A. P. MOORE.

THERE are a number of men working in this place but whose families are elsewhere, because they cannot procure houses to live in. If there be a hint that any house is soon to be vacated there will be a dozen applicants for it. There is need for more houses in Buchanan before there can be expected any very great growth in the population of the town.

IT is now reported that Niles saloon-keepers propose to pay no attention to the new dispensation in May. The one who made the report doubtless did not stop to consider that the Prosecuting Attorney lives in Niles. Do you reckon that he will permit such a thing?

CONSIDERABLE amusement has been caused by the refusal of Mr. Carothers to sell any more liquors to those who are known to have voted "dry." He believes that practice and precept should go together, at least in this case. Another thing is noticeable, that there were a good number busy getting drunk during the last part of last week, either for the novelty of the thing or to make good time before May 1.

MARRIAGE LICENSES.

299. Charles S. Watkins, Benton.
300. Minnie S. Roberts,
301. Clair Murphy, Berrien.
302. May Sawyer,
303. Almon Wright, Niles.
304. Frances M. Snyder, Niles.
305. Clarence Clark, Buchanan.
306. Augusta Stevens,
307. Samuel Stringer, of Benton Harbor.
308. Mary Swiger, of St. Joseph.

THERE appears to be a very prevalent idea that this town would live just as long and perhaps be as happy if the office of Marshal be dispensed with entirely, and save his salary. There are four constables elected each year to act as peace-makers. The treasurer will collect taxes for the percentage. This leaves the street work to be provided for, which could be done without much difficulty. It looks like a pretty good scheme for saving two or three hundred dollars, but if we mistake not, we have heard some comment about having one man act as collector and dispenser of public funds, with no one to account to but himself. There are plenty of honest men who would not accept such an office lest he be dubbed a thief whether he stole or not.

ONE of our prominent manufacturers who keeps a horse and consequently buys, occasionally, a load of hay, thinks he has been thoroughly imposed upon. After playing for one load which he thought pretty heavy for its size, he found a red elm binding pole on the ground by the barn that would weigh about a quarter of a ton which he had paid for at \$10 per ton. He has two such poles and a pile of stone bought in that way. There are a good many ways of stealing, but this one is new to our fellow-citizen.

NILES can secure another large manufactory, we believe if an effort were made in the right direction, it must be made promptly, though. The concern is at present at Albion, Mich., under the name of the Gale Flow company, and they have determined to remove to a larger field as the following resolutions will show.—Niles Mirror.

This item has appeared in nearly every local paper in the state with the slight change of name of place. We shall amend by inserting Buchanan in the place of Niles where it appears. Where is our Improvement Association that they do not move on Albion by the right flank at once?

R. M. ASHLEY has sold his bakery and restaurant in this village to Harper Bros., of Buchanan, who take possession to-day. These young gentlemen were engaged in the same business at Three Oaks, until a few weeks since, and we are pleased to learn that they have determined to locate among us.—Cassopolis Vigilant.

MRS. JACOB CRIFE died suddenly this morning about 7:30 o'clock, at the family home in Clay township, north of the city. She was seized with a convulsion on Sunday evening, and going into a trance state remained in that condition until death. Her age was fifty-two years. She leaves a husband, one son and two daughters. The funeral takes place Thursday, at 11 o'clock in the forenoon, at Truitt's chapel, east of Bertrand, Elder Worst officiating.—South Bend Tribune, 6th.

Mrs. Crife was a sister of Mrs. Grover, of this place.

GALLEN ITEMS.

Six members of the Galien school attended the regular examination at Berrien Springs.

Mrs. Cyrus Thurston died quite suddenly last week. Although in poor health for a long time, she was confined to her bed but three or four days. The family have lived in Galien for many years, and have a wide circle of acquaintances and many friends. The funeral was from the house, and the address by Rev. Columbus Scott.

News comes from Kansas of the sudden death of David Otto, whose family went to him a few weeks since. Malcom Smith and Mrs. Saylor have gone to Cass county for a few weeks' visit.

J. C. Vantilburg and wife celebrated the fifteenth anniversary of their wedding, Feb. 29. A house filled with friends, a pleasant evening spent, and the usual number of presents made this a time to be remembered.

Bird Otto started for Iowa this week.

The majority are well pleased with the dry result of last week's election. Considerable work was done on the wet side, but the mule team made one mistake when they brought in that cidermaker who voted dry. NEMO.

THREE OAKS ITEMS.

March 1, 1888.
Wheat is being badly injured in the Galien woods, especially on heavy soils. The clover plant is suffering from the same cause, "heaving out."

Our farmers hold most of last year's wheat crop in their bins, awaiting prospects of the coming harvest. Stock is coming through the winter in usual good order, but our farmers will have little or nothing left for market, hay and other feed having been consumed in order to keep stock through to prospective pastures.

There is talk of some heavy real estate transactions, in the near future, for our neighboring township, Chikaming. It is rumored that some wealthy Hollanders, from near Pullman, Cook county, Ill., are contemplating the purchase of two or more of the best farms in that town. The Holland people make good citizens and we welcome them to our neighborhood.

As a general rule one Hollander is worth to a community about two American born of any nationality. They are temperate, frugal and industrious people, such as will improve almost any neighborhood in our country. We say to these people "come" and we will provide room for you, and allow you to enjoy our country with us.

Brother Kinny, of Galien, had a sheep killed by dogs and had it appraised by a Galien justice, who estimated its worth at \$7.00. Why is it that Galien is so behind in improved stock? When one of our citizens has the misfortune to have sheep killed by dogs our justice of the peace apprise them at \$100 each, provided however the sheep belong to a good family.

Mrs. A. L. Drew and her son Guy, of Chikaming, have not put in their appearance here yet. Al, says the last he heard from them they were at Hotel Del Coronado, Coronado, Calif. They started from there for a

run down the coast of Lower California on an ocean steamer. Al intimates that such extravagance is not in harmony with the financial condition of the Chikaming farmers, but as the expenses are all born by Guy, it is to be presumed his "pile" will be somewhat smaller when he gets home. We presume Mrs. Drew will establish Baptist Sunday schools at every port.

St. Joseph Republican.

As soon as the weather will permit the work of securing the right of way for the Indiana and Lake Michigan railroad will commence. As we have before stated in these columns this road is no longer in the realm of possibilities, but is as certain as anything of that nature can be, and almost every week brings some new proof that the intention of the company is to commence operations in dead earnest as soon as spring opens.

The contractor has agreed to have the road ready for the first train to run in four months after the first shovel full of dirt is moved. It is generally understood that this road is a branch of the great Vandalliasystem, hence those backing it have no lack for means to push the project through rapidly when everything is in readiness. This fact makes it all the more important to St. Joseph as a water outlet to a great railway system like the Vandallia is a matter of no small consequence.

W. ATLEE BURPEE & Co., the well-known and extensive Seed Growers of Philadelphia, Pa., have now ready for mailing, gratis, to all interested in gardening, Burpee's Farm Annual for 1888. It is a handsome book of 128 pages, with hundreds of engravings, all the more important to St. Joseph as a water outlet to a great railway system like the Vandallia is a matter of no small consequence.

An Isabella county woman was married five hours after getting a decree of divorce.

Indiana and Lake Michigan Railway Company.

Notice is hereby given that the first regular annual meeting of the stockholders of the Indiana and Lake Michigan Railway Company will be held on Tuesday, the 10th day of April, 1888, at 10 o'clock P. M., at the Major House in the village of Buchanan, County of Berrien, and State of Michigan.
