THE Mirror does not see any point in the list of those who voted for Harrison in 1840 and will vote for Ben in 1888. Singleton, Joseph Leggett, David Lint, Isaac Sheaks, B. F. Terriak, A. L. Reynolds, L. McDaniel, Joseph Shear and George Dathery. THEY are again talking of moving the county seat of Berrien county. If that would move the court house would long ago have been around the world two or three times.—Detroit Journal.

THE Edison's phonograph patents have been sold to the American phonograph company which has started out upon the expectation of making the shakels after the fashion of the Bell Telephone company. They do not propose to sell any of their machines but will allow suffering humanity to use them for the modest rental of \$10 a year, or about four times the first cost of the machine. Of course that's all right. It is their machine and the people do not have to use them if they don't want to pay the rent.

THE bonds of A. J. Carothers, with Sol. Rough and Steven Earl as sureties, was accepted by the Council, at a special meeting Friday evening. The saloon was opened at 1 o'clock, Saturday afternoon, and at five there was the first street quarrel. It seems like old-times to see a crowd gathered on the sidewalk to hear the half drunken fools jaw each other. They kept it up until quite late. No arrests. The proper thing to do is to see that the liquor law is strictly enforced, if we must have a saloon. Men who are found drunk upon the street know the penalty, and should be made to feel it. Prosecutions for a second offence will send the culprit to Ionia prison for six months. There are a very few of the fellows who have been making a practice of making hoodlums of themselves, but whom the second offence charge may be brought against, and when a half-dozen or so are landed in Ionia, there will be but little drunkenness about town.

THE following from yesterday's Palladium, from St. Joseph department, begins to sound like business:
The Board of Trade met August 6, with a number of other citizens, at the Hotel office, to listen to some remarks by Mr. Carlisle, of Detroit, who has been spending a week or two in this vicinity in the interest of the Indiana and Lake Michigan railroad. Mr. Carlisle held before the meeting the necessity for St. Joseph to act upon in order to secure the road. The meeting was very enthusiastic and in the half hour devoted to it, gentlemen present subscribed \$3,000 toward the project. A committee was appointed to call upon the citizens for subscriptions in aid of the road and it is hoped that all who are able will contribute liberally.

This a matter of vital importance to St. Joseph, as the building of this road will give access to a large trade which can be reached in no other way, and will establish direct communication with the rapidly advancing southern country.

NILES Democrat.
If we may judge from the advertising columns of the city papers, there is not a single dry goods store in the city at present. In the U. S. Court at Grand Rapids, Monday, Judge Severson granted the motion for a new trial in the case of Frederick Gardner vs. the Michigan Central railroad. Gardner lost a leg in the Niles yard, and received a verdict against the road of \$4,500. The sharper says: "Oh, we'll keep the note," and writes across the face: "Not transferable." In a short time it is found in the hands of another party, "e" added to the "not," which makes it read: "Note transferable." The scheme hasn't reached Michigan yet, but is headed this way.—Detroit Journal.

Morse, is a delightful story, and is beautifully illustrated by A. B. Deane. Besides much other interesting matter for old and young.
