ALMOST WRECKED.

BY PAUL CARSON.

There was a "big" wedding. The papers had long accounts of its splendor.

Everything was as it should be, from the bride's bouquet to the bride's gown.

The bride was handsome, of good family, and an heiress; the groom was handsome, of good family, and an heiress.

It was not so easy to tell what had caused this impending disaster. It was perhaps a gathering of fragments into one great whole, a succession of little things in themselves trifling, but piled one above the other they formed a mighty structure.

It was the old story; forgetfulness on both sides that "Constant dropping wears the stone." Newly married people rarely remember old-fashioned maxims until their truth has been brought home in some way not easy to forget.

Lucille Armitage, the prettier "only child" of a wealthy widow at eighteen was too young to take upon herself the grave duties of wifehood. Douglas Marvin, at twenty-eight, was sufficient master of himself to have made a man of his own name before he had married, and learning that she was a butterfly, he jumped to the conclusion that she was nothing else, not even a butterfly.

Lucille, finding her husband exacting and impatient, called him a tyrant, and he, in return, called her a butterfly, and the words they could have done, and at length grew reckless. They quarreled as only an uncongenial man and woman can do after marriage, using the choicest language with them, and the result was that, strangely enough, it was the butterfly who became frantically jealous of her handsome husband. There was no cause, but groundless jealousy is the most unreasonable of passions, and needs almost nothing upon which to feed.

I think neither Douglas nor Lucille will ever forget the growing cast of their faces. They were not married on December night. Lucille had "sat up" for her husband, who supposed that she had gone to an entertainment at one of the most fashionable houses in the city. And, indeed, the very "sitting up" for a man is always more or less of a blunder in itself. Unless the head of the family asks his wife to wait for him she'd better not do it. Men are not to be trusted; if they are not trustworthy watching only matters worse, and the best of men have so much contrariness in their make-up that if a wife seems to have undue curiosity as to their movements, they are quite apt to treat it in a more or less disagreeable way, according to the man.

Mr. Marvin came home at midnight. He had been delayed at a down town hotel by a business appointment with a man who had but three hours to spare in the city. Unluckily the train was three hours late, and the affair which Douglas expected to have settled before midnight was not arranged until midnight. He should have explained this to Lucille, but Mr. Marvin was a very proud man, and, like others of his sex, as before mentioned, possessed of considerable obstinacy.

John C. Holmes, Editor.

An election was held in Salt Lake City, Monday, in which the Mormons came out second best, after one of the warmest contests ever known to that city.

It requires a special act of the legislature to permit a colored man to build a hotel at Fort Monroe, Virginia, notwithstanding he paid for it with his own cash. Great is the civilization of our boasted Uncle Sam.

The Republican who was recently appointed postmaster at Sheron, Ga., asks the department to accept his resignation for the reason that he is threatened with death by the bourbon brethren. Postmaster-General Wamaker has telegraphed him that the department will do all in its power to protect him. The ex-rebels will now have another chance to howl about "federal interference."

Calvin Brice is being brought face to face with a queer combination of circumstances. In order to transact some business in New York he made affidavit that he was a citizen of that city, and in order to hold the office of United States Senator from Ohio, he must make affidavit that he is a citizen of that state, and now since he takes the latter position, the authorities in Lima discover that there are taxes amounting to over \$150,000 due from him on personal property owned there by him, but not collected because he was a citizen of New York. It will be interesting to note which way the great democratic manager will take to get out of the dilemma.

Hon. Jas. Monroe, a carpet-bagger at Kalamazoo, has been appointed postmaster at that city by the revenue department over the heads of some of the older tried and true republicans.—Enterprise.

Since Hon. James Monroe is a gentleman of about seventy years of this world's experience, something like forty years in this Congressional district and about twenty-nine as a Republican, the above remark will appear a little curious. Our neighbor will know more about this people, when he has been here long enough to become better acquainted with the folks.

Not Profitable.

SPRINGFIELD, Ill., Feb. 7.—The Illinois Agricultural report shows the corn crop of 1889 in this state to have cost nearly \$100,000 more than the total estimated value, which is placed at \$55,237,040, and the total cost of production at \$65,374,872. The result attributes to the year 1889 is no new thing; in fact, the result, similarly obtained on the last 30 corn crops of Illinois, shows a loss upon it and a profit upon it, and is paid in given in the table stands at exactly \$10.50 an acre from 1860 to 1882, then it declined to \$0.75 for the crops of the last two years.

Every enumerator appointed to make the census is required to take an oath that he will perform his duties faithfully. They take this oath in the light of the fact that if they violate it in any particular, they are liable to a fine of \$100 and to imprisonment, and the violation is punishable by the United States authorities. This means that no man appointed as an enumerator will dare to sign a false name on his list. The supervisor is placed under the same restrictions. And the law goes still further than this, and makes every household liable to a fine of \$100 if any person goes or fails to give accurate and complete answers to the questions asked by the enumerator. This is done in order to secure the most reliable and accurate returns possible. The enumeration will begin the first day of June, and in cities close in fifteen days, and in country districts in thirty days. The pay of the enumerators will be by the day or per capita, will be able to make about \$8. The pay of the supervisor is \$1,000, and out of this he pays all his expenses.—Chicago Inter Ocean.

The Michigan Club Banquet.

The Fifth Annual Banquet of the Michigan Club was held at the Detroit Hotel on Friday evening, February 21. These banquets have hitherto taken place on the 22d of February. Washington, D. C., was the theme of the date this year falling on Saturday. It was thought desirable to change it to the day before, so as to give the members throughout the state who will attend, an opportunity to bring their families for Sunday. The annual gatherings of the Club have now a national reputation, and are looked forward to with much interest by people of the entire state. Not only is this so, but the proceedings are published, and attract much attention all over the country. The most prominent men in the state are invited to attend, and the exercises of the four preceding banquets, and the present one will be no exception. Senator Stockbridge was the guest of honor, and the address was a welcome and the Michigan delegation in Washington will be well represented. Secretary of the Interior Noble, Senator W. F. Fry, of Maine, Senator Gilbert, of Massachusetts, Ex-Senator Blanche K. Bruce, Hon. O. Bradley, of Kentucky, and Hon. J. M. Thurston, of Nebraska, temporary chairman of the last Republican convention, and several other prominent country affairs, have positively promised to be present and respond to toasts. It is also possible that Chauncey M. Depew, Gen. Wm. Mahone, of Virginia, Congressman Lodge, of Mass., and Congressman Henderson, of Iowa, will be present.

The heating and lighting of the banquet hall will be looked after, and the building made particularly comfortable. The Club has secured the services of a first-class decorator, and the decorations this year will be elaborate, artistic and unique. A number of attendants will be in the check room, to look after the checking of coats, hats, etc. Plenty of ushers will also be in attendance to show people to their seats, and all confusion will be avoided. The attendance at the banquet will be confined to the members of the Club and to members of Branch clubs in good standing.

The price of tickets will be the same as previous years, \$5. The Michigan railroads will give special rates to parties of ten or more, on application to ticket agents. An informal reception to the speakers will take place on the afternoon of the 21st, at the Club House at three o'clock.

The annual election of the Club for the ensuing year will take place at the Club House during the day of the 21st. Open house will be observed on that day, and luncheon will be served from 11 A. M. to 2 P. M., and all members are cordially invited to call. The Club House is at 99 West Fort street, two blocks from the City Hall. All Republican members of the club are urged to bring \$5 a year, the member-

ship fee of \$5 covering the first year's dues.

The officers of the Club are Hazen S. Pingree, President; Horace Hitchcock, Vice President; Col. Fred. E. Fansword, Secretary; and Frederick Woolfenden, Treasurer.
