The session of the Board of Supervisors will open in Berrien Springs, next Monday, Oct. 14. The question of change of boundary line between Buchanan and Niles townships will be decided upon at this meeting.

The South Bend Times publishes a column of reminiscences of boating on the St. Joseph river, running back to the days of navigation by keel-boats. We have a few citizens who were active workers in that bit of history making.

The educational facilities of Berrien county are unsurpassed. A Benton Harbor girl who recently began the study of German has progressed so rapidly that she has the Dutch measures.

It was eighteen years ago Tuesday since Mrs. O'Leary's cow kicked over the lamp and burned Chicago, and that all the country round about here was a dim of smoke and fire. It was an October never to be forgotten by those who took an active part in its trouble.

A street-car load of St. Josephites had a good scare Monday. Just as the car was crossing the draw in the bridge over the river the wind swung the draw around so that the car with its driver and fourteen passengers came very near going into the river.

The Michigan railway commission have ordered that the Burns' railroad over the old narrow gauge track between Berrien Springs and Buchanan, at once take steps to displace the narrow gauge rails with standard gauge rails as a matter of public safety.—South Bend Times.

The old fashioned school was repeated Saturday evening. The receipts of the two evenings amounted to \$112, and after paying all expenses will net the church over \$90. The play has proven profitable both in finances and fun, and all connected with the undertaking are well pleased.

The grand jury has been in session in Wayne county the past ten days, and is creating more of an excitement than a similar body did here not long since. It is expected that before the session is through Detroit board of aldermen will be holding its session in the jury room or the county jail. The jury is grinding out a lot of indictments for bawdy work in the aldermanic crowd.

The following from the Lansing Republican may be of interest to our Niles neighbors, who are now excitedly investigating the Bender family: W. G. Wiley states that while traveling in Kansas some time after the great Bender exposure there was a report around that Bender himself had been captured. His traveling companion remarked that it was not true; Bender would never be seen again, nor would his family. He, himself, had seen them all die. The Benders had been captured by a vigilant committee; taken to the Indian territory, killed, and buried in rather unique manner. An oak tree had fallen down, the upheaving of the roots making a great hole in the earth. The entire Bender family were placed therein, the trunk of the tree cut off, and the hole, roots and all, allowed to tip over into the original position, burying the murderers. W. G. seriously vows that this story was told to him by his traveling companion.

CLEM. STUDEBAKER'S magnificent mansion in South Bend was ruined by fire yesterday morning. Some workmen had been there Tuesday oiling the floors in some of the rooms and threw the rags into a closet, where they started the fire. The building was started in 1886 and was finished last February, at a cost of \$800,000. It is estimated that it will cost \$75,000 to make good the damage done. Mrs. Studenaker discovered the fire at two o'clock in the morning, and as soon as she opened the door of the closet where it was located, the flames ran through the entire building so rapidly that the inmates had close work to get out, and in saving her little grandson, who was sleeping in the upper story, she was dangerously burned. Mr. Studenaker is a member of the American trade congress, that is now making a tour of this country, and was in Worcester, Mass., at the time.

School Notes.  
In the third, fifth, sixth and seventh grades there was not a single case of tardiness during the whole of last month. The eighth grade had two cases and the high school but one.

All the different grades have been favored with numerous visits during the month, sixty-eight in all, the high school having had fifteen in all. Hope we shall be able to report more next month.

One visitor said he thought we had the best school in the county. If you don't believe it make a visit to the school and see for yourself.

BEFORE the Niles Republican undertakes to enlighten its readers further upon the rise and fall of county fairs, it might not be amiss for its quill driver to do a little studying on the subject so far as Buchanan is concerned. Perhaps we may have a wrong idea of it, but our recollection is that the Berrien County Agricultural society was originally formed as a Berrien county institution to hold its fairs in different parts of the county. It started in Niles. It held two fairs in Buchanan, the best and most successful fairs ever held by the association. The next year instead of going to some other town, was taken back to Niles and at once became distinctively a Niles institution and has remained so ever since, and is now. Up to date Buchanan has never formed an agricultural society in opposition to any other, nor ever attempted to, but we did give the lamented B. C. society a successful business, while the selfishness of Niles would allow it to remain here. Niles has had it ever since.

State Taxes.

The County Clerk has received the assignment of state taxes to Berrien county, amounting to \$82,933.33, divided as follows: University, \$2,897.38; Normal School \$7,048; Agricultural College, \$3,711; Mining School \$1,414.45; State Public School, \$1,025; School for Blind, \$4,742; School for Deaf, \$1,290.48; Reform School, \$2,350.99; Industrial Home for Girls, \$9,094.7; State Prison, \$3,700; House of Correction, \$140.25; same Upper Peninsula, \$13,772; Insane Asylums, \$1,682.50; Soldier's Home, \$1,103.32; Fish Commissioners, \$94,490; Board of Health, \$33.50; Military Purposes, \$1,183.10; Adjutant General's Office, \$7,192; Publishing Proceedings of Superintendents of the Poor, \$2.25; General purposes, \$16,000.00; County indebtedness to State, \$150.82.—Berrien Springs Era.

Berrien Springs Era.

Supt. of Poor Mars, went to Niles Monday after two children who had run away from the county farm. They go to the state school at Coldwater today. Mrs. Mary E. Dix, mother of B. Bender, died at the home of C. A. Spencer, in Benton township, Sunday night, aged 81. The funeral occurred yesterday afternoon at Pearl grange hall. Under the new tax law, the board of supervisors is to be elected by the people, two members to act with the supervisor, one elected each year, and to hold office two years instead of being appointed by the town board as heretofore. At the election next spring, however, there will be two members elected, one for one year and the other for two years.

The New Railroad.

The affairs of the Benton Harbor extension of the St. Joseph Valley railroad is at a standstill.

President J. J. Burns has gone to New York state on business connected with the line. He will be absent several days.

We cannot learn that any work is being done on the survey or grading this side of Berrien Springs.

Mr. Tabor, Highway Commissioner of Benton township, is not disposed to issue a road order for \$12,000 for the proposed new bridge until the bridge is completed. He finds he cannot sign the orders until the work is done. He thinks, however, that gentlemen interested in the line next spring would be a guarantee that will make Mr. Burns safe and that the orders can be issued when the work is done. Mr. Tabor will insist on a road over the bridge to be a good road into the city from the west, and he went among the farmers and got 65 days work with teams subscribed. Those teams have hauled 500 loads of gravel from the field of Mr. Ballard and now the work is completed. The city pays ten cents a load for the gravel and pays the shovellers.—Niles Star.

This first rails were laid yesterday on the Indiana & Lake Michigan railway, connecting the new line with the Vandalia track, south of the city, between the Harris & Putnam foundry and the round house. The work of laying ties and rails was begun in the forenoon, and by night the X connection was in the switch completed and rails down on the curve out to the point where the straight track begins across the long level stretch of Kankakee marsh. \* \* \* Sound, solid oak ties are used and the best steel rails. The force of track laying will be increased in a few days, and the work pushed with all vigor. Nearly all the grading is done between this city and Galien, and all will be out of the way along the line as the track laying progresses. The largest force on the route is now employed in making excavations at the Michigan Central crossing at Galien, the new road being obliged to go under the Central track necessitating a good deal of extra work and expense at this point. The new road will undoubtedly be in operation some time in November. There will be five stopping places between South Bend and St. Joe: two in this county, one probably at Grims-town road crossing and one on Terre Coupee prairie, at the Chicago road crossing. There will be two stations in the route, Galien and Galien and St. Joseph.—South Bend Tribune, Oct. 8.

LEAVETT'S MINSTRELS in Peak Hall, Niles, next Monday, Oct. 14.

BUCHANAN has an excellent fire department, and it makes an annual parade. The members are fine people, and too much cannot be said in their praise. Their services here at the time of the big fire have not been forgotten, and their efforts were appreciated.—Niles Star.

Burglars entered the house of the editor of Cassopolis Democrat and, strange as it may seem, actually found \$8 in money and a gold watch, which they had the hardihood to steal. Just how so much valuable property happened to be in an editor's house, is not explained.
