

The idea is now being advanced that the Upper Peninsula would like to be a state by itself, and an effort of that kind is being talked of.

There is strong prospect that the House of Orleans may be reinstated with the Crown of French government, as the result of the Panama canal suit.

The supreme court of Indiana, composed of all democrats but one, have just decided the remainder of that state unconstitutional. Thus another democratic outrage comes to grief.

For the January number of the North American Review, the Rev. Dr. Parkhurst has written a paper entitled "Our City Vigilance League," in which he sets forth the methods and purposes of that organization.

New placer mines have just been discovered near Navajo Springs, Utah, which are reported as rich as the California mines, and the greatest excitement prevails in that section. Miners are panning out \$20 a day each in gold.

Cleveland has had his fortune told, and the witch informed him that he would not live to the end of his term of office. With Adlai Stephenson in the Presidential chair, the country will be in the same kind of position as if Jeff Davis were there.

The Allegan Gazette makes considerable trouble for itself accusing the papers which are friendly to Mr. Luce's candidacy for the seat in the senate with being bought to that side. There is as much reason for believing that the Gazette has been bought up by Frank Stockbridge's fat pocket-book. Such accusations come with ill grace and do not make good.

The British government is creating considerable comment at Washington by the building of three war vessels upon the great lakes, sufficient in strength to control the Welland canal against any possible land force long enough to run considerable of a navy into lake Erie. This brings into greater prominence the great need the United States has for an opening from the sea to the lakes, both by way of the Erie canal, and from Chicago to the Mississippi. The only passage way from the lakes is now in possession of Canada, a state of affairs which should not be allowed to exist.

The following from Kalamazoo was in the Detroit Tribune, Dec. 23.

The people of Coloma, Berrien county, are greatly wrought up over a new rural sect called the "Christians of the East," that is making things very lively there. They are an offshoot of the free methodist church, and are known about Coloma as the "Christians," from the fact that their leader, James Carter, a half-crazy religious crank who came there some time ago. Carter has got a little colony of fifteen or twenty people under his influence. To him he has been especially favored by being the recipient of messages from on high. Recently Carter declared that he had a revelation inspiring him to sacrifice his infant child. The mother begged him to give up the idea, but he became excited, saying the Lord wanted it done at once. Seizing a carving knife he rushed for the cradle wherein the child was peacefully sleeping, followed by his frantic wife who was just as the knife was descending upon the child's breast. She fought him with all the energy of affection and despair, and finally succeeded in getting help and moving the child into an adjoining room. This so enraged the mother, who was becoming enraged beyond measure at his antics, that she went for taking radical measures to put a stop to this dangerous nuisance. The culmination came this week. Carter went over to Watervliet to hold one of his noisy meetings. On his way home at night he was set upon by several men who stripped him of his raiment and applied a literal coat of tar to his hair and feathers, accompanied with a warning to mend his ways or to leave those parts. The parties are not known, nor does any one care who they are.

PETER JOHNSON, a section boss on the C. W. & M., near Sodus, was instantly killed, and another man, who was in the car with Johnson, was so terribly mangled that he will probably die. The pay car was going north at about 4 o'clock last evening, and the men had succeeded in getting their hands on the track, but by some means they were caught by the train. Johnson was struck on the head and instantly killed and there, but his fellow workman was run over and his arm broken in a frightful manner. Mr. Johnson has been employed by the Washburn road for years as section boss and he has served them well. He leaves a wife and family.—Niles Sun, Friday.

The home of Mr. and Mrs. Isaac Reamer, in Liberty township, was the scene last Wednesday, Dec. 21, of a quiet but pleasant matrimonial event in which Mr. W. L. Cowgill, of Montana, and Miss Belle Geyer, of Buchanan, Mich., were united in holy matrimony. Mr. Johnson has been employed by the Washburn road for years as section boss and he has served them well. He leaves a wife and family.—Niles Sun, Friday.

When asked why he did not steal the beans, he replied, "I'm no Boston tramp, I ain't."—Detroit Free Press.

A Clever Swindler.

The Union Detective Agency of this city is keeping an eye open for one R. A. Harding, who is termed a cheat and a fraud by a number of millinery firms in Decatur, Dowagiac, Niles, Buchanan, St. Joseph and other towns on the Chicago & West Michigan railway. Harding claims to be the firm of Hearn & Co. of New York City, and solicits orders for ladies' and children's furnishing and fancy goods. He signs R. A. Harding to an article of agreement, partly written and partly printed, by which the goods are promised to be delivered within ten days. The purchasers are made agents for the sale of the goods. Harding gets for \$5 up from each firm. It has been ascertained that no such firm does business in New York and no goods are ever received by those who deal with the man. A warrant has been issued for Harding's arrest.—St. Joseph Press.

He Caught Mrs. Reiding, of this place, for \$8.

Dullin Still Lives. Wm. Dallin, the railroad contractor of Chicago, was in Goshen yesterday and in conversation with a Times representative he stated that the construction of the spur from Nappanee to Benton Harbor would be commenced next spring, says the Goshen Times. Three blast furnaces will be erected in Benton Harbor, for the manufacture of the heavy steel rails, 100 pounds to the yard, to be used in building the great line from the Atlantic to the Pacific, which he thinks will be completed in 1900. The new road will pass under the B. & O. three or four miles east of Nappanee and through that town at the southern end, on the country line. Mr. Dallin thinks that sooner or later it will be operated by electricity, as that will surely supersede steam.—S. B. Tribune.

GALLEN, Mich., Dec. 27, 1892.

One of the most enjoyable Christmas tree entertainments ever in Gallen was given at the Town Hall, Christmas eve, under the auspices of Woman's Relief Corps, assisted by the G. A. R. Post, and the Baptist, Methodist, Larger Hope, and United Brethren churches. The good work was especially for the needy and neglected, in the years gone by, who have returned to their homes with empty hands and heavy hearts to lament, "Santy Claus don't care for me." But this time they went home with light hearts and arms heavy laden, singing, "Santy Claus has come this way."

A CARD OF THANKS.

We extend our sincere thanks to all those who so kindly aided us in the Christmas entertainment. The business men who so liberally contributed their financial support were: George Minister, M. Q. Smith, R. W. McAndrews, Tim Smith, Rev. C. Schlappi, Dr. C. J. Bulhand, Harris & Rhodes, Butler & Burrus, Bennie Jones, C. A. Dunlap, J. H. Cuthbert and Princes Bros.

The babe was thrown from its cradle and in a strange manner was caught by one of the hooks in the right upper eye lid, almost tearing off the lid.—South Bend Tribune.

These Must be Answered. Few people fully appreciate the gravity of the questions which the result of late national campaign has forced upon the discordant and frightened victors. It is not the questions in their history that the democracy have impetuously rushed their party upon a series of disasters. Their last misfortune was brought about by their inability to agree upon referring the question of slavery to the people to the supreme court. It involved the country in war, and gave the government to the republicans for a generation. Now they have once more recovered control, but they are confronted by difficulties compared with which the differences of 1860 were but child's play. As a material matter they were so wishing to these questions, they admit and truthfully summarize by Mr. Little Men and Women for the six and seven years old. Pansy for those coming later. The whole makes the most complete line of juvenile reading coming from any single publisher.

The Wildcat's Scheme. If anybody has satisfied himself with the belief that the democratic state money plan in its national platform, was a bit of buncombe, he is liable to be disappointed by a rude warning. One of the first acts of the Georgia legislature, which convened immediately after the election was the passage of a resolution calling upon the democracy to fulfill their original promise, and a Washington dispatch, commencing upon this significant action, says: "There are probably a dozen bills which have been introduced in the present congress for the repeal of the 10 per cent tax on State banks. Senators Daniel of Virginia and Vance of North Carolina have been prominent in advocating these measures. At the coming sessions some of the bills will be pressed, not with the idea that they can become laws now, but with the purpose of paving the way for wild cat currency when the democrats are in control of all the branches of the government."

Not is this movement confined to the south. There is a class of bankers in every state of this union who are waiting impatiently for a chance to make money rapidly by issuing wild cat currency in accordance with some of the many state laws still in existence, under which "red-dog" and "wild cat" were issued before the war.

COOK'S Baking Powder ABSOLUTELY PURE

This District Journal has sent us a copy of the most reliable Baker's Friend Number, together with the Art Supplement. We believe we do not exaggerate when we say it is the handsomest number from an artistic standpoint of any put out this year, not excepting the London and Paris Christmas numbers, while from a literary point of view certainly none excel. We might name such eminent authors as Julian Hawthorne, George Parsons, W. P. Harma and family, of Berrien Springs, and relatives from Cass county were present.
