D. H. BOWER,
PUBLISHER AND PROPRIETOR.

THURSDAY, JUNE 28, 1894.

HON. LORENZO P. ALEXANDER.

With the death of the Hon. L. P. Alexander Buchanan lost a man who in the active years of his life was foremost in commercial circles and among the most enterprising and public spirited men of the town. For fifty-four years he was a resident of Buchanan, and had lived until August would have been 74 years old. His life was a public one, and by the citizens of Buchanan, Berrien county and the State at large he was called to fill many honorable positions. In every department of public activity which he occupied he discharged the duties imposed upon him with a deep feeling of the responsibilities of public life, his sincerity and honesty inspiring confidence, his ability commanding respect, and the moral courage he displayed such as could not be commended to him all.

The portrait above is from a photo taken in his fifty-ninth year. Mr. Alexander was a native of New York, in early life a mechanic, but in later years engaged in mercantile pursuits. He was largely instrumental in building up Buchanan, being in active life identified in all public as many private enterprises, his aid and counsel being sought in later years.

Politically he was a Republican and in political circles throughout the State he was well known. In June, 1864, he was chosen one of the Michigan delegates to the Republican National Convention held in Baltimore which nominated President Lincoln and was honored by appointment on the committee selected to inform the President of the action of the Convention. During the war he served as member of the State Legislature, was a delegate to the Constitutional Convention of 1870, and in 1870 was elected State Senator. He fled to the satisfaction of his constituency numerous municipal positions, always enjoying public confidence and esteem.

In 1842 Mr. Alexander married Miss Rachel Cooper who died in 1849. One year later he was married to Miss Helen M. Byrnes of Belfast, N. Y., who survives him, together with a daughter, Mrs. H. C. French, now residing at Cassopolis, and a son, Mr. John B. Alexander, managing editor of the Spokane (Wash.) Chronicle.

Obituary.
Eli J. Roe, the seventh son of Eli and Margaret Roe, was born in St. Joseph county, Ind., May 23, 1832. He remained at his father's home and worked on the farm until 18 years of age when he left home to work at the carpenter's trade. On May 27, 1855, he was married to Miss Susann Witter, who survives him. Since coming to Buchanan, in 1855, he has ever been prominent among the business men of this place, and his life was characterized by business energy and thrift. He had five sons and three daughters, all of whom except the eldest son, who is in California, were with him during the last hours of his life. He also leaves four brothers and two sisters.

On Dec. 14, 1856, he and his wife were baptized by Elder Wm. Lane and became active members of the Christian church in Buchanan. In the furtherance of the gospel of Christ he was one of the chief ones in the church to give support and encouragement, and his faith in God and his confidence in the merits of Christ, were unflinching to the end. His suffering in his last illness was protracted and severe, and he longed to be at rest.

He gently passed away about noon, June 17, 1894, and on June 20 his funeral was largely attended at his late beautiful home in this place. After a few fitting remarks from Rev. 14:13 by Rev. Robt. Sellers of South Bend, Ind., his body was laid away to await the glorious morning of the resurrection.

David J. Clark, an old and respected citizen of Buchanan, died at his residence in Buchanan, on last Friday, June 21st. He was a native of Frederick county, Maryland, and was aged 79 years, 10 months and 6 days. In 1836 he married Miss Elizabeth Wise who, with 7 children, survive him. The funeral services were held from his residence, last Sunday, and the remains were taken to Portage Prairie for interment.

Cooking by Electricity.
Electricity has won many triumphs over the forces of the past, and during the past decade, and that, too, in departments in which the position of the latter was deemed unassailable. As a source of intense light, and as a motive force for the most delicate machinery of all kinds, it is in extensive use, and in steadily growing demand; and now attempts are made to utilize electricity for heating purposes. An interesting apparatus of this kind was on display at the exhibition of the Vienna Exhibition in 1883 and proved to be the forerunner of similar extended and improved apparatus designed for heating by electricity. —Detroit News-Tribune.
