- While riding from the court room to the jail Saturday afternoon, Guiteau was shot at by a man riding along the procession on horseback. The bullet came pretty close to the criminal, but did not break the skin, but did badly frighten him, to which his laundryman can abundantly testify. An eccentric farmer living a few miles out of the city, named Wm. Jones, was arrested as the one who did the shooting. The policemen are in doubt about the man having the right man. There was no appearance of a conspiracy with which several are connected, to shorten the route to the end of justice in punishing the victim.

AYERS, representative of the Bell Telephone Company, will be in this place in a few days, and will have an instrument with which to give our citizens an exhibition of its workings, by connecting this place with Kalamazoo. BROTHER COOK had a premonition of what the future has in store for him, yesterday afternoon. He was melting a pot of tar on his office stove, when it took fire, and things had the appearance of getting warm thereabout. The fire was extinguished without the aid of the hose, and fortunately the editor was saved from serious loss.

THE following letters remain in the post office in this place, unclaimed: Harriet Anderson, Geo. S. Cook, (dead letter), Mrs. Victoria Cole, Mr. H. S. Coen, Joe Korn, 2 Martin M. A. Bukjanning, care Henry Nord, (foreign), David Pressler, H. J. Wright, Miss Alice Welsh.

L. P. ALEXANDER, P. M. NOV. 24, 1881.

IN the darkness of last Thursday night some one walked off from the bridge across the river at South Bend, at a point where the hand railing had been missing for some time, and was drowned. It shows carelessness to leave a bridge in such a condition that might be termed criminal. It has since been learned that the victim was Zach Morris, of that place.

THE following we find in the Detroit Post & Tribune of last Friday. It may be looked upon as a warning, that we may be prepared for the dread disease to appear in Buchanan at any time without previous notice:

BENTON HARBOR, November 17.—Considerable anxiety is caused by two cases of small-pox reported in St. Joseph. It was brought from Chicago by a man who had been visiting there.

A portion of the sidewalk on the west side of Day's avenue, between Wisger's lot and the railroad, is sadly in need of repair. Its present condition, the same that it has been for several months, is decidedly dangerous. The arrangement of the walks at that place does not appear to be the best, and the building of a new walk from the east side of the avenue to the railroad, and raising the cross-walk at the head of the avenue would be a healthy change, and make a more safe if not more convenient way for foot passengers to reach the depot these dark nights. This is a job for the two railroad companies.

IN reply to the Record's article of Nov. 17, regarding the extension of the Narrow Gauge Railroad to St. Joseph, the Evening Herald has the following, which we suppose is intended for the directors of that railroad, and may be taken as an indication that St. Joseph people have an idea that the company is obliged to build to St. Joseph whether any aid is given or not.

THE Evening Herald suggests that the St. Joseph Valley Railroad had better be content with the amounts already tendered, and commence the work of extending the road to this point. Delays are dangerous, sometimes, to a railroad company.

LAKE TOWNSHIP has at last made a move toward the settlement of their R. R. aid bonds debt. The debt amounts to about \$35,000, and by a committee appointed for that purpose, consisting of Isaac Hathaway, Joseph Giles and William Williams, have agreed for the township to settle with the holder of the bonds for \$25,000, to be paid in annual payments of two per cent on the assessed valuation of the township, per year. Mr. Williams, however, objected to the arrangement on the grounds that the proposition should first be submitted to a vote of the township and has a long communication in the St. Joseph Herald sustaining his minority proposition, but as a majority rules such bodies, the question may be considered as settled, with the exception of paying the bill, for that township.

A Sure Sign. When the great public of so large a town as Buchanan, Michigan, is comprehended by America and Great Britain, and her colonies, give the choice to any particular newspaper, it is a sure sign that it is a good one. There are many newspapers in the world, but none that have a wider reaching popularity than THE DETROIT FREE PRESS. Its pure and elevated tone, full, correct and timely news reports, and interesting general information, seem to be exactly what the public want. Unquestionably THE FREE PRESS will suit every one at all particular in their choice of family newspapers. It is \$1.50 a year.

THE following are the real estate transfers recorded since our last report: Caroline C. Collins to Jacob D. Hill, two lots in Buchanan, Consideration, \$300.

A CASE of considerable interest is being tried before Justice Landon of Niles. The complaint was made by John Elias of Vessaw, Oct. 2, against Jeremiah Warfield, his neighbor, charging him with shooting his cow the day before. The warrant for Warfield's arrest was placed in Constable Evans' hands, and Warfield, getting word of it, fled the country. He could not stay away, but returned to live among the choppers in the woods south of Galien, just over the State line, when Evans learned of his whereabouts, and accompanied by Sheriff Clarke, brought him in. The trial has now been in progress two days, and is adjourned to December 6.

Mr. Elihu Vedder, the well-known American artist, lately returned from Rome, has been working since last summer upon a permanent cover for THE CHRYSTER MAGAZINE. The new cover, which is just completed, is to consist, not of one design, but really of five—four of them for the different seasons of the year. Surrounding each are appropriate emblems for every month in the year, and in each will appear an emblematic female figure of great dignity. The midwinter cover will, perhaps, be the most striking of all, as in the background is seen the Aurora Borealis. The general color of the paper of the present cover will be preserved, whilst the ink will be of a somewhat deeper tint, and the general massing of the letters will also be retained; otherwise, the design is entirely fresh and original.

An Enigma. It is so cheap that everybody can get it. No household is complete without it. We all want it. It is enjoyed fully by the old and the young.
