THE township treasurer informs us that he has his list so near clear that he will not ask for an extension of time, so it becomes a matter of importance that you pay your tax this month.

THIS list of heavy fires has been quite extensive during the past cold snap. Luckily Buchanan has escaped, but with the hot fires necessary to comfort in such weather too great care cannot be taken with stove pipe connections. This is a poor time of year to be burned out.

THE Eaton Rapids Journal contains an account of the Christmas greeting given Rev. W. J. Coghill by the members of his church in that place. After they had got through with him he discovered himself better off by a fine set of chairs and an elegant hanging lamp.

ELECTION.—Buchanan Engine Co. No. 1 elected the following officers for the year 1884, last evening: David Murphy, Foreman; Geo. Howard, 1st Asst. Foreman; Clark Phelps, 2nd Asst. Foreman; Seth E. Straw, Secretary; B. D. Harper, Treasurer.

ELECTION.—The Buchanan Cornet Band elected the following officers for the year 1884, last evening: Samuel Wells, President; B. D. Harper, Secretary; A. F. Ross, Treasurer; Warren McDaniel, Leader; Salma Barmore, Drum Major.

REV. A. HAYES, agent of Naperville college, will preach Sabbath morning, Jan. 13, in the Portage Prairie Evangelical church in the English language and in the afternoon, in the German, and in the evening in the English language at Kessler's church. Collections will be taken in the forenoon and afternoon.

MAJ. SAMUEL WELLS, President of the Soldiers' and Sailors' Reunion Association, has called a convention of the officers and members of that Association to meet at Kalamazoo, Jan. 21, for the purpose of devising the best mode of holding the annual reunions, define the limits of the district, and for the transaction of such other business as may properly come before the meeting.

AN error occurred in our Gallien correspondence's account of the mustering of the new Post, G. A. R., owing to not very plain penmanship. The number of the Post was 208 instead of 8, as was published. The detail to do the mustering consisted of Commander Gardner and Comrade Harbitt, of this place. There were visiting members present to assist, from Berrien Centre and Three Oaks Posts.

ONE of the business changes we mentioned last week took place Saturday evening, when the corner hardware store changed hands. It is now the Roe instead of the Rough Bros. The new firm consists of Messrs Eli J. and J. Harvey Roe. Another appears in the announcement of S. & W. W. Smith, that they will close out their crockery business. Whether they will continue the grocery business is still a matter of doubt.

ONE of the most lucrative industries in Kalamazoo is celery gardening. One firm alone made a profit of \$12,000 on the product of a 20 acre lot. The land used for this business in Kalamazoo is of the same kind as that lying west of the Buchanan Manufacturing Company's buildings, and between them and the Michigan river. Marsh land that they make dry by under draining and by the cultivation of celery reap enormous profits.

THE Metropolitan Comedy Company tried to go to Berrien Springs Thursday, where they had an engagement, but starting off in a narrow gauge box car managed to go to near the Searls place, where the train stuck in the snow. The train then attempted to return to town, which they managed to do in about six hours of hard work. Not being able to get out of town Friday the company billed the town and played the "Molly Maguires" Friday evening.

THE Niles Republican having offered to publish 1,000 copies of a pamphlet containing the proceedings of the Board of Supervisors, for 95 cents per page, the Board has let the job to that office. This is certainly cheap enough. The price paid last year for the same paper was \$1.05 per page, which also included publishing the matter in the Republican. The request by the county clerk for bids, this year, did not ask for such publication. If the Republican takes advantage of the clerk's neglect the Board will have another job to let, as the laws require the publication of the proceedings in some paper in the county, but do not require the printing of the pamphlets.

THE first meeting of the High School Lyceum will be held in the Union School building Tuesday evening, Jan. 15. Arrangements will be made, at that time, for meeting the young people of the village not attending school in evening session in school building. As the tuition for the evening school is to be free this seems to be a good chance for our boys to gather information.

REPORT of School District No. 1, Hill's Corners, Weesaw township. Number of pupils neither absent or tardy (excluding the three days of severe storm of the past week) during the month ending Jan. 4, 1884: George Boyce, Tena Boyce, Arthur Logan, Charlie Stephens, Melvin Stephens, George Brown, Cory Hanover, Hattie Orris, Charles Boye, Jennie Boyer. The following are the names of pupils who have not whispered during the month: George Boyce, George Brown, Melvin Stephens, Jennie Boyer, Winnie Griffiths Ida Mutchler.

THE residence of Mr. and Mrs. Horace Black was well filled on Tuesday night, Jan. 1, with a happy party of friends. It was their golden wedding day, and some sixty were gathered to congratulate them with many golden wishes and also wishing they may celebrate their diamond wedding. A large number of beautiful presents were left as a souvenir of the good wishes of the donors, which were highly appreciated. Among the presents were seen the candlesticks which were a present to the bride fifty years ago.

CARD OF THANKS.
Mr. Editor.—Permit me through your paper to express my gratitude to the good people of Buchanan and vicinity for their hearty co-operation in our meeting; also for the very liberal support, financially, for services rendered. My prayer is, that God may wonderfully bless you all in life's conflict, and at last we may see each other where our visions will never be parted.

THIS section of country has just experienced one of its worst blizzards. The mercury Saturday morning ranging from 10 to 20 below zero, and Sunday morning about 20 below. In the meantime about a foot of fine snow had fallen and drifted in all manner of shapes. Trains on the Michigan Central have been from four to six hours late, and north and south trains were abandoned. The storm was quite extensive, covering the country from the sea to the rocks, as far south as Central Indiana. While we have been having sixteen and twenty degrees, in Minnesota and Dakota they have been enjoying thirty-five and forty, and in Manitoba forty-five below. It was the first storm of importance of the winter, lasting from Tuesday to Sunday morning.

MESSRS. SPENCER & BARNES, who have with their predecessors been doing a successful business in the manufacture of cheap furniture in this place since 1874, are making arrangements for the erection of a new brick building, to be 38x138 feet and three stories, on the opening of spring, the entire building to be used to accommodate their finishing and packing department. This enterprise started with the bankrupt stock of J. Brown & Co. amounting to \$850, in the room now occupied by C. H. Baker, and by hard work and most excellent management grown to its present huge dimensions with an invoice amounting to over \$40,000. They now give employment to 45 men some of whom draw pay for as high as \$5 hours per week. These extra hours being necessary to keep up with the orders.

ELECTION NOTICE.
The election of the Farmers' Mutual Fire Insurance Association of Berrien and Cass Counties, Mich., will be held at the Secretary's office, one and one-half miles south of Buchanan, the first Saturday in February, 1884, between the hours of one and four P. M., for the purpose of electing one President, one Secretary and ten Directors.

Miss Julia Spooner, of South Haven, is here visiting with her cousins, Miss Hope Miller and Miss Myrtle Hill.

Mr. S. W. King has removed to his farm, and will now devote his spare time to studying Greeley's advice to farmers.

The leap year dance was a success, notwithstanding the storm and various other unforeseen events with which the ladies were obliged to cope. Several of the young men of this place made the new year the starting point for the better accomplishment of life's labor.

On the 5th of January the whole number of books drawn was equal to one-sixth of all the volumes in the library, and these, with those already drawn the previous week, was equal to one volume for every family in the district; and furthermore, of these books less than 20 per cent, were of a fictitious character.

An expert handkerchief firm and a matrimonial agency are among the latest acquisitions of Trojan society.

"Two from two, and nothing remains." Therefore the music lovers of Troy were obliged to forego the rich feast that was to have been presented unto them by home talent last Tuesday evening.

If there is an enterprise in this village which is entitled to praise for its progress in the past year, it surely is the choir at the M. E. church. True, the organist often finds it quite embarrassing to fill three places at once, and the bellows boy fondly imagines, that of music he knows more than the leader, or at times more frequent than rare, the leader himself derives his only support from the echoes of his own voice. Yet with all these errors and personal omissions the choir is as useful as ornamental.

Query: Does the Gallien correspondent for the Three Oaks Sun live with one foot in Troy?

heard, and many more than I
 could tell, the masters of the
 unwritten laws of life, however, among
 the minor ones is that which makes it
 an instinct with Beauty to adorn itself.

A bit of ribbon here, a touch of color
 there, charm of face and figure, shaped
 by the hand of the artist, the artist-waiter,
 and supple neck; here, there, and
 everywhere about Beauty's person,
 from the curve of the dainty little ear
 to the slope of the shoulders and the
 tips of the toes, there is one
 manifest voice to be heard—"I am
 trying to look my best."

And, what is more, woman ought not
 more to neglect trying to look pretty
 to the end of her days, than she ought
 to forget to do her duty.

menous volume of business which almost overwhelms the house. The writer further says that, when developed into a confirmed habit, it is fertile in provoking nervous maladies.

The following appears as an advertisement in a conversative daily paper, sandwiched between a puff of the "regent" house at the £200 and the announcement of a "tête à tête" sale:—"Mr. Wood's executing apparatus, comprising the whole of his ropes, pinioning straps, Gladstone bag, family Bible, book of devotions, diary and correspondence, and a portrait of Marwood in his own handwriting, will be sold at the East London Aquarium, Bishopsgate.

juice that are shot about in every conceivable direction, irrespective of persons or things. Sometimes these jaws are used in the most unbecomingly coarse service in the art of mastication; chewing requires too much exercise for their indolent natures to withstand. Something must be done to relieve these jaws of their excessive exertion, and the characteristic pipe is at once brought forth from the hiding-place in the chimney. And such pipes—great black, filthy things, strong enough to wreck the constitution of a man—stand before one of those pipes when it is in full blast: is proof against anything. He would certainly need no life insurance.

man, who has been directing the estate for many years. This plantation encompasses 1,000 acres in the sugar-cane zone of the cane fields. The machinery is all of the heavy order. The Ames brothers do cultivate about two square miles of land, and all the equipments of the plantation are perfect. Among other things, they have a fine system of iron railway cars to convey the cane from any part of the fields to the mill. By this use of improved machinery these manufacturers have been enabled in the years 1879, 1880, 1881, 1882 to get a larger crop than in any previous year. In 1879, thus: Sixty-two and two-tenths pounds to 100 pounds of cane; 64 and 2-tenths pounds to 100 pounds of cane; 67 and 1-tenth 69.7.
