

JOHN G. HOLMES, Editor.

THURSDAY, APRIL 3, 1884

Leopold, the youngest son of Queen Victoria, Duke of Albany, died Friday of epilepsy. He was thirty-one years of age.

Hon. J. C. Burrows has signified his willingness to accept the appointment as Solicitor of the treasury, if confirmed.

The decrease of the public debt for March was \$15,235,324, of which \$8,015,500 was an actual decrease of the interest bearing debt, by the redemption of bonds.

Gov. Begole has proclaimed that April 24 be observed in Michigan as Arbor Day, and all good citizens of the great commonwealth enjoined to plant a tree.

The Michigan Telephone Company has put up an 82-foot-high telephone pole on Campau st., the tallest, probably in the state. The wires on the pole have to be put high to clear electric light wires belonging to the Michigan Iron Works.—Grand Rapids Leader.

Gov. Begole has pardoned A. S. Jenkins, sentenced Feb. 21, 1882, from Kent county, to three years to Lonia, for forgery; also Harriet J. Bush, sentenced from Montcalm county, to 45 days in jail and a fine of \$50 for assault and battery.

Cincinnati, after just passing through one terrible scourge, has voluntarily rushed into another. A man named Berner, who was on trial for murdering his employer for his money, was tried, and after confessing his crime was found guilty of manslaughter and sentenced to State prison twenty years. This was looked upon by the citizens as an outrage on justice, and a call was circulated for an indignation meeting, which led to a furious and uncontrollable mob, which rushed to the jail, bent on lynching Berner. They were foiled in this by the officers removing him to Columbus, and rather than be quieted without making trouble the mob proceeded to break into the jail, to hang the other murderers who were confined there. They set fire to the jail, court house and surrounding property, over a million dollars of which was destroyed. Gov. Hoard ordered the entire State militia to appear on the scene. They succeeded in quelling the disturbance only after they had killed fifty or more persons and wounded over 150. Included in the property destroyed was one of the best law libraries in the country.

GALLEN ITEMS. April 2, 1884. Bad crows are prevalent. The factories are all in full blast. David Moore is on the sick list. Mrs. E. Harris has gone to Jefferson, Ohio, to make a visit. Cornwall and Miller have dissolved partnership. Miss Lillie Harris goes to Jackson to-day for a visit. Married, Saturday night, March 29, by Esq. Witte, Mr. John Mell, jr., and Miss Florence Redding, all of Gallen. Mr. Will Mell, of Battle Creek, who formerly resided here, will soon make this his home again. A number went from this place to Berrien Springs last Friday and Saturday, to attend the examination. This has been baby week. Cass Proud has a girl, that makes one baby; Theodore Wooden has a girl, that makes two babies; Gus Janssen has a boy, and that makes three babies; and three babies and two babies and one baby are six babies; and they are all the sweetest kind of babies. The Baptist church will hold a Sunday school institute in Gallen April 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, and May 1, 2, 3, 4, 5, HIGH'S COLUMN.

We forgot to tell you, last week, about our New Jerseys Waists. They come in black and shades of cardinal & wine; & you will find that, to wear with a good skirt, there is nothing that will answer the purpose as well as they do. Sizes run from 32 to 40, bust measure.

New Brodheads at 25c. per yard, (double fold), and we can warrant the color not to fade, either by washing or wearing. We sell lots of them every season. They are the heaviest and best made, for the price, in town.

We sell an extra quantity of Table Linen, as our assortment is good. Running at 25, 30, 35, 40, 45, 50, 65, 75 and 85 cents, and \$1. You will like them, if you want anything in that line.

1,650 rolls of Wall Paper received by us last week, consisting of new spring goods, made for this year's trade. Very fine & choice patterns at 15c. You will be surprised to see how nice they are at 20c. We give you the best quality you ever saw. Other stores ask 25c. for them. We have a very large assortment. In white, we have a very large stock and good patterns. They run lighter and in small figures, with borders to match.

Every lady says our Embroideries are very much cheaper than they are at other stores. Come in and see them. We own about \$300 worth.

Mrs. DR. KNIGHT, nee Emma Smith, is now temporarily in her old position as teacher in the Grammar department of the Buchanan schools.

The Graham & Morton Transportation Company will commence running their steamer Lora to Chicago tri-weekly, next Monday, April 7.

A GANG of workmen, under the direction of the Marshal, has cleared the gutters of front street so that they present a respectable appearance.

ARTHUR ALLEN has sold the southeast twenty-six acres of his farm lying near the Bakertown cemetery, to Geo. Boyle, for \$2,000, cash.

SOME errors appeared in the number of delegates and votes in the call for Republican County Convention, last week. A corrected list appears in today's Record.

JAMES HIGMAN, of Higman Bros. lumber dealers, formerly of St. Joseph, died recently in Chicago of gangrene in his leg, which he had had amputated three times, on account of an accident.

RUTUS K. CHARLES, an old resident of Niles City and for a number of years a member of the Board of Supervisors, died at his home Friday evening. Aged 70 years.

ARRANGEMENTS are being made to build a sidewalk of artificial stone on the east side of Detroit street from Front street to the school house, during the coming summer.

The Marshal is making closing work for the few poker rooms that abound in this town. Just what has been needed for some time. He will please continue his good work.

At the Republican caucus held in Kinyon's hall Saturday afternoon, I. Leroy H. Dodd, W. A. Palmer and A. A. Worthington were appointed township committee for the ensuing year.

MR. J. J. ROX has bought the Hall property, on Main street, fourth door north of the bank, and will occupy it as a jewelry store. Price \$450.

L. P. ALEXANDER, P. M.

EDWENS Hicks and Paton will preach in the Old Advent church next Sunday forenoon and afternoon. It is expected that these gentlemen will remain during the week. Their further announcements will be made from the pulpit, at the Sunday services.

Two children from Niles came to this place, Monday morning, to get married. They applied to Justice Rogers, but when he learned that the girl was but fifteen and her intended not old enough to grow a mustache, he informed them of his inability to perform the ceremony, and they left in sorrow.

THE year for which Will Bainton had leased the Dayton mills expired Monday, and on Tuesday his successor took possession. Mr. Bainton now expects to engage in the erection of a new mill at the Fort Sumpter site. This will lead to the raising of the mill pond once more at that point. This will greatly improve this place as a wheat market.

THERE are a few young girls about fourteen or fifteen years old, or less, in this town who are leading the life of public prostitutes, who should be placed in the state home at Adrian, and their parents ought to be in Jackson state prison for the example they have given their children, and the sooner one or both are sent there, the better for them and the community they now disgrace.

MR. GEORGE McWILLIAMS, a member of the Buchanan Cornet Band, died Friday morning, after a sickness of about three months, aged 24 years. The funeral services were held in the Presbyterian church, which was crowded. The procession to Oak Ridge cemetery, which was a long one, was headed by the band. George, although a mechanic and in poor circumstances, had a life of friends, gained by an upright life.

NEXT Saturday is registration day. If your name is not on the register before four o'clock of that day you cannot vote next Monday. Do not get deluded by the impression that you can send your name in by your neighbor. You must make personal application to the township clerk. The law provides that he may ask you some questions, and you must be there to answer them.

ARNOLD PIERCE, Justice of the Peace at New Troy, announces his readiness to attend to public business by the following, which he has printed on his business card:

Marriage ceremonies performed at all hours of the day and night. Especially attention given to claims of soldiers who were frightened or discouraged during the war. Office hours from 1 o'clock in the morning to midnight, standard time.

It took only four votes to make a Justice of the peace, hence his promptness. But few friends to please.

THE present system of examining teachers is giving the poor teachers an idea that they must study their lessons before making application. Only fifteen of forty-eight applicants, at a recent Kalamazoo examination, obtained certificates. There is great need of this, however, for the slack management of that department of our public school system during the past few years has filled the profession with a lot of ignoramuses who have barely graduated in the preparatory department of a country district school, when they are supplied with a certificate and are ready to take charge of a leading department in some academy, many of them not being familiar with the rudiments of an English education.

A movement is on foot to ask the Common Council to start a small sized prohibition law of their own. Two cases have gone before the Supreme Court, reported in 44th Michigan, in which the Common Council of Yermontville and Sturgis refused to accept the bonds of the liquor dealer, and refused to give any reason for such refusal. The dealers asked for a mandamus to compel the Council to give the reasons, and the Court decided their reason must be deemed sufficient in both cases. With this for law, it lies with the Common Council to decide whether any Michigan town shall have any saloons or not.

ONE of the most important duties of Monday's election is the voting upon the various amounts to be raised for township purposes, which is done directly after the noon hour. There will be money to raise for general township expenses, highway, poor fund and for library. The latter has become, by a light annual expenditure, a public blessing that is inestimable, and there should not a year be allowed to pass without a liberal appropriation for the library. We have one of the best township libraries, and one that is as well patronized as any town of 3,500 inhabitants in the State, and it should be kept so.

WHILE our neighbors are going wild over roller skating, and erecting large buildings for that purpose, Buchanan keeps right on adding to her manufacturing facilities. A new water wheel was placed in the creek, Friday, to run the Novelty Works machinery, and soon a large two-story addition will be made to Spencer & Barnes' factory, to be used in the manufacture of the Buchanan Reeling Chair and Swing Company's new chair. This is a new article that has never been placed on the market, but when the machinery for its manufacture is ready it will go like the historical hot cakes; for besides being a good selling article it is in the hands of a company that will make it go.

HON. A. H. MORRISON spoke before the temperance organization of St. Joseph last Friday, arguing to them that the only chance for the success of prohibition or other temperance legislation was in working with the party whose large majority was in favor of such measures.

A Card From Joel H. Gillette.

TO THE CITIZENS OF BERRIEN COUNTY.—From a published account of the proceedings of the County Convention, held by the Union party at Buchanan on the 25th of March, I learn that I was regarded by those present as a member of the organization, and such would naturally be the public inference. In consideration of these facts I deem it best to thus publicly state my position. While I neither doubt the motive nor question the sincerity of the worthy citizens connected with the movement I do doubt the wisdom of such an undertaking, and believe it not the best thing now to do. Though not so intended, I fear that instead of promoting the prime object of the endeavor it will retard its universal prevalence. I believe that the Republican party is able, and have confidence that it will adopt such measures relating to the temperance question and all others of public interest as will be highly satisfactory, and result in the greatest good to the greatest number. It has proven itself equal to all emergencies, both in times of peace and civil discord; has always been the promoter of good order and liberty; has ever been the enactor of wise and beneficial laws; has repeatedly received most emphatic approvals to its platforms and principles. Can we not still look to and trust such a party with such a record? Verily, yes.

Respectfully,
JOEL H. GILLETTE

Resolutions of the Death of George McWilliams.

WHEREAS, It has pleased the Ruler of all things to remove from our midst our esteemed and honored member and friend, George McWilliams, and

WHEREAS, His friends having responded cheerfully and abundantly to our call for help, in giving him a Christian burial, therefore be it

Resolved, That we, the members of Buchanan Cornet Band recognize in our deceased member a young man of sterling integrity, and one whose conduct would be worthy to imitate.

Resolved, That we, the members of Buchanan Cornet Band, in sympathy with his bereaved relatives, our sincere sympathy in this their hour of bereavement.

Resolved, That we extend our thanks to the friends and companions of the deceased for their liberality in assisting us to give him a Christian burial, and for joining with us in the burial ceremony.

Resolved, That a copy of these resolutions be handed to the relatives of the deceased, and that they be inserted in each of the papers of this place.

By order of the Band,
WARREN McDANIEL, Com.

THE following adventure by Clarence McCoy, an old Buchanan boy, we find in the Antioch, Cal., Ledger:

"On Thursday afternoon a terrible accident occurred at the Central coal mine, Stewartville, resulting in the almost instant death of Tom Davis, a well-known and old resident of the mines. He was employed as fireman in the engine room in the mine, at the head of one of the slopes, Mr. Clarence McCoy being the engineer. In the engine room, which was enclosed so as to keep all heat out of the mine, are two boilers, connected by an inch and a half pipe, with an elbow where it enters the boiler. In the same room is the steam pipe, which runs to the boiler out of the mine. At the moment of the accident Davis was at the pump, which was "backing" (a few feet distant from the boiler, in a direct line), attempting to regulate the water in the boiler nearest him burst, throwing a stream of steam, under a pressure of eighty pounds to the inch, direct upon him and old resident of the mines. At the moment of the explosion, Mr. McCoy, who had been sitting at the head of the slope, just outside the door of the engine room, where it is cool, had got up to look at the pump. Throwing open the door, Mr. McCoy at once realized what had taken place, and made every effort to reduce the force of the steam, that search might be made for Davis. In a few moments the head of the slope was filled with miners, who had become informed of the accident, and a long plank was laid from the door of the room to the pump (the floor being covered with boiling water from the burst pipe). By this time the force of the steam was somewhat lower and that in the room was falling wet through the skylight, made for Davis.
