BUCHANAN RECORD.

JOHN C. HOLMES, Editor.

THURSDAY, JANUARY 6, 1887.

Gold coin and bullion is taking passage from Europe to this country, to settle up trade balances.

Gov. Luce insists that his appointees to State offices must live in Lansing and attend to business.

Prospects for trade were never better for this country than they are at the opening of 1887.

The Lansing Republican suggests the election of Robert T. Lincoln to succeed Senator Logan in the U. S. Senate.

Hon. Chas. S. May, after trying every dogma in the political arena, has now cast his lot with the Prohibitionists.

About the liveliest place in Michigan at the present time is in Lansing, and will be until the Senatorial question is settled.

John Roach, the great ship-builder has a cancer in the roof of his mouth, that is not within reach of medical aid and the old man must die.

The South Bend Register has been sold to J. C. Buchanan of Dwight, Ill., and his son, and they have taken possession of the property.

Congressman Cutcheon has announced that he is not to be considered a candidate for the office of United States Senator. This takes out of the race one of the best men in it.

A \$100,000 hotel is to be built by two railroad and one lake transportation companies, on Macinac Island, to be opened to the pleasure party July 1. There is a splendid resort from hot weather and abundant attraction at that picturesque point.

The Workman, the K. of L. organ at Grand Rapids, makes a strong plea for the election to the United States Senate of Henry A. Robinson, of Detroit, or the re-election of Senator Conger, and as strong a plea against the election of Frank Stockbridge.

The Detroit Journal has gotten out the nearest carrier address that has appeared although it lacks something of being up to the standard established by the same paper last year. The merits of the paper have not taken the same course of improvement.

A writer in the Washington Morning Post suggests the propriety of electing Mrs. Logan as her husband's successor in the United States Senate. There is no question of her ability to fill the position, either mentally or legally. If not, why not? This is the opportunity for the woman's rights advocates.

Twenty-two persons were killed in a railroad collision near Tiffin, Ohio, on the B. & O. road, Monday, in which a west-bound express, running sixty miles an hour, collided with an east-bound freight that had stalled on a grade and in a curve. The horrible disaster is a strong reminder of the famous Ashtabula disaster of 1877.

Grand Master Workman Powderly says that nine-tenths of the troubles of workmen came from intoxicating drinks. If he will be the means of educating his order so that they will abandon this evil he will be a benefactor to his race, and no man holds a better position for good in this direction than has Mr. Powderly.

The Grand Rapids Redmond Opera house lottery resulted in Mr. Redmond drawing the prize, and those who have been foolish enough to invest in tickets have paid Redmond's debts and made him in good circumstances. It should now be in order for the authorities at Grand Rapids to prosecute every man who has had anything to do with the game, for operating a lottery in Michigan.

Yesterday was the day for the convening of the State Legislature, and for the next few days there will be some talk flaring done on the Senatorial question. There are candidates who are well fitted for the place, by legislative experience, and are not of the millionaire class, and there are still others who are no more fit for the place than the man in the moon, having no better recommendation than a bad of money. The Republican members of the legislature ought to have sense enough to make the discrimination that is demanded by the people.

This is from Washington, now in the hands of the confederates, and quite plainly tells its own story: "There is going to be another scandal at the government department of the Dr. Dabney order. It is stated by Grand Army men that on the day before the Logan obsequies an employee of the sixth auditor's office went to the deputy auditor and inquired about leaves of absence for those who wished to participate in the exercises and the procession. It is stated that the reply is something like this: 'There is no excuse for Grand Army men going out to this thing. Confederates have not been invited and I can't see why there should be any discrimination when all are equal now.' Later tickets of admission to the capital were sent to the sixth auditor's office for employees who are members of the G. A. R., and it is charged that they were not distributed to those whom they were intended for. Blame attaches to the deputy auditor, who was charged some time ago with having discouraged attendance upon decoration exercises, claiming that there should be no discrimination between the two armies. The deputy auditor is a Georgian, Hugh A. Harrison by name."

Senator Palmer has been notified by the commissioner of agriculture that 500 papers of vegetable seed, 500 of flower seed, 200 of tobacco seed, 25 quarts of grass seed and 25 quarts of sugar beets are held subject to his order. Persons desiring supplies will address Senator T. W. Palmer, of Detroit, and the seeds will be forwarded at once.

A Prohibition Amendment.

Our esteemed contemporary, the Detroit Tribune, urges the Michigan legislature immediately after its organization to pass a resolution for submitting a constitutional amendment prohibiting the manufacture and sale of liquor in this state; at least that is what is now understood by "a prohibition amendment." But every member of the legislature who votes for it, should also understand that if such an amendment is approved by a popular vote, he is and will be held responsible for his share in making it a law of the land. He can no more shrink this responsibility than he can the responsibility of giving the people a chance to pass upon it, than a senator can vote for a measure he does not approve on the plea that the House of Representatives wanted to vote on it.—Detroit Journal.

Well, the Legislature who cannot withstand that stigma, no business appearing in this state bearing the label, "a man."

The Dow law of Ohio seems to be getting in its perfect work. The liquor dealers are marching up to the captain's office with marked agility. But they kick just as hard as ever against the Dow law and so do the prohibitionists. Saloonists and prohibitionists are two hearts that beat as one on this point. The saloonists want free whiskey and so do the prohibitionists. Both are opposed to taxing the traffic. The saloonists are paying the tax under protest and the prohibitionists are protesting against a law that compels them to pay the tax. "You pay your money and you take your choice."—Detroit Tribune.

Congressman Burrows of the Fourth district is said to be the most expert Congressman from this State in catching the speaker's eye, but that isn't any sign that another man from the same district would be expert in catching the Vice-President's eye. Great catches are not usually put up in pairs.—Lansing Republican.

A YOUNG woman came to this city about a month ago from Niles, where she had recently arrived and secured services at one of the hotels. In a short time it was noticed that the girl was about to become a mother. When taxed with the charge, she confessed and told her story, for inhuman cruelty eclipses any other. She had heard the girl, whose name no one seems to know, lived all her life in the province of Saxony, Germany, until about two months ago. She had a lover, and it was soon the old story of "not wisely, but too well." Instead of providing for the woman, the brute gave her \$25 and started her for the country, where she had no friends. The unfortunate being found her way as far west as Niles, where she procured work for a short time, subsequently going to Buchanan, New Buffalo, and finally drifting here. Her pitiable condition excited the sympathy of several kind-hearted people, and the girl was taken care of as long as possible, when she was sent to Chicago to receive proper treatment. This occurred on Tuesday and she was assigned to the Cook county hospital, where she now is. The wretch who sent her abroad to suffer alone in a strange country deserves the severest punishment imaginable for his baseness.—Michigan City Dispatch.

FROM BERRIEN CENTRE. Jan. 4, '87. Mrs. Lydia McCollough returned from her Ohio visit on Saturday night; Mrs. J. H. Bowers of Summerville, Mich., also returned with her. Geo. G. Meade Post had their installation exercises on Saturday evening last, closing with a very pleasant supper prepared by the ladies of the W. R. C.

Mrs. D. H. Webster was taken suddenly very ill while visiting at the home of her brother, A. H. Mars, in the Springs on New Year's day.

Mr. Thos. Mars is in Lansing this week.

Florence Crall returned to her studies at Wheaton on Monday.

Mrs. Levi Roden is visiting at Harbor, N. Y.

Wm. P. Dean is visiting at Los Angeles, Cal.

Henry Hess and son arrived to-day. James Dean celebrated his 78th birthday Sunday, Jan. 2. Many of his children and grand-children were with them.

Forty persons were present at the family reunion at Uncle Isaac Murphy's pleasant home on New Year's.

U. B. Quarterly meeting to be held at Maple Grove, Jan. 15 and 16.

S. H. Brenner and family, J. P. Peck and family and others attended the surprise birthday, given Albert Smith on Sunday last.

The shadow social at Fairland, New Year's, was a success.

Our expressman, W. H. Becker, lost a valuable horse on Monday, 3d inst.

Edgar Nickodemus of Van Wert, Ohio, is visiting at Henry Hess' pleasant home.

GALLEN ITEMS. Jan. 3, 1887.

The people of the Iycoean have purchased a little instrument, (they call an organ), for their amusement. We should judge that the committee that made the purchase are in the habit of buying toys for children instead of purchasing supplies for Iycoean.

Miss Lou Scott of Southern Indiana, and Dr. Mead of Diamondale, Mich., were married by Rev. Columbus Scott, Saturday evening, Dec. 25. The Dr. and wife will make Diamondale their future home.

Several watch meetings in different parts of the village Friday evening.

Mrs. Alex. Emery and daughter of Buchanan spent last week in Gallien, visiting friends.

Miss Allie Hicks, adopted daughter of Rev. W. C. Hicks, was married during the holidays to a young man from Chicago. The couple will make their future home at Chicago.

Mr. and Mrs. J. W. Wright of Battle Creek, spent holiday week at G. A. Blakelee's residence.

The Iycoean is proving to be one of the most beneficial places of amusement we have in the village. It is regretted that so many of the young people refuse to participate in the debates.

Monday morning the thermometer registered 18° below zero, the coldest this year.

Mrs. Mary Gifford, daughter of Mrs. Lou Roberts, was brought here a corpse yesterday, from Illinois.

Two steers with but a single thought. At Champion last week John Hildebrandt, a butcher, took two steers to his slaughter house to kill. He knocked one down, when the other fell dead, as though struck by lightning.—Detroit Journal.

State Items.

Michigan has a toboggan slide in active service.

Good four-foot hickory wood is selling at Jackson for \$4.50 a cord.

A \$6,000 diocesan church will be erected at Dowagiac.

Michigan is credited with 551 inhabitants by the census of 1880.

John S. Newbury, of Detroit, died Sunday afternoon, aged 61 years. His estate is estimated worth \$3,000,000.

Marine City manufactured over 100 tons of "genuine, imported Limburger" cheese last year.

Fanny Leland, of Mendon, has climbed the golden stair by the aid of a dose of Paris green.

A full-grown black wolf was caught in a trap at Inland, Benzie county, recently.

The State fish hatchery at Petoskey has 22,000 young whitefish waiting anxiously to be "planted." The output of fry in the spring will be larger than ever before.

A farmer in Tittabawassee township, Saginaw county, has a flowing well which spouts not coal. It is but 17 feet deep and a drill will be put to work to ascertain the thickness of the vein.

J. E. Kimble, of Kalamazoo, has invented a steam engine that if successful as it appears will result in a great revolution in steam working machinery. A factory is being built for the manufacture of the engines in that city.

George Messenger, aged 68, a farmer living near Grand Blanc, accidentally pulled a stack of hay upon himself last week and was suffocated. Mr. Messenger's son was the first to notice his father's absence, and after a long search found the body.

Who can beat it? C. L. Toussay of Martin, Allegan county, harvested from 15 acres, 1,775 bushels of early Ohio golden dent corn. Some of the ears aggregated over 1,300 kernels, having 24 rows of kernels on an ear.

This is the kind of excuses they have in Ohio: "Mrs. _____, please excuse the boys for being tardy; I think you are a liar for the boys ain't been tardy."

Mrs. H. M. Bennett, of Mt. Pleasant, was stricken with diphtheria two weeks ago, and though supposed to be convalescing, she herself felt that she was doomed, and calling her husband and friends to her side she bade them an affectionate farewell, then sang in a clear, strong voice a favorite hymn, selected a text from which her funeral sermon should be preached, signed heavily once or twice and died.—Detroit Journal.

Six years ago George Merkel was thrown from a wagon on a defective bridge in Bennington, Shiawassee county. His heirs brought a suit to recover damages. The third trial of the case has just closed. The jury brought in a verdict for the plaintiff of \$3,500. The case will be appealed. The suits have cost the township \$6,000.

The defense of Dr. Palmer of state prison fame argues that it is no crime if he did receive from Mrs. Lowry \$500, to recommend her husband's release from prison on the ground of being hopelessly sick. Perhaps not, but on the same ground it would be no crime for a member of the legislature or of congress to receive \$500 for voting for a certain measure. The cases would be alike. It is simply bribery that's all.

The poultry business of Michigan is getting enormous. One dealer of Flint shipped five tons east. An Ypsilanti dealer has shipped over 45 tons this fall thus far. The amount paid for holiday poultry in Pontiac was \$30,000. Two firms paid out half this sum, one taking in one day 27½ tons and the other 27, and the two shipping off in one day to Boston six car loads of turkeys, chickens, ducks and geese.

David Reese, a Denton barber, had a wife at Benton Harbor, but he kept that fact quiet, and in July married Olive Huff, of Denton, informing her after the ceremony that he was already possessed of one wife, but declaring his intention to secure a divorce, and urging her to keep the matter quiet. Olive was faithful to Reese, but he soon tired of her, and began to pay attentions to other young ladies, who excited the girl's ire, and she threatened to expose him. Then Reese packed his kit and departed, and it is suspected that his marriage with the Huff girl was not performed by an authorized person.—Detroit Journal.

Fuller particulars of the Nashville strange dove story, in connection with the funeral of a clergyman, are as follows: One of the Jackson pastors conducted the services, and just as he arose to preach the sermon, a dove flew into the church through an open window and perched on the altar at the preacher's feet, looking up into his face while he spoke. At the conclusion of the sermon, the clergyman pronounced the benediction, the dove alighted on his shoulder. When he took his seat the dove flew to the desk, alighting upon the open Bible, where it stood gazing at the people as in solemn procession they viewed the remains. This incident made a marked impression on the congregation present, who watched the bird in superstitious awe, and have talked of little else since.—Kalamazoo Telegraph.

SILK CULTURE IN JAPAN. An Important Industry—Evolution of the Silk Worm Egg.

The silk industry is the most important of all industries in Japan. The raw silk imported into the United States and Europe alone yearly amounts to 8,500,000 or 9,000,000 pounds, or at an average value of \$5 per pound to \$7,500,000 or \$8,000,000. The waste silk which principally finds its way to the European markets, also amounts to nearly 8,000,000 pounds; the price of all grades of this class of silk could be fairly averaged at 75 cents per pound. The exact amount of home consumption has never been ascertained, as some people raise it for their own use. But that the quantity must be something enormous can be easily seen by the silk that is worn by a large majority of people on such occasions as New Year's day, wedding evenings, festival of temples, and the like. The well-to-do classes use silks for their house-dresses. In this country ladies like to wear silks for silk clothing, and they use it not only for outside garments but for underwear as well. Besides, silk clothing is here usually lined with the same material, unlike the practice in the United States and Europe, where silk dresses are lined

with cotton goods. I am inclined to think that there is not a single family in Japan into whose household no silk enters. Even the country peasant, who is supposed to be the plainest of all, is not without a small piece of silk dress on the day of a ceremonial occasion.

It may be interesting to readers to watch the development of the silk-worm's egg into the fine material known as raw silk, in which condition it is sold to the manufacturer of the United States. The eggs are laid on a sheet of paper. Early in the month of May they begin to hatch, and as soon as they do so they are swept on a tray, or paper, and placed in a basket or box, where they are replaced every morning with new ones. In the course of seven days they grow quite rapidly, and at the end of that period pass for twenty-four hours. This is called the first stage. Exactly after twenty-four hours of rest the worms begin to feed again on the mulberry leaves cut up into pieces some-what larger than before. At the end of a week they are again swept out of their boxes. When they pass their second age they are given their leaves without cutting.

They continue feeding for a week and sleeping for twenty-four hours till the end of the first week, when they begin to climb up the dried straw, cotton plants, or bamboo pieces provided for them, and there they build their little nests called cocoons. They commence their cocoons on the outside, and finish them on the inside of the straw, cotton, or bamboo. The cocoons are placed in a space enough for themselves within. The worms stay inside of the cocoons for two weeks from the first commencement of building them. At the expiration of that time the worms pierce the cocoons for the purpose of laying new eggs. During these fourteen days, therefore, the cocoons must be steamed, boiled, or exposed to the heat of the sun in order to kill the worm inside; otherwise the cocoons will be ruined by breaking out through them.

The cocoons are placed in boiling water and the threads are reeled into spindles; they are again re-reeled into other spindles so as to dry the threads. One thread is found in raw silk. It is made up of three, four, five or more of cocoon fibers, according to the skill of the reeler. The threads, when they weigh about three ounces, are made up into a skein; twenty-five or thirty skeins make up a hank. The skeins are then packed in a box, and the labels of various kinds are attached to it, and then it is wrapped up in a sheet of paper. One bale of raw silk, when deposited in New York, contains four or five hundred skeins of such cocoons. The books are first put in a muslin bag and then packed up in a thick paper and a waterproof paper goes over it. The outer covering is of two matings.

BUCHANAN RECORD.

THURSDAY, JANUARY 6, 1887.

Entered at the Post-Office, at Buchanan, Mich., as Second-Class Matter.

W. TRENBETH,

THE TAILOR.

HAS A FINE STOCK OF

Foreign and Domestic

Cloths and Suitings.

And will make them up in the latest styles at very low prices.

Come and Examine.

A lottery is now on tap in Niles.

It is not considered a bad sign to carry a red nose this weather.

MR. AND MRS. CHARLES HOWARD are here for a week with relatives.

SARAH HOYT, of Eau Claire, was granted a mother's pension, Tuesday.

COL. COPELAND'S lecture Saturday evening. "What's to Hinder?"

The new Commissioner of the State Land office was in town Tuesday.

SOME weight of snow on the large flat roofs just now. A shovel is a good remedy.

Two St. Josephites went to Arkansas hunting, and captured five deer and a catamount.

MRS. C. L. BARRON, of Niles, died December 31, of congestion of the lungs, aged 69 years.

The new Sheriff takes possession of the county bastille with seventeen boarders.

The Benton Harbor Palladium and the South Bend Tribune commence the new year with a new dress each.

Ezekiel F. Reynolds, of St. Joseph, was among those to draw a prize at the Pension department, Monday.

MRS. A. B. SABIN, of Kewanee, Ind., is here for a visit with her sister, Mrs. S. P. High, and numerous friends.

C. S. BRAYTON, of Hill's Corners, is going to close out his stock of general merchandise and go out of business.

VICK'S FLORAL GUIDE, which is always the finest of its class, comes to hand this year, the finest we have seen.

The board of Supervisors is wrestling with matters pertaining to county affairs at Berrien Springs, this week.

A LETTER from Minneapolis, Kansas, announces that Mrs. Alvord, formerly of this place, was buried there Dec. 31.

MRS. ABIELE HATHAWAY was quite badly cut about the hands by glass of the lamp that caused the fire of Saturday night.

MR. AND MRS. A. GREEN, of Lake City, Iowa, are in this place, called by the death of Mrs. Green's mother, Mrs. Elizabeth Helmick.

JACK MATHEWS' saw mill, near the narrow gauge railroad grounds in Berrien Springs, was burned Tuesday night.

MR. T. C. ELSON AND FAMILY were the recipients of a sleigh-load of company from Berrien Springs New Year's day.

MR. AND MRS. J. B. RYNEARSON and little son Claude, of Mattawan, Mich., spent New Year's with friends and relatives of this place.

JAMES HANLEY died at the home of his brother, George Hanley, in Niles township, Tuesday, of consumption. The funeral was held to-day.

THERE was a smashup near New Buffalo Saturday that costs the Michigan Central Company two engines and a sleeping car. No one hurt.

THE time is short before tobogganing will be as popular as the roller skate two years ago. Buchanan was the last to take to the skate.

THE Alden canning company have decided not to rebuild their works at Benton Harbor unless the people there give them a bonus of \$4,000.

MR. AND MRS. A. HATHAWAY wish to return their sincere thanks to the fire department and other friends for assistance rendered them Jan. 1, 1887.

BENTON HARBORITES propose to have a skating rink by flooding the canal. The fire department is to do the pumping for a share in the profits.

THERE is a marked increase in the price of all kinds of produce within the past few days, and farmers are correspondingly happy, that is, all who have not sold their supply at the low prices.

THE snow storm at Michigan City and New Buffalo, Saturday, was a terrific one. During the storm persons could not see two feet ahead. Snow fell to the depth of three feet on the level, and in some of the railroad cuts it was twelve feet deep.

DR. HORN, of Niles, each year keeps a record of deaths that occur in that city and the immediate vicinity. For 1886 he reports sixty-nine as having occurred in Niles city.

THANKS.—I wish to return thanks to my pupils of Bakersville school for the beautiful plush album they presented to me for a New Year's gift. LYDIA ROLLINGS, Teacher.

Of course people can buy everything cheaper in Niles than they can in Buchanan. Why not?—Niles Star. Simply because the Niles dealers charge higher prices.

If there be one thing upon which Trenbeth, the tailor, takes special pride, it is the dispatch with which he can move on short notice and in cases of necessity.

A subscription was passed about town Monday, in the interest of H. A. Hathaway, and enough raised to nearly cover his loss in the fire of Saturday evening.

THE entertainment advertised by the Buchanan Dramatic Company for to-night has been postponed without date, owing to the sickness of one of the "stars".

THE holidays made a good market for poultry this year. Somewhat better than usual in this place. Another indication that the backbone of hard-times is beginning to bend, if not break.

THE G. A. R. Post had an installation of officers last night, when the wives of the members thought it would be a good time to get up a little party for them, and acted on the thought. The "boys" report a grand good time.

THERE is never a good thing without some reverse. St. Joseph is put down for \$4,000 appropriation for her harbor, but is not satisfied. Michigan City is promised \$25,000. Hence the grief.

MR. AND MRS. CHAS. C. SIMONDS wish to return their sincere thanks to the friends who kindly assisted them through the sickness and death of their dearly loved infant son. Also for the floral offering.

MRS. ANNA L. KNIGHT, mother of Wm. Hurlbut of this place, died here Tuesday, Jan. 4, aged 75 years. The funeral was held this forenoon. Mrs. Knight was a member of the M. E. church over fifty years.

THE programs of the Berrien Springs Chautauque circle, published by the Journal each week, are interesting, and indicate a weekly work by the members that cannot fail to be of great value to the members. It is an excellent organization.

FOR some reason we do not hear so much complaint because the village purchased the Silsby engine as at first. It has never failed to respond when called upon, and do its work nicely. The principal trouble has been to find hose that will stand the pressure.

J. F. HAHN received a New Year's present that to any one else would be suggestion of a visit by the vigilance committee. It was a fine casket from the Globe Casket Co., of Kalamazoo, and worth at wholesale something less than \$100.

AMONG the many presents on the Christmas tree at the Church of the Blessed Hope was a purse for Elder Benj. Finney, the pastor, containing forty dollars. The Elder was greatly surprised as well as gratified with the donation.—Santa Cruz (Cal.) Sentinel.

LIST of letters remaining uncalled for in the post-office at Buchanan, Mich., for the week ending Jan. 6: Miss Kate Foell, Mrs. S. Hart, Mr. E. Leibold, Mr. George Olinning, George B. White, Esq., J. L. RICHARDS, P. M.

THE Farmer's Mutual Insurance Company, at their last election, elected the following officers for the ensuing year: President, Wm. Burrus, Secretary, Freeman Franklin, Directors, R. L. Hogue, Almon Keigley, Nelson Parkerton, and John T. Beckwith.

THERE was less receiving of New Year's callers throughout the country than usual this year, and where the practice was continued the practice of setting out intoxicating liquors was generally omitted. Another long step toward the funeral of the rum traffic.

THERE appeared to be a decided absence of calorific Monday morning, and the usual variance in the stories told by thermometers. In the west part of town the register was twenty-two below and in the north twenty-six to twenty-eight. All agree that it was cold enough.

ONE of Coloma's lively young men, who is paying his addresses to a young lady over on the north side, stayed so late few evenings since that the family were obliged to whitewash the wall the next morning, to obliterate his shadow.—Coloma Courier.

A young man who will cast such a shadow must be awfully dirty. We propose a bee to wash him.

MR. ROBERT MEAD and his wife were both born on the first day of January, 1820, and last Saturday being the sixty-seventh birthday of each, their children and their children's children took that occasion to call upon them for a family reunion, and presented them with an elegant easy chair.

MRS. ELIZABETH HELMICK died at the residence of her daughter, Mrs. R. V. Clark, on Monday, Jan. 3d, aged 83 years, 10 mo. and 16 days. Deceased had been a resident of Berrien county, Michigan, since 1836. Five sons and two daughters survive her. Funeral will be held at Mt. Tabor Grange Hall to-day at 11 a. m.

AT the time of the fire Charley McCoy took occasion to do what he could to create a stampede of a crowd that had gathered in K. of L. hall, but fortunately there were a few cool heads in the company and a disaster was avoided. There are some people who are continually exhibiting their great value to the public, as McCoy did in this case.

KILLED.—Eugene Patches, of Berrien Springs, employed a few weeks since by Adam Barman, was killed, Monday, by a load of wood upsetting on him, about eleven miles from South Bend, on the road to Lakeville. His remains were taken to Berrien Springs for burial.

WILLIAM T. TRACY, the oldest Mason in Michigan, died at his home in Petersburg, Wednesday night, aged 83.—Kalamazoo Telegraph.

We think there is some mistake about this. Mr. C. J. Ingersoll of this place has been the oldest Mason in Michigan for some time, and is still among the living. He became a member in 1820.

A committee appointed by the Common Council to examine Roe's hall, with reference to the safety of the room in the use of the Salvation army, decided it unsafe, owing to the arrangement of the doors, as they open into the room instead of out, as is required by law for auditoriums, consequently Salvation meetings are held in K. of L. hall. There is a good attendance.

TO THE COMMON COUNCIL OF THE VILLAGE OF BUCHANAN: Your attention is called to the practice of the Michigan Central Railroad Company of blocking the crossing at the head of Portage street, with their freight trains. Yesterday morning Dr. Mrs. Anderson was kept waiting in the cold three-quarters of an hour before she could come into town. Of course the practice will be stopped if you just call the attention of the Company to it.

A LITTLE over a year ago Mrs. Jane Manley of Hartford, brought suit against B. A. Oliver of Waterville, claiming damages in the sum of \$30,000. Since that time Mr. Oliver has eluded the officers by keeping out of the county most of the time, and not till last week was an officer able to get a personal service of the summons—just a year and 24 days after suit was brought.

THE many friends of Mr. Ashbury Lindley, of Warren township, will be surprised to hear that he stole a wedding march upon them on New Year's day. He and Miss Anna McMillen, of Buchanan, were married in Chicago on that day. They intend residing at Warren Centre where Mr. Lindley is engaged in the grocery business. May happiness and success attend them.—South Bend Tribune.

Mina says that it is not true, Mr. Tribune, but she couldn't keep her face straight when she was saying so.

SATURDAY the Michigan Central trains from the west were from six to ten hours behind time, owing to a severe storm that raged at Michigan city and beyond there, that is described as being the worst known to the oldest inhabitant. A gentleman from near Hill's Corners was in town during the afternoon, and stated that while there was fair weather at that place the roaring of the storm could be plainly heard over the lake. We had none of the roar here, but the fall of snow Saturday night and Sunday was quite heavy, and almost continuous.

THE fight for the judgeship in the second judicial circuit is warm and largely divided. Among the candidates are the present incumbent, Judge Smith; J. Jacob Van Riper, of Buchanan; James A. Kellogg, of Niles; N. A. Hamilton, of St. Joseph, and C. W. Clisbee, of Cassopolis.—Detroit News.

Yes. Just warm enough that no one has heard from it but Cook of the Mirror, a Democrat, and his statements regarding Republican candidates usually bear about as near relation to the truth as Satan does to a saint.

WILLIE WOOD, son of the drayman Wood who has done service in this place the past twenty years or more, met with a serious accident Friday.

He was engaged in loading logs and he managed to allow a log to roll upon him so as to break his left leg in two places between the knee and ankle, crushing it badly. Dr. Henderson has the case in charge. The family has been in poor circumstances, and Saturday a sympathy was made for their bereavement by Myrtle Stettler, who succeeded in raising \$21.

TO the south-west of this city some tools were taken from a hollow tree where they had been placed by workmen as the evening came on. On the following day they were found missing. Not long after the owner discovered the tools in another man's wagon, and at once seized them.—Three Oaks Sun.

HE ought to have taken the owner of the team with them.

FIRE broke out in J. H. Roe's building, on Main street, Saturday evening, having started by the falling of a hanging lamp in the upper story, which was occupied by H. A. Hathaway as a residence, he having just moved in. The fire company was promptly on hand with the steamer, and although the fire had become well located in the garret, soon had it out. Mr. Hathaway's goods were badly demolished and not insured. Mr. Roe had \$300 insurance on the building in J. C. Dick's agency, and Clyde Baker's stock of furniture was covered by the Cass, Van Buren and Berrien City and Village Mutual, which settled with him Tuesday for \$115. Fortunately there was no wind, or there would have been a warm reception for the wooden row between the bank and Wagon Works.

THE WEATHER.—Following is our record of the temperature, as shown by our self-registering thermometer, for the week ending at 6:30 this morning:

Max. Min. 6:30
Friday.....20 -18
Saturday.....22 -8
Sunday.....27 -3
Monday.....16 -20
Tuesday.....15 -22
Wednesday.....23 14
Thursday.....18 13
There appears to be trouble with some in understanding the above table. The thermometer registers the highest and the lowest temperatures, and is set by means of a magnet, each morning. Max. at the head of the first column, stands for maximum, or highest; min. stands for minimum, or lowest; and the two columns show the highest and lowest temperature during the preceding twenty-four hours, and the other the temperature at the time of the observation. The sign - before the figure means less than nothing or below zero. Sabe now?

THE GRANGE.—The annual meeting of Berrien County Grange will be held at Berrien Centre, Jan. 11 and 12, 1887. The following is the program: 1. Song by Buchanan Grange Choir. 2. The Laws of Order, by John H. Ragatz. 3. Recitation, by Miss May Tichenor. 4. Recitations, by A. N. Woodruff. 5. Temperance and Temperance Legislation, by G. W. Bridgman. 6. Song (solo), by Jennie Harding. 7. Recitation, Miss Edith Fox. 8. Cultivation of Flowers, Miss Adah Murphy.

SECOND DAY.—FORENOON. 1. Education of Farmers' Sons, O. W. Spaulding. 2. Our Clover Crop. How to Use It, G. N. Parkerton. 3. A Few Thoughts on Paper, J. K. Shimer. 4. Our Country Schools, J. J. Murphy. The afternoon of Tuesday, the 11th, will be open to the public, and they are cordially invited to attend. LEVI SPARKS, Lecturer.

In this paper appears the wood ordinance adopted by the Common Council at a recent meeting. There are some things about it that appear peculiar to one not thoroughly versed in legal lore. The first is the failure to provide for taxing costs with the fine, which saddles the costs upon the village whether beaten in the suit or not. The second is that such ordinance is necessary. If a man offers to sell a load of wood, without making any statements regarding the amount it contains, we fail to see how it can be any one's business, any further than it is to prohibit stock buyers from buying a flock of sheep or drove of hogs or cattle in a lump, at a given price for the lot, and no one ever thinks of entering any protest in that case, when the buyer has the same advantage over the farmer in practice in weighing stock that the farmer has over his customer in the wood dicker, but the moment either makes an untrue statement in order to sell, or uses any deception, the State law provides for his punishment for fraud. We have an idea the ordinance will be found a failure.

THE following telegram from Grand Rapids appeared in the Detroit papers of Monday:

"It is published to-day for the first time that at a meeting of the managers of the soldiers' home, December 16, Manager Samuel Wells tendered his resignation and offered his resignation that Gen. Byron R. Pierce, of this city, be elected commandant, all to take effect April 1, and it was adopted. A resolution was also adopted that no member of the board of managers shall serve as commandant. Col. Wells, it is understood, resigns to accept a more lucrative position in private life. Gen. Pierce will resign from the board April 1, and it is thought here that Gov. Alger will be appointed to one of the vacancies that will then exist.

In the Oregonian, published at Portland, Oregon, we find the following bit of history of one of the old Buchanan boys:

Mr. H. C. Smith, the genial clerk and collector for the Oregon & California railroad, of East Portland, received a very handsome Christmas present yesterday afternoon, in the hand of Miss Nellie Slocum, formerly of Portland, and eldest sister of A. Slocum, of the Oregonian. The ceremony was performed by Rev. Edward Gittens, at the residence of the bride's parents, at Wilbur. The newly married couple took train the same evening for a short bridal tour to Ashland. They will return to-morrow afternoon and go immediately to house-keeping in their home in Holiday's addition, East Portland. Members of the family only were present.

THE editor of the Niles Star went over to Buchanan recently and he didn't like what he saw there. Crowded business streets and no room to turn around. The average Buchanan man a shiver, it so different than the burdock-lined home thoroughfare, so he advises Buchanan to buy a market. He saw on the main street 20 loads of wood, 10 loads of straw, 8 loads of hay, 6 of pork, 9 log teams, etc., and it took him five minutes to dodge the crush of vehicles.—Kalamazoo Telegraph.

A walnut log containing 1,031 feet was photographed in front of this office.... Mrs. Joshua Feather died Wednesday morning.... The engine and shaft for the passenger boat being built at Benton Harbor weigh forty-three tons and will be by far the heaviest carried by any boat of the same size on either the upper or lower lakes.

THE February number of Scribner's Magazine, of which 125,000 copies have been ordered as a first edition, will contain a most interesting article, by John C. Popes, upon the "Likenesses of Julius Caesar," with 18 portraits, one of which, engraved by Mr. W. B. Close, will be the frontispiece of the number. A new story is begun in the same number, by Mr. F. J. Simson (J. S. of Dale), entitled, "The Residuary Legatee." The second installment of Scribner's "Reminiscences of the Siege and Commune of Paris" is of the greatest interest, describing as it does the most interesting phases of the Siege.

Locals.

My term of office as Prosecuting Attorney having expired, I wish to announce to the public that I shall now be able to devote my time more closely to the business of the general practice of law. A share of the legal business of the community is solicited. Any business entrusted to my care shall receive prompt and careful attention. ALISON C. ROE.

CLYDE H. BAKER, T. TREAS.

Holiday Goods, at KEELER'S. Now, for fun. We will give you more goods for one dollar than any other dry goods house in town. Come and see us.

PRICES DURING 1886.

THE BUSINESS BAROMETER OF THE PAST YEAR.

The Stock Fluctuations in Wall Street Result in Better Prices—The Cost of Food—A Prosperous Outlook for 1887.

The following chart presents a complete picture of the fluctuations in railroad stocks at the New York Stock Exchange during the year 1886:

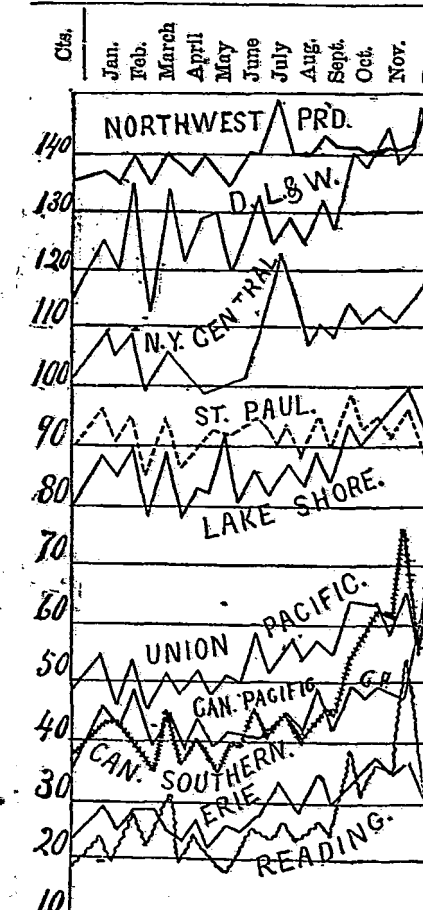

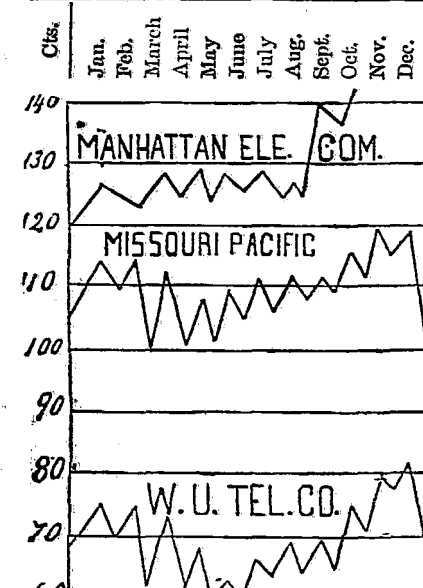

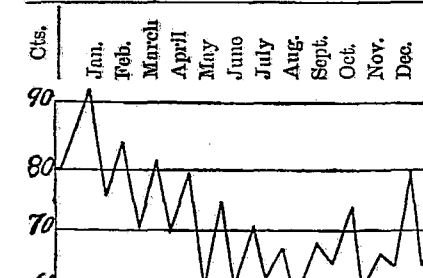

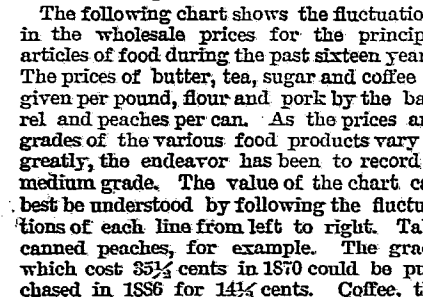

Chart showing the highest and lowest quotations of the principal railroad stocks for each month during 1886.

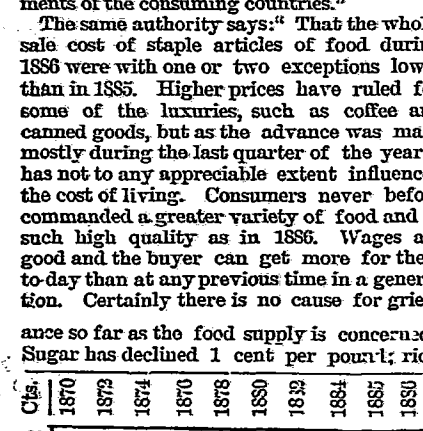

The Gould Stocks.

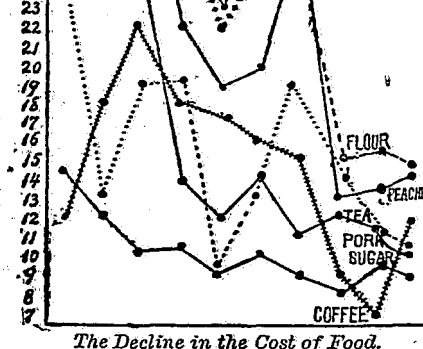

Petroleum.

The following chart shows the fluctuations in the wholesale prices of the principal commodities during the past sixteen years.

The same authority says: "That the wholesale cost of staple articles of food during 1886 were within one or two exceptions lower than in 1885. Higher prices have ruled for some of the luxuries, such as coffee and canned goods, but as the advance was made mostly during the last quarter of the year it has not yet been reflected in the market."

The Decline in the Cost of Food.

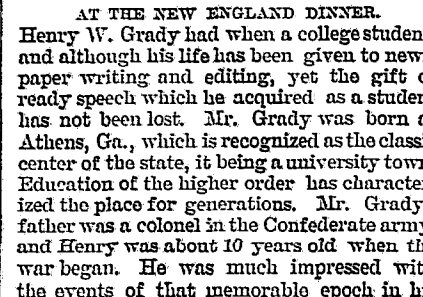

The Elusive Editor of "The Atlanta Constitution."

these days that there was a time when a speech of any kind, or who care particularly to hear one delivered, are few and far between. New York was lately favored with an address of a speech which many who were not present would have been glad to hear.

The attendance this year was unusually large, and included many distinguished men of affairs. The list of speakers had been made out with care, and included men who had achieved distinction in that line, Chalmers, Al. Dyer, Horace Russell, Gen. William T. Sherman, Maj. Gen. Schofield, Congressman William Walter Phelps and Rev. T. De Witt Talmage being among the number. There was one name on the list, however, which was not very familiar to New Yorkers. When President Horace Russell introduced a representative of the "New South," and said in his behalf "Let us let him feel how welcome he is among us," Henry W. Grady, of Atlanta, arose, and for the first time a southern speaker had stood before the New England society. They looked at him with interest, and he appeared even younger than he was, following as he did the matured, gray and staid character of Gen. Sherman, who had just spoken.

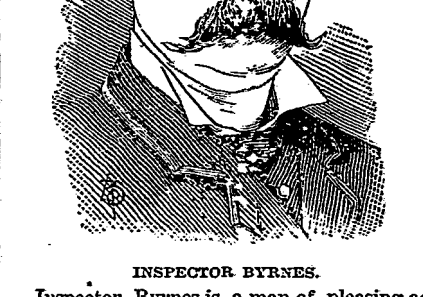

The audience had not long to wait. Mr. Grady at once landed into his subject. The New South? With an ease and grace which at once showed that he knew what he had to say, and knew how to say it. His style of oratory was fresh and original, and his subject was one which he had always been noted for the number of his orators, and many of the great speakers in both houses of congress have come from that South. This fact has given to oratory an impetus which has been the inspiration of every college student. Young men who aspire to literature and eloquence have profited by the example of the advantages of its attainment. This inspiration

AT THE NEW ENGLAND DINNER.

Henry W. Grady had when a college student, and although his life has been given to newspaper writing and editing, yet his gift of oratory has not been lost. Mr. Grady was born at Athens, Ga., which is recognized as the classic seat of the orator, and his education was at the University of Georgia. He was a member of the Confederate army, and was wounded at the battle of Atlanta. He was much impressed with the events of that memorable epoch in his country's history.

He was graduated from the University of Georgia at the head of his class and chose journalism as his profession. His first work in this line was as correspondent of the Atlanta Constitution, and he continued through this medium a local fame as a pungent and forcible writer. His style of oratory has not been lost. Mr. Grady was born at Athens, Ga., which is recognized as the classic seat of the orator, and his education was at the University of Georgia. He was a member of the Confederate army, and was wounded at the battle of Atlanta. He was much impressed with the events of that memorable epoch in his country's history.

INSPECTOR BYRNES.

Inspector Byrnes is a man of pleasing address and suave manners. He weighs about 185 pounds. He has dark eyes, and is an excellent judge of human nature. He has surrounded himself with a body of remarkably able detectives. During the six years of Byrnes' inspection not a single robbery, by a professional thief, has occurred in the neighborhood of Wall Street. This is due to the branch office which he established in that street. Immediately after his appointment to his present position, this branch office is connected by wire with every banking house and the different exchanges in the lower end of the city. The reason for this, and fight shy of the locality.

PHOTOGRAPHING A CRIMINAL—OLD WAY.

Inspector Byrnes is also something of an author in his way. His "Professional Criminals of America" is a very valuable book, which no thief catcher can afford to be without. Thousands of cases might be cited to prove that the New York detective bureau is as perfect as such an organization can well be, and in this spirit of many adverse influences. Perhaps the most important of these is the private detective business, which is beginning to assume astonishing proportions not only in New York, but all over the land.

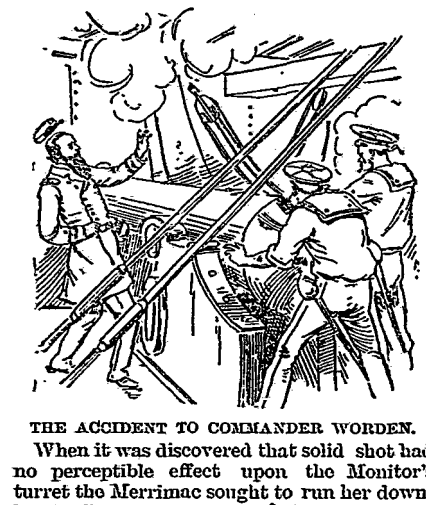

Under Inspector Byrnes are forty detective sergeants, at a salary of \$1,000 a year each. These men are selected from among the best of the city, and are given the most thorough training. Besides these there are ten policemen in the detective bureau, who do duty in emergency, or when one or more of the regular detective sergeants is laid off by reason of sickness or otherwise.

Numbers of instances of Byrnes' administrative ability might be given if space permitted, but one case deserves special mention. Just before the Grant funeral in the city, a man named John A. Logan, who had been arrested by the bureau, was taken into custody, where they remained until after the funeral, who had been arrested by the bureau, was taken into custody, where they remained until after the funeral, who had been arrested by the bureau, was taken into custody, where they remained until after the funeral.

THE MONITOR'S CAPTAIN.

John L. Worden, who was a young navy lieutenant in 1862, and who commanded the Monitor during that vessel's engagement with the Confederate ironclad, the Merrimack, on the 9th of March of that year, has just been placed on the retired list of the navy. His record has been that of an honorable and brave man, and his service at the time of his retirement was that of rear admiral.

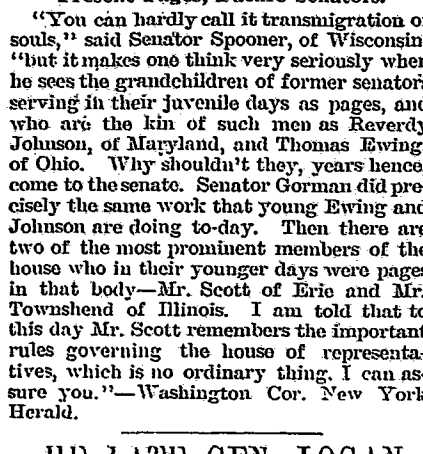

THE CHIEF OF NEW YORK'S DETECTIVE BUREAU.

Something About His Work as a "Fisher of Criminals: The Rogues' Gallery of the Metropolitan—Byrnes' Tact in Times of Emergency.

No stranger visiting the city of New York considers that he has thoroughly "done the town" until he has paid a visit to police headquarters, 300 Broadway street. What most impresses the visitor is the vastness of the bureau, which is under the immediate personal supervision of Inspector Thomas Byrnes.

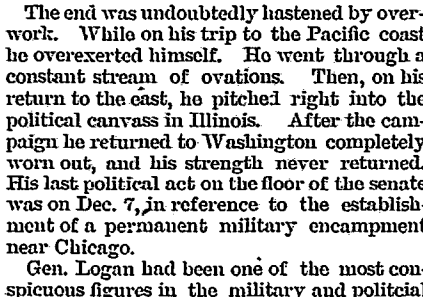

presented to Admiral Worden by the state of New York soon after the engagement with the Merrimack.

HE LATE GEN. LOGAN.

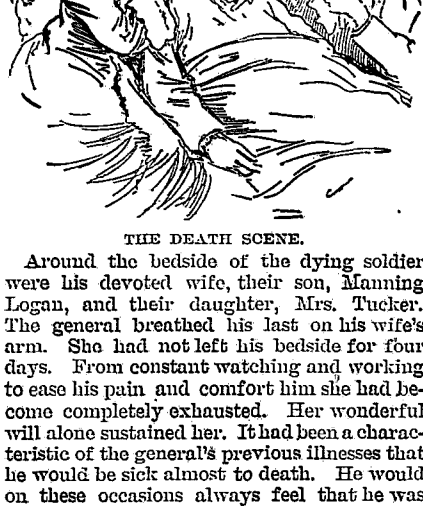

He Gave His Life for His Country and Died Poor—A Brief Sketch of His Career—His Death Hastened by Overwork.

John A. Logan's death on Sunday, Dec. 26, came with a suddenness that shocked the whole country. Coming amid the Christmas festivities it recalled the start which the country received at the death of Lincoln, who died on the 4th of April, 1865. Logan was a man of great ability, and his death was a great loss to the country.

THE MONITOR'S CAPTAIN.

John L. Worden, who was a young navy lieutenant in 1862, and who commanded the Monitor during that vessel's engagement with the Confederate ironclad, the Merrimack, on the 9th of March of that year, has just been placed on the retired list of the navy. His record has been that of an honorable and brave man, and his service at the time of his retirement was that of rear admiral.

had lost a near and dear relative. During the time that the body was lying in state in the rotunda of the Capitol, previous to being brought into the senate, the scenes recalled to the mind of the body of President Lincoln rested in precisely the same spot.

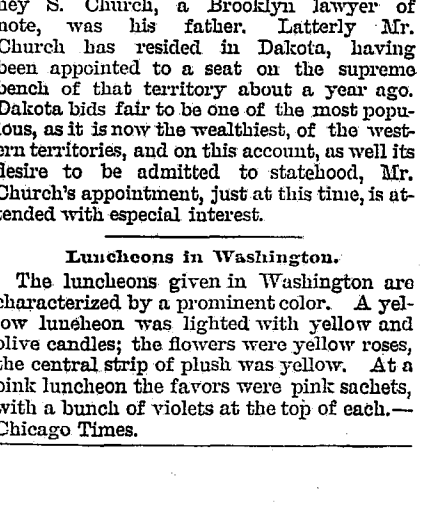

HOUSE IN WHICH LOGAN DIED.

The Old Stone house in which Gen. Logan died is so called because it belonged formerly to the Stone family. It is a brick structure, with granite foundations. It contains about twenty rooms. These have been furnished with relics of furniture that Mrs. Logan purchased at second hand stores in Washington, and a collection of greater variety it would be pretty hard to find, though all of the furniture is substantial, and much of it possesses historical value. Belies the war are found on all sides. The most precious treasure to Mrs. Logan now are the shelves and drawers that the general put up with his own hands. The whole interior is arranged in a manner that renders the house one of the most comfortable in Washington, and reflects endless credit on the excellent taste and judgment of Mrs. Logan.

Children Cry

For PITCHER'S

STOMACHICA

A Practically Perfect Preparation for Children's Complaints.

A Miraculous Escape from the Grave.

I have been in poor health with a diseased stomach and liver, causing a cankered mouth and constant pain for ten years. I kept at home until a year ago last June. For three years prior to that time I had a severe pain in the region of my heart, at times seeming past endurance. I affected my shoulder, took all strength from my arm; could get no relief only by poulticing. My stomach being so diseased, my food caused me great distress, and was also caused to be in the way of my recovery, and not the least of my sickness I employed the very best of medical assistance I could get while in Caro, this State, but little encouragement could I get. Was moved to Vassar Oct. 1, 1885, on a bed, giving me every ten minutes a teaspoonful of brandy and ice with only a teaspoonful of nourishment at a time. I commenced bloating soon after arriving here, had every appearance of dropsy. We called our Caro physician here, and he said my condition was worse than when in Caro. On the 27th day of May last we called a council of doctors from Vassar, "three in number." All of them pronounced me incurable. I of them pronounced me incurable. I of them pronounced me incurable. I of them pronounced me incurable.

VASSAR, Mich., Oct. 11, 1886.
