Zanesville, Ohio, has offered \$100,000 cash and sixty acres of land for the Adrian college, and will most likely get it.

The ballots to be used in Pennsylvania are to be fifteen inches long and twenty-two inches wide. Large enough for an ordinary sized newspaper. They will have to charter some one barn for a ballot box.

A Russian Cruiser has seized ten British sailing vessels and confiscated 1900 seal skins taken with them in the Alaskan neighborhood. The ancient and time-worn custom of Great Britain of intruding upon the property of others regardless of any ones wishes, is likely to be seriously interrupted before a century.

The democrats will never repeal the state bank tax in any possible event—*Detroit News.*

The democrats have said in their platform that they would have a bill pending in the house of representatives. There is only one good reason for thinking the statement of the Evening News to be true, and that is that people of this country will never in any probable event place the democrat party into position where it can repeal the state bank tax.

But one prominent democrat speaker has thus far had the hardihood to stand up and try to defend the wild cat money plank in the democrat platform, and that is Adlai Stevenson, but he has been speaking in the South, and that plank was drafted for the benefit of that section, which believes that the state is sovereign to the nation, and should issue the money. All other issues between the two parties dwarf into insignificance compared with this, which proposes to give us the worthless money we had in the fifties and before, which could not be sent from one state to another, because the money of any state was not good outside its borders.

The following is the plank in the Republican National platform which the democrats are raising such a rumpus about as an endorsement of a "force bill".

"The demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every citizen, be he rich or poor, native or foreign born, white or black, this sovereign right guaranteed by the constitution. The free and honest popular ballot, the just and equal representation of all the people, as well as their just and equal protection under the laws, are the foundation of our republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of elections shall be fully guaranteed and protected in every state.

ADDITIONAL LOCALS.

SURPRISE.—Mrs. Aaron Miller went to make a call upon her daughter, living in the country, yesterday afternoon, and when she returned in the evening, found her home in possession of the members of Sylvia Chapter, O. E. S., and a few outside friends, to the number of fifty-one in all. To say that a good time was enjoyed, would be putting it mild. An elegant Eastern Star pin was presented her, in a neat speech by Freeman Franklin, to remind her that another birthday had come.

LAST Saturday evening Mr. C. C. Wallin and his son Thomas, of Chicago, stopped off here to look over their old early home. Mr. Wallin, Sen., was one of the first settlers of this township, and on the organization of the township, in 1837, was elected its first Supervisor. They left here forty years ago. Mr. Wallin is 88 years of age, and as spry and well preserved as many at one-half his age. Old men who were but young boys when the Wallin family lived here called upon them to renew old acquaintance, and to talk over their early experiences.

THERE is now the best promise for a north and south railroad through this place, and the permanent settlement of the county seat question, that we have had in ten years, and we trust Buchanan may have no citizen who will defeat it. This town wants just such a railroad as we are now promised, and it has been having a bad attack of sea sickness ever since the Vandalla road was swung to the west of us, and left us with no prospect. If we do not anchor fast to this one we will simply be demonstrating that we do not deserve prosperity.

BUCHANAN will be chock full of politics to-morrow evening. Besides Hecker's speech in Houghton's Open House, the democrats have engaged Hon. Henry Chamberlain to speak in Room 2 Hall. Mr. Chamberlain no doubt wants to explain farther why he does not want the poor folks in the cotton mills, who sit all day before their machines, to be able to make two and three dollars per day, while he cannot earn quite so much, unless, perhaps, he may do so making speeches for the Democrat committee, trying to make people believe they are all going into bankruptcy and ruin because the Democrat party is not in power, when he knows that they know that they would be in greater danger if it were in power.

Those who attended the Dowagiac fair have very many interesting stories to tell about what they saw. Those who ever mention the fair or any of its excellence are very few, but there are none who do not have an interesting story to tell how some man was robbed by the gamblers, who were doing the leading business of the town for that day. When an agricultural fair is used as an attraction for calling a crowd together for such a gang of gamblers to operate upon, it is time for a halt to be called. If the officers of the city have not respect enough for their official positions to stop it, the authorities of the county or state should interfere.

The St. Joseph Press gives the following account of an industry that adds a great deal to Berrien county's wealth. It may be remembered that S. H. Comings purchased some land between Stevensville and the lake—mostly under water—and he raised fruit there of a character unknown in this section. He has the prosperous, well-fed look of a man who had worked to some purpose. The Press says:

S. H. Comings will gather the largest cranberries this year that he has ever had. The crop generally has averaged from three to four hundred barrels, but he expects to have 500 this year, or over 1,500 bushels, the harvesting of which will give employment to a large number of hands.

It is requested by the Ministerial Association that after this date, the following order be observed in the ring of the church bells: Beginning with the M. E., followed by the Advent, Evangelical, T. B., Presbyterian, Christian, respectively, half an hour before each service (standard time) two rounds of ten strokes each shall constitute the first bell, and five minutes before each service one round of ten strokes each shall constitute the last bell.

Family Reunion.
The annual reunion of the Scott family was held last Saturday, Oct. 8, at the home of Jos. Miller, in South Bend, with thirty-eight present. After a sumptuous dinner the President, Stephen Scott, called the company to order and proceeded to the election of officers for the ensuing year, resulting as follows: Pres., Riley Scott; Sec., Mrs. D. S. Brownfield; Committee on Arrangements, Mrs. Kate Rough, Mrs. Amos Evans and Willie Scott.

In reviewing the events of the past year, there was found to be an increase of three by birth, but a sad case came over each heart in the remembrance of the death of Lily, daughter of Mr. and Mrs. Page of Elkland, Ind., and to the bereaved husband, parents, and all members of the immediate family of this dear one, was the heartfelt sympathy of all relatives present extended.

After some time spent in pleasant conversation, the time came for departure. All express themselves as having a pleasant day, hoping to meet next year without making any break in the circle of relatives.

Yaple at Three Oaks.

THREE OAKS, Mich., Oct. 8, 1892.
Hon. Geo. L. Yaple, candidate for Congress on the fusion ticket for this district, spoke in this place Friday evening, and at the present time the thoroughbred, thinking democrats have not recovered from the effects. It was the intention of the democracy of Three Oaks township to have had a democratic speech, but they did not get it. Many prominent democrats have been heard to express their disgust in various ways. One of them the morning after the speech said that "If Yaple is a democrat he must be one that is several years ahead of his party, as the principles that he advocates are not the principles of the democracy as I understand them." Another, when asked his opinion of the speech said that "It was all bosh to say that Yaple was a democrat."

As was said before, it was the intention to have a democratic blowout. A pole was raised, the American flag and a Cleveland streamer were run up. The ex-democratic postmaster went to Chicago, purchased fireworks, and himself distributed them about the street, and there were about fifty men in the procession cheering for Cleveland. Evidently Mr. Yaple thought that sufficient had been done for Mr. Cleveland, as through his entire speech not one word was said about voting for Cleveland, but on the contrary all his efforts were directed toward securing votes for Mr. Weaver. He made frequent references to Lincoln and Garfield, but none to Cleveland and his party.

At the close of the speech "the straw that broke the camel's back" was added: The chairman arose with the intention of proposing three cheers for Cleveland, but when he had gone as far as, "I propose three cheers for—" some person near him plucked him by the coat, and in a hoarse whisper said "Weaver", and out of deference to Mr. Weaver's wishes it was changed to Weaver and the People's party, but not one for Mr. Cleveland and the Democratic party.

Canadian Correspondence.
By the kindness of Mr. George A. Correll, of Berrien township, we are enabled to give our readers the benefit of a private letter from Canada, which contains much that is of interest to Michigan people, especially farmers. The writer was in this country two years, and last year worked for Mr. Correll on his Berrien farm:

APPLEBY, Ont., Sept. 27, 1892.
I found some things different from what I expected, and was surprised at the general improvement in things in general, with the exception of farmers. This industry is not in as good shape as it was ten years ago, and what seems strange is that farm laborers are very scarce. From what I can find out they are paid about as good wages in Ontario as in Michigan, but what the farmer complains of is the poor demand and low prices. From Windsor to Ottawa, wherever I have made inquiry, the same answer is given me, when I ask the reason, "Oh! the dam'd McKinley bill. We have no trade in butter, eggs, beans, hay, and all such truck as we can raise here so abundantly. The big duty knocks the bottom out of the whole thing." This is the invariable answer. Apples are a fine crop here this year, but there is a duty of 75 cents per barrel, and of course that takes all the profit away.

I had no idea that the tariff affected Canada so much. Still times in some branches are good; money seems plenty, and rail roading is quite active. I think this is caused by a great amount of English capital finding its way here for investment.

The people here are taking quite an interest in the coming election in the United States. It is very hard to find an out and out Republican here. Their sympathies are almost wholly in favor of the Democrats or Alliance parties.

In fact they are mad. They think Uncle Sam is a hog, and they think that Cleveland would be just the thing, and no doubt they are right, so far as we on this side are concerned. Another thing that surprised me was the price of staple articles. I used to say that most things on this side were cheaper than on the other. So they were once, but not now. I priced many articles, the prices of which I knew in the United States, and cannot remember one thing that was cheaper here than there. On the other hand, many things were much higher. Cotton goods and tobacco are 50 per cent higher here than there. Farming implements are just the same thing on both sides. A binder costs \$120, and all other tools in same ratio. I asked a very intelligent man in Ottawa why they could not sell cheaper, as labor (mechanics included) was cheaper here. "Oh!" he said, "not so much cheaper as you may think. The mechanics wages here had to follow the wages on the other side pretty close, or away they went. So, actually, labor on this side is benefited by high tariff as well as in the States." "Well," I said, "Mr. Yaple, then the Yankee tariff is going the whole thing all round." "Oh, no," he jerks out, "it's playing the devil with our small farmers, so they go. You cannot get a man half so mad talking protection in Michigan as you can here."

The talk about annexation is all up for the present, I think. In fact, it is wonderful the amount of loyalty there is in this country toward the British crown. The great intelligent class are all satisfied with things as they are now. This is caused, partly, by having a pretty good form of government here, and a very false idea of the actual state of society in the United States.

So you see I am once more at work in the land of the old Queen Victoria, and how do I like it? Not so well as I once did. I cannot describe to you how I feel, after being so long under a Republican form of government. It seems to me like as if the people here had become less liberal and were more set and stiff in their views, on both political and religious matter. In short, they are so very formal and conservative that I have not the patience with them that I once had. Perhaps it is I who have become more liberal; perhaps it is the changes that have taken place, but one thing sure is this: I do not think I would like to settle down and live over here for good.

A burglar entered the dwelling of John Yachester, over Griffin's drug store, yesterday (Tuesday) evening, during the absence of Mr. Yachester, at Dowagiac and while Mrs. Y. was temporarily out of their rooms, and stole a plush and a rug. He carried a suit of clothes belonging to Mr. Y. out into the hall and left it, whether because he did not want them or because he was frightened is not known.

ONLY ONE CENT.
A RADICAL DEPARTURE MADE BY THE DETROIT EVENING NEWS.

The People's Paper Reduced its Price to One Cent, and Proposes Marked Improvements at the Same Time.

On Monday, Oct. 5, THE DETROIT EVENING NEWS, the largest and most popular afternoon paper in Michigan, dropped its price from two cents to one cent per copy, or six cents per week; this action will be supported by renewed and far reaching improvements in the matter of news gathering, editorial, literary features, illustrations, etc., which will not only place the paper far in advance of its present excellent standard, but detailed plans have been made to make THE PEOPLE'S PAPER of Michigan the finest and best one cent paper in the West.

THE NEWS was the pioneer in the west, and prospered in that field. The facilities it now has, in the way of men, material and machinery, and the fact that paper ink, etc., is far cheaper than ever before, make it a duty the paper owes to the public to reduce its subscription price down to the lowest possible notch, and at the same time raise the standard of excellence of product to the very highest attainable.

That duty will be performed, and no thought, labor or money shall be spared in the effort.

Push, persistency and progress shall be the watchwords. THE NEWS has never broken a promise it made to the public, and never will it now declare that from this time henceforth it will be the largest, best, and cheapest daily paper in Michigan, and its circulation and influence, now by far the greatest, will be extended to the fullest possible limit.

There is not a town in Michigan where it does not circulate, and the work has just begun.

THE EVENING NEWS heretofore, for one cent a copy, six cents per week, or ten cents per month, has been the best daily paper in Michigan, or at every newspaper, or by mail.

VANDALLA LINE gives notice that their mileage books, and those of Cincinnati, Hamilton and Dayton R. R. Co.'s issue, and Pennsylvania lines east of Pittsburgh issue, which have heretofore been sold at 25 cents per copy, of the Vandalla Line, will be honored on their Peoria Division also.

SHE TOOK HER TIME.
The Terrible Thought of Burning with the House Did Not Haste Her.

She looked very bewitching standing there before the mirror in her ball dress of soft, white, clinging stuff. A lovely woman was she, and the stoniest of cynics could not blame her for smiling in admiration of her own beauty reflected back to her in the polished glass.

With puff in hand she was endeavoring to deftly rest her head and there the alabaster whiteness of the glorious complexion. A knock sounded at the door.

"In a minute," she sweetly observed. "Tell Charlie I'll be ready in just a minute."

She was applying the puff with the most engaging deliberation. The knock was repeated louder than before.

"Run for your life," roared a rough voice through the keyhole; "the house is on fire."

She was looking archly over her shoulder to gain a side view of her Queenly figure.

"In a minute," she softly replied. "One of the golden rules has been capped from the restraining pins and hung mockingly beside the shell-like ear."

"Dear me," she exclaimed petulantly; "it does seem as if something must be wrong all the time."

DEAD LOCK.

Jones Locked Wire Fence.

A FEW ADVANTAGES OF THE SAME.

It will not burn up, blow over or down, shelter weeds, shrubs, or briars; injure animals, persons or clothing; waste wool from sheep, or shade growing crops. It can be made close or open; can be put up and kept in repair at one half the cost of the best board fences. It is made from No. 8 wire, giving great strength. Easily built by any farmer, and will last a lifetime with very little repairs. The crimp in the wires will prevent breaking in winter and sagging in summer. Heat or cold, sleet, snow or floods will not injure it; snow drifts will not bank up behind it and block up roads and lanes. Having great strength without much surface it will stand erect where board, rail or slat wire fence would be level with the ground.

The words "Tariff Reform" appears
upon the transparency across the
street. It would be interesting to hear
the average democrat explain just
what they mean. Hardly any two
have the same idea of it.

THE Democrats threw to the breeze
across Front street, Friday morning,
a nicely prepared transparency, bear-
ing the portraits of Cleveland and Stev-
enson, the work of Harry Weaver. It is
a good job.

IF Judge O'Hara be not thoroughly
tired of Grand Juries, there is a first-
class opportunity for one just now in
Cass county, to look after the man-
agers of the Dowagiac fair gambling
crowd, if for nothing more. The man-
agers of the fair made themselves
partners in the crime when they ac-
cepted their share of the plunder in
advance.

THE Niles Star last week contained
a story of how Hon. J. C. Burrows had
ridiculed some ladies on a Michi-

having been told by a gentleman who
saw the performance. The whole
story is so outrageously improbable
and so unlike the character of the man
it has been attached to, that it brands
itself as a lie, and it is the belief of
the Record that the Star could not help
knowing its character when it was
written. The Star has for several years
borne such an ill will against Mr. Bur-
rows that it stands ready to brand him
with any crime known to civilization,
and wants only to have its memory re-
freshed upon the existence of such a
crime.

guests. Dr. and Mrs. Peck will locate

THE third party in Georgia lacked
only 75,000 of carrying the state, in the
state election last week. They should
take great courage in this and try it
again next month. There is nothing
succeeds like success in Georgia elec-
tions, and the democrats appear to
have the key to the situation.

THERE appears to be but one plank
in the democratic state platform, which
is "Beat the Republicans at all haz-
ard; no matter about principles." In
this district they endorse populist Ta-
ple; in the fifth district, populist
Richardson; and in the state at large,
populists Ellis and Newton. Can-
didates who belong to a party as much
different from the democrats as it is
from the republicans.

DECIDED FAILURE.

DEMOCRATIC ATTEMPT TO CAPTURE THE OLD SOLDIERS.

They Resist the Attempts Made in This Line—Republican Prospects Reported Bright Everywhere—Free Trade and Free Banking Unpopular Everywhere.

(Special Correspondence.)
WASHINGTON, Sept. 26.—There was one conspicuous failure during the Grand Army reunion. That was in the effort made by the Democrats to capture soldier votes. One would scarcely expect that the Democratic party would think a gathering of old soldiers a sufficiently fertile field for Democratic work to make it even worth while attempting to make converts to the Democratic cause in it. But the situation is such a desperate one that the Democrats have stopped at nothing.

Wolves in Sheep's Clothing.
The result was that documents, especially prepared to influence the soldiers, were sent over here from the Democratic headquarters in New York in great quantities, and men employed to wear the Grand Army badge and distribute them broadcast among the old soldiers. It need scarcely be said that this fact when it became known created the greatest indignation among the veterans gathered here. It was also discovered that the Democrats have adopted a form of campaign badge which so closely resembles the Grand Army button that it can scarcely be distinguished from it. This fact added to the indignation on the part of the old soldiers, who saw in it an attempt to make use of their nonpartisan organization for partisan purposes, after the Democrats had even refused to appropriate a penny in congress for the entertainment of the old soldiers. The contrast between the two parties was strongly marked in the apparent absence of efforts by the Republicans to use this gathering for political purposes.

Comparing Party Records.
One of the most conspicuous failures was the attempt made by Democratic emissaries to show that the Democratic party has been friendly to the soldier. Those who are familiar with the work of congress during the last two years know that the Democratic party has been the enemy of the soldier. They showed from the records of congress that nine-tenths of the legislation favorable to the veterans of the late war originated with the Republican party, and that on almost every bill passed for the benefit of soldiers the Democrats voted against it. It was shown that in the aggregate of the votes upon the dozen or more great pension bills there have been more Republican votes than Democratic votes cast in the house upon these bills only two votes were against them.

Records of Presidential Candidates.
One thing that has come to the minds of the old soldiers gathered here in comparing the attitude of the two parties toward them has been the fact that every Republican president elected since the war has been a distinguished soldier; on the other hand the only Democratic president served his country in a minor position, and of the entire list of Democratic nominees since the war only one has been a soldier.

One interesting feature of the occasion was the opportunity it gave for inquiry into the political prospects in various parts of the country. The reports brought not only old soldiers of both parties, but many others who were drawn here to witness this great gathering of veterans. Talks with men from every part of the country show the Republican prospects to be extremely bright.

The "Assistant Democratic Party."
The farmers and others interested in the progress of the great northwest are evidently becoming rapidly awake to the fact that the third party is attempting to use them for the benefit of the Democracy. They see that a vote with the third party simply means a vote for Democratic success. The Democrats are quietly working through and with the third party to destroy the Republican majority in the states which have heretofore been safely Republican. The thinking people of Illinois, Wisconsin, the Dakotas, Nebraska, Kansas and Colorado see that a vote in any of those states with the third party is really a vote with the Democracy. The people of the People's party in any of those states they now readily understand would mean not the success of any of the principles of that party, but the success of the Democratic party. It would mean the destruction of the prosperity which has added millions of dollars to the sales of farm products and is opening markets for our grain and flour and meat, and absolutely driving British and German goods out of those markets and admitting our own in their place.

Another thing which the farmers of the northwest are rapidly discovering is that co-operation with the third party means a return to wildcat money, which caused the farmers such great losses when state banks were in operation for the war. The third party is as much in favor of a return to this sort of currency as are the Democrats, but whether it is or not makes little difference for the people now understand that in voting with the third party they are merely helping to bring about Democratic control of house, senate and presidency.

"Landslide" in Manufacturing States.
Those coming from the manufacturing sections report a "land slide" in favor of the Republicans. Many manufacturers who have formerly been Democrats are openly announcing their determination to co-operate with the Republicans in the belief that the absolute free trade principles of the Democratic platform would mean the destruction of manufacturing industries and throw millions of people out of employment and millions of dollars of invested capital would be made valueless.

O. P. ASTOR.

DEMOCRATIC "HARMONY."

General Stickers on the Management of the Democratic Campaign.
General Stickers is still satisfied and evidently still not "placated." Somebody asked him in New York the other day if he was going on the stump. He replied sarcastically: "Why should I belong to the Hill crowd and the Hill crowd don't amount to anything. That was the theory on which Cleveland was nominated. Why should we Hill men worry about the election?"

"Cleveland is all right, of course, without New York. He doesn't need New York. Mr. Vilas is going to carry Wisconsin. Mr. Dickson is going to carry Michigan. Mr. Harrity is going to carry Pennsylvania, and Mr. Russell is going to carry Massachusetts. There is no necessity for New York, with all these states going for Cleveland, and, of course, the Hill men are not necessary to his success. This being so, why should I or any of Mr. Hill's friends get excited over the election? They said we amounted to nothing at Chicago. Why should we amount to any more now?"

"Very few," answered the commander of the old Third Corps, with a shake of his head, "very few."

PALMER'S PRAYER.

The Grand Army's Sympathy with President Harrison.

On learning that President Harrison would be unable to attend the G. A. R. encampment at Washington, owing to the serious illness of Mrs. Harrison, Commander-in-chief Palmer issued the following:

"The painful circumstance which prevents the president from attending the great reunion of the veterans in Washington is deeply regretted by all his comrades in arms, regardless of party. He was a participant in the grand review of the arms in 1865, and has taken a deep interest in the coming encampment, and it was expected that he would not only participate in the march, which promises to be the great culmination of the great gatherings of the Union veterans, but in all the festivities of the week. The critical illness of his beloved wife has compelled him to remain by her bedside. Speaking out of the depth of my heart, and voicing the feelings of all his comrades, we pray that He who ruleth armies and nations give our president strength and fortitude to bear his great affliction, and that the partner of his life may be restored to health."

The Democratic party, if intrusted with the control of the government, is now pledged to repeal the tariff on state bank notes, with a view to putting into circulation again, under such diverse legislation as the states may adopt, a flood of local bank issues. Only those who in the years before the war experienced the inconvenience and losses attendant upon the use of such money can appreciate what a return to that system involves.—Harrison's Letter of Acceptance.

Always at Par.
When a national bank closes its doors the notes bearing its name are just as valuable as those bearing the name of the best institution in the country. This is the result of the admirable Republican system of national banking, and this is the system which the Chicago convention demanded to have overthrown. The crazy declaration of that body in favor of a return to the abominable system of banking in vogue before the war is an insult to the intelligence of the people and a menace to the finances of the country. Every vote with the Democrats or with the People's party means a return to the wretched system of state bank currency which caused millions of dollars losses to farmers and others before the great splendid system of safe and reliable currency was devised.

The McKinley Bill Did It.
The decision of the company known as Salt & Sons, the owners of Salt Lake, near Bradford, England, to wind up their affairs is attributed by the corporation itself to the McKinley law. The chief business of the company has been the manufacture of plumes for the American market, but since the McKinley law was enacted the business, we are told, has diminished to one-tenth of its former proportions.—New York Press.

State history in this country justifies the statement that declaring laws to be unconstitutional in a convention is but the first step. The next is to attempt to alter them. Will the Democratic party go this far in its opposition to protection, and in the interest of free trade as it did in South Carolina in 1832?—Secretary of War Gilman.

More Manufacturers Advance Wages.
The report of Commissioner Peck as to increased wages in New York under the McKinley law is sustained by the report of the labor unions of Massachusetts, whose report shows an increase of wages in over 60 per cent. of the 4,500 manufacturing establishments reported upon.

There is one pauper in free trade England to every thirty-nine people. In America there is one to every 680. Low wages, poor living and in old age the poor farm. Is the free trade party in America as striving to reduce the number of paupers it is advocating the right policy to bring about such a result.

FREE TRADE FACTS.

One Day's Experience in the Life of a South Bend Carpenter.

The late Daniel Custer will be remembered by older residents of South Bend as a first class carpenter and a good Democrat. He lived on the northeast corner of Main and South streets, and some of his children yet live in this house. No carpenter in South Bend got better wages than he commanded. At 18,555 (which please remember was in those good old Democratic free trade times before the war), Mr. Custer did a day's carpenter work for the late Hon. John Brownfield and was credited on the books of the Brownfield store \$1.50. He was charged with the following items:

9 yards calico, 12¢..... \$1.08
9 yards lawn, 12¢..... 1.08
8 yards white muslin, 12¢..... .96
12 pounds salt, 12¢..... 1.44
Total..... \$4.56

Deducting Mr. Custer's credit for his day's work this transaction left him in debt \$2.80.

If the foregoing transaction had taken place in 1892, under Republican protection, it would have been vastly in Mr. Custer's favor. He would have received \$3 for his day's work instead of \$1.50, and his same purchases would have cost him \$1.32 instead of \$4.10. Instead of going in debt \$2.80 he would have had \$4.68 to his credit, equal to two and two-thirds days' free trade wages.—South Bend (Ind.) Tribune.

It is Peck, the Democratic official—Peck, the Cleveland appointee—who reports a net increase in production for 1891 over 1890 in sixty-eight industries, employing 88,000 persons, of \$31,915,130.—New York Tribune.

It was highly creditable to Mr. Harrison that he resented the unlawful dissection of the harvest of free trade on the Welland canal.—New York Sun.

ROSES AND POLITICS.

A PEEP INTO THE WOMEN'S REPUBLICAN HEADQUARTERS.

The Work Being Done—Good Speakers, Good Literature and Good Sentiments for the Masses—Woman in Politics Secures a Success Already.

A sunny room with a big bay window from which one looks out over towers and spires: the pink roses on the walls half hidden by gracefully draped flags and silken banners displaying the faces of the Republican candidates for president and vice president; palms and lilies before cabinet photographs of Dudley and Allison; a crucifix twined with the stars and stripes; a worn Bible and a silver plate card receiver on the desk littered with pamphlets, letters and newspaper clippings. Such is the extraordinary jumble of religious and political features at the headquarters of the Woman's Republican Association of the United States.

Ribbons and roses in politics at last! Here we have them. Ribbons tied in the dainty rattle chairs and fluttering in roseate knots on the soft, white gown of Mrs. J. Ellen Foster, president of the Women's Republican Association of the United States, are on the breast of this gentle woman, whose face glows with the zeal of the Puritan and from whose honest gray eyes looks the spirit of Bunker Hill.

For Mrs. Foster is both a zealot and a fighter. She is of the stuff of which martyrs are made, combined with a godly proportion of the old Adam. "College Boys and Women." It pleases the Democratic newspapers these days to refer contemptuously to the representatives of "college boys and women," which Republicans are welcoming to their ranks. Well, college boys have votes, and women can make ballots if they can't wield them.

What is the Woman's Republican association doing in this country, and through the operations of the assistant Democrats—the People's party. And the farmers of the northwestern states are beginning to understand "out" this feature of the situation. They are thoroughly understanding the game which the Democrats are attempting to play. They see clearly that there is no ghost of a show for the election of the People's party, and that by voting for their electors they are simply reducing the chances of Republican success, and thereby increasing the prospect of a return to power of the man whose administration at a single blow attacked the title to over 40,000 homes and went out of office leaving there hundreds of thousands of honest homesteaders unable to complete the title to the homes they had been struggling for years to make their own.

They are contrasting the experience during the past three years with those of the four years under the Cleveland administration. They remember with bitterness how Mr. Cleveland's administration of the land office by arbitrary and outrageously unjust methods destroyed the titles to thousands of homes which had been fairly and honestly earned by homesteaders. They remember that Commissioner Sparks in a single order suspended all entries of public land in Kansas, Nebraska, Colorado, Dakota, Idaho, Utah, Washington, New Mexico, Montana, Wyoming, Nevada and Minnesota, throwing them all into the "fraud division," even where they had already been "proved up" for patents before the office of the land office.

This single order affected more than 40,000 homes, and during the entire period of the Cleveland administration titles for homesteads and pre-emption titles were doled out at the rate of only one title for every 100 titles which the present administration they have been issued at the rate of over 10,000 per month.

They don't want their homes again endangered. These people, who remember the anxiety and sufferings of those long years when the titles to their homes were being unjustly attacked and rendered valueless for at least present use, are not willing to return to that condition of affairs. And they are recognizing the fact that a vote with the People's party is merely an indirect vote to put Grover Cleveland again in the White House and his methods of obstruction again in control of thousands—yes, hundreds of thousands—of homes. And they are not willing to do it.

Assistant Democrats Always.

They have been studying the record of the representatives of the assistant Democratic party—the People's party in congress—and find that they have in every instance co-operated with the Democrats, and that by electing People's party congressmen or electors they are simply strengthening the hands of the Democracy and paving the way to another attack upon the titles to hundreds of thousands of homes through the northwest.

Didn't Know His Own Work.

The late Mr. Spurgeon did not always recognize his own sermon work. That is perhaps not surprising considering how many sermons he preached and published during his pastorate.

It is related that he was traveling in Scotland, in 1860, and he happened to hear a sermon which moved him. Without disclosing his identity Mr. Spurgeon called on the minister to thank him. "I fear," replied the young man modestly and with courageous candor, "the most of it was taken from a sermon of Mr. Spurgeon's."—London Tit-Bits.

A vote with the "People's party" is a vote to put Democrats in control of house, senate and presidency. The Democratic leaders are hoping to catch Republican voters with that kind of bait.

FARMERS' DISCOVERY.

THEY LOOK UPON THE PEOPLE'S PARTY AS ASSISTANT DEMOCRATS.

Unwilling to Vote with the Third Party When Such a Vote Will Help Put Cleveland in the White House—Bitter Recollections of Sparks' War on Homesteaders.

(Special Correspondence.)
CHICAGO, Sept. 26.—The assistant Democratic party, called by courtesy the People's party, is finding its efforts to capture Republican votes in the west and northwestern states from a success. Democrats from the western states where the Democrats are attempting to hoodwink the Republican voters by getting them to vote for the third party ticket, that the effort is proving unsuccessful. Those who have heretofore been Republicans are beginning to see that the Democrats are merely making a cat's-paw of them by secretly pushing the third party movement among them. And not only that, but every Alliance man in congress was an assistant Democrat, but that a vote for Alliance candidates means a vote to put Grover Cleveland in the White House and the Democrats in control of the house and senate.

The Third Party Always a Democratic Assistant.

They are seeing that the third party cannot expect to accomplish anything more in the election than to weaken the Republicans and strengthen the Democrats. They see that if the third party carries any of the western states for its electoral ticket it will merely take that many votes away from the Republican candidate and not improve the situation in the slightest degree. They are beginning to realize that by casting their votes for third party electors they will help put into the White House a man much more hostile to silver coinage than is Mr. Harrison: a man much more hostile to the old soldiers who saved the country a quarter of a century ago; a man more hostile to reciprocity, which has opened new markets for our farm products to the extent of many millions during the past year; a man absolutely hostile to the protective system under which the wonderful prosperity of the past two years has been brought about; a man and a party pledged to the re-establishment of a wildcat currency under which the farmers suffered losses amounting to millions of dollars, and a man under whose former administration, and by whose consent thousands upon thousands of honest homesteaders were branded as dishonest and their homes taken from them by unjust and arbitrary methods.

Farmers "Getting Out" the Democratic Scheme.

All this the Democrats are scheming to bring about through the operations of the assistant Democrats—the People's party. And the farmers of the northwestern states are beginning to understand "out" this feature of the situation. They are thoroughly understanding the game which the Democrats are attempting to play. They see clearly that there is no ghost of a show for the election of the People's party, and that by voting for their electors they are simply reducing the chances of Republican success, and thereby increasing the prospect of a return to power of the man whose administration at a single blow attacked the title to over 40,000 homes and went out of office leaving there hundreds of thousands of honest homesteaders unable to complete the title to the homes they had been struggling for years to make their own.
