SHAFFER'S SHAM!

HOW HIS HEART "FAIRLY
BLEEDS" FOR THE SOLDIERS.

His Comradeship as Great a Delusion and
a Shame as Judge Morse's Partisanship
Superior to Patriotism in the
State Land Office.

From the State Republican:
and Commissioner Shaffer is reported
as saying once on a time, about
two years ago, that his heart "fairly
bled" for his soldier comrades.

As much as Mr. Shaffer is making his run
for re-election on his soldier record it
may not be out of place to just recall a
bit of history in connection with the
land office. When the hero of Culp's
farm was accidentally installed as high
chief mogul of the office there were

several of the late war employed
there, Messrs. Cameron, Hamilton,
Lewis, Havens, Bowen and Noyes.

When the grand old man from Cass
stepped in they were asked to step out,
and in their places have been appointed
One (1)

Just one veteran, a Democrat by the
name of Shaffer.

How that heart must have bled.

The places of these veterans have been
filled, and are now occupied by
veterans.

Well, for instance, there is:
Shaffer, Miss Sadie, clerk state land
commissioner, salary \$1,200 per annum.

Shaffer, Miss Catherine, clerk land
commissioner, salary \$1,000 per annum.

Shaffer, William T. S., clerk land
commissioner, salary \$1,000 per annum.

All of the above were in the
Commissioner George T. at 704 Ottawa
street west, and are his daughters and son.

The other employees of the office are
anything but veterans.

How do old soldiers like this record?

Old soldiers, even Democrats, should
be ashamed of this record.

When the general came to Lansing in
the capacity of land commissioner he
announced his intention of paying the
mortgage on his farm from the proceeds
of the family salary grab. He has
without doubt been successful, as he
took a friend on the train recently that
the mortgage had been "lifted" and he
was on his way to Cass county to
purchase an adjoining eighty acres. This
last night he is to be purchased with
money that should have gone to veterans
for services performed.

How that heart does bleed.

Immediately after his return from
the Chicago convention, Don M. Dick-
inson retired to his country home at
Trenton, to rest from his arduous labors.

He was called upon to address the citizens
of that place at a Democratic ratification
meeting, held on the evening of
June 29. He spoke on the tariff ques-
tion and on the subject of the
heaters that the lot of the Canadian
farmer is much happier than that of
the American farmer under the pro-
posed tariff system.

In his address he said that the
speech, taken from The Detroit Free
Press report, is quoted below.

In ludicrous contrast with Mr. Dick-
inson's rainbow-lined picture of agri-
cultural felicity on the other side of
the river, stands a comparison made by
the Windsor Evening Record under date
of September 10. Here are the two pictures
in "deadly parallel":

Gov. McKinley will speak in Battle Creek, October 27.

Mrs. Harrison, the wife of President Harrison, died at the White House, in Washington, early Tuesday morning. The remains will be taken to Indianapolis for burial Friday.

The Dowagiac Standard sizes up George L. Xaple as a political orphan. A man without a party. His platform reads: "Anything, Oh, Lord, to beat Dr. Thomas, and send me to Congress."

What Reciprocity Means. The following letter is one of many received by The Inter Ocean that are written in manifest ignorance of the nature of the reciprocity clause of the McKinley bill.

To THE EDITOR:—In an argument with a Democrat, I was told that reciprocity, as practiced by the Republicans, only allowed foreigners to send a limited amount of goods to our country, and whenever the President thought they were sending too much in exchange for our products (as I take it) he could shut them off. Now I think that mutual trade, as practiced under reciprocity, is mutually beneficial, and therefore should not have any limit. I'm right, or is what Democrat says true? O. B. BACON.

The President has such power as is attributed to him by the Democrats. The reciprocity clause of the McKinley bill affects only such imports as sugar, tea, coffee, molasses, hides, and other articles on the free list. The effect of the clause is to enable the President to impose a duty on any or all of those articles when the country from which they are imported makes unjust discriminations against goods that we produce and export.

Thus, although we had been importing millions of pounds of beet sugar from Germany that country prohibited the importation of American pork. The President threatened to impose a duty on German beet sugar—while that of other countries would continue free—if Germany failed to repeal its prohibition of American meats. As a consequence the Germans repealed the prohibition.

In like manner, though we bought millions of dollars' worth of cane sugar yearly from Cuba, that island imposed a heavy duty on American flour and other articles. The President threatened to phase a duty on Cuban sugar if American articles continue to be taxed by Cuba at higher rates than those imposed on the goods exported to it by Spain and other countries. This led to a reciprocity agreement that opened the Cuban market to American farm produce. Again, though we yearly bought three-fourths of the coffee crop of Brazil, that country placed heavy duties on American wheat, fish, coal, and agricultural implements, and bought most of its goods from England, which took less than a fourth of its coffee crop. The President threatened to impose a duty on Brazilian coffee if these discriminations on the part of Brazil were not abandoned. They were abandoned, and the Brazilian market was opened to us under the reciprocity provision of the McKinley law, the markets of Germany, Cuba, and Brazil were opened up to our production.

ADDITIONAL LOCALS.

CHAS. CHARLWOOD went to Niles last Saturday and partook of too much beer. Lake water. It made him weak, and the Marshal took him to the city hospital for treatment. He stayed there over Sunday, and on Monday morning the City Recorder charged him \$5 or 20 days in jail for the entertainment.

Mrs. GEORGIA A. BADGER, wife of Jacob Badger, of Portage Prairie, died at Arlington, Neb., on Saturday. Mr. and Mrs. Badger went to visit relatives in Nebraska some three or four weeks ago, both apparently in good health. The remains were brought to Niles on Tuesday, and the interment made in Silver Brook cemetery.

VOTERS in Buchanan township who have moved from one voting precinct to the other since the last spring election, must remember that they must register again this fall or be deprived of their vote. The dividing line runs from the township line west of John Pears' through Front street to a point one-half mile west of annual Weaver's house, and thence north to the Oronoko township line.

THIS is the season for renewing your subscriptions for reading matter for the coming year. The Orange Judd Farmer should be a part, if you are a farmer. The publishers are this year offering a choice of four valuable premiums, either of which is worth the cost. Subscriptions will be received for the Farmer in connection with the RECORD for \$2.25 for both papers.

THE city of Niles has the owner of the city waterworks in a cold sweat, by the talk of building a new works and practically driving the present one out of the field. The arrangement has never been satisfactory from the beginning. The city cannot be blamed for wanting the works made more efficient, either by the improvement of the present plant or putting in a new one.

Our neighbor seems to think it bad because the RECORD recommended the punishment of the Dowagiac gamblers, and don't keep whacking away at the liquor traffic. We don't admire the liquor traffic much better than our neighbor does but we have not gone daff on that one subject, and occasionally enjoy the privilege of speaking of some other subject.

DEMOCRATS in this section when confronted with wild cat money plank in their platform, make light of it and claim that it doesn't mean anything. "Why, the democrat party wants just as good money as anyone, and never intend to establish wild cat banks." They say in their platform, "We recommend that the prohibitory ten percent tax on state bank issues be repealed." This would not establish state banks, but it would remove the obstruction and they would most certainly follow.

THE People's party in this Senatorial District had Mr. Warren of Volinia, Cass county, nominated for State Senator, and tried hard to get the democrats to endorse him, but they nominated Dr. Dougan, of Niles. Mr. Warren had no farther desire for the office, and the committee composed of two democrats and one republican endorsed Dougan, by the rotten effect of the Dougan, and the People's party of this District is turned over to the democrats in a body. This the same game as was played by Hicks, in Benton Harbor. Just how many republicans are going to allow themselves to be bamboozled by this kind of claptrap remains to be seen. They ought to see the hole in the skimmer, it is surely large enough.

SPARKING of Mr. Dallin's railroad operations the Benton Harbor Palladium has the following, which is in sharp contrast with the treatment he receives from this vicinity: "The property secured possesses advantages that makes it especially valuable to the company in view of the plant which they propose establishing here. It is expected the compact certifying the transfer of the property will be complete in a few days when its location will be made known. The present plan is clearly shadowed. It is to begin work on the spur not later than February or May 1st, and be pushed rapidly through so that smelters may be placed and the work on the rolling stock begun. Mr. Dallin's voice, always tinged with buoyancy, seems to have a new note of hope in it now which realization of grand and well laid plans in clearly shadowed. They are safe in saying that every citizen of Benton Harbor will wish Mr. Dallin all manner of success in his undertaking."

Benton people are in favor of letting Mr. Dallin build his road and, if necessary, help a little while along this side of the river the people do not appear to want him to build a road if he would.

THE Pansy for November is at hand, in bright new cover, suggestive of the Columbian year and its interests. With this number the Pansy magazine enters upon its twenty-first year, and by the good things in the present contents, it begins in good earnest. Mrs. Isabella M. Allen (Pansy) and Margaret Sidney each have a new serial, the latter being Columbian Year Sketches. Shorter stories and sketches, poems, anecdotes, etc., all by our brightest and best writers, with the popular Junior Christian Endeavor Department constitute an excellent number of an excellent magazine. Price \$1.00 a year; 10 cents a number. D. L. Rimmer Co., Publishers, Roston.

For Judge of Probate.

The office of Judge of Probate is an important one. The place ought to be in charge of a person who is reliable and well versed in law, if such can be found. The estates of the county pass through this office on an average of every thirty days. Eight-tenths of these estates can be settled without extra charge to those interested. If the Judge of Probate is a good lawyer and competent to advise. Heirs in many cases are poor. They will not employ an attorney to settle estates in the probate court if the Judge is competent. It is a well-known fact that it takes months, if not years to get one for the office, if he has no knowledge of the probate law. In contesting wills, and in the settlement of estates, some of the intricate and difficult questions known to the law arise, and unless decided right must be carried to the Circuit Court for decision, entailing a heavy expense to the widow if there is one, and to the heirs.

The Hon. J. J. Van Riper, of this city, candidate for Judge of Probate on the Republican ticket, is an able lawyer, and no person is better fitted to fill that position than he.

No man is too good for such a position. If the people can have their choice, why is it not wisdom to choose the very best? Do we want learning? Mr. Van Riper has it. He was a member of the constitutional convention, he has been attorney general of the state, and held other worthy offices, including prosecuting attorney of Berrien county for four years. Such positions testify in the highest manner to his learning and fitness. The office of Judge of Probate calls for legal and intelligent ability. In all the business entrusted to Mr. Van Riper as a lawyer, or rising in the offices he has filled, he has been prompt and thorough, exhibiting the very qualities required in that very important office.

The office is not esteemed as it ought to be. If it was, no intelligent man would hesitate between voting for a man in every way equipped for the high position by special education and long experience, and men who are without any of these qualifications. Voters, to cast your ballots for Mr. Van Riper is to vote for assured success in the most important office on the county ticket. To vote otherwise is to throw away a great opportunity and hazard an inexperienced man whose success is most vitally required. —Niles Star.

John G. Berry, Republican nominee for commissioner of the state land office, came to Michigan, from "Way down in old York State," in 1855, and went into the mines of the Lake Superior region a mere youth of sixteen years.

At the expiration of his term of service as a soldier, he was in the same company and regiment. He was private, corporal, sergeant, first lieutenant and captain in the Third Brigade, First Division, First Army Corps, and was in every engagement of the Army of the Potomac from the date of his enlistment to Appomattox, and at the close of the war was honorably discharged with the rank of Captain.

He returned to his old home, in the Upper Peninsula, and in a few weeks was at work again in the mines. He afterwards held a position as clerk for three years in the Lake Superior Light Guards, which afterward became Company A 10th Michigan Infantry.

At the present time he is working a farm which he has recently cleared up near Berrienville, and is interested in a general store at Vanderbilt.

This is the man—soldier, farmer, and man of business—that the Republican expect to elect to an office in the state government, where honesty and sterling qualities of head and heart will correct and put an end to the mismanagement of the past two years in our state home-stand and general land laws.

FROM BERRIEN CENTRE.

Mr. Wm. Gowing, of Sulphur Springs, Ohio, is visiting his relatives, the Bowers, Crails, Hesses and McCulloughs, of Berrien and Cass counties. Mr. Barker Morton, of North Robinson, Ohio, accompanied Mr. Gowing to this place.

Mr. Norman Nims returned last Friday from an extended visit relative to New York, his native state.

Mrs. Elizabeth Cox, of Niles, visited her sisters at Berrien Centre and Eau Claire, a few days this week.

Mrs. S. H. Brenner, of Elkhardt, Ind., was the guest of her sister, Mrs. A. J. Smith, of this place, this week.

Mrs. Chas. S. Brownell and Miss Ann Webster returned last week from a three weeks' visit in Northern Ohio. Mrs. Brownell's brother, Alfred Magill, of Sand Hill, Ohio, accompanied them home.

Mrs. Lydia Rutter's fall term of school, in Franklin district No. 2, will close this week.

Our farmers are quite busy, these lovely October days, securing their crops of golden grain, fruit and vegetables, and getting ready for the observance of the annual November feast of ingathering.

The quantity and quality of the corn and potato crops here vary from abundant and good, down to inconsiderable and poor. The apple crop is a failure, and the regulation of the cider traffic is unnecessary.

"Reform of the tariff" and "Tariff reform" are the great and leading topics now discussed by the anxious electors, who are sure that the adoption of these great measures, after the election of their favorite candidates, will forever settle all their financial difficulties.

The report that J. K. P. McCullough had sold, or was about to sell, his hotel is without foundation. While Mr. and Mrs. McCullough would like to sell and go into other business, because of Mrs. McCullough's poor health, the citizens of Berrien Centre and vicinity wish them to remain here.

FROM GAITEN.

Mrs. Eunice Spangenberg has returned from her visit at Plattsmouth, Neb. She was accompanied by her granddaughter, Mabel Knuth.

Mrs. Sarah J. Keefe, mother of Wm. H. Keefe, who lives a few miles south of Gaiten, died at the home of her son, last Friday night. Rev. Birdsell, of Buchanan, conducted the funeral services at the Centre, Sunday.

Geo. Bonnell's family has been increased by one, since our last list of items. It's a boy.

E. A. Blakeslee, E. E. Simmons, Chas. H. Green, Rev. Birdseye, and Chas. Artus and family, went to Chicago and saw the parade, Friday.

W. H. Phillips, of South Bend, Ind., visited in Gaiten with friends.

Hon. Adam E. Bloom gave the Germans in Gaiten a good speech in their own language, at the Town Hall, Monday evening. It was well attended.

Chas. H. Norris lost the first finger of his right hand, one day last week, by a close contact with his buzz saw. Prince Bros., our hardware men, received a box of tin plate from the tin plate mills, at Pittsburg, Pa., Monday. The quality is just as good, if not better, than imported tin, and prices of both kinds may be seen at their store for comparison.

DEAD LOCK. Jones Locked Wire Fence.

A FEW ADVANTAGES OF THE SAME. It will not burn up, blow over or down, shelter weeds, shrubs, or briars; injure animals, persons or clothing; waste wool from sheep, or shade growing crops. It can be made close or open; can be put up and kept in repair at one half the cost of the best board fences. It is made from No. 8 wire, giving great strength. Easily built by any farmer, and will last a lifetime with very little repairs. The crimp in the wires will prevent breaking in winter and sagging in summer. Heat or cold, sleet, snow or floods will not injure it; snow drifts will not bank up behind it and block up roads and lanes. Having great strength without much surface it will stand erect where board, rail or slat and wire fence would level with the ground.

THE contractors on the new Presbyterian church had a mishap, Monday, that will cost a few dollars. They put up three of the heavy corner rafters, last week, and failed to properly support them in the center, and the one at the north-west corner cracked off the corner of the brick column on which it rested. The corner will have to be taken down a few feet and rebuilt.

THE RECORD is credibly informed that Mr. W. H. Sylvester is making a house to house canvass in this county for re-election to the office of Register of Deeds, and is working the poverty rackets for all it is worth, telling a heartrending story about his straitened financial condition, with a mother to take care of, and asking votes out of sympathy for his condition. Mr. Sylvester is a good citizen, and is not a millionaire, but is probably as free from financial trouble and distress as any other man on either ticket, and the sympathy dodge is pretty thin. He is a bachelor, as are five or six other candidates on that ticket, and like them knows but little of what the care of a family means.

"OOWARDS AND DESERTERS"

The Names Northern Democrats Apply to Union Soldiers When They Talk Their Real Sentiments.

The following extract from the Raleigh News and Observer of Sept. 16 is an account of a speech delivered in that city by ex-Congressman J. H. Murphy, of Iowa, Sept. 15. It seems from the fact that the northern Democrats fully agree with their southern associates in hating Union soldiers, and don't hesitate to say so when they think they are out of hearing of the old soldiers themselves:

"The speaker held attention to the infamous pension system. It amounts to \$150,000,000 per annum. In a few years more at the present rate of increase it will reach the limit of our revenue. It is a shame that we should have to put our hands in our pockets to pay pensions to a lot of cowards, deserters and bounty jumpers."

J. H. Murphy was a member of the Forty-eighth and Forty-ninth congresses from the Davenport (Ia.) district, a native of Massachusetts, and a candidate and while in congress as a friend of the soldier. This is the way he talks when he thinks he is alone with the southerners and is privileged to express his real sentiments.

Mr. Cleveland's letter as a round whiff is as impermeable and elastic as cotton-wool.—New York Sun.

A COMPLETE REVERSAL.

Cleveland's Election Means Control of House, Senate and Presidency.

Chairman Carter has presented the situation in plain, unvarnished language, in a conversation at the Fifth Avenue hotel in New York he said:

The people of this country are called upon to say whether they desire to subvert the policy of free trade for the policy of protection; to substitute the wildest state banking system for the present reliable currency; to abandon the shipping policy and the trade treaties known as reciprocity. There should be no doubt about the result. "We don't want a free trade country. The people do not favor wildcat currency. They are in favor of reciprocity. They desire the merchant marine of the United States re-established, and are opposed to free trade and bad money and bad reactionary policy of the Democratic party."

The common sense of the people stands as a bulwark opposed to any policy which by any possibility may result in having the nation divided into two prosperous conditions into commercial chaos, industrial distress and financial ruin.

I think the people understand that both branches of congress would, necessarily, be Democratic in the event of President Harrison's defeat. We cannot lose the presidency and save either the senate or the house.

We are therefore confronted with what must seem to the ordinary citizen as an appalling proposition—to promptly and absolutely revise the policies under which our present prosperous condition has been brought into existence.

Republican Tariff Good for Silver Miners.

Governor Prince, of the territory of New Mexico, in his annual report to the secretary of the interior says: "Mining has had its ups and downs during the year, but at present it is a steady going, and what cheap Mexican labor has been got out of the way the miners receive fair American compensation for their work." The report adds: "It would be hard to imagine a case in which the present tariff has done such immediate and obvious benefit as that upon silver and lead ores."

Democratic success next month means that for the first time since 1861, the Democrats will control house, senate and presidency and be able to reverse the tariff system under which our splendid prosperity has been built up. You will be responsible for this reversal if you do not vote for Harrison and see that your neighbors do so.

Thompson's Bank Note Detector of 1888 published a list of 738 broken, closed and worn bank notes in the United States, and showed that the notes of other banks were subject to a discount from 1 to 7 per cent. The Democratic party now proposes to return to this kind of currency.

The Australian ballot, wherever used, kept Republicans away from the polls. No Republican could permit the mysteries of this new and apparently complicated system to prevent him or his neighbors from voting. On your vote and that of your neighbor may depend the result.

Every county ward and precinct should have its "battered" ballot established at once to familiarize Republican voters with the new ballot system. Every Republican should see that this is done, and done promptly. If you neglect it, the responsibility of defeat may be upon your shoulders.

There are five states with seventy-five electors in which a change of 1 per cent. of the vote of 1888 would change the political complexion of their electors. The responsibility rests upon you to vote and see that all members of your party do so.

A COMPARISON.

CONDITIONS IN GREAT BRITAIN WITH THOSE OF THE UNITED STATES.

Higher Taxes, Lower Wages, More Paupers, Smaller Savings Deposits and Greater National Debts in England Than in the United States.

[Special Correspondence.]
WASHINGTON, Oct. 17.—Do the people who are clamoring for free trade ever compare the conditions of the past and present of this country with the one essential free trade country of the world—England? If not, it might be a good thing for them to do so. I have been, looking into the question a little of late and comparing the conditions in this country and in free trade Great Britain. Here are some of the things which I find:

The annual tax collected from the people by the government of free trade Great Britain is \$12.60 per capita, while that of the United States is less than \$6 per capita.

The deposits in savings banks in Great Britain amount to \$180,000,000, or five dollars per capita, while those in the savings banks of the United States amount to \$1,629,079,704, or twenty-five dollars per capita.

The amount of money in circulation in Great Britain is \$17.00 per capita while the amount in circulation in the United States is \$35.00 per capita. Indeed there is more money in circulation in the United States than in Great Britain, which has as large an amount of money per capita as the United States.

The national debt of Great Britain amounts to \$90 for each individual in

her population, while that of the United States amounts to \$18 for each individual. The annual interest charge upon the public debt of Great Britain is \$5.33 per capita; the annual interest charge upon the public debt in the United States is 35 cents per capita.

Great Britain, under her free trade system, has decreased her public debt in the last thirty-five years \$200,000,000; the United States, under protection, has decreased her public debt in twenty-five years \$1,551,000,000.

In free trade Great Britain there is 1 pauper for every 39 individuals, and 1 person in every 12 receives more or less parish support; in protective United States there is 1 pauper for every 643 individuals.

The "balance of trade" is hundreds of millions of dollars against Great Britain every year. Under her wanted free trade she exports vastly more than she sells. Her exports last year amounted to \$1,000,000,000, and her imports amounted to \$2,100,000,000, making a balance on the "wrong side of the ledger" of \$1,100,000,000. Our exports last year were \$1,030,335,626, and our imports were \$2,071,384, thus giving us a balance of \$1,041,048 on the "right side of the ledger."

The balance of trade was \$800,000,000 against free trade Great Britain last year, while it was \$200,000,000 in favor of protective United States.

In the last ten years our exports have exceeded our imports by \$700,000,000. In that time the exports of Great Britain have fallen \$8,515,000,000 below her imports. In other words, in the decade just ended protective United States had a balance of over \$700,000,000 on the right side of the ledger, while free trade Great Britain, whose "commerce rules the world," shows \$8,515,000,000 on the wrong side of the ledger.

In free trade Great Britain bricklayers get \$1.17 per day; in protective United States, \$3 per day; carpenters in Great Britain get \$1.38 per day; in the United States, \$2.35 per day; in free trade Great Britain engineers get \$1.46 per day; in the United States, \$2.23 per day; in Great Britain machinists get \$1.50 per day; in the United States, \$3.50 per day; in Great Britain compositors get 15 cents per thousand lines; in the United States, 40 cents per thousand; in Great Britain shipbuilders get \$3 per week; in the United States, \$10.

Thus it will be seen that in every particular our condition is better than that of our free trade neighbor. Our commerce is in infinitely better condition because we receive hundreds of millions of dollars more for our products than we pay out for the things we need. The reverse is true with Great Britain. Our public debt is less than one-sixth per capita that of Great Britain, while our annual interest charge is only about one-fifth that of Great Britain.

We have decreased our debt in 25 years 2½ times as much as Great Britain has been able to decrease her debt in 53 years. Great Britain has 1 pauper for every 39 persons, while we have 1 for every 643.

Our government collects from her people less than \$6 per capita of taxes; that of Great Britain collects from her people over \$12 per capita of taxes. The deposits in savings banks in Great Britain average \$5 per capita of the population; those in the United States average \$5 per capita of population. The money in circulation in Great Britain is \$17.00 per capita, while that of the United States is \$35.00 per capita. Wages in the United States are from 75 to 100 per cent. higher than those paid in Great Britain.

What good reason is there for desiring to exchange English free trade for the protection which gives us these conditions, which in every case are so much better than those of our British neighbor?

What business man is there who has seen his business grow up and prosper under the system of protection, and then operation in this country for the past thirty years who wants to endanger its steady progress by the adoption of a system which compares so unfavorably with our own in its results?

O. P. AUSTIN.

Republicans should not forget that there are eight states in which the plurality vote of the United States electors would come less than 1,000. The responsibility for success or defeat rests on your individual activity. Vote, and see that your neighbors do so.

A SOLEMN WARNING.

ON THE SHOULDERS OF THE STAY AT HOMES WILL REST THE RESULT.

Ten States So Close That Neglectful Voters May Cause the Loss of Any of Them. The Australian Ballot Must Be Studied and Voters Prepared to Use It.

[Special Correspondence.]

New York, Oct. 17.—One thing the voters of the United States ought to understand very clearly. That is that the neglect of a few people to vote at the coming election may change the result and change the entire business condition of the country. There are ten states in the country in which a change of from 500 to 4,000 votes would change the result in those states. There are five states in the country in which less than 2,000 voters remaining at home on election day would change the result. There are states in which a change of a few hundred votes from one side to the other would change the result. There are others in which a mere handful of voters neglecting their duty to go to the polls would allow the opposing party to carry the election in those states, and perhaps change the entire result of the presidential election.

What a Change in Administration Would Do.

This is a matter of such vital importance that the voters of the country can not give it too much thought. A change in the administration, it is conceded, means a general change in the policy of this government. The chances are ninety-nine out of 100 that if the Democrats succeed in electing their president they will by the same stroke obtain a majority in the house and senate as well as control of the presidential chair. That has not happened before for over thirty years. When the Republicans gain power in 1890 they changed the general policy of the government from a low tariff to the protective tariff. It is not necessary in this connection to go into the details of the wonderful prosperity which has followed. Everybody conversant with the history of the country must realize that the prosperous condition of the people of the government of the country generally is so potent that nobody can doubt that prosperity has attended "the protective tariff" experience of the United States.

There is not a man in the United States who can doubt the election of a Democratic president, a Democratic house and a Democratic senate would mean a reversal of the tariff conditions under which this wonderful prosperity has come.

YOUR NEIGHBOR MAY CHANGE THE RESULT.

Every voter of the country who does not want to see this splendid condition of our country destroyed—a condition which every nation of the world has recognized as one of superior results—ought to recognize the fact that on his vote and the vote of his neighbor may depend the question of a change in the administration or no change in the administration. In the state of Connecticut in the last presidential election the Democratic plurality was 2,218 votes. In the state of Nevada the margin of plurality was only 1,615 votes. In Indiana the Republican plurality was only 2,343 votes. Out of an enormous number of votes cast in West Virginia the plurality was but 626 votes. In a number of other states the plurality was but a few thousand. In many of the states a change of 1 or 2 per cent. from one

side to the other would have changed the result. In some of the states the neglect of less than 1 per cent. of the Republican voters to go to the polls would change the result. This brings us to a point which is very important for every voter to remember.

FARMERS AND WORKINGMEN SHOULD BE SURE TO VOTE.

In nearly every one of the close states the Australian ballot or something equivalent upon that has been adopted since the last presidential election. The experience which has accompanied the use of this system in the state elections has shown in nearly every case a falling off of the farmer vote. The farmer does not like the Australian ballot. He looks upon it as a device of the city schemers and, as a troublesome, uncomfortable method which his fathers did not use, and which he thinks he should not be compelled to use; the result is that it has kept thousands and thousands of farmers away from the polls. Not only the farmer, but the city laborer, who is not like the Australian ballot.
