"In your native state, for instance, Mr. Raymer. Nevertheless there are many accomplished Mexican families.

For a week the lieutenant daily haunted the sundial, but not once in the seven days that he eyes sought the palace windows did he see any members of the household, except the servants who took care of the casings and polished the panes.

Early next morning Raymer was sent on detached service, from which he did not return until late on the following Saturday. Sunday morning he determined to attend church at the cathedral, and at the usual hour entered the east door of the transept.

The lieutenant accepted the courtesy with thanks and seated himself before the double line of schoolgirls. Philip Raymer was not a communicant upon the altar of matrimony.

Fashionable circles of the seaboard cities had known Raymer both as a civilian and a soldier, and some of the best society of New York, Philadelphia and Lake George.

"Do you know any young ladies at the palace?" asked Raymer, broaching the subject upon which his thoughts had been dwelling of late.

"There are three who answer to that description. When did you see her?" "At guard mounting yesterday and today a young lady stood at the window overlooking the sundial.

"I have seen her twice at the palace windows, but not in conventional garb." "Yes, frequently. Says Dona Teresa she is brilliant and accomplished, speaks Spanish and English equally well."

wagon master's arm to hold him back and was screaming wildly for help, while the girl appealed to her male escort for protection.

"Oh, you want to give the gaffer, do you, my ungrateful sunflower? Well, I'm willing to accommodate you. Take that!"

"At this moment an infantry sergeant and two men of the provost guard, attracted by the screams of the duena, appeared and took the demoralized wagon master to the guardhouse.

The driver cracked his whip and shouted, the mules sprang into a gallop, and the ambulance whirled out of the plaza in a cloud of flying dust and gravel.

With some appropriate service of the church, the exercises closed, and the audience soon dispersed. All resemblance to an eastern school ceased with the benediction.

BEFORE I could get relief from a most horrible disease, I had spent hundreds of dollars TRYING various remedies and physicians, none of which did me any good. My anger and despair were such that I had come to leaving me perfectly bald. I then went to **HOT SPRINGS** hoping to be cured by this celebrated treatment, but very soon became disgusted, and decided to TRY the effect of **TRIPLE SSS**. The effect was truly wonderful. I commenced to recover after taking the first bottle, and by the time I had taken three bottles I was entirely cured by S. S. S. when the world-renowned hot springs failed.

Count Ferdinand DeLesseps, the projector of the Suez Canal, is dead.

John Grush of Dowagiac has an increase in the amount of his pension.

John Patterson has discovered on his farm near Wakelee, Cass county, a vein pronounced to be gold by oil miners.

Christian Steiner, a farmer living Goshen, Ind., fell asleep a week ago last Sunday evening, and cannot be awakened. His slumber is of a healthy nature. The physicians, as usual, are puzzled.

W. A. Barber was elected Attorney General of South Carolina Thursday. He is perhaps the youngest Attorney General in any state in the union, being but 26 years of age.

In the election for United States Senator, held Tuesday in the South Carolina general assembly, B. R. Tillman received 131 vote, M. C. Butler, the incumbent, 21 votes, scattered 5.

The three-hundredth anniversary of the birth of Gustavus Adolphus, the great Swedish King, who died on the battle field of Lutzen, Nov. 6, 1632, was celebrated at Stockholm, Sweden, commencing last Saturday, with a pomp and splendor which made it one of the greatest festivals ever held in the city.

In a collision between cable cars in the Washington street tunnel at Chicago Tuesday evening one man was fatally hurt, 15 more people were seriously injured and a score of others more or less bruised. The cars were set on fire by the stoves, and for a time there was a fearful panic around the wreck.

The following corporations have filed articles of association with the Secretary of State: The E. H. Stafford Co., Muskegon, \$50,000; L. B. King & Co., Detroit, \$50,000; Detroit Journal Co., Detroit; Alpha Bending & Carriage Co., Kalamazoo, \$5,000; Port Huron Fiber, Garnett Manufacturing Co., Detroit; Green's Lumber Co., Sault Ste. Marie, \$25,000; Traverse Bay, Peninsula & Old Mission Electric R. R. Co., Traverse Bay.

The people of Owosso are indignant over the fact that the officials of the Toledo & Ann Arbor railroad company have decided to move their division headquarters to Durand, in direct violation of their contract, drawn when Owosso put up \$50,000 bonus to induce them to locate there. The employees of the road express the greatest indignation at being compelled to move their families to Durand. The change will be made about February 1.

The electors of the county of Cheboygan voted to raise \$35,000 for county buildings, by bonding the county for thirty years, the bonds to be payable in ten annual installments with interest at 6 per cent. The board of supervisors, however, authorized the issue of bonds payable in fifteen years at 5 per cent. The Supreme Court declared the proposed bond issue void, on the ground that the expressed will of the people was not carried out.

Gov. Flower of New York has dismissed the charges against the board of managers of the Elmira reformatory, involving charges against Supr. Brockway of cruelty to inmates. The governor says he has studied with great care both the majority and the minority reports, and concluded that corporal punishment has not been administered in such a way as to cause any permanent injury. He concludes that the managers are in no way to be blamed for the punishment inflicted.

Lands Not Illegally Sold.
Concerning the report sent out from Niles that lands had been sold for taxes on which those dues were paid, County Treasurer Treat says there is nothing in it. The list of delinquent lands was prepared last summer in the Auditor General's office at Lansing, as is required by law. It was published in the *Press* the first of a week for six weeks and then the lands were duly sold; but meantime the taxes had been paid on a number of pieces of property and these were not included in the sale. No tax title has been issued to another where the owner has paid the taxes—unless a clerical error may have occurred, and this is easily rectified.—Benton Harbor *Palladium*.

ADDITIONAL LOCALS.

About forty of the young people of the Evangelical church and a few of their friends, sprang a complete surprise on their pastor, Rev. Geo. Johnson, at his home, on last Friday evening. It being his birthday anniversary. He was away from home and when he reached home in response to a messenger who was sent after him, he was greeted with a cheer from all in a chorus. Before leaving him in peaceful possession of his home again they presented him with a fine beaver overcoat. He responded to the beautiful gift in an appropriate manner. Every one knows he appreciates the kindness and love of the young people very highly. They will all be very welcome to come again.

Mr. F. N. Weaver met with quite a serious accident on Saturday afternoon. He was walking up Main street and had started to go through the road-way between the Hatch Cutlery Company's factory and the wagon shop, when a piece of heavy sheet iron in one manner fell from the roof striking him on the head and knocking him down. Assistance was quickly at hand and Mr. Weaver was taken to his home where his wounds were dressed. His face was quite badly cut and several stitches had to be taken in his under lip. Fortunately no bones were broken and yesterday Mr. Weaver was down to his store attending to business and congratulating himself upon his fortunate escape from what might have been a very serious accident.

A Great Success
Was the Ladies' Aid Fair at the Presbyterian church.

The much planned for and talked of Presbyterian fair is now a thing of the past, and as the ladies review the results of their hard work a feeling of satisfaction is experienced. On Thursday, the day before the fair opening, the ladies were busy all day with adequate preparations for the opening. Friday noon the fair was inaugurated by the serving, at noon, of a New England dinner, which was liberally patronized; in fact the dinners and suppers throughout the whole fair was one of its successes.

The basement of the church was utilized for the occasion, and the various booths were very nicely and tastefully arranged with lace curtains and other drapery. Nearly one-half of the basement was used for the booths, which were arranged as follows: The Stebbins Band booth, fancy work booth, flower booth, apron booth, popcorn booth, and vegetable booth. Back of the candy booth, in the center of the room, were the tables for the dinners and suppers.

Friday's attendance, both afternoon and evening, was very satisfactory, but Saturday was by far the best day both as regards the attendance and the patronage. At dinner the resources of the committee were taxed to the utmost to supply the demand for the chicken pie dinner. In the evening, when the time came for the closing of the fair, nearly everything in the booths were sold, and those who had worked so energetically for the success of the fair were repaid for their work by the consciousness that the results in hard cash would foot up to nearly \$150, after all expenses had been paid.

The plat of the Benton Harbor & Napanee railroad's route through the city has been filed with the clerk of the circuit court. The line strikes the city on the east, running under the Lake Shore at the Wewahatchee creek, following along the river also sometimes on land and again out in the water, passing under the Grand Trunk, Jefferson street and Water bridges, along side the water works and factories on the west side, circling through the Rockstroh and Bartlett flats, striking the river bank at Chapin place and continuing along the bank through Shetterly place, crossing the Three I near the McCartney farm thence running straight out to Portage prairie and on to Buchanan.—South Bend *Tribune*.

Another Dam.

The Berrien Springs Water Power Co. is a new corporation with \$50,000 capital divided into 500 share, with the following shareholders: Geo. H. Murdoch, Sr., Roscoe D. Dix, Fred McOmber, A. B. Ayers, B. F. Case, D. G. W. Gaugler, S. G. Armstrong, Gilbert Burdick, Jas. F. Skinner, T. L. Wilkinson, H. M. Henslemann, J. H. Sparks, T. W. Reynolds, A. Lemon, Smith & Stahl, Jacob Boone, I. N. Savage, Augustus Kephart, Henry Kephart, N. J. Davis, W. F. Bullard, Darius Brown, Geo. Kephart, Wm. H. Graham, W. F. Mason, J. C. Wood, W. P. Harmon, F. A. Zerby and Charles Cohn, of Berrien Springs, and O. W. Hitchcock of Niles.

In their application for a charter they state the purposes of the company to be as follows:

The undersigned hereby form themselves into a corporation for the purpose of damming the St. Joseph river, at or near the village of Berrien Springs, in the county of Berrien, state of Michigan, and of excavating and constructing, maintaining, repairing and improving any canal that they may wish to excavate and construct with water power appendances thereto, and to own have use and control the same for the purpose of accumulating, storing, conducting, selling, furnishing and supplying upon agreed rental, water and water power for milling, manufacturing, domestic, municipal and agricultural, and also to produce and supply the village of Berrien Springs, in said county, and the inhabitants thereof, with electricity for lighting, heating and motor purposes, for which the same is or may become of practical use, and to acquire, hold, lease and convey lands or water power as may be necessary or convenient for the purposes above specified.

CROP REPORT.

MICHIGAN.

Department of State, Lansing, December 8, 1894.
Wheat has not made large growth this fall, yet it goes into the winter in very good condition. Correspondents' estimates indicate that, compared with vitality and growth of average years, the average condition in the southern counties is 88 per cent, central 92, northern 96, and State 90. The figures for the southern and central counties and the State are higher, and for the northern counties the same as on December 1, 1893.

Correspondents this month have made a second estimate of the proportion of the wheat crop that is being fed to stock, the first estimate having been made in October. The average of present estimates is, for the State, 24 per cent, indicating that about one-fourth of the crop will be fed. The average for the southern counties is 28 per cent, central 21 per cent, and northern, 22 per cent.

The total number of bushels of wheat reported marketed in November is 1,110,630. The number of bushels reported marketed in the four months August-November is 4,749,377, which is 1,018,004 bushels less than reported marketed in the same months last year. The average condition of live stock in the State is reported as follows, comparison being with stock in good, healthy and thrifty condition: Horses and sheep 94 per cent, cattle 99 per cent, and swine 97 per cent.

The Building Committee of the Board of Supervisors of Berrien County, consisting of S. L. Van Camp, Chairman; John F. Gard, Secretary; Alex. Halliday, Wm. H. Ball, Ira B. Stemm and Timothy Smith, have issued a circular inviting bids for the new county buildings in St. Joseph. Some of the specifications are as follows:

The Court House to be fire proof throughout, the portions to be occupied for the stores to be fire proof, protected and constructed with a special view to the greatest security. The cost of the building not to exceed \$55,000.

The heating apparatus, plumbing, sewerage, gas and water piping, electric wiring, window shades and all furniture will not be included within the price limit, but must be indicated on the plans and explained in the description, and arrangements must be made for placing the same in position in the building.

The preference of the committee is for a stone building, constructed on the Rotunda plan, with central tower, having four fronts, with main entrance on Ship street, and the architects will be left to show as large, handsome and convenient as can be completed for the sum named above.

Basement to be used for offices, law-study, closets, etc.

First story to be divided in four sets of offices, to-wit: County Clerk, County Treasurer, Register of Deeds, and Judge of Probate, having at least a public and private room for each.

Second story to contain the Court Room, two Jury Rooms, Supervisors' Room with two committee rooms, Prosecuting Attorney's Room, Judge's office, Const. Room, Waiting Rooms, Lavatory, Closets, etc.

The Sheriff's Residence and Jail to cost not to exceed \$15,000 complete.

The architect whose plan is accepted will be required to make a deposit of \$2000; guaranteeing that when offered for bids, there will be a competent contractor for a sum within the price limit, furnishing two good bondsmen, each worth three-fourths the amount bid.

Designs and plans to be sealed and marked on the outside and sent in by 12 o'clock, noon, December 27, 1894, to Fred A. Woodruff, County Clerk, St. Joseph, Michigan.

GLENDORA.

From our Regular Correspondent.
Dec. 9, 1894.

Some are still husking corn.

The sawmill did some custom sawing last week. They are preparing for winter by enclosing the mill.

Wood is coming in rapidly indicating a lively wood trade. Quite a number of logs are being hauled also.

Protracted meetings closed Sunday night after a four weeks' siege. They were quite successful and the attendance was good.

A very good social dance was had at the hall last Friday evening. Everything passed off as quietly as could be.

L. H. Kempton, our new P. M., has received his commission but will not take office until Jan. 15.

While husking corn one day last week one of Fred Smith's horses got its leg under the wagon tongue in such a manner as to break it just above the knee. The next day one of Dell Harger's horses dropped dead in the harness. It is a hard deal for poor men to lose horses, but those who have must lose.

St. Joe parties have been scouring these parts for quails, but they do not have much success. One party of four put in a full day Saturday and brought in six white quails. They hid until train time, begging those who saw them to never mention their being here hunting.

Anna Katherine Green has written a novel, "Dr. Izard," which, in some respects "if not all, surpasses "The Leavenworth Case" and the other celebrated stories from her pen. This novel is secured by Orange Judd Farmer, the first installment appearing in the issue of November 24. Like all Miss Green's stories, "Dr. Izard" is a mystery, which keeps the reader conjecturing and unraveling as best he can to the last chapter. At the same time it is wholesome family reading and from the objectionable features of the stories of the detective flavor. "Dr. Izard" appears in the *Orange Judd Farmer*, which is published weekly, at \$1.00 a year, at the Pontiac Building, Chicago.

Folding Feed Rack.
It is oftentimes convenient to feed a horse for a single meal in a place where a permanent one would be in the way. Attention is called in *The New Englander*.

Folding Rack Open and Closed.
Homestead to a feed rack that can be put in position at a moment's notice and when not used can be turned up neatly against the wall.

Less space still would be taken by leaving the lower part of the rack working directly to the wall. Pieces of rope or straps could take the place of the chains if desired. The benefits of this rack are too apparent to need explanation further. The whole cost of making and putting in position is slight, and any man handy with tools can put one together in half an hour.

Sorghum Sugar.
Some figures are given by Kansas Farmer showing that after paying \$1.50 per ton for the cane the actual cost of producing sugar is less than 2 1/2 cents per pound. This allows \$2.10 as the cost of working up a ton of cane. In view of the great value of the cane seed it is certain that the farmer who can contain and sell his cane at \$1 per ton is far better off than he who has to depend upon wheat and corn. It is also reasonably safe to assume that the cost of manufacturing cane readily be reduced to \$2 per ton, the total cost of producing the 150 pounds of sugar now found to be obtainable from each ton is readily reducible to \$8, making the actual cost of the sugar only 2 cents per pound.

In a communication to the *Dowagiac Republican*, "Taxpayer" compares the waterworks plant of Dowagiac with that of Buchanan, very greatly to the credit of Buchanan, as follows: "Our water works plant is in a shameful condition; dirty and unkept. Why don't our city aldermen hire some one who can take care of the city's property, and can find time to clean it up so that you can show it to a stranger without being ashamed. I was at Buchanan the other day and visited the water works, and it was clean, the machinery was bright and it showed that some one had been taken care of it."

Some few weeks ago the Buchanan township library was thoroughly overhauled and is now in excellent shape. The old rack has been remodeled and partitions put in for each book, and then the books were all overhauled and renumbered. A new system of recording the books has been adopted which is giving great satisfaction. A card bearing a number is given to each person who is entitled to take books from the library, and this card must be presented each time a book is desired. The library is located in the drug store of W. F. Runner who is the director of the school board and has charge of the library. A list of new books for the library is being prepared and when these are added there will be a total of nearly two thousand volumes in the library. Our board take great interest in the work and are repaid by the fact that Buchanan township library is one of the best in this section of the state.

We also offer the greatest line of Handkerchiefs we have ever shown for the price; beautiful white embroidered Handkerchiefs, 2 for 25c and up.
Also a fine line of Umbrellas, silk and silk gloria, 95c up.
We spend our time seeing how cheap and how good we can sell goods. Maybe if we did not you would have to pay more for stuff than you do now. We have been working at this business for a good many years and it would be strange if we had not caught onto something. See?
