and when there buy a supply for the winter, many times paying as much or more than the same goods could be had for in Buchanan. They forget that this trade belongs to the men who build up and keep alive their home town and make valuable your own property, so long as they will do by you nearly as well as you get served elsewhere. By taking this away from them you injure them, and at the same time injure yourself more than you calculate.

SATURDAY some children went from this place to Fred Andrews' field to gather hickory nuts, taking their dog, and the dog took to worrying Fred's sheep. Fred saw this and went to the field, captured the dog, took him home, kept him in good style over Sunday, and came to town with him Monday to find the owner, and while looking, the owner cut the string and let the dog go to leave Fred to meditate.

THE success of THE DETROIT EVENING NEWS has been most wonderful. Prior to its establishment no Detroit daily had ever had a regular issue of 5,000 copies. The founder of THE NEWS hoped to gain 10,000 subscribers, but deemed it would be a work of some years. Notwithstanding, the paper closed its first year with a circulation of 12,000. At three years it reached 17,000, and 20,000 copies were then put at the limit of possibilities. But 20,000 was reached and passed in the fall of 1878, since which period the growth has been steady and constant, until to-day it exceeds 35,000 copies per day—a circulation surpassed by but few daily newspapers in the United States. And all this has been won by sheer merit alone.

A LETTER received from Acra, N. Y., this forenoon, informs the RECORD that Mrs. Harriet Webster, well known by all in this place as Aunt Webster, died of dropsy of the heart, Oct. 5, aged 76 years.

Highway Improvement Association. At a meeting of the citizens and taxpayers of Berrien County, held at Grange Hall in Berrien township, Oct. 13, 1881, for the purpose of discussing subjects pertaining to the improvement of our public highways. O. Ingoldsbee was called to the chair, and E. Murphy was chosen secretary. Owing to the unfavorable condition of the weather, the meeting did not convene until one o'clock, and immediately took up the subject for discussion, viz.: "Resolved, That an entire money tax for the support of public highways would be preferable to the present system of a labor tax. Those on the affirmative were Thos. Mars, A. Keigley, Levi Sparks and Royal Tuttle. Those on the negative were R. V. Clark, Otis Sterns, and A. L. Drew. The manner in which the speakers entered upon the work was evidence that each was well prepared for the occasion. At the close of the discussion the convention, by a vote, decided in favor of the affirmative. The convention was well attended by both ladies and gentlemen, and the interest manifested is conclusive evidence that the public is being awakened to the object of these conventions. On motion the secretary was instructed to furnish to the county press copies of the record of the convention, for publication. On motion the convention adjourned, to meet in Buchanan the second week in December next. ERASTUS MURPHY, Secretary pro tem.

BRIDGEMAN ITEMS. Not seeing much news from this town in your paper I will furnish a few items. Too much rain all this month. Church services were entirely interrupted by the rain yesterday. Bad walking in the evening kept the people from church, but did not hinder the travel of such young gentlemen as found themselves at a distance from home near the early hours of morning. Yesterday was the occasion for services by Rev. Mr. Hawkins the new M. E. pastor, whose service four weeks ago was received with much approval. We anticipate with much pleasure the continuance of his labors. Two weeks ago was the time for his second Sabbath with us, which was forestalled by the funeral service of Mrs. J. Giles which was conducted by Rev. V. H. Helms. Rev. P. B. Parry commences his third year next Sabbath as pastor of the Congregational church of this place. This fact indicates the approval which has attended his labors. His people are hoping to occupy their new church soon. The work of building has been greatly advanced by the persevering efforts of Mr. A. S. Wright (if you spell it Wright you'll get it wrong) not only by much work on the building, but still more by soliciting and obtaining from societies abroad money and material, as well as a bell, a stove, a desk and chairs for pulpit, and other things. Mr. J. D. Thompson has also given much time and attention to the building. Sam Seelke, Thos. Daker, Geo. McCallum, S. Mallett, A. Weston, F. Weston, N. Weston, C. Wheelock, O. A. E. Baldwin and others have aided in such work as could be done by those who are not carpenters. Repairs on the school house in replastering and a new foundation of stone are in progress but will be delayed by the sudden death of the mason, Mr. Hunter, of Berrien. Our townsman, Mr. Isaac Vanuiter, will finish the plastering. OBSERVER.

[Berrien Springs Journal.] St. Joseph girls ride horseback clothespin fashion.—The adjourned investigation into the case of the late Henry Hackett, of Pipestone township, came to his death, was concluded on Monday, and the jury were unanimous in the opinion that no foul means were employed, and that he died from natural causes. [Niles Democrat.] The Michigan Wood Pulp Co. is now engaged in putting an addition to their already large mill. The present mill is 156 feet long by 55 feet wide. The addition is 156 by 94 feet, with a boiler house 40 by 50 feet, and an office 12 by 20 feet. This when completed, which will be before the first of January, will be the largest building in Berrien County. The new building will be used for manufacturing Wood Pulp Paste-Board, for making boxes, an article in great demand. [St. Joseph, Republican.] The St. Joseph spinning and Knitting Works is now turning out 250 dozen pairs of socks and stockings per day. Lightning struck a large barn in Waterloo township, belonging to Mr. Olney, on Friday night last, and the building and contents were completely destroyed. Loss, \$4,000. What about the St. Joseph Valley railroad? It has been stopped all interest in this project? One-half of the required aid has been raised, and there the matter seems to rest. It seems that with a little proper effort the balance could be obtained, and the right of way has already been secured, nothing would stand in the way of commencing the work and pushing it to an early completion. Proceedings of the Board of Supervisors. The board of supervisors met at the court house on Monday of this week. The townships were all represented except Lincoln, Chickaming, New Buffalo and St. Joseph. The law passed by the legislature last winter, forbidding children under sixteen years being confined in the same cell or room with adult persons, supervisors Howe, Guy and Chamberlain were appointed a committee to suggest a suitable room in the jail for their confinement. On motion of supervisor Baldwin, the sum of \$400 was ordered to be assessed to be divided between the agricultural societies of the county. The board refused to grant a license to Frank Stiner to run a ferry across the St. Joseph river, between Sodus and Royallton. There was quite a fight over the question. Messrs. Ashoff, Baldwin, Chamberlain, Howe, Landon, Haskins and Barron voted in favor of the license, and Messrs. Brown, Beckwith, Edwards, J. Fisher, Z. Fisher, Guy, James Stern, and J. C. Weston, against it—seven for and nine against. Supervisor Chamberlain offered the following resolution, which was adopted: Resolved, That we extend to Charles F. Howe, supervisor, from Bertrand township, our thanks for the very able manner in which he represented this county at the late meeting of the State board of equalization.

On motion of Supervisor Sterns, the compensation for boarding prisoners in the county jail was fixed at fifty cents per day after October 14, 1881. The committee of preparing a plan for a room in the county jail for the confinement of children under sixteen years, made a report of a plan with an estimate of expense at \$140, which was adopted. The committee on redistricting the county into two representative districts, made majority and minority reports, and a vote taken showed an equal division of the board. Permission was given to the St. Joseph and Benton Harbor street railway company to maintain a street railroad over the bridge at St. Joseph. The county clerk was appointed purchasing agent of the county. The superintendents of poor made their annual report and asked for \$4,000 for the next ensuing year. The committee appointed by the last board to investigate and report on straightening the State road in Bertrand township between the lands of Geo. H. Rough and Sol Rough, reported adversely. Thos. C. Bradley was elected superintendent of county poor.—Journal.

Additional locals on second page.

Locals. Call on Mrs. WELCH for a fine Lithograph Portrait of President Garfield. \$25.00 reward to any person furnishing information that will lead to the arrest and conviction of the person or persons who took the rubber springs from our Planer and Mather, stored in the Park ground sheds. "WINE OF CARDUI" cures irregular, painful, or difficult menstruation. For sale by D. Weston. Mothers! Mothers! Mothers! Are you disturbed at night and broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases,

RAGS.

An industry worth millions in it. The rag trade is a very important one in this country.

There are 50,000,000 of people in the United States, and a wholesale rag dealer to a reporter who had called upon him to obtain some information regarding the business.

While the rag merchant was talking he led the reporter into the cellar of his four-story warehouse, and showed him the place where the rag is made.

He said that no one in Chicago outside of the business had any idea of its proportions and importance.

The second floor of the building was found to be occupied by "paper stock,"—the rags, etc., from which paper is manufactured.

On the third floor of the building were found to be occupied by "paper stock,"—the rags, etc., from which paper is manufactured.

The conglomerate mass of material was to be sorted by the wholesale dealer before he can ship it to his customers.

Upon the second floor of the establishment were to be seen long rows of bins, each of which was kept for the stowing away of one particular kind of rag.

Another row was devoted to dark blue, another to red flannels, another to plaid linens, and others to blue cloth, light colors (gray and checked), blue colors, and clear blacks.

They enter into the manufacture of new goods. "Shoddy" would you like to see some?

The reporter assented, and the rag-merchant produced half a dozen bundles of wool, which he said were of a very fine quality.

"I can sell rags from which such shoddy as this made at 25 cents a pound, and at a better time I could sell them at 15 cents a pound.

"Why not? The wool is good. The price is high, and the market is good; altogether unobtainable."

Chicago draws her supplies of rags from a very wide range of country. The adjacent States—Minnesota, Nebraska, Kansas and Colorado.

The Albanians are always fierce and warlike race, and their Turkish conquerors were never able to bring them into complete subjection.

The native Albanian is of middle stature; his face is oval, with high cheekbones; his neck is long, and his chest full and broad.

At the conclusion of a bunch court in Scotland, recently, the prosecutor said to his assistant: "You'd better lock up all the pens and other things; the police are coming to see us."

George Wyman & Co. South Bend. Head, nerves, kidneys, bladder, womb, and blood. Affections of the urinary organs, gravel, rheumatism, catarrh, asthma, bronchitis, dyspepsia, etc.

THE NATURAL BRIDGE. The Natural Bridge property is now in the process of extensive improvement, including a fine hotel and other attractions.
