

The jewels of the German Emperor are in Chicago for exhibition at the World's Fair.

The present legislature has repeated the face of the past three or four legislatures, of proposing and defeating an anti-pass bill. A resolution has been passed by a meeting of representatives of republican leagues, calling upon the legislature to pass the bill as promised in order to elect the members.

Tennessee is the first state to inaugurate the wild cat money business. The legislature of that state has passed a law authorizing state banks to issue currency notes not to exceed in amount \$25,000 to each bank. This is another one of the rich points of a democratic success. During the campaign we were told that the wild cat plank did not mean anything, and republicans were abused because they did not believe the story.

It is now announced as the policy of the democratic administration to abrogate all the reciprocity treaties made by the Harrison administration, and to commence the work on these with Brazil and Spain. By that with Brazil the trade of this country has been increased to more than double in twenty-three months. The effect of that with Spain has been to cause Cuba to use American breadstuffs to the exclusion of all others, when before practically none from this country was used by them. Should the Democrats find any other laws made by the republicans which are proving especially beneficial, they can be depended upon to tear it down. It is another case of "bull in a china shop."

The New York State Prison, at Sing Sing, has gone one better than our prison. On Thursday night two condemned murderers, F. W. Rohel and Thomas Fallister, escaped from prison by overpowering the two men who were acting in the capacity of death watch. The first one they blinded by throwing pepper or something else in his eyes, took his revolver and keys away from him, then "held up" the other one with the revolver, after which they locked them in the cells just vacated and made their escape. This happened about 10 o'clock in the evening, and the discovery that the men had gone was not made until the next morning, which time, if these desperate men had any assistance from the outside, they were far away from the prison, or secreted close by and well taken care of. This escape shows the same lack of discipline and obedience of rules as was shown by the escape of Latimer from Jackson a few weeks since, and it is even broadly hinted that one of the death watch was in the collusion with the murderers. These men should have been securely locked up in their cells, but were not, and the chance of escape was thus made possible. It is needless to add that the prison is under Democratic management, as was our own at Jackson at that time.

FROM CHICAGO.

The storm of the past week did a great amount of damage by blowing down timber, fences and buildings. Mr. Franklin's tool shed, A. L. Drew's windmill, and about all the rail fences in the township went down before the gale.

Farmers are afraid that their oats will rot, owing to the wet, cold weather. Wheat is looking better since the rain.

Mr. L. W. Gibson, of Lakeside, a staunch Republican, has been appointed Supervisor to fill the vacancy caused by Mr. R. M. Goodwin's ill health.

Mrs. Henry Rush has moved to Benton Harbor.

Sol. Rough is losing a good share of the lambs on his farm, by exposure to these cold rains. A little care would be a good medicine.

Ernest Rogers, deacon of Dr. Paxson of Three Oaks, died Saturday, aged fifteen years. Funeral Tuesday. He was injured by a fall from a high chair when three years of age, which caused him to be an invalid ever since, and finally his death.

Mrs. A. L. Drew is very ill, with slight hopes of recovery.

The managers of the Chicago theatres intend to provide plenty of attractions for the hordes of visitors that will pour into the city for the next six months to view the wonders of the earth at Jackson. The unfortunate experiences of the Philadelphia and Paris managers during the terms of the World's Fair in those cities seem to have a stimulating effect on the Chicago managers, who guide the fortunes of Chicago's houses, and there is no unshaken confidence that the approaching season will be phenomenal. Every class of amusement, from the cheap and nasty exhibit of the dime museum to the dazzling splendor of the spectacle, will find its patrons in the cosmopolitan throng that is coming to the World Fair.

McVicker, the "dean" of the managerial corps will divide the season between the "Black Crook" and the "Old Homestead." Dave Henderson has arranged to write his burlesque from the "Arabian Nights" down to the "All India." Lillian Russell and troupe are to sing in light opera at Hayman & Davis' Columbia. Uncle Dick Hovey will stick to his musical comedy and drama. There will be an abundance of farce comedy at the "Grand," and the manager of the Schiller has the latest "adaptations" by Mr. Frohman.

Abney, Schofield & Grant, the renowned triumvirate of Grand Opera impresarios are preparing to put a spectacle on the vast stage of the Auditorium that will attract and astonish theatre goes from one end of the country to the other. Only a few details are as yet known about the piece, but these are sufficient to stamp it as the most colossal and magnificent work of the kind known to the modern stage.

Plans for its construction were laid a year and a half ago under the guidance of Irene Kluge, the successful management of spectacular fame. It comprises a proscenium and thirty tableaux, bears the title "Astruc," and has for its subject the rise and progress of this country from the time of Columbus' landing to the present.

This historic theme will be illustrated by scenery, music, ballet and mimetic action. Dialogue will be used to some extent, but will be subordinate to the other features. The scenes which are described as enchantingly beautiful, were painted in Paris by the corps of famous artists connected with the Grand Opera House.

Antonio Venauza, a celebrated Italian composer, wrote the entire musical score, and is at present in Chicago directing the preliminary rehearsals of this peculiar department.

The costumes exquisite in design and texture, were made in London, Paris and New York, and cost a fortune. The scenery, in fact, does not seem to have been a consideration in the creation of this gigantic scheme. One hundred and twenty thousand dollars will have been the outlay before the curtain rises on the opening, and heaven only knows what the expense will be there-fer. Seven hundred persons have already signed contracts to appear in the piece. The ballet and pantomime, in fact, do not seem to be a consideration in the creation of this gigantic scheme. The first performance is announced for April 17, and the season will commence for six months following that date.

A \$6 bill issued in 1863 by the Erie & Kalamazoo Railroad bank, of Adrian, and a \$1.50 bill issued by the Government Stock bank of Adrian, are in possession of the township treasurer in Clayton. The bills have been handed down from one treasurer to another for 40 years.—Detroit News.

The first ballot box used in Aurelius township, Eaton county, is still in existence. It was first used in 1838. The election was held at the house of a man named Hayward. There were seven voters in the township and all of them were elected to some office. Only two of them are still alive.

A cyclone passed over a portion of Riverside, Thursday, doing considerable damage. It took off the north half of the roof of Mrs. Chester Curtis' barn and tore her wagon shed into splinters, and broke some farm implements into pieces. It also blew over into buildings on the premises of Messrs. Cutler, Emery and Wakefield, and uprooted apple trees in Mrs. Kittell's orchard and damaged the trees. Curtis' property will amount to about \$75.—B. H. Palladium.

Whales and the Moon.

"You wouldn't believe that fish—at least spouting fish—are influenced by the moon?" said an old sea captain. "Well, they are. I've seen it time and again, and I've called other people's attention to it, too, but I never found any one else who had noticed it. Sometimes when you are at sea and whales are to be seen frequently—it may be at the full moon or at a new moon—well, all at once they will disappear and you won't see one for two weeks. Then just as suddenly the water will be full of them. I've compared notes with other whalers, and I've called other people's attention to it, too, but I never found any one else who had noticed it. A Republican holding a fat office under a democratic administration did not get well with Illinois democrats, and to get rid of the Republican they abolished the office. As the result Mr. Victor M. Gore will hereafter be a citizen of Benton Harbor.

NILES STAR has a long story about some Chicago parties opening the Clinton house and running a line of boats between Niles and St. Joseph. We suggest that the line of boats be run on up to Elkhardt. There is an immense amount of business to be had by such a line of boats, if properly managed. There's millions in it.

THE RECORD learns that a move is being made by the farmers along the line of the St. Joseph Valley railroad to have that road disfranchised; the right of way, much of which has never been paid for, vacated and the whole contraption abolished as a nuisance. When this is done there will be no more trouble about getting an agreement between the owners of nothing and those who own a mortgage on it, and the next time an opportunity offers itself for securing a good railroad to this vicinity the right of way can be had cheap. May the good work progress rapidly.

MR. WILLIAM DALLIN, representing a company that is projecting an independent line from New York City to the Pacific coast, has been in Berrien and Cass counties, this week, in the interest of a branch road to run from St. Joseph and Benton Harbor to a point on the Baltimore and Ohio in Indiana. This branch would pass through Eau Claire, Dowagiac and Cassopolis and those places have been solicited to raise bonuses to aid the project. Mr. Dallin wants these towns to grant ten miles right of way or to assure the company \$10,000. All of the places interested are taking energetic hold of the matter, and the prospects are good for the road.—Niles Sun, April 20.

Cass County Fair Association will hold their spring meeting in Dowagiac, June 8 and 9.

A QUIET wedding took place Sunday at 2 p. m., at the home of Mrs. Nettie Day, 118 East Wayne street, at which time and place Miss Maggie Miller, sister of Mrs. Day, was united in marriage to Mr. Wm. Garritt, Rev. Dr. Henry Johnson tying the nuptial knot.—S. B. Times.

FOR some time spiritualists have been holding seances in this village, with a Mr. Johnson, of St. Joseph, as door keeper and explainer, and Joseph King of Benton Harbor, as materialistic medium. Departed spirits were so far materialized that some of their earthly friends recognized them, and so it was claimed. Frank Bradt did not believe in it, yet he invited them to hold a meeting at his house, last evening, and arranged with Van Garritt and Geo. Austin to help expose the humbug. At a given signal, as Mrs. Pratt thought she saw the spirit of her departed father, Geo. Austin turned on the lights, Van Garritt sprang upon the back of Mr. Johnson, holding him fast, and Frank Bradt sprang into the cabinet and took a firm hold of the ghost which proved to be Joseph King with false face on and boots off. Mr. King gave back the receipts for two evenings, and then Mr. Bradt turned King and Johnson out into the dark and rain and they took their departure. The three young men invited more seance meetings, and the admittance, as far as they are concerned, will be free.—Watervliet Cor. St. Jo. Press.

DIED, at Aurora, Neb., March 31st, 1893, of pneumonia, Jonaht Thruskill, aged 69 years. Deceased was born at Fared street, Essex county, England, March 18, 1824. He was married to Jane Willett, May 14, 1849, and came to America in 1857. After living a number of years in Michigan he came to Aurora, where his home has been since 1883. Three out of a family of six children remain, who with their mother, the loss of an affectionate father and kind husband. He has lived for many years a consistent christian life and was at the time of his death a member of the Congregational church. The funeral was held at the church Sunday afternoon, where, amidst the emblems of Easter joy, the resurrection message seemed specially appropriate and comforting. His tranquil death honored the faith which his life had illustrated, and the large concourse of citizens who were present, many of whom followed the remains to the cemetery, bore testimony to the esteem felt for him in the community. "Blessed are the dead which die in the Lord."—Aurora, Neb., Sun.

The ground was white with snow Friday morning, April 27, and winter wraps were taken from their summer quarters where they were securely packed the week before.

MR. V. M. GORE has sold his one-half interest in what is known as the Mithew place, at the head of Detroit street, to Mr. J. S. East, the owner of the other undivided half.

MR. MELVIN RYNEARSON, formerly employed as baker for Treat Bros. in this place has bought an interest in a bakery, in Fairfield, Ill. The firm name is Garther & Rynearson.

BUCHANAN LODGE NO. 98, A. O. U. W., held their first meeting in their lodge room, since the fire in January, Friday evening, and celebrated the occasion by installing a new member.

Mrs. LENA ARNDT has sued the city of St. Joseph for \$8,000 damage to her property, because the water works stand pipe stands near her property and occasionally a barrel or so of water is slopped over onto her premises.

The Berrien Springs and Berrien Centre hack team ran away in Berrien Springs, last Thursday, injured Miss Prouty, who was in the hack, and broke the neck of one of the horses. Others who were in the hack were not hurt.

SHERIFF WHITCOMB was in Jackson Friday to subpoena the officers and clerks of the prison, to appear at the May term of court for the trial of Taylor, for the murder of Mary Comley, in Niles, last December.

ESQUIRE J. C. DICK joined in the holy bonds of matrimony, on the 22d inst., Mr. Fred H. Fritzen of South Bend and Miss Jessie M. Hahn, of this place, at the home of the bride's parents.

DIED.—In this village on Wednesday afternoon, April 20, 1893, of quick consumption, Mary Elizabeth, wife of Emory Atwood. She was born Sept. 12, 1846. In her death her husband and four children (two of them by a former marriage) mourn the loss of an exemplary wife and mother. The date of her funeral has not yet been fixed but it is expected it will be held on Saturday, and the interment made in Oak Ridge cemetery.

NILES has just had a decision on an important school case. In 1878, John P. Davis held the position as principal of the City schools. During the last few weeks of the school year the Superintendent was sick and Davis did the work, and next year applied for that position and the School Board did not employ him in either place. He then sued for wages in both positions, and was defeated in the Circuit Court. He appealed to the Supreme Court which ordered a new trial. In that he has judgment for \$214.50.

The city council of Niles, at a meeting held Tuesday evening, appointed the following officers, all Republicans: Marshal, D. Klingerman; Night watch, H. Korman and C. Shockey; Sexton, C. Thomas; City printer, S. L. Chase; Poundmaster, Andrew Jackson; City Attorney, Geo. S. Clapp; City Physician, J. D. Greenamver. The Star says: "Well, the Republicans have given satisfaction every time, for all those who were elected in the council on different occasions were brainy fellows and capable in every way. They never sold out and can always be relied on to do what is right."

A CHANGE has been decided upon for the location of the waterworks power house, which is now to be built on the Robinson lot, on the east side of Oak street, opposite the pad factory. J. G. Holmes having bought that lot Tuesday for that purpose. Mr. J. P. Beistle has bought the house and will move it to a lot in A. B. Clark's addition. It is expected that a flowing well will be secured at this point, bringing good pure water from below the second clay stratum, where it is perfectly free from any surface changes.

C. D. SHARROW, Deputy Head Consul of the Modern Woodmen of America, has been here the past week looking after the interests of that Order in this place, and as a result of his labors, Buchanan Camp will add twenty new members to its list tomorrow evening, and about the same number of new applications will be placed on file. The charter has been opened for thirty days, giving charter privileges to all applicants during that time. This is one of the oldest and far the cheapest life insurance organizations doing business in this state, and every man should take advantage of the opportunity offered him, for the next few days, and hand in his application for membership.

Obituary.

Mrs. EMILY GERTRUDE GEYER, beloved wife of Mr. Morton Geyer, passed over to the better home, on Tuesday, April 25, 1893, in her 22d year.

Mrs. Geyer was the daughter of Mr. and Mrs. Erasmus Kelsey, and was from her childhood well-known in this vicinity and much beloved by all who knew her. She united with the Presbyterian church of Buchanan during the pastorate of the Rev. H. V. Warren, Sept. 29, 1880. About five years ago she was married to Mr. Morton Geyer, and their home was on the farm adjoining Mr. Kelsey's up to within a few months, when they removed to Sarnerville, where Mrs. Geyer passed away, on the above date.

The remains were brought to the home of her parents, and the funeral services were held this afternoon at 2 o'clock, the Rev. O. J. Roberts preaching in the sermon from Rev. 14:13, "Blessed are the dead which die in the Lord henceforth," a passage selected by our beloved sister herself as the text of her funeral discourse, and its selection by her is the precious evidence of her hope in a blessed Savior, and the assurance to sorrowing friends that she has gone to the land where pain never enters, and where there are no partings. The burial was at the Oak Ridge cemetery.
