

JOHN C. HOLMES, Editor.

THURSDAY, APRIL 21, 1887.

New York news are driving Buffalo horse-racing into Canada.

Kokomo, Ind., has four gas wells in successful operation.

Complaints to first report the amendment increasing the salaries of State officers to the same rate as the prohibition amendment.

The regular cyclone season was opened in Ohio last Friday, when the two towns of Barton Station and St. Clairsville were partly demolished.

Judge Wood Davies, of New York, explains Governor Hill's high license veto in the following pithy sentence: "The saloon is the nursery of the Democratic party."

The jury at Morris, Ill., on Tuesday found Watt and Schwartz guilty of murdering Express Messenger Nichols, and fixed the penalty of imprisonment for life. A motion will be made for a new trial.

The Bethlehem Iron Works Company of Pennsylvania has been awarded the contracts for furnishing to the Navy Department 1,400 tons of steel gun forgings and 4,500 tons of steel armor plates, at a total cost of \$4,512,938.

The Atlanta National proposes for the Republican ticket for 1888, Robert T. Lincoln of Illinois, and Joshua R. Hill of Georgia, and says that that ticket would break up the solid South. Joshua Hill has been a prominent member of the United States Senate.

There is now but little question but that a bill to increase the liquor tax and restrictions upon the traffic will be passed by the present legislature, and that the amount of tax will range from \$800 to \$700, according to the size of the town.

The jury in the case of Althausdorf, at Sioux City, Iowa, for the murder of Rev. Haddock, disagreed, standing eleven for acquittal to one for conviction, the one being unable to bring over the eleven obstinate ones to his views. It is now charged that the jury was bribed.

The Interstate commission made public its first announcement, indicating its ideas of the law, to the effect that railroads which have been straining the law to make it obnoxious, have been going too fast, and will likely be called upon to change their newly adopted methods to conform with reason.

Now comes the discouraging news that the large circuits that had routes planned for Michigan the coming summer, have cancelled their engagements because of the increase in railroad charges, made under the guise of it being required by the interstate commerce bill.

The Panhandle railroad company has just discovered a general system of robbery of its trains that has been carried on by its employees. So extensive was it that all who were implicated could not be arrested without stopping the work of the road. Perhaps the system of long days, low pay and hard work may be credited with being responsible for the most of it.

A gang of tramps struck South Bend Monday, and were carrying on a promiscuous pillage in various parts of town, when the police made a raid on them, running in twelve and killing one who was shot through the breast by officer Metz while resisting arrest. Metz had two in charge when one broke away and drew a revolver to shoot him, and the other reached into his pocket and also threatened to shoot, when Metz fired, but a search proved that the dead man had no weapons.

The Republican members of the Legislature and Senate met in caucus at Lansing, Tuesday, to hear the report of the committee and decide what action to take in order to secure the proper legislation for a better regulation of the liquor traffic. Local opinion by county and an increase of tax is the prevailing sentiment. The State pharmacists were in session at the same time to consider the same subject. The expression seemed to be in favor of taxing all druggists who sell liquors by the glass the same as saloons, the others to be exempted.

The new Prohibitory law in Kansas appears to have struck the liquor traffic hard. No one can run a drug store without first passing a pharmaceutical examination, and procuring the signatures of twenty-five men and twenty-five ladies to a petition for him to do so. This petition among the ladies is what catches them, especially in the small towns, and as a consequence the condition of health throughout Kansas, as indicated by the large number of drug stores, is rapidly improving. It was a very sickly state of affairs that required seven drug stores in a town of 800 inhabitants.

The southern portion of the country is to have the first important reform placed among them by the interstate law, or the law he proven a farce at once. A colored preacher bought a first-class ticket from Chattanooga for Atlanta, went into a first-class car to ride. The conductor ordered him out and he refused to go. The conductor went into another car to gather tickets, when three high-bred young gentlemen, pounced upon the darkey, beat him over the head with a heavy cane, and finally forced him to leave the train. As the company afforded him no protection in the rights he had paid for, and endeavored to deprive him of those rights, he proposes to try the force of the new government law on the company. This will probably be the test case that shall decide upon the further treatment of the colored people by Southern railroads, and may be a good thing for the Negroes if not for the balance of that portion of the

country. As a large proportion of Southern members voted for the bill this phase of its effect may be somewhat disagreeable to them in their constituencies.

The Interstate Commerce Committee having rented rooms at \$30,000 per year, and instituted a salary list of \$40,000, are ready to answer questions and regulate the commerce of the United States and the dining territory. And to say the least it is a pretty big contract, but the people will be disposed to give the thing a fair trial. *Inter Ocean.*

## Michigan Wheat.

LANSING, Mich., April 14.—The Michigan monthly crop report for April was issued from the office of the Secretary of State today. For it returns have been received from 1,000 correspondents, representing 747 townships. Six hundred and sixty-four of these returns are from 482 townships in the southern four tiers of counties and 182 reports are from 103 townships in the central counties. Correspondents very generally agree that it is yet too early to actually report upon the condition of wheat. The weather during March was extremely unfavorable and warrants the expectation that the crop has suffered severely. The wheat is "dark and brown." Correspondents are yet hopeful, however, that the root is not seriously injured. As usual wheat on clay and undrained lands and high land suffered most. The condition compared with vitality and growth of average years, as expressed in figures and shown in the table, is at this date hardly satisfactory. Quite an excellent summary of the notes of correspondents in the southern four tiers of counties upon the condition of wheat are published, which seem to confirm the figures in the tables as to the condition of the crop. April 1, when the reports were mailed. Nearly all of them declare their inability to estimate the extent of the damage, and the belief that it is likely to show a marked improvement during April. The weather since April 1 has been warmer, but it is yet so dry that the plant has made little if any growth. Three per cent. of the wheat and 7 per cent. of the clover meadow and pastures will be plowed up. The condition of wheat is reported at 80 per cent. and of meadows and pastures 88 per cent. The condition of live stock is: Horses, 97; cattle, 95; sheep, 97; and swine, 96 per cent. The prospects for an average crop of apples is 90 per cent.

Reports have been received of the quantity of wheat marketed by farmers during the month of March at 213 elevators and mills. The total number of bushels reported marketed is \$08,254, of which 275,420 bushels were marketed in the first or southern tier of counties, 217,303 bushels in the second tier, 107,210 bushels in the third tier, 105,308 bushels in the fourth tier, 37,757 bushels in the fifth and sixth tiers, and 102,830 bushels in the northern counties. At thirty-one elevators and mills, or 17 per cent. of the whole number from which reports have been received, there was no wheat marketed during the month. The total number of bushels of wheat reported marketed in April, September, October, November, December, January, February, and March is 1,078,000, or about 41 per cent. of the crop of 1886. The number of bushels reported marketed in the same months in 1885 and 1886 was 1,024,624, or 30 per cent. of the crop of 1885. For these months in 1885-6 reports were received from about 45 per cent. and in 1886-7 from about 51 per cent. of the elevators and mills in the southern four tiers of counties.

## Circuit Court.

The circuit court convened at the court house on Monday, Judge Smith presiding, and the following business has been transacted as we go to press: The people vs. Geo. Taylor, alias Geo. Holtz, larceny, plead guilty. The people vs. Jas. Montgomery, plead guilty to the second count of the information. The people vs. Henry Martin, plead guilty of assault and battery, and entered into his own recognizance to appear at next term. The people vs. Guy Howe, Frank Osborne, Clinton McGlinsey and Harry Samson, charged rape, plead not guilty. The people vs. Harry Swartz, Walter Swartz, Charles Slater, William Slater, John Laghe and Charles Parks, arraigned and plead not guilty and the trial of Harry Swartz and Walter Swartz was continued until next term, they giving bonds for their appearance. The people vs. Claus Schultz, nolle prosequere entered.

Charles Kawanika vs. village of St. Joseph. Judgment set out and a new trial granted.

The following cases were continued until next term: John H. Bonker vs. Henry C. Lane; Bradford Tober, et al vs. Clinton G. Gibbs; Milton Olmstead vs. estate of Charles Kruger; Samuel Rosebaum vs. John F. Todd et al; Joel Blakeman vs. Charles W. Stahl; re estate Simon Lindbury; Leonard Parve vs. A. D. Stover; Wm. G. Crowley vs. Joel H. Wicker; Rosinda Redding vs. Curtis H. Lamb.

Altman & Co. vs. John Hildebrand. Judgment for plaintiff for \$80.29 and costs.

Isaac Altman, et al vs. George Derrman. Judgment for defendant.

The people vs. Wade Harris, plead guilty to the charge of affray and was fined \$1 and costs, taxed at \$14.

Petition of Albert Durkin and Harrietta Durkin in regard to lot 7 block 28, Benton Harbor, granted.

Benjamin Peckham vs. Elizabeth Hogg, assumpsit, judgment for plaintiff for \$4,000.

August Anderson a native of Sweden was admitted to citizenship.

Charles Hillman vs. John C. Schwenk, assumpsit, being tried by jury as we go to press. *Berrien Springs Journal.*

## State Items.

There is hydrophobia in Ontonagon County.

The Allegan county outlook for peaches is excellent.

Ann Arbor is making a strong effort to enforce the Sunday law.

A seven-foot vein of coal has been struck near Union City.

Now the story is being told of a Cheboygan boarding house keeper who has drawn \$15,000 in a lottery.

Wayland will take the benefit of Michigan local option law and will have no saloon this year.

Three Rivers has a bonded and floating debt of \$5,500 and wants \$300 more to meet current expenses.

The Wisconsin shore was seen inverted over the lake at Grand Haven Monday, and was a beautiful mirage.

Two swans were killed in Ransom a few days since, either of which measured eight feet from tip to tip.

It is pretty evident that a healthy public sentiment is on the increase at Muskegon. From May, 1884 to May, 1885, \$9,562.21 was expended for the poor and this sum had fallen from May, 1886 to May, 1887, to \$4,452.14, a decrease of a little over \$5,000. It shows that with the increase of population, pauperism (whether from a decadence of laziness or other causes unknown) has actually decreased over 50 per cent in less than two years. *Kalamazoo Telegraph.* Perhaps the poor-master had something to do with it.

The Ypsilanti Dress Stay Manufacturing Company employs seventy hands and is turning out 43,000 dress stays a day. Notwithstanding this, they cannot keep up with orders.

John Blair, a farmer near Kalamazoo, was burning a log heap, Tuesday, when his clothes caught fire and he was burned to death.

The present prospect is that the Crouch murder case will never come to trial. The Prosecuting Attorney says he lacks the necessary evidence to convict and will not proceed until he can procure it.

Newbury is in a bad plight. Boston creditors closed the Newbury Furniture Company's works, Tuesday, throwing 230 men out of employment. It is but a few days since the same creditors closed the Newbury Manufacturing Co., and now not a wheel is turning in that village.

Five ladies are students in the university law department. One of these is a native of the Sandwich Islands, where her father is a prominent lawyer. Two others are married and are classmates with their husbands, and don't get much chance to go out at night with the boys. *Detroit Journal.*

George W. Harrington of Kalamazoo has just returned from Chicago, where he submitted to an operation which was successful in removing from the region of the kidneys a 40-calibre Enfield rifle ball, sent there by Johnnie Rob in our late unpleasantness.

J. E. Long of Atlas, Genesee county, on Easter Sunday ate fifty-one eggs at one time. The next evening in a store there he ate two pounds of sugar, one-half pound of crackers and fifteen eggs, and that was just after he had eaten his supper. On top of all this comes the report that the pork market is very dull.

Poultry items: Mrs. D. F. Gilles of Ann Arbor has 30 hens which gave her 79 dozen eggs from Jan. 1 to Mar. 22, and she now gets over 20 eggs daily and some of the chickens are last August pullets. Wm. O. Cork of Keeler, Van Buren county, has 70 hens which gave him 140 dozen eggs from Jan. 15 to Mar. 15. They had only a moderately warm house and barn in which to run.

The latest swindle is worked like this: A man who proposes to take all your spring chickens at a big price, when three months old, paying part in advance. If the farmer has not already been victimized by like schemes he bites very readily and signs a contract, which in the course of time turns up the shape of a note. If you have occasion to sign a written agreement, write it yourself on your own paper if you are dealing with a stranger. Then the blank dodge can't be worked.

E. Woodman of Paw Paw, who is one of the most extensive breeders of Percheron horses in the state, sold 57 of these animals during the past year. He is also the owner of a variegated team which will cause much amusement when he drives it out, as it consists of "Monarch," a 1,700-pound Norman, and "Jumbo," a woolly little Shetland that could almost be concealed in his overcoat pocket. *Detroit News.*

The 4th of April was the fiftieth anniversary of the organization of the township of Lenox, Macomb county. One of the pioneers, Justice R. Crauld, was present. He also attended the first township election and was elected justice of the peace and served the town in this capacity ever since except during four years, when he was treasurer of Macomb county. He has also served the township as supervisor twelve years. At the last election he was again elected a justice and he is now in his 82d year with a clear head and a sound body.

Dr. Gibbs was yesterday at Roe's island in the Kalamazoo river, between Comstock and Galesburg, a tract of land perfectly flat and which is overflowed each year. He carefully examined the celebrated triangular Indian mound, or, more properly, a mound builder's elevation. It is almost perfectly proportioned and over 300 yards around at the base, is over 20 feet high in its highest part, almost perfectly level on top. The doctor has examined various mounds in Newaygo county and considers this the most wonderful of the lot.

The following new phase of graveyard insurance from Coldwater appears in the Detroit Journal, Saturday: Clark H. Thomas, dealer in second-hand goods, was arrested to-day on a charge of attempting to bribe W. Cole to kill C. Davis, to obtain an insurance on Davis's life of \$9,000. Davis is 70 years old and in the employ of Thomas. Cole made arrangements with the complaining witness to secrete himself under a lounge, and then Cole talked the killing over with Thomas, who agreed to give him \$200 for the job. Bail was fixed at \$3,000; examination the 19th.

A curious freak—almost a paradox—was witnessed on the Capitol building during the prevailing high winds Friday noon. On both wings the flags were floating to the breeze in absolutely contrary directions—one north and one south—while from the flag staff at the east front of the building the stately banner was waving directly east. Three flags on three different parts of the big building, one floating north, one south and one east, yet the wind blowing at the rate of twenty miles an hour from the south southwest. *Lansing Republican.*

A. F. Howe & Son had a contract with the Bardeen Paper company of Kalamazoo to furnish 500,000 bricks for the new paper mill at Otsego. They had a freight rate over the Lake Shore road of 71 cents per 1,000, and had filled only a small part of the order. Monday, under the provisions of the interstate commerce act, the rates were advanced to \$1.40, a figure which blows the brickmakers out of water, so far as the above contract is concerned. As the freight tariff affects all shipments to this point, the effect is to raise the price of brick in this town from 50 to 58. The yards here will run with eight men instead of twenty-five, and for five weeks, to supply home trade only, instead of the full season. *Detroit News.* Similar stories come from nearly every trade, and the effect of the country is anything but pleasant from a business standpoint.

## PLANT ACCLIMATIZATION.

Failure of the Watercress—The Thistle in Australia—The Sweetbriar.

Our failures in the acclimatization of vegetable life have almost always been due to sentiment. The useful plants and trees have, as a rule, flourished admirably. For example, Mr. J. A. Froude states in his "Oceanic" that the oats, barley, peas, beans and potatoes of Australia are produced in such luxuriance that he could believe Herodotus' account of the crops grown on the plains of Babylon. A reaping machine had stopped in a field of oats, the stems of which stood up like a wall, and seemed as if no horse could get passage through them. For seventeen successive years the ground had been cropped and not a particle of manure had been put upon it. The strangest point about it was that there were no weeds, and Mr. Froude offers the rather bold suggestion that "weeds are said to be a product of high civilization and do not exist in nature."

Almost the only failure in useful plants has been that of the watercress. Introduced some years ago into New Zealand, it has spread as rapidly as did the "American weed" in our own country, choking up the rivers and involving the annual outlay of many thousands of pounds in the rivers sufficiently clear for navigable purposes. Otago and Canterbury have been severe sufferers from the watercress. Sentiment, however, has always been a deadly foe to the colonist; for example, some of the Scotch emigrants to Australia took with him a thistle in a flower pot. Great were the rejoicings among the Scotch colonists, a dinner was given in honor of the national plant, and it was then carefully transplanted to the soil. Now played the same part on land as the watercress in the rivers, and has rendered whole tracts of land useless. It defies all attempts at extirpation and great sums of money are paid yearly in restraining the once welcome plant. That the thistle would probably become an injurious plant ought to have been anticipated, and the very seeds should have been prohibited as relentlessly as we prohibit the Colorado beetle.

But who would have thought that the sweetbrier could do any harm? At home we are only too glad to have it in our gardens, and a sweetbrier hedge is a thing of joy and an object of justifiable pride. No one, therefore, would blame the missionary for his wife who took with them a plant of sweetbrier as a fragrant memorial of their garden in the old country. But when set in the fresh rich soil of Australia that plant grew with almost savage fury. It drove great roots into the ground, and sent out suckers from a shrub into a tree, and spread with such alarming rapidity that it is quite as troublesome as the thistle.

Tasmania, which is to the mainland of Australia what the Isle of Wight is to England, has been infested by the sweetbrier. New Zealand has fared no better. Mr. Froude states that it is a worse foe to the agriculturist than the native fern. "At home so chary of growth, it expands here into vast bushes, and in some places grows as thick as a weed. It overruns whole fields in two or three seasons, will turn a cleared farm into an impenetrable thicket, and has to be torn out with cut rakes and teams of horses." The reason for this astonishing growth is that which accustoms the secularity of the rabbit and sparrow. The rich and fertile soil affords the plants abundance of food, and the native flora is so feeble that the introduced plants have no rivals to check their progress. *Longman's Magazine.*

## The Earth's "Ups and Downs."

A few stray indications and there show that the creation of the world is as yet far from complete. We know that the Andes have subsided 200 feet in seventy years. Only two years ago islands disappeared and other islands took their places in the Straits of Bouda. Least than 100 years ago, so distant a spot as the square, suddenly plunged beneath the Indian ocean, with all its inhabitants, their homes, their cities and their forts, and has never reappeared. The coast of Greenland is known to be slowly sinking, and the coast of Norway, though the subsidence is slower. Chinese geographers report remarkable changes in the configuration of their coast since their first maps were drawn. But these changes are so slow and so gradual that they escape the notice of all but scientific observers. The mass of mankind believe that the earth is firm. Science, however, preserves the record of alternate upheavals and depressions more vast than anything which appears to be going on now. *San Francisco Call.*

## The Fuel of the Future

It is a fact well known in manufacturing circles that the best of the coal heat contained in coal is wasted. Only fourteen out of the hundred parts of carbon is actually utilized. Hence, one of the problems of chemistry has been to get more power in the way of heat from a given quantity of coal. Professor T. S. C. Lowe claims to have solved this problem, a matter which is of vast importance, if it is a fact. The process is to pulverize the coal, and in converting it into a gas, the coal is reduced to a powdered form, so fine that it will float in the atmosphere and it is carried into the burning furnace by a current of air artificially produced. In the powdered form every thing is consumed, as it makes no smoke and leaves no ashes. This would utilize the roomful of coal waste now piled up near coal mines and manufacturing plants.

But Professor Lowe's invention goes farther. The coal is converted into a gas, and a ton of this gas will generate from eighty to a hundred cubic feet of gas. The cost will be about 6 cents a cubic foot. This invention is already in use in the city of Troy, in the laundries of that place, and is also used for heating and cooking in hotels and restaurants. The gas furnished is non-luminous and resembles that from alcohol. It has no odor and is intensely hot. These facts have come out in a report to the Scranon board of trade, which calls the new invention anti-fog gas. The result will be a marvelous economy in the heating of houses and the cooking of food, while one ton of coal will go as far as a hundred of tons nowadays. *Demorest's Monthly.*

## Dental Caries in Bakers.

Professor Dr. Hesse, of Leipzig, in The Deutsche Monatschrift, points out the deplorable condition of the teeth of bakers, and says that he is often able to tell the profession of the patients by the condition of their teeth. The caries is soft and rapidly progressive. The principal parts attacked are the labial and buccal surfaces of the teeth, commencing at the cervix and rapidly extending to the grinding surface. The approximal surfaces do not seem to be attacked more than in other patients. He believes the disease to be due to the inhalation of fine dust, the dust being caused by the action of an acid which is formed in the presence of fermentable carbohydrates. *Scientific American.*

## The Patriarch of Jerusalem.

The patriarch of Jerusalem is thus described by one who has just paid him a visit: "He is one of the most kindly men I ever saw, meeting one's conception of King David's appearance in middle life (he is about 65 years old) very far from being a reality. He is tall, thin and affectionate as strong." *Chicago Herald.*

The poor imagine that the rich live in paradise. They are mistaken. They live in a gilded hell. *Col. Bob Ingersoll.*

TRUTH.—Dr. Brewer is known throughout the country as the only physician in a special line of practice that has proved himself for any length of time successful, candid and skillful. If suffering from any disease and desire to be treated by a physician that performs all he agrees and makes no charge unless medicines are positively required, go see Dr. Brewer on his next visit at the Bond House in Niles, on Tuesday the 26th of April. Consultations free.

Senator Sherman recently paid \$20,000 for a piece of property in Findly, Ohio, which is now worth \$125,000.

## PHACTS AND PHYSIC.

The new directory of St. Louis contains 142,670 names. This would indicate a population of 428,000.

Riches will never take wings and fly away, if you sprinkle the salt of economy and prudence on his tail.—Pretzel's Weekly.

A Canadian magistrate fined himself \$1 for not cleaning the snow from his sidewalk.

## Buckley's Aches and Pains.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all skin eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by W. H. Keeler. 22y1

Mrs. Isabella Beecher Hooker wants to be a police commissioner of New York, and gives ladies half the places as patrolmen.

Drunkards and Liquor Habit, can be cured by Dr. J. C. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it, and being a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken the Golden Specific in their coffee without their knowledge, and to day believe they quit drinking of their own free will. No harmful effects result from its use. Doses given. Send for circular and full particulars. Address in confidence GOLDEN SPECIFIC CO., 185 Race St., Cincinnati, Ohio. 42y1

Senator Palmer will build a hall for the G. A. R. posts of Detroit at his own expense.

Fires.—All fires stopped free by Dr. F. H. Kline's Great Nerve Restorer. No fee after first day's use. Marvelous cures. Treatise and \$2 trial bottle free to fit cases. Send to Dr. Kline, 931, Arch St., Phila., Pa. 9y1

There are 60,000 women farmers in Ireland.

## Accidents

and how to deal with them, and other valuable medical information, will be found in Dr. Kaufmann's great Medical Work; excellent colored plates. Send three two-cent stamps to pay to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

"Does your mother wear a switch?" asked an inquisitive lady. "Yes," replied little Johnny, "but she always uses her slipper."

The removal of Prof. Sanborn, of N. H., after being pronounced incurable by a score of physicians, from Los Vegas, N. M., to his home, was effected administering Dr. Hartner's Iron Tonic, which has restored him to his former good health.

Frank James has gone to Denison, Texas, to live.

A Captain's Fortunate Discovery.—Capt. Coleman, scbr. Weymouth, plying between Atlantic City and N. Y., has been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only cured him, but he was also cured of the extreme soreness in his breast. His children were similarly affected and a single dose has the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the Steamer. Free Trial Bottles of this Standard Remedy at W. H. Keeler's Drug Store.

William T. Coleman, of California, Dana's latest candidate for the Presidency, has a fortune of \$200,000.

Dr. C. F. Brewster says that his little girl is troubled with malaria very severely, and that since he gave her Sulphur Bitters, he never thinks of leaving New York for his summer resort, without a few bottles, for they always cure his family, and are far superior to quinine.

Put camphor on coldsores when they first come, and that may heal them, or prevent them from developing.

## The Public Interested.

When manufacturers of an article are asking the public to consume their wares, it is indeed refreshing to know that they are not only careful, but also illustrated by the united endorsement of Dr. Hartner's Iron Tonic and Liver Pills by the druggists of St. Paul.

Mme. Patti pays \$110 per day for her apartments in New York.

## Indispensable to the Toilet.

Darby's Prophylactic Fluid cures chafing, eruptions and inflammation of all kinds; cures inflamed sore eyes; relieves pains from bites or stings of insects and sore feet; destroys all taint or offensive smell from the feet or any part of the body; cleanses and whitens the skin. Used as a dentifrice it purifies the breath; preserves the teeth and cures toothache; sore gums and canker. A little of the fluid in the water used in bathing is very refreshing and especially beneficial to the sick.

When Baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became a Woman, she clung to Castoria, When she had Children, she gave them Castoria.

Job Printing

Of every description, with REPRODUCTION OF THE ORIGINAL, and guaranteed to give satisfaction.

## DODD'S GERMAN COUGH BALM.

Just the thing for your cold.

TRY IT AND BE CONVINCED.

Dodd's Vegetable Liver Pills!

THE BEST LIVER MEDICINE

Of the kind on the market. Both warranted to give satisfaction or money refunded. For sale by all Druggists and by Proprietors.

Dr. E. S. DODD & SON,

Druggists and Booksellers.

BURPEE'S FARM ANNUAL FOR 1887

Containing a book of 128 pages, with many valuable facts and information, and full and complete descriptions of the best and most valuable varieties of fruit, vegetables, and flowers, and the most complete Catalogue published, to be sent for free.

W. ATLEE BURPEE & CO., PHILADELPHIA, PA.

Renews her Youth.—A Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, only 50c. at W. H. Keeler's Drug Store.

Enjoy Life.—What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health, but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it. 1

Van Buren County claims to be the banner Prohibition county, having given the largest majority for the amendment.

## MARRIED.

Thursday, April 21, 1887,

Daisy Springstock

to

Marcus Lowe.

AT HOME

After April 22, 1887,

at

G. W. NOBLE'S,

Buchanan, Mich.

SPRINGSTOCK-LOVE.

It is pleasure annaloyed to announce the union of this accomplished and popular couple. We know each finds in the other an affinity making the whole complete and symmetrical. Our Daisy Springstock has lost none of her charming attributes, but only enhanced her attractiveness by becoming Lov(e), while a popular Mark(us) Lowe has taken to himself the one thing needful to fit him for a needful career among the prudent and experienced buyers of Clothing, Hats, Caps, Boots and Shoes. Remember the Daisy Springstock and Mark(us) Lowe have become one and the same, and on after April 22 they are at your service in the shape of hundreds of seasonable bargains, to be found only at

NOBLE'S.

NATURE'S A RELIABLE REMEDY: CURE FOR CONSTITUTION, SICK-HEADACHE, AND DYSPEPSIA.

A Former Superintendent of the Soldiers' Orphan's Home, at Madison.

Yes, it is a familiar face. It is also the face of a man whose head is put on right and whose heart was not spoiled in the making.

Dr. Frank B. Brewer was for some years a much respected resident of Fort Atkinson, this state, and twenty years ago or more he was the most kindly, honest and efficient superintendent of the Soldiers' Orphan's Home, at Madison, ever had. A few days since we met a lady who was at the home while Dr. Brewer was the superintendent. She said: "If all men were as true hearted and faithful to their

## BUCHANAN RECORD.

THE May Graham has commenced her season's work on the river.

The Berrien county fair will be held in Niles, Sept. 27, 28, 29 and 30.

MISS HULDAH HAHN is going to Chicago to pursue her studies in music.

JOEL STARR, of Stevensville, has been granted an increase of pension.

Mrs. RINO, of Coloma, is in Buchanan visiting her daughter, Mrs. John Hanes.

SOME of our citizens went to Niles Friday evening to hear the Mendelssohn Quintet concert.

MISS EDITH FOX will go Monday to Chicago to continue her study of elocution.

ST. JOSEPH is reported to have two hundred cases of German measles within its borders.

CITY property must be very cheap in Niles. The Star advertises a house and lot for sale for \$200.

Mrs. L. P. ALEXANDER has been for a business trip to the home of her father, Belfast, New York.

MR. W. A. PALMER has received the appointment as Deputy Sheriff for this place.

A YOUNG lad has been making himself at home at Tom Barnes' since Monday.

THE MENTONE, (Ind.) Gazette, mailed us by Hayden R. Annette, that that town will bore for gas.

A COMPANY with \$10,000 capital has been organized in Benton Harbor for the manufacture of cider.

AN Uncle Tom Cabin Company was meandering about the north end of this county the past week.

Mrs. ELIZABETH CRAIG, of Industry, Ill., is here visiting her sister, Mrs. J. W. Nutt, who not having seen each other for over 34 years.

MISS LILLIE METZGAR, who has been living in St. Joseph the past year, is in town this week for a visit with her old friends.

OVER 1,000 of the Berrien County Republicans who voted the State ticket failed to support the party candidate for Circuit Judge at the late election.

AT the next spring election it will be in order to give the wood chuck a rest and turn the attention of bounty payers to the cat family.

WELLINGTON HALLOCK and family expect to start for Iowa next Monday, with the expectation of making that state their future home.

MARRIED.—On the 16th inst., by Elder Wm. M. Roe at his residence in this village, Mr. Frederick Apple and Miss Alice Case, both of Weesaw, Mich.

MARRIED.—At the residence of the bride's mother, by Rev. S. L. Hamilton, April 20, Ervin E. Simmons, of Hart Springs, Mich., and Miss Mirtie May Rose.

MEN competent to hold village office in Benton Harbor appear to be scarce. The citizens have found it necessary to heap five of them onto one man.

Mrs. CHARLES A. NUTT, of Hastings, Mich., is here visiting her husband's parents, Mr. and Mrs. J. W. Nutt.

Mrs. CHAS. DUGGINS fell through a trap door into the cellar of her home, Saturday evening, and was quite severely bruised.

THE election of officers of the lodge I. O. G. T. will be held next Monday evening, and all members are requested to attend.

BURTON PRETTYMAN, of Berrien Springs and John Stevens of Watervliet were granted an increase of pension.

D. C. NASI is improving his Oak street property by the erection of a piazza over the front. A model of modern architecture.

THE Niles City treasury received \$4,455 liquor tax during the past year, and the interest on her bonded debt costs \$2,630, and support of City poor \$1,088.83.

THE Palladium refers to Ht. Strong as the "Egyptian traveler and footstep plentiary." Ht. may be able to stand all of that title; his shoulders are broad.

WALTER G. STEVENS, at one time recognized as the leading horticulturist in the west, died recently near Richmond, Ind. He lived in St. Joseph, Mich., for 18 years following 1831.

THE next teacher's examination for this county will be a special at Berrien Springs, on the last Friday in April, after that there will be no more until the last Friday in August.

MR. CHARLES BLANCHLEY was in town Friday on his way to Manistee, where he has secured a situation. He will remove his family from South Bend to that city in a few weeks.

PEACH orchards are being replanted on the lake shore and there is a prospect that we may again have our old time peach crops, when peaches were as plentiful as apples.

MR. GEORGE CHURCHILL was in Vandalia Monday to assist in adjusting a small loss by the Berrien and Cass County City and Village Mutual Insurance Company.

DIED.—Mr. Joseph Rhoades, an old resident of Portage Prairie, died at the home of his nephew, Mr. Sol. Rough, in this place, Saturday, after a short sickness of pneumonia, aged 82 years.

A BENTON HARBOR man is getting a large share of notoriety throughout the State by keeping a small boy wheeling wood a whole half day and then settling with him with a nickel.

ANOTHER of Ed. Bates' children, a little girl mentioned last week as being afflicted with diphtheria, died last Thursday. Others of the family are still in a precarious condition.

MR. J. M. STETTLER has been for some time worrying his brain over a now fangled arrangement for a boat paddle. He will most likely not get rich out of it.

THE many friends of Mrs. Kendall will be delighted to know she is in Buchanan for a visit. She arrived from Chicago on the noon train, yesterday, looking quite well.

SATURDAY saw more teams in Buchanan than before in a number of weeks. Not being room on Front street for them the side streets were lined, almost equal to circus day.

THERE is a prospect that a large flouring mill will soon be erected in Watervliet. The water power and twenty acres of land has been sold to Benton Harbor parties who will improve it.

WHEAT and grass in this vicinity are suffering for want of rain, a commodity not yet seen in quantities to be of any value this spring. Farmers say that on clay ground the wheat is suffering badly from that cause.

WM. PERROTT Post G. A. R. under the instruction of the author, Mr. W. E. Steadman, is preparing the war play of the Confederate Spy, which will be given in Rough's Opera House, Friday and Saturday evenings, April 29 and 30.

THE Supervisor is on his annual round to discover the amount of property you own. An extra amount of work in gathering statistics has been added to his duties this year, which, while they will be valuable, nearly doubles the work of the assessor.

ST. JOSEPH, Mich., April 19.—Winter wheat in this section has been suffering for rain, and at present the appearances indicate two-thirds of a crop. Small fruits are looking well except late fruits, which promise three-fourths of a crop.

Mrs. CORA H. HOLTON, of Fitchburg, Mass., who has been in California during the winter, is visiting in this place on her return to Massachusetts, the guest of Mr. A. Willard and family.

MR. F. W. HOWE is the owner of three sows who claim motherhood to 45 pigs. This is beaten by a Poland China of Danby who introduced into this world the other day 21 piglets, making 49 all told within a year.

SHERIFF STERNS was in this place Saturday and levied on the rolling stock of the St. Joseph Valley railroad, on a warrant from the Auditor General for state taxes, and will sell the property next week Friday, April 29. Chance for some one to buy a few palace cars cheap.

It is said the Michigan Central car shops, now located at Michigan City, are to be removed to Niles. This will be another boom for Berrien County if true. So many stories have been told about Michigan Central improvements in prospect for Niles that it is better to await developments before building too high hopes.

DIED.—Mr. Moses D. Burke, for many years a resident of this vicinity, died at the home of his daughter, Mrs. Eli Helmick, in this place, Monday, aged 74 years. Mr. Burke was a widower and left four sons and four daughters, all grown. The latter are Mrs. H. Helmick, Mrs. Edward Barnhart of this place, Mrs. John McCombs of South Bend, Mrs. Chas. Enckerson of Clay township, Ind. The sons are Wayne Burke of this place, Lute Burke in Nebraska, Andrew Burke in Kansas and Moses Burke.

NOTICE.—There will be a special meeting of the Common Council of the village of Buchanan, at their rooms in Engine house No. 1, on Tuesday evening, April 26, for the purpose of taking into consideration the propriety of making another change in the water course or creek, on Day's Avenue, from south of Roe Street to near the Major House. All parties interested and especially tax payers are earnestly requested to be present and take part in the discussions.

Geo. CHURCHILL, President.

THE Alma Record publishes the proceedings of the Council of that place for \$32 a year. The Council in Buchanan has had an excuse for not letting the people know what they are doing, that to pay \$25 for publishing their proceedings in two papers would be extravagant with the people's money.

DIED.—At her home three and one half miles northwest of Hills Corners, April 3, at 11 o'clock a. m., Mrs. Mary A. Shoug aged 37 years. She leaves a husband, one child and other relatives to mourn her loss. She has been an invalid for nearly two years, bearing her suffering very patiently until death came to her relief.

THE Women's Branch Missionary Society of St. Joseph Conference will convene in the U. B. Church of Buchanan, April 27, 1887. There will be delegates from all parts of the Conference. Bishop N. Castle will deliver the annual address on Wednesday evening. All are invited.

THE plant of eels made by the fish commissioner appears to be doing better service than that of any other fish. Those planted in this county are quite frequently seen, and some left with the writer two years since are now known to have grown to two feet in length from little three inch wigglers.

LIST of letters remaining uncalled for in the post-office at Buchanan, Mich., for the week ending April 14; Mr. Frank Bennett, Miss Havel Clifford, Mr. James R. Graham, Mr. G. W. Howe, Miss Mary Miller, Mrs. D. Pangborn. Postal cards, Mr. Thomas Williams.

J. L. RICHARDS, P. M.

THE rape case from this place was on trial at Berrien Springs, yesterday. Osborn and McGinley were discharged, and at our last report the jury was being given the case against Howe. Harry Samson demanded a separate trial, which has not yet commenced. It looks now as if it took some pretty rough devilry to merit punishment in this county.

THE Niles Water Works Company are laying iron pipes between Niles and Barron lake and the prospects are good for a steady flow of water this summer. This valuable Niles institution has been the source of considerable annoyance by bursting pipes the last two years, and the city is to be congratulated on the prospect of permanent repairs.

THE WEATHER.—Following is our record of the temperature, as shown by our self-registering thermometer, for the week ending at 6:30 this morning:

|           | Max. | Min. | 6:30 |
|-----------|------|------|------|
| Friday    | 54   | 50   | 50   |
| Saturday  | 61   | 36   | 38   |
| Sunday    | 50   | 29   | 35   |
| Monday    | 55   | 32   | 34   |
| Tuesday   | 62   | 25   | 29   |
| Wednesday | 64   | 24   | 40   |
| Thursday  | 61   | 40   | 42   |

THE Niles Democrat makes a smart attempt to show that the Republican party is not the friend of prohibition. After a lot of usual party bombast, follows with a quotation of the vote of a number of strong precincts which show, if anything, that wherever there is a democratic majority at previous elections there is found the adverse vote on the Amendment. The Democrat is welcome to all of the glory for its party it can squeeze out of that question.

WE note that the boys are getting pretty free with their sling shots once more. Since the arrest of three of them for injury done with these nuisances, they have been scarce until the warm weather brings them out once more. Better put them away, boys. The people of this town will not stand so much nonsense from these sling shots as they have without making trouble for some of you.

LAWRENCE, Van Buren County, by taking the benefit of our limited local option law is to have no saloon hereafter. The experience with some of the small villages in this county is that they have more and worse drunkenness without than with saloons, as the drinkers now buy their liquor by the pint and quart and never know enough to quit so long as they have any left, when with the saloon they took a few drinks and stopped.

THE trustees of Buchanan school met in this office, Tuesday evening. Mr. James DeVinney, the newly appointed janitor, having become dissatisfied with the position, the place was given Mr. Joseph Dempsey. The board also closed a contract with Prof. Aleshire for next year, at \$1100, an advance of \$100 over this year's salary. All but three of the other teachers were tendered their respective positions for another year at present salaries.

A. H. POTTER, of St. Joseph, has bought the plant of the Wedge, and will start a democratic paper in Benton Harbor. Benton Harbor has for the past few years been supplied with the smuttiest lot of democratic papers ever known in the county, and it is to be hoped that Mr. Potter will make an improvement in this line.

A FIRE in Coloma early Monday morning destroyed two business buildings, one of them occupied in the lower story by R. R. Hewson's store, and in the upper story by the Court and the editor's home. The other was occupied by the Masonic lodge, the lower room being vacant. The loss is estimated at about \$5,000 partially insured. City and Village Mutual Company gets caught for about \$500.

It sounds considerably like a "chestnut," but the question of removal of the County Seat is coming up once more, with the proposition to place it at New Buffalo. We have it from one of the members who has counted noses and knows, that the question will go before the people this time, sure. The act of settling upon the point for the new County Capitol is where the break is made each time, and is likely to be again. If the move is to be made, the matter of convenience will decide the question in favor of New Buffalo, but if it is jockeyed out to the highest bidder, New Buffalo will not be the point.

As will be seen by a notice of special meeting of the Common Council in another column, by President Churchill, there is a proposition to change the course of the creek along Day's avenue, from the south side of Spencer & Barnes' works to the hotel, so that it shall run along the west instead of the east line of the lots facing the Avenue at that place, making a straighter course from the rear of the Atwood lot to the tail race below the grist mill. The planing along the Avenue is rotting out, and will have to be replaced either by new planing every few years or an arch of Mason work, which will cost a half dozen times as much as to make the new channel. It will also make a solid foundation for the sidewalk, which is now not very solid. Mr. Churchill has estimates for both the arch and the new channel, and will lay them before the meeting. The new channel will have another advantage of improving the property by taking the creek from the front to the rear, leaving the front in good shape for building.

THE from the St. Joseph department of the Palladium indicates that you should leave the revolver with your wife, who should have a good training in its use, when you leave her at home alone.

Thieves and thugs are again in the land. Wednesday night about ten o'clock one of them made an unsuccessful attempt to break into the house of Mrs. L. M. Wilkinson. No one was at home at the time except Mrs. Wilkinson and Maggie, who were awakened by a man walking around the house. A broken window was up on the first floor, but the blinds were closed. Mrs. Wilkinson opened the blinds to investigate, when the fellow rose up and demanded admittance in a very insulting manner. In the next minute Maggie slipped out of the house and called for help, which was promptly responded to by John Listie, Herman Schneider and Ed Wilson, but the intruder had fled and made his escape. About one hour later Mrs. Henry Moore, living on Wayne street, went out to get some fresh water and was met at the door by a rough looking fellow who gave her a stunning blow, laying her flat on her back. Her children gave the alarm and the fellow as before made his escape.

## Locals.

FOR SALE OR RENT. As I shall remove to Niles, May 1, I offer for SALE or RENT my DWELLING HOUSE in Buchanan. Also two desirable Building Lots opposite thereto, all at a bargain.

J. J. VAN RIPER.

penoil, salivate on our hands, and stop in the first statement of Rev. Hicks' letter, over his own signature, where he says, "Nemo has used the columns of your paper since I came to this place, to persistently attack and impugn the motives of myself and society, a large, respectful and well-behaved body of people." Now, please remember that I have not heretofore written a word in these columns referring to any member of his "society"? But, if any unpleasant story should be started, reflecting on any member of said society, would not another affidavit make it all right? With regard to that speech, the audience who listened know that report was not overdrawn. If the gentleman chooses to write over his own name, I do not object.

## The County Atlas.

Mr. Graves has put the last finishing touch to his new atlas; every change that has taken place in ownership of or of any character has been noted and it is a complete map of the county up to April 1, 1887. Some valuable statistics have been compiled, a good sketch of the early days in the county has been prepared and the location and date of the first settlement of each township with other valuable matter, that will always be of interest, has been added and the whole is now in the hands of a celebrated publisher of such works who can and will do everything necessary to make it the finest county atlas in the state.

The support so far offered has not been what Mr. Graves expected nor all that so good a map deserves. He cannot afford to bring it out unless he can be sure of a fair compensation, and as he sells it for a less price than such works command, and as things are "boom" in the business world there is no good reason why he should not receive a large number of subscribers. He is now looking around and will call on such people as should have the map and offer them a last chance. The moment he sees his way clear he will say "go ahead" and in a very short time we shall have a map of the Berrien county of today.

The hesitation about taking hold of it as the work is all it purports to be and is worth four times its cost to any resident of the county. —Berrien Springs Era.

[Berrien Springs Journal.]

Rob Gillespie has sold his farm west of town to W. J. Jones, and bought the old homestead in Berrien township.

It is said that a new democratic paper will soon be started at St. Joseph. The democrats in the entire north end of the county are without a representative sheet. The more the merrier.
