

JOHN C. HOLMES, Editor.

THURSDAY, SEPTEMBER 23, 1886.

REPUBLICAN STATE TICKET.

- For Governor, CYRUS G. LUICE, of Branch. For Lieutenant Governor, JAMES H. MACDONALD, of Delta. For Secretary of State, GILBERT B. OSMUN, of Wayne.

There will be one lonesome man in the Vermont Senate. He is a Democrat. The other members are all Republicans.

Wonder if the prohibitionists will object if the Republicans send a Brewster to congress from this State, as they are intending to do?

Johnnie Bull is advised to buy a boat in Yankee land and employ Yankee sailors, if he wants to do any real fast yacht sailing.

The Pittsburg gas wells are not so gassy since the earth quake and the Pittsburgers are quaking lest the supply give out entirely.

Capt. Hearn was not satisfied to return to England with only the contest races for the America cup, but had a number of private races with the Mayflower, and came out second best in all of them.

The Hon. William Windom, after a temporary seclusion, has reappeared in Minneapolis as a leading anti-salooner, with this platform:

"My platform is moral suasion, high license, local option, and the right of the people to amend their Constitutions."

After October 1, all postoffices will be brought under the provision of the special delivery law, by which any letters or packages must be delivered immediately upon receipt, if the person addressed resides within one mile, when the letter bears the special ten cent stamp.

President Cleveland has given a postoffice appointment to the daughter of the man who killed Col. Elsworth for pulling down the rebel flag from the hotel top in Alexandria, Virginia.

Different state papers are quoting Geo. Yaple as making his remark to the farmers that "By the eternal, I never would vote for the tariff on wool," as being made in his speech in Sturgis. He made the same remark wherever he spoke. He had but one speech for the entire campaign.

Allen G. Thurman has announced that he will never hold an office again. He is evidently disgusted with politics as they have been operated by the Hon. Allen G.'s party in his own state and with the administration in general.

It may be thought that there is danger of some of the money being lost or stolen as it passes from hand to hand. But this great money mill moves even in its most petty details with such clock-work system, that every piece of money, finished or otherwise, and every sheet of paper is accounted for, and the least irregularity in one printer's returns would be at once noticeable.

He Gives His Reason. J. F. Van De Venter, recently the Greenback candidate for Auditor General, says he will support the Republican ticket and gives his reasons.

It makes all the difference in the world. When Gen. Grant was president and went to Long Branch three hours ride from Washington for a vacation there was not a democratic sheet in the country that did not howl itself hoarse over the outrage, but when Cleveland goes to the Adirondack when he cannot get back in three days, and stays a whole month no peep is heard from any democrat. It's all right.

The Knights of Labor have begun the old game tried by the Grangers, of operating co-operative stores in order to get rid of the middle man. It took the Grangers a number of years to discover that the pesky middle man was worse than the Michigan itch to get rid of by the corporate-store process, and the Knights ought to be able to profit by their experience. It will be cheaper than to try it for themselves.

The Democratic party is not a Prohibitionist party. No. Nor is the Prohibitionist party a Democratic annex, so the members claim. There is in this place a copy of a paper published at Hastings, Barry County. It is an eight page paper, one half patent. On the first page appears the head line, "The Hastings Journal." The second and third are patent. The fourth opens with the fusion state and county tickets followed by red hot Democratic literature. The fifth is filled with local matter. Sixth and seventh, more patent and on the eighth is what astonishes you. The head line says "Barry County Prohibitionist."

The first column contains a statement of the murder of Rev. G. C. Haddock, of Iowa, three short items and a cough syrup "reader." The next is headed with the Prohibition state and county tickets followed by a "greeting" signed by Prohibition Committee. Then follows the state platform of the party and other short items. There is also a card by the proprietors of the plant stating that this arrangement is to continue two months, which will be during the campaign. The query occurs to us is this not a pretty thorough Democratic annex, and causes us to wonder where the funds come from.

The Inter Ocean doesn't charge anything for announcing to Democrats that St. John is out of a job and several State elections pending. Terms, \$50 per night, in advance, with 10 per cent discount when not required to advocate free trade.—Inter Ocean.

Washington Correspondence.

Sept. 14, 1886. Of all the Cabinet officers of the present Administration, Mr. Bayard appears to be the most ill-starred in his selection of men. We have long been traduced of foreign nations because of the ignorance and vulgarity of the members of our diplomatic and consular services.

Gen. Atkins, the Commissioner of Indian Affairs, has ordered the agents at various places on the Sioux reservation to issue invitations to the different bands to attend grand feasts to be held at the agencies.

It is a big step from the Sioux reservation to the Bureau of Engraving and Printing, but the subject of how to make money is always interesting, and I propose to explain it to your readers free of charge.

Capt. Hearn was not satisfied to return to England with only the contest races for the America cup, but had a number of private races with the Mayflower, and came out second best in all of them.

The Hon. William Windom, after a temporary seclusion, has reappeared in Minneapolis as a leading anti-salooner, with this platform:

"My platform is moral suasion, high license, local option, and the right of the people to amend their Constitutions."

After October 1, all postoffices will be brought under the provision of the special delivery law, by which any letters or packages must be delivered immediately upon receipt, if the person addressed resides within one mile, when the letter bears the special ten cent stamp.

President Cleveland has given a postoffice appointment to the daughter of the man who killed Col. Elsworth for pulling down the rebel flag from the hotel top in Alexandria, Virginia.

Different state papers are quoting Geo. Yaple as making his remark to the farmers that "By the eternal, I never would vote for the tariff on wool," as being made in his speech in Sturgis.

Allen G. Thurman has announced that he will never hold an office again. He is evidently disgusted with politics as they have been operated by the Hon. Allen G.'s party in his own state and with the administration in general.

It may be thought that there is danger of some of the money being lost or stolen as it passes from hand to hand. But this great money mill moves even in its most petty details with such clock-work system, that every piece of money, finished or otherwise, and every sheet of paper is accounted for, and the least irregularity in one printer's returns would be at once noticeable.

He Gives His Reason. J. F. Van De Venter, recently the Greenback candidate for Auditor General, says he will support the Republican ticket and gives his reasons.

It makes all the difference in the world. When Gen. Grant was president and went to Long Branch three hours ride from Washington for a vacation there was not a democratic sheet in the country that did not howl itself hoarse over the outrage, but when Cleveland goes to the Adirondack when he cannot get back in three days, and stays a whole month no peep is heard from any democrat. It's all right.

The Knights of Labor have begun the old game tried by the Grangers, of operating co-operative stores in order to get rid of the middle man.

The Democratic party is not a Prohibitionist party. No. Nor is the Prohibitionist party a Democratic annex, so the members claim.

The first column contains a statement of the murder of Rev. G. C. Haddock, of Iowa, three short items and a cough syrup "reader."

The next is headed with the Prohibition state and county tickets followed by a "greeting" signed by Prohibition Committee.

Then follows the state platform of the party and other short items. There is also a card by the proprietors of the plant stating that this arrangement is to continue two months, which will be during the campaign.

The query occurs to us is this not a pretty thorough Democratic annex, and causes us to wonder where the funds come from.

The Inter Ocean doesn't charge anything for announcing to Democrats that St. John is out of a job and several State elections pending.

Terms, \$50 per night, in advance, with 10 per cent discount when not required to advocate free trade.—Inter Ocean.

Just as if there could be such a thing. Why, Mr. Editor, when the Supreme court rendered a decision that the Greenback was money, the only judge who decided contrarily was a Democrat. If I remember rightly there were six Republican judges and one Democrat, and the Democrat was the only black sheep in the flock.

The Democrats are in the majority in the National House of Representatives. What good thing are they doing for the laboring man? Are they trying to lighten the farmer's load by placing a single ounce of it on the shoulders of the capitalist? They have had the opportunity for a long time, and I would feel particularly grateful to any man who proposes to vote the Democratic ticket if he would place his finger on a single white spot on the entire black record of Democracy.

Now, sir, I do not wish to be tedious, but it is because I am a believer in Greenback principle that I shall vote the Republican ticket this fall. I want to see farmers and business men, particularly producers, in office in the State of Michigan; that is a leading idea in Greenback "holier yet." I shall be but standing by my principles when I vote the Republican ticket in November, and what gives me increased satisfaction is that I shall be thus aiding the election of Mr. Luice to the Governorship of Michigan, a farmer, a citizen from the ranks of the people a producer and an honest man.

New Strike at Pouchiki! S. R. Wadcott and M. L. Ayres made a strike this week on Centre mountain that has created considerable excitement. They were prospecting over the line hills on the mountain when they found a vein of cropping, which, upon investigation, was found to carry manganese and carbonates.

A convention of farmers was recently held in Philadelphia, representing the American Agricultural and Dairy Association, at which the following resolutions were adopted:

Resolved, That we hereby call upon the congress of the United States to so revise the tariff laws of the country as to protect the agricultural interests of the country by imposing special duties for the dairy and cereal products so as to curtail, if not entirely stop, foreign competition in these productions.

The purpose of ventilating cellars is to keep them cool and dry. They are ventilated so as to be warm and damp. This is done when the air admitted to them from without is considerably warmer than the air within them.

For the year 1885 the poultry product of this country was \$3,000,000. This is an equal division each man, woman and child in the country would have paid over \$1 to the poultry farmers.

Substitute for the Wooden Pail. Various processes have been brought forward for producing a satisfactory substitute for the ordinary wooden pail, and the most successful effort in this direction appears to have been accomplished with paper pulp.—Chicago Herald.

PHACET AND PHYSIC. The greatest baloon in the world has been constructed in San Francisco. It will hold 150,000 cubic feet of gas and is to be used for the relief of the American continent from ocean to ocean.

Those who believe that nature will work off a cough or cold should understand that this is done at the expense of the constitution. Each time this weakens the system, and we all know the termination of this dangerous practice is a consumptive's grave.

Credit is due the German women and physicians for first using Red Clover blossoms as a medicine. Best results are obtained when combined with other medicinal roots and herbs.

Peoria has a ghost that throws stones from unseen places and makes a flat iron dance a can-can on the floor. Peculiar make money whiskey than any other place in the country.

When Baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became a Woman, she clung to Castoria, When she had Children, she gave them Castoria.

A Washington wheelman on Sunday rode his bicycle the whole length of the stone coping of Cabin John bridge, twelve miles from Washington. The coping is less than a foot wide, the bridge is 200 feet long, and had he slipped off in the centre of the span, he would have fallen 125 feet.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded.

A Dakota farmer, while stacking straw, placed his vest, in the pocket of which was \$75, under the edge of the stack for safekeeping. He forgot the vest, and the next morning the stack was struck by lightning and burned, and the vest and the money with it.

HALES HONEY is the best Cough Cure, 25 cts. Dr. King's REMEDY FOR WHOOPING COUGHS and BRONCHITIS, 50 cts. Dr. King's REMEDY FOR CONSUMPTION, 75 cts. Dr. King's REMEDY FOR RHEUMATIC PAINS, 50 cts.

Among the voters at the recent Alabama election was Thomas Garrett of Alabama's Freedmen, who cast his first vote for John Adams in the fall of 1790. He was then 29 years old, and on his next birthday will be 119 years old.

The best on earth, can truly be said of Dr. Griggs' Glycerine Salve, which cures cuts, and speedy cure for cuts, bruises, scalds, burns, wounds, and all other sores.

A small Boston girl, having been told that a clap of thunder she had just heard was "God speaking," is reported by the Courier to have answered: "I deem he must be mad, for he spoke me as loud as pa when he found his collar button in de biscuit yesterday!"

Don't Experiments. You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds.

Buchanan Prices Current. Corrected every Wednesday by C. B. TREAT. The highest market prices paid by dealers, unless otherwise specified.

CHANCERY NOTICE. NOTICE OF MORTGAGE. Copy of the mortgage of the Second National Bank of Chicago, in favor of the Chicago City & County Building Association, against the property of the Chicago City & County Building Association, held by the Chicago City & County Building Association, as mortgagee, against the property of the Chicago City & County Building Association, as mortgagor.

Drain Letting. NOTICE is hereby given, that I, R. M. Shaffner, Township Drain Commissioner of the township of Waukegan, Illinois, do hereby give notice, that I will let the drainage of the following sections, to-wit: Sections 20 and 21, in the Township of Waukegan, Illinois, on the afternoon of the 27th day of September, 1886, at a public sale of the drainage of the above sections, to the highest bidder, on a basis of \$1.00 per acre per year, for a term of years to be determined by the parties to the drainage contract, and the terms of payment thereon, shall be announced at the time and place of letting, and any person desiring to bid, may call on me at my office, at the time and place of letting, and may be heard in regard to the same, on or before the 21st day of September, A. D. 1886.

HAIR CURLER AND FRIZZER. The Great Hair Curler and Frizzer. This is the most perfect and perfect hair curler and frizzer ever invented. It will curl and frizz the hair in any style desired, and it will keep the hair soft and supple, and it will remove all dandruff and itching humors from the scalp. It is the only hair curler and frizzer that will not injure the hair.

tions to the prevailing commercial stagnation. There are some other exceptions, such as the sale of bread and pastry in the same shop, but they are not numerous. One of the most absurd results of a system which extends certainly necessary have been the cafes as they exist at present in France. The hotels and restaurants do not furnish coffee without an addition to the bill. You eat your coffee in a cafe, and take your coffee in another. Hence the evolution of a separate branch of business, and the employment of thousands of bunnies and garçons who would otherwise swell the pauper list.—San Francisco Chronicle.

Lately I had a talk with an author about his book, and he told me how it came about. He said he had written a short, compact, straightforward story which was what the public demanded at the present time. He had also talked with book men, he said, and they had been so impressed by the story, which could be read in three or four evenings as the most popular. People were tired, he said, of long descriptive passages, huddled in apparently for the mere purpose of lengthening out the story.

So he had determined to make his story plain, simple and short; to go right to the pith of the matter, and tell his tale straight through from beginning to end, without any of those breaks of long, tedious descriptions, which are the pet avocations of the Henry James school so much pride themselves. This fact accounted, he believed, for his being able to find a publisher for his volume without any of those long and weary negotiations which so many of our novelists of the Henry James school so much pride themselves.

The Result of Parisian Ingenuity. Rhinestones, Lake George gems and Brazilian diamonds will have to shine from a back seat now, said a leading Chicago reporter in a recent article. He has produced an imitation of the diamond which even experts find some difficulty in distinguishing from the genuine.

The Mansion House London relief committee gives the following as rates of remuneration paid to women: Shirts, 3 cents each; flannel drawers for Chelsea paupers, 3 cents each; wash tubs, 6 cents each; aprons, elaborately framed, 13 cents a dozen. Such are the blessings to a country of an overflowing population, the absence of which in France a certain class of Frenchmen are continually deploring.—New York Sun.

How Cellars Should Be Ventilated. The purpose of ventilating cellars is to keep them cool and dry. They are ventilated so as to be warm and damp. This is done when the air admitted to them from without is considerably warmer than the air within them.

For the year 1885 the poultry product of this country was \$3,000,000. This is an equal division each man, woman and child in the country would have paid over \$1 to the poultry farmers.

The best salve in the world for cuts,

A NEW ELDORADO.

THE FAMOUS GOGEBIC IRON REGION NEAR LAKE SUPERIOR.

The Most Remarkable Iron Ore Deposit in the World—Ore Shovelled from the Surface of the Ground—The Latest Dig Bonanza.

Eighteen months ago the now famous Gogebic iron mines had scarcely been heard of. In this short time it has grown to be one of the largest and richest iron regions in the world.

MAP GOGEBIC IRON RANGE. The Gogebic range is situated near Lake Superior at the point where the states of Wisconsin and Michigan join.

The leading mines are Hurley, Bessemer and Ironwood. They have sprung up in the midst of trackless forests, have all the aids of big electric lights, electric hoists, theaters, saloons, amusements, and all the other good and bad things of a miniature metropolis.

THE BANNER A YEAR AGO. The leading mines are Hurley, Bessemer and Ironwood. They have sprung up in the midst of trackless forests, have all the aids of big electric lights, electric hoists, theaters, saloons, amusements, and all the other good and bad things of a miniature metropolis.

THE SURFACE MINE. The surface mine is scraped off, cars are backed up to the pit and the ore stored in pits as it is needed for smelting.

A SURFACE MINE. Two months ago only about a dozen mines in the whole region were shipping ore; now some twenty-five or more are doing so, and the number is constantly increasing.
