THE Redden Bros. packed this season's purchase of wool Saturday and discovered that they had 31,785 1/2 pounds. Treat Bros. bought 20,064 pounds, or a total of 52,452 1/2 pounds for the season. There may be a few small lots still to come in.

THE RECORD is in receipt of an elegantly arranged ticket for the Detroit Driving Club meeting of July 25, 26, 27 and 28. It is a long way to Detroit, and as the continued damp weather has made the walking quite bad, there is serious doubt of our being able to get there.

THE Woman's Relief Corps has appointed a committee who will call upon our people for contributions to erect a soldier's monument at Oak Ridge cemetery, or some other suitable place. They want \$1,000. So prepare to contribute when they call upon you.

WHEAT harvest is in full blast this week. Generally the crop is much heavier than was anticipated in the spring. Occasionally a field on clay soil was badly headed out by the spring weather and amounts to but little, but these cases are not very plenty.

THERE is an open war among the Chicago daily papers, and they are all trying to see which can cut its own throat the deepest. Patrons are getting the papers at one and two cents each. They would buy just as many at twice the money, and the papers be making instead of losing.

THE Buchanan Manufacturing Company's shops have been closed the past week for the purpose of invoicing but are now running once more, full blast. Mr. W. S. Wells has just returned from New York in the Company's interest, bringing with him some good "phat" orders.

E. MORGAN & Co's store has been closed this week to invoice stock. It has not yet been decided what disposition will be made of the stock. There is talk of a change of ownership, also that the business may be continued by Mr. Frank Masad, who is a part owner with the Morgan estate.

SATURDAY AFTERNOON a lady passing along the sidewalk at the west side of Rough's block, was surprised to receive a gob of tobacco on her dress, covering one sleeve almost completely. It came from an office window in the second story. Chewing tobacco is certainly filthy enough of itself, without throwing the stuff about quite so carelessly.

MARRIAGE LICENSES. Geo. Gallinger, Weasaw. Sadie Allison. Francis Worth, Pipestone. Harriet Sides.

Jennie Hollister, Benton Harbor. Robert Beavell, Michigan City, Ind. Kate Swindell, Buchanan.

Alva Williams, Pipestone. Elmore Collins. John Thomas, Sodus.

SINCE the closing of the saloon no man has had a better business in this town than the man who hauls beer from Niles. He comes here three times a week with all his 3,500 pound team can draw each time. The difference between the present and former method is that instead of the man of the house going to the saloon and filling up, it is now taken to the house and the whole family go happy.

THE case against Elizabeth Vanderhoof, who was sent to the penitentiary on a life sentence for murdering her husband in Galien, has been heard by the Supreme Court and she granted a new trial. She has served about five years in Detroit House of Correction for her supposed crime, and there is some doubt of the case being heard from again.

A committee of the Woman's Christian Temperance Union called upon Charley High, last week, and notified him that unless Jacob Imhoff withdrew from the liquor bond, he must move out of Imhoff's building, or lose the trade of the union. We do not pretend to be thoroughly posted, but we have heard some one say that there is something about the Christian religion about "doing unto others as ye would that others would do unto you". Charley High is in no way to blame for the action of Jake Imhoff.

A HEAVY storm passed within sight and hearing of this place to the north and east, Friday night, that did a considerable amount of damage. The heavy rain in the vicinity of Cassopole caused two dams in the Dowagiac creek to go down stream. In Edwardsburg there was a first-class cyclone, completely demolishing a dozen buildings, and badly injuring as many more.

BASE BALL—The boys who play ball are endeavoring to keep up a club here, and expect to establish grounds upon Mansfield's addition, in the north part of town, and are asking assistance to meet expenses. This appears to be about the only outlook for amusements during the heated term, and if the boys are willing to warm themselves up with a game of ball occasionally, when the thermometer gets up to 150 in the shade, they should be encouraged in the undertaking.

WE expect next week to publish a full list of the patrons of the beer wagon. In case we succeed in procuring a complete list all who take more than one case will have their names in capitals. Those who have not checked enough to have the beer left at their houses but have it unloaded on Niles hill so they can get it after dark may have special mention.

Mrs. GEO. RICHARDS was the victim of a very pleasant surprise Tuesday evening. A party of about twenty-five members of the Christian church called at her home unceremoniously at 8:30 o'clock, and before Clara had recovered from the surprise of seeing so many unexpected callers Rev. Wm. M. Roe, after a few appropriate words, presented her with a handsome gold watch and chain, from the members of the Christian church.

A Buchanan friend, in conversation with a business man here yesterday, said: "Charley, don't you think it is a funny thing that the tariff should be taken off from wool, and put on woolen goods?" Charley smiled. The Buchanan man didn't appear to know what he was talking about.—Niles Star.

Queer, that, when the Mills bill places wool on the free list and adds ten per cent to the duty on ready-made clothing and increases the tariff on the cheaper grades of cloths, while it decreases that on high priced cloths!

THE inconvenience of reaching the county seat is being felt more keenly this year than usual. Being a campaign year, more than the usual number of people will visit the capitol for business of various kinds. The county seat should be within reach, and as all prospect for any railroad being built to Berrien Springs has vanished, we move that the county seat be moved to Buchanan. Even Perry Fox has not been able to revive the long tried narrow gauge railroad.

Alert Hose Co. No. 1, at a regular meeting held July 3, adopted the following resolutions: WHEREAS, It has pleased God in his providence to suddenly remove from us Edwin Morgan, a member of the fire department to which this company belongs; and

WHEREAS, It has a high regard for him both as a member of the fire department and as a private citizen, esteeming him for his upright, integrity and personal worth; therefore be it

Resolved, That we extend our cordial sympathy to his wife and child, and that a copy of these resolutions be printed in the village papers.

A most horrible accident occurred on the Boyle farm, six miles northwest of this place, Saturday afternoon, by which a little four-year-old daughter of Mr. and Mrs. Wm. Hanover lost her life. The little one went to the field to where her brother was driving the binder and wanted to ride. He sent her home and went on with his work, supposing she had gone, but when he came around to that point again he was horrified to find his little sister upon the table of the machine. She had hidden in the standing grain and the sickle struck her, cutting one leg off and the other nearly so, at a point near the hips. He picked her up and started for the house, but she died from loss of blood before he could reach home.

ONE prominent Democrat of this place insists that it is not because of any buldozing that the citizens of the great state of Georgia, which has ten representatives in Congress can muster only 27,520 voters in the whole state for Congressmen, when Michigan gets within 500 of that number from her least district, the Eleventh. His way of accounting for it is that they don't care to vote, and so don't go to the polls. It is certainly a queer phase of Southern life that takes away all interest in voting. The same man will doubtless account for there being none but Democratic candidates in the field, by saying there are no Republicans in Georgia, instead of confessing that they have been robbed of their rights in the ballot box, and seeing no signs of redemption from the frauds, see no use in putting candidates in the field.

THE regular monthly meeting of the directors of the Buchanan Building, Loan and Saving Association will be held in Sons of Veterans' hall, Buchanan, Tuesday evening, July 17, at 7 1/2 o'clock. At this meeting the first loan of the Association will be made. The meeting is public to the stockholders and they are invited to attend. The Secretary will be in his office, in Rough's block, during Monday and until 9 o'clock that evening, July 14, for the purpose of receiving the installments on stock. Any one desiring to pay his installments prior that time, may call at Secretary's office and do so.

BUCHANAN, July 10, 1888. JOHN C. DICK, Sec.

When Harrison Said It. A democratic exchange that seeks to wield a powerful influence among the workmen, says that "Ben Harrison once raised a company of militiamen for the purpose of putting down a strike with buckshot and bullets." Now we should like to know the exact date when Harrison did this. We think that it was somewhere between 1860 and 1865. We happen to know that he was actively engaged in putting down a strike (a democratic strike) along about this time. We hope to hear all the particulars.—Chicago News.

THREE OAKS ITEMS.

July 10, 1888.

The "glorious" 4th has been here, and for some days great chunks of native eloquence could be heard floating around the Town Hall, where it was set free on that day. Everything passed off without an accident to either person or property, strange to say, however, there were a few in town who could not celebrate in an acceptable manner without filling up with "old tangle legs".

The great need of our village, at the present time, is a public park. Why do not our city fathers take the matter in hand, and thus immortalize themselves? Such an improvement to our town would keep pace with our energetic Street Commissioner, who is doing very much for us in his department. Such an enterprise would aid civilization, and with little expense. We would suggest to the editor of the Sun to "limber up" and at them on this subject. When Wm. K. straightens up and looks down on the troubled city rulers they melt and acquiesce.

By the way, the Three Oaks Sun proprietor now wears an plug hat in honor of Harrison's nomination, and it looks like a bee hive on a bean pole. This owing to the way the editor is constructed. Seated at the base, but built after the city plan—many stories high, and full at the top.

We had our annual school meeting here last night, and voted \$2,200 for school purposes in this district, a part of which is to be invested in a furnace for warming the central building. So you see we are truly putting on city airs. Wm. Chamberlain and L. Fields were re-elected trustees for three years. Meeting harmonious, and all voters feeling rich, and ready to raise any amount suggested.

The action of the Board of Supervisors, at its late session, is being discussed by some of our intelligent tax-payers. Just why the chairman of that body consented to place on the committee of assessments anybody west of the St. Joseph river cannot be fully understood. We feel like offering an apology for the chairman in saying that he could not have done less. "The State of Dager", and the eastern part of Berrien county must be looked after, and for that purpose the Democratic members of the Board sold themselves, so we are informed. Now "What shall the harvest be?"

A young man named Heffner, employed in Chicago, came over on the Fairbank last night, and took the early freight train to reach his home in Covert, intending to return at night. At the bridge he leaned from the car in such a way that his head came in contact with the dang-gale to Hippi's boat livery and he was thrown upon the roof to the livery, sustaining broken ribs and other injuries.—St. Joe Herald.

Coloma Courier.

Little Mary, the three-year-old daughter of Nelson Havens, who herself regards her assistance to her father in doing the chores about the barn as next to indispensable, while helping him to water the horse at the creek near the bridge on St. Joseph street, Wednesday afternoon, was severely kicked in the breast by the horse, by which she was thrown to the ground unconscious, the heart and lung action being suspended for some moments after she was carried to the house, a distance of some thirty rods or more, and the result of which seemed for a few moments very doubtful, but from a few effects of which she is now recovering, she has now almost wholly recovered.

Berrien Springs Journal. Henry Feffer informs us that his peach crop will be nearly twice as large as last year. Willis Woodworth was brought up to the jail Tuesday for seventy days, for stealing four fish nets at St. Joseph. Die Monday, July 2, 1888, Harry C. Nixon, son of John I. Nixon, of Lake township, of consumption. Deceased was a graduate of the Michigan Agricultural College, and was a successful teacher. The potato bug is becoming a great pest on the Lake Michigan shore—greater than ever. The shores of Lake Michigan and Grand Traverse bay are lined with the bugs which wash up with the surf. When they first reach land they are apparently dead, but a few hours of sunshine revives them and the procession starts immediately for the nearest potato patch. Fish boats coming in from the lake are frequently covered with the little pests, and where they come from is an unanswerable question, unless they float across from Wisconsin.
