There was no answer save a long, low echo and the chirp of half a dozen robins, that flew out from the grass and took refuge in the tallest tree.

The Burglary at Archers'. General Lenox had spent the winter in Cuba, but having business in Chicago, went there in the spring.

He sat down and ate and drank as he had not done in six months. At last he was brought to a realization of the awful havoc he had wrought by setting foot on the island.

He wanted to smoke, but his tobacco pouch was empty. Luckily he knew where Tom's provision was to be found, and went into the sitting-room in search of a cigar.

By Jove! said he, a virtuous reproof of my greediness in the bargain; but I must not let it know it.

By Jove! said he, I shall go as mad as a dancing dervish if this goes on. He crossed the hall to a small apartment in which Tom's wardrobe and toilet articles were kept.

At length he came out on the brow of a hill when where he looked down at his friend's domain. The house was a rambling, irregular structure, with a garden in front.

There was no answer save a long, low echo and the chirp of half a dozen robins, that flew out from the grass and took refuge in the tallest tree.

Another—it exposed some shelves. A third—there was a ladder leading to a trap, which must lead to the roof or the attic.

He picked himself up immediately, but not before he had shrieked at the old woman. Peering over the edge of the veranda roof he saw the two ladies gazing up at him.

He was not so much surprised as he had been when he had seen the old woman. "I'm quite ready," she said, and she looked at him with a force which proved that she proposed to brain him when he touched the bottom.

How to Change the Color of Canary Birds. The following is from the proceedings of the Berlin Physiologist Society.

Starting with the observed fact that the canaries fed with Cayenne pepper acquire a ruddy plumage.

Investigation of canaries, fowls, pigeons, and other birds. From these he has obtained the following results.

Feeding with pepper only produces an effect when given to young birds before they moult.

The color of the feathers of older birds cannot be affected. Moisture facilitates the change of color.

To a ruddy hue, which is again displaced when the bird is moulted.

A portion of the constituents of Cayenne pepper is quite inactive as, for instance, piperin and several extractives.

Similar to the red coloring matter of the pepper has no effect on the color of the feathers.

It is rather the triolein, which occurs in the pepper in large quantities, together with the characteristic pigment.

which brings about the change of color of the feathers of young birds.

Triolein may be used instead of glycerine to bring the same result.

The same statement holds good with regard to the feeding of birds with an artificial pigment.

The red pigment of the colors is also stored in the egg yolk as well as in the feathers.

The first appearance of the pigment in the yolk may be observed as a colored ring four days after the commencement of laying.

After a further two days' feeding the whole yolk is colored.

Dr. Sauermann is still engaged in carrying on his researches.

A Realm of Woe. "Jack the Ripper" is doing one good thing for Whitechapel.

England's attention to this realm of woe. Millions of England's wealth is annually sent over the seas to the continent.

where the masses of wretched Whitechapel are crowded together.

There are no more provisions, said Lenox, nearly ready laughing, "for I propose to stop."

"This crowning stroke of audacity so completely overwhelmed the dragon that he stood for a moment speechless."

"As soon as Tom comes, Miss Marian, you will see that it is all right."

Meaning I beg you a thousand pardons—"You'll be hanged—your word!"

"You'll do that in a court of justice," broke in the old woman, snapping the tongs together at him in fury and fight.

"Do let him speak," said the younger woman, impatiently.

"So he began again in the most mellifluous voice he had."

"I assure you," he said, "I am neither a tramp nor a burglar."

"You'll be hanged—your word!" broke in the dragon.

"Where are the rest? You've eaten all the provisions in your house, and got the valuables in your pockets."

ARTICLES of association for the St. Joseph Valley Railway Co. were filed last week with the Secretaries of State for Indiana and Michigan, the road to extend from Benton Harbor to Fort Wayne. This suits this county perfectly.

LIST of letters remaining uncalled for in the post-office at Buchanan, Mich., for the week ending Aug. 6, '89: Mrs. Theresa I. Stalkman, Miss Nellie Broadhurst, Mrs. Wardrop, J. G. MANFIELD, P. M.

Mr. ALESHIER left Sunday afternoon for Flint, to conduct a four week's session of State Teacher's Institute. Meantime Rev. Mr. Lippenot serves as quill-driver for the Enterprise.

THE Era says the first freight shipped over the St. Joseph Valley railway was a load of sheep, loaded at Oakland. There was a carload of sand brought up from Moccasin bluff for Blodgett's brick yard before the train had reached Peter Estes' place.

SPRING CHICKENS—Harry Samson was arrested, Friday morning, on a complaint of Mr. Gyonerson, on charge of stealing chickens. The case came before Justice Alexander, yesterday afternoon, a portion of the testimony heard, and the case continued to August 21.

AFTER two year's silence we can once more converse with our friends in South Bend. They have put in the Bell telephone system and connected with the rest of civilization once more. They made a gallant fight, but found they could not do without the phones.

IT is understood that a cyclone struck this town a few days since. It is not common for these peculiarities of nature to strike a town and so few people know about it as in this case. The greatest damage was done in the pedroom, and there was mourning among the patrons.

CHARLEY HIGHT vacated Dr. Roe's building recently rented by Mr. Schneider's clothing establishment and as soon as a job of renovating is completed will move his stock of dry goods to that stand, where he first commenced business in Buchanan.

BUCHANAN GRANGE had an oratorical contest last Saturday, one-half of the Grange being arrayed against the other, the losing half to furnish a dinner for the Grange. The dinner is to be given next Saturday afternoon in their hall.

REGULAR trains have been running on the St. Joseph valley road since Monday. The company makes headquarters at Berrien Springs, and makes one round trip at each end of the day. Passenger and freight trade is now local. The northern extension is to be under headway at once.

A traveling sharper worked the old and much worn cheap jewelry racket, on Front street, Saturday afternoon, and strange as it may seem he found people in the crowd who thought they were smarter than he was, and he got their money. It is a question whether the same fellows will know any more when the next tramp of the same kind comes along.

MR. ROE, ROE severed his connection with the Enterprise office last week and expects to start Monday for L'Anse, in the Upper Peninsula, when he will be in the employ of Geo. H. Murdoch, Jr., in the Sentinel office. Roe is an excellent printer, and a good fellow to have around a printing office or community.

MR. L. P. FOX takes exception to our item about the horse-traders finding one sucker. We did not intend to tell who it was, but he says it was the snoker who did the bleeding this time, for he traded a horse that was worth nothing for a colt that is worth \$80 or more, and gave \$10 to boot. We hardly thought Mr. Fox would take such advantage of a stranger, but he pleads guilty.

THE fare to Milwaukee on the steamer Lora, from St. Joseph, on account of the National G. A. R. encampment, will be \$2.50 for the round trip, without berth, and \$3.00 for the round trip, including berth, instead of \$2.50, as at first published. The boat will make only one round trip, going on the night of the 26th and returning the 30th.

WORD was received in Niles Tuesday that George Stevens, President of the First National bank of that place, had been fatally shot, in Oklahoma. He had taken a claim in that new territory which some other fellow wanted, and that was the means taken to arbitrate the settlement of title.

IT may be something new to the readers of the RECORD, but we wish to remind our citizens, and especially the highway commissioner, that there is a little strip of road about three rods long, on the town line road near the south-west corner of Buchanan township, that is in a dangerous condition, besides it is an outrage on a civilized community to have such a road left open. It should be either repaired or kept closed.

THE excursion to St. Joseph, yesterday morning, did not reach Buchanan until after nine o'clock and St. Joseph until noon. There were sixteen coaches and about 1,000 passengers, of whom about 250 went from Buchanan. A large excursion went from La Porte and another from Chicago, so the town was so full of people that it was hard to tell where the picnic was.

THE law prohibiting the sale of tobacco in any form to minors under the age of seventeen years went into effect yesterday. The punishment for doing so without a written order from parents is a fine not less than five or more than fifty dollars, or imprisonment in the county jail not less than ten or more than thirty days, or both fine and imprisonment. Dealers will be punishable for the action of their clerks, and may find it profitable to be careful.

SURPRISE.—On Friday evening last about fifty of the friends of Mr. and Mrs. J. K. Woods surprised them by their presence and presents, at their home, it being the twenty-fifth anniversary of their marriage. In a short speech, Rev. A. P. Moore, in behalf of the surprisers, presented them with a fine silver tea set and other presents. It was a perfect surprise and a very pleasant time. Ice cream and cake were furnished by Mrs. Jennie Woods, who managed the surprise so well.

THE Fish Commissioners of Michigan, at the coming State Fair, will make a complete exhibit of their work, from the incubation of the egg to fish fit to grace the table of an epicure. This industry is of the first importance to the farmer, who, by an actual study of the process, will be incited to aid in the work, which in a few years will make our lakes and rivers abound with sport that will call thousands of visitors from other states to make their homes in Michigan for a portion of the year.

ANOTHER explanation of the question of the preaching for the Latter Day Saints, by Mr. John Shook, has presented itself. It seems that instead of preaching or conducting a meeting, he was simply speaking in a prayer meeting, which was being conducted by Eld. Richardson, and that our informant was misinformed. This appears to the RECORD to be a rather fine point of distinction, and looking a long way to find a slur where none was intended or given. We fail to see where any injury might arise to the church, if Mr. John Shook did preach to them. He is an excellent citizen and most ardent Christian, and would surely teach so evil precepts.

WE hear quite a number of inquires how to get rid of poultry lice. A judicious use of persian insect powder will do the work. For the red lice, which remain upon the roosts, blow a liberal supply of the powder into every crevice where they can nest about the coop. For the large chicken lice put the powder among the feathers of the fowls. For the light black lice which infest the nests, remove the straw from the nests and burn it, put in new, and sprinkle a liberal allowance of the powder in the fresh nest. No insect can live in the presence of this powder and it takes but little to do the work, and it costs much less than to buy corn to feed the lice, besides being much more pleasant to your poultry.

THE School Inspectors of Berrien County held their annual meeting in the Court House, in Berrien Springs, last Tuesday. There was a good attendance, seventeen of the twenty townships in the county being represented. Berrien township was represented by a lady. The candidates voted for to fill the office of County School Examiners for the coming two years were as follows: Alva Sherwood, Three Oaks; Wm. Richards, Berrien Springs; O. E. Aleshier, Buchanan and H. C. Crosby, New Buffalo. Mr. Crosby having received the most votes was duly elected. The question of free school books was discussed, and many of the Inspectors were in favor of it. A resolution was drawn up and unanimously passed in favor of the graded system for public schools, as prepared by our County Secretary, Mr. Groat.

DIED, of heart disease, at her home, ten miles south-west of the village of Lawrence, Van Buren county, Mich., Mrs. Nancy A. Spencer. Deceased was born March 27, 1819, in the town of Springwater, Livingston county, N. Y., and married William B. Spencer, with whom she lived until her death. For many years she was a resident of Terre Coupee Prairie, St. Joseph county, Ind., and will be well remembered by the old residents of that vicinity. She had ever been a great reader, and had a mind well stored with general and useful knowledge, and with it possessed to an uncommon degree the faculty of conversing in a manner that at all times made her an agreeable and pleasant companion to whomsoever she met. She was a sister of Isaac and Theo. L. Borden, Mrs. Ann Williams and Priscilla Currier, and leaves of her own family, to mourn the loss of an affectionate wife and mother, her aged husband, William B. Spencer, and Mrs. Mary T. Rush, Mrs. D. E. Hinman and Frank L. Spencer. E. S. H. New Carlisle papers please copy.

MR. CYRUS B. GROAT, Secretary of the County Board of School Examiners, has just issued a pamphlet containing a graded course to be pursued in the district schools in this county in conjunction with the graded village schools, and corresponds nearly with the grades in the village and city schools. This is a long step in the right direction, and district officers and teachers should co-operate with Mr. Groat in bringing the system he has outlined into common use. In Indiana all of the country schools are graded in this manner, so that the pupils who are in any grade in the country schools may enter the same grade in any of the city schools, while in Michigan each school district is a separate nation by itself, and runs its school upon an independent basis, with no knowledge or care for any other school. Just in this point Indiana is ahead of Michigan in school matters. Michigan is much ahead in University education, but it is the district school that is nearest and of greatest value to the common people.

Consomme Soup. When we from the country go to the city, about the first thing we do is to go and get a dinner, and the first thing we order is Consomme Soup. Now I think Consomme Soup is good, but I am told it is made of the sweepings off of the cellar bottom, or sort of a house-cleaning dish. Now, we offer the sweepings off of the cellar bottom of some of the best known factories. This is the winding up of the season's business—out West they would call it a Round-up. Now, we bought these goods for this sale; they are not the sweepings from our cellar bottom. We would just as soon tell you as not, we did not pay much for this lot of stuff, you can have it as long as there is any left.

MANUFACTURING GUMS.

HOW THIS WORK IS DONE BY THE INDIANS OF PARA.

The Fore-runner of the Present Light, Waterproof Footwear... Manufactured from Cloth and Vulcanized India Rubber.

PARA INDIANS MAKING GUMS.

The rubber shoe of today was a very curious affair... The Indians first made a model of a boot or foot from a clay pebble to the locality.

When H. H. Day was erecting his factory at New Brunswick, N. J., in 1833, a German mechanic was called in to erect the engine.

Soon the Indians learned to add ornamentation by way of tawdry gilding... The first rubber shoe ever seen in the United States was brought to Boston in 1820.

Manufacturers still continue to improve in both style and quality... The styles and quality of the rubber shoe have improved.

It was a photograph taken just nine days before his disappearance... Different stories have been circulated as to his disappearance.
