# BUCHANAN RECORD.

JOHN C. HOLMES, Editor.

THURSDAY, JANUARY 7, 1902.

For the first time in ten years, New York has a governor who has a wife.

South Bend saloon-keepers are forming a stock company to brew their own beer.

New York people think Dan Soper would make a shining light in Tammany. He certainly has all of the ear marks.

Three surveying parties are at work to find a feasible route for a railroad to connect Mexico with Patagonia by way of Panama, Quito and Rio Janeiro.

If Senator Sherman's re-election depended upon the vote of the republican party outside of Ohio there would be no other candidates in the field.

There is said to be a plan maturing for New York to go Michigan one better in the matter of the election of presidential electors by having them appointed by joint ballot of the legislature. Ex-Gov. Hill has succeeded in so manipulating the returns as to be pretty sure of a Hill majority on joint ballot, and this seems to him to be the most direct way to get there.

The committee which investigated the affairs of Dan Soper in the office of Secretary of State find him owing the state \$9,687.70, not to mention matters of minor crookedness. No recommendation is made as to his treatment. It is safe to prophesy that he will not be prosecuted as there are too many others of the squawbuck administration in the nest with him.

In the inquest on the bodies of the persons killed by the collision at Hastings on the New York Central on Christmas day through the failure of the brakeman to signal the train, the jury rendered their verdict holding the brakeman guilty of manslaughter in the second degree and the train dispatcher who sent the train out on irregular time without due notice, accessory.

The Governor of Kansas yesterday appointed ex-Congressman B. W. Perkins United States Senator to fill the vacancy caused by the death of Senator Plumb. The appointment of Mr. Perkins will be very satisfactory to the Republicans of the country. He was born in Ohio, lived for many years in Illinois, served with credit in an Illinois regiment during the war, and has a most honorable record as a public man in Kansas. Ex-Senator Ingalls declared him to be one of the best equipped men in the State for United States Senator. -Inter Ocean, Jan. 2.

## ADDITIONAL LOCALS.

FATAL ACCIDENT.—On New Year's day Samuel Martin, a lad named Lampe and Samuel Hess, Jr., youngest son of ex-county treasurer Samuel Hess of Three Oaks went to the south-east corner of Three Oaks Township rabbit hunting. Lampe had seen a rabbit run into a pile of brush and was watching for it while the other two boys went by another direction. Presently Lampe saw his rabbit and shot, but as soon as the smoke cleared away, he was horrified to see that he had poured the entire charge into young Hess' body, striking his arm and entering the body in the neighborhood of the heart, and killing him almost instantly. The boys went for assistance and had their dead companion taken home to his parents. The young man was seventeen years old and a well liked and promising young man.

DURING the past few weeks some changes have been made in the situation regarding the building of the dam. All of the owners of the property adjoining the river that will be over-flowed by the backed water have been seen and the land can be bought, but nearly all of it at from two to eight or ten times its actual value, and making the right of way cost twice what was thought to have been a high estimate. The question that must be decided between now and warm weather is whether the village shall calmly submit to this wholesale bleeding or abandon the project entirely. The people who pay the taxes in the village of Buchanan would like to do what they can to make the farms along the river more valuable but do not quite feel like doing it in this manner.

THE Niles Star publishes a list of 106 deaths which occurred in Niles and vicinity, including sixteen brought to Niles city for burial, from the record kept by Dr. O. P. Horn for the year 1891. Of these deaths, 20 were of consumption; old age, 11; pneumonia, 8; dropsy, 4; congestion liver, 1; cancer, 3; apoplexy, 3; la grippe, 1; drowed, 2; blood poisoning, 2; liver disease, 1; heart disease, 7; rheumatism, 1; injuries, 2; softening of the brain, 2; whooping cough, 2; chronic gastritis, 1; complication of diseases, 1; killed by cars, 1; diseases not known, 7; cholera infantum, 2; tetanus, 1; bilious fever, 1; neuralgia, 1; ulceration of stomach, 1; hemorrhage, 1. 7 died in January; 3 in February; 12 in March; 16 in April; 9 in May; 4 in June; 5 in July; 8 in August; 8 in September; 8 in October; 5 in November and 6 in December. The oldest was Mary Mead, 95 years.

At the reunion of the Twelfth Michigan Infantry held in Niles last Thursday and Friday, the roster contained the names of 124 members. The following officers were elected for the ensuing year:

President, Capt. S. E. Graves, Adrian, Vice Presidents, Joseph Edwards, Dowagiac; John Graham, Buchanan; John Gately, Lansing; Jos. Ruff, Albion; Ova Nutting, Benton Harbor; John L. Crofoot, Niles. Secretary and Treasurer, Will Horton, Hartford. Historian, G. W. Lewis, Allegan. Chaplain, Sergeant W. W. Fuller, LaPorte, Ind.

Committee on Arrangements for the next meeting, Jos. Ruff, Chairman; Wallace Scott, Geo. R. Weldon, Wm. H. Ford, Wallace Green, Smith Chaffield, Michael Keck.

## Obituary.

John Roven, the oldest person in Bertrand Township, died at the home of his son, Wm. Roven, three and one-half miles south of Buchanan, on New Year's day, at the advanced age of 94 years, 10 months, and 9 days. Father Roven was born in Dauphin county, Penn., Feb. 28, 1707. At the age of eighteen, he joined the Evangelical association, and remained a consistent member of the same until his death. In 1855, with his three brothers, Jacob, David and George G., he came to Berrien county and located on Portage Prairie where he lived until his decease. Before leaving his Pennsylvania home he was married to Elizabeth Swartz, with whom he lived sixty-seven years. The deceased was the father of nine children, two of whom, with his wife, preceded him to the grave. Seven children, thirty-eight grandchildren, sixty-four great grandchildren, and four great, great grandchildren are left to mourn the loss of the aged father. The funeral services took place from his late home, on Sunday afternoon, at 1 o'clock, Rev. Koeber, of the Prairie church, officiating. The remains were interred in the Portage Prairie cemetery, by the side of his life's companion. The estate in which Father Roven was held was shown by the large number who attended the funeral, notwithstanding the inclemency of the weather.

## The Farmers' Institute.

The Farmers' Institute opened on Monday evening, Jan. 4, with Hon. Wm. Chamberlain in the chair. The program for the evening consisted of a symposium on the road question. Mr. Freeman Franklin showed that the money value to farmers of good roads was very great, and further maintained that they promoted sociability and culture, upon which no money value could be placed, but yet were valuable.

A. L. Drew, of Three Oaks, gave the proper method of making a good road. This depended very much upon the lay of the land and numerous other considerations, and it was only possible to give general principles. The cost varied much, and depended largely upon local conditions.

Otis G. Harding spoke of the proper ornamentation of the highways, and suggested that instead of making them the dumping ground for all sorts of trash, they should be kept neat and clean, and that one should take the same pride in keeping them this way as he does in having a beautiful lawn. Dr. Miles, of Lansing, gave a short description of some of the famous roads of England. These, of course, we do not have in this country, but he made one point that is exceedingly valuable, viz.: That a road once good is never allowed to get bad. As soon as a rut starts or a hole is made it is mended, acting on the principle that "a stitch in time saves nine."

Much discussion was brought out on this question. The main point made was that the highway tax should be a paid money tax, this money to be expended under the supervision of one experienced man.

The institute opened on Tuesday morning with a few remarks by Dr. Beal. He suggested that since the universality of this state sends men out to lecture on different subjects, and other schools are making the people acquainted with their work, it was eminently proper that the Michigan Agricultural College should send its teachers out among the agricultural masses, giving them instruction on subjects connected with their business, and also advertise the college as best they may.

Mr. Holden presented the first of his lectures on "Wheat Culture." These lectures are pleasing and full of instruction, and will perhaps be printed in full in due time.

Dr. Miles spoke of the relation of live stock to other interests on the farm. He maintained that the animal was a machine; that the feed of different kinds raised on the farm was the raw material, and that the beef, wool, pork, etc., sold, were the finished products. He laid great stress upon the fact that a large amount of food went to waste, and that a farmer should curtail expenses and cost of production by turning these waste products into some product that has a money value.

Prof. Kedzie filled his hour of the day with experiments on different gases. He showed how many substances could be separated into their simple component parts, and again how these gases can be combined to form these substances. So far he has simply been introducing to the public the subject of chemistry. During the days that follow he will, in the hours allotted to him, draw many practical conclusions from these experiments.

Prof. Kedzie, in his side-show, the laboratory, interests both old and young. He gives all a brief inkling of the many beautiful and instructive things one finds in the study of chemistry. Prof. Taft spoke of the origin, improvement and propagation of the apple. He showed many samples of trees, which illustrated his views, and from which he deduced many practical facts.

Mr. Davis spoke of the Arsenites as Insecticides. He named the pests that they would kill, and gave the proper rules for making these combinations. These will eventually appear in pamphlet form, and as every person who wishes to successfully grow plants of any kind must be well posted on this subject, it is well that they should have on hand one of the hand books that give all these formulas.

Dr. Beal presented his class from the high school. They gave the results of their investigations in Indian corn. These were important, not so much for the facts learned about corn, as for the insight the class got of the present methods of studying plants and animals.

The evening was well spent in listening to Sec. H. G. Reynolds' lecture on what he saw in Egypt. The lecture was illustrated by stereoscopic views, which were interesting.

The work of yesterday was a continuation of the same subjects as were treated by the speakers on the previous days. The Record has arranged to publish some of the papers as have been reduced to manuscript, as soon as the copy may be procured after the institute at Rochester is closed.

## FROM GALEEN.

Mrs. Catherine North, wife of A. C. North, died of consumption, at the hospital at Marshall, Mich., on Wednesday, Dec. 30, aged 30 years and 6 months. The remains were brought here for interment, and the burial took place at the Martin cemetery today, with services at the house at 10 o'clock, conducted by Rev. W. C. Hicks. The deceased leaves, besides her husband, one child fourteen months' old. She was born in Weesaw township in this county. She was an orphan child raised by Capt. Dennison, at Gallien.

The above, taken from the Benton Harbor Palladium of Jan. 2, will be sad news to every one in this community. Mrs. North, though perhaps better known here as Kate Moynahan, was a general favorite and well-known throughout the surrounding country, and all will mourn her loss.

Mrs. S. B. Smith, of Jackson, is spending a few weeks with her mother, Mrs. G. A. Blakeslee.

Mr. Potter has purchased the farm property of J. D. Bagley, situated a mile and a half north-east of here.

Mrs. Jennie Cone and Mrs. Mary Blakeslee returned from South Bend Monday. They witnessed the burning of the woolen mills at Mishawaka, Monday evening.

Mrs. W. A. Endley, of Walkerton, Ind., is home visiting her parents, Mr. and Mrs. A. J. Jones.

Rev. Emanuel E. Potts preached at the town hall, Sunday evening.

Mr. Peter Ash is a sufferer with the "grip." The same may be said of a great many more of our citizens.

Miss May Brewer, of Buchanan, visited over Sunday with Dasa Babcock.

Mrs. Maggie Beach returned to her home, in Pullman, Monday.

Mr. J. P. Reese and Frank Paul, who were home for the holidays, returned to Paoli, Ind., on the 4th inst.

A postponed meeting of the G. A. R. will be held at their hall Saturday evening, and as the installation of the new officers will take place, all members are especially requested to be present.

Judging from the talk of the last few days, we conclude that there are several boys in this place who would, if they could find a hole small enough, crawl into it and pull the hole in after them.

Miss Nellie Zimmerman, who is teaching at Greenville, Mich., and Miss Nettie Zimmerman, who is attending school at Ypsilanti, spent the holidays with their parents here.

Real estate appears to be on the move this winter. The selling out of John Renbarger to John Oubert, and of Samuel Jackson to Reuben Wheaton are the latest exchanges. Business will be carried on as before at the old stands.

Redden Bros. who have been busy for the past six months improving the mill property and placing in it a new set of machinery, including the roller process, started their mill Monday, and are now prepared and are turning out just as good a quality of flour as can be made anywhere, and our citizens now, instead of having to buy flour of Benton Harbor or Niles manufacture can purchase just as good of home manufacture.

FROM BERRIEN CENTRE.

B. H. Butler has been on the sick list for a few days but is able to get out again.

Mr. John P. Shaffer, since returning from Valparaiso, has been quite severely afflicted with la grippe.

Mr. Frank Fisher, of Keeler Centre, is the guest of his uncle, John H. Fisher.

Miss Jessie Howzer of Dowagiac is visiting her aunt, Mrs. Susie Dickson.

Mrs. Frances Terrent is on the sick list. Dr. Mason of Berrien Springs in attendance.

Mrs. Lilly Vaughn of Unadilla, Nebraska is here for a four weeks' visit with her parents, Mr. and Mrs. J. A. Becker, and other relatives. Mr. Oliver A. Becker will return to Wittenberg college, Thursday of this week.

Sleighs are running again but the roads are in bad condition.

The County Drain Commissioner will have a call to locate a big drain in this township in the near future.

Mr. Wm. H. Miller has been appointed commissioner on the E. T. Dickson estate in place of J. S. Wright, deceased.

MUSKEGON correspondence Grand Rapids Democrat.

"The Muskegon Boiler Works has closed a contract with St. Joseph, Mich. for the building of a standpipe, 100 feet high and fifteen feet in diameter. It is to be constructed of open heart steel, with a tensile strength of 90,000 pounds to the square inch. This is the first company will also build two sixty-inch boilers for the pumping station at that place, the entire contract amounting to about \$20,000. The company is now rebuilding and enlarging its plant."

The Colby milling company is this week engaged in grinding several carloads of flour especially designed for making passover bread for the Jews. This flour is ground from a mixture of grain, comprising No. 1 hard—the best spring wheat grown in the Red River valley of Dakota—and the best selected red and white winter wheat of home growth, in such proportions as experience has demonstrated is best suited to this purpose, as this passover bread has no leavening whatever, being made of water and flour alone, and baked in thin sheets about 14 inches square. Rabbi Abraham Rabinowitz, of Chicago, accompanied by Mr. Wittenburg, a professional baker, and two assistants came to the city on Tuesday morning to superintend the manufacture of the flour, which is being ground at the roller mill. The greatest care is used in the manufacture of this flour, a brand new bolting cloth being required, while no other work is done by the mill until this particular order is filled. The mill makes about 2,000 barrels of flour over four which has been ground at this mill during the past three years, a greater quantity, probably, than has been furnished by any other mill in the United States for the same period of time.—Dowagiac Times.

## ROYAL BAKING POWDER

### Strongest, Purest, Most Economical.

Certain baking powder makers are publishing falsified extracts from the Government reports, with pretended analyses and certificates, wherein an attempt is made to compare their baking powders with the "Royal," or making bogus tests from house to house, their obvious purpose being to counteract the recent exposures of the inferiority of their own goods arising from their impurity, low strength, and lack of keeping qualities as shown by the Government chemists and others.

As to whether any of these baking powders are equal to the "Royal," the official tests clearly determine. When samples of various baking powders were purchased from the grocers, and analyzed by the United States Government Chemists and the Chemists of State and City Boards of Health, the reports revealed the fact that the "Royal" contained from 28 per cent to 60 per cent more leavening strength than any other cream of tartar baking powder, and also that it was more perfectly made, of purer ingredients, and altogether wholesome.

As these powders are sold to consumers at the same price, by the use of the Royal Baking Powder there is an average saving of over one third, besides the advantage of assured purity and wholesomeness of food, and of bread, biscuit, and cake made perfectly light, sweet, and palatable—advantages not to be had in the use of the low-grade, cheaply made baking powders that contain lime, alum, and other impurities.

Court has been in session this week, commencing Monday with the case of the People vs. Chas. J. Murphy, who was found guilty of selling liquor on the Crystal Springs camp ground. During the session ending the 17th, he was given until the 25th to appear for sentence, at which time he was given 60 days to prepare and settle a bill of exceptions, and entered into a recognizance, to appear at the expiration of that time.—Cassopolis Vigilant.

## From Niles Star.

The Niles City Band will give a concert at Buchanan just as soon as they can make the necessary preparations, then perhaps they will play at Benton Harbor about the same time, and then repeat the concert at Dowagiac with an entire change of programme.

Edward Rough, residing four miles west, was driving a flock of sheep out of a pasture field this morning when a buck turned on him and showed fight. Mr. Rough kicked the buck behind the light continued when he struck him with his right fist and fractured a lower bone of the arm. Mr. Rough finally disposed of the maddened buck by beating him off with a club.

## A Unique Magazine.

A unique experiment will be tried in the February issue of *The Ladies' Home Journal*. The entire number has been contributed in prose, fiction and verse by the daughters of famous parents, as a proof that genius is often hereditary. The work of thirty of these "daughters" will be represented. These will comprise the daughters of Thackeray, Hawthorne, Dickens, James Fenimore Cooper, Horace Greely, Mr. Gladstone, President Harrison, William Dean Howells, Senator Ingalls, Dean Bradley of Westminster, Julia Ward Howe, General Sherman, Jefferson Davis and nearly a score of others. Each article, poem or story printed in this number has been especially written for it, and the whole promises to be the successful result of an idea never before attempted in a magazine.

## Relics of the Elated Jeannette.

More remarkable than the drift of the Jeannette itself is the fact that a number of objects belonging to her or about her were found in a place near Julianshab, on the southwest coast of Greenland, just three years after she had sunk (June 13, 1884). Among these objects the following may be mentioned here: A list of provisions with the signature of De Long, the leader of the Jeannette expedition, written in his own handwriting; a written list of the boats of the Jeannette; a pack of dresses made of silk linen, marked "Louis Norcross," which is the name of one of the men saved from the Jeannette and still living. When it was first made known that these objects had been found, some people in America were rather skeptical, and it was even pretended in American papers that the whole story was a lie. But how could it be so? What could the poor Eskimos of Greenland know about the fate of the Jeannette? The above mentioned facts speak for themselves, and need no further testimony.

These objects must have been left on the ice either near the place where the Jeannette sank or somewhere on the route of her crew toward the Lena delta. From this region the ice currents have been floated by sea currents to the southwest coast of Greenland, where it was found.—Dr. Fridtjof Nansen in Forum.

## New York Ways.

"I notice a great difference in dress and customs in New York from what we have out our way," said an Indiana man at the Hoffman. "Now, there are these red shoes. If a man appeared on the streets of my town with red shoes, a flannel shirt and a sash he would be mobbed. And yet those who wear them here look nice and fresh and comfortable. I never saw a sash or red shoes in my town. The first thing I noticed at the table here was a man taking a lump of sugar between his fingers. I thought he was very impolite at first, but I soon saw that nobody uses sugar tongs, as we do."

"Then there's that individual butter knife everywhere. We've outgrown the custom of eating with a knife and everybody dipping into the same dish with it, but we think our butter knife is good enough. And yet it seems like a very sensible thing that a man shouldn't have to spread the rest of his food on his bread along with his butter, when you come to think of it. I notice some of these people don't spread at all, but break their bread with their fingers into pinches. I don't think we will ever get up to the idea that a man must get up behind the barn to pick his teeth. That's playing a little too fine."—New York Herald.

## How a Caterpillar Eats.

The caterpillar feeds with two saw edged jaws, working transversely, and uses them to such good advantage that he eats three or four times his own weight every day. Toads, tortoises, turtles and most lizards have no teeth. Frogs have teeth in their upper jaws only. Anteaters, sloths and armadillos have no teeth.—New York World.

State Items.

Puw Paw has a new artesian well that discharges 1,000 gallons of crystal clear water per minute. The "dry" county is thus being helped out in excess of all anticipations.—Detroit Journal.

Folding beds at the state capitol may not be an absolute necessity, but the recumbent and expansive qualities of the Soper scandal are making the administration so tired that they may come in handy.—Detroit Tribune.

Miss Gibbs, a maiden lady of 35, attempted to cross the railroad track at Hillsdale on Friday while the bell was ringing. It was a freight locomotive that struck her, and it wasn't going very fast, but she rode several blocks upon the pilot, and doesn't care to do it again, even though she wasn't hurt a bit.—Detroit Free Press.

Dr. F. B. Brewer.

LA PORTE, Ind., June 25th, 1899.

Dear Sir: According to request I now write to you. I am very much pleased with the result of your treatment. I have been greatly relieved of my bronchial troubles, and am sure that I am much better of my kidney and heart troubles. I am altogether better than I was when I first began your treatment.

I would cheerfully recommend to whom it may concern, your method of treatment, for it far surpasses that of any other physician I know of. Your success is the best recommendation I can give you.

Yours very respectfully, EDWIN R. NILES, Late Brig. Gen. Volunteers, U. S. Pension, Claim Agent, and Notary Public, La Porte, Ind.

He is old enough to be sure that down on his upper lip will never be feathers.

WM. HANOVER, a citizen of this vicinity the past forty-seven years, died at the home of his son, John Hanover, in this place, Thursday night, of paralysis, aged 78 years. The funeral was held at the house, Sunday afternoon, Rev. Wm. F. Birdall officiating.

The year 1891 gave the RECORD job rooms the heaviest year's business ever had, amounting to \$5425.17. In 1890, it was \$5087.11, in 1889, \$5407.62. The increase of 1891 over 1889 is not enough to boast very heavily of but it is an increase.

WM. RADIGAN and John Adams, of Niles, attempted to cross the Michigan Central ahead of the North Shore limited, Monday afternoon. They got across and are still among the living and sound in body, but they have been obliged to buy a new buggy. They will not try it again.

DURING the last sickness of E. R. Ashbrook, whose remains were brought to this place for burial last Thursday, Mrs. Ashbrook was up eight days with but two hours sleep. As a result, she was taken sick just before leaving Englewood and died this forenoon, at the home of Mr. E. J. Roe.

ROBERT GRAHAM reports that during the past summer his boys, hunting on the Geo. Colvin farm, have succeeded in capturing 53 woodchucks, 11 skunks, 13 fox squirrels, 23 red squirrels, 70 gray rats, 23 rabbits, 2 muskrats.

Gov. WINANS has appointed Robert Blacker, of Manistee, formerly of this place, to succeed Dan Soper in the office of Secretary of State. Rowley, the offending deputy who did not propose to divide salary with Soper, will remain in his position. The war in the Democratic camp, brought on by Soper's disgrace, is by no means at an end.

The gripe is finding about as many victims in this section as it did two years ago, and is fully as severe in its attacks. The poem on first page of this paper will be appreciated by those who have had it.

Mrs. H. D. LAW died in Worcester, Mass., December 31, 1891. She was a sister of Mrs. E. M. Griffin. Mr. and Mrs. Law were at one time residents of this place and built and lived in the house now occupied by Mrs. Le Gore on Detroit street.

The people in Benton Harbor speak very highly of the entertainment given by A. R. Carrington. In that place Tuesday evening. Mr. Carrington's entertainments will be the first two of the course in this place. Next week, Thursday and Friday evenings and an afternoon matinee for the children.

An ardent St. Joseph youth who has been keeping close company with a Stevensville young lady procured a marriage license and was going right on with the wedding without first consulting the young lady on that particular point. He is now mourning the loss of his wealth spent in preparation.

THE machinery in the Benton Harbor Palladium office is now driven by four-horse gas engine. A similar power will be put into the Record office at an early date, but we shall not think of trusting to less than six horse power to do the work.

SCRIBBLERS who receive their mail at Glendora are requested to notify this office at once of any failure or irregularity in the delivery of the papers to them, and we will make a strong effort to discover where the trouble is and have it corrected.

A STRAY circus performer amused the people in this place New Year's day by a number of very clever feats, one of which was folding his body up and putting it into a box twenty inches square and eighteen inches deep and closing the lid over it. As he was an ordinary sized man about five feet eight, the trick required some pretty close folding.

Mrs. GUY BUNKER nee Lucy Simmons, of South Bend, died last evening at the home of her parents, on Detroit street in this place. They came here for a holiday visit, and Mrs. Bunker was taken sick while here, with the above result. She leaves a husband and one child. The funeral services will be held at the M. E. church Sunday, 2 o'clock p.m.

This country is notably one of great undertakings, it appearing that nothing is impossible to the Yankee mind. St. Joseph Press now hints that a Chicago syndicate talks of buying the Plank's Tavern on the beach and floating the thing bodily across Lake Michigan to near Jackson Park, to be used for the accommodation of visitors to the World's fair. This would break the record in housemoving, surely.

The sudden death of Louis Grabfelder, of St. Joseph, which occurred in Berrien Springs last week, left to a post mortem examination. The surgeons found symptoms of fatty degeneration of the heart, but are not satisfied without a chemical analysis of the contents of the stomach, and that member has been sent to Ann Arbor.

SCHOOL opened Monday morning after the holiday vacation with an increase in attendance in some the grades and in the high school where there were more than there were seats to accommodate. There begins to appear signs that Buchanan is going to be obliged to have more school room before long. There are enough rooms but they are all too small to accommodate the grades which occupy them.

ON Wednesday night of last week incendiaries set fire to an old building near the Standard Oil Company's store house in Niles, and burned it to the ground. Niles appears to be more than usually blessed with this class of criminals, as they have several fires each year plainly traceable to that source. The Star says, referring to the fire bugs, "One man said he could pick them out of the crowd present." If he could and did not, he is as guilty as they.

THE following officers of Buchanan Lodge No. 65, F. and A. M., were installed on Monday evening, Dec. 28: Freeman Franklin, W. M. Dr. M. M. Knight, S. W. Frank A. Stryker, J. W. Aaron Miller, Treas. B. D. Harper, Sec. George Churchill, S. D. James E. Scott, J. D. Morris Lyon, J. D. Robert W. Haslett, Stewards. I. L. H. Dodd, Chaplain. C. O. Hamilton, Tyler.

THE following officers of Buchanan Lodge No. 75, I. O. O. F., were installed on Tuesday evening: B. D. Harper, N. G. W. Groves, V. G. C. W. Hurlbut, R. Sec. John C. Dick, P. Sec. Allen Emerson, Treas. Peter Weese, R. S. N. G. Joseph Anstis, L. S. N. G. A. C. Matthews, W. Adalbert Jordan, C. S. W. VanMeter, R. S. S. John White, I. G. John Hanover, R. S. V. G. Chas. Snyder, L. S. V. G.

LAST month an item was going the rounds of the state press that D. B. Cook of Niles Mirror was the oldest publisher in Michigan and would celebrate the fiftieth anniversary of entering the business on New Year's day. The St. Joseph Press brought forward Mr. J. C. Gentzler, a type in that office who had been in the printing business since 1837, and Mr. Cook now states that he also commenced working at the case in 1837, but has been publishing a paper 50 years.

JOHN NEEDHAM has secured a position as clerk in the post-office in Niles. He left the position he has been occupying as clerk for Sparks & Hathaway with the expectation of attending school at Valparaiso, but as a good offer was made him to fill this position he accepted. John is a good hand in any position he will accept, and the postmaster in Niles has made no mistake in the selection. Frank Lough has his place with Sparks & Hathaway and Jay Smith the place with Boardman & Wehrle held during the past year by Mr. Lough.

Mr. A. R. CARRINGTON'S lecture next Thursday evening will be the battle of Shiloh, accompanied by illustrations and representations of the battle sounds on the drum. The subject for Friday evening will be announced later. The matinee will be given Friday afternoon, for which an admission of ten cents will be charged. The season tickets will not admit to the matinee.

ON THE SICK LIST.—Mrs. I. M. Vincent, Mrs. Harry Binns and baby, Mrs. J. P. Bluns, Nellie East, Wm. Batson, Jas. DeWiner, Mrs. Dr. Dodd, Mrs. O. P. Richmond, Mrs. Geo. F. Anderson, Robert Mead, Minnie Weisgerber, Mr. and Mrs. John Koonz and their little boy, Robbie Henderson, Mrs. J. E. French and little boy, Henry Kolb, Mrs. H. Blodgett, Mrs. R. Malloy, Harvey Haskins, Mrs. J. F. Hahn, Cass Proud.

The insurance agents in this place are receiving notice from their companies to not write any insurance on the property of any manufacturing concern that has been hired to move into town for a bonus, or been located on any farm lands for the purpose of selling the surrounding lands for town lots. The circular states that while the company does not care to interfere with the ambition of enterprising towns it does not care to take chances on any risks of that kind.

ANTONETTE, wife of Corydon Hall, and sister of James DeVinney of this place, died at her home, in the bend of the river, Tuesday evening, after a short illness, aged 61 years. Mrs. Hall was born in Arcadia, N. Y., and was married to Mr. Hall in 1848. They moved to their farm where she died, in 1891. Of their five children but one, Corydon, Jr., remains. The funeral services were conducted at her late home this forenoon, Rev. J. F. Burtness officiating, and the remains brought to Oak Ridge cemetery in this place for burial.

THE Common Council and village attorney have settled up with the pool room, paid him the unpaid part of his license money, and taken his receipt for all damages, past, present and future. He does not like the moral atmosphere of this town any way, and is moving to Dowagiac, where he expects to run his business nights, Sundays or any other time, at his own sweet will. We are always glad to see our neighbors prosper by the acquisitions of new institutions, and when we can spare one are always glad to do so. This one we can spare.

MR. EDWARD SPANGLING, an old and respected citizen of this place died at his home on Main Street, Thursday night after a short illness, aged 76 years. Mr. Spangling came to this township from Maine and was one of the few who helped to convert this part of the country from a wilderness into a habitable place. He raised a large family of children, a number of whom are now living in this vicinity and are highly respected members of society. The funeral services were held in the U. B. Church Sunday forenoon and the remains buried in Oak Ridge Cemetery.

THERE is nothing else quite like a boom to make people feel rich. The Palladium reports improvements made in Benton Harbor since and including 1885 to be \$1,876,335. As the equalized valuation of the entire city, suburbs, township, improvements and all as shown by the last report of the board of Supervisors is only \$1,270,100, the part of the city which was there previous to 1885 and the balance of the township must feel pretty cheap.

LAST week while Mr. Benj. Chamberlain was in town two dogs got among his sheep and mangled a number of them. After that he stood guard near the pasture and on the second day after the dogs returned to finish the flock. The dog is still there but has given up sheep killing. Mr. Chamberlain has a way of breaking dogs of this pernicious habit, and is willing to give the receipt to any of his friends who are sheep raisers. He might give the institute a talk on the subject.

THE Board of Supervisors is in session this week, and during the session will be called upon to vote upon a resolution to submit to the people the question of removal of the county seat to Benton Harbor. The scheme to submit appears to have been one of quiet hatching, as nothing has been heard of it until just as the Supervisors are about to convene and the vote to be asked for. By the act of the last Legislature Benton Harbor and township have two more Supervisors than heretofore, and on the next Board St. Joseph will have two more. With the additional force given these two towns they will need to influence but a few of their immediate neighbors to carry the point. So near as we can learn the plan is to plant the thing down in the swamp which lies between the two towns, as a sort of consolation point to their separate prides. We shall know before another week what action the Board shall have taken.
