Mrs. HARRIET BAKER.

MR. AND MRS. T. C. ELSON have rooms in the house of Mr. Eli Helmick, and are now "at home" to their friends. They expect to get possession of their own house, now occupied by Prof. Swain, about the 1st of November.

MARTIN STEELE, who has been employed in Runner's drug store, resigned his position Saturday evening for the purpose of spending the year in the State University at Ann Arbor, to study pharmacy. In taking a trip to Cincinnati Tuesday he was caught in a wreck on the Big 4 in which nine were killed, but he escaped uninjured.

THE RECORD is informed that Mr. J. M. Platts, of Eugene City, Oregon, who moved to that place for his health from his farm about half way between this place and Niles, on the Niles and Buchanan road, about two years ago, is dead, and that his remains would arrive at Niles to-day for interment in the cemetery of that city.

GEORGE SMITH saw the Chinaman's owl yesterday and thought he had found game, so shot at it, against the peace and dignity of our corporate laws, and Marshal Shook invited him to the office of Justice Sabin. He went, when the Justice said \$1.50 would be enough to satisfy the majesty of the law.

A pressure of 127 pounds per square inch put on the waterworks pipes Tuesday found a ten-inch pipe with sund flaws in the iron, on Oak street. This was repaired, and yesterday the pressure was run up to 135 pounds and no leak found. As the required test is but 125, this is supposed to be sufficient.

YESTERDAY morning Mr. Wm. Conrad's hired man was plowing with three horses on his farm, and in going up a steep incline and close up to a steep gully, when the "off" horse swung his hind parts around into the gutter and tumbled in. The other two were drawn back upon the plow, and both injured so that one died immediately and it was necessary to kill the other. The one which fell into the gully had a long stick puncture the body running upward between the hind legs, so that the recovery is doubtful. Mr. Conrad considers his loss about \$400.

CHARLES JUSTICE who was sent from this county to State Prison for a term of nine years for burglary, in 1890, was found hanging from his cell door Monday night. He had made a rope from his bed clothes, and in order to hang himself had to bend his knees so his feet would not touch the floor. Last month he escaped by breaking from the bull pen, but was soon captured, and on two occasions he attempted to commit suicide by cutting his wrist.

NATHAN FITCH, one of the oldest residents of the southern end of this county, died in Niles on Tuesday morning. He was nearly 83 years of age. In 1836 he came to this county and bought a farm in the bend of the river, in Berrien township, where he resided until 1881, when he moved to Niles city. He was elected sheriff in 1854, and in 1860 and 1862 he was elected member of the State Legislature. He was well and favorably known to a large number of our people. The funeral was held today at his late home and the interment was at Long Lake cemetery, in Berrien township.

THE Buss Machine Works in Benton Harbor were attached by Deputy Sheriff Collins of Grand Rapids, Wednesday of last week, to secure a loan of \$15,135.88 due the State bank of Grand Rapids. The works are closed, but the Messrs. Buss hope to so adjust their business that they will be able to start up again in a few days.

LATER.—The Talladum states that an agreement has been arrived at between the company and creditors, and the works will resume operation immediately with considerable work on hand.

WORD was received here Monday that Roscoe W. Colvin, a young man of 20 who formerly resided here and was a pupil in our schools, was drowned on Sunday. It appears that four young men about the same age, while out sailing for pleasure on Black Lake, near Holland, this state, were capsized, but all were saved but young Colvin, whose body was soon recovered. His parents lived at Shelby. His mother was one of the McCoy sisters, and was born and raised in this place. The boy was universally liked by his former companions here, who will learn of his untimely death with regret. Mr. and Mrs. Will Ingles of this place attended the funeral, which was held at Shelby.

HENRY BARBER was drunk and disorderly Saturday, and finally was gathered in and given a place in the village cooler to meditate over his predicament until Monday morning, when justice Sabin thought that a six months job at Ionk was about right. Marshal Shook went with him.

LATER.—Marshal Shook returned Tuesday afternoon, and brought his prisoner back with him. The pris on so long a sentence. They informed the Marshal that the justice had exceeded his authority in making the sentence so long. He is now at liberty, and will probably remain at liberty if he behaves himself.

A number of the Knights Templar from this place went to Benton Harbor Friday, to assist in constituting a new commandery in that city, to be known as the Malta Commandery No. 44. A large number of Sir Knights from different parts of the state were present to assist their Benton Harbor fraters in starting out in good shape. The new Commandery is officed as follows:

S. C. Rosenberg, Eminent Commander.
C. B. Hutchinson, Generalissimo.
J. R. Clarke, Captain General.
Edward F. Strickland, Prelate.
J. S. Cross, Senior Warden.
W. S. Horton, Junior Warden.
E. F. Platt, Treasurer.
C. B. Winslow, Recorder.
W. S. Charles, Standard Bearer.
H. E. Skinner, Sword Bearer.
A. B. Bibebe, Sentinel.
J. S. Beers, Warden.

THE rumor was Monday started anew that the Lake Shore company had secured full control of the Michigan branch of the Big four railway. It is the common talk among railway employes that such a deal will happen soon, and they gain their information by stories which leak out through the general offices.—Warsaw Times.

THE chief engineer for the construction of the railroad from Nappanee to Benton Harbor was in this place last Thursday to look for a feasible route between this place and Berrien Springs. It being evident that no terms can be made with the owners of the St. Jo. Valley road, two plans are under discussion: One contemplates crossing the river just below the dam at this place, and following the section lines one mile east of the range line road to Berrien Springs, and the other a line west of town and a half mile more back from the river. The grade between Nappanee and Wakarusa is well along toward completion, and is an air line. Should the weather permit the road will be completed to this place during the coming winter.

THE following telegram will tell the end of the case against a former Buchanan boy. His arrest was noticed in these columns several weeks since: ST. LOUIS, Mich., Sept. 16.—William Badgley, the Port Macleay soldier, was this morning found guilty of a criminal assault upon the person of Lillian Sauter, a Mackinac Island waitress, and was at once sentenced to eight years of hard labor in the Northern prison. The jury was out twenty-two hours. It will be remembered the girl had been killed after writing a letter charging Badgley with the crime. She preferred death to facing the disgrace resulting from his forcible assault.

DIED.—Mrs. Harriet Adelle Bishop, wife of Mr. Charles Bishop, died in this place on Monday, Sept. 18, 1893, after an illness of only about a week. She was born April 10, 1844, and was married in 1860. Mrs. Bishop had been sick several months ago with Bright's disease, and went to the Battle Creek Sanitarium for treatment, remaining there several weeks, returning home apparently cured, and in splendid health, which continued until her last sickness, when her former ailment again showed itself, and for a few days before her death was a great sufferer. Mrs. Bishop had been a real test of Buchanan since the spring of 1885, and by her amiable character had won a large circle of sincere friends who will greatly miss her presence from among them. Her husband and son are among our most wide awake business men, who keenly feel the loss of a loving wife and mother, whose greatest ambition was to minister to the wants and welfare of those she loved so well. She was an honorary member of the Lady Macabees hive of this place, and was always ready by her counsel and advice to assist her sister Macabees in all their undertakings and will be sincerely mourned by them. Her funeral was held today from the family residence on Day's avenue, Rev. O. J. Roberts of the Presbyterian church officiating, and the interment made in Oak Ridge cemetery.

THE work of closing the last opening in the dam was done during the low water Sunday afternoon. Over six hundred people were on the grounds, to see the water shut off from its usual path. The pond filled up and the water ran over the crest of the dam at 2:40 Monday morning, and now presents a most beautiful sight. The dam, by a measurement taken by Surveyor Bacon of Niles, Tuesday forenoon, is 9.7 feet in height; is substantially built after plans of Mr. E. R. Beardsley of Waldron, Ill., submitted by him to the Village Council, with the addition of a twelve-foot apron, double decking, and a number of other additions to its strength. The dam is calculated to develop about 4,500 horse power, which is to be utilized by the Buchanan Power and Electric Co., its owners, for manufacturing, lighting and heating purposes. An electric plant comprising 1800 incandescent and 52 arc lamps, and machinery necessary to develop 250 horse power for manufacturing purposes will be put in at the earliest possible date, the expectation of the company being to have this part of the plant in operation by January 1. Three 48-inch American Special turbine wheels, a jack shaft 70 feet long, with clutch pulleys, stands, sleeves, etc., all made by the Globe Iron Works of Dayton, Ohio. One car load of this machinery was shipped here yesterday.

STATE Game and Fish Warden Chas S. Hampton sends the following explanation of the new law in regard to catching h, which is of local interest. It will be seen the old law is not changed very much after all: DENOSKER, MICH., Sept. 15, '93. Owing to misunderstanding and difficulty that has already arisen on account of the wording of Act No. 180 of 1893, the following explanation will be of interest: The act purports to amend Act No. 150 of 1891 so as to forbid fishing "in any of the inland lakes and streams of this state" in any manner except with hook and line. But it only amends a section one of the law of 1891, without changing its title, which is, "An Act to regulate the taking and catching of fish in the inland lakes of this state." I therefore hold that where there is no local act, fishing in streams is still governed by sections 4 and 5 of the general fish law, Act 111 of 1889, which permits the spearing of certain fish in streams, and also taking them with dip net. The mistake was evidently due to an attempt in the closing hours of the session to change the Senator's bill relative to Clam Lakes into a law governing the whole state.

CHAS. S. HAMPTON, State Game and Fish Warden.

J. L. RICHARDS, Pres.
C. D. KENT, Clerk.

FIRE broke out again last Friday afternoon, about two miles east of town, and burned over about 100 acres of the power house. This was the biggest fire there had been in this vicinity this summer, and did a great deal of damage to timber and fences, besides burning up hay. About one hundred men turned out and by plowing, back firing, etc., it was stopped at the mile road, east of town. Last week was the third Friday in succession that the town has been threatened by fire.—Three Oaks Press.

GEO. A. McOMMER was held up by foot pads, near the Union church in Berrien township, Monday evening. One of his men killed one of the robbers so that it destroyed the combination.—Era.

Forty-eight sheep were fatally burned in a marsh fire near Goshen, the other day.
