

Berrien Co. Record.

JOHN G. HOLMES, Editor.

THURSDAY, JULY 12, 1883.

Over 100,000 American are summering in Europe.

Cassopolis has a new Post G. A. R., mustered last Friday.

Oregon is just now undergoing the pleasures of a scorching drought and extensive forest fires.

Arizona heat is 130 in the shade. The inhabitants would not object to a little mixture of Alaska with this weather.

Morris Colling, the great swimmer, proposes to swim from Albany to New York, down the Hudson, in six days, in August.

By order of the Postmaster General, no money orders will be paid, nor registered packages delivered to the Louisiana Lottery Company.

The new Ohio liquor law has already brought \$400,000 into the Cincinnati city treasury. The law is not far different from the Michigan law.

At a recent sale of Kentucky short-horns, in Chicago, two Barrington heifers brought \$8,025. One sold for \$4,000 and the other for \$4,025.

The publisher of the New York Tribune sent over 500 New York children up the Hudson to the Lake Champlain country for a little fresh air and a pleasant trip.

A Mishawaka man lost a valuable horse recently, by the animal getting loose in a potato patch that had been sprinkled with Paris green, and eating some of the potato tops.

Missouri is one of the states that finds big license law a success. Besides bringing over \$1,000,000 to the treasury, it is closing a large number of the low dens of corruption.

The Yellow Jack has made his appearance at Galveston. Every means available is being used by the health authorities to prevent the spread of the plague.

In New Jersey the sale of cigarettes to boys under sixteen years of age is prohibited. A law prohibiting their manufacture and sale to any one would be an improvement on our health statute.

One important thing the Legislature neglected to do was to place some obligation upon the manufacturer of fruit boxes, to make them so they will hold a small portion of what they are represented to hold.

The combination reform party is in favor of a reduction of the number of officers until they have some chance of filling them. The new "Department of Labor" formed at the recommendation of the governor carries as great a scramble among the truly good as did some of the more important positions.

There appears to be a sudden lack of faith among the Democracy of Ohio. We hear less of the boasting of 40,000 for the state, and large sized majorities for the numerous large cities. The supreme court decision, sustaining the liquor tax law, appears to have a dampening effect on Ohio Democratic ardor.

It is being a source of trouble to the free trade press to explain that the fall in the price of wool from last year, directly following the reduction of the tariff on that article, was not the effect of the tariff reduction, and explaining to wool growers that they are better off with a low than with a high price, so long as the tariff is cut down.

The fact that Tim Warner was hung by a mob at Cheboygan for outraging and attempting to murder a little girl, does not appear to have any effect towards preventing of the repetition of the crime by others. While yet the excitement is alive over Warner's crime and its summary punishment, similar acts are committed at Flint and at Grosse Pointe, under but little less aggravating circumstances, and with the hanging omitted.

England now gets ahead of the Commissioner of Immigration by sending her criminals to this country through Canada. The Lion will keep on with this kind of work until Uncle Sam will not allow a bloody Englishman nor any of his kin, good, bad, or indifferent, to land in this country from any place. Wonder how Queen Vic. would take the joke to have 600 criminals from Jackson prison landed at the doors of Crystal Palace.

It must be a discouraging fight for the free trade Democrats in this country to see such tariff planks as the following, which is a part of the Ohio Democratic platform this year:

"A tariff for revenue limited to the necessities of the government, economically administered and so adjusted in its application as to prevent undue burdens, encourage productive industries at home, afford just compensation to labor, and not to create or foster monopolies."

And then to have such men as Congressmen Carlisle, of Kentucky, and Daniel Voorhees, telling them continually that their scheme is impracticable. The most prominent candidate for speaker of the next Democratic Congress hails from Pennsylvania, and he is so much of a protectionist that he advocates the repeal of the internal revenue taxes of whisky and tobacco in order to raise all the needed revenue for government support through the tariff system. Such harmony is rare.

In Gov. Begole's speech at Jackson he said: "But the trouble is that corporations control the State, and their influence is dangerous and alarming. A friend of the minority representation he did not him and remarked, 'Why the d--d I don't think of that before he vetted our bill?'"—Evening News.

Yet On Our Way.

We said good-night after we left Cheyenne, we say good-morning at Wyoming. This is a small town on a little river called Laramie, in the midst of a fine grazing country, with sheep and cattle ranches in sight.

We have now a constant succession of ups and downs in our journey. Soon after leaving this place the country changes. The grass is very thin except near the streams. The sage brush now appears in great quantity. If there is anything in this country that would make me sick it would be the smell of this weed. We are now at Miser, 615 miles from Omaha. We are almost at the eastern rim of the coal fields, not far from Rock Creek. Sage brush is the only natural production.

The next station of any importance is Fort Steel, 695 miles from Omaha. This is a Government Post. There are four companies of soldiers at this post. They have but little to do. There are quite a number of Indians in camp about 150 miles from Fort Steel, but are not disposed to make war. This post was established in June, 1868, by Col. R. I. Dodge. It is considered a very convenient place in case the Indians should become hostile. The buildings are not very comfortable. The government built a very nice stone hospital in 1875.

Just before coming to this place we cross the North Platte River, and we are 4,021 feet higher than we were when at North Platte City, when we crossed the same stream. We have reached Rock Springs, 831 miles from Omaha. This is the great coal region on the Union Pacific road. It is said that in 1880 the company took out of this mine 200,000 tons. The artesian well at this place is 1,145 feet deep.

Wesport a very pleasant, and I trust a very profitable Sabbath in our coach, in singing the praises of God, and in having a little Sabbath school; and while you were in Sabbath school in your churches at home, we were having the same lesson, as the great engines were carrying us over the mountains. Our Spiritualist and professed Infidel do not enjoy our singing and praying, but we go on quietly, trusting in God. We are now at Evanston, 937 miles from Omaha. It is the county seat of Uintah county, Wyoming Territory. This is quite a thriving business place. Now we begin to find quite a sprinkling of Chinamen. They are in the hotels as cooks and waiters. They are quick, polite and attentive.

What causes this great excitement and rushing to the car windows, and out on the platforms? Is there an accident? No; we are passing through the Echo and Weber canons. I shall never forget these scenes. The echo of the whistle and ringing of the bell, and these majestic dimensions and sublime soaring summits, and perpendicular sides, as they succeed each other miles and miles, cause me to think as never before, of the handiwork of God.

This is the western terminus of the Union Pacific railroad, 1,033 miles from Omaha. This is the county seat of Weber county. Here we change cars; but in a little while we find ourselves just as comfortable as we were before the change. It takes a little work, but we need exercise. We have the same company, and all. Cape Horn is one of the many words along this line. The railroad clings to the bluff at one point nearly 2,000 feet above the river, and it is said that the first foothold was gained by the daring workmen on this narrow ledge, by letting down men by ropes, from the summit of the mountain. It is wonderful what has been done in the construction of this railroad.

The farmers are harvesting and threshing wheat in the wheat-growing regions of California. I should judge from the appearance that the crop is light.

We reached Oakland Thursday night, the 21st of June, and on Friday morning, the 22d, we landed in San Francisco, and here we are at the American Exchange hotel, with good accommodations. All well and in good spirits. Tickets purchased and baggage checked, and if all is well at 10 A. M., tomorrow, we sail on the Queen of the Pacific, for Portland, Oregon.

GEO. SICKAFOOSE.

Democratic Tariff Opinions.

Louisville Courier-Journal: "Refuse us a free trade plank in the platform and the south is lost."

Mr. Sam J. Randall, candidate for speaker: "Our struggling industries must be protected."

New York Sun: "Abandon all tariff planks."

Mayor Harrison of Chicago: "Let us win the Presidency first and then decide upon a tariff plank."

There they are; you pay your money and takes your choice.

WASHINGTON, D. C., July 9.—Special Agent Howell, now at Plattsburg, N. Y., has called the attention of the treasury department to the large number of immigrants arriving at Quebec and Montreal, and says many of them are almost destitute, having neither money nor friends, and are too feeble by reason of age or infirmity to support themselves. He says most of this class are paupers who have been assisted in procuring passage and are ticketed to points in the western part of the United States. The special agent is informed that 25 persons who had left Ireland only twenty days before were found helpless and starving in the streets of Buffalo, and were committed to the Erie county almshouse. All of these people came into the United States via Canada. Canadian steamers engaged in importing cattle to Great Britain make very low rates for this class of immigrants from Ireland to Canada, and they say he is also informed that a large number of State-aided immigrants are to leave Poyras, Ireland, on the next Atlantic steamer, and are to be sent at once from Canada to the United States. It is stated at the treasury department that there is no law to prevent pauper immigration through Canadian territory.

STATE ITEMS.

Marshall and Jackson connected by telephone.

Northern Michigan summer resorts are being well patronized this year.

A Mackinac trout was recently caught near Petoskey which weighed, when dressed, over 40 pounds.

Be careful about your change when you visit Jackson. Well-executed powder-dimes are in circulation there.

Elia Benjamin, of Reading, is five feet two inches high, and has hair five feet eight inches long.

Alpena has 7,000 inhabitants and no railroad.

A Dowagiac cat recently captured and killed a blue racer four feet long.

Some of the roads back of Alpena are blocked by heavy windfalls of trees thrown down during the recent storms.

C. H. Smith rode from Howell to Detroit, June 22, on his bicycle, in five hours and 18 minutes. Distance 52 miles.

There is another victim to Gov. Begole's pardoning power in prospect. It is Morey, sent from Battle creek for forgery.

E. R. Olds, of Hartford, Van Buren county, lost 102 sheep and lambs by drowning on low land during the freshet.

Robert Gilmer has been paid \$1,044.42 by the city of Grand Rapids—a court judgment for damages received by falling through a rickety sidewalk.

Supervisor Bridgen, of Montmorency, took five wolf scalps to the meeting of the board, June 23, and received \$40 for them. He killed them all himself.

Harlow S. Higginbotham of Allegan has a field of rye, some of which is already eight feet high.

Pieces of mail matter delivered by Detroit carriers in June, 1,153,095; collected, \$78,685; delivered in the quarter ending June 30, 3,553,504; collected, 1,028,401.

When a man says to Gov. Begole, "I beg your pardon," he instantly takes down the name and says, "Application for pardon is filed, and will be reached in regular order."—Evening News.

The Cheboygan papers think that if Gov. Begole will continue to empty the State prison he will find steady employment looking after such lynchings cases as occurred in that city a few weeks since.

The Manistee Democrat was foreclosed and bid in by Representative R. R. Blacker, on behalf of mortgagees, July 5. A stock company has been formed, new material purchased, and A. B. Carrier, of the Frankfort Express, secured as manager.

A lady of Grand Rapids recently purchased some eggs, and upon breaking one of them heard a chicken peep. She carefully removed the shell, wrapped the infant in flannel, gave it a steam bath, and now has a lively growing chicken.

When every man, woman and child in this country who is able to work, shall begin to work, and shall keep it up constantly, we shall have much less complaint of poverty and hard times. It is not so much a scarcity of money as it is a surplus of laziness.—Cedar Springs Clipper.

The Cheboygan Tribune says: The huckleberry crop in this section promises to be immense. The bushes are reported as being completely loaded with fruit, and already parties are making extensive arrangements for shipping them in large quantities.

F. B. Stuart has 26 swarms of bees which promise well. Recently one of the swarms made 80 pounds of honey in a single day, which was an average of one-half an ounce to each bee. Should this seem incredible to any of our readers, Mr. S. stands ready to point out the hive.—Marshall Statesman.

The twenty mile race on horseback between Miss Myrtle Peck and the Mexican, at Kalamazoo, on the Fourth, was won by Miss Peck in 46 minutes and 66 seconds. The Mexican made eighteen changes in one minute and three-quarters; Miss Peck made nineteen changes in four and a half minutes.

A farmer observed a flock of quails running along between the rows of corn which were just sprouting; conceiving the idea that they were pulling up his corn, one of the birds was killed and his crop examined. Instead of corn it was found to contain 100 worms, 21 striped bugs, and over 100 chinch bugs. A valuable bird to the farmers is the quail, and one that should be protected instead of being hunted and shot for the mere amusement of sport-loving hunters.—Mendon Globe.

Observations by Signal Officer Perry, of Port Huron: For the past month the temperature has been normal, and the rainfall slightly in excess of the mean of past years. In the month of June in 1875 rain fell on twelve days; in 1876, twenty-two days; in 1877, sixteen days; in 1878, twelve days; in 1879, twelve days; in 1880, ten days; in 1881, seventeen days; in 1882, nineteen days; in 1883, eighteen days.—Port Huron Times.

Last week Martin L. Sweet sent James Egan and Louis Teucknick—two experienced men and expert judges of cattle—to Europe to purchase 100 to 125 cattle. The men were instructed to pick up the finest cattle to be procured in Friesland and North Holland, and to spare no pains or expense in getting them.—Grand Rapids Democrat.

Nineteen years ago Mr. R. G. Tomlinson of Battle Creek prepared stirrups of oak, elm, basswood, whitewood, and soft maple by boiling thoroughly in a mixture of tar and some other ingredients, and put them down on the ground under his sidewalk. His neighbors all laughed at him as a visionary. But a few days ago, Mr. T. J. Bradley, who now owns the place, took up this walk, and found every one of its stringers just as sound as it was when first laid down, after outwearing several successive layers of plank. The stringers look good for a century more of service.—Jackson Patriot.

The courage, thoughtfulness and promptitude of Mrs. Julia Rogers, who lives near where the washout in the Detroit, Grand Haven and Milwaukee track occurred near Lowell, on Monday, saved the passenger train coming west just after noon, Tuesday, from destruction. The train was nearly due; Mrs. Rogers knew it, and rushed out in the storm and up the track half a mile, where the train was flagged and stopped. The engineer says that it was the only thing that could have averted a terrible accident, as the washout was at a point on a curve where it could not possibly have been seen in time to stop, and the only thing that saved the train was that it was so near the end of the line that it was running to make up time, as the road was supposed to be clear from Lowell here.—Grand Rapids Eagle.

One hundred and thirty Grand Rapids saloonists sold liquor on the Fourth, and will be prosecuted. They will band together and fight the law.

At dam No. 2, on the north branch of the Au Sable river, on Sunday last, a little seven-year-old daughter of A. G. Louks and a little neighbor girl aged three years, strayed away from home and went to the dam. A skiff on the bank attracted their attention and they attempted to get into it. Mr. Louks's little girl succeeded in getting in, when the boat started from shore. Coming to a place where the water appeared shallow and she could see the bottom quite plain, she jumped in, with the intention of wading ashore. The water was eight or ten feet deep where she jumped in, and she would certainly have drowned had no assistance been rendered her. With the children when they strayed away were two three-months-old pups, one a spaniel and the other a Newfoundland. Seeing the child plunge into the water, the spaniel immediately swam to her assistance, seized her by the foot and towed her to shore, where the Newfoundland stood in eager expectancy to render assistance, and the moment the spaniel reached the shore with its burden, grabbed the child by the clothes, and the two pups dragged her, little by little, till they got her upon dry ground.—Rosemont Pioneer.

PHANTS AND PHYSIC.

A carrier pigeon went from Ohio to New Jersey, 333 miles, last week at the rate of a mile in 72 seconds.

Mr. Joseph Blovin, Laidington, Mich., says: "Brown's Iron Bitters is a good tonic, worth double the money asked for it."

President Buchanan graduated from college when he was only 15 years old.

Almost every person has some form of scrofulous poison latent in his veins. When this develops in scrofulous sores, ulcers, or eruptions, or takes the form of rheumatism, or organic diseases, the suffering that ensues is terrible beyond description. Hence the gratitude of those who discover, as thousands yearly do, that Ayer's Sarsaparilla will eradicate this evil from the system.

Dakota has 648 post offices, and they are increasing at the rate of seven a week.

CHRONIC DISEASES A SPECIAL STUDY FOR YEARS.

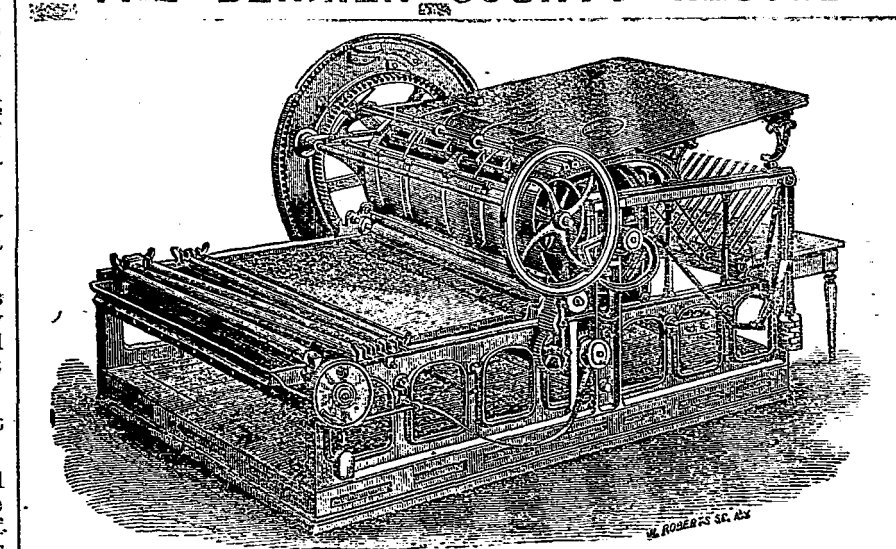

DR. F. B. BREWER

Has made Chronic Diseases of the Throat, Lungs, Heart, Stomach, Liver, Kidneys, Blood and Nerves,

A special treatment for years. He is not a boastful, ignorant pretender, but an educated physician, seeking to do good, by devoting his talent and energy to the treatment of a class of maladies that have been with him a long and patient study. To be able to treat successfully chronic diseases is a physician should be a sound, thorough scholar in the art of science and medicine generally. He should give his entire time to their study, be thorough in his investigations and have a long and varied experience. Dr. Brewer claims to work no wonders or to do any more than any well educated physician can do who devotes his whole time to the study and treatment of chronic diseases exclusively and has had his many years of experience. For years Dr. Brewer has visited the most noted physicians, and has obtained his reputation by being honest in his dealings, candid in his opinions, and reasonable in his charges. These are the only articles are invited to call, investigate and decide for themselves. He will cost nothing to do so. Address all letters to F. B. BREWER, M. D., Lock Box 300, CHICAGO, ILL.

Dr. F. B. BREWER will be at Niles, Bond House, on Saturday the 4th of August. At LaPorte, Myers House, Saturday, the 20th of June, and Saturday, the 21st of July.

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS are directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Dysentery, and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these Pills by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredients. A Sufferer from Headache writes: "AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest pills I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers."

W. L. PAGE, of W. L. Page & Co., Franklin St., Richmond, Va., June 3, 1882.

"I have used AYER'S PILLS in numerous instances as recommended by you, and have never found a fail to accomplish the desired result. We constantly keep them in our hands and find them to be a pleasant, safe, and reliable family medicine. FOR DYSPEPSIA they are invaluable."

Mexico, Texas, June 17, 1882.

The Rev. FRANCIS B. HAZARD, writing from Atlanta, Ga., says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the constipation, and have really improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.

Announcement Extraordinary! LAST GRAND SALE!

Arrangements have been made by which, on September 1st, 1883, my extensive Clothing and Hat, Cap and Gentlemen Furnishing business will pass into the hands of Louis Brown and Max B. Rosenberg, who will after that date continue the business under the firm name of Brown & Rosenberg.

Under this arrangement my new entire stock must be reduced to a certain amount for delivery on that date, which will necessitate a reduction from its present enlarged condition of over one-half value. To this end I have re-arranged and marked down my entire stock, and will commence on Wednesday, June 20th, my last grand sale, making this the capstone of a successful business in the city of Niles of over a quarter of a century and continue the same from day to day until Sept. 1, 1883.

From my record in the past I have no hesitancy in assuring the citizens of Buchanan and vicinity that this will be the golden opportunity for bargains. Over one-half of this great stock must be positively sold before delivery. This is not a matter of prices but of sales.

Such a chance to buy good Clothing at sacrificing prices will probably not occur again hereabouts for years to come. People living outside of this city will make money to come here and make their purchases if they have to come fifty miles.

There is no humbug in it. We mean business. You have your choice of the entire stock at sweeping reductions in prices. Bargains in suits. Bargains in coats. Bargains in pants. Bargains in furnishing goods. Bargains in boys' and children's clothing.

We have determined to give our patrons the full benefit of this unparalleled sale.

DAVE MONTGOMERY has been pretty busy since Sunday taking care of an 8 1/2 pound boy that has been at his house since that time.

THE party who was going to build a \$15,000 hotel in Benton Harbor has concluded not to build. The citizens failed to donate the \$3,000 he asked for.

AFTER the completion of some needed repairs, the Rough Bros' Wagon Works and Buchanan Windmill factory commenced work yesterday morning.

GOV. BEGOLLE has forgotten, in his division of the spoils, Hon. Levi Sparks who "fought, bled and died" for the cause, and gives such men as Henry Chamberlain and A. L. Drew, who are abundantly able to live without public assistance, fat public appointments. Oh, the ungratefulness of these politicians.

TRAVEL across the river by the ferry was resumed Friday morning, after being abandoned nearly a week on account of high water covering the approaches.

REV. W. L. COGSWELL was out of town last Sunday, and his pulpit was filled in the morning by Rev. T. Sherrill, but no services were held in the evening.

SEVERAL thousand eels have been placed in the rivers, creeks and lakes in the western part of this county, under the supervision of Capt. W. A. Keith.

Score of the paper balloons sent up from this place, on the evening of the Fourth, were seen in Berrien township, and still riding rapidly to the north.

THE photograph of John Redden's triplet daughters, taken by Capt. Henson, and on exhibition at Bradley's photograph gallery, attracts considerable attention.

THE South Bend Tribune Company put out one of the liveliest dailies published hereabouts. It is one of the most interesting sheets that come to our exchange table.

MR. AND MRS. CHARLES TREAT expect soon to be settled in their comfortable new dwelling, now nearly completed, at the corner of Oak and Fourth streets.

MR. WAR. COVENEY has just erected a fine new barn, on his farm in section nine, 36x56 with twenty-four feet posts. Nearly large enough to put his whole farm into. Cost \$1,400.

BRING your wool to Buchanan. Redden & Whitman have bought more this year than has been sold here in the past fifteen years, and are paying the highest market price.

MR. B. T. MORLEY has his new child-proof perfected and ready to put upon the market. It has a number of points of excellence over others that will take well.

MR. W. I. HINES, of Berrien Springs, has been appointed secretary of the Soldiers and Sailors' Association of Southwestern Michigan, vice J. M. Shepard, resigned.

If you do not have all the potatoes you want this year, it will be because you did not plant them. There has been a long time since there has been a better prospect than at present.

MISSSES EDIE BEARDSLEY and Eva Chamberlain started last Thursday for Olivet College, to attend school during the summer for the purpose of better preparing themselves for teaching.

CASSOPOLIS has been having a varioloid scare. The patient is well now, and the doctors have about concluded it was not varioloid but wool poisoning, contracted while shearing sheep.

THE small portable engine, that formerly furnished power for the Buchanan Model Works has again been pressed in service, turning the wringers for the manufacture of brush fiber.

A NUMBER of the members of Wm. Perrott Post G. A. R., are calculating upon going to Denver to attend the general encampment, July 24. They will start from here about the 20th.

THE ladies of the Home Mission Band extend their thanks to the Fourth of July committee for the donation of \$7.48, and promise that good use shall be made of the money.

MRS. S. WHITMAN, Sec.

At a meeting of the school board in South Bend, Miss Ella Tieche, well known here, was promoted to the principalship of one of the ward schools in that city. Her many friends here will be pleased to learn of her success.

OWING to the inclemency of the weather the balloon ascension advertised for last Saturday afternoon, by John Morris, was postponed to next Saturday, and will positively take place at 3 p. m., the weather permitting.

COR. R. F. HILL, of Kalamazoo, proposes to organize a regiment of veteran riflemen, from the G. A. R. Posts located within the range of the soldiers and sailors' association of Southwestern Michigan, for attendance at the reunion at St. Joseph.

In some fields in this section the wheat is somewhat injured by the rust, but generally the berry is plump and the crop a good one. This week will find the greater part of the crop secured.

THE new trial of the foot-race between Will Niles and Charles McCoy, about which there was a dispute on the Fourth, resulted in reversing the result, Saturday. Niles came out ahead and took first money.

MR. SAMUEL FRECHON has bought Lot 1, in Ross and Alexander's third addition, known as the Kennedy lot, of Dr. Samuel Robinson, of West New Brighton, Staten Island, New York, for \$500.

WAR between St. Joseph and Benton Harbor has received a new impetus. The band tourney and the celebration is what they quarrel about now. The Traveler-Herald is wasting considerable wind when it does so much advertising.

THERE was considerable disturbance on Front street, Saturday afternoon. One fight, a number of foot-races, and "Hank" Fisher so drunk that he didn't know whether he was Fisher or boatman, and as usual, no arrests. The boys are perfectly safe from arrest. It matters little what they do toward creating a disturbance.

MR. CHARLES EVANS, of Leslie, Mich., father of Charles and Amos Evans of this place, is a hale and hearty old gentleman, 75 years of age, and appears to be good for 75 years more. He has lived in Michigan 44 years, having moved from Cayuga county, New York, with an ox team, in a nineteen days' trip.

DON'T forget the lawn social by the band, at the old school house grounds, to-night. Good music, good company, good ice-cream and cake, and plenty of good, fresh air. Go and have a good time.

LIST of letters remaining unclaimed for in the post-office at Buchanan, Mich., for the week ending July 12, 1888: Frank Gamber (or Lambert), Mr. W. H. Harris, R. Koster, Mrs. Ada Scott, C. W. Young.

L. P. ALEXANDER, P. M.

We hear complaint that in some wheat fields in this vicinity there are a large share of the heads partly rotted. Mr. Riley Wray says that in his fields he finds heads with the grain of about an inch of the middle part of the heads, perfectly worthless from this cause, and says his crop will be materially lessened in this way.

MR. H. F. LINTON went from this place Monday to a lively town of 1,200 inhabitants in the north part of state, where he will start a new paper. He gets a bonus of \$350, and has the prospect of a good business ahead of him. It is usually up-hill business to launch a new paper into life and prosperity, and the RECORD wishes Mr. Linton success in his undertaking.

THE colt stolen from John Andrews' pasture, mentioned in the RECORD of last week, was captured by Marshal Miller, of Elkhardt, at that place, and the thief proved to be no less than Wm. Wilds, who has been known about this place for the past four or five years. The Wilds of Michigan will now be trained in the prison at Jackson for a few years, as soon as Judge Smith can pass judgment on his case.

THE South Bend Tribune of Monday, July 9, contains the following item of interest hereabouts:

MR. ASA W. HAM, of Smith's book store, and Miss Dorra Frame, daughter of Isaac Frame, Esq., drove over to Niles yesterday, and were united in the holy bonds of matrimony. They are receiving the congratulations of their friends to-day.

CANADA thistles are becoming a terrible nuisance at Buchanan.—Kalamazoo Telegraph.

Not half so great a nuisance here as in hundreds of other places in the state. We have taken special pains to have them eradicated. Buchanan is very free from them as compared with some parts of Van Buren county. In the vicinity of Hartford, for instance.

COMPLAINTS of poor side-walks come from all parts of town, long and loud. It was once the pride of Buchanan that she had more and better side-walks than any other town of its size in the State, but that is no more, and we can almost claim to have the poorest lot in existence. One judgment for damages for poor walks does not appear to do much good as a warning to steer clear of more of the same kind.

A COUPLE of young fellows from Niles township hired two teams from a Niles livery stable to drive to Gallien to the dance, on the Fourth. When the livery man learned that his teams had been to Three Oaks, New Carlisle, South Bend, and the greater part of the country, naturally his ire arose. The boys, by some means, learned that an arrest was likely to be the result, and are now probably not far from Dakota.

THOMAS LONG, who has been in the employ of Mr. A. C. Day for the past two years, was found dead in Mr. Day's cornfield, Tuesday evening. He had been plowing corn during the day, and not returning at the usual time, Mr. Day went to see why, and found him lying in the field, dead. He had been subject to fits for a number of years, and it is probable that he was attacked by one of these while at his work. He leaves a wife and little boy in destitute circumstances.

THE M. E. social, held at the residence of Maj. Samuel Wells, last evening, was one of more than usual interest. There were about 150 persons present, who were highly entertained by Mrs. Davidson, of Louisville, Ky., a guest of Mr. and Mrs. F. Weese, with some excellent selections in elocution, and by Mr. C. Trump, of South Bend, a guest of Mr. and Mrs. C. F. Rollins, with a fine selection of comic songs, for which he is a Trump. More pleasant gatherings than that are not of frequent occurrence in Buchanan.

COMMISSIONER HATHAWAY called together a number of citizens of this township, Monday morning, for instructions. He had received a proposition from the Penn Bridge Co., to build a high trestle two span bridge, instead of a four span low trestle bridge, contracted for, for an additional \$375. As the piling was to be about the same as is specified in the present contract, the life of the bridge would not be increased, and it was concluded best to have the work completed under the present contract rather than to make a new one at this time.

IT is a sad comment on the law-abiding qualifications of any town, that for the consideration that saloon keepers of the town shall contribute a few dollars each toward the fund for the celebration of Independence Day, that they shall be allowed to openly violate the laws of the state, and no complaint be made. The celebration of that day, most sacred to the American people, does not contemplate any such outrage, and to allow it is not only a disgrace to the day but to the people who live near the town that will stoop to such work. We are sorry to say that Berrien county possesses just such a town.

UNDER the new and extended regulation for sending post-office money orders, the following bill of rates are observed:

Not exceeding \$10	8 cents.
From \$10 to \$15	10 "
From 15 to 20	12 "
From 20 to 30	15 "
From 30 to 40	20 "
From 40 to 50	25 "
From 50 to 60	30 "
From 60 to 70	35 "
From 70 to 80	40 "
From 80 to 100	45 "

Postmasters of money order offices were to have postal notes for sums of \$5 or less to bearer for a fee of three cents, but up to this date the postmaster at this place has not received blanks for this business.

THE annual trotting meeting of the Chicago Driving Park will be held July 14, 16, 17, 18, 19, 20 and 21. There are 350 entries and \$60,000 in purses, stakes, and special offers for speed. There will be a race between St. Julian and Clingstone, on Thursday, July 19, for a purse of \$8,000.

THE Committee on Fourth of July celebration had \$7.48 left, after paying all bills contracted for the celebration, and by unanimous consent of the committee, the treasurer paid the amount over to Mrs. S. Whitman, for the Home Mission Band, to be used as the Band see proper for the relief of the poor, in the absence of any better use to make of it. It is the opinion of a part of the committee that it would have been a better disposition of the entire fund to have placed it with the \$7.48.

THERE are those among the farmers who have been regular patrons of the Berrien County Agricultural Society who are not perfectly satisfied with the idea of turning the Agricultural Fair into a Fireman's Tournament, and want to know just what bearing firemen's tournaments have to agricultural pursuits, and whether when the Board of Supervisors gave the Society \$200, from the county funds, it was for the advancement of fire works, or of agriculture. Farmers are not expected to ask such impertinent questions as these. They should be more discretionary.

THE following we clip from the Detroit Free Press of the 8th. The bride will be recognized by many in Buchanan:

The marriage of Mr. Roscoe B. Wheeler, attorney, of Dowagiac, Mich., and Miss Minnie Harris of this city, took place at the residence of Mr. J. M. Johnson, 108 Shelby street, on Tuesday evening last. The Rev. M. H. Worrall officiated. Among the many presents to the bride were a pony and phaeton from Mr. and Mrs. C. R. Harris, a diamond and sapphire ring from Mr. and Mrs. W. H. Mitchell of Chicago; gold watch and chain from Mr. and Mrs. F. H. Marsh; velvet and gold clock from Burk, Rich & Co., and a silver clock and Mrs. Wheeler will reside in this city.

MR. PETER WEESE has some whortleberry bushes, taken from the marsh on Arthur Allen's farm, in the spring of 1882, growing in his lot in the north part of town. The bushes were in bloom when transplanted, and the fruit last year hung on the bushes until nearly perfected. This year the bushes are well filled with fine fruit. He says they can be grown with very little trouble, and he is certain that he can have this most delicious Michigan fruit growing in his garden as well as to be obliged to wade through bog and mire to gather it. The only special attention he has given his plants is to mulch them with half rotted straw.

Crystal Wedding.

BUCHANAN, July 10, 1888.

Mr. and Mrs. C. F. Rollins celebrated their fifteenth anniversary, at their residence, one mile west of Buchanan, last night. Out of one hundred and thirty-five invitations, over one hundred guests put in an appearance. Refreshments were served in the parlors at 9:30, and consisted of cold meats, sandwiches, tea, coffee, cake, ice cream, etc., the excellence of which could not be excelled, and elicited words of praise from the guests. Mr. C. F. Rollins has charge of the painting department of Rough Bros' Wagon Works, and is held in high esteem by all who know him for his integrity and social qualities. Vocal and instrumental music was an enjoyable feature of the evening. The Buchanan Cornet Band played several pieces on the lawn in a very creditable manner, and were enjoyed very much by all. The lawn was nicely illuminated, and presented a very pleasing appearance.

Among the guests present were, Mr. and Mrs. Hibbard, Misses Grace Elibard, Nellie Boyd, Arilla Hodson, Addie Trump, Mr. and Mrs. Montgomery, Mr. and Mrs. G. T. Hodson, Mr. and Mrs. C. Trump, of South Bend, and Miss M. J. C. Vanorstand, and Miss Stella Peck, of Michigan City, Ind.; Mr. and Mrs. C. R. Sabin, of Kalamazoo, Mich.

The presents were many and very nice. Following is a list: A complete china dinner set, Mr. and Mrs. G. S. Taylor, Mr. and Mrs. J. Hibbard, Mr. and Mrs. G. Dawson, Mr. and Mrs. J. Dawson, Mr. and Mrs. Jarvis, Mr. and Mrs. Waldroff, Mr. and Mrs. B. B. Hemle, Mr. and Mrs. W. R. Boyd, Mrs. E. S. Kerr, Mrs. R. Kelley, Mrs. J. Hodson, Mr. and Mrs. M. J. C. Vanorstand, Mr. and Mrs. J. M. Miller, Mr. and Mrs. J. Byers, Mr. and Mrs. C. G. Hodson, Mr. and Mrs. G. T. Hodson, Mr. and Mrs. C. Trump, Miss Arilla Hodson, Mr. Alvin Hodson, of South Bend; Mr. and Mrs. C. R. Sabin, of Kalamazoo; Mr. and Mrs. S. Atwood, Mr. and Mrs. George Merrill, Mr. and Mrs. A. C. Hargraves, Mr. and Mrs. S. L. Kingley, Misses Lucy Simms, Ole Atwood, Jessie Atwood, Mr. Claud Atwood, Mr. and Mrs. C. E. Kerr, of Buchanan.

NEW TROX ITEMS.

July 9, 1888.

Some of the citizens of this place who were the forced enjoyors of the opening ceremonies pertaining to the celebration, last Wednesday, will be apt to remember the first four hours, when upon some subsequent occasion they are importuned to subscribe for a like commemoration. For, methinks, as they reluctantly forsook the enchanting land of Nod for that home of worldly strife, many a sigh was uttered for woman's rights and a broomstick sceptre.

The dance was a complete success, and all who partook of its proffered enjoyments went away satisfied with the evening's pleasure.

Another slave to the charms of matrimony, the victim being Mr. Sidney Smith.

There will be a raspberry social at the hall, next Friday evening, for the purpose of aiding the M. E. church. The present condition of the Sunday school reflects great credit on that little band of earnest workers, who have from year to year labored with untiring zeal to promote the interests of morality, by the telling of o'er and o'er that story of Moses' redemption by the infinite grace of God.

[Niles Mirror.]

A nine months old boy of Joseph Marston, got hold of a bottle of camellia oil, and poured it all over his face, and into his eyes and mouth. His agonies were intense. Soon the eyes and throat were much swollen, but he is recovering. On the 7th inst. lightening killed several cows and hogs of John Shearer, near Elkhardt, struck two houses, and made bad work with the telephones.

[St. Joseph Republican.]

Early Monday morning, Ludington, Fenwater, Muskegon, and other north coast towns were visited by a severe wind storm, which almost amounted to a cyclone, while here the lake and atmosphere were perfectly quiet, when suddenly the river, which was very high owing to the late rains, began to fall, and in a few minutes the register at the life-saving station showed a fall of eighteen inches, and then the water began to rise until it reached four feet above high water mark, and again fell, the water rushing out between the piers with the velocity of a torrent. There is no doubt but that this tidal wave was caused by the severe storm then raging at the north, as a similar phenomenon was witnessed here some weeks ago, when the cyclone was sweeping over the Wisconsin coast.

[Niles Republican.]

The lightning rod campaign is about to begin in this vicinity. We are advised that the printed order the companies have got out this year for our farmer friends is the deadliest invention ever yet formulated. We advise our friends that under no circumstances do you sign a contract or order for one of these lightning rods until you have taken it to the best lawyer in the county and taken his advice. It will be worse than a mortgage on your farm. Especially never sign until you are sure that the precise number of feet of rod is written out plainly in words and figures. The same of the number, "points" and when their price. The probability, however, is that if you undertake to deal with the chaps and sign anything that comes from their satchels, you will find yourselves sold.
