One day Irene asked him why he sent her that horrid couplet, and to her surprise he responded that it was entirely innocent of the folly. It was traced to Dick Leroy, who admitted the charge, saying that he did it just for fun, and his cousin finally forgave him, although at first she was quite angry. His palpable jealousy of her, of late, had amused her very much, but she treated him kindly, and broke the news of her betrothal to him with a calmness which she had never shown before. However, Irene was too intensely happy to retaliate.

H. W. Beecher's Sayings.

A man is a great bundle of tools. He is born into this life without the knowledge of how to use them. Education is the process of learning their uses, and dangers, and troubles are God's whistlers with which to keep them sharp.

A man who cannot get angry is like a stream that cannot overflow, that is always full. Sometimes indignation is as good as a thunder storm in summer, clearing and cooling the air.

No city-bred man has any business to expect satisfaction in a pure country life, for he has never known a genuine leisure and even a genuine rest.

A cow is the saint of the barnyard. She could be fat if she would be selfish. But she economizes beauty that she may be useful to her master.

The greatest evil in a man's life is made up of an egg and a cackle. But eagles never cackle.

A man without self-restraint is like a horse without hoofs and tumblers to pieces.

Flowers are the sweetest things that God ever made and forgot to put a soul into.

It takes longer for a man to find out man than any other creature that is made.

A man must ask leave of his stomach to be a happy man.

God does not love praise is not a full man.

This world is God's workshop for making men.

Every farm should own a good farmer.

They met by chance on Eighth Street. Both were out shopping. Each wore a new bonnet, a perfect "duck" it was.

The President—Dan, is it a fact that Gen. Duckner, of Kentucky, promised his wife she should be the mistress of the Governor's Mansion in that state for the next term?

The President—And that the Democracy of Kentucky nominated him for the Governorship in order that he shouldn't break his word to his young wife?

Dan—That is the impression that everywhere prevails.

Any movement either now or in the future to build up the third party in this state or nation will not be a movement in the interest of temperance reform.

Mr. Powderly's New Watchword. Mr. Powderly evidently despairs that anything can be accomplished through the doctrines upon which the Knights of Labor originally based their movement, and has come to the conclusion that strikes, boycotts, excursions, and attempts to interfere with business have secured nothing and will secure nothing for the laborers.

As to universal co-operation no one will make objection if it can be peacefully and lawfully carried out. This millennium, however, will not be reached at a bound. It will require a higher civilization than we have yet reached to accomplish it.

The reason why ten is a favorite number is because it is so convenient. It is obvious enough, namely, that we have ten fingers. When we begin to count we always of necessity do so with our fingers; if we have a large number of things to count, say a flock of sheep, we instinctively divide them into tens or perhaps into scores; if the number of things is very large the collection of tens are naturally grouped again by tens, and so we have hundreds.

MEMORIAL DAY will be duly observed in Buchanan, May 30. The various committees of Wm. Perrott Post are actively at work on the arrangements. The oration will be delivered in the Second St. school house grounds, by Rev. I. Wilson, at 1:30 in the afternoon.

AT the annual election of the Michigan Travelers, Protective Association, held at Grand Rapids last Saturday, Geo. W. Noble, of this place, was elected President. He was also elected a delegate to the National convention.

THE Major House, under the management of Burns Helmeck & Son, is receiving a thorough renovating, from cellar to garret, and when the painters, paper hangers, kalsomners, etc., get through a great change will be noticeable.

ONE of the changes to be made in the hotel is to put in a glass front on the Day's Avenue side of the office, and build a wide veranda at the second story suitable for public speaking and other purposes. This will be a great improvement in the building for the purpose for which it is now used.

THERE are nine G. A. R. posts in this county who will send delegates to a meeting called at Benton Harbor on the 25th inst., to take action in forming a county reunion association. We think such a reunion would be an improvement over the large societies.

A SPECIAL TRAIN was run from this place last Sunday to Dowagiac to accommodate the Masons who wished to attend the funeral of Daniel Henderson. About 25 or 30 went from this place and as many more from Niles. They report a very large attendance at the funeral.

MR. BOWMAN, who has been employed in the M. C. freight house in this place for the past ten or twelve years, has been appointed agent at Augusta, and will soon remove his family to that village. The people of Augusta will find him an agreeable gentleman to do business with.

MR. ENOS HOLMES sheared his flock last week and from one two year old ewe that was sheared April 23 last year, and May 10 this year, 350 days, weighed 24 1/2 pounds, which is a pretty good weight for a ewe fleece.

MR. ARTHUR ALLEN and family returned yesterday from California where they have been during the past winter for the benefit of his health, but which was not greatly benefited by the trip.

CHARLES W. SMITH and E. Brodoff of Battle Creek, representing the National Garment Cutter are here and will open a free instruction room for cutting and fitting all kinds of garments, in a few days. See advertisement on second page.

THE WEATHER.—Following is our record of the temperature, as shown by our self-registering thermometer, for the week ending at 6:30 this morning:

Table with 2 columns: Day, Temperature. Friday: 90 58 60; Saturday: 95 62 65; Sunday: 90 58 60; Monday: 86 55 63; Tuesday: 88 60 66; Wednesday: 67 42 47; Thursday: 82 45 63.

SOME one with evil intent has been throwing bits of poisoned meat about the premises of Charles Simmons and W. B. Croxon, on Detroit street, and their dogs have passed to the majority. Emily Croxon thinks it a very mean caper to poison her dog, which was about the size of a three months old kitten and about as harmful.

THE ARGUS, the new Democratic paper at the mouth of the river, is published at both St. Joseph and Benton Harbor. At least that is what the date line says. It is a neat five column quarto, and starts off with a fair local advertising patronage. We wish it success.

JUST 12 persons apply for every house that is offered to rent at Benton Harbor. A count says so.—Kalamazoo Telegraph.

WE had a house to rent in this place, a few weeks since, and received no less than forty applications for it. It is probably unnecessary to state that we do not own the house—only acting as agent.

WE find the following complimentary notice of a former Berrien county young man in the San Bernardino (Cal.) Times: "Guy E. Drew, nephew to H. L. Drew, president of the Farmers' Exchange bank, is one of the finest accountants in the city. He says very little while at work, but he keeps up a thinking that will some day bring him to the front in the business world."

AMONG the advertisements of numerous real estate firms in Scott City, Kansas, we notice one in which Cash. Van Riper, is a partner. If all the real estate firms in that county can make money, some poor cusses must be losing it, but Cash. won't be on the losing side.

A MAN was here last week to get finishers to go to Michigan City, but succeeded in getting only one. The fact is there is work enough here for all our mechanics, and the supply is not adequate to the demand. Probably fifty have secured work in our factories this spring who came from other places, and still the cry is "we want more men."

CHILDREN'S DAY.—Saturday, May 28, will be Children's Day in Buchanan Grange No. 40, when a good time is anticipated. All patrons are invited to attend and bring their children, and invite their neighbors to do likewise. A good program will be provided and exercises begun at one o'clock P. M. There will also be an ice cream festival in the evening in Grange hall.

LIST of letters remaining uncalled for in the post-office at Buchanan, Mich., for the week ending May 19: E. C. Delsch, Mr. J. F. Fox, Mr. Frank Loper, Mrs. Julia Smith, Lewis Whitehead. Postal Card—William Delker.

A FEW weeks since there were received at this post-office a number of copies of papers from Chicago, called the Farm Journal and Farm Album, making such large offers of prizes for subscriptions that any ordinary smart person must know no reliable publisher could fulfill. The swindlers, T. S. Gardner and his wife, have come to grief in Chicago for using the mails for fraudulent purposes. We wonder how many "suckers" they caught in this vicinity.

LEARNED SOMETHING.—Mr. A. J. Carothers put a dozen or fifteen of his finest five year old carp into a cement basin for spawning, a few days since. He understood that they required a lot of boughs of trees to work among, and soft maple being near at hand he gave them a free allowance. Not long afterward he passed that way and discovered five pets floating about in the poisoned water, white sides up. He made haste to secure his seine and save those not dead. One of those killed was twenty-nine inches long, eight inches wide and was valued by him at \$150. While the lesson has been a dear one he now knows better than to put soft maple boughs into live.

THREE young fellows "held up" another, last Saturday night, and relieved him of what money he had in his pocket, but as the victim will not prosecute, it is supposed all were under the influence of "triangle leg". The same three tried to gain an entrance into the Chinese laundry, and falling to do this broke a light of glass. The "heaven Chinese" explains the reason of his not using his revolver by saying that the "Spingie bloke, so gun no shloote".

BUCK.—Notwithstanding the fact that the Buchanan Manufacturing Co. have added a large number of men to their working force, we learn they are far behind their orders. They run their shops 11 1/2 hours per day. Spencer & Barnes and Black & Willard are also behind their orders, and have difficulty in obtaining sufficient mechanics to do their work. There is no fuss about it, but Buchanan is having a boom, just the same.

THE B. C. Y. P. P. A., which means Berrien County Young People's Union Association is looking for the Berrien County town that wants their picnic badly enough to put up \$200 for it. Berrien Springs last year expressed a feeling of being tired of repeated demands and did not want more of it, so the association is now on the market at that price. Who bids?

SATURDAY'S issue of the Niles Daily Star, the paper that thought Benton Harbor needed a rival to represent its "true business interests," contains thirty-one separate notices advertising saloons, scattered through three columns of local reading matter. The Star is a diversion to Niles.—Benton Harbor Palladium.

HOW could you talk so? You are evidently not acquainted with that city. The saloon business is the only one there making money enough to afford to advertise, and how could the paper live without advertisements.

DID it ever occur to you just the situation of the farmers who are squealing because they have been caught on the Bohemian oats swindle? They bought a number of bushels of the oats at a price they knew to be a swindle on them, but at the same time enter into a partnership with a stranger to help swindle their neighbors. The intent to do fraud is no better than the act itself, and those men who have bought Bohemian oats are in fact on the par with the men of whom they bought. A good way out of it is to pay their little obligation and keep mum.

F. P. THRESHER and MR. McCORD, of Benton Harbor, were in this place yesterday. Their business was to examine the Burlington heating furnace, with a view to having the new Benton hotel heated by it, and we mistrust with another view, to locating the factory in Benton Harbor. Here is an institution that wants to locate here; prefers Buchanan to any other town; has the making of a large establishment of substantial worth to a town, yet it is most likely to settle with some of our wide awake neighbors, and Buchanan making no effort whatever to secure it.

THE FRAUD MOVED.—Publishers in this vicinity will remember receiving a very inviting offer of an advertisement from one C. A. Potter of Springfield, Massachusetts, and accompanied by a check on the Springfield bank, but which were not collectable, there being no funds. These checks upon being sent for collection were invariably protested at an expense of \$1.75 in each case and making good business for the notary. This fraud has just moved to Bangor, Maine, and newspapers will most likely hear from him from that quarter before long. Pass him around.

FIRE.—At about mid-night last night, Mr. Wm. R. Rough's house, on Portage street, occupied during the past two years by Burns Helmeck, was discovered to be on fire, and by the time water could be procured the fire had attained such headway that nothing of value could be saved. Mr. Helmeck had moved out two dry loads of goods and a few small articles that could be carried by hand, the bulk of his goods remaining in the house and being destroyed. There was considerable delay in getting up steam. Mr. Rough estimates his loss at \$700, and has insurance in the Washington, with John C. Dick's agency, of \$500. Mr. Helmeck calls his loss about \$250, and no insurance. The origin of the fire is a mystery, as no one is known to have been about the premises. It was evidently a case of incendiarism or spontaneous combustion.

THE Old Settlers. The thirtieth annual picnic of the Pioneers' Association of Berrien County will be held at Berrien Springs, on Wednesday, June 8, and as the committees have taken more pains than usual to perfect the arrangements, a good meeting may be expected. The chief orator selected are Hon. Vincent P. Kirk, of Indiana, and Mrs. Perry Mays, of Battle Creek. Five minute speeches are expected from Col. L. M. Ward, Hon. L. C. Fyfe, H. C. Sherman, Prof. O. E. Aleshire, Hon. Wm. Chamberlain, Col. D. Bacon, Geo. E. Lambert, Hon. R. D. Dix, Thos. O'Hara, F. J. West, A. L. Drew, G. W. Bridgman, Norman Nims, and others. The usual sports, such as greased pig, sack races, etc., will be indulged in, for the amusement of the young folks, the old folks, of course, taking no stock in such things.

One day last week one of our business men sold a house he wanted moved from the lot on which it stood, for \$275, very few, if any, others than the purchaser knowing it was for sale. Had the owner of the building invested one dollar in printers' ink by advertising he could have sold the house inside of twenty-four hours for one or two hundred dollars more than he received, as the purchaser was offered \$125 for his bargain. Moral:—If you have anything to sell advertise.—Niles Republican.

You will find the woods full of just such "business men," on whom your moral will have no effect. They persist in standing in their own light.

Mrs. Vail, of Dalley, Cass county, suffering from dropsy, was recently relieved of 79 pounds of fluid, and though 81 years old she underwent the operation successfully and will probably live.

EDNA CHILZELLE BRYANT, daughter of Tunis and Maggie Bryant, was born September 13, 1855, in Galien, Berrien county, Mich., and died May 15, 1887, aged 1 year, 8 months and 2 days.

Dear friends, I know your home will be lonely. Since your daughter has died; To see her chair an empty crib, And her toys all laid aside. She was a sweet and lovely child, To you a willing help and friend. But Jesus said, "Suffer them to come unto me, For of such is the kingdom of Heaven."

You can fold the little dresses And lay them away with care; She has gone to that heavenly mansion, And there a white robe will wear. So, dear parents and friends, remember, That your loss is only her gain; She has passed the ordeal of death, And will no more suffer pain. Jesus cares for the loved one That He has taken from your home; 'Tis only another life in Heaven, To keep you near the throne.

You have this thought to comfort you: Though you cannot bring her back again, That you can go where she has gone, If you are faithful to the end. So we will lay her little form away, To-day, in the silent tomb, Waiting the resurrection morn, When we will all be gathered home. MRS. H. C. INGLES.

[Berrien Springs Journal.] Roscoe Dix, Jr. caught a fine silver eel, weighing six pounds, in the river last week. Kephart Bros. have bought the brick for their new block and work thereon will commence at an early date. We are told there is a young man in Balaubridge, whose eyes are like an owl's. He can see but little in daylight, scarcely see at all in twilight, and at night his vision is perfect. He would be a success either as a burglar or a night watchman.

[St. Joseph Republican.] The J. H. Johnson discharged 50,000 feet of lumber at Graham's dock Thursday. The cargo was for John Spaulding of Berrien Springs, and will be removed there by the City of St. Joseph Tuesday night with her first cargo of ore from Escanaba. She brought 500 tons. Thursday noon she started on her second cargo, and will average 1000 tons. It will be but a few years before St. Joseph will take her place as the foremost peach market in Michigan. The yellow fever epidemic, all traces of bearing age give promise of an abundant crop this year. Over a hundred thousand have been set in this vicinity this spring.

Some years ago gold was discovered in the West as rich as quite an excitement was created. People prospected and found the color in every soil full washed out, but it was not found in paying quantities. We learn that the gold is still there, and is near an old time mill across Deatur swamp is a little rill that empties at the base of a hill and sinks into the earth. On this rill, a few feet below the surface of the earth, is bed rock, and there is the place to strike up and find gold. A combination has been formed by the threshers of Cass county. They will charge hereafter two cents a bushel for oats and three cents for wheat. A party of \$20 is attached to any member of the union who should cut under these prices. The following officers were elected: Harmon DeLong, President; Harry Jones, Secretary; Eldridge Jewell, Treasurer. Their next meeting will be held at Cassopolis on the 21st inst. The price of clover hulling will probably be fixed at \$1.
