SUPERVISOR ALEXANDER reports 40 births having occurred in this township, of whom 27 were females and 13 males. He says this is a sure indication of war. There were 15 deaths, 4 of females and 11 of males.

We learn that we were misinformed regarding the poker playing in the Council room, but that the room is headquarters of the Fire Department, and that no gaming is done there excepting by the members, and that without stakes of any character.

THE complaint of last season against West Michigan railroad for excessive freight charges on fruit packages has been renewed, and berries will be drawn by teams from the towns north of Benton Harbor, to be shipped by the boats from that place to Chicago. Apples were drawn from Hartford and Watervliet last year.

THE Evening News Monday published a portrait of Fred N. Bonine and a record of his exploits on field day at the University, which was Saturday. Bonine ran 110 yards in 11 seconds, 80 yards in 8 seconds, 50 yards in 5 seconds, 220 yards in 24 1/2 seconds, beating the world's record in the first three by one half second in each case. He will go to New York and take part in the inter collegiate contests there.

THE civilization in the city of Niles must be in a high state of perfection, judging from the accounts of the way the Salvation army is treated. Every device, such as false fire alarms, and other means resorted to create a panic, stones thrown through the windows, rotten eggs broken on the floor, etc. The heathen of Hades would have better manners.

THERE was a light rain in this place Saturday night, but Buchanan was well to the north of the storm, which was quite heavy at the south side of the prairie, and on the west side of Terre Coupee prairie there was a heavy fall of hail that badly damaged the growing wheat in some places. We learn that some of Mr. James Reynolds' crop, and a part of that on the Runstead farm were badly destroyed.

A DOWAGIAC correspondent, in the Detroit Evening Journal, has been drawing heavily on his imagination regarding the "Congressional derby" for this district. While it is true the district is full of supposed candidates, when such writers count Hon. J. J. Van Riper as one of them, they miss the mark, widely, for he has no such aspiration, whatever, but is engaged in the practice of his profession.

SOME of the boys made a raid upon Dr. Harvey's "medicine case" the other day and took an invoice of its contents. They found a couple of dirt-covered pairs of cuffs and an empty bottle.—St. Jo. Republican.

This is the Dr. who strays up this way occasionally. He always wants some circulars printed, but as he never has the proper collateral he is not sufficiently advertised to do a very heavy business.

THERE are a number of cess pools in this place, notable in some of the north alleys, where sunshine never comes, that need abating as public nuisances. When it becomes a question whether people shall wear spunges over the nose or dry up these places, there should be but little time spent in deciding. Should a strong germ of Asiatic cholera chance to float over the remotest corner of the country it would surely light in these places. Clean up.

THE Chicago Tribune recently gave an interesting description of a steamboat explosion, by which Mr. Barker, who built the narrow gauge railroad from Berrien Springs to St. Joseph, not long since, was blown over two or three counties, and picked up in a sadly demoralized condition. This doubtless accounts for the crookedness of his leg, but it does not tell how he comes to be so crooked in his railroad work.

THE BUCHANAN RECORD says there are four newspapers printed in that town, which would make the number of publications in the county seventeen. We only know of the Record and Independent at Buchanan, as the Tallman is practically out of the count.—Palladium.

Ah, perhaps that's correct, but if you commence that way of counting, you will not number of newspapers in the county be still further decreased by a half dozen or more? There is a monthly called the Period, published here, and we understand one also at Niles and Berrien Springs, but of these the record is not plain.

FRIDAY evening Mrs. Wm. Havener and Miss Emily Croxon were driving near the depot, and in driving around the north-east corner of the passenger house, the horse turned too short and quickly, and upset the buggy, throwing the ladies against some timbers by the roadside. Mrs. Havener received a number of bruises, but none serious. Miss Croxon received injuries about the head, that at first appeared serious, but she is improving and will most likely fully recover in a short time.

TOM LOMB is putting a finishing surface on some of the unfinished tar walks in this place. Buchanan has been peculiarly unfortunate in the matter of poorly made sidewalks. These tar walks when made with as much tar as can be rolled, without sticking and the properly covered with tar and fine sand, will last for years, and be as solid as rock; but when too small an allowance of tar is used, as was done here, they will crack and crumble. The same rule follows with the Portland cement. When properly made they are all right, but when they are made in that way in Buchanan.

DECORATION.—The committee of ladies, who have charge of the arrangement of flowers, request that all who have flowers to contribute, will leave them at the Engine house, and that those that will not spoil by being kept over Sunday, be brought Sunday afternoon, and the others, Monday morning, give sufficient time for the arrangement.

ONCE more we call attention of the village authorities to the unkempt condition of the old cemetery, in the north part of town. It is a perfect swamp of underbrush and palisade, and it is to remain in its present use it would be more to the credit of the town to have the lot properly cleaned and given a decently presentable appearance. Will the matter be attended to?

MR. SMITH, breakman on the Badish local freight, had his head badly hurt while switching cars at Sodus at noon to-day. He went at once to Dr. Baster on his arrival here and had the wound, an ugly scalp cut, properly cared for.—Palladium, Tuesday.

THIS following from the Idaho Springs, Colo. News, of a recent date, will be appreciated by Miss Epiey's friends of this place:

"At a meeting of the school board the position of principal was tendered to Miss Cora Epiey for the ensuing year. Miss Epiey declined the position to accept one elsewhere. The board tendered her its unanimous thanks for the efficient manner in which she conducted the school at Idaho Springs. Schools have never had a better principal nor better conducted schools. The News wishes Miss Epiey happiness and prosperity wherever she goes."

FOLLOWING is the program arranged for the Pioneer's Picnic, June 2: 10:30 A. M.—Business meeting; report of secretary and treasurer; appointment of committees, etc.

1:30 P. M.—Prayer by S. C. Davis.

Address of welcome by J. F. Higgins, Oration, by Hon. C. G. Luce.

Reports of committees, election of officers, etc.

The whole to be interspersed with instrumental and vocal music.

THERE are many farmers in this township who, with a very little work, can prepare a fish pond on their premises that can in a few years be made to furnish all of the fish the family can use. Any of the numerous small ponds where the water stands during the entire year will answer the purpose for German carp, and with very little care be made to yield a good profit, where now they serve only as a blur to the appearance of the farm. The young fish may be procured of Mr. Carothers for \$20 per thousand, and it takes but a short time for them to grow large enough for a good breakfast. He has some five years old that weigh from twelve to sixteen pounds, and smaller ones by the millions or less.

FROM BERRIEN CENTRE.

The lecture delivered on Monday evening at Grange Hall was a rich treat. Mrs. Mayo is a gifted lady and is able to hold her hearers delighted throughout the evening. We hope she may come again.

THE I. O. G. T. here, are wide awake and at work. A full delegation of primaries and alternates were elected at the last session, to attend the Dist. Lodge at Buchanan, June 9. A full programme of literary work is also sustained at each session, together with a spicy temperance paper, the Grindstone, edited by the Society editor.

County Press.

[Berrien Springs Journal.] There were thirty births and twelve deaths in Sodus township the past year. Michael Bowman of Berrien Center, has received \$1,800 back pension.

[Niles Republican.] A speckled trout, eighteen inches in length and weighing nearly two pounds, was caught in a dip net at the dam last Saturday. Mr. Tuttle bought it and placed it in his trout pond. The seventh annual convention of the Berrien Township Sunday School Association will be held at Berrien Center Church, Saturday, June 5. The morning session will commence at 9:30.

Niles Star. Edwin Gillette, living on Broadway, is the possessor of a cat with several small kittens. In his barn, Mr. Gillette found a rat's nest with four young ones in it, and this cat caught one and placed it with her kittens, and now the rat is one of the family, and the cat watches over it just as she ought to, the rat being perfectly at home.

State Items.

Mr. Amaziah Bolles of Hillsdale has a curiosity in the shape of a walking stick. It is one of five, the only ones of the kind ever made, and is composed of 3,500 pieces of goat skin laid one on the other, about the size of gun wads, finely finished and capped with a head of rosewood. The cane was made in the Illinois state prison at Joliet.
