A tornado made a bad scattering among movable property in Saline county, Mo., Tuesday. Eleven persons were killed.

A number of Chicago gamblers have been fined \$100 to \$300 and have all given bonds and appealed to higher courts, which will probably mean higher fines.

Mrs. Boynton, the only sister of Eliza Garfield, died last Friday at Hiram, Ohio, aged 75 years. This is the eighth death in the Garfield family in thirteen months.

The House did not agree to the Senate bill to return the franking privilege which ends that story. The members had had time to hear from their constituents on the subject.

The way they manage things in Hockensidem is to have a law requiring saloons to be closed at 11 o'clock p. m., and have them open and murders committed in them at between 12 and 1 a. m.

It looks like a pretty cheap trick for Congressmen to vote themselves the privilege of franking their mail matter and then accept the \$125 a year allowed them for postage and stationery.

A reduction of letter postage from three to two cents would not be apt to increase the amount of letter writing in proportion to the decrease in cash, so long as the present rate for third class matter remains as at present.

Dennis Kearney is terribly down at the mouth over the action of the President over the Chinese question. If the country were rid of him there would be but little more heard of trouble with the Chinese.

The West is to be asked to donate \$15,000 toward building a Christian church in Washington. Several citizens of the west may be found who don't care very much whether Washington Christians have a church or not if they are not able to build it themselves.

The Ford Brothers pleaded guilty of murder in the first degree, and were sentenced to be hanged on May 19. Gov. Crittenden immediately pardoned them, and they will not hang. It will now be a game of hide and seek between them and Frank James, to see which gets the first shot, and another murder trial.

If you want to touch the hearts and pocket-books of the American people, murder some one or make the attempt and leave your wife in such circumstances that when you go to jail she must work for a living and the lucre will tend directly towards you. A general subscription has been started for the widow of Jesse James. Jesse captured a number of hundred thousand dollars but his poor unfortunate widow doesn't know just where he buried it.

What safety to the prisoner who is under guard of the union soldier if he happen to be in ill repute with the country, when such rewards are paid for shooting at defenseless prisoners, as are now being paid Mason for his action in the Guiteau case. He is receiving \$1,200 per year and his wife \$125 per month for selling goods, and at the same time the generous public is making up a handsome purse that is coming up into the thousands.

The Grand Traverse Herald, in a long dissertation, expresses doubt about the qualifications of Thomas W. Ferry for the third term in the Senate, and asks for a bill of items of Mr. Ferry's acts in public work. The principle trouble with the Traverse Herald is that Jay Hubbell lives in that vicinity and the Herald man can't see through his shadow. If he had kept his eyes and ears open during the past twelve years he would not have needed an itemized bill. Here is a little corner of the State that will support Mr. Ferry when the time comes, before which there will be plenty of time for the Herald to get its bill of items.

Proclamation.

STATE OF MICHIGAN, EXECUTIVE OFFICE. To the People of the State of Michigan: Whereas, At the session of the Legislature for the year 1881, the following resolution was adopted, to-wit: Resolved, That the Governor be and is hereby requested to call the attention of the people of the State to the importance of planting trees for ornament, protection, and shade, by naming a day upon which this work shall be given a special prominence, to be known and designated as "Arbor Day."

Now Therefore, Pursuant to the foregoing resolution, I do hereby designate Thursday, the 27th day of April, 1882, to be known and designated as Arbor Day, and recommend the general observance of the same throughout the State. In testimony whereof, I have hereunto set my hand and caused the great seal of the State to be hereunto affixed at Lansing, this tenth day of April, 1882. DAVID H. JEROME, By the Governor. WM. JENNY, Secretary of State.

Oregon Correspondent.

PORTLAND, Oregon, April 4, 1881. EDITOR RECORD.—Four weeks ago I got very badly hurt by a fall of 25 feet. It came very near ending my life. I am now able to walk out a little, but not able to do anything else. I write this that my friends in Berrien county may learn that I am gaining slowly.

The weather here is very fine, the fruit trees are in bloom, and farming and gardening being pushed rapidly. Great preparations are being made all over Oregon to put in large crops.

A great deal of railroad building is being done in this State. The North Pacific will be completed to this city in a very few months. The location for one of the grandest and most magnificent depots in the union is already established in this city. It will cost \$1,500,000.

Any man that is disposed to work can get all he can do here. Times are good and a great deal of building is being done in this city. This is going to be a prosperous year for Oregon.

The immigration to this State is enormous. Every steamer is loaded with from 250 to 500 passengers, and they arrive every few days.

A man was hanged in our county jail yard last Friday at 11 o'clock, his body was given to the medical college in this city.

The boom in real estate is tremendous, there is hardly any reasonable price to be fixed for property.

Politics are booming. The Republican State convention will be held in this city April 20, and the Democratic convention the 12th inst.

Oregon elects this year a United States Senator, member of Congress, Legislature, State and county officers. The legislature to elect the United States Senator is what is going to take wire-pulling, but I believe that Oregon will be true Republican, and that Hon. John H. Mitchell is the coming man.

J. B. Carr, a Portland boy, has graduated with high honors in the law department of the university at Ann Arbor, Mich.

Every effort is being made to carry the State for prohibition of the sale and manufacture of liquors in Oregon.

It is almost impossible for the school board to keep pace with the steady tide of immigration and keep school houses enough in this city.

J. L. SMITH.

Our Western Trip.

DAYTON, Mich., April 14.

MR. EDITOR.—Please allow me space in your paper to answer the many questions put to me regarding the west and northwest. We leave Chicago at 9:30 p. m. (sleeper of course), via Chicago, Rock Island & Pacific railroad and the great Albert Lee route, arriving at Davenport at daybreak, ready for breakfast, which we get in the dining car.

The ride through Iowa is splendid. Nice farms and residences dot the lands as we fly along from city to city. We can say for this road that it is in good order, nice cars and quick time. We follow some distance the Cedar river, a pleasant stream with its great hills where we meet with an occasional landslide on a small scale. We also have the reclining chairs on this route without extra charge. We arrive at Minneapolis the next p. m. after leaving Chicago. View the city with its great water power, falls and four mills, etc. Saturday, April 1 finds us at St. Paul with the thermometer telling us it was seventy above zero, as nice as any Michigan day with nice clear air. Leave St. Paul about 6:30 p. m. we anticipate the west and trip over the Northern Pacific railroad.

The country from St. Paul to Fargo, Dakota, is varied from straggling oaks to heavy pine timber with some open and good farming land and farms under cultivation. Piles of clean lumber and farm machinery greet the eye at every station along the line.

At Brainerd are division head quarters of the Northern Pacific railroad. Here we find Mr. B. McHugh, division superintendent; and Mr. N. D. Root, division superintendent of telegraph. Mr. McHugh was formerly Chicago agent of the Michigan Central railroad, and Mr. Root train despatcher at Michigan City. From Fargo west we go through the famous Dakota wheat farms such as the Dalrymple and others of smaller magnitude. The soil is a shade darker than black and very strong. Messrs Kimberlee & Green, of Dowagiac, have a small farm (only 3,000 acres) joining the Dalrymple farm. This farm was bought for about \$20, per acre.

After leaving Valley City the country is more rolling and hilly. We saw no wild game except geese, ducks, &c. and they could be counted by the thousands. At Bismark we saw a bear killed because he was too familiar with a lady on the street. Bruin was tame but too friendly.

We were of the opinion that after leaving St. Paul the road would be rough and the speed very slow, but found the road in excellent condition and speed as good as eastern roads.

At Jamestown 368 miles from St. Paul we found Messrs. Churchill & Webster, well known in this vicinity, in the drug and grocery business up to ears and want more help. Each of the firm have a half section of land, bought two years ago for \$2.50 per acre now worth \$10.00 cash. Men have made their fortunes here by the purchase and sale of town lots. The place has six hotels filled to overflowing, the smallest feeding 150 guests per day, fine churches, &c., and one large elevator, Messrs. Bush & Corwin, from Grass Lake, proprietors. They bought last year 110,000 bushels of wheat, and this is only the second crop for the township. They pay at present \$1.20 to \$1.35 for wheat. This town is populated with Michigan people most entirely and has the advantages of eastern villages and cities. Most every man and boy you chat with has his farm or section of land. There have been large amounts realized from the sale of town lots and land.

We find a great demand for help of all kind at from \$1.75 to \$4.00 per day, and in some cases \$5.00. First-class board at hotels \$2.00 per day, same as Michigan, Illinois or Iowa. In short we would say there is the place for a young man to make his stake. Plenty of land not surveyed that can be taken as homesteads, pre-empted, or tree claimed, which means a farm at your own price.

The Big Show.

We-to-day give place in our columns to the announcement of the coming to Buchanan, Saturday, April 29, of Maybury, Pullman & Hamilton's Great United Mastodon Circus, Museum and Menagerie. This show consists of one of the best circuses ever engaged for the tenting season, a museum of natural animals and inanimate curiosities, works of art and mechanism, and a menagerie replete from attractive and rare representatives with all the varied species of the animal kingdom, an array of varied plumage, and an aquaria of living marine monsters all combined in one grand exhibition, under one management, and one admission fee admits to all. The show is the best of the season, and the Exposition building at Louisville, Ky., and made its debut in that city for the present season on April 7 and 8. The press of that city are lavish in their words of commendation and praise of it. The following extract from the Louisville Post of April 8 speaks for itself, and coming as it does from a disinterested source, at once stamps the show, in our estimation, as it does with the general public, as being a first-class in every particular, as well as all that it is advertised to be. The Post says: "The Maybury, Pullman & Hamilton circus opened in Louisville yesterday under such auspicious circumstances. The afternoon house was rather small on account of the hard rain, but at night the great canvass was crowded to overflowing. The principal attraction of the consolidation is unquestionably the circus. The menagerie is good in every detail. The performance in the arena is certainly of a very superior character. It is compact and neat throughout. Not a single specialty is unattractive. The tumbling of the Karls and Baldwin and the Ziegler Brothers is by all odds the best and newest that has been seen here in a circus ring. Miss Sullie Miller is a charming and meretricious and wonderfully skilful, although yesterday, owing to the fact that her horse was inexperienced, she fell to do herself justice. Miss Pauline Lee is an equitribune of note and merit. She was loudly applauded last night, as was also Mons. W. H. Gorman, whose hurdle race is fairly thrilling. A specialty worthy of extra mention is the dog circus, presented by Prof. Will Smith, a talented entertainer. Prof. Smith has the best party of trained dogs on the road. There are many other attractions in the circus performance, and each of them is meritorious. The tumbling and leaping was also of more than ordinary worth. Maybury, Pullman & Hamilton haven't the largest show on the road, but what they have cannot be surpassed."

Rescued From Death. William Conger, of Somerville, Mass.: "In the fall of 1876 I was taken with a violent bleeding of the lungs, followed by a severe cough. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I was so far gone at one time a report went round that I was dead, gave up hope, but a friend told me of Dr. Wm. Hall's Balsam for the lungs. I got a bottle, when to my surprise and gratification, I commenced to feel better, and to-day I feel in better spirits than I have in the past three years. "I write this hoping every one afflicted with Diseased Lungs will be induced to take Dr. Wm. Hall's Balsam for the lungs, and be convinced that Consumption can be cured. Sold by druggists. 183

Woodruff, Newburgh, N. Y. The above is one of many letters of the kind received by Dr. David Kennedy, of Rondout, N. Y.

A Novel Cure for Scrofula, Salt Rheum, Cancer, Etc. A discovery has recently been made which adds lustre to the nineteenth century. It consists simply in an extract from the Red Clover Blossom, as extracted by J. M. Looze & Co., Chemists, who have gone into the business largely in order to supply the increasing demand. For sale by J. Weston.

J. M. Looze & Co., Toledo, Ohio, January 17, 1882. Gentlemen—My wife has for some time been afflicted with some kind of a disease, and found no relief until she gave your extract of the Red Clover tincture. This has brought her back to her former health, and she is now as well as I. This is a slight testimonial of my appreciation of your medicine, and I am sure you will be very respectfully, J. M. Looze & Co.

MICHIGAN CENTRAL RAILROAD. MAIN LINE. Time Table—March 20, 1882.

Table with columns for destination, mail, accom, and night express. Destinations include Chicago, Detroit, Toledo, etc.

The "ACME" cuts over the entire ground and leaves no ridges. Harrows had on Trial, and returned if not found as represented.

The "ACME" subjects the soil to the action of a CRUSHER AND LEVELER, and at the same time the Cultivating, turning, and the peculiar character of STEEL COULTERS, effecting a double cut and arrangement of which give immense cutting power. It is especially adapted to trenched and hard clay, and "sough land," where other harrows utterly fail, and it also works perfectly on light soil.

In this paper may be found the prospectus of the New York World.

The little colored boy, "Skip," came back to see the boys Monday.

We call attention to the advertisement headed "Pumps," in this paper.

The calls for real estate for purchase are increasing in number.

Dogs gave William Kinney's sheep a call recently, and killed four lambs.

DANIEL HIGBEE was commissioned as postmaster at Bertrand April 10.

IRA WAGONER has been limping about, all because he rolled a log on his foot.

The April shower this morning came in shape of a snow storm. A small one for a cent.

ST. JOSEPH Council oblige saloon keepers in that place to give \$5,000 bonds. The same here.

The little boys and some of the big ones have two weeks of enjoying the circus. The bills were up on Monday.

DAN MORRIS SULLIVAN'S Mirror of Ireland, one of the best shows that ever visited Buchanan, will be in South Bend Saturday evening.

SOME people still continue to address Prof. J. A. Jordan as Mr. Copland. We see but one way out, and that is for Mr. Jordan to get a new face.

NEARLY all of creation and a few of the neighbors, were out for a walk last Sunday, the first comfortable day in two weeks.

THERE are three ladies in this county, sisters, who weigh 600 pounds. Two of them 211 each, and the third 178 pounds.

WE are waiting to hear from the telephone company that is to connect Berrien Springs with St. Joseph, and Niles with South Bend and Kalamazoo.

THE Evening News says Beckett's circus is a huge fraud. Just wait until we hear from Benton Harbor, where the first performance is to be given.

MR. E. BALLENGER has bought the second lot north of Second street, extending between Main and Oak streets, of T. P. Morten of Kalamazoo, for \$350.

THREE new houses on Fourth street will soon be ready for living purposes, and a lot on West street, a short distance north of Fourth, has been laid out for a new building.

CAPT. N. ROBBINS, of Benton Harbor, has been appointed superintendent of the Life Saving service for the eleventh district, in place of Capt. Bartlett, resigned.

ONE of the finest electrical displays ever seen in this section of the world was viewed by those who were fortunate enough to have been out late last Sunday night.

MR. JOSEPH NUTT, in the north part of this township, is the possessor of a lamb that was born without eyes. It is now about a week old and at last account was alive and doing well.

BEING a resident of West Front street, we would respectfully inform the Common Council that one or two large cisterns for fire protection are sadly needed in that neighborhood.

CAPT. A. C. BARETT has resigned his position as superintendent of the life saving district. He prefers managing a steamboat, and will have charge of one to ply between Benton Harbor and Chicago.

AH! It's a Niles man who runs the quill of the Benton Harbor Times Palladium. Hence the great amount of nonsense about Buchanan, Berrien Springs and the narrow gauge railroad. It is all plain now.

MR. LEIGH, a former resident of this place, has sent some fine samples of Massachusetts butter to some of his friends in this place. Pretty nice butter, but we think we have seen as good that was made in Michigan.

At the annual conference of the Evangelical church recently held in Oregon, Jasper county, Rev. J. H. Keeler, of the Portage Parish church, was appointed Presiding Elder of the Monroe District, to be located at Litchfield, Hillsdale county. The Portage Parish church is to be under the charge of Rev. C. S. Coffield, now of Benton Harbor. Mr. Keeler removed to his new home Tuesday.

THERE is a plank culvert, or part of one, near Mr. Horace Black's residence on River street, that sadly needs the attention of the street commissioner. The village doesn't want to pay for any broken horse legs.

BUT few towns have more enterprising, wide-awake merchants than Buchanan. For proof of this we refer you to their large display of live advertising in the Record columns, and to their larger display of goods.

AN examination of the peach buds in this vicinity shows that the majority are alive and healthy, although a few are blackened by the late frosts. Enough are left to make a good crop where there are trees.

A NEW advertisement appears in the space belonging to Crofoot Bros. this week. They have been piling the new goods into their store by the dray load, this week, and the appearance is that they mean business. Go and see what they are doing.

MR. GRAYES, chief engineer of the St. Joseph Valley Railroad, returned to Buchanan from his work on the St. Joseph extension, Tuesday, and will submit a report at the next meeting of the directors, which will be held in a few days.

THE following letters remain uncalled for in the post office at Buchanan, Mich., for the week ending April 20, 1882: Martin Anderson, foreign; Miss Gene Batson. Postal cards: Lorenzo Butterfield. Drop: Mr. Frank Griffin. L. P. ALEXANDER, P. M.

FIRE broke out in the upper room of Mr. J. A. Van Rippe's house, on Day's avenue, last Saturday night, but it was extinguished without making an alarm or doing any serious damage. Its early discovery was very fortunate.

ON Friday of next week we shall send to the bindery all pamphlets and magazines left here to be bound or old books for reparing. If you have any work of this kind you want done, bring it in before that time.

THE sidewalks in this place are getting in an actually dangerous condition in many places, and it would be policy on the part of the Common Council to order the present walkways torn up or new ones made at once. No walk at all is better than many of those in present use.

THE committee on sidewalks was out on a tour of inspection Tuesday afternoon, and have a long string of sidewalk on the block that must come up to make room for new on short notice. If your sidewalk is bad you may expect to be called upon at any time.

THE river steamer May Graham came up to this place last Friday, and again Monday, returning with loads of brick, furniture, and some of the Buchanan wind mills, besides a number of passengers who went to Berrien Springs for a pleasure ride, returning on the narrow gauge railroad.

FRANK ALEXANDER, a colored man well known in this place, died at the residence of Mr. Freeman, near the M. C. depot, Saturday night, after a sickness of several months of lung complaint. The funeral, which was held in the Oak street Advent church Monday, was quite generally attended by the citizens.

THE editor of the Reporter classes the Supervisor from Three Oaks as a Greenbacker instead of a Democrat. This makes the footing, Republicans 11, Democrats 3, Greenbackers 3. Mr. Conner is announced by Three Oaks party as a Democrat. Sometimes it is hard to tell about those fellows.

THE butchers in this place complain that the supply of fat cattle in this vicinity is about exhausted, and that they shall be obliged to go to Chicago to buy beef for the local market. When that becomes necessary we may look for another advance in the price of that article of food.

FIRE broke out in Mr. S. L. Estes' house, on Day's avenue, occupied by Mr. Thomas Shenstone, Saturday forenoon, and was making quite a lively smoke before the fire company could get water there; but the fire, soon disappeared after work was commenced. \$50 or \$75 will cover the loss. No insurance.

FARMERS, this week we publish an advertisement of the Acme Harrow, for sale in this township by Mr. H. J. Howe, of Berrien Springs. This harrow is highly recommended by those who have used it. Read the advertisement and then get one of the harrows and try it.

WHILE sitting at our office window Saturday noon, we happened to see two fellows take Zenas Bird's little boy by the heels and duck his head into the nearly ice water of the race. A rather contemptible trick, and one for which they ought to be punished. The fellows were "Button" Evans and Frank Thomas. The only good reason for doing so that could be seen was pure cussedness.

THOSE who visit New Buffalo now find good accommodations at the old McCarter House, now in charge of Mrs. Fanny Hess and Mr. and Mrs. Ingles, formerly of this place, who have refitted and renovated the establishment, and are now running a first class boarding house.

THE following high recommendation of the business of a Buchanan man we find in the St. Joseph Republican: "Mr. James B. Rodgers, of Buchanan, is having a big demand in this section for his Champion steam pipe and boiler covering. He has made St. Joseph his headquarters for some time past, and has had the satisfaction of seeing his invention adopted by nearly all of our mill men and not a few steamboat owners. They all speak in terms of the highest praise of Mr. Rodgers' patent, and recommend it as being the best thing of the kind now before the public. Mr. Rodgers contemplates making St. Joseph his home before long, that he may be better enabled to meet the rapidly increasing demand in this section for his useful and valuable invention."

THE RECORD learns that arrangements are to be made in a short time by which people may go from this place to Chicago by direct connection by way of St. Joseph Valley Railroad, River steamer and across the lake, and land in Chicago early in the morning, and that the fare for the round trip, to include berth on the lake boat each way, to be very materially less than by the present means. When the arrangement is completed a number will go that way instead of by rail, even at the same rate.

THE young fellow named Fuller, who started a class in penmanship and book keeping in this place a few days since, went to some other place last Saturday night to return no more. He collected his tuition from nearly all of his class. The men who boarded him and furnished the hall are "out." He is a young fellow about twenty-five years of age, tall, and carries his head about one story ahead of his body, not a bad looking fellow, but a good one to keep at a distance.

LAND SALE.—Mr. Enoch Egbert has sold his farm of 180 acres, consisting of 160 acres on Portage Prairie, about four and one-half miles south-east of this place, and 20 acres of timber land in Niles township, just south of the road between this place and Niles, for \$10,500, or \$108.33 1/3 per acre. Mr. Charles F. Howe is the purchaser. This is the second farm that has been sold in this vicinity this spring for \$100 per acre or more. On account of this sale, Mr. Egbert will sell his personal property at public auction, at his home, on Thursday, May 11. For full particulars, see his bills which will be out on Saturday of this week.

SOME excitement was created in this place Saturday morning, by the announcement in the Chicago papers that Henry Kline, a German about forty years of age, had hanged himself at Kensington the day before, on account of trouble with his wife. The story coincided so well with the circumstances connected with the family of the Henry Kline who was in T.M. Fulton's store, that it was thought he was the one, but a postal card from Mr. Wm. H. Cox, who is at work in that place, informs the RECORD that Henry is alive and well, and at work in Chicago.

A MAN named George Luther was killed by three drunken fellows, named Joseph King, John W. Smith and Andrew Langerderfer, in W. K. Seitzer's saloon, at about 12:30 last Thursday morning. The three men went to their homes directly afterward, and were arrested early in the morning, and in default of \$3,000 bail each now rests in the South Bend jail, charged with manslaughter, and will be tried at the next term of court, which convenes May 20. It looks like a plain case of penitentiary.

H. A. CHAPIN, of Niles, enjoys a reputation of \$70,000 a year from tin mines owned in the Northern Peninsula. Such enormous profits are one of the results of protection. The consumers pay him a handsome royalty.—Detroit Times.

NOW why tell such a story as that? Protection has no more to do with that than it has with the rent of a farm that is being operated by some one who does not own it. The Menominee Mining Company pay Mr. Chapin 50 cents for every ton of ore taken from his mine by them, and this is Mr. Chapin's rent, the same as the farmer's two-fifths of the grain raised upon his farm by another man is his rent. Please do not try to make free trade bumcombe in that way.

FROM an article recently published in the Chicago Times it would appear that all is not lovely with the work of building the grade of the new railroad that is steering toward Benton Harbor. The Times article says: "Two very troublesome sink-holes have been found in the road-bed of the Cincinnati and Wabash railroad at Benton Harbor. One is about 200 feet, the other about 250 feet long. These are in the old road-bed of the Elkhart line, and were discovered and filled up twice in 1870, when that road failed, and nothing more was done to them. The bed was leveled up quite early this spring and remained for some time, but finally settled entirely out of sight in one night. The last time it held up three weeks and began falling down about two o'clock in the afternoon while teams were driving over it, and was as bad as ever before dark. Contractor Collins says that sand and great amounts of timber and brush have been put into these places, yet they do not seem to find any better result. When they caved in a few days ago, mounds were raised on each side about four feet high. The track is in a marshy place near Oak creek, and the engineers are at a loss to understand what kind of holes they have found. It is impossible to obtain the desired number of teams, and the contractors fear they cannot get these places ready for the iron by the 1st of May, as expected."

Council Proceedings. A special meeting of the Common Council of the Village of Buchanan was held at the residence of the President, on Friday evening, April 14, 1882. Present—J. D. Ross, President; B. D. Harper, Recorder; Trustees Barrow, H. J. Mowrey, Powers, Rough and Weisgerber. Moved by Mr. Mowrey, supported by Mr. Barrow, that Trustee Hinman and the Recorder be and are hereby appointed a committee to revise the By Laws of the village. Motion adopted. The President appointed Trustee Powers as a member of the committee on Streets, Sidewalks and Bridges. Moved by Mr. Hinman, supported by Mr. Barrow, that Dr. L. W. Baker be and are hereby appointed Health Officer of the village of Buchanan for the present year. Motion adopted. Moved by Mr. Mowrey, supported by Mr. Powers, that the wages of day laborers for the present year be fixed at \$1.50 and for man and team at \$2.75 per day of ten hours. Motion adopted. Moved by Mr. Rough, supported by Mr. Powers, that the bonds of liquor dealers be fixed at \$5,000 for the present year. Motion adopted. Moved by Mr. Hinman, supported by Mr. Barrow, that the Common Council adjourn. Adopted. B. D. HARPER, Recorder.

[Three Oaks Sun.]

Joseph James, while passing John Babcock's orchard, in Weesaw, saw Mr. Babcock's little girl, about seven years of age, hanging in an apple tree near a dead. It appeared that the child had climbed into the tree and slipped in such a manner that the back of her head became fastened in the fork of the tree, she tried to release herself, but could not. She saw Dr. Bulhard pass and cried to him for help, but not hearing her, he passed by. She then gave up struggling for liberty and thought she must die. She was held in the tree for one hour, when James discovered her. She lost her reason and was brought to by restoratives.

Special Railroad Excursion.

Special arrangements have been made between the managers of the St. Joseph Valley Railroad and the agents of Maybury, Pullman & Hamilton's great show, whereby a special ticket will be sold by the railroad for one dollar, which will enable citizens at Berrien Springs and all way points on the road, to come over to Buchanan, visit the show, and return home on the same ticket. Four trains will be run on this road that day, and every facility will be offered for the accommodation of pleasure seekers. Remember that it only costs one dollar to come over from Berrien Springs, go to the show and return home. Do not fail to purchase your ticket at the post office in Berrien Springs.

By the advertisement of Charles Wright & Co. in this paper, it will be seen that they intend closing out their business on May 1. This is the date of the opening of a new saloon at the next door east of their store, and as his business is not of the kind that is liable to flourish in that kind of company, and no other suitable room being procurable, it is the intention of Mr. Wright to move what is left of his stock at that time to another town. It does not look like a very profitable trade for the town to exchange a good store for a saloon, but such is the condition of things.

HILL'S CORNERS ITEMS.

April 18, 1882.

ED. RECORD.—Farmers busy putting in spring crops.

Belden Haynes is the only happy man in this part of the country. A boy; weight eleven pounds.

We understand that work will soon be commenced on the new church, in order that it may be finished by the next centennial.

The few who took in the colored gentleman's fish show, a few nights since, were treated to a huge feast, from what we can learn. From the appearance of the fellow, and in his putting in a good share of his time looking after hard cider, we should say he is a tramp, in the full sense of the term.

Otis Sterns is erecting a dwelling house for Jacob Miller, near Buchanan. George Boyce is making preparations to commence a new house soon. Samuel Flowers is putting down a drive well, having already reached a depth of one hundred feet.

GALLEN ITEMS.

Peter Critchell has begun work on his new house, just west of the shoe shop.

The Good Templars will have a mush and milk festival next Monday evening, April 24. Every one is invited.

Ed. Harris will build a new house on the Emery lot this spring.

Geo. A. Blakeslee has returned home.

"Queen Esther" was given three evenings last week.

Eddie Blakeslee is home on a visit from school.

Sheriff Clarke was in town on Monday.

Whitewashing and cleaning house is now the order of the day.

Moore is in town visiting his brother Charley.

There are several horriblestink holes near "hitching posts" in front of the stores that should be attended to. Also some of those yards back of the stores north of the railroad is a sight to behold. NIMROD.

Locals.

Miss J. M. MEAD has opened a stock of Millinery Goods in the room formerly occupied by the grocery department of Fulton's store, first door north of the bank, and solicits a share of the trade of the ladies of Buchanan and vicinity. A first-class trimmer is employed, and she guarantees fine work of the latest styles and at living prices. Call and see her work and goods.
