

# BUCHANAN RECORD.

JOHN C. HOLMES, Editor.

THURSDAY, MARCH 30, 1893.

## THE REPUBLICAN TICKET.

For Justice of the Supreme Court.  
FRANK A. HOOKER.  
For Regents of the State University.  
FRANK W. FLETCHER.  
HERMAN KIEFER.  
For Circuit Judge—3d Judicial District.  
ORVILLE W. COOLIDGE.  
For Commissioner of Schools.  
ERNEST P. CLARKE.

An important evidence of advanced civilization which appears to have been forgotten by the World's Fair Commissioners, is the Dixie method of conducting a perfectly fair election. It could not fail to be very instructive to visitors from other republics.

A bill is before the legislature to change the liquor law so that all saloons shall be charged \$1000 tax, and the number restricted to one to each 500 population. This latter restriction will affect the number in the larger cities only, but the \$1000 tax will root out over half of those now doing business.

President Cleveland has appointed Wade Hampton railroad commissioner. Wade Hampton was wounded three times in the service of the confederates. At Bull Run, Seven Pines, and at Gettysburg served his country four years, keeping its army busy trying to whip him, and now, after thirty-five years waiting, receives his reward. He is 74 years old.

R. Irving Latimer, who was sent to Jackson prison for life, for butchering his mother three years ago, gained the good will of two of the guards of the prison, and Sunday night gave them both poison, took the keys from them and walked out of the prison. One of the poisoned guards died. He was captured at Jerome, a small town in Hillsdale county, where he went in to a store to buy a pair of shoes, Tuesday night about ten o'clock, and was taken at once back to the prison in Jackson. Just such cases as his make a capital punishment law seem a necessity.

## ADDITIONAL LOCALS.

This chairman of the Democratic committee is out with a letter advising Democrats to use care in voting to stamp the square at the head of the ticket instead of the one opposite the first name. The difference is that when the stamp is at the head of the ticket votes the whole ticket the stamp at the first name votes for that man and no other. The advice is good and applies as to Republicans as to Democrats.

The Niles Recorder, in closing an article on Frank Stryker, says he is a "member of the Common Council of the village of Buchanan, having been elected to succeed himself by a handsome majority in that Republican village, at the village election this spring." To answer this it is only necessary to call attention to an article in this issue replying to one recently published in the Niles Star. It tells all about that election.

## Orange Blossoms.

At 6 o'clock Sunday evening, at the residence of the bride's parents, Mr. and Mrs. Elmer Weaver, of Weesaw township, the Rev. G. W. Wyland, of the U. B. church of Gallien, joined in marriage Mr. Edward Conrad and Miss Ella Weaver. The ceremony was performed in the presence of quite a number of friends and relatives, after which an excellent supper was served, which was enjoyed by all present with the zest that a spread of good things seldom fails to induce. We only voice the sentiments of all their friends in wishing them a long, happy and prosperous life.

REAL ESTATE.—Abiel Hathaway has sold his property on Lake street to Elmer Remington, price \$1,000, and bought the Hiram Baker farm in Baktown. Price \$2,500.

Charles Hoffman has bought two lots of John Graham, facing Detroit street. Price \$450.

Mrs. Alex. Emery has bought lot 24, Staples' addition, known as the Eastman property. Price \$1,000.

Chas. Bishop and John C. Dick have bought the B. H. Spencer property, 140 feet frontage on Day's avenue and Portage street, and including the rink building.

Anson Zimmerman has sold his house and lot, corner of Lake and Fourth streets, to John Rice. Price \$850.

MR. STRYKER appears to be using the fact of his election to the Common Council, as an indication of his great popularity. At least the article in the Niles Star would indicate as much. The fact is that two years ago we had a Common Council equally divided politically because of the interest in proposed improvements, elected on a union ticket. John F. Reynolds moved away and the democratic majority which remained appointed Mr. Stryker to take his place. This spring the Common Council had the contract for the improvements ready for action, and there was considerable of a feeling that old members who had been working on it should be re-elected regardless of politics, and this took Mr. Stryker in again. Besides, his opponent was a man who did not want the office, took particular pains to say that he would not serve if elected, and then himself voted for Mr. Stryker. Aside from members of the Common Council the entire Republican ticket was elected, including one Councilman in place of one who declined. To show his "popularity" it may also be well to note the fact that last spring Mr. Stryker was a candidate for township clerk, and received the smallest vote of any man on the Democratic ticket. These facts regarding the situation should accompany the Star story.

While Arthur Brown, of Iowa, was opening a bale of raw silk, at the Belding silk mills, he found a Chinese pocket knife. The handle is of wood and the blade part iron and the sharp side steel, the two parts being welded together.

Don't allow that back alley or back yard to remain in a filthy condition any longer than is necessary, but clean it up. Don't allow your cook to throw her slops always in the same place and create a stinking slop-hole, such as you have had every summer since you commenced keeping house, but have her scatter it around, no two palls in the same place, and you will enjoy the summer much better. Don't allow that old wooden or mud sidewalk to remain where it is any longer, than you must, but replace it with good cement. Don't allow anything to go undone which will give the town a cleaner or neater appearance. Buchanan will be visited by more than the usual number of strangers this summer, and if you want to have the town create a favorable impression with them you must keep things neat in appearance and good order. Don't hold back and wait for your neighbor to set the example, but get things moving at the earliest possible moment.

At the Republican Caucus held in Rough's opera house, Saturday afternoon, LeRoy H. Dodd was selected Chairman and J. G. Holmes secretary. The following excellent township ticket was placed in nomination:  
Supervisor, Geo. H. Richards.  
Clerk, Clarence D. Kent.  
Treasurer, John Perrott.  
Commissioner of Highways, Charles Bradley.  
Justice of the Peace, Charles E. Sobel.  
School Inspector, Eliza Emery.  
Member of the Board of Review, David E. Hinman.  
Constables, Leander L. Bunker, Fred Eldridge, Robert H. Covey, James M. Rose.  
John G. Holmes was elected member of the Township Committee three years in place of Aaron Miller, whose term expired with this caucus.

## FROM SAWYER.

County Agent Whitehead from Benton Harbor, was here on his way home from the Bremer farm, where he was called in the interest of the humane society, to look after stock allowed to suffer by a German tenant on the farm.

A young man here who has been in the habit of putting his and his friends' mail matter on the train, in order to "boy cot" the post-office here, got taken down a "few pegs" the other day by darning the mail messenger out of the car. The messenger jumped out, on the first invitation, and cuffed the young man "to a peak". The train lost no time, and the young man from Sawyer is more docile now.

## The Taxed Breakfast Table.

With their President in the White House and a Democratic Congress at the Capitol, the free traders have reached a point where they begin to talk about the taxes which they intend to impose on the American people. Since the election they have been gradually approaching advocacy of the taxed breakfast table. The movement began with caution, but has grown in boldness from day to day and week to week, until now some of the highest authorities in the Democratic party are unhesitatingly in record in favor of duties on tea, coffee and sugar. The Philadelphia Record asserts that as a preliminary step to attacking the McKinley tariff, new sources of revenue, which will yield about \$100,000,000 to the Treasury, they will be introduced. First in the list which at duty of 1 1/2 cents a pound only would yield a revenue of \$80,000,000 on the basis of last year's importations. Next comes coffee, which at a duty of three cents a pound would yield \$18,500,000 more. Tea would produce \$4,500,000 revenue from a low duty of 5 cents a pound.

Here are Democratic taxes for the coffee, which at a duty of three cents a pound would yield \$18,500,000 more. Tea would produce \$4,500,000 revenue from a low duty of 5 cents a pound.

EVERY farmer should take the Week-  
ly Drover's Journal, published in Chi-  
cago. It gives the best resume of  
markets of any paper published in the  
West. It costs \$150 per year.

AN excellent state paper is the Kala-  
mazoo Weekly Telegraph. By our  
clubbing arrangement with the Tele-  
graph we offer it with the RECORD for  
\$2.25 for the two papers one year.

The bill detaching territory from  
Lincoln and Royalton, and attaching  
the same to St. Joseph, has been ap-  
proved by the Governor, and that set-  
tles it for two years at least.

The democrats are now boasting of  
how they bamboozled the republicans  
by getting up the people's ticket. It  
was an old trick, but one year is long  
enough for some people to forget about  
such capers.

once that fifty years ago they were  
pledging to each other the vows of a  
life. A most enjoyable visit was had  
with the aged couple.

\$2.50 for a load of three-quarters of  
a cord of wood or less, is what was  
charged by a wood hauler, on Front  
street Saturday morning, and he found  
some one whose necessities made him  
buy it. This was a case of supply and  
demand. Soft coal at present prices  
would have been as cheap as that load  
of wood at \$1, and do as good service.

cheaper than any other order in the  
world.

CITY ATTORNEY LAMBERT, of Niles,  
doesn't appear to enjoy the reference  
to his charter performance, in the last  
RECORD, and has a very characteristic  
reply in the Star, Saturday. Rather  
better than was expected.

The Star, Saturday tells a pitiful  
story of how two Niles hunters were  
cast away on a desolate island and a  
tree top, in the St. Joseph river, Sat-  
urday morning, in their pursuit of a lone-  
ly duck. The story was heartrending.

The Kalamazoo Presbytery will

Yorker No. 2 variety for sale for seed  
at \$1 per bushel. This variety is re-  
ported by the New Yorker as having

price contest conducted by that paper.

BENTON HARBOR's sewer bill has  
been approved by the Governor, and  
all Benton Harbor is happy, excepting  
an Congregational minister who was  
unfortunate enough to refer to the  
matter in his speech introducing Tal-  
mage to a Benton Harbor audience,  
and thereby set himself up as a target  
for St. Joseph remarks.

Notice.

You are cordially invited to be pre-  
sent at the "Meeting of the Holiday"  
at Lamb's Hall, Dayton, Wednesday  
evening, April 5, 1893. Admission 10

COMPLAINT reaches the RECORD that  
some one has dumped some dead horses  
in the gully on T. M. Fulton's land in  
the north part of town and left them  
to decay in the open air. The one who  
put them there should be made to take  
them out and bury them. About every  
Spring we have complaints of dead  
horses in that gully and it is about  
time for a stop to their being put in  
there.

## BARMORE.

## Attention, Farmers.

FERTILIZE YOUR GROUND WITH  
ODORLESS FERTILIZER,  
BUG & WORM KILLER.

It is the purest plant food ever used; it is ground finer; it  
goes farther and lasts longer than any other fertilizer known.  
If you want a big crop of Wheat, Corn, Oats or Potatoes, or a  
large crop of Fruit, use

ODORLESS PHOSPHATE.

It will not only give you a good crop, but it will destroy pota-  
to bugs, tomato bugs, and cucumber and cabbage worms, all  
kinds of vermin—either on small or large fruit trees, grubs of  
every kind and class in the soil. The Agricultural Stations  
of Ohio, Vermont, Michigan and Connecticut have tested it  
and say that it produced more to the acre than any other  
fertilizer used.  
It will destroy the bugs and worms by dusting it over the  
plants and trees; it is sure death to the cut worm.
