The leading political question now before the people of this State is the election of the U. S. Senator, and although there ought to be but one side to the question, it is eliciting considerable discussion from all sides. It would seem that when a man has been so long in that body as our present representative, and has in that time attained the prominence that will bring him at seven different times to preside over that body, it would be the best policy to keep him there.

Notwithstanding the fact that so much trouble is being taken by the Britains to meddle with our business by way of preaching free trade to us from an English standpoint, and other similar peculiar interests, there is once in a while a "Bloody Englishman" who looks upon American affairs in a true light. For example, the following which appeared in a recent number of the London Truth:

"Can we not take example by the United States? That country wisely never interferes except when its own interests are directly menaced. And what is the result? It does not squander money on a huge army; its three per cent. stock is quoted at a higher price than our consols; its artisans are laying by money; its agricultural population acquires homesteads, and the great republic is prosperous beyond all other countries."

Nov. 23, 1882. Corn crop is a very good one. Mr. S. A. Munger, of Sturgis, Mich., spent the Sabbath here with friends. There are a good many hogs being shipped from this place. Ell Wade of New Carlisle, is buying; also Charles Closs, Wm. Brenner and Amos Warren. It keeps A. B. Wright at the scales weighing a good share of his time.

Nov. 23, 1882. Ell Wade gave a good temperance lecture at the M. E. church, last Sunday evening. The house was packed full. And on Monday evening a German lady by the name of Mrs. Emma Obenauer, gave a very brilliant lecture on temperance, using the Bible for the foundation of her remarks. She is a Bible scholar.

The Sunday School Association of Berrien township will have a meeting at Maple Grove church, Nov. 25. We trust every teacher will go into the school-room fully alive to the responsibilities he is to assume, and determined to succeed at any sacrifice or cost of time and pains.

Very truly, J. G. HOLMES, Editor.

Having been solicited by many of the citizens of Buchanan to give a statement of the legality of the lodge known as Buchanan No. 11 of ancient, free and accepted masons, which occupy Dr. Roe's hall, and whereas, the members of the so named lodge have claimed to me that they have been called clandestinely by ignorant men, professing to be masons. And there fore, in order to settle this question, we claim that the above named lodge is as legal as any lodge in America, according to the laws of masonry and what it professes to be. And in proof of our legality, I will first submit to you the Masons' Charter, and the public in general of the lodge, and the Grand Master A. F. Metcalf to A. B. Codsworth, written at the time that A. F. Metcalf (white) was Grand Master of the lodge at Michigan. The letter reads as follows, to-wit:

of initiation it becomes a lay in the order and is irrevocable. That no resolution by a Grand Lodge in its legislative capacity could revoke the works of masonry out of existence, because of Buchanan, the lodge, and became a part of the attributes of God. And all the legislators of the world combined cannot make the truth a lie, or make a lie the truth. Therefore, the work done by order of A. F. Metcalf in Pontiac, in that of setting up a lodge of colored and white masons, was a complete acknowledgment of our legality in Buchanan to-day, and over the state of Michigan, and the clandestine croakers of Buchanan to the contrary, notwithstanding. The above cited facts can be proved by any witnesses before any court of justice. I know it has been stated by some of the American Grand Lodges that two grand lodges could not exist in one state and both be legal. But this is a mistake, as stated by the ancient free masonry, we find a different state of things. Namely: Two grand masters working in one jurisdiction for seven years. But we, ancient free and accepted masons, do not adopt the American idea of states jurisdiction exclusively. We stand on the ground floor of King Solomon that three grand masters could work in one jurisdiction, and we have a legal dispensation issued by our grand master and the seal of our grand lodge upon it, whose authority is acknowledged by the masons of three-quarters of the earth, as set forth by the proceedings of the white lodge at Michigan.

Now, in conclusion upon this subject, let me call upon the advanced Christian brethren of Buchanan to remember that they have vowed, to wit: They will be faithful to the religion of God, and promise that their love to all mankind would be as expansive as the blue arch of the heavens itself. Now all I ask of them is to carry out the above promise, and we will have no trouble. Again I call on the Christian brethren of Buchanan, that have taken their oaths in hand to travel the highway of life, and to see the king of heaven upon his throne, that you may lay before him the sufferings of mankind on this side of the grave, and remember that in your travels that beset by sin, and in chains and fetters before the majestic throne of heaven, truth did prevail, and you will be admitted to the kingdom of God. I have my sword of the spirit of Christianity, and will wield in defense of innocent maidens, and destitute widows, helpless orphans, and all who are oppressed, and if I carry this out, I shall reach the kingdom of God.

The picture is now being framed to adorn the walls of our sanctum, where it may be seen by any who may call.

THE article in last week's RECORD referring to the theft of a coat by one Wm. Hamilton, we learn does great injustice to an innocent boy. It appears that Hamilton borrowed young Perrot's coat to wear about town, and when turned out of employment went out to Wm. Haslett's, wearing the coat, and was put to work by Mr. Haslett's son, and after being there a few days he was astonished to find himself under arrest for theft. Being in trouble and without friends, he was advised to plead guilty as the easiest way out of the scrape. This done, he was booked for ninety days atonia, and no way out but to pay the fine and cost, and without money. Mr. Haslett, after enquiring into the facts in the case paid the cost, took the young man home and put him to work, making him a present of what went to satisfy dame justice.

At the special teachers' examination held in this place, Nov. 11, the following persons were granted certificates of the third grade. No other kind being given at any special examination: Mr. J. M. Covey, " Mrs. Walter Sommer, Sister Lakes. Mr. Frank A. Stryker, Niles. Mr. W. C. Stryker, " Miss Mary Pratt, " Miss Katie Sommer, Dowagiac. Miss Mary Sommer, " Mrs. Emma Taylor, Berrien Springs. There were twenty-six enrolled, but several of them were school girls trying to see if they could answer the questions.

WELL! We are somewhat astonished. Yet, perhaps, we should not be. Mr. O'Hara now comes out in "cards" over his name in the papers of the northern part of the county, apologizing for fraudulent tickets used to obtain his election. That Democrats should resort to such a device is what astonishes us. In the St. Joseph Republican he says:

As a member of the Democratic party I have always maintained that ours was a national party in time of peace—sectional only in time of war. When the Democratic or Republican rebels, attempt to destroy a government that is as dear to us as to any Republican in the land. In other words we are citizens of the north now as in time past in cases of southern rebellion, and in this I think myself to be in accord with the Democratic party of the North.

Something new, truly, "Republican rebels," and if a Republican were to write such stuff, the whole Democratic party would stand aghast and cry aloud against him for attempting to revive dead issues and create sectional feelings that should be allowed to die, beside Republicans are citizens of the whole country, not simply "the north" or of any single State.

DEAR RECORD—I have engaged to teach the school in what is known as the Eaton district, in Weesaw township, and I would like to ask the parents of that district, through the columns of your paper, to have all their scholars in readiness to come the first day, and then every day. School will commence on Monday, Nov. 27. As a general thing, school is nearly half out before all get in. This is not out it should be, for those who come the first day and come regularly are the ones who make the most progress. I hope that none of the large scholars will go out of the district to attend school this winter. Why can we not have a good school at the Eaton school house as well as anywhere else?

Respectfully, PORTER CHURCHILL.

Nuptial. On Thursday evening, the 16th inst. at the residence of Mr. Geo. Ferguson, a large concourse of relatives and friends gathered to witness the nuptial rites of Mr. Charles Foster and Miss Cora Ferguson. Mrs. Millie Sherwood, daughter of Alexander Price, was born in Niles township, Nov. 10, 1888. Her youthful days were spent in making the best of such opportunities as were afforded at that time. She was of an industrious and aspiring nature, blessed with kind and energetic parents, who were ever ready to undergo any privation for the good of their children.

She was married to Asa W. Sherwood, at the home of her birth, Nov. 29, 1887. Mr. Seth Sherwood and Mr. Alexander Price were among the oldest settlers in Berrien county, consequently the acquaintance of Mr. and Mrs. Sherwood was from infancy. Commencing the journey of married life under favorable circumstances, having had early training in industry and economy, they have been quite successful in procuring enough of this world's goods to make them comfortable. They have had six children, four of whom are living, to mourn the loss of a loved mother. She was very anxious concerning the education of her children; was ready to make any sacrifice for their pleasure, and bore all family cares with unusual patience.

They were expecting to celebrate the twenty-fifth anniversary of their marriage the 29th of this month. On the 19th of October the accident occurred, which was the immediate cause of her death, Nov. 8. The three weeks of her suffering was characterized with the same cheerful and happy disposition. Her only regret was that she had not done enough religious work. She prayed to live to do more good in the world. The funeral ceremonies were conducted by Eld. Wm. Roe, of Dowagiac, Nov. 10. It being her 47th birthday, made it the more sad for her bereaved husband and children, who had purposed for several years making her a birthday gathering. Many friends met with them to sympathize and share in the great loss, and trust through faith in Jesus all may meet again when disappointments are o'er.

THE teachers of Berrien county will hold an institute in the school house in this place, on Saturday, Nov. 25, at one o'clock p. m. A very interesting programme is arranged, and a good time is expected.

Mr. Beach and family have moved to Indiana. He has rented the house to James Swain. Any married man in Gallen who leaves his family and goes to Dakota must expect a belling when he returns home. We have a band well organized for that purpose. Ask James Swain and Porter Churchill about it. Henry Bennis has bought out John Kerr's interest in the hardware. Henry runs the shop alone now.

as a food to be in every stage of the

word for superior to the best wheat

bread. An acre of ground planted with

bananas will return, according to Hum-

bold, as much food material as thirty

acres of wheat or over 100

acres of potatoes. The banana or

plantain (for until lately there was no

such word as banana) is divided into

several varieties, all of which are used

as food. The plantain manzano is a small,

delicate fruit, neither longer nor stouter

than a lady's forefinger. It is the most

delicious and prized of all the varieties

of plantains. El platinio guineo, called

by us banana, is probably more in de-

mand than any other kind. It is sub-

divided into different varieties, the prin-

cipal of which are the yellow and an-

ripe banana that we see for sale in our

markets, but the latter is so little es-

teemed by the natives of the tropics

that it is seldom eaten by them. El

platinio grande, known to us simply

as plantain, is also subdivided into

varieties which are known by their

color and size. The kind that reaches

our markets is always the longest, but

yet on the Isthmus of Darien there are

plantains that grow from eighteen to

twenty-two inches. They are never

eaten raw, but are boiled or roasted,

or are prepared as preserves.—E-

Boston Calchuck.

When the culture girls of Boston came

home in a vessel of the "Kunard" line,

they were very talkative, inquisitive,

and curious, and pestered the Captain

incessantly to death. One day the oldest

Culture sought the engineer and ques-

tioned him: "How many revolutions,

Mr. Engineer," she began, "does the

propeller revolve within the period of a

minute?" "Oh," said he, "about a

thousand." "Indeed," exclaimed Miss

Sarah Annex Emerson Culture, why

do you all me with astonishment?"

"I thought," said the engineer,

"well now, tell me," she persisted,

"what is the capacity—the legitimate,

bona fide ability—of the boilers as com-

pared dispassionately and shorn of pre-

judice with those which our American

river and lake steamers are ordinarily

provided?" "I give it up, Miss," he

said. "What!" said the elder culture

girl, "is it possible you cannot tell what

the boilers can do?" "Yes, I can," he

angrily answered, while she walked away,

"they can bust and blow us all to per-

dition." That same night Miss Sarah

Annex Emerson Culture, in her diary

the following: "I have found the

subordinate officials of the steamer

averse to imparting truthful information

to me, and have a strong suspicion

that they are endeavoring to keep me in

the dark. I have, however, by a careful

study of the machinery, and by the

aid of my own common sense, ascer-

ained that the boiler is unquestionably

TRUE Temperance

Is not signing a pledge

or taking a solemn oath that

cannot be kept, because of

the non-removal of the cause

—liquor. The

man temperate is to kill

the desire for those dreadful

artificial stimulants that car-

ry so many bright intellects to

premature graves, and

desolation, strife and un-

happiness into so many

families.

It is a well authenticated

fact that many medicines,

especially bitters, are noth-

ing but cheap whiskey concocted for

use in local

option countries. Such is

not the case with BROWN'S

IRON BITTERS. It is a medi-

cine, a cure for weakness

and decay in the nervous,

muscular, and digestive or-

gans of the body, produc-

ing good, rich blood, health

and strength. Try one bot-
