

BUCHANAN RECORD.

JOHN G. HOLMES, Editor.

THURSDAY, MAY 16, 1889.

Illinois State Grange offers \$10,000 to the man who shall invent a machine to bind oats and wheat with straw.

Canada mail service has no use for Detroit Sunday News. If Uncle Sam were as particular, it might be a benefit to his children.

West Michigan Press Association will meet in Muskegon, June 10, 20 and 21. Plenty of sport for the press gang on such occasions.

The Czar of Russia is in another flurry over the Nihilists once more. It might be of special advantage to his majesty to read the series of articles by Geo. Kennan, and published in Century Magazine. A careful study of them would give him a few pointers that might be valuable to him.

Fifteen murders were committed in this state during the first four months of 1889. Two-thirds of these were done in connection with the whisky business. This leads to a demand that the liquor dealer be held as accessory to the crime, the same as in some other crimes that are known to be the work of his whisky.

The following law was passed by the Indiana legislature: It shall be unlawful for any person to give or sell, either directly or indirectly to any child under the age of sixteen years any tobacco, cigars, cigarettes, or to advise, counsel or compel any child under the age of sixteen to chew or smoke tobacco. The fine is not less than one or more than ten dollars. The law is all right excepting the age, which should have been sixty.

Silver coinage is going on at the rate of \$2,000,000 a month, under a law which leaves it optional with the Government to coin any sum between \$2,000,000 and \$4,000,000. Since the law went into effect \$380,000,000 have been coined, of which \$80,000,000 remain in the treasury vaults. This is not far from the same amount that remained in the treasury four or six years ago, and is mostly represented by silver certificates that are in circulation, showing that the daddy dollar is being pretty well appreciated by the people.

Many of the mortgage holders in this part of the state appear to be in error regarding the repeal of the mortgage tax law. Mortgagees are to be taxed just the same as usual. The only part of the law repealed by the bill is the method of discovering who own mortgages. The supervisor will assess all he can find just as usual, and the law has been in force long enough for them to become pretty well posted. There is some chance yet that Gov. Luce may veto the bill before next Monday, which he should do.

What has become of the Grant monument?—N. Y. Graphic.
Echo answers, where?

We only have to gain forty or fifty thousand votes and then we may carry the state.—Niles Democrat.
Nothing in nature, not a freak, is more hopeful than the average democrat.

An exchange remarks that "almost everything is made out of coal oil nowadays." It does seem so. Down in Ohio they made a United States car out of it and are going to try it again. It is great grease, coal oil is.—Detroit Tribune.

Hon. Chas. L. Eaton, chairman of the house committee on military affairs, will report to the house at early day the bill for the relief of that class of soldiers who, although entitled to the privileges of the soldiers' home, cannot avail themselves of it without surrendering family ties which are dear to them as existence itself. This is not only a humane measure, but a wise and economical measure as well. To the proper understanding of the bill by those who are not familiar with its provisions, we will briefly sketch a supposed case: Jones is an ex-soldier, and has a wife; he is (of course) poor; he becomes incapacitated from earning a livelihood, and should he go to the soldiers' home his wife becomes at once a public charge. The expense to the state of maintaining him at the home would be \$100 a month, or \$1,200 a year. Now, if he could have that amount at his home, it would not only keep him from the soldiers' home but his wife out of the poor house, and save to the public what is known as maintenance. If there is a valid objection to this measure we have not yet heard it, and we sincerely hope Mr. Eaton may have the gratification of seeing this bill, which has taken so deep an interest, speedily become law. Mr. Eaton is piling a load of obligations upon the shoulders of the old soldiers which, if they are never able to reciprocate, they will ever regard in grateful remembrance.—Paw Paw Northern.

A Virginia Politician Thinks the 15th Amendment May be Repealed.

RICHMOND, Va., May 10.—Mr. William L. Royall, counsel for foreign bondholders and a prominent figure in Virginia politics, created a sensation today in response to a question by a reporter he said: "If the voters of this district should think me worthy of a seat in Congress my aim will be the disfranchisement of the negro. No white man in the South would for a moment entertain a proposition to re-enfranchise the negro or to treat him unfairly in respect to his rights of person or property. But all of us know and feel that it was a cruel piece of injustice to us to put the ballot into his hands in his present half-civilized state. It is further fully conceded by the intelligent men of the North that giving him the ballot was a mistake. All that is necessary is the repeal of the fifteenth amendment, and I believe there is a prospect of its repeal. The South has a large vote in the Electoral College and a number of Representatives in Congress based on the negro as a voter. The Northerner thinks we don't let him vote as he wishes, and thus get an unfair vote in both houses. Well, let us give up that part of our Electoral vote and these Representatives in consideration of the repeal of the fifteenth amendment. The South will never have a voice with the negro as a voter. It will remain the land of the Ireland of America—for the next 10,000 years if the negro remains a voter that long."

A chunk of quartz weighing 6 ounces, from which one ounce of gold has been taken, has been found near Ingham. The finders will not tell where it came from, but a land boom will soon show up in a new section.

Niles Star.
There was a crowd at Benton Harbor a few days ago, and a shower of the "queer" got in his work successfully, and a number of counterfeit greenbacks rested in the coffers of different merchants. At one place the "bad money" was detected, but the people, officials and all, were so wrapped up in the circus performance that they forgot to make any arrests.

James Shaffner and George Lotta, of Stevensville, have returned from Ottawa perfectly satisfied that ten minutes of Michigan is better than ten years in the "Promise Land."—Detroit Journal.

YESTERDAY morning at 7 o'clock the river was so low that one could wade across it above the bridge without difficulty. The water going down so suddenly, as it does every Sunday morning when the mills above stop running, causing hundreds of fish of all kinds to lodge on the different riffles. Boys above the iron bridge killed large numbers of them, mostly big mullets, with clubs.—Niles Star.

Capt. Henson has completed a number of fine pictures by the bromide process to be placed in the steamer City of Detroit. The view representing a cascade among the rocks in a deep ravine near the old Crocker mill, between Berrien Springs and Buchanan, is particularly admired and is worthy a place among the finest photographic landscape views of noted American scenery.—Benton Harbor Palladium.

The fine grapes of E. L. Rauff, a mile west of this city, is almost entirely destroyed by worms. Also, the grapes of Chas. Morrell is much injured. These worms crawl up the vine in the night by hundreds. One evening Mr. R. destroyed a large number, but concluded it was no use and abandoned the vines to their ravages. He will pull up all his vines.—Niles Star.

This appears to be a new trick for cut worms.

J. P. THURSTON, of Benton Harbor, a guest at the Plankinton, says of the efforts of rival organizations to build a railroad from South Bend, Ind., to Benton Harbor:

"There are two gangs of men at work on the line, each trying to get the upper hand and sell out to the other. Mr. Burns, who has been building the St. Louis & Saginaw road, has purchased the narrow gauge from Buchanan to Berrien Springs and is converting it into a broad gauge. Mr. McFar has begun in about the middle of the line. While these interests are striving for the upper or under hold Benton Harbor and St. Joseph are each striving for the lower end, so it is altogether quite a complicated affair."—Detroit Free Press.

ENGINEER McLaughlin has completed a survey for a line of railroad from South Haven to Sturgis as far as Paw Paw. He says that he has never, in his experience of railroad engineering, run a line so much more naturally adapted to the easy construction of a road as that. There is no question but that a road to be built from Sturgis to some point on Lake Michigan would be the best, by far, the best and most feasible route for this road, one which will pay the largest per cent on the capital invested is from Sturgis, by way of Cassopolis, to this point and terminate at St. Joseph. If you look at your maps you will readily see that the road by this route would not only pass through a good agricultural section, but through live business towns. We trust the capitalists who have this road in contemplation will never locate this road without first looking over this route mentioned.—Dowagiac Republican.

There are those in this part of the county, who believe that the road that is taking the place of the St. Joseph Valley road, is to be a part of the Columbus, Lima and Northwestern, the same that Engineer McLaughlin is working in the interest of. No one without unquestioned authority has been heard to say so louder than a stage whisper, and the balance is mostly conjecture.

FROM GALLEN.
Triplets were born to Mr. and Mrs. James Keefe, south of Galien, on March 7. All boys, and doing well at last report.
Mrs. Horace Wooley and daughter returned from Wisconsin on the 8th.
Mrs. H. H. Smith returned on the 10th from Dowagiac, Mich., where she had been visiting Dr. Spaulding.
Mrs. Swen, who was born Dec. 17, 1818, expired on Friday, May 10, and was interred in Galien cemetery, Saturday, 11th. The funeral services were delivered by the Rev. Finlay, of New Carlisle, Ind.

Mr. Henry Wooley started on Monday morning, to visit relatives in Illinois.
Another of our young enterprising men has forsaken our village for the busy, city life of Chicago. We wish our young friend, Mr. Wm. Voke, every prospect for the future, and the best wishes of his many friends attend him.
Mr. Thos. Swen, the renowned photographer, of St. Paul, Minn., returned home May 15. He was called here to pay the last respect to his aged mother. Railroad excitement has struck Galien, but no particulars can be given, only they have surveyed near our village, and hope a road will be built in the near future.

State Items.

Van Buren county will have considerable of a sorghum field this year.
Gov. Luce will visit in Adrian Memorial day.

Irving Latimer is now known as No. 478.

The State fair has been located in Lansing, permanently.

Fires near Decatur have destroyed several hundred cords of wood and a large amount of fencing.

The State Militia will hold their encampment this year at Gogue Lake, near Battle Creek.

Rabid dog at Flat Rock has caused a war of extermination against all canines.

Two-thirds of the voters of Pottawamie are said to favor local option. Only one saloon there takes out a license.

Eaton county had 23 saloons in 1888, whereas this year 12 only have expressed a desire to obtain a license.

The St. Ignace Watchman mourns the death of a gosling with two bills and four eyes.

It costs about \$100,000 to run Port Huron a year and pay her bonds as they come due.

Aid is being solicited in all parts of the state for the fire stricken village of Waldron, in Hillsdale county. A special session of the board of supervisors of that county is being demanded, to take action in the matter.

A church census at Port Huron shows there are 600 people there who never go to church, and 1,500 children who do not go to Sunday School.

The powers that be in Stanton have refused to accept the bonds offered by the saloonkeepers, and the town is consequently dry.

At the last Van Buren County teachers' examination thirty-four out of sixty applicants received certificates, being the largest percentage of successful candidates for several years.

It now looks as if the Michigan legislature will adjourn in about a month. Please turn to the doxology and get ready to sing the first line over and over again.—Detroit Journal.

A sea serpent has been seen in Narrows lake, Eaton county, and the Detroit Journal takes this as a sure indication that Eaton county wants Prohibition P. d. q.

It has been discovered at Port Huron that men who were earning good salaries have long been in the habit of having their children supplied with school books by the city, on the ground that they were too poor to buy them.

The Michigan Central Company will have some suits to defend as the result of running their engine into the street car, in Kalamazoo last week, with prospects decidedly against the company. The inquest shows that the company was in fault in a number of instances.

A month and a half ago a mad dog ran amuck between Camden and Reading, and at or near Camden he bit a boy named Albert Mathis. Monday night the boy was seized with convulsions, and died of hydrophobia yesterday in great agony.

Uncle Lewis Bentley reports a hen of his that is trying to mother a litter of pigs. The hen began sitting in the pig pen, and when the pigs were born they destroyed her nest, and she then began hovering the pigs and has continued that comical scene. She will scratch and pick for the pigs as though they were chicks and evidently feels as proud of them as their mother does.—Maple Rapids Dispatch.

The engineer and conductor on the Michigan Central engine that crushed the Kalamazoo street car and its living contents, last week, have been arrested on charge of manslaughter, and placed under \$1,500 bonds, each. The jury gave a very scattering verdict, settling the blame upon the company, yardmaster, engineer, fireman, street car company and car driver. The Michigan Central Company has made offers to settle with those injured, aggregating \$20,000.

Improved Facilities.

The Council Bluffs and Pacific Limited Vestibule Express, which now leaves the Rock Island Union depot on Van Buren street, in Chicago, at 2:45 p. m. daily, is a magnificent train replete with every modern improvement which can add to safety and comfort. To its complement of super day coaches, Dining Cars and Pullman Sleeping Cars, (the latter running without change to Omaha), new and elegant Free Reclining Chair Cars have been added, which now run through from Chicago to North Platte, in Nebraska (via Omaha), stopping at Fremont, Columbus, Grand Island and other important intervening points—west of the Missouri river.

The Night Express, which leaves daily (except Saturday) at 11:00 p. m. and on Saturday at 10:30 p. m., has also adopted a feature of special interest to those contemplating a trip to the North and Southern Kansas points, viz: the carrying of a Pullman Palace Car through to Wichita. THERE were some Niles boys over here Saturday evening for a toot, and had it. There is one place in this town that would be more of a credit to itself, if the proprietor would not allow quite so many rows to take place on the premises. The public know where it is and the proprietor ought to, so no further mention of it should be necessary.

PUBLISHERS in Graham county Kansas consolidated, so that where there were four papers are now two. Instead of this process of reducing the number so that the survivors may live, Berrien keeps hatching out more. There are more papers published in Berrien county in proportion to population than any other county in Michigan or Indiana.

THE entertainment advertised for Friday evening in S. O. V. Hall, failed to entertain, as no audience came out owing to the rain. The proprietor had a most excellent collection of valuable mounts for the microscope that could not fail to interest all. As it was, he was stranded. Borrowed money to take him home, and walked to Niles to take the train to the eastern part of the state.

It always gives us pleasure to note the success of former Buchanan boys, hence we copy the following from the Edmond, Kansas, Times, of May 3:

Last Monday's mail brought the news of the appointment of James P. Fry to be postmaster at Edmond. This is an eminently good appointment and we have heard of no one who is not well satisfied with the same. The Times heartily joins in the usual congratulations, and is glad that Mr. Fry secured the position.

THE new time card of the Michigan Central appears in this paper. The Day Express does not stop in Buchanan going either way. It carries our mail, however, using the grabhook to jerk it out of town, a most perfect nuisance for handling mails so heavy as those from Buchanan. Buchanan kicks against any such performance, but, like most other cases with the same party, will be apt to take it out in kicking.

BERRIEN SPRINGS people are said to have a contract with Mr. Burns that he will connect Buchanan and St. Joseph by a standard gauge road passing through that place, in consideration for the \$30,000 they are supposed to vote next Thursday. Of course they will vote for the bonds, secure the railroad and anchor the county seat in its present location. If all that be not worth the amount asked, it is put up to the highest bidder.

NILES papers are advocating making better roads leading into that city, and the rebuilding of the bridge at the Crocker mill site. Both are commendable in Niles, especially the former, and the same is true of any other town. Buchanan is now well equipped with the latest improved machinery, and the best gravel in christendom and plenty of money, and if we don't have better roads there should be some good reason why. Good wagon roads are of more value to a community than any one other thing.

DIED.—At their country residence on Terre Coupe Prairie, May 14, 1899, Louisa Buck, wife of Frederick A. White. Deceased was born in Hampshire county, Mass., July 17, 1817. She was of a family of fourteen children, three of whom, two brothers and a twin sister, survive her. She was married to Frederick A. White Feb. 13, 1840, in LaPorte county, Ind., and this union was hallowed by the birth of three sons, two of whom, Augustus F. and Cyrus B., predeceased their mother to the home beyond, both having been summoned after arriving at the age of manhood.

Mrs. White was a woman of rare accomplishments, always ready with a cheerful heart and helpful hands, to look for the "sunny side" and surmount the many trials and sorrows attendant on a pioneer life, with the fortitude and submission characteristic of her forefathers; an exemplary wife and mother, whose long occupied but now vacant chair will be a sad reminder of the irreparable loss her family sustain in her death. To the bereaved husband and son, the heart-felt sympathy of their many friends is extended. Interment in the family lot at Oak Hill cemetery this afternoon.

THERE was a meeting of the School Board Tuesday evening when the corps of teachers was decided upon as follows: First grade, Miss Eda Beardsley; Second grade, Miss Nina Kempton; Third grade, Miss Anna Simmons; Fourth grade, Miss Nellie Marquise; Fifth grade, Miss Emma Grover; Sixth grade, Miss Edie Perry; Seventh grade, Miss Lottie DeMott; Eighth grade, Miss Florence Hartsell; Preceptor, Miss Marian L. Jennings; Assistant, Miss Minnie Sherwood. Miss Hattie Houghton, who had charge of the Eight grade, leaves Buchanan for better wages elsewhere. She came here last year, to fulfill her engagement, at \$10 per month less than she had been offered elsewhere after agreeing with our director to come to Buchanan. Miss Anna Simmons is a graduate of Buchanan schools, and has been successful as a teacher a number of years since graduating. Miss Marquise comes from Berrien Springs and has had considerable successful experience as a teacher. Miss DeMott is also a graduate of Buchanan schools, and has spent her time since graduating in the University at Ann Arbor. The position of Superintendent has not been filled, but the Board has a good corps of applicants from which to select, and we expect to announce the choice in next RECORD.

All teachers, patrons, school officers, and those interested in school work, are especially invited to attend.

It seems there is really to be built a railroad from St. Joseph to South Bend via Berrien Springs and Buchanan. This road will settle the question of the county seat for all time. It will help Berrien Springs in that respect. But it will not help Buchanan, for there will be a station between that place and the county seat which will do business which now goes to them. So on the south. A station will be built on Portage prairie which will do the business which now goes to Buchanan. The only hope of Buchanan will be to build up manufacturing industries. Without them the place will be almost stricken from the map as a village.—Niles Mirror.

Any extra charge for the information, Bro. Cook?

FRANKLIN MCLEAN, of St. Joseph, is in custody at Grand Rapids awaiting trial in the United States court. He wrote an obscene letter to Miss Katie Leitch, who declined to accept his attentions.—Kalamazoo Telegraph.
