It has been discovered that the person who shot at the Lake Shore train, near Elkhart, mentioned last week, was the work of boys.

A Miss Crofut, of Mishawaka, is blind in her right eye, as the result of allowing her brother to point a Chicago air gun, which was "not loaded", at her. The bullet struck through the eyelid and pierced the eyeball.

The dead body of a well-dressed man in an advanced stage of decomposition was found in a haymow in South Bend, Monday, with a bottle labeled laudanum lying near it, papers signed by G. A. Daugherty, were found in his pockets. The Tribune says he was supposed to be a barber belonging in Mishawaka.

Michigan Democracy is coming to the front in great shape. A warrant was issued for the arrest of the Democratic Senator from Ontonago for assault with intent to do great bodily harm in a Lansing house of prostitution. His friends labored with the complainant, and the warrant was not served. Reform is necessary.

The "squat-back" legislators are doing what it is to nullify the liquor law of this state. It has under discussion a bill materially reducing the tax and so changing the wording of the law that judgments by prosecution under it will be unknown. Should the bill become a law it may be credited as one of the benefits (?) of a democratic legislature.

The squaw-buck legislator, Fridlander, seems to have imbibed something of the Indian characteristic. He voted "no" on the female suffrage bill, Indians don't have a very exalted opinion of their squaws.—Three Rivers Tribune.

The time of meeting of the various boards of supervisors for the purpose of equalizing the assessment rolls in the years in which the Board of equalization meets, was changed by special act from the second to the fourth Monday in June, Circulars, giving notice of the meeting to be held in various counties next month, are being sent out by the auditor general.—Detroit News.

Two children in one family in Fulton county, Ohio, died of diphtheria last week. Their parents refused to give them any medicine, but "trusting in the Lord" to effect a cure. The cases are referred to the State Board of Health, which has ordered the parents to employ a physician. They are "faith curists" and would not. The legal authorities were consulted and the fact was developed that there was no law in existence by which parents can be compelled to employ proper medical attendance for their children in cases of this kind.—South Bend Tribune.

CRITIC OF MEXICO, May 22.—Adolph Scriber and George W. Powers are now on the Pacific coast appointing agents for a new steamship company whose principal shareholders are the directors of the Illinois Central railroad. The new company will run steam ships to connect with the Illinois Central railroad from Colon or Aspinwall, touching the principal ports of Mexico and Central America. Another line will be run along the western coast from Panama, touching at all the ports as far north as San Francisco. This is to be the first effort of the American Congress, and it is stated that the lines will be extended to South American ports on both the Pacific and Atlantic.

President Harrison's ten thousand mile journey has done the country good. It has been instructive to the whole people. The railroads have benefited by the demonstration of their immense capabilities. Here is a trip in comfort and even luxury, twice across the continent, right on time, the whole distance, crossing rivers and mountains and deserts, passing through drought and rain storms and the president meets and addresses hundreds of thousands of his fellow citizens. He has seen the country and has preached peace, industry and good will. He has maintained the dignity and added to the prestige of his office. He has been clean, upright and unselfish. He has done much to promote the conditions of growth and the "E Pluribus Unum" sentiment. This is a distinct and happy public service. Now, the democratic newspapers must give the president a fair trial in calculating the cost of the journey and ascertaining who pays all the railroad expenses.—Cincinnati Commercial-Gazette.

ADDITIONAL LOCALS.

The aphid will injure the wheat to any great extent, the crop in this section is in poor prospect. The flies which produce the lice are so thick that they can be seen in clouds over the field at a distance of eighty rods thicker than any bee swarm ever heard of. They hover about every spot of field that is of specially rank growth, and appear to avoid the poor spots of ground, but they are thick enough in rich places. Their humming can be heard a dozen rods. To walk through some of the fields on Portage prairie is equal to facing a snow storm.

The aphid may be killed by spraying with kerosene emulsion, made by mixing kerosene with a strong soap suds, and stirring violently. This will kill the flies, or will kill the lice when they appear, later. The formula recommended by Prof. Cook of the Agricultural college at Lansing, is to dissolve one quart of soft soap or one-fourth pound of hard soap in two quarts of water by bringing to a boiling point, then mix one pint of kerosene and stir violently three to five minutes, by pumping the liquor into itself through a small nozzle. Then for this use double the bulk by adding water. This forms a mixture which is fatal to all such insects, whether they eat it or come in contact with it.

A REPRESENTATIVE of the Thompson-Houston Electric Light company was present at the meeting of the Common Council, Tuesday evening, and asked for a franchise for an electric light plant in this place. The matter was referred to the street committee. The same committee was instructed to investigate the bearings and boundaries of Front street, from Portage street to the Niles hill, with a view to settling the question of N. Arney's south line, and to clear the street of whatever may be in it which does not belong there. Nothing was said about putting a tile into the gutter at Morley's corner and leveling up the hole that runs across the street. A petition was also referred to the same committee, asking that Berrien street be given an opening at its north end by extending the street down the hill to the J. C. Marble lots, just east of the St. Joseph Valley road. A meeting of the council, to which property owners along the south side of Day's avenue, from Front street to Spencer & Barnes', will be invited, was decided upon to be held in the bank to-morrow afternoon, to settle upon the best method of permanently covering the creek at that point. This is the worst appearing place about the central part of town, and is a dead give-away to the town to every stranger who comes in from the Michigan Central. The cow nuisance was discussed, and it was decided that hereafter whoever ties a cow in the street to pasture, or so he can get into the street in any part of town, will get into trouble. Notice of this will be found in another part of this paper. Hire a pasture or don't keep a cow.

We find this choice bit of literature in the temperate column of the Independent, and as the editor, and, supposedly, the contributor of the article are both members of some church, or they must know whereof they speak. The Record had not thought churches such a bad lot, but not being a member must take the word of those who are, in regard to the character of the institution:

As a rule, the church, by a positive refusal to stand on the side of temperance, is the powerful ally of the liquor interest, which may thus in truth be said to have more than 2,000,000 voters in this country united to protect the making of good men bad; of bad men worse; thieves and murderers of girls; beggars and wrecks of women; helms of homes; and misery even more widespread and universal than it is. Meanwhile, preachers and laymen cheat God and themselves by favoring high license, and the doors of half the churches in this country open directly into houses of ill fame, into grogeries and into hell. So it is that in this so-called Christian country the church is in league with hell; the ministry is in partnership with the workers of physical and mental ruin.

It seems as though someone had to be killed on the railroad, around here, about once a month to show people that such a thing is possible, and warn them to be more careful. The last victim is Alma R. Richardson, who was killed at New Buffalo Monday afternoon. He was working on the extra gang from here, at that place, and it seems that he stepped aside to let the mail train that gets here at 4:37 pass, but stood upon some loose dirt beside the track, and the motion of the train caused him to lose his footing, and he fell over against and under the train, and was killed instantly. His home is 1 1/2 miles north of here, and he was brought to Galien on the midnight train. The funeral services were held at the Baptist church, Wednesday afternoon, Rev. Cashman officiating. The inviolable mother and the relatives have the sympathy of the entire community.

Someone has been poisoning the cats, around here. Although we can spare a few cats, it is rather dangerous business to throw poison out where anybody or anything can get it.

Why not celebrate here on the 4th of July?

STATE OF MICHIGAN, County of Berrien.—ss.

All persons are hereby notified that there has been filed with the County Clerk of the county of Berrien, Michigan, being the clerk of the Board of Supervisors of said county at his office in the village of Berrien Springs, in said county, a petition executed by the village of Buchanan, in the President and Clerk, praying leave to construct a dam over and across the St. Joseph river, in the village of Buchanan, and county aforesaid, at any point on its course between the east line of said village and the west line of section twenty-five (25), township seven (7) south, range eighteen (18) west, where said line crosses the said river. Upon shore end of said platform will be built a stone abutment, against which will be the ends of said dam. WHEN the skunk farm north of town gets in full running order, we shall have a bottle of perfume sent to the Niles Sun for its nerves. It gets excited too easily over small matters.

An eastern wool-buyer sends word to Eaton Rapids that he will no longer buy Michigan wool on account of the unclean condition of the product. It is a lamentable fact that Michigan wool will bring from 3 to 5 cents per pound less than Ohio wool, this year, and all because of the floor sweepings and tags that have been put in the fleeces by dishonest farmers. One of Eaton Rapids' buyers was charged back with \$80 for tags found in his wool last year. Still he is one of the most careful buyers, and critically examined almost every fleece taken in at his warehouse.—Detroit News.

ELM VALLEY and Mt. Tabor Granges will join Mt. Hope Grange in the observance of Children's Day pleasures at the grove of Austin Adams, near Hill's Corners, June 6. It is desirable to open the exercises on the grounds promptly at 10 a. m. A good program will be carried out by the children of the several granges assembled. Fellow farmers, let us prepare to lay aside our work for that day and repair to that grove and take our children and our neighbor's children, and every other person, for a day of enjoyment with the children. Bring plenty to eat and some to divide with others. Arrangements will be made for a table dinner. A committee of ladies will prepare the tables. R. V. CLARK.

The prospect for fruit in the vicinity of Hill's Corners could hardly be better than at present. Mr. Jacob Miller has a fine thrifty young peach orchard which is covered with peaches, and his cherry trees will have their full task to bear what is on them, and all apparently healthy.

A MOVEMENT is on foot to secure the building of cement walks the full length of Front street, from Oak street west, in place of the brick and plank which now grace the street. This, and the removal of the old rickety fences from the front of some of the lots, will make Front street one of the prettiest streets in Michigan.

A NUMBER of the bridges where streets and sidewalks cross the creek, in different parts of town, are in need of repair, and none of them should be repaired without putting in stone abutments and making them good for all time. The idea of making temporary repairs in such places, which must be repeated every few years, is all wrong. The lesson learned in the building of the arch over the creek at the foot of Day's avenue, should be applied to other parts of town. Let once around be sufficient.

One evening he came home from the village

Face. A bright smile greeted his glance,
And as she tried to keep back the tears
She said:
