A NEW MOTER SHIPTON.

It is a fact that remedies almost without number, already count the claim to cure all the ills that afflict mankind. Thousands have found them powerless to work a cure for them.

It Did Cure

Rev. S. R. Dennen, D.D., pastor Third Methodist Church, New Haven, Conn. He writes: "I have had a severe case of rheumatism and neuralgia, and have been unable to get on my feet for several months."

It Will Cure

The great question is, Will it cure me? We believe it will, if you are afflicted with any of the following ailments: Rheumatism, Neuralgia, Headache, etc.

One of the wealthiest firms in the State of Maine is composed of two brothers of Augusta, whose only original capital was \$5,000, which their sons recovered in a breach of promise suit.

"When I die, my boy," said a rather feeble Pittsburg father, "I don't want my floral pillow with 'Father or Best' on it; simply the letters 'S. Y. L.' nothing more." "And what, dear father, are these letters to you?" "They stand for the words, 'See You Later.'"

Woman is so built that she but seldom can throw strategy. Providence, it is truly said, orders everything for the best, and after a husband has seen one tin cup sail harmlessly by his head, he will run before she can snatch up another.

A New York girl writes to an editor: "How can I break a young man of the habit of saying 'onst' for once, then' things for those things, and I seen' for I saw?" If he was born and brought up in New York the only way that we can get him out of his head off—Detroit Free Press.

Luminous harness is the latest device used in England to make the dark horse visible at night. A phosphoric paint applied to the blinkers, collar, and other parts of the harness is used to bring about the result, and the night trotter, thus prepared, is said to resemble chain lightning as he plunges into the darkness of the country side.

A lady writes to ascertain the best way to preserve a piano. The best way to preserve the piano is to cut it in quarters, take out the core, and boil the pieces until they are about half done. Then make a syrup of sugar and water, and pour it over the pieces, after which they can be put in a box or case. Pianos preserved in this way will keep all winter.

Dr. William Cleaver Wilkinson has presented a plea for the study of the classics. He declares that he is "no student of the classics," and admits that the knowledge gained by the average college graduate is not sufficient to enable him to read with pleasure or ease a page of Latin or Greek; but he pleads that the same is true of all other studies, and that the graduate gets only a smattering of any.

At Anderson, Ind., Tuesday morning, before daylight, Marshal Coburn arrested three burglars while they were at work in Nichols' hardware store. They are Cornell Doll, aged 12, Chas. Doll, aged 13, and Fred. Doll, aged 14. Doll the elder remarked that if they had found any cartridges for their revolvers "it would have been a colder day before that damned Marshal could have pinched us."

Klein induced McCue to drink three pints of whiskey on a wager, at San Antonio, Texas. The feat proved fatal. McCue's widow sued Klein for damages, and got a verdict of \$8,000. On appeal, the Supreme Court confirms the jury's conclusion. The ruling was that when a man drinks three pints of whiskey, he is liable for the consequences, as to be incapable of consent at the time of swallowing the third and killing pint, the man who made him do it was responsible.

Mr. Shields, by laying pipes perforated at intervals some hundreds of yards, reports a case of cure of Arteriosclerosis in eighteen days by use of colchic in six to nine ounces in twenty-four hours.

There were 1,070 accidents last year in the Pacific coal mines; 233 deaths, making 133 widows and 512 orphans. There is one death to every 30,000 tons of coal.

A gold watch with a bullet in the back of the case, which lodged after going through the time-piece, belongs to W. R. McGunnigle, of Saginaw, Mich. It saved his father's life during the war.

Igh J. Jewett is a director in twenty railroad companies, Samuel Sloan in twenty, and John G. Reilly in twenty-four. George B. Roberts is twenty-eight, August Schell in twenty-eight, Sidney Dillon in thirty-six, and Frederick L. Ames in fifty-two.

A book-binder said to his wife at their wedding: "It seems that now we are bound together, two volumes in one, with a clasp." "Yes," observed one of the guests, "one side highly ornamental Turkey morocco, and the other plain calf."

"A farmer's wife" wants to know if we can recommend anything to destroy the tomato grub. "I guess the next tramp you come along could oblige you, if the family can't stand your cooking."

A Philadelphia man in a sleeping car went through a terrible accident in which the sleeping car rolled down an embankment without waking. It was noticed, however, that as the car struck the bottom, he murmured, "Don't jump, don't; I'll get up and start the fire."

An English judge lately refused the expenses of three tradesmen who prosecuted men for stealing goods from their shop doors on the ground that by closing their goods in the way mentioned they held out a temptation to steal.

The Washington correspondent of the New York Times says: "It seems to be admitted that Judge Gresham will be the residuary legatee of President Arthur in the event of his candidacy proving hopeless."

George W. Peck, Jr., Peck's Bad Boy, will be married in April to Miss Annie Fitzgerald, of New York. So Peck's bad boy gets Fitz at last. Serves him right. May he live long and prosper.—Inter-Ocean.

The first mass convention of American inventors will be held in Cincinnati on March 25. The object of the meeting is stated to be the formation of a permanent organization to protect the rights of inventors.

The blowing down of an oak near Washington, Ga., revealed a little heap of gold and jewels, diamonds, rubies and pearls, said to be worth \$20,000. It is supposed that they are part of the treasures lost by members of the Confederate Cabinet.

"I'm all wool and a yard wide!" shouted a cowboy, as he gave his sombrero an extra side hitch and looked around for a foe. "That may be," replied an unflinching female, "but you won't wash."

The director of a marriage agency says that the widows and young girls to whom he proposes a husband invariably reply by the following questions: "How is he?" says the young girl. "What is his position?" says the widow. "Quick! Where is he?" cry the widows of a ripe age.

William King, upon being converted in a Methodist revival meeting in Caldwell, Ky., arose and confessed that he had robbed a store in 1823 of \$800 worth of goods. He went to the prior the next day, and paid the amount, with twenty years' interest, but was immediately arrested for the theft, and now languishes in jail.

Some time since I noticed an article in the newspapers recommending the use of lemon juice in the treatment of rheumatism. It is a well-known fact that thousands are filling early graves every year from the effects of strong drink. This, also, looked upon by many as a vice, is also a disease. Every person who has used liquor to excess knows that there are earnest attempts to reform. These might have succeeded by the timely use of a cooling beverage to allay the heat and tenacious craving of the over-stuffed stomach. The proper and persistent use of lemons will do this, and the appetite for strong drink will be a thing of the past. Having in my own case proved the efficacy of this simple remedy, I would, hoping others may find them equally efficacious.

In Dakota there are great numbers of Norwegians, who have been attracted to the country by the flaming circulars of the railroad and land companies, and still more by letters from friends already on the ground. They are not disappointed, for they are content to begin very humbly. At first a house of sods of one room is satisfactory, though the pig is a fellow occupant. The first improvement is a sty close by the front door, and the pig only enters the house occasionally as a visitor. Next, the house-made sod stove must make way for an iron one, and the sod house itself is deserted for a dwelling all wood, and costing perhaps as much as \$200. When this house, with its windows and its shingle roof, is finally painted white, the climax is reached. Magnificent, in its way, it is not more than a picture of more luxurious or beautiful.—N. Y. Sun.

Three years ago Amherst College made a set of rules founded on the principle that each student was received as a gentleman and would be expelled whenever his conduct proved that he was not a resident Seelye says it is the unquestioned judgment of the faculty that there has been a great gain in regularity of attendance and standard of scholarship. No punishments are prescribed. The misbehavior of a student is not sent away nor even shut out of the recitation rooms, but no attention whatever is paid to him. The system of government recently introduced at Bowdoin comprises a college court, composed of a student body

THERE appears to be a brightening of the real estate market in this vicinity. A few sales are taking place. Among others is that of Wm. B. Hoag, that took place a few weeks since, but has been kept somewhat quiet.

THE committee appointed at the meeting last Sunday afternoon, to raise subscriptions for the food and cyclone sufferers of the South, succeeded in getting over \$200 cash of the citizens of this place, which has been forwarded to-day.

THE house and lot adjoining the school lot in this place, known as the Jacob Hill property, is advertised to be sold at mortgage sale at Berrien Springs March 3. The amount claimed to be due is \$103.63, which is interest on a \$1,000 mortgage.

Mrs. SHERMAN, of Detroit, widow of the well-known Michigan Central conductor, James Sherman, is visiting with her sisters, Mrs. Bennett and Mrs. Bush, in this place, and assisting in the care of her father, Mr. Van Gorden, who is quite sick.

AMONG the graduates at Hahnemann Medical College, last Thursday, was Mr. H. D. Manchester, who has hung his shingle to the breeze, at his home, on Chicago street. Particulars are given in his card in our Business Directory on the first page of this paper.

REPORT has it that a couple of Buchanan young bloods spent last Thursday night in the Niles city refrigerator, "as a consequence of being in bad company." Rather tough on the company. The boys stood it well enough, although it cost them \$10 each.

WE learn that it is the intention of some of those owning brick blocks in this place to replace their old style small glass windows for plate glass. It requires but one to start this great improvement to have the majority of the fronts of this kind of glass.

PREPARATIONS are being made to manufacture the featherbone stays, patented by Mr. Warren of Three Oaks, on a large scale, and to operate an extensive corset factory in connection, at Chicago. This is evidently an enterprise that is bound to grow to important dimensions.

SOME of our merchants are talking of private gas works for lighting their stores, using gasoline for the purpose. When this kind of machines are used they give good lights at about two-thirds the expense of ordinary illuminating gas, and no vexatious gas meters to quarrel about.

THE Sabbath School Association of this township held an interesting meeting at the U. B. Church last Thursday afternoon. Several papers were read and speeches made. The officers elected for the ensuing year are: W. A. Severson, President; Alfred Richards, Vice President; Mrs. Scott Whitman, Sec.; L. Fairbanks, Pres.

CAN any one be found who will start a canning establishment in this place this spring? One that will have the capacity of 500,000 cans for the season can be started at an expense of \$1,500 for building and machinery. Such an enterprise would do more to distribute a large amount of cash among the citizens of the place than the same amount invested in any other business.

Two literary societies located at Mt. Tabor Grange hall and at Berrien Springs are making interesting work for the members. One of the leading subjects has been the tariff, which is handled with considerable ability, and has thus far resulted in favor of protection. This is not entirely with the speakers, as the good arguments are on that side of the question. One good free trade Democrat acknowledges having been converted while looking for arguments for the opposite side, he happening to be on the protection side.

If you have any throat, lung, liver, heart, or chronic disease, we advise you to consult Dr. F. B. Brewer, on his next visit at the Bond House, in Niles, on Saturday, the 8th of March.

NEW FIRM.—Rough & Helmick have sold their stock of groceries to Messrs. J. F. Peck and Aaron Miller, who will continue the business at the same stand for the present. The work of invoicing the stock will commence next Monday. The new firm will be a strong one.

A number of castles yet in the air are likely to develop into material facts in this place in a short time.—Buchanan Record. Is this meant for Anderson's vindication? Or does it mean that Buchanan will furnish all the next set of county officers?—B. W.

Just keep your weather eye peeled, and if you don't learn something it will be your own fault.

MR. W. G. ROBERTSON, of Mt. Clemens, the Grand Lecturer of the Masonic fraternity of this State, will be in Buchanan, for the purpose of holding a school of instruction, on Saturday next, March 1. All Master Masons in good standing are invited to attend. The school will be held in the room of Buchanan Lodge No. 68, commencing at 10 A. M.

WE have found one man in Niles township who refuses to take any political paper during the election campaign, and so drops his name from the Record list until after election. It is a pleasure to know that there are people who do not care enough about the country they live in to want to know anything of its management, called by their neighbors good, sensible men, too.

A NEW building, three stories, of brick, is to be built at an expense of about \$90,000, with special reference to the accommodation of the business of the South Bend Tribune, the coming spring. That company is one of the most wide awake printing establishments in this part of the world, and we are pleased to learn of this evidence of their prosperity.

MR. L. B. CARVELL has bills out advertising an auction sale of his entire stock of carriages, buggies, sleighs, harness, and other articles belonging to an agricultural depot. All but a few articles will be included. The sale will occur at the ware rooms on Oak street, just south of the engine house in this place, on Saturday, March 3. N. Hamilton will do auctioneer service. This is a good opportunity for farmers and others needing anything in that line.

THE announcement that the Converter heirs intend to prosecute their claims to lands in Bertrand township is causing a considerable of uneasiness, although no legal steps have yet been taken. This is a case that, if prosecuted, will test the efficacy of Michigan limitation laws. It will decide whether parties may hold peaceable possession of real estate for forty years or more, and then be dispossessed by some supposed heir of an Indian trader.

IN the European countries where the American hog has been tabooed, on account of trichinosis, it appears that cases of the disease are caused by the people eating raw pork. The same appears to have been the case with the victim of the disease in Niles, the Vetter family having eaten of the meat of this one hog of the drove that was diseased, without having first cooked their meat, as is the usual custom in civilized communities. It has been proven and thoroughly advertised that no danger is to be apprehended when the meat is properly cooked before eating.

THE famous McGibeny family that gave such universal satisfaction with their entertainments in this place a few years since, is billed for an entertainment in Rough's Opera House on Friday evening, March 7. With five years of practice and training the children have greatly improved, and we may expect a first-class entertainment, and their a full house. While here they are under the auspices of Wm. Perrott Post No. 22, G. A. R. See the advertisement in this paper.

HON. THOMAS MARS is putting in some good work, to make what has been the Niles fair a Berrien county institution that shall be of value to the farming community. Mr. Mars should receive all possible aid and encouragement in his undertaking, to give Southern Berrien county a good fair, a thing we have for a number of years been without. If Mr. Mars fails in his undertaking it will not be for want of energy and hard work on his part.

IN the Porter County, Indiana, Vidette we find the following high compliment to one of the rising young men of Buchanan:

Mr. A. C. Gyer's lecture, "Success in Life," was listened to by a large audience last evening in Chapel Hill. Mr. Gyer proved his assertions with such vivid examples and spoke with such vim and eloquence that the audience was held as if spell bound for nearly one hour. Although his subject was a great one, yet he showed himself to be equal to the occasion. Mr. Gyer is young in his experience as a lecturer, yet in his power of expression and call delivery one can plainly see the making of a great orator. He leaves Valparaiso with the congratulations of all who heard him and the best wishes of his old friends and classmates.

ALBERT VETTER, one of the trichinosis patients, died on Friday evening last, at 6 o'clock, at the age of 19 years. His limbs were much swollen and very stiff and sore, and was unable to move or be moved by any one. For the past ten days he has been unable to swallow anything, except a little milk and stimulants. His constant prayer during the last week has been for death to relieve him from his agony. He had his senses to the last moment. He was an excellent young man of much promise, and the family and friends have the sympathy of the entire community. To die seems nothing, but to have millions of parasites consume the blood and riot on one's living flesh until exhausted nature yields, is horrible to contemplate. In the autopsy, a piece of flesh the size of a grain of wheat revealed one hundred well developed trichiniae.—Niles Mirror.

IF you have any throat, lung, liver, heart, or chronic disease, we advise you to consult Dr. F. B. Brewer, on his next visit at the Bond House, in Niles, on Saturday, the 8th of March.

In reply to the would-be satirical remarks of "Quantum" aim at me, I would simply state that I have never sought to circulate a single thought that would falsely disparage the place that I am proud to call home. Neither shall I attempt to base my honor on such principles that must ultimately prove to be like unto the fabled apples of Sodom, beautiful and tempting without, yet but ashes within.

Were you ever at Gabe Town? If you have been, don't read this, but if you have not, persevere with care. This village is situated one and one-half miles south and east of New Troy. The chief occupation of its inhabitants is the manufacture of hard wood lumber and broom-handles, for which commodities a near market is found in Buchanan and Gallien. Although but two years old it has so developed its many resources that to-day it gives permanent employment to some twenty-five laborers; and as the leafy barriars slowly melt away before the unflinching hands of its proprietor, Mr. Gabe Penwell, I can discern the as yet shadowed outlines of a rival to its sister Troy.

It is said that there is a mill in the northern suburbs of town where the crew take a drink every time the saws cut out of a board, and yet none ever went home intoxicated.

5.—A Startling Discovery.  
Mr. Wm. Johnson, of Huron, Dak., writes that his wife had been troubled with acute bronchitis for many years, and that all remedies tried gave no permanent relief.
