

A Georgian has \$30,000,000 of confederate money. It may come handy to circulate along side of state wild cat money which the South is so anxious to have.

Judge A. W. Terrell of Texas is the author of a poem making a hero of Wilkes Booth for his last deed. His reward is the appointment as United States Minister to Turkey.

If the Governor of Illinois ever had a duty to perform it was to demand the punishment of the murderers of citizen G. J. Miller, by the mob at Bardwell, Kentucky, and then of the United States Government to see that they are punished.

One of the most peculiar circumstances in connection with the present stringent market, is that in the case of nearly all of the bank failures the banks have assets much larger than liabilities, except for the crazy scare of depositors to get their money out when there was no danger.

It is becoming evident that it is the intention of the confederate administration to abolish the system of paying pensions to disabled veterans. Justice Long of the Michigan Supreme Court, who has been drawing a pension for thirty years on account of a wound in the abdomen which not heal, and having lost an arm in the service of his country, has been suspended and cited to show why his name should remain upon the rolls. This pension is paid in consideration of specific injuries received, and shows the evident intention to clear the rolls out of existence as rapidly as possible, regardless of conditions.

It is reported that Hon. J. C. Burrows will introduce a resolution in the House, as soon as possible after it convenes, to investigate the methods of the present Democratic pension department as now conducted by that eminent Southern patriot, Hoke Smith. Mr. Burrows justly claims that after a soldier has been examined in the legal way, and his pension granted, that the commissioner has no right to suspend him from the rolls, or reduce his pension, or compel him to go to the trouble and expense of being re-examined and furnish testimony to again qualify him to draw a pension. If Mr. Burrows gets after Hoke Smith he will not rest until full justice is done the veterans, if such a thing is possible under this administration.

The N. Y. World has published answers from Congressmen who answered its query, "What will Congress do?" Congressman Burrows said: "Nothing short of divine wisdom can forecast what the approaching congress will do. It ought to promptly repeal the silver purchase clause of the Sherman act, and then relieve the country from all anxiety by promptly adjourning."

What has become of those free traders who have always insisted that all business transactions between the United States and foreign countries was done on a barter basis? They say no money went out of this country to settle foreign accounts and that the protectionists' idea of keeping our money at home to pay for home labor and home products, instead of buying the products of foreign labor, was nonsense. Wonder if they think so now?—Detroit Journal.

Tariff Pictures. In Mahoning county, Ohio, in which the city of Youngstown is located, the total amount of industrial wages paid in 1890 was \$1,762,068. In 1891 the wages paid in Youngstown alone were \$3,071,123. It is this kind of progress that Democratic success has brought to a sudden halt. In Lycoming county, Pa., the total industrial wages paid in 1890 amounted to \$1,221,510. In 1891 the industrial wages paid in Williamsport, the leading city of Lycoming county, were \$2,415,811. In the opinion of Mr. Cleveland and his friends this increase in wages was "unconstitutional."

Two Pictures. Last week Joseph King, a Boston veteran, was led up to the pension office to receive the pension that was to be between him and his faithful helpmate on the one hand, and starvation on the other. The blind hero who had marched bravely to face the rebel shells presented his sightless eyes at the wicket of the pension agent. The money was not there. The government he had helped save had deserted him. Grover Cleveland's secretary of the interior had ordered the blind soldier's pension to be suspended. Let us turn for a moment from the picture of want and anguish in the blind soldier's home to a far different spectacle. Grover Cleveland, who sent a substitute to the war, while Joseph King was fighting the confederates, was yachting on Buzzard's bay. Hoke Smith, his secretary of the interior, who had ordered the old soldier's pension suspended, was enjoying a trip to Yellowstone park, probably free of expense. Other officials of the administration that hate the soldiers of the Union were taking their ease in various ways at the expense of the government which men like Joseph King preserved from destruction.—N. Y. Press.

Democrat Statistics. Nearly five months have passed away since Grover Cleveland was inaugurated President of the United States. It is now time to note what statistics show regarding the condition of things under the democratic administration. The Tribune has compiled the subjoined exhibit of democratic statistics: Increase of number of failures under democratic administration (first six months of 1893) 888. Increase in liabilities of failed concerns under democratic administration (first six months of 1893) \$11,426,701. Balance of trade against the United States under democratic administration (six months ending June 30) \$108,450,261. Decrease in exports under democratic administration (six months ending June 30) \$90,997,513. Pensioners suspended from the rolls by democratic administration (up to July 1) 5,000. Pensioners dropped from the rolls by democratic administrations (up to July 1) 245. Deficiency in gold reserve under democratic administration (at close of business June 30) \$4,240,000. Vast army of the unemployed under the democratic administration, 3,000,000. Decrease in railway construction un-

der democratic administration (first six months of 1893) 322 miles. Price of wheat under democratic administration, 62 cents. Price of wool under democratic administration, 62 cents. Increase in number of bank failures under democratic administration (first six months of 1893) 97. Number of trusts prosecuted and broken up under democratic administration, 0. These figures tell their own story. They show the first fruits of democratic domination in national affairs. But what they do not show is any good and sufficient reason for the election of a democratic President and democratic Congress. In the light of the facts, will somebody explain in what manner has the country been benefited by the change of administration?—Detroit Tribune.

STATE ITEMS. Allegan boasts of eighty-six widows, grass and graveyard. Van Buren county has only one National Bank, the First, at Paw Paw. The peach crop this year in the vicinity of South Haven is estimated at 400,000 bushels. Fire did about \$13,000 worth of damage at Midland Saturday with about \$8,000 insurance. A lady doctor who is operating at Saugatuck bears the very suggestive name of Find-en-killer. She hails from Milwaukee. Frank Cooke, a Holland farmer, aged 40, was gored by a bull Saturday morning, and fatally injured. His skull was crushed. He leaves a family. The two Muskegon girls who walked over that place to the World's Fair arrived there on Saturday morning, ahead of their schedule time several days.

Albert Dykens, aged twenty-one, of Filmore, fell from a load of hay, striking upon the handle of a fork. The handle penetrated his groin and he cannot survive. Mrs. Homer Estabrook was unhappy and tried to drown herself in the river at Allegan, but John Dieterman came along and pulled her back as she was jumping from the bridge. Mrs. W. S. Morris, wife of a traveling salesman of Detroit, and formerly of Lyons, committed suicide by poisoning, at Van Wert, O. She was eighteen years old and had been married but a short time. Lightning struck the house of a Cheboygan man. He received a severe shock and was cured of an attack of rheumatism that had kept him in the house for several days previous to the storm.—Detroit Free Press.

May Frost, a twelve-year-old girl of Bancroft, has disappeared. She was pretty and unusually well-developed, and is believed to have been lured away, as she started for Chicago, July 14 and has not been heard from. A man belonging to Frank Eaton, of Branch county, became frightened and ran away, Eaton following on foot. After a long chase he overtook them, but almost immediately fell to the ground and died. He leaves a widow and child. Jackson is going in pretty exclusively for cement sidewalks. They are being made of a uniform width of five feet, and the cost of construction is equally shared between the owner of the abutting property and city.—Detroit Free Press.

A Negaunee divine was horrified by receiving a request from another minister for a copy of his sacrament service, to which was added these words: "Don't fail, or we will be left in the soup." The last words were penned by a mischievous child. Lansing, July 24.—Attorney General Ellis has given an opinion to the effect that registers of deeds should file the certificate as to the payment of taxes required by the new tax law, in their office, instead of returning them to the persons furnishing them. The certificate made by the register of the fact that the above certificate has been furnished should be recorded as a part of the deed and the recording charged for at the rate of ten cents per folio. The register is, Mr. Ellis says, also entitled to a fee of 6 cents for filing the auditor general's or county treasurer's certificate.

WELL PRESERVED OLD GENTLEMEN. How They Endeavor to Conceal the Steady Enfeeblement of Time. One of the most common conceits of old gentlemen past 50 is to claim that they are "just as young as they ever were," "never felt so well in my life," "just as vigorous as ever," "primo de life, sir," "full of intellectual vigor." Some of these elderly persons will wink and look wise and boast of their unimpaired vigor, but they do not ride horseback any more, "have lost their taste for such vigorous exercises." They do not go over the mountains for quail any more; they shoot duck from a punt hid in a tulo blind; they do not dance, nor ride horseback, nor go up two steps at a time, nor jump upon a car while it is in motion. Just see one of these well preserved old gentlemen get out of a buggy or walk up hill; hear him pant and wheeze; see him avoid a draft from a crack in a door or window; see him throw his handkerchief over his bald head when he goes to sleep in church. This elderly gentleman carries a substantial cane, wears thick woollen clothes, a buckskin over his chest, cosets if too fat and a liver pad. His hair gets thin, his legs get weak, he gets irritable, thinks this generation not so good as the last, thinks the world is growing dishonest and the country is going to the devil. If he is a lawyer, he becomes an old fogey, and the boys worry him with sharp practice. If he is a doctor, he regards all young men as quacks and all progress in medicine as empiricism. If he is a banker, he looks wise and continues to look wise until the age of 80 the tenacious is rigid with frozen sagacity. Women never get to be 50—that is, not by the regular process of gradually growing old. The dentist, the hairdresser, the corset maker, the milliner, the importer of French bonnets, the advertiser of a holy grail and the advancing female, and when finally she cannot dodge old age any longer she just skips with a bound from 35 up to 70, throws up the sponge and turns pious.—San Francisco Argonaut.

RALLY TO THE G. A. R. Fifty Veterans Will see the World's Fair as the "New York Press" Guests. There Will Be Special Pullman Palace Cars Full of Them En-route to Chicago Early in October. The New York Press proposes to send the World's Fair as its guests fifty Union veterans, members of regular Grand Army Posts, who are to be selected by the readers of THE SUNDAY PRESS. This proposition is made as an evidence of the esteem and gratitude in which THE PRESS holds the men who imperiled their own lives to save this nation. Each of the chosen veterans will be the guest of THE PRESS from the moment the train leaves New York until its return, and the journey will be timed to include a full week's sojourn in Chicago, with all expenses paid, including daily entrance to the grounds of the Exposition. All G. A. R. veterans in good standing are eligible. They may come from any town, city or territory over which the stars and stripes proclaims its government. The selection of the favorites will be made on the ground of popularity, their popularity to be voted by ballots printed in every issue of THE SUNDAY PRESS.

THE RECORD learns that the Judge of Probate has developed a great liking for buttermilk as a fisherman's beverage. Van was always known as a man of steady habits when he lived here, and we are surprised to learn of his drinking anything so strong. There is no knowing what may result from being a county officer, however.

MR. R. V. CLARK informs the RECORD that the Berrien County Grange will hold a picnic on the fair grounds, in Berrien Springs, opening Aug. 30 and closing Sept. 1. Hon. Mortimer Whitehead, of Washington, D. C., Lecturer of the National Grange, will deliver an address Sept. 1, and other distinguished members of the order will participate in the meeting.

WILLIAM PAGE was severely scalded, Saturday morning, on the Will Graham farm near Berrien Springs. He climbed on a traction engine and in some manner a raveling on the bottom of his pantaloons caught the safety valve and held his leg long enough to permit the steam to scald the limb clear to the waist so that the skin dropped off.

UNDER SHERIFF PALMER received instructions to arrest a red headed and one-legged man who had hired a livery rig in St. Jo. and failed to return with it. He found a couple answering the description, but soon learned that the man had his good leg on the wrong side. Since that he has been wondering under what law a man may wear a stub leg on one side when he steals a horse and on the other when he is arrested.

THE foreman of the telegraph gang, mentioned last week as having been arrested on the charge of speculating on the time of his men, claims that this was a wrong statement, but that he was arrested for being short in his accounts \$152. A NUMBER of banks in Denver have been closed by a stampede among depositors. Among them was the private bank of Stephens & Hanchett. They had no safe of their own and deposited with one of the large banks. When they sent for cash to meet their demands it was refused them, although they had double the amount asked for on deposit. The head of the firm is Mr. J. N. Stephens, formerly of this place. The firm will meet all liabilities in full and continue business.

ANOTHER ROBBERY.—Thursday afternoon, while the family were all in the field at work a man entered Will Andrews' house, just north of town, and secured his gold watch and \$25 in money. Will's sister came to the house while the robber was in and frightened him out of the window. In climbing out he dropped the watch and ran to the woods. Up to date he has not been captured.

VICTOR THOMAS, a well-to-do bachelor farmer from Bainbridge, drove his team to Benton Harbor, last week, and then wandered to parts unknown, leaving the team on the street. He has not been heard from since, and fears are entertained that he became intoxicated, fell into the canal and was drowned.

LATER.—Mr. Thomas writes to the Benton Harbor Palladium that he is at home, but gives no explanation of his action.

A gentleman and little girl belonging to a party of picnickers who are camping up the river, attempted to do some sailing on the river. Tuesday afternoon, and not understanding the business capsized and were thrown into the river. Some boys who happened to be on the shore near by broke loose a boat that was moored near by, and went to their rescue. It is a good plan to learn to sail before going onto the water.

BUCHANAN now has five night watchmen. Tramps have been employed to work on the streets there in the laying of the water pipes and in building the dam, and nearly all of them are typical sons of rest. As soon as they get a dollar ahead they quit work and get on a drunk, and some of them have been committing burglaries. There is a strong feeling in favor of making them pound stone and work on the streets.—Niles Sun.

You are invited to call and see how the men on the waterworks and dam rest. The fellows who gave us most trouble were some Niles toughs who are not here now.

ON Monday evening a large party, composed of the members and congregation of the M. E. church, assembled at the parsonage to celebrate the 20th anniversary of the marriage of Rev. and Mrs. I. Wilson, and they did not ask permission to do so either. A very pleasant time was enjoyed by all, and a large quantity of ice cream and cake was consumed. When the company went home the family had a dozen fine dining-room chairs, a rocker and several other articles more than they had before.

THE young daughter of Mr. and Mrs. Fred Weisgerber, of New Buffalo, has been very sick at the home of Mrs. Weisgerber's parents, Mr. and Mrs. H. N. Hathaway in this place. She was taken sick on Monday, 17th inst., with inflammatory croup and Saturday it was thought necessary to perform tracheotomy to preserve life. Dr. Henderson called Dr. Bonine as counsel, who coincided with that opinion, and Dr. Bonine, assisted by Dr. Henderson and Oscar Colvin, opened her windpipe and placed in a tube. She breathes nicely through this tube, and is now in a fair way of recovery. The tube will be removed in a day or two.

A rather distressing case was the suicide of Miss Lillian Sautler, an 18 year old young lady employed as chamber maid on Macinac Island, July 17. She left a letter stating that William J. Badgley, a U. S. regular soldier stationed on the island, made a criminal assault upon her, and the disgrace of the act led to her suicide. The coroner's jury held Badgley indirectly accountable for the girl's death, and there was strong talk of lynching him. Young Badgley was formerly a Buchanan lad, and will be remembered by many as having left here eight or ten years since. He will most likely spend the balance of his time in Jackson, where such tricks will not be possible.

ULYSES S. COBURN, Indiana. Cora Overman, Andrew M. Huss, Buchanan. Clara Critzer, Oronoko. E. S. Bonson, San Francisco. Bessie P. Taylor, Wagon, Wis. N. Shaftstall, Baroda. G. A. Spennett, Arthur L. WHILE Deputy Sheriff D. V. Brown, of Niles, was on his way to John M. Fisher's, in Berrien township, Tuesday, to get the particulars of a burglary committed at Fisher's house, he met two young men about three miles from Niles, and thinking that perhaps they could give him the information he desired, he persuaded them to ride back to town with him. On their persons were found the stolen articles and a lot of other plunder probably stolen somewhere else. They gave their names as Harry Taylor and Harry Shelby, and claim to live in Pennsylvania. They are now in jail at Berrien Springs.

CRYSTAL SPRINGS Campmeeting, Niles District, Will open August 8 and continue 8 days, closing Tuesday evening, August 15. The Association this year has added new attractions to the beautiful grounds and better facilities for the convenience and comfort of all who attend.

THE great tabernacle has been thoroughly seated with comfortable chairs; a new building providing cold storage for provisions has been erected, and a fine system of waterworks has been extended, so that water will be conveyed from the Excelsior Springs along every avenue of the encampment. The large boarding hall has received added facilities for the convenience and comfort of all patrons.

New cottages have been erected on the grounds and old ones are being repaired and refitted for the season. In addition to the pulpit talent of South-western Michigan, pulpit orators of National fame will be present and preach.

August 13, Bishop Ninde, D. D., and Chaplain McCabe are expected to preach. The Chaplain will also sing. An excellent judge of music once said, "It is worth going 100 miles to hear him sing."

IT is expected that many thousands will visit the encampment this year, and one of the most successful meetings ever held at Crystal Springs is anticipated.

FROM GALLEN. The Postal Telegraph Co. are putting up a line of poles through this part of the country, planted a mile and a half of poles on the town line road before they discovered that the wire on the wrong road, and were obliged to take them up again. The line passes one and one-half miles north of here.

MR. James Sherwood, who has been for five years day operator on the M. C. R. R. here, has accepted a position on the Joliet Division of the M. C. in Illinois, and will move his family there this week. Their many friends, while glad he has secured a better position, regret that he will take them from town.

MRS. Sophia Morris' new house, at the corner of Grant and Third streets is nearing completion, and will be one of the most attractive houses in this part of town, when completed. It is being built entirely on the modern plan.

OUT on the "Chicago Farm", a few miles south of here, one can see an unbroken field of 100 acres all in cabbage, and from one point of vision can be seen not less than 300 acres of cabbage, and on looking at it one is reminded of a vast lake. It is nothing unusual to clear \$100 an acre on cabbage, and the prospect for an immense crop is excellent.

MRS. Alice Rose and daughter Bessie were in Chicago Saturday, and of course saw the Fair.

BOOM THE TOWN. The only lively business is the kindling wood business as proven by the chips around the dry goods boxes occupied by the boys out of work, with their pennies.—Niles Star.
