BY ORDER OF COM.

THE town of Hurley, Wisconsin, the mining town that had such an attraction for Buchanan workmen last year, was badly scorched by fire, Monday. As Hurley bears the reputation of being one of the toughest towns in Wisconsin, the cleaning up may be beneficial to it.

OUR Marshal and Common Council are having a joyful time. The Council complains that they can get nothing done because the Marshal will not do as they order. On the other hand he claims to be not allowed to do anything. The Council has a remedy that will be effective, by resigning him and appointing someone who will attend to their business. The citizens are all ready for some change from the present arrangements, that can hardly fail to be an improvement. The plan of having nothing attended to is making people somewhat fatigued.

THE common council last Friday evening ordered the gutter on the south side of Front street west from Detroit street, cleaned. Two members of the common council have, informed the Editor of the RECORD that this was done to get him still, as it is at the front of his residence. This is a good commencement toward that end, but we are going to suggest that the balance of the gutters on both sides of Front street west of West street need cleaning as badly as that does, also that there are several miles more of gutters about various parts of town that are in the same predicament. They also ordered a new walk built at the front of the President's property, on Front street at the foot of Day's Avenue. Among other things done was to issue an order that all places of business shall be closed on Sundays, and the first thing the President did Sunday morning was to find a grocer, ask him to open his store and bought an armful of groceries. Considering the whole, the marshal included, the combination is a good one and the village of Buchanan in a predicament that is surely delightful.

AN individual who shall be nameless, but who hails from the prohibition town of Buchanan, afforded some considerable amusement to the people on Main street, one evening last week. He was in one of our saloons when his better half had procured a rig and followed him here home in a right and urged him to go home. He after some considerable monkeying consented to be led off the scene and we trust reached home in safety.—Niles Herald.

DON'T be afraid to spit out the names. If we have any individuals who have to go to Niles to get drunk we want to know 'em.

O. L. SPAULDING, the man who is manipulating the new and very latest railroad project, has been here the past few days inquiring into the prospective amount of business the new railroad may depend upon getting from this place, and incidentally remarks that the company will expect Buchanan to put up \$20,000 in shape of a cash bonus, to be paid as soon as the road is completed in good order, and the trains running from South Bend to St. Joseph. The business will be easier to obtain than the \$20,000, we fear. Buchanan is somewhat peculiarly situated in the railroad business. Perhaps not more so than the other towns that are interested in this same project. All of her citizens who have been able to contribute to the interests they have had in the narrow gauge road until the pond is dry, and the town hard up. St. Joseph, on the other hand, has a bonded indebtedness of about \$100,000 paid for a railroad, but is getting promises of the quota toward this enterprise with wonderful alacrity. Berrien Springs has paid for three or four railroads, but appears willing to come to the front for this as soon as they may be convinced that they shall get what they pay for, and have that in good shape. The Era fully describes their situation by stating that it is a question now as to whether that town shall continue to be a spot on the county map or not.

A burglar attempted an entrance into the residence of T. Hicks, on south 3d street at about 11 o'clock this morning. All the windows to the house had been tried, and the window on the south-west part of dwelling, or dining-room window, and the door to Hicks' bed-room, were being raised, having been pried up with a stick, when Miss Belle Hicks, with revolver in hand, fired two shots at the intruder, but evidently without effect. Miss Hicks proved quite brave in attempting to put an end to a midnight intruder.—Niles Star, Monday.

AMONG the graduates at the university this year are Charles T. Dix, Civil Engineer, and K. Gertrude Stevens, Bachelor of Science, both of Niles. Of the 100 graduates all but thirty-four are citizens of Michigan, nineteen are ladies. There was a much larger class from the law department, including Wm. A. Barnes and John C. Coveny of this place and Edward J. Seefeld of Benton Harbor.

SINCE the marshal has demonstrated and acknowledged his inability to stop the firing of fire crackers about the streets and alleys, it stands properly holders well to keep their alleys cleared of light inflammable matter, such as hay and other packing. There are several places about town where a fire cracker in the hands of the small boy, may do considerable damage, and in the absence of one means of protection it is well for property owners to avail themselves of the only other one at hand.

THE big snake which ravaged Berrien county for five years has been seen in Portage, Kalamazoo county. It was 12 feet long and 15 inches in circumference (or diameter, it doesn't matter which). It appears to be about six feet shorter than it used to be, but it still runs faster than a man can—though the man is always running the other way. Portage is a good place to start a loose option movement.—Detroit Tribune.

WE are awfully glad to get rid of the monster. He has nestled in the boots of Berrien Countyites long enough.

WE have a communication from "One of the Boys". Which one, please?

A LETTER was received here to-day announcing that Mr. Samuel Humes, late proprietor of the Major House, had a stroke of paralysis and is in a critical condition.

DIED.—Mrs. Dr. Royce, of Lake township, who has been suffering several months of paralysis, died at their home last evening. The funeral services will be held tomorrow, Friday, at five o'clock p. m. at her late residence.

FRANK LISTER hung his coat up in a room at his stable with \$15 in the pocket, and in a short time returned to find the money gone. As he saw no one else about the place at the time, he had Frank Mansfield arrested this morning charging him with taking the money.

LYNN JONES, a Benton Harbor lad of only 15 years, has constructed a canoe twelve feet long with covered ends, mast and sail, which is a marvel of strength and symmetry considering the youth of the builder. He had in instructions save, less than in a book and did the work unaided, his own relatives being unaware of his work until it was complete. The canoe floats gracefully and swiftly and has been much admired.—Detroit Tribune.

Anthony Dratz planted a quarter of an acre a year ago with strawberries of the Coxcomb variety, and this season they yielded him over one hundred crates.... Fred Thompson and George McKay, while putting up rafters on a new barn on the farm of Mr. Burdickoff near Hazen, lost their balance and fell a distance of thirty feet. Fortunately no bones were broken, although they received bad bruises.

THE ship canal to Paw Paw lake is now assured. Mr. McCord and Mr. Blackmer are very quiet about their operations in this matter, but they keep moving ahead all the time. Right of way is being secured as fast as possible. The capital to carry the project has been successfully pledged, and the final completion of the work is only a matter of time.

MR. D. H. Crane, of this city, has the greatest and finest collection of relics of the mound builders ever seen. There are 2,800 specimens. He has explored 408 mounds by individual enterprise in various states.... As Prosecutors Attorney William H. Hagan was returning home from Sawyer to Bridgman last Monday evening, after a rain, when about a mile north, his horse suddenly took fright, leaped about twenty feet from the road, and it was the last he knew for some time. On recovery, he saw his five-year-old son about a rod from him, who was in the buggy, trying to get up. He went to him and picked him up and found he was badly injured on the head, not, however, beyond recovery. Mr. Bridgman found he was injured in the face, back and side, but can get around now. The harness is badly torn and his buggy is kindling wood. The horse ran about a mile and a half, when he was caught by Rev. Mr. Dannel, who followed back with a team and found Mr. Bridgman and came to Niles yesterday. How he could escape closely secured in a top buggy so well is mysterious.

A child of Joel Hartline, who lives in the eastern part of Buchanan township, managed to secure possession of a bottle of bug poison last Friday and drank enough to cause its death in a short time.... Mr. Graves has completed a preliminary survey of a line between South Bend and St. Joseph on the shortest line. He is now making a profile and estimates of the cost of a railroad on that line, as basis from which to work. There will be no grade north of Buchanan to exceed 40 feet to the mile.... A little son, four years old, of Mr. Rufus Feather of this township met his death Monday in a singular manner. He was playing around the premises and his mother missed him and looked for him, and at last found him. There she found him where he had fallen through between two planks in a bridge that leads to the barn door and hung by the head, his neck being broken. A faint pulsation was still apparent but life was extinct.

MISS ANNA DELLINGER, a waiter at the A. J. Davis restaurant, thoughtlessly blew out the gas, that was turned on full blast, in the dining-room. The sleeping apartments of the Davis family are overhead of the dining-room, but nothing wrong was discovered until Mrs. Davis opened the restaurant in the morning, when she was nearly choked upon entering with the smell of gas, but she quickly turned it off and then went outside for fresh air. It was a narrow escape.—Niles Star.
