Electricity is Life. Woodward Electric Belt. Little Drug Store Around the Corner. MAIN STREET. 25-33.

THE WONDERFUL LUBURG CHAIR. It's the best made chair in the world. It's the best made chair in the world.

CHAMPION CREAMERY. The BEST CREAMERY in the world. It's the best made creamery in the world.

Job Printing. Over 25 years' experience in all kinds of printing. We will do anything you want to print.

THE WONDERFUL LUBURG CHAIR. It's the best made chair in the world. It's the best made chair in the world.

CHAMPION CREAMERY. The BEST CREAMERY in the world. It's the best made creamery in the world.

THE SLEAZE SHE LUNG. She was a Boston maid of high degree, With eyes that shone like incandescence lights, And just such pointing lips as seem to us, The king's minion.

Curiosities of Coal. Does any one except a practical chemist ever stop to think of all the substances which we get from pit coal and the almost inconceivable variety of their uses? Everybody is familiar with those of them that are in daily use, such as gas illuminating oils, coke and paraffine, but of the greater part few persons know even the names.

How They Came to Get Their Wives. Recently there was a gathering of young married couples, and the conversation turned on the manner in which the wives had secured their husbands. One had paved the way to the altar by making a face at the fated one because she thought he had stared at her immodestly. He admitted he had done so and sought an introduction. Another made the acquaintance of the man who is now her husband by accidentally spilling milk on a man of dish-water, which she had just poured on the floor.

Clouds of Moths. The city of Reading, Pa., had a remarkable visitation of moths on the evening of August 1. Myriads of these insects were seen flying about the city, and many of them were seen to enter the houses and deposit their eggs on the walls and ceilings.

Biting the Finger Nails. Dr. Jerome Tuthill, of Chicago, Ill., in the Medical Record, says: A novel accident, resulting from a habit of very common prevalence among nervous people, was brought to my notice recently by a neighboring physician. Under his care, he says, the inflammation quickly subsided, but it still remained a sensation of itching. Examination revealed small fleshy-looking objects about the size of a kernel of wheat, adherent to the tissues posterior to the left tonsil, by one end. The other parts of the throat were unaffected.

The Secret of Health. Don't worry. Don't hurry. "Too swift arrives as tardy as too slow." "Simplify! simplify! simplify!" Don't overeat. Don't starve. "Let your moderation be known to all men." Count the fresh air in day and night. "Oh, if you knew what was in the air!" Sleep and rest abundantly. Sleep is Nature's benediction.

Curculion and Chinch Bugs. Bulletin No. 4 of the Ohio Agricultural Experiment Station discusses some elaborate experiments in preventing curculion injury to cherries, and states in a practical way the best mid-summer remedies for the chinch bug, which has lately appeared in destructive numbers in Ohio. In the cherry experiments, which were conducted by the station entomologist, Clarence M. Weed, twenty-two thousand five hundred cherries were individually cut open and examined, and the conclusion reached that three-fourths of the cherries liable to injury by the curculion can be saved, without danger to the user, by spraying with a solution of London purple so on after the blossoms fall.—Vicks' Mag.

Notice to the Ladies! Dr. E. S. Dodd & Son. Druggists and Bookkeepers, have the agency for the most famous and reliable medicine ever discovered for all Female Diseases. Every lady can treat herself. Call for "A Plain Talk" and see the box.

Homely Hints. Fruit stains may be removed by freezing. Boil coffee in a salt sack; it is nicer than egg to clear it. Save your cold tea; it is excellent for cleaning grained wood. The burn produced by nitric acid may be successfully treated by a dilute solution of sulphurous acid. A few dried or preserved cherries, with stones out, are the very best thing possible to garnish sweet dishes with. If the use of cold water will not stop the bleeding, place powdered alum on the nose and leave it there until the wounded vein is healed. Common wheat flour made into paste with hot water, applied dry, will take out green spots without injuring the most delicate fabric. Whole cloves are now used to exterminate the mercurial and industrious moth. It is said they are more effectual than a destroying agent than either tobacco, camphor or cedar shavings. To stop bleeding take the finest dust of tea and bind it on the wound—at all times, and especially after the operation. After the bleeding has ceased to flow, laudanum may be advantageously applied to the wound. If you can't afford real cream for coffee, use a simple matter. Heat with one tablespoonful of cold water. Beat the milk for the coffee, and pour over the egg, stirring constantly. Stir also when the boiling hot coffee is added, and you will have a cup of delicious—and apparent—"creamed" coffee. If the juice will run out of your pies, wet a narrow strip of clean, white cloth and put it around the crusts, previously wet. When the pie is baked the cloth can be pulled off without any loss of one delicious drop of juice. If you will glaze the bottom of fruit pies with the white of egg, they will not be soggy. Cuffs laundered at home fail to please because they are ironed out flat, and when the buttons are put in they blister and wrinkle. This can be avoided if the cuffs are ironed over a hot iron. The cuffs will then be perfectly dry, and then takes the drap end of the flatiron and, pressing hard on the edge, places it at one end of the cuff and slowly goes down to the other end. The cuff will roll up as the iron leaves it. This is so simple an operation that one is likely to succeed the first time he tries to do it.

Jessie James' Revolver. In a Clark street pawn office in a conspicuous position is placed the celebrated revolver with which Jessie James, the bandit, led daylight through many officers and civilians who were daring enough to try to effect his capture. It is the implement he wore when he came to Chicago many years ago to kill Billy Pinkerton, when that condition was making matters decidedly interesting for the band of which Jessie was the leader. Probably a more dangerous-looking gun was never manufactured. Even when unloaded it is an awe-inspiring thing, and when loaded it presents the appearance of a man-of-war with portholes open ready for battle. It is a .44 caliber gun and of the Colt pattern. But few of them are now in use. Army officers still use them to a great extent, and they are preferred to the improved Smith and Wesson. When a Colt .44-caliber enters the frame of a human being there is little use for doctors essaying to prolong the victim's life or save him from a painful death. For it is a weapon is about a foot long, heavy, and one would think too cumbersome for an individual of Jessie's temperament to carry. Such characters, as a rule, are occupied with a single handle, but the bandit evidently was of a different opinion and was exceedingly fond of his miniature cannon. When Jessie was given his quinquies the distance he traveled to the city of Ford it will be remembered that Jessie was unarmed when Ford shot him; the revolver was on a table in the room where the assassination took place. Col. Ford was a very fine fellow, and with him and displayed it in dime menses and tent shows throughout the country. He was arrested several times for carrying concealed weapons, and on one occasion famous for his appearance of a man-of-war with portholes open ready for battle. It is a .44 caliber gun and of the Colt pattern. But few of them are now in use. Army officers still use them to a great extent, and they are preferred to the improved Smith and Wesson. When a Colt .44-caliber enters the frame of a human being there is little use for doctors essaying to prolong the victim's life or save him from a painful death. For it is a weapon is about a foot long, heavy, and one would think too cumbersome for an individual of Jessie's temperament to carry. Such characters, as a rule, are occupied with a single handle, but the bandit evidently was of a different opinion and was exceedingly fond of his miniature cannon. When Jessie was given his quinquies the distance he traveled to the city of Ford it will be remembered that Jessie was unarmed when Ford shot him; the revolver was on a table in the room where the assassination took place. Col. Ford was a very fine fellow, and with him and displayed it in dime menses and tent shows throughout the country. He was arrested several times for carrying concealed weapons, and on one occasion famous for his appearance of a man-of-war with portholes open ready for battle. It is a .44 caliber gun and of the Colt pattern. But few of them are now in use. Army officers still use them to a great extent, and they are preferred to the improved Smith and Wesson. When a Colt .44-caliber enters the frame of a human being there is little use for doctors essaying to prolong the victim's life or save him from a painful death. Entered at the Post-office at Buchanan, Mich., as second-class matter.

W. TRENBETH, THE TAILOR.

Has just received the finest stock of

FOREIGN AND DOMESTIC Spring Goods

For Gentlemen's Wear,

ever brought to Berrien county, and is prepared to make up the same in the latest styles, at the lowest living prices.

An Inspection is Solicited.

Buchanan Markets.

- Hay—\$5 @ \$10 per ton. Butter—10c. Eggs—12c. Lard—9c. Potatoes, new—35c. Salt, retail—\$1.00. Flour—\$3.00 @ \$3.50 per bu. Honey—15. Live poultry—@ 6c. Wheat—30c. Oats—25 @ 28. Corn—50c. Beans—\$2.00. Buckwheat flour—\$3.00. Dressed pork—\$3.00 per cwt. Wool—10 @ 20.

Wedding Present.

So long as this notice appears in this place, the publisher of the RECORD will make a wedding present of THE BUCHANAN RECORD one year to any couple who marry and settle in Berrien county, the only requirement being that they apply for it within three months after their marriage. The same will be extended to those who are married within this county and go elsewhere to live, but such will be required to subscribe for one year, upon making application. That is, by paying the price of one year they will be given credit for two years and receive the Record that time.

The blackberry season is about past.

FOUND.—A pocket book. Owner can gain information at this office.

BENTON HARBOR fair September 11 to 14.

Only a short time now before school commences.

CRYSTAL SPRINGS campers returned Friday.

The game law is about out, and shooting stars are fashionable.

COUNTY CLERK H. L. Potter was in this place yesterday morning.

MR. A. J. CAROTHER'S boat was returned from South Bend Tuesday.

A DOWAGIAC factory is shipping its wares to Buenos Ayres.

WONDER the Editor of Dowagiac Times ever visited Bertrand?

BAINBRIDGE boasts of an extra crop of mosquitoes.

F. H. TAYLOR of West Niles is 91 years old.

WANTED, by the entire community, a good rain.

A new advertisement by J. M. Samson appears in this paper. He is to remain with us but two weeks longer.

The attention of ditch contractors is called to the drain notice in this paper. There is a job in the market.

MRS. CHAS. HOWARD and daughter are here for a visit with the family of her brother.

MRS. CORA ANDERSON, of Parkston, Dakota, is in town for a visit with her parents, Postmaster Mansfield and lady.

ELDER J. F. BARTMESS starts next Monday to attend the United Brethren Conference in Legionier, Ind.

WALDBERGER WOOD and Wm. Huff, of this place, have been granted pensions.

A. L. HARPER, of Cassopolis, is at home in Buchanan this week taking a rest.

MRS. L. P. ALEXANDER is in Belfast, New York, for a visit with her relatives.

MRS. KATIE REZERT, of Dayton, Ohio, is visiting here, the guest of her cousin, Mrs. John Morris.

WILL SMITH, of Chicago, is visiting his sister, Mrs. J. L. Richards, and his numerous friends, in Buchanan.

MR. AND MRS. H. F. STRONG, of St. Joseph, are visiting their many friends in Buchanan.

JASHER & JACKSON, wagon makers and blacksmiths of St. Joseph, will move to Douglass, Mich.

The slating of the roof of the Evangelical church is on, and the spire is rapidly pointing upward.

DR. S. OSTRANDER now makes regular visits each Thursday to Three Oaks to attend dental work in that place.

LAFALETTE FARR, of Benton Harbor, known by many as Davenport, fell from the dock and was drowned.

DR. ANDERSON will be in her office, at Buchanan, Friday and Saturday, Aug. 31 and Sept. 1. Also Friday and Saturday, Sept. 7 and 8.

WHEAT has been marked in this place at a rapid rate since harvesting commenced, and has brought a good price.

NOR room enough in St. Joseph school buildings, and one department of the village schools will be held in the town hall.

THE premium list of the Fourth Annual Fair at New Carlisle, for September 25, 26, 27 and 28, is out and presents a good list of premiums.

THE State Institute is in progress at the High School this week, and attracts a considerable number of strangers to town.

THE next meeting of Buchanan Grange No. 40, will be held in their hall Saturday, September 25. Every member is requested to be present.

MRS. LURA ROE and sister, Mrs. Eva Smith, expect to start next Monday for San Francisco, Cal., where their brother is living.

A LETTER from J. F. Peck, from Langford Dakota, dated August 15, says: "Harvest will commence in about three days."

THE Kankakee melon crop does not appear to be a rushing success this year. At least there have not been the usual amount brought to this market.

BENJAMIN ZICHELL, of St. Joseph and Wm. B. Flanagan, of Benton Harbor, have been granted an increase of pension.

THE next union service will be held next Sunday evening at the Christian church, and Elder E. P. Moore will preach. These union meetings are growing with interest and attendance.

IN this immediate vicinity the drought has injured the growing corn quite considerably, and unless we have rain soon the crop will be materially shortened.

BENTON HARBOR has a bigmist. Theora Dudley, who married a young girl in that place last December, is now discovered to have another wife in New York.

THE Citizen's National bank, of Niles, is putting in a new safety vault that will keep the burglar who attempts to burglar it, burgling until broad daylight next morning.

ELDER COGSWELL'S house, in Niles, was burglarized while the family were at camp-meeting. The Elder is out \$20 and an overcoat and his wife a silk dress.

JOHN YORE, in jail for robbing in Benton Harbor, attempted suicide by taking morphine, but was kept awake by the Sheriff and his assistants, and is now in a fair way to attend court at next term.

MR. MARCUS ALLEN, an old resident of Oronoko township, died of consumption yesterday morning. The funeral will take place from the residence tomorrow afternoon at 1:30 o'clock.

THE members of the Old Advent Church went for a picnic party to the residence of Mr. L. S. Bronson, yesterday, on invitation of Mr. Bronson, the occasion being the birthday of Mrs. Bronson.

WE wonder how the young gentlemen and ladies who were so loving on the school house grounds, Monday evening, would like to see their names in print. We advise them to look a "leech" out."

THE St. Joseph Herald says that Capt. Thomas H. Botham, who lately joined the Democratic party, has also got sick of his new love and left them. What's the matter with Cap. now?

JESSE J. HOE fell through a hole in the side wall on Day's Avenue last week and talks of suing the corporation for \$4,375,863 damages. He has a very sore shin.

LECTURE.—Prof. F. A. Barbour, of Ypsilanti, will lecture in the Advent Church this (Thursday) evening, at 8 o'clock. Subject—"Self Culture." Admission free and the public cordially invited to attend.

MR. J. C. WALTILBURG will sell a lot of personal property at auction, at his residence, two miles south of Gallien, on Saturday, Sept. 1. John A. Babcock will do his best to get good prices for the goods.

THE persons who consigned that Olander from a jar on Oak street had better bring it back for they were seen and are known, or their names shall be published.

THE Record took a trip to the South Eastern corner of the State Monday, and found that section to have been considerably more favored with rains than on this side of the State, and crops green and growing finely.

LAST Sunday there was an exchange of pulpits between Elder C. B. Black, of Laporte, Ind., and Elder Wm. M. Roe, of this place. On Sunday evening Elder Black delivered a very excellent discourse at the union service at the Christian church.

LIST of letters remaining unclaimed in the post-office at Buchanan, Mich., for the week ending Aug. 22: Mr. S. A. Curtis, Mrs. Thomson, Mr. F. J. Hunter, Mrs. Mary Mason, Mrs. Susan Price. J. G. MANSFIELD, P. M.

HARRY HEMLOCK has a \$1400 Victor bicycle on which he expects to start for a trip through Indiana and into Kentucky and Tennessee, and perhaps to the Gulf. Chasley Peas expected to accompany him on the same kind of a trip. The distance he goes will depend considerably upon his tendency to homesickness and his adhesive qualities. It may be made a pleasant and profitable trip.

An excursion train to Marion, Ind. from Benton Harbor Saturday, was so loaded down that it could hardly run. The Star says it was six hours in returning, 108 miles, on account of hot boxes, and did not get home until nearly morning. Had a good time, though.

LAST week Mr. Strauser shot a blue crane from the bridge at Mr. Carother's fish pond, that measured five feet from beak to toe and six feet 3/4 inches from tip to tip of wings. He and four others were having fine sport with Andy's fish.

THE annual school meeting will take place one week from next Monday evening, Sept. 3. These meetings are not usually attended by those interested, as fully as they ought to be. Every voter and especially every tax payer ought to be present. We hope there will be a large meeting this year.

GEN. SHERIDAN memorial services will be held in Rough's Opera House next Sunday afternoon, Aug. 26, at 2:30 o'clock, under the auspices of Wm. Perrott Post No. 23, G. A. R. An address will be delivered by Rev. H. V. Warren. The public is invited to attend.

THERE was a large attendance at the dedication of the New Grange Hall, at Mt. Tabor Tuesday. The services were conducted by Thomas Mars, Master of the State Grange. Over 300 persons partook of the feast, and helped to make the meeting a pleasant and successful one. They have a nice hall, but a little smaller than the old one.

Marriage Licenses.

- 295. Edward E. Haskins, Indiana. Luana King, Sodus, Mich. (Charles Hanson, Detroit.)
- 296. Maria S. Andrews, Clio, Mich. (William Hill, Berrien township.)
- 297. Ida Brownell.
- 298. Emma Seifert, New Buffalo.
- 299. Emma Schumli, Three Oaks.

THE compliments being received by the Eagle drum corps of St. Joseph for their behavior while attending the reunion at Niles are enough to make a Bacchus green with envy. They started it by complaining of their treatment and it is ending by every paper in Niles publishing them as having been drunk.

H. C. BUFFINGTON, former publisher of Dowagiac Republican, commonly known to printers as "Old Buff," has found a streak of hard fortune. On August 4th, Mrs. Buffington died at their home in Macon, Mo., and on August 6th, the fire in that city swept up his printing office, the Macon Republican.

FARMERS wanting help for thrashing, haying or any other light work may find an abundance in the Mill alley on any bright day. You may be obliged to bring your plowing to the alley to get it done, but you will be sure to find a full corps of able bodied men there. Most of them have families to support them and will be glad to get the work.

IN order to get out of business, Mr. John Graham has taken his stock of dry goods to Berrien Springs, where he will sell what he can in two or three weeks, when he expects to close out the balance and quit. Mr. Graham has been in business more years in Buchanan than any other man now doing business here.

THE eels that were put in Dayton lake two years since are being caught in the lake, but are much more plentiful in the streams and lakes below, as they made their natural trip downstream and the arrangement of affairs is such that when they once leave the lake they can not return. Those being caught are from twenty-four to thirty inches in length and are healthy looking reptiles.

THE village of Dayton contains a lot of boys who are rapidly working their way into trouble. They have caught the sling shot fever, and now no one's window is safe. They had a few Michigan Central windows, to pay for and when the school meeting is held in September it will be determined just what is to be done with those who broke the school house windows. It took just one arrest in this town to completely break up that same kind of nuisance which was, perhaps, as bad here as anywhere. There is a general settlement of accounts brewing in Dayton that is likely to make some of the "big boys" wish they had migrated last winter.

In the Front Rank.

AGAIN the season of fairs approaches, and among the first and most prominent of all the district fairs, comes that of the Northern Indiana & Southern Michigan Agricultural Society, which will be held as usual on the Society's beautiful grounds midway between the thriving cities of South Bend and Mishawaka, on Sept. 10th, 11th, 12th, 13th, 14th. Excelling all ordinary country fairs, and ranking with the best State expositions, the Society has gained an enviable reputation not only for the large and splendid exhibits of all sorts, but for its liberality in the way of premiums, the general courtesy of its officers, the conveniences afforded, the splendid half-mile track, and various other features. The premiums aggregate \$5,000, which includes \$3,000 in the seed department. Competition is open to the world. Many new improvements and additions will be made on the grounds this year, and fresh attractions are promised. A copy of the premium list and entry blank will be sent to any desiring it by applying to C. G. Towle, Secretary, Mishawaka, Ind.

Niles Mirror.

James Ross, an Irishman residing alone near Pokagon, went to Dowagiac on Saturday last and eat neither breakfast or dinner. When he returned in the evening, he went to getting his own supper, and being very hungry he picked up a piece of cooked pork and attempted to swallow it whole and it lodged in his throat and he soon choked to death. He was soon after discovered. A jury was empaneled and they waited until 1 o'clock at night for Dr. Menzies to arrive. The doctor had no instruments with which to open the throat and some one lent him a jack knife and he cut in and took out the piece of pork about 1/2 inches square with a rind on one side and lean meat on the other. The cause of his death was plain. He was unmarried.

State Teachers' Institute.

The State Teachers' Institute for Berrien county is now being held in the high school room of the Union School house. These institutes are under the control of the State Superintendent of schools. Their usefulness therefore depends largely upon the care he exercises in the selection of suitable instructors. Superintendent Estabrook, himself an earnest teacher, has shown wisdom in the choice of those whom he has placed in charge of the Institute here. Professors Barbour and Cheever are both made a success of their chosen profession. The former of these gentlemen is connected with the State Normal and the latter is Superintendent of the schools at Three Rivers. The attendance at the opening of the Institute was larger than usual, and the enrollment has been increased at each session since. Present indications are that it will, in point of usefulness at least, rank second to none ever held in the county. Especially prominent in the instruction of both Prof. Barbour and Cheever is the aim to instill into the minds of the teachers the fact, that their profession stands foremost among the professions, and therefore the person entering it should receive particular training for his work, just as much as the doctor or lawyer. The Institute is a great help in this direction. Teachers are coming to realize its value. The best teachers are always in attendance if possible. They are supplied with note books and are expected to write down, for future use, the most essential points in each one of the talks or class exercises. They are often questioned on the following day as to what they remembered of the previous day's work. This Institute is to last but one week, so of course it cannot be expected to cover the ground of a two weeks' course. Instruction has been given in elementary sounds, reading, both primary and advanced, arithmetic, U. S. history, geography, grammar and physiology. Prof. Cheever's talks on the latter have been exceedingly practical. He has given excellent instruction to the teachers, not only as to the manner of teaching this most important branch, but their responsibility in the care of the health of the pupils as well as their own. He thinks that the days, which every teacher knows about, in which every thing goes wrong, may be traced largely to the irritability of the teacher, caused by the neglect of the proper care of his own health. Points are given every day in his talks which must prove of practical benefit to all who hear him. Then the instruction on the subject of the too much neglected branch of reading, cannot fail to result in better work on the part of teachers. Prof. Barbour has primary and Prof. Aleshire advanced reading. Both are good, and the teachers who hear them will certainly have a more exalted idea of the talent of good reading. That to be a good reader, one must do something more than pronounce all the words correctly, minding all the punctuation marks as they occur. He must study the author and fully comprehend the thoughts in the piece read, and all its allusions. Besides the instruction given in all of the other branches mentioned, Prof. Barbour has given talks on morals and manners which alone are worth to the teacher the whole week's time spent in the Institute. He urges upon the teacher the importance of doing all in his power to make true men and women of his pupils. In point of health as well as intellectually and spiritually true. And as scholars will imitate their teacher in almost everything they do, the surest way to accomplish the object is to be true in all their particulars himself. Prof. Barbour's words must arouse those who hear them to resolve that they will make the teaching of morals and manners an important part of their work. Prof. Buck has upon his table many of the leading educational journals and other publications of a helpful character, and many are availing themselves of the opportunity to subscribe for some of them. Together the institute this year may be pronounced a success, and will work beneficially in both the district and graded schools of our county. R

Gallen Items.

MR. G. A. Blakeslee has gone to Mackinaw Straits for the benefit of his health.

MR. JOHN ROKELY, who has resided with us for some time, has removed to Bridgman.

Every day brings forth demonstrations of the plentiful harvest in this vicinity, and cars of wheat are being shipped almost daily.

The members composing the Republican Club, desirous that anything good shall not be hidden, have donated Harrison hats.

MR. JOHN BEACH and wife, from Michigan City, spent Sunday with his relatives here.

WE were much puzzled Monday afternoon to know the cause of the glad expression on the countenance of our friend, Mr. Del. Prince. We were privately informed a son was born to him Monday forenoon.

DR. SPAULDING and wife visited here over Sunday. The Dr. has many calls in his practice, though located at Dowagiac. An interesting and amusing game was played between the youthful nine of Buchanan and the lads here, on Monday afternoon, the game stood 24 to 15 in favor of Gallien.

MR. S. B. SMITH, of Battle Creek, was the guest of Miss Blakeslee over Sunday.

MR. BART, a former bookkeeper of Mr. R. W. Montross, favored his many friends here with a pleasant visit. He was the guest of Mr. R. W. Montross.

St. Joseph Republican.

MISS CHAS. STUBBS knit 105 pairs of socks on Thursday last at the knitting factory; the largest single day's work ever done by any knitter in St. Joseph. Last Thursday, while George Smith, son of Albion Smith, of Watervliet village, was driving a span of horses hitched to a reaper and binder, the horses took fright and he was pitched forward in such a manner as to bring him in contact with the horses' heads, his face and head being badly bruised and leg and arm hurt, but fortunately no his bones broken. It was a narrow escape. About one year ago this time Frank Smith, George's oldest brother, was hurt while bringing a fat ox to the slaughter yard, and subsequently died from the effect of his injury.

Served Him Right.

A shooting affair that will probably end fatally for a rash young man occurred just south of Benton Harbor at eleven o'clock Wednesday night. The young man's name is Henry Harvick, and he has been in this vicinity for some years, being accounted as fairly industrious and generally well-behaved. At the hour named he visited a small tenement house on Mr. Joel Barbour's fruit farm, which, during the current berry season, has been occupied by Mrs. Nancy Bard, a middle-aged and respectable St. Joseph lady, who picked berries and lived here alone. He knocked on the door and in answer to Mrs. Bard's inquiry said he wanted to come in, at the same time intimating that his purpose was not a proper one. She denied him admittance and he knocked on the door and windows and expressing a determination to break in she took down a double-barreled shot gun which she kept for the protection of her property. She used the pronoun "we" in talking to him, hoping he would infer that she had company and would go away. She also went to a side door and called loudly for help, hoping to attract the attention of Mr. Hall, a neighbor, Harvick, however, opened the door, and in the full light of the lamp on the table he fired at her, and she fell forward to take the gun when Mrs. Bard fired, and nearly the whole charge of No. 4 buckshot entered his body in the region of the groin, severing his intestines and his bowels. He fell back and joined his companion in the road, where he sank in a fainting condition, mortally hurt. -Palladium, Aug 16.

THE committee on subscriptions in aid of the Indiana and Lake Michigan R. R. is meeting with liberal response from our citizens, which is very encouraging and points to the securing of this important arm to the future prosperity of St. Joseph. The committee has had part of the work in this direction, and it is the duty of every one to uphold the committee's good work for our town. St. Joseph is all right if the ball of enterprise and improvement is kept in motion under wisely directed efforts. -St. Joseph Republican.

HENRY HILDEBRAND stole a cow of J. Walker on Tuesday morning, and sold it to a butcher in this city for \$8. Hildebrand went to South Bend, but was captured there and returned here. Before a justice's court today he pleaded guilty, and was bound over to circuit court. -Niles Star Wednesday.

Art Exhibition in September.

The new building of the Detroit Museum of Art will be opened to the public on the first of September, with a loan exhibition of art works of superior merit, consisting of the famous Seney collection from New York city and many other paintings of the highest grade. The gallery will be open from 9 a. m. to 9 p. m., daily, until November 15th. The price of admission will be a fifty cent silver piece on Mondays and a twenty-five cent piece on all other days. A coin will be accepted the same as in the old Art Loan, in place of the orthodox ticket, in order to save the making of change and avoid delay at the door. Excursions will be run on all roads centering at Detroit at greatly reduced rates, the ticket to include a coupon of admission to the Art Gallery. Those who wish to go to Detroit on these excursions should indicate it at once to the ticket agent at the depot.

A Circular to Workingmen.

The following circular was issued from New York city July 29th. George Blair, whose name appears at the bottom of the reasons for opposing Cleveland, and was State's prison inspector when Cleveland was Governor, and A. F. Smith another signer, has been President of a Democratic club, First Master Workman of the Eccentric Engineers' Union, and First President of the Open Trades Union.

To the Workingmen of the United States: A circular embodying the following points in opposition to the candidacy of Grover Cleveland for President was issued by the representative workingmen of New York State, who sent a committee to the Democratic convention at Chicago in 1884, for that purpose. Eleven reasons why workingmen will not vote for Cleveland. While Governor of New York he was opposed to the following labor measures: He vetoed the bill establishing a department of labor and making the secretary of said department a cabinet officer. He vetoed the mechanics' lien law bill, making the wages of workingmen engaged in the construction of buildings a first mortgage on the property. He vetoed the life and limb bill, making employers responsible for accidents happening from imperfect machinery or inferior construction of buildings. He vetoed the tenement house cigar bill forbidding the manufacture of cigars in tenement houses. He vetoed the bill compelling the elevated railroads of New York to reduce any 5 cents fare to 4 cents.

He vetoed the bill requiring all the State printing to be done by union workmen. He vetoed the bill making ten hours a legal day's work for all street car employes. He vetoed the bill abolishing convict labor in prisons, although this protection, when submitted to a popular vote of the people, was carried by a majority vote of 60,000.

He vetoed the child's labor bill providing for the inspection of factories where children were employed, and prohibiting the employment of children under 14 years of age. He signed the bill compelling the stationary newspaper industry to pay a tax of \$2 per copy to the police pension fund or be debarred from following their vocation. He signed the bill reducing the fees of the New York harbor pilots, which will only the foreign steamship monopolies.

GEORGE BLAIR, Chairman, Packing-Box Makers. A. F. SMITH, Secretary, Stationery Union. New York State Labor Delegation to Chicago, 1888. Since the expiration of his term as Governor the five cent car fare is a fact: it has been passed and is in operation. The engineer's tax bill, after being in operation one year, has been repealed. Brother, with this record, not of public utilities, but of official acts, you will be willing to elect this man to run over us another four years in the interest of monopoly and foreign syndicates? A. H. HARRISON, Chairman, Workingmen's Municipal Reform League of New York.

Why He Favors Free Trade.

An Eastern Democrat favors the Mills bill and free trade because he says, "it will knock labor organizations higher than a kite." He holds that, owing to the labor organizations, workingmen have been getting more than their labor's worth, and that free trade would open the way for foreign goods and compel a general reduction of wages. This man is frank at least. -Grand Rapids Eagle.

Locals.

DR. OSTRANDER, in order to introduce the Nitrous Oxide Gas for the painless extraction of teeth, will for the next 30 days give it free of charge. Come and try it.
