

JOHN C. HOLMES, Editor.

THURSDAY, MAY 25, 1893.

A bill has passed the house at Lansing giving women the right to vote on all questions in school, town, village and city elections, and to hold majority and other offices in these districts. The bill restricts the privilege to those women who can read, and they will be required to read a paragraph of the constitution when they apply to register. Now if the legislators will apply exactly that restriction upon the men, their time will not have been spent at Lansing in vain.

One of the most disgraceful acts ever perpetrated in this state was the lynching of William Sullivan, the murderer of Layton Leech, at Cornua, on Tuesday night. Some 200 men, nearly all from Durand, where Leech was murdered, urged on by a crowd of about 1000 men and boys, gathered at the jail about 9:30 in the evening, and overpowered the sheriff and his six deputies, battered down the jail door and the door of Sullivan's cell, and placing a rope around his neck, dragged him out and hung him to a tree in the jail yard. Before the crowd gained access to his cell Sullivan had cut his own throat with a piece of glass and it is thought was dead before the rope was placed around his neck. Not being satisfied with simply hanging their victim the mob assaulted the body with sticks, stones, leadballs and hands until every stitch of clothing was torn from the body. Then they dragged the body about the streets until they tired of the sport. To read the details in the dailies it would seem that the crowd were crazy. They are simply too horrible to believe that men of sober and sound minds could be guilty of such an atrocity. All who were interested in this dastardly work should be brought to speedy punishment.

## ADDITIONAL LOCALS.

The case against Charles Charwood for the robbery of Wm. H. Fox, last Fall, was tried Monday and Tuesday, and a verdict of not guilty rendered by the jury after being out but a short time. This disposes of all who were supposed to have been into that scrape excepting Fulton Powers, whose trial will be had next month.

The following is the salaries paid Three Oaks officers: Marshal, \$5 per month; street commissioner, \$2 per day when he works; clerk, \$2 per month for attending council meetings; fire warden, \$10 per year; chief of fire department, \$10 per year; treasurer, \$10 per year. The tax of the village for this year will be five mills on the assessed valuation.

A petition is being prepared asking the Commissioner of Highways of this township to change the location of the highway from the river side of the house occupied by Frank Myler to the opposite side of the buildings, so that the race and buildings for the electric power plant may be placed where the road now runs.

The entertainment at the Prairie Evangelical church by the Y. P. A. of Zion's Evangelical church, which had been announced at different times and was prevented by rain, was rendered upon last Sabbath evening. The church was well filled. The program which had been prepared with much thought as to subject matter, was splendidly carried out. The persons to whom topics were assigned did themselves much credit in presenting their thoughts. The recitations were good. Too much can not be said of the singing. It was inspiring. We trust that many such services may be had during the year.

## BY ONE THAT WAS THERE.

OUR RAILROAD PROSPECT.—Mr. Wm. Dallin was in this place about ten days ago, and stated that his railroad from Napreene, Ind., to Benton Harbor would pass through Berrien Springs, that place having made the required pledges, and would either pass through Niles and Mishawaka or Buchanan and South Bend, depending upon how he could get through South Bend. In case he came this way, Buchanan was expected to pay \$10,000, and were to have had a decision last week. The decision was not given. Niles papers are now publishing that he has offered to go there if they will pay \$10,000. The offer made us is the same we had from him regarding the Vandalla. If the road came here we were to pay \$10,000, but it didn't come and we were not called upon to pay. The Berrien Springs contingent of the St. Joseph Valley railroad have been very active during the past few weeks, with the statement that their backers are prepared to go to work if they can be sure of securing Buchanan interest in the road. As that is not a difficult feat they may be expected to do something before long. Procrastination has not been profitable in their case. As while they have been doing the Jew act on \$4,000 here, the \$20,000 Berrien Springs is to give is supposed to be pledged to Mr. Dallin. The petition to the railroad commissioner to disfranchise and condemn the road is still living and awaiting action. On the whole, the prospect in the line of a road is not the most flattering at present. There is talk of an electric road from this place to St. Joseph following the highway. Chicago capitalists are discussing the project, and in case the St. Joseph Valley road is not extended this summer this will most likely be built. While that would not equal full-fledged railroad it would be a great improvement over nothing.

One of the dining room girls at the Galt House had her hands quite badly burned yesterday afternoon. She had been cleaning her gloves with gasoline, and afterwards put them on and held them up to the fire in the stove to dry. She got them too close to the blaze and they caught fire, and before the flames were put out her hand were severely burned.—Niles Sun.

## Obituary.

JOSEPH BLAKE was born in Kosciusko county, Ind., March 1, 1845, and died in Chicago, May 19, 1893. When a child he came to Michigan and settled near Buchanan. He was married to Catharine Page March 2, 1867, and to them were born six children. Two passed to their heavenly home in childhood, and four daughters remain, who, with their afflicted mother, mourn the loss of a kind husband and loving father. Mr. Blake's parents died about twenty years ago; four brothers and three sisters survive him.

In early life Mr. Blake was converted and united with the Baptist church in Niles. About fourteen years ago he united with the Methodist church at Edwardsburg, and when the family moved to Buchanan he became one of the most earnest and faithful workers in the M. E. church here. Just one year ago he moved his membership to Grace church, Chicago, where he manifested the same earnest and consistent life he had lived among us. Mr. Blake's health was feeble for some time, but he fell suddenly at last, being confined to his bed only a few days. The heavenly messenger found him ready and anxious to depart and be with Christ. He left with his affectionate wife and loving daughters that which is better than wealth, the blessed record of a glorious christian life.

Brother Blake had hosts of friends in Buchanan, and indeed, in every place he lived all testify to his excellent christian character and honest, practical life.

## About the Size of It.

The defects of our penal code are seen in the conviction of George Taylor, at Niles, Mich., for the murder of Miss Conley. Several years ago he stole from her and was sent to prison for two years and a half. So far from being a safe man to turn loose upon the community he was still meditating and openly threatening her murder for having testified against him and securing his conviction for the theft.  
But there was nothing else to do and he was let go at the expiration of his arbitrary sentence. He proceeded to carry out his threat, and the woman's life was taken because the present state of criminal law refuses to inflict anything but arbitrary penalties, regardless of the attitude of the criminal towards society or of the danger or the safety of allowing him to go loose and free. The state is partially responsible for the murder of Miss Conley. He never goes back for life. But under the law for murder in Michigan he may escape at any time or be turned loose again by means of a pardon.—Detroit Journal.

STATE ITEMS.  
Dowagiac's city council adopted a resolution to the effect that tramps will hereafter have to work on the streets in a chain gang for ten days.

One firm at Leslie has shipped from there this season over \$3000 bushels of "Boston delights," or in plain United States, beans.

Dowagiac is suffering from a scourge of lung fever which promises to become epidemic. A number of deaths have already occurred.

Cassopolis business men made up a purse and sent Wm. Rucker, a hard working unfortunate of that village, to take a course of the Keeley cure.

Dowagiac proposes to put tramps into a chain gang to work on streets. Verily, the lot of the poor tramp is a hard one.

According to the Vigilant, Cassopolis boys catch fish from Stone lake by wading in the lake and driving the fish out onto the shore.

Dowagiac Manufacturing Co. gives evidence of being a thing of the past. Part of the stockholders have a death grip on the thing, and when it starts up again it will most likely be theirs.

Dowagiac will vote June 13, upon the question of buying the electric light plant for \$16,000. The plant, besides the poles, lamps and wires, consists of one incandescent dynamo and one engine. The city already owns the boiler.

Dowagiac Times pronounces local option a failure, because it is expensive to prosecute violators, and makes a great ado because three men were arrested in as many days, in Paw Paw. The natural inference is that the Times would have the law left to enforce itself. It would be a success then, surely.

A Wonderful Paper.

The World's Fair Number of *The Youth's Companion* just received is in every way a magnificent issue, a worthy contribution to the Columbian year and the greatest Fair the world has ever seen. It gives a full description of the different departments of the Fair, also important directions showing how to see the Fair and what to see each day. Its illustrations are superb, no less than thirteen full pages devoted to photographic views of those unequalled buildings which make up the "White City." It has a strikingly beautiful cover lithographed in ten colors, with a frontispiece showing the Administration Building, the Lagoon, its gondolas and one of its numerous bridges, and the Electrical Fountain. The whole issue has thirty-six pages and more than sixty illustrations, and is highly artistic. It is certainly without a rival among the World's Fair issues. All the old subscribers to *The Companion* will receive it free, and any new subscribers received, with \$1.75 for a year's subscription, will also obtain a copy of the edition. Seven hundred thousand copies have been printed, but are not likely to be sufficient for the demand. Single numbers may be obtained by sending ten cents to *The Youth's Companion*, Boston, Mass., or of any newsdealer.
