There is one newspaper man in this town who is generally recognized as the silver voice of the Secretary of the Treasury. He is generally supposed to be a thing of the past.

It has cost the state of Massachusetts more than \$100,000 to carry on the work of the board of arbitration and conciliation during the past year, but even with the partial success attained in averting strikes and settling disputes between employers and workmen this may be called money well spent.

There is a steady war of wits between the Greek police and the dealers who try to smuggle out of the country the marble reliefs and terra cotta found in tombs and ruins by men who take credit for the discovery of the antiquities to be known. Many objects reach Paris, London, Berlin and New York, but it is useless to inquire whence they came and who found them.

It was known to passengers on the east bound southwestern limited that Governor Flower was a passenger. Two American express officials were in the smoking car when George F. Hanford, a well known member of the Central Hudson road, was talking to the gentlemen.

When one thinks of the thousands of special excursion tickets sold on July 4 and other occasions, the work devolving upon the agent may be imagined. A peculiar feature is that the month does not appear on the ticket, but the date of the days of the year—20th, 4th or 21st, as the case may be.

sugar making. It is well known to those who have engaged in that business that a good season always follows a winter that furnishes abundance of cold weather. The maple sap is always sweeter after a period of intense frost and furnishes a larger percentage of sugar.

An Ice Floe Flashing Light. The area of the mass was several square yards, and this was the only one of the many hundreds which were passing the bridge at the time that presented any unusual appearance.

A Lost Soap Plate Found. I hear a story, but cannot verify it, to the effect that during the evening of Friday, a number of pedestrians on Vauxhall bridge were started by noticing that one of the large masses of ice which were floating with the tide was emitting flashes of light at intervals of about six seconds.

The Election.

The village election, Monday, passed off very quietly and brought out nearly the entire vote, being 463 ballots cast. The idea prevailed that the old members of the Council should be re-elected and allowed to complete the work commenced by them in the waterworks matter, hence Messrs. Richards, Stryker, Deliste and Kent each received good majorities. Only one ballot was thrown out for irregularity, the person voting it returning it to the inspectors just as he received it. Thirty-seven either did not wish to vote on the bond question or forgot to do so. The following is the result:

- FOR PRESIDENT. Charles B. Treat, R. 153 Joseph L. Richards, D. and Peo. 126 William F. Bannor, Pro. 282 FOR TRUSTEE, ONE YEAR. William F. Bannor, R. 102 Frank A. Stryker, D. and Peo. 263 Myron A. FROM BERRIEN CENTRE.

Mine host and hostess of the McCullough house address their letters now to Edwin S. McCullough, Station Agent, Charlevoix, Mich., and J. Charles McCullough, Tobacco and Cigar Merchant, Lansing, Mich. James J. Peck and family have returned to their former home in Dauphin county, Pa. We regret their departure from our midst. Mr. Absalom Henry, of Eau Claire, has moved to his Berrien Centre residence, recently purchased of James J. Peck. Mr. Henry finds a hearty welcome here. Mr. John J. Murphy's old house and windmill were destroyed by fire, Monday night, his new home barely escaping destruction. Mr. H. L. Rutler, always wide awake and enterprising, is adding to his already large stock of dry goods, groceries, agricultural implements, etc. Mr. Crias Shaffer, dealer in notions, is doing a good business in his line. Our Berrien Centre station, closed one month ago, will be re-opened on Thursday of this week with better accommodations and facilities than ever. Mr. P. E. O'Brien, J. P., will try cases at the county seat during the spring term of court. Nothing of this kind to do in our peaceful village.

Twenty-seven came by special train from Benton Harbor to the Centre, Sunday, and went by back to Berrien Springs to attend the funeral of Ex-Judge A. B. Leads.

Mr. James Fifer, of Indiana, has been appointed section foreman here, in place of A. F. Thor, resigned, and will occupy Mrs. Mary Webster's house.

Rev. S. P. Kiefer, of North Robinson, preached at the Berrien Centre Lutheran church, last Saturday evening.

First Quarterly Convention of the Berrien Township Sunday School Association will be held in Franklin Chapel, March 20, 1893. Following is the program:

COVENING SERVICE, 10:00 A. M. Association called to order by P. C. B. Grant. Sermon by Rev. S. P. Kiefer. Prayer by Rev. S. P. Kiefer. Address of welcome by Rev. S. P. Kiefer. Reading of the minutes of the last year. Report of the year by Rev. S. P. Kiefer. Reading of the minutes of the last year. Report of the year by Rev. S. P. Kiefer. Improving the Ballot. The Australian ballot system, while a great reform in the history of elections, has several features which need amending before it can be accepted as an almost perfect and honest mode of voting. As it now stands, thousands of voters have been disfranchised by the misapprehension of not being allowed to stamp opposite a candidate's name after having once stamped the party emblem. Let there be but one way of voting, by stamping the square by the side of each person that you wish to vote for. A voter once instructed to stamp the square to the left of each person that he wished to vote for will not only not confuse, but actually expedite voting. Another feature of the law which should be changed is the throw which a partisan board can cause with ballots as defective. As protection in the right of voting is secrecy, so should the ballot be protected after it is cast, so long as the intent of the voter can be ascertained.—Noble's Voter's Ledger.

Over \$25,000 For Towing a Steamer. The British steamer Ohio has received an award of \$25,000 for her services in towing into Queenstown in December last the Red Star line steamer Noordland. The shaft of the Noordland broke while she was bound from New York for Antwerp, and while she was thus helpless she was taken in tow by the Ohio and brought safely into port.—London Letter.

A General Designation. The negro editors of Georgia, representing the colored press, have several in behalf of the advancement of their race. They recommend that instead of "colored" the word "negro" be used and spelled with a capital letter.—National Advertiser.

A Common Word Just Now. "How do you pronounce the name of the island kingdom which wants to be annexed to the United States?" is a question frequently propounded and variously answered nowadays. The most commonly accepted pronunciation, and the one authorized by Lippincott's, Worcester's, Webster's and the Century dictionaries, is for the name of the principal island of the group, "Hah-vee," the second syllable accented, and the "v" pronounced as in "vine." The same question was once asked of a high caste Hawaiian lady, well educated in her own and the English language. She answered: "The proper pronunciation is Hah-vah-e. There is no 'v' in our alphabet, and no letter nor combination of letters which take the sound of 'v' as in English. The missionaries who first translated our language found it difficult to pronounce or express the sound which is, to my ear, correctly conveyed by the letter 'v,' softened and made full. Our 'a' is pronounced broad, as you pronounce it in 'fall,' and our 'i' is like the English 'e.' The rule is to pronounce every vowel, and the exception to the rule does not affect the double 'i' in Hawaii, you will see that the word is Hah-vah-e."

The pupils of the Bay City (Mich.) high school have formed a society to which a forfeit of a cent is given every time a member makes an error in the use of the English language.

A young woman of Leigh, England, died one day last week from the effect of being struck in the eye by a snowball thrown by a mischievous boy.

Two uncut diamonds, green and white, mounted on a square diamond, on which is engraved the word "Marie," have been created in England. They formerly belonged to Marie Antoinette. In the exhibition were two large opals and an ornament made of an idol of pearl in a niche of pearl. A black diamond was shown, the largest that has yet been discovered and which it took a year to cut, losing ten carats in the operation.—Jewellers' Circular.

Tom Reed Disappointed. "I think," said Mr. Reed, "that Mr. Cleveland changed his mind about appointing me to a place in his cabinet. He has now appointed one of the other Democrats."

A Parson's Benefactions. It was Sir James J. Jeejeebhoy who first made the name of Parson famous in Europe for philanthropy more than a generation ago. His younger contemporary, Sir Cowasjee Jehangir, carried on the tradition, but both have been eclipsed by the present head of the Parson community at Bombay, Sir Dinshaw Manjeejee Petit.

For every mile of railway track built in Panama there have been a hundred lives sacrificed, said Thomas S. McCarthy of San Jose, Cal. "When the road was being constructed I was a contractor in that country and did work for the railway company. In my camp there were about 300 Swedes who had recently been sent direct to the railroad works. A Swede is a light haired person with a blond complexion, and is more liable to become poisoned with malaria than a brunette. Out of that number of Swedes there was not a single man who escaped."

"Six weeks after they began to work every one of them was dead and buried. There were five Chinamen who worked on the works, and, strange to say, not one of them was attacked. They enjoyed excellent health, even more so than the native negroes. How it was that they escaped I never knew, but one of the Mongolians told me one day the reason was because they smoked cigarettes."—St. Louis Republic.

Not a Case of Forgetfulness. "Did you stamp and mail that letter for me, Henry?" she asked. "No, my dear," he replied. "Forgot it, I suppose," she suggested. "No, my dear," he replied. "My intentions were all right, and my memory was all right, but you know it was rather bulky."

"Yes, I expected that the postage would be 6 or 8 cents." "And you wanted a special delivery stamp on it too."

"Well, I sent the office boy for some stamps, and he got 1-cent Columbia stamps and after I had put them on the letter I looked like a theatrical advertising board, and—"

"And what?" "There was no room left for the address. I'll try again tomorrow with a larger envelope and 2-cent stamps."—Detroit Free Press.

Came to Lie in Her Coffin. Susie M. Duclon died at the home of her uncle, Ira Shipman, near Augusta, Wis., and relative telegraphed for her body. The remains were put in a coffin and driven by sleigh to Augusta, eight miles. When three miles from Augusta, a sound issued from the coffin, and the driver hurried to a farmhouse, where the cover was removed and the young woman was found to be regaining consciousness. She was wrapped up warmly and taken to Augusta, where she now hovers between life and death at a friend's house.—Cor. Chicago Herald.

Mathematical Meteorology. There is an old superstition that as many snows as the moon is days old when the first snow falls deep enough to track a rabbit will fall during the winter. When the first snow of this season fell, the moon was twenty days old. There were six snows before March 10, and there have been 13 during 1893. If therefore the old saw is to hold good this winter, one more snow is due to this part of the country.—Philadelphia Record.

Stylin in Canine Mourning. Traveling up Fifth avenue a few days ago was a woman dressed in deep mourning, and her hair was styled in a round with long streamers of black ribbon attached to her collar. If the woman was in mourning for her husband, he must have had hard work to conceal a smile as he gazed down on the ludicrous picture of a black ribbon streamer yards of black ribbon. I suppose when a member of semimourning comes the dog will be arrayed in purple.—New York Herald.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

General Butler's Land. General Butler was probably the owner of more land than any other citizen of the United States. It is located in various states—north, south and west. He owned immense tracts near Puget sound, where such property is valuable. He owned both sides of the great falls on the Potomac. His lands are worth millions of dollars, the only trouble being that some of the titles are not very clear and may lead to legal disputes.—Chicago Herald.
