THIS vicinity received a good wetting down Friday and Saturday that will be welcome to those who had empty wells and cisterns, and a good thing for the growing wheat.

DRESSED hogs bring \$4.50 to \$5 per cwt. in the market now, but smoked hams still retail at 14 cents per pound by the whole ham. Hogs' hams are too high in proportion to the rest of their body.

THE papers in this county who are advertising the Magnet Appliance Company without cash in advance, are donating their space to a firm of dead beats who do not pay for what they contract for.

A NILES man spent the summer buying and packing eggs, and is now shipping them to New York in 10,000 dozen lots. If he succeeds in keeping them good natured it will be a source of enormous profit to him.

List of letters remaining uncalled for in the postoffice at Buchanan, Mich., for the week ending Dec. 11: E. H. Luce, Wm. Neltz, Kickey Rhoads (dead letter), Mr. A. Richard, James B. Smith, W. S. Weaver, P. C. Williams. Postal card: Mrs. James Kinney. L. P. ALEXANDER, P. M.

DAVID BROWN who has been putting up a custom grist mill in Niles starts his machinery this week. For several years Niles has been without a custom mill, all of the mills in that city being consolidated as the Niles Milling Company, for a merchant milling business exclusively.

For youngsters who are just beginning to take an interest in books. You may look a number of times and not find a magazine that will be better suited to their wants than "Our Little Ones." Published by the Russell Publishing Company, Boston. Subscriptions taken at this office.

THE Vandalia railroad company have their line in working operation to South Bend, and it is natural to expect that they will want to reach Lake Michigan at an early date. Buchanan being not far out of the line between the two points it stands those of our citizens who are interested in railroad matters well in hand to keep posted on the movements and intentions of that company.

THERE should be some signs put up on Front street, "Cross-walk Here." It would puzzle a philosopher to tell by the surface indications the exact location of some of those cobble stone crossings.

LATER.—The Marshal has been there with a shovel and temporarily unearthed a few of them.

THE report of the Auditor General just out contains a great amount of information that is of interest to the taxpayers of the state. Among other things, it shows the indebtedness of Berrien county for township and school district expenses to be \$165,102.50, of which \$110,557.44 is for railroad aid bonds, and \$54,545.06 school debt. The report is for the year 1881. The reason for the report not coming to a later date is that the delinquent tax lands for that year were the last ones sold and the account settled.

THE Republican papers in the central part of the State are bringing forward George M. Dewey for the position of Sergeant-at-Arms in the State Senate. Mr. Dewey always fills every place he attempts, besides he used to be a Buchanan man, and for these reasons we should be pleased to see Geo. M. Dewey get the appointment, if he wants it.

MR. ISAAC HATHAWAY will sell a lot of personal property, mostly live stock, among which is 300 good stock sheep, at public auction, at his residence, in Lake township, two miles northeast of Bridgman, next Saturday, Dec. 13. Charles Evans, auctioneer. This sale was advertised for last Saturday, but owing to the heavy rain it was adjourned to the above date.

Notice to Tax-Payers of Bertrand Township.

I will be at my residence every Friday in December; at the First National Bank in Niles on Wednesday, the 10th, and every Wednesday thereafter; at the bank in Buchanan on Saturday, the 18th, and every Saturday thereafter, and in the village of Dayton on Tuesday, the 23rd and 30th, for the purpose of receiving taxes.

PETER WOMER, Township Treas.

We have a faint idea that the Board of Supervisors will not make so many donations of the county money for the benefit of private corporations that should be either self-supporting or not exist, as they have heretofore. At the last meeting of the Board there was considerable of a laugh on a member who first tried to dodge a vote on the question of giving \$800 to agricultural societies then pronounced it a swindle, but on being crowded, voted for the measure.

RUNAWAY.—C. O. Hamilton's team had a rather peculiar circus yesterday. They started from their barn, down Front street and Portage street, up Second and West streets to Front, and back to the barn. As they swung out to Front street from West, Mr. Bert Aldrich, who was holding to the lines, was thrown out and struck on his head and shoulder on the stone gutter at the front of the Devin place, cutting an ugly gash over his eye and bruising him somewhat, although it is thought no serious injury. In the circuit they had two or three runaways and as many stops.

Grant Pruyn, of this township, has at last won his level. In the circuit court last week he pleaded guilty to the charge of forgery and was sentenced to eighteen months in the State prison at Ionia. For some time he was wanted here for obtaining goods from Todd Bros. on false pretenses. He left the State, however, and managed to evade arrest. About a year ago he returned and secured employment in the vicinity of Buchanan. Being short run for goods, he secured a suit of clothes in Buchanan on an order bearing the name of his employer, but later investigation revealed the fact that the order was forged. Warrant was issued for the arrest of the forger, and he was found working for a farmer near Eau Claire. On examination he was sent to Berrien to await trial in the circuit court, where he pleaded guilty to the charge upon being arraigned, and was sentenced as above.—Benton Harbor Express.

PRUYN is the fellow who tried to get a suit of clothes of Weaver & Co. on an order with W. I. Cauffman's name attached.

MORE SLEEKERS.—A short time since a sleek looking specimen of humanity called upon farmer Hendricks, of Lake township, with a new fangled patent washing machine, that he was very anxious to have shown about the neighborhood, and urged Mr. Hendricks to take one, and call the neighbors in. Having settled that matter the agent asked Mr. Hendricks to please write his name in a little book, "simply for reference, you know," so that he might not forget him. It was not long before Mr. Hendricks was confronted with a note for nearly \$200, with his name at the bottom, and he was requested to pay up shortly. So far as heard from he has not received the four dozen machines the notes specified, nor has he paid the little note. One of Hendricks' neighbors had the same kind of a game played on him on the same day, with a pot of paint in place of the patent washing machine. The denizens of Lake township are arming themselves with bull dogs and shot guns, and are on picket duty for washing machine and paint peddlers, with blood in their eye.

WATERWORKS.—Mr. Morgan, of Chicago, who was here last week to talk about waterworks to our citizens, has submitted a map and proposition. His map shows a large well with boiler and pump, on the grounds just south of the High School building. A line of mains from that point north to Front street to Black & Willard's, south on Oak street, Portage street and Day's avenue to the M. E. church. A line connecting the three ends at Smith street, north on Main street to Third, west on Third to West street, south on West street to old school house grounds, where a stand pipe, seventy five feet high with a capacity of 30,000 gallons, is shown. The mains to be of Wyckoff's patent wooden mains, which are manufactured in Bay City; the stand pipe of iron and brick, and the pumping machinery first class. Hydrants to be placed at convenient points not over 1,000 feet apart, each with two hose connections. The map shows two of these at the front of the school building, one at the corner of Detroit and Front streets, and at the front of Capt. Richards' residence, and at equal intervals about the entire line. The map also shows the scope of country that may be covered from these hydrants with 1,000 feet of hose, calculating that the hose may always be laid in a straight line from the hydrant to the fire, which includes W. O. Hamilton's property on the west, the Michigan Central property on the south, J. M. Bliss on the north, and J. E. Barnes on the east. For all of this he wants \$16,636, which he considers rock bottom hard times price, with glory for profit, and proposes to hold the offer open for thirty days for acceptance. In case it is decided to accept Mr. Morgan's proposition our indebtedness will be \$16,600 at perhaps five per cent, \$12,900 school debt at ten per cent, and about \$3,500 village debt now on hands, besides incurring the additional expense of operating the machinery, which will be partly or wholly balanced by the private water rent. The purchase of a steam engine for fire protection, with the cisterns necessary to make it of any benefit, will cost \$5,000, or \$6,000, or about one-third the cost of the waterworks, with no chance of any water rent to balance the expense, and with no value whatever attached to it aside from its fire fighting capacity.

WILLIAM LOUGHEE, who keeps apples for sale in Strayer's cellar, on north Michigan street, was trying to roll a barrel of apples up the steps this forenoon, and when near the top, for the third time, on which he was standing, broke down, letting him fall to the floor with the barrel on top of him. Mrs. Lough heard his cries for help and ran down cellar, where she found him lying with the barrel on his breast. She raised the barrel off his body as quickly as she could and sent for some one to help get the injured man up stairs. Doctors Partridge & Myers were quickly summoned, who found, on examination, that no bones were broken, but the body badly bruised. The injuries are of such a character that the physicians cannot predict the result as yet, but they have hopes of his recovery.—South Bend Tribune, Saturday.

[Niles Mirror.] Several years ago a well was sunk here 500 feet, and all know they passed through salt water and one quart made a pint of oil. It was full of salt. THE Hot Water Cure. Hot water as a curative agent seems to be having a "boom" now. Hot water internally, externally and eternally is the cry not alone from the Anat Belsies but from the regular, gilt-edged, full-fledged profession. Dr. G. R. Shepherd says he has used it for six years in cases of inflammation of the throat and tonsils—as a gargle—and he recommends it for inflammation generally, and of mucous membranes in particular. We once heard Dr. Parker remark that there is much truth in the old Thompsonian aphorism that "heat is life and cold is death," and we are glad to know that the common sense views of the founder of the botanical school are being received far and wide.—Dr. Foot's Health Monthly.
