

Berrien Co. Record. JOHN G. HOLMES, Editor. THURSDAY, JULY 27, 1882. Republican State Convention.

Congressional Convention. A Republican Congressional Convention of the Fourth District, to nominate a Representative in Congress, will be held at the Court House in Buchanan, Michigan, on Wednesday, August 30, 1882, at 11 o'clock A. M.

Republican County Convention. A Republican County Convention will be held in the Court House, Buchanan, Michigan, on Wednesday, August 2, 1882, at 10 o'clock A. M.

On the 1st of January Michigan had 4,284 miles of railway, and only eight States have more, while 39 States and Territories have less.

Whether guilty or not, Hon. J. A. Hubbell, who wants Senator Ferry's place in the Senate very bad, is receiving prominent but not at all complimentary mention in the papers all over the Union.

The "little difficulty" between England and Arabi Pasha, in Egypt, seems to be growing instead of diminishing in proportions. The following is the summary in the Inter Ocean this morning of the situation yesterday:

"An attempt was made last night to surprise the British outposts at Ramleh, but it was a signal failure, the Egyptians beating a hasty retreat under the fire of the British batteries. The Garrison at Aboukir, numbering 2,000 men, has declared its loyalty to the Khedive, and the Egyptian vessels have been dispatched to take off the men and strike the guns. Orders have been issued in England for the immediate embarkation of a large portion of the Egyptian expedition.

FERRY-HUBBELL. The friends of Mr. Hubbell seem to have taken to a singular manner of warfare to help their companion overcome the popularity of Senator Ferry among the Republicans of this State, but they will find it to be a boomerang that will return and strike their champion instead of hitting the mark they intended it should.

Mr. Voorhees is no convert to protection, and is really no more in favor of that policy now than he was all the years in which he held his party platform in favor of free trade. He is not a convert to protection, and is really no more in favor of that policy now than he was all the years in which he held his party platform in favor of free trade.

Michigan is not a State to be sneezed at as a land of big fires, malaria and mosquitoes. She, last year, according to statistics, turned out 2,330,000 tons of iron ore, 15,000,000 bushels of salt, 4,000,000,000 feet of lumber, and more copper and more charcoal than any other State in the Union.

Harvesting of the winter wheat crop is now nearly complete except in Dakota and the northern parts of Michigan, Wisconsin and Minnesota. Some weeks since the agricultural Bureau estimated that the crop of winter wheat would amount to 224,750,000 bushels. About the same time private estimates were made placing it at 304,000,000 bushels.

In this State the yield is exceptional. The crop is nearly all saved and in a superb condition. The hay crop was never equaled in the memory of the oldest inhabitant. Cattle are looking splendidly, and corn is climbing into the air rapidly.

It is now assured that the country will have a great surplus of wheat and corn to sell. And there is every prospect of a fair corn crop. Abundant wheat and hay ought to send down the price of flour, of beef and butter, and of other things generally.

Prospects of the Narrow Gauge Extension to this City. Hon. C. B. Potter, a prominent attorney of St. Joseph, Mo., Major Graves, chief engineer of the Buchanan and Berrien Springs narrow gauge railway, and Mr. J. S. Meekling, a railroad expert of Chicago, were in this city last evening, and stopped over night at the Hotel de la Ville.

STATE ITEMS. Over 400 new buildings are being built in Mt. Pleasant this season. On Saturday, at Eckford, a boy named Reese had part of one of his feet cut off by a mowing machine.

PHUN AND PHYSIC. A Virginia goat was killed and in its stomach was found a knitting needle, several needles, a pair of buttons, a part of a garter-knife, and several other similar articles. The question before the meeting is, Did that goat ever eat a woman?

SKILL IN THE WORKSHOP.—To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organs are so troubled as to appear, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthened, his sight become clear, and the whole constitution built up to a higher working condition.

Forest fires are raging furiously in the vicinity of Harrison. A long drouth has made everything dry as tinder and heavy destruction to timber is looked for.

Connable & Co., of the Jackson brick and tile works, have settled the suit for damages brought by the friends of Luke Tompion, who was killed by an explosion at the works a month ago, by paying his mother \$1,000 and also meeting various expenses incurred.

A large nose may be a sign of character, but what's the character? No one wants to go to the expense of building an addition on his nasal organ until he knows more about what he will be taken for.

The Young People's Picnic. The sixth annual meeting of the Young People's Picnic Association of Berrien County will be held at Barnard Grove, Berrien Springs, on Wednesday, August 2, 1882, at 10 o'clock A. M.

THE article in last week's RECORD, which we found in an exchange credited to the St. Joseph Republican, was originated by the St. Joseph County Republican. With a change of the name of editors our comments will then apply. Such "snails" are quite common down in that part of the State.

In conversing with quite a number of farmers in this vicinity, nearly every one tells us that he is disappointed in the yield of his wheat when he comes to thresh it. Those who were sure they would get 20 bushels to the acre have to be content with about 18, and those who thought they would get 18 bushels get 16, or less and so on down.

MR. GEO. A. HARRIS met with quite a serious accident yesterday, at the farm of Mr. John Pears, east of town. He was assisting Mr. Pears to catch his hogs when one of them tripped him up, throwing him in such a manner as to break his collar bone. He was taken home and Dr. Baker called to attend him.

Nobody considered it a joke when the Buchanan RECORD said it would print 250 envelopes for \$1. The Era never asked more than \$4 per 1,000.—Era.

That's about the size of it in other towns, but the RECORD never asks more than \$2.50 for a thousand envelopes, neatly printed, but will not put stamps on them at this price.

G. A. R.—There will be a stated meeting of Wm. Perrot Post, on Wednesday evening, August 2, at 7 1/2 o'clock, and it is hoped that every member will be present, as we have a number of recruits to muster.

THE meat dealers in this place inform the RECORD that owing to the fact that the South Bend and Niles butchers who are selling best cuts for fifteen cents are thus enabled to pay a better price for stock, they must either furnish their customers with the poor scrub cattle, close their markets or charge more for their meats. They have concluded to do the latter and from next Monday best cuts of steak will be sold for fourteen cents.

We received a call from Mr. Harper, foreman of the Buchanan Record, on Monday last. He came down the river, for rest and health, on the large and elegant side-wheel steamer, "Nettie June." In looking at this "jumbo" of river boats, through a telescope, we conclude it is a thing of life and nearly as large as a St. Joe mosquito.—Benton Harbor Times.

St. Joe mosquitoes must be nearly as large as Buchanan's smallest ones.

DIED.—The remains of Mr. John Arthur were brought here from Kankakee, Ill., on Monday night, and on Tuesday were buried beside the grave of his mother, on the lot of his sister, Miss Mary Arthur, in Oak Ridge Cemetery. Mr. Arthur was a former resident of this village, and moved away from here in 1861. He was born in New Glasgow, Prince Edwards Island, and at the time of his death, which occurred at Kankakee, of consumption and dropsy, July 22, 1882, was 63 years, 6 months and 27 days of age.

THE State Teachers' Institute for Berrien County, will be held at Niles, commencing at 2 o'clock P. M. Monday, Aug. 14, and will close on Friday following. Some of the most experienced and successful instructors have been engaged to conduct the various exercises, and every thing will be done to make this Institute both entertaining and instructive. There will be no tuition for enrollment fee. Full particulars may be obtained upon application to the local committee, Prof. F. Landon, Niles, Mich.

BENTON HARBOR is stirred up about a case of incest. Some Eastern chap told the Expositor man that he had come out to Berrien County to see his girl, but was surprised to find her living with her father as his wife, and the mother of four children by him. The Editor says the chap "wept like a child" while relating his story, "but no inducement could be offered to get him to give the names of the guilty parties." The case is horrible if true, but we are inclined to discredit the story.

THE Dowagiac Republican prints the ticket it would like to see nominated at the State convention. It contains the names of D. H. Jerome, for re-nomination for Governor; E. H. Stanton, of Ionia, for Treasurer; A. B. Copley, of VanBuren, for Auditor General; and Hon. J. J. Van Riper, of this village for re-nomination for Attorney General. It also wants Senator Ferry and Representative Burrows to be their own successors.

THE lawn social held at the old school house grounds last evening, under the auspices of the Ladies' Aid Society of the Christian Church, was a pleasant affair. The attendance was large, as were also the receipts, the society netting \$50.00. We are requested by the society to return their sincere thanks to the band and singers for their services, and to all who attended for their patronage.

J. D. MCCORD.

CAMP MEETING.—The posters, which will be out in a few days, will inform the public that the Niles District Camp Meeting will be held at Crystal Springs, commencing Tuesday, Aug. 15, and closing on Wednesday, Aug. 23. Wednesday, the 23d, will be Missionary day, and the same day the Niles District Conference will be held at the Chapel on the grounds. The boarding hall will be under efficient management, and so no huckstering will be allowed within statutory limits. The following will be the rates of admission: One person, one admission, 10c; for session, 25c; single team, one admission, 15c; for session, 30c; double team, one admission, 15c; for session, 50c.

THE Benton Harbor Times-Palladium has the following: "There seems to be a little local opposition at Berrien Springs to the re-nomination of Walter J. Himes for County Clerk. We have not yet heard charges made against Mr. Himes and know not, whether or no, these parties have anything to say against the manner he has conducted the business of his office. Upon inquiry, we find leading Republicans here think most favorably of his re-nomination, and that they intend to give him their united support. We hope between this and our next issue, we may be able to give a more complete account of his re-nomination, will inform us, and the people, of all the charges they have to bring against him. If Mr. Himes has done his work well, say so; if he has proved himself perfectly capable of doing so another term may be so. No little personal animosity should be allowed to deprive an upright, honorable and competent officer from his rights to office a second term."

This about meets our views of the County Clerk question. We had hoped to see Mr. Himes re-elected, and have taken some trouble to examine his work, and so far as we are able to discern, it is most excellent, but if any one in Berrien Springs has discovered anything to the contrary, we shall be pleased to have them fully explain before the convention is held. We do not want the name of any incompetent man to appear on the ticket, and if everybody outside of Berrien Springs have been deceived into the belief that Mr. Himes is a good and competent officer when he is not, now is the time to have it known. Let the whole story be told or stop barking.

THE case of the People vs. Edward Bachman, William Tyler and George Stevens has terminated in an unlooked for manner, the father of Minnie Harris filing a complaint against her, alleging that she was a common prostitute, to which charge she pleaded guilty and was sent to the Michigan reform school for girls, at Adrian, until she is twenty-one years of age, unless the board of control of that school shall deem it proper on evidence of reformation on her part to discharge her sooner. In Minnie's direct evidence against these defendants she told a very plausible story, and on her cross-examination she did not contradict herself, but the attorney for the defendants laid a good foundation to impeach her. After she had sworn positively that she had never before the 30th of May last, been in the barn at Niles, when she claims to have been forcibly detained and defiled, the defendants showed that she had been there on the 6th of May for evil purposes. She then told the Prosecuting Attorney that she was at Carlisle Hill, on the 6th, 7th and 8th of May, visiting some of her friends by the name of Smith, and that she left Carlisle Hill on Monday the 8th of May, and went to Niles with her acquaintances, who were on their way to Kalamazoo to accept situations in a restaurant. In order to have these witnesses subpoenaed to prove an alibi the last adjournment of the examination was granted, a subpoena issued, and Deputy Sheriff Palmer sent an entire day around Carlisle Hill to find the parties, but without success. On his return to Buchanan he saw Minnie and she finally acknowledged that she had never been to Carlisle Hill, and afterwards admitted that she was in Niles on the 6th of May, and in the barn for a part of two days and one night. While there is no doubt that she was in that barn on the 30th of May, there is also no doubt that she was there with her own free will, and only concocted the story of forcible abduction and defilement after she was arrested with the man Bachman, near Niles, in order to save herself from prison at that time. She is now in a good place, but what of her male companions in crime? It is a shame to our State that there is no law that will reach them. They are left to go free and enact the same scenes over and over again, and hold up their heads among their fellows, while their victims will be arrested and sent to prisons or reformatory institutions. It is not time for our legislators were enacting laws looking to the punishment of male prostitutes as well as female ones?

Common Council Proceedings.

A special meeting of the Common Council of the Village of Buchanan was held at the Council Room, in Engine House No. 1, on Tuesday evening, July 25, 1882.

Moved by Mr. Mowrey, supported by Mr. Powers, that the time for the collection of the taxes for the village of Buchanan for 1882, be and the same is hereby extended from the 25th day of July to and including the 25th day of August, 1882, and the Assessor directed to make the proper extension on the tax-roll accordingly. Motion adopted.

Moved by Mr. Powers, supported by Mr. Mowrey that the Common Council adjourn. Adopted.

B. D. HARPER, Recorder.

[Berrien Springs Era.]

The steamer May Graham is doing a splendid freight and passenger trade. Flour in this place last Wednesday from 74 to 40 cents per one-eighth barrel sacks. There is an effort being made to establish a college at Benton Harbor, under the supervision of Prof. J. B. Blackwell of University of Carlisle, Ill. We heard a man remark the other day that "business was dull." On looking over our county papers we see that this man don't advertise. He has our sympathy. John A. Cassander, who is thriving in the neighborhood of the bend of the river, which is a good wheat producing district, informs us that the crop will not average over sixteen bushels to the acre. There has never been so much interest taken by one people in the forthcoming Young People's Picnic. The park is being put in splendid condition, and nothing will be left undone to make every one happy.

[Niles Republican.]

A friend tells us of a simple, and, he thinks, effective remedy for destroying cabbage worms. This is simply sour milk, sprinkled on the growing cabbage with a small broom or anything of the kind. It is worth trying. Mrs. Joseph McClung died very suddenly on Saturday evening, the 15th inst., of a heart disease. She had gone to spend the night with Miss Minerva Earl, on Broadway, and in a few minutes after retiring she complained of a pain about her heart, whereupon she got out of bed, but only lived a very short time. Mrs. Earl, sister of Mrs. McClung, who lived on Second street, died on Wednesday, after an illness of only three days.

[Benton Harbor Expositor.]

Mr. Gillette, of the Benton Harbor Plow Company has gone south, in the interest of the company. John Donahue, of Coloma, has a tame eagle which he captured near Thunder Knob, about five weeks ago. The bird is about ten weeks old and will weigh fully ten pounds, and is between four and five feet from tip to tip. When he captured it he had quite a lively time with the old eagle. As first there was but one old one, and when it found it couldn't drive him away it left and in a few minutes returned with two others when the fight began. He says they would swoop down and grab at him with their claws. They came so near that he struck them with a short stick he had in his hand. He has named his bird "Eagle Johnny." It is a bald eagle. He had it in town last Saturday and many took a look at the American bird.

Builders have long felt the need of some durable material to prevent shingles from decaying and tin and iron from rusting. We have a patent Water and Fire Proof Paint that we guarantee to stop all small leakages, prevent shingles from decaying and tin and iron from rusting, and where it is once applied it makes the roof better than new, for one roof painted will last longer than three covers of shingles. This paint is clear from acids or alkalis, thus leaving the water perfectly pure. Its composition is such that it remains in an elastic condition for years, at the same time hardening on the surface sufficiently to allow walking over without injury. Owing to its elasticity it accommodates itself to the expansion and contraction of the metal, and does not crack or peel off. WHITE & KINGERY, BUCHANAN, MICH. Disinterested Witnesses. GALLEN, Mich., May 30, 1882. MR. B. T. MORLEY, Agent for STEVENS' Thresher: In answer to your favor, I will say, I have run threshing machines (several different kinds) about 20 years, and ought to know something about them. I fed the STEVENS with a table and a pitcher on both sides. It feeds easy and even, and threshed as fast as they could pitch, and cleaned it good without wasting grain. I consider it the best Separator in use, both for the farmer and parties running it. Very respectfully, WILLIAM BREWER. As far as fast threshing and good work is concerned, the STEVENS caps for themselves. You can't find any wheat growing in them or around them. JOHN BAYTON. PHUN AND PHYSIC.

A contemporary asks, "How shall women carry their purses to frustrate the thieves?" Why carry them empty. Nothing frustrates a thief more, after following her half a mile, and find that it contains nothing but a receipt for spoiled peaches and a faded photograph of her grandmother. Don't Be Alarmed at Bright's Disease, Diabetes, or any disease of the kidneys, liver or urinary organs, as Hop Bitters will certainly and lastingly cure you, and it is the only thing that will. All flesh is grass and that is why so many men nowadays appear to have had their hair cut by a lawn mower. With Diamond Dyes any lady can get as good results as the best practical dyer. Every dye warranted true to name and sample. An advertisement in a western paper says: "Lost—Two cows; one of them is a bull." So is the advertisement. Don't Trust them. When you feel badly, and have pains here and there in your body that you don't know how to account for, it is the most foolish policy in the world to take the advice of people who say: "Oh, there's nothing the matter with you. Let yourself alone and you will come out all right. These folks know nothing about it, and may be trifling with your life. You may have kidney or liver trouble. Send right out to your druggist and get a bottle of Dr. David Kennedy's 'Favorite Remedy' and then you will be all right, or write to the Doctor, at Rondout, N. Y. 'Mr. D.—if you'll get my coat done by Saturday I shall be forever indebted to you.' 'If that is your game, it won't be done,' said the tailor. A North county fish-wife went to buy a dress. "None of your gaudy colors for me," she said at once to the counter man, "give me silk red and yellow." An Impossibility. Deserving articles are always appreciated. The exceptional cleanliness of Parker's Hair Balsam makes it popular. Gray hairs are impossible with its occasional use. "Mr. Smith," said a lady at a fair, "won't you please buy this bonnet to present to the lady you love?" "I won't," said Mr. Smith, "I'm a married man." How it was Done. "How do you manage," said a lady to her friend, "to appear so happy and good natured all the time?" "I always have Parker's Ginger Tonic handy," was the reply, "and thus easily keep myself and family in good health. When I am well I always feel good natured." Cows and Cow Branding.

There are several kinds of cows; for instance, there is the town cow, a very ancient kind, that lives in the front garden at night and crowds her stomach with valuable shrubs and costly tropical plants, and that sleeps on the sidewalk in conveniently dark places, where people can fall over her and get out of their way. Then there is the country cow that you see in chromos, standing meditatively in shallow streams or pools of water with her tail curled in the shape of a letter S over her back, or being driven home in the twilight along shady lanes by barefooted boys—that same cow that, out of the picture, is always breaking into the corn and being chased by dogs and infuriated farmers. And there is the cow with the crumpled horn, and the ambitious cow whose lunar feet is recorded in the ancient nursery rhyme, but more important than all these is what might be called the literary cow—the one that is ornamented with fragments of the English alphabet, roam over the Texas prairie; she has no pedigree and is seldom found at agricultural fairs or stock exhibitions. She is built in the Tudor style of architecture, and is principally composed of lean rib roasts and soup bones attached to a wide spreading pair of horns. Her time is mostly taken up in eating grass and in trying to lose herself.

A Texas cow, when she is new, is worth from \$10 to \$15. She is called a "fresh cow" and is what might be called the literary cow—the one that is ornamented with fragments of the English alphabet, roam over the Texas prairie; she has no pedigree and is seldom found at agricultural fairs or stock exhibitions. She is built in the Tudor style of architecture, and is principally composed of lean rib roasts and soup bones attached to a wide spreading pair of horns. Her time is mostly taken up in eating grass and in trying to lose herself.

There are millions of cows in Texas. Some men own more than 100,000 head of cattle. There are several cattle owners who each brand from 5,000 to 25,000 calves every year. The cow is a very curious animal. She is very intelligent and has a great deal of character. She is very fond of her calf and will protect it with her life. She is also very fond of her milk and will work hard to produce it.

John Adams' Shattered Horse. John Adams, said his friend and colleague Thomas Jefferson, speaking of the Congress which issued the Declaration of Independence, "I think Adams was our Colossus on the floor. He was not graceful nor elegant nor remarkably fluent, but he came out occasionally with a power of thought and expression that no other man could equal. He was a great deal of a philosopher, and his mind was full of ideas. He was a great deal of a statesman, and his words were full of wisdom. He was a great deal of a patriot, and his heart was full of love for his country. He was a great deal of a man, and his life was full of honor and glory."

HISTORICAL.

CRUVEILLER prohibited the sale of baldrics. By a Council of Arles, in the fifth century, suicide was pronounced to be the effect of diabolical inspiration. The earliest fact respecting the history of Scotland is the Roman invasion under Agricola in the first century. In a recently published letter of Macaulay, the historian says of William Penn, "I think Penn a poor, shallow, half-crazy creature." Knights played games in the time of Richard I. and a knowledge of cards was deemed an accomplishment in the character of a bishop. In the reign of Charles II. it was made a crime to attend a meeting place of worship, and for the first time a man might be sentenced to transportation beyond seas for seven years. GLADIATORIAL games are said to have an Etruscan origin; they were introduced into Rome 264 B. C., when the two sons of a man named Brutus compelled a pair of gladiators to fight at the funeral of their father. SHAKESPEARE never seems to have invented a name. Among the people living in the sixteenth century were York, Simon Cathing, Pohn, Bartholph and Nyant. The origin of the name of William Penn is uncertain. It is certain that John and Isabel Mabb were owners of the Fabard Inn, in 1590. In 1752 the Government of Spain, being determined to restore the navy, found it necessary to send to England for apprentices, they were also obliged to send to England a number of persons who would make ropes and canvas, the skill of the natives being unequal to such achievements. The modern clubs of London and other large towns are said to have originated in London after the close of the Roman wars, about 1815. A number of half-pay officers, being compelled to economize, formed a club, where they could dine together at less expense than they could separately.

The French live up to the reign of Charlemagne contained exactly a pound of silver. Philip I. died in 1108, and the amount of silver, and this example was so zealously followed that at the time of the Revolution the livre contained less than one-seventy-eighth the silver it had in the eleventh century. CHARLES II., the last of the Austrian dynasty in Spain, was ignorant to a degree which seems almost incredible. He did not know the names of the large towns and provinces in his dominions, and during the war with France was forced to go to England for money, which in fact formed part of his own territory. At the beginning of the Reformation Ireland was the only country of Northern Europe which had remained true to the Roman Catholic religion. The religious animosity of Ireland was never Rome, but England, and she had come specially to abhor the two sovereigns who had been the chiefs of the great schism between Protestant and Catholic, Henry VIII. and Elizabeth. Religious enthusiasm and national enthusiasm became so blended in the minds of the people that they could not be persuaded that the religion was a matter of political principles of England.

BUCHANAN WINDMILL. The Simplest and Best. It is strictly first-class in all respects; perfect in construction, its action during stormy days the best regulating device ever used. Material and workmanship unequalled. A new method of fastening the sails in the wheel is decidedly superior to the old way, as they cannot be blown out, nor will they decay where they contact with the rims. By this method the complete circle is filled, which adds to the power as well as to the beauty of the mill. Our mill is sold entirely upon its merits, and the purchaser assumes no risk, whatever, as we guarantee satisfaction or our money back. We are prepared to meet all competitors, and will not be undersold. We cordially invite an examination of the "Buchanan" mill, as we know that it will convince every one of its superiority. It is made of all kinds, also Pipe and Fittings. Orders promptly filled. BUCHANAN WINDMILL CO., BUCHANAN, MICH.

SAD ACCIDENT. MR. OSCAR CRAIGG blown up by a dynamite explosion in the Seward Hotel. Removal by Surgical Operation.

Widow Stewart and Her Home. Mrs. A. T. Stewart has passed seven years in widowhood, and during that time has occupied the most spacious home ever built in Buchanan. The place is a beautiful place, and she lives here entirely alone with the sole exception of her house-keeper, half a dozen servants and the coachman. The establishment is kept up as close as a convent, and is one of the loveliest places in the city. The palatial structure stands back from the street at least thirty feet, for Stewart's taste required a display of refinement. Elevated in front the immense structure appears like the abode of a monarch. The curtains are down, and the broad porch which runs the length of the building, having looked at the fourth street is seldom open. A bill of lading, in fact, the enormous building now suggests the idea of a manseum. What is to become of it? This is a very interesting question. Its occupant is old and cannot last long, and hence the place is possibly likely to be left to mutation. Mrs. Stewart seldom leaves the building, but the servants can easily step out by the rear gate, for they never use the grand entrance. Judge Elliott and great-grandfather, who made short cuts, and Dr. Kennedy is occasionally in, but these exceptions hardly break the long reign of silence. The first floor contains the receiving-room, drawing-room, and the parlor. The second floor contains the bedrooms, and the third floor contains the library, and also the Stewart family and the apartments for guests, all gorgeously furnished. Think of so grand an establishment being solely occupied by a widow and her servants! This is a highly interesting question of the kind, is highly inconvenient. One would think, indeed, that it was built more for appearance than for comfort. The latter, however, is rarely considered in the domestic architecture of a great city. Had Stewart been disposed to make a spacious and accommodating home he could easily have accomplished his object; but that would the world say? The determination to erect all these edifices before him led to the construction of this showy but inconvenient house. Reader, think of that feeble old lady being obliged to make the ascent of thirty flights of stairs to her bedroom! No wonder the poor creature got a severe fall, from which she suffered in a serious and protracted manner. Personally speaking, the Stewart family is not a very distinguished one, and is not very prominent in public life. She is the richest widow in the city, and is worth about \$200,000.

Died for His Overcoat. Among the 900 victims of the King Theater, Vienna, was Henry Samek, the chief of the clique, who, after displaying his wealth in the galleries, was one of several persons from the galleries of the burning house, lost his life in a vain effort to save his overcoat! His thorough knowledge of the ins and outs of the theater, and his extraordinary power, and again, each time with impunity and success, in his heroic purpose, while the conflagration was raging. He had just conveyed an immense volume from one of the galleries into the room overlooking the Hesse-Gasse, when a person who remembered that he had left his overcoat hanging from a peg close to the exit from the third gallery, in which part of the house he had been seated when the fire broke out, and forthwith resolved to recover it. One of his subordinates entreated him to forego so perilous an enterprise, and even endeavored to keep him back by main force. But Samek was not to be deterred. He shook him off, exclaiming: "Nothing can happen to me, for I know the house as well as I know my own pocket," and vanished into the smoke, never more to be seen. He was not seen again, and again, each time with impunity and success, in his heroic purpose, while the conflagration was raging.
