This announcement may seem a little premature, but the ladies of the Presbyterian church are already making great arrangements for their annual Fair, in December. The Fair will not be open on Sunday.

BURGERS visited Dr. T. A. Bunbury, in Niles, and secured a gold watch. Thos. Makepeace was visited the same night, but missed nothing but the cream from a pan of milk, in the kitchen.

ST. JOSEPH has let a contract to Deuler, Scott & Co., of Port Huron, to build a sewer system in that place for \$10,477.00. We may expect to see Benton Harbor object to it being opened into the river lest it soil the water.

THE Misses Clara Coalscott and Olive Brenner, of Cincinnati, are spending a few weeks with Miss Bertie Beck, and the party are being entertained at West Clear lake this week by Mr. and Mrs. H. D. Rough.

The preacher and one of the deacons of the African M. E. church, in Benton Harbor, had a little go-as-you-please knock down, for the amusement of the congregation, just before the pronouncing of the benediction, Thursday night.

MR. J. C. MANN, a Niles tailor who has published a large number of eccentric letters on religious subjects, died Sunday, July 16. The Star published a picture of him which would form justifiable grounds for a libel suit by the friends.

WHILE at work shingling George Ewalt's barn, two miles west of Berrien Springs, Tuesday, A. H. Havenor fell from the roof to the ground, a distance of twenty feet. As a result he has a broken arm, one broken rib and some internal injuries.

The boilers and compression chamber for the waterworks plant arrived last week. The pumps are expected soon. Ten days more will about complete the pipelaying, and it will not be long after that before Buchanan may have full use of a good waterworks system.

The bright and peculiar light seen in the north-west, Saturday evening, by those who happened to be caught out after 10 o'clock, is reported by astronomers as a freak performance of a comet which has been attracting attention of the star gazers for some time.

MRS. DAVID MURPHY, of this place, attempted to go out of this world by the Paris green route on Sunday night, but by the aid of a physician her life was saved, though it was a close call. Domestic trouble is said to be at the bottom of her woes, hence her desire to "shuffle off" into the other world.

LAST Thursday was the hottest day we have had in many months, over the entire country. In this place the highest registered by the Repond's registering thermometer was 95. Others, however, reported as high as 103. The boys in the waterworks ditch decided by unanimous vote that it was hot.

MR. HUMPHREY, of the Commercial Electric Company of Detroit, was here Thursday and Friday upon business connected with the contract of that company for furnishing and putting in of the electrical plant of the Buchanan Power and Electric company for light and power.

MR. FRANK MUNSON has been cleaning up his recently purchased property, at the corner of Oak and Second streets, making a great improvement in the appearance of the surroundings. If all property owners in town would take equal pains it would give the town a better appearance.

A competing telephone company is erecting lines and stations in this state, and promise to do business at one-half present rates. With that rate Buchanan and many other towns of its size will afford an exchange. It was the outrageous price charged which drove the exchange once established out of Buchanan.

THE Niles Recorder mourns because Niles did not make an effort to secure the Berrien county and Southern railroad, and remarks that six weeks ago was the time to attend to it. That is right, and just when Buchanan was attending to it. About next June term of court Niles will find it convenient to come this way to the county seat once more.

The new telegraph poles set in this place last week are some of them painfully prominent. There might have been an arrangement which would have given the street a better appearance. There is some growling about it, but no move yet to have it corrected. The time to correct the thing is now, while the pole setters are here.

THE Niles Recorder suggests as a way out of their dilemma, that the city build the waterworks and pay for the pumping station, stand-pipe and hydrants, and charge the mains up to the property owners along the lines, after the manner of laying sewers and pavements, and give the tax payers four years to pay for it. There is another way. You might call the legislature together and get a new charter.

BRO. COOK of the Niles Mirror claims the ownership of a remarkable razor which belonged to Gen. Cass during his lifetime and to his father, Jonathan Cass, of New Hampshire, during his lifetime and before the revolutionary war. It was presented to him by the late Gen. H. A. Morrow just before he left Niles for his post at Fort Snyder, Neb. Its age is unknown.

The foreman of the telegraph gang has been in charge of constable Covell the past few days. He is charged with a little sharp practice in speculating in the wages of his men. It seems to be a rule of the company to pay \$25 for the first month's work and \$35 thereafter, and the foreman is charged with hiring new men each month and reporting for pay roll the old names thus realizing a net profit of \$10 on each.

TUESDAY morning Under Sheriff Palmer brought John Gorman and John Murphy from Berrien jail, where they were serving a ten day's and a d. sentence, to answer to the charge of knocking down and robbing Lester Steed, a caller on the water works. They waived examination and were returned to await trial before the Circuit Court.

Mrs. Edson Wood, an old lady 80 years of age, residing one and one-half miles west of Niles, Mich., has become heir to \$47,000 and each of her children to \$5,000 by the death of a relative.—Benton Harbor Palladium.

THE Misses Carrie and Pearl Hunt, two Muskegon young ladies, passed through Benton Harbor Monday morning on their way to the World's Fair. They conceived the idea of walking to Chicago, a distance of 230 miles, and some of their friends grieved them for the wild notion, and others promised them some pretty fine presents if they made the trip in fourteen days, they started out, and seemed to be enjoying themselves hugely.

ROBBED.—Clyde Baker intended to go to Chicago on the 3 o'clock train yesterday morning, and when he got up missed his clothes and found the parlor window blinds open. The window had been left up and the hall door standing open. He changed his mind about going to Chicago, but later found his clothes lying on the ground just east of the front steps, but his gold watch, chain, Masonic charm and about \$15 were missing. Up to date he has failed to learn who was so free with his goods and chattels. What is supposed to have been the same crowd broke into J. Imhoff's kitchen, but no valuables were missing.

The Recorder goes to nearly every postoffice in the country, more largely of course in its southern and eastern part. This circulation was secured by hard and persistent effort and it cost every cent we got out of it. It was intended for the service of Niles and her merchants. That it is mostly used by South Bend and other foreign concerns is no fault of ours, but seems to be characteristic of the place.—Niles Recorder.

All of which confirms the opinion we have expressed of the place for the past twenty years.

A Family Gathering.

A very pleasant family gathering occurred on Terre Coupe prairie, six miles from Buchanan, last Sunday, July 16, 1893, it being the first reunion of the Stryker family.

In the fall of 1864, Mr. C. G. Stryker, wife and five children came from New York and settled on the present homestead. Later the family increased to seven children. They are now all married but one, and together with the sons and daughters-in-law and grand children, the family numbers twenty-four. Mr. C. G. Stryker died in June, 1890, that being the only death in the family. The widow resides with the youngest son.

The oldest child, Frank A. wife and two children reside in Buchanan, Mich.; Mrs. F. L. Spencer, husband and three children live near Lawrence, Mich.; Mrs. Geo. Parout, husband and three children reside in Niles, Mich.; Don. J. lives in Lowell, Mass.; Wilford and wife are located on the old homestead; Mrs. E. R. Lake, husband and son live at Pullman, Washington; Hugh L., the youngest child, with his wife and one child reside in South Bend, Ind.

It is not often that so large a family, residing in so widely different sections, succeed in having all their members present on any particular occasion. *

POISONED.—A special from Benton Harbor, July 13, says:

Benjamin Graff, his wife, son and daughter, were taken seriously ill last night from eating pressed beef that had become tainted by hot weather. Two physicians spent the night with them, and their recovery is probable.

The city of Niles sent three tramps to Berrien Springs for ten days each, where they will cost of court and officers, or perhaps nearly \$40 in all. Under our charter they could have been set at work on the streets or breaking stone, which at a \$1 a day would have made us \$30 instead of losing us \$40. Wouldn't it be well to set that clause of the charter to work? —Niles Recorder.

We think it would. Try it.

LAST Tuesday a sad accident occurred at Eau Claire, Emory Carpenter, one of Lovell's mill hands, was repairing some of the machinery and a timber in the mill gave way, letting him fall several feet astride another large piece of timber, hurting him severely, causing internal injuries and hemorrhage, so that his chances for recovery are small.—Palladium.

The sheriff of this county and the mayor of St. Joe have been taking a nocturnal walk to see if the statute governing saloons and gambling rooms was carefully observed. To their intense surprise and disgust they discovered that the law was honored chiefly, by its breach rather than by its observance. Everybody else has known it all along.—Bra.

A severe electrical storm struck Kalamazoo last Thursday afternoon, doing a considerable amount of damage to property in the vicinity. It is estimated at \$50,000 or more.

Many curious and interesting sights are on the Midway Plaisance, this street of all nations, the Mecca of all visitors to the World's Fair, at Chicago; but among all its exhibits the "Panorama of the Swiss Alps" is doubtless the most highly artistic. To those whose good fortune it has been to go "abroad", this panorama awakens old memories, and to the many who have been less fortunate this really grand painting is a revelation. It is a perfect representation of the famed Bernese Oberland, as it would appear in all the immensity of reality to a sight-seer in the midst of the Alps. The illusion is made perfect by the truthfulness of local color and by the vigorous and sincere paintings of such artists as Burnand, Baud-Bovy and Turot. This superb canvas was painted in Paris, France, for the express purpose of exhibition at the World's Fair, and has received the well-deserved encomiums of all the leading French and American artists.

TIME M. C. R. R. Co. will sell tickets from Buchanan to Chicago until Oct. 30, limited for return not later than Nov. 5, for \$4.20 for the round trip.

Every day from morning until late in the evening thousands of World's Fair visitors crowd this wonderful show, to witness the performance of the lions on horseback, tigers on velocipedes, trained pigs, the rare monkeys and parrots, and thousands of other curiosities. Don't fail to see the greatest of all animal shows when visiting the World's Fair grounds. A restaurant with popular prices is in the building.
