

**BEFORE** I could get relief from a most horrible blood disease I had spent hundreds of dollars trying various remedies and physicians, none of which did me any good. My finger nails came off and my hair came out, leaving me perfectly bald. I then went to **HOT SPRINGS** Hoping to be cured by this celebrated treatment, but very soon became disgusted and decided to try S.S.S. The effect was truly wonderful. I commenced to recover at once, and after I had taken twelve bottles I was entirely cured—cured by S.S.S. when the world-renowned Hot Springs had failed.

**THURSDAY, FEBRUARY 28, 1895.**  
**Republican Nominations.**  
For Justice Supreme Court.....  
JOSEPH B. MOORE, of Lapeer.  
For Regent of the State University.....  
ROGER W. BUTTERFIELD, of Grand Rapids.  
CHARLES H. HACKLEY, of Muskegon.  
For County School Commissioner.....  
ERNEST P. CLARKE, of St. Joseph.

**HON. JOSEPH B. MOORE.**  
The Republican candidate for Justice of the Supreme Court of Michigan, is a gentleman well fitted and qualified for the position to which the votes of the electors of Michigan will elevate him. Why not vote to make his election unanimous?

At the annual meeting of the State League of Republican Clubs, held at Detroit last Friday, Perry F. Powers of the Cadillac News and Express, was elected president. Mr. Powers is a gentleman who is widely known throughout the Republican party of this state, and is eminently fitted for position to which he has been chosen.

**THE STATE CONVENTION.**  
Hon. Joseph B. Moore Nominated For Supreme Bench on the Eighth Ballot.  
After an exciting struggle, necessitating eight ballots, Hon. Joseph B. Moore of Lapeer, was nominated as the Republican candidate for Justice of the Supreme Court. Roger W. Butterfield of Grand Rapids and Charles H. Hackley of Muskegon were nominated as candidates for the position of Regents of the State University.

**SAWYER.**  
From our Regular Correspondent.  
Feb. 25, 1895.  
There is no news here this week, and nothing doing.  
It is thawing, and the whole population is down on the bank of the creek watching to see if the ice will go out, and who will get the first sucker.  
A. E. Kittelle and wife called on the good people of this place, Saturday. He was the teacher here last year.  
No news this week. Next week will be an upheaval.  
THE POPE.

**BENTON HARBOR.**  
From our Regular Correspondent.  
Feb. 26, 1895.  
Our snow is leaving us and every one is traveling with wagons.  
Mr. and Mrs. Kittelle, teachers in the Fairplain school, visited friends here and at New Troy on Sunday.  
Miss Minnie Vinton visited in Benton Harbor, Waterford and Hartford, last week.  
Mr. Bowerman and Mrs. Burnett attended the Sunday school instruction at Buchanan last week.  
Miss Jessie Spaulding of Holland is visiting here.  
Ed. Rice of Chicago is visiting his parents at this place.  
Miss Maude Vaughn of Fairplain is visiting Miss Floye Rowe.

**NEWS BRIEFS.**  
Capt. H. W. Howgate was acquitted, on Saturday, of the charge of embezzling \$11,800 from the United States, after the jury in the case had been out 72 hours.  
Gen. Joseph B. Carr, of Troy, New York, well-known as a veteran of many hard fought fields, is dead.  
The Owsos Daily and Weekly Argus has been sold to G. F. Campbell, for several years secretary of the Y. M. C. A. of that place.  
Hon. Matt M. Ransom, of North Carolina has been nominated as minister to Mexico, to succeed Hon. Isaac P. Gray, deceased.  
Gov. Rich signed the Thompson Health bill, regarding the Board of Health of Detroit, and it became a law yesterday.  
Postmaster General William S. Bliss has resigned. It is rumored that William L. Wilson, of West Virginia, will be his successor.

**COMMON COUNCIL.**  
The Common Council met in regular session on Friday evening, every member being present.  
The minutes of previous meetings were read and approved.  
The question as to whether they could go on and transact business at this meeting, the day being a legal holiday, was discussed, and it was decided that their acts would be legal.  
Mr. Barmore of the finance committee read the report of that committee on the bills presented to them. From this report, which was approved, on motion of Mr. Beistle, supported by Mr. Bishop, orders were ordered drawn on the several funds as follows: General, \$223.93; highway, \$38.93; waterworks, \$107.34; cemetery, 75c, making a total of \$430.95.  
On motion of Mr. Beistle, supported by Mr. Barmore, the report of the Street Commissioner was placed on file without reading.  
The request of the fire department to have Frank Barnes Chief of the department, which had been placed on the table at the last meeting, was, on motion of Mr. Beistle, supported by Mr. Bishop, taken from the table, and the request was granted, on motion of Mr. Beistle, supported by Mr. Dairyville.  
Mr. Barmore inquired what disposition had been made of the horses owned by Mr. E. Corvett, that Mr. Whitehead had recommended killed on account of disease detrimental to public health. After some discussion, on motion of Mr. Bishop, supported by Mr. Beistle, the matter was referred to the village attorney and the proper committee of the council.  
An inquiry was made for the report of the street committee on the petition to change the name of Moccasin avenue to Park avenue, but evidently the committee was not ready to report, and the matter was not discussed.  
It was moved by Mr. Bishop, supported by Mr. Marble, that the cemetery committee notify all who wish to remove the bodies of their friends from the old cemetery to Oak Ridge cemetery, that such work must be done before May 1 next, and that the expense incurred in consequence of such removals would be credited on the purchase of lots in Oak Ridge cemetery, if they wished to purchase.  
On motion of Mr. Beistle, supported by Mr. Bishop, the Clerk was instructed to write out the proper notices of election, and post and publish the same.  
Moved by Mr. Barmore, supported by Mr. Bishop, that the President appoint the Registration and Election boards. Adopted.  
The President appointed Messrs. Beistle and Dairyville as a Board of Registration, and Messrs. Beistle, Dairyville and Barmore on the Election Board.  
On motion of Mr. Howe, supported by Mr. Beistle, the Clerk was directed to purchase a new Registration book, if one was necessary.  
On motion of Mr. Beistle, supported by Mr. Bishop, the Council adjourned to the call of the President.

**GLENDORA.**  
From our Regular Correspondent.  
Feb. 26, 1895.  
Good-bye, sleighing. We are not quite ready to see you go, but go, if you must.  
The mill yard is piled full of logs, and still they come.  
Ed. Babcock's shipping wood as fast as he can haul it. L. H. Kempton ships a carload occasionally. Lumber is being loaded on the cars, and the mill is running on full time.  
Can any one deny that sleighing makes times livelier?  
Mr. Adney Adams and wife of Hartford, Mich., visited relatives and friends in this neighborhood last week.  
Mr. Stewart, our minister, is reported to be having good success in his revival work, at New Carlisle, Ind.  
Joe Smith will soon move to Hill's Corners, and begin fruit growing on his little farm.  
Dr. Henderson of Buchanan is aiding nature in restoring Mrs. Edgar Boyle's health.  
Some of our young people attended the "Washington" ball at Sawyer, last Friday night. Not wishing to go so far to dance, they are going to have one here next Friday night.

**BERRIEN CENTRE.**  
February 27, 1895.  
Mr. and Mrs. J. H. Ober of Goshen, Ind., spent Sunday among friends here.  
Miss Mary Myers of Skelton, Pa., is visiting Miss Myrtle Bishop. She still remains a week visiting her friends in this locality.  
Mrs. Clara Brenner of Cincinnati, O., is here visiting her relatives.  
Washington's Birthday was celebrated here by the G. A. R., W. R. C. and patriotic people.  
Grandma Hess has LaGrippe.  
E. D. Rutter's little two-year-old boy, Even, met with a serious accident that may cost him his eye. While playing with the shears, Tuesday, he ran them into the pupil.  
Mr. W. H. Wightman took his entire school, on Feb. 22, to Berrien Springs and had a full group picture taken, with a ride through in.

**WASHINGTON LETTER.**  
UNIQUE CITY GOVERNMENT.  
At the National Capital the City Treasury is not at the Mercy of Local Politicians.  
The revelations made by the investigations of the Lexow Committee in regard to corruption in the municipal government of New York city has called general attention to the government of cities throughout the country. In private cities, through associations of private individuals and through the press, some steps have been taken to correct the most glaring of the evils which oppress the residents of the average city. It is but natural that at this time, owing to the awakened public interest in this direction, attention should be considerable attention directed to the form of city government which prevails at the National Capital. Perhaps the most striking result, and the one which, perhaps, would commend itself most thoroughly to practical minds, is that such a very large percentage of the money contributed by taxpayers is expended directly for the benefit of some city.  
As is perhaps well-known, the people of Washington have no voice directly in their local government. The city is located in a territory some sixty miles square, which was ceded to the United States by the state of Maryland, for the purpose of establishing there the seat of government. Congress has exclusive jurisdiction over his territory and holds the relation of common council to the citizens of Washington. The form of government is by three commissioners, two from civil life, and one from the army, who are appointed by the President and with the advice and consent of the Senate. The duties of the minor officials of District government is entrusted to the Commissioners.  
All the laws of the government of the District are passed by Congress, but the Commissioners are authorized to make the police regulations, and the other minor regulations which are found necessary. The money collected from the assessments of real estate, liquor licenses, the personal tax, and for privileges of various kinds known as licenses, is paid into the United States Treasury, under the law which established this form of government. The United States is pledged to pay one-half of the municipal expenses of the District. The annual revenue of the District is about \$3,000,000, and this is supplemented by a similar amount from the United States Treasury.

**Fortune's Freaks.**  
Twenty years ago a young man married one of the smartest young ladies anywhere, and she was a very good prospect of happiness. But the girl was ambitious to be rich, and because she was not very rich was dissatisfied. After keeping her husband in a peck of trouble for a time she left him and got a divorce. He went into bankruptcy, and she very soon married a wealthy man and rode behind a span in a elegant carriage. Today the former bankrupt is wealthy and prosperous, has a new wife and a happy home. Every comfort surrounds them. His wife of other days is now Mrs. H. H. H. and has to scrub for the bread she eats. Her husband's wealth, under poor management, shrank to worse than nothing. The roses have gone from her cheeks and the light from her eyes. It's as complete a turn around as one ever saw.—Lewiston (Me.) Journal.

**LITERARY NOTES.**  
Defender Documents Numbers 6 and 7 have just been published by the National Protective League. No. 6, nineteen pages, entitled "Hunt for the King's New Discovery." No. 7, twenty pages, entitled "The King's New Discovery." Both numbers contain a full and complete account of the King's New Discovery, and are well worth the price of each. Address, W. F. W. Runner, 157 West 23d St., New York.

**DRESS GOODS,**  
in which we are able to show some of the prettiest productions of American and Foreign looms.  
Our prices, as always, will be found the very lowest.  
In the meantime all winter goods go at greatly reduced prices.

**B. R. DESENBERG & BRO.,**  
The One Price Dry Goods and Shoe House.

**R. G. Dun & Co's Weekly** says: The surprising success of the new loan, and great confidence it has given to business men here, encourage many to hope that it may be the beginning of a real recovery. In twenty-two minutes here subscriptions are supposed to have been five times the amount of bonds offered, and in two hours, at London, they were twenty times the amount there offered. Considering the power which control of these bonds gives to regular foreign exchanges, and to prevent exports of gold, the transaction has indeed greatly changed the financial situation, in spite of the fact that government revenues are still deficient, and domestic trade shows scarcely any gain as yet. The industries are not enlarging production, nor have price of farm products improved, but a very important source of approval and confidence has been raised, for the time at least, been removed.

**Cure for Headache.**  
As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yields to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only fifty cents. At W. F. Runner's Drug Store.

**Mr. G. Callomette, Druggist, Bay City, Mich., says: "Dr. King's New Discovery I owe my life to." Was taken with Rheumatism and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We don't keep stores or houses with it. Get a free trial bottle at W. F. Runner's Drug Store.**

Prof. Joseph Morrow delivered a very interesting lecture at the Methodist church, Sunday evening.

Cutler Tent No. 21, K. O. T. M., are issuing invitations for a social dance at Rough's opera house, next Tuesday March 6th.

The first reception of the Buchanan Social Club given on Monday evening, was well attended and those present had an enjoyable evening.

Rev. Mr. Bready, of the M. E. church of St. Joseph preached an eloquent sermon, on the "Ancient and Modern Dance," last Sunday evening.

Herbert Johnson, a workman at Lee & Porter Axle Works, had a hand quite seriously injured by being caught in the machine he was running.

George Wyman & Co. don't expect to turn the world upside down, but will let out a few hundred pieces of silk cheaper than we ever saw them.

Niles has a longing for a State Normal school, and with this object in view, Representative Williams has introduced a bill in the Legislature providing for the same.

List of letters remaining uncalled for in the post-office at Buchanan, Mich., for the week ending Feb. 25, 1895: Miss Minnie Harding, Miss Pearl Ingleright, Mrs. Annie Dorer, Master Ph Brons, Frank Fick, Standard Supply Co.

Call for letters advertised.  
JOHN C. DICK, P. M.

The singers of Buchanan have organized a chorus and are actively engaged in rehearsing "Esther, the Beautiful Queen." Mr. F. J. Millar under whose direction the work is being organized, says he has a most promising organization, and a cast that will do credit both to the music and action.

The democratic county convention was held on Tuesday afternoon, at the court house in St. Joseph. John Fletcher was made chairman, and W. F. Ross, Secretary. The principal business transacted was the nomination of L. O. Chatfield of Benton as democratic candidate for School Commissioner.

The Woman's Christian Temperance Union will meet Friday, March 1, at 2:30 p. m., at the home of Mrs. A. F. Peacock, on the corner of Clark and Roe sts. A large attendance is desired of both members and all others who are interested in the work of "rescuing the perishing" and driving intemperance from our land.

I have made arrangements for the study of the Sabbath School lesson, from week to week, until further notice. All persons interested are cordially invited to be present next Saturday evening, at 7 o'clock, at Squire Sabins office, on Front street. Please bring a chair with you.

O. J. ROBERTS.

### Card of Thanks.

We sincerely thank the kind friends and neighbors who rendered their service during the sickness and convalescence of our mother, Mrs. Geo. Richards and Mr. Jesse Roe for their sweet song.

W. V. M. BAKER,  
L. WOODFORD,  
WILLIS WOODWORTH,  
O. P. WOODWORTH.

### Church Notes.

The meetings of the Advent church will continue over Sunday, and longer. Services at the Methodist church Sunday morning and evening. Subjects: Morning—A message of comfort to the sorrowing children of God. Evening—A sermon to young men.

The Presbyterians will, on next Sabbath, celebrate the second anniversary of the dedication of their church. The program will consist of music by the choir, a historical address by the pastor, and other interesting features. A special service in the same interest will be held during the Sabbath school hour and the Y. P. S. C. E. meeting at 6 o'clock. Subject of the evening lecture, Fred Douglas.

The fiftieth anniversary or golden wedding of Mr. and Mrs. I. M. Vincent will occur on March 13th, Mr. and Mrs. Vincent having been married March 13th, 1845. Arrangements are being by Mr. and Mrs. Vincent's friends to celebrate in a fitting manner, such a notable event in the lives of Mr. and Mrs. Vincent.

### Marriage Licenses.

Sidney McLean, 23, Niles; Leona Merritt, 19, same.  
John Emhoff, 27, Bainbridge; Mary Hald, 23, same.  
George Goodrich, 20, Coloma; Louise Bit, 18, same.  
Richard Liske, 28, Stevensville; Ida Zick, 19, Benton Harbor.  
Herman Fick, 24, Chicago; Amelia Pigorsch, 24, St. Joseph.

### REGULAR meeting of Sylvia Chapter No. 74, O. E. S., will be held in Masonic Hall, Wednesday evening, March 6, 1895.

This is the fourth anniversary since the organization of our Chapter, and it is desired that every member be present.

Mrs. M. M. Knight, W. M. Mrs. F. A. Spynker, Sec.

The Buchanan Choral Union, at their meeting on Monday evening, elected the following officers:

Pres. Joseph P. Beistle.  
Vice Pres. B. Frank Bressler.  
Sec. Miss Adah Kingery.  
Treas. Earl S. Light.  
Leader, Alex. Myler.  
Asst. Leader, Geo. Johnson.

### Real Estate Transfers.

Enos Holmes and wife to Marvin Buchanan, property in the village of Buchanan. Consideration, \$24.

Wm. D. Sparks and wife to Ira Sparks and Elizabeth Sparks, part of s 20 T 18.

Among the real estate transfers recorded in this county, is that of Auditor General to Enos Holmes, 11 acres in s 12 T 18 S, \$1075.

### Sudden Death.

Mr. Wm. McCoy, an old resident of Berrien county, died suddenly on Monday Morning, of heart failure. Mr. McCoy had been employed as night watchman for the Lee & Porter Axle Works during the winter. He returned from his duties in this connection on Monday morning, reaching his home shortly after 7 o'clock, put up his horse and went into the house. He was found shortly after, in his room, dead. Mr. McCoy leaves a number of relatives, and friends by the score, who mourn his decease. His funeral services were held yesterday forenoon.

A new tent of the K. O. T. M. was instituted at Niles Monday evening. The charter list contains 36 names. Thirty were examined and answered to roll call at the organization. The name of the new tent is "Shelter Tent," and the following are the first officers: Harry L. Fox, Commander; Zimri L. Cooper, Lt. commander; Lewis F. Brown, finance keeper; James J. Dunn, record keeper; Wm. A. Reddick, chaplain; Walter F. Chambers, sergeant; Ralph D. Platt, M. of A.; Wm. A. Woodford, 1st master of guards; A. W. Goldie, 2d master of guards; Lloyd B. Foster, sentinel; Frank Deniston, picket; E. C. Dana, organist.

A strange fatality seems to be pursuing the relatives of the teachers of our High School: Last week, Miss Sara A. Farmer was summoned to her home, at Benton Harbor, by the death of her father, and a few days later, Mrs. Anna Irving was called to Hillsdale county by the death of her brother, and on Monday night Prof. A. J. Swain was summoned to Sand Beach, Mich., by the death of his mother, Mrs. Tirza G. Swain, whose death occurred on Sunday morning. The *RECORD* and its many readers sympathize deeply with the bereaved teachers.

Married, at the home of the bride's parents, Mr. and Mrs. John M. Steller on Berrien street, Buchanan, Mich., on Tuesday, Feb. 26, 1895, by the Rev. O. J. Roberts, assisted by the Rev. Geo. Johnson, Miss Myrtle Steller of Buchanan and Mr. Alfred L. Moore of South Bend. The happy couple left the same evening for South Bend, where they will make their future home. Miss Myrtle will be missed by a large circle of friends, who will follow her with a God bless you.

Eighth Grade Examinations.

Eighth grade examinations for district schools will be held March 2, at Benton Harbor, Bainbridge, Baroda, Berrien Centre, Shanghai, Royalton, Three Oaks, New Troy, Niles, Buchanan, Galien, Stevensville and Coloma. The questions will be sent to the teachers at these places, but other teachers may be present if they wish. Each teacher should examine and mark the papers of his pupils taking the eighth grade examination, and should forward to the Commissioner only the papers of those that have obtained an average of 80 per cent. The teacher should leave his markings upon each paper. Minimum standing 65 per cent.

Seattle Rheumatism Cured.

Buchanan, Mich., Feb. 6, 1895.—I was suffering from rheumatism, and was unable to sleep for five weeks. I gave up my doctor's medicine and tried Hood's Sarsaparilla, and was cured of those terrible pains. My daughter has also taken Hood's Sarsaparilla with benefit. Mr. William C. Talmon, Hood's Pills cure all ills.

clairvoyant Examinations Free.

The first and most important thing for the proper understanding of and rational treatment of chronic or lingering disease of any kind, is its thorough examination and true diagnosis. You can secure this with a full explanation of the cause, nature and extent of your disorder free of charge by enclosing a lock of hair, with name and age, to Dr. E. F. Butterfield, Syracuse, N. Y.

### A Bad Fire at Three Oaks.

The elegant residence of Hon. Wm. Chamberlain, Warden of the Jackson prison, together with all the contents and several surrounding outbuildings, were destroyed by fire, at Three Oaks, on Sunday afternoon. The fire caught from the furnace, the occupants of the house being away from home at the time. Owing to the lack of fire protection in the village, the flames made rapid headway. Loss, \$6,000. Insurance, \$1,400.

### PERSONAL.

Mr. Morris Helston of Michigan City was in Buchanan on Monday.

H. H. Porter of Dowagiac was in town Tuesday.

W. M. Johnson of Baroda was in town Monday.

Mrs. W. C. Schwartz of Chicago is visiting relatives in Buchanan.

Ered Bakeman of the Galien *Adno* came in on South Bend on Monday.

O. W. Hotchkiss of Niles was in Benton Harbor, Tuesday.

Mrs. Adele Bunker is visiting relatives in South Bend.

L. N. Kennedy of Benton Harbor spent Sunday in Buchanan.

B. R. Desenberg is in Chicago this week buying spring goods.

W. Trenbeth, the merchant tailor, is in Chicago today buying goods.

Mr. Giles Sink of Berrien Centre, who has been visiting at the home of Mr. L. Wherle, started for Thayer, Ind., on Tuesday.

Mrs. Day Ludlum and son of Michigan City visited in Buchanan over Sunday, the guests of Mr. L. Wherle and family.

Mr. Glen Smith, formerly with H. E. Lough of this place, has accepted a position with the National Loan and Investment Co., Detroit, and will go on the road.

### Obituary.

LEANORA J. FOX was born in Ashtabula county, Ohio, Dec. 4, 1833, and was married to Oscar A. Woodworth, April 6, 1856, in Painesville, O. After having resided in Ohio, Illinois, Minnesota and Indiana, they settled in Buchanan, where they resided for 30 years. Mr. Woodworth past away 11 years ago. To this union was born four children, who survive the parents. Mrs. Woodworth belonged to a large family, having thirteen brothers and sisters, eleven of whom are living, nine sisters and two brothers. She has been in poor health for a number of years, and a great sufferer. Her death, which occurred on Saturday, Feb. 23, 1895, was caused by a complication of diseases, she being at that time 61 years, 2 months, 10 days of age.

The funeral services, held from her late residence on Tuesday afternoon, at 1 o'clock, were conducted by Rev. A. P. Moore of the Advent church.

EDWARD, son of Fredrick Andrews, first opened his eyes to the light of this world in Buchanan, April 1, 1870, and passed into the Great Beyond, on the afternoon of the 23rd inst., at Ann Arbor, Mich., aged 24 years, 10 months 23 days.

One year ago last December, Edward was converted to God, and united with the First church of the Evangelical Association of Buchanan. To those who were with him during his last days, he said, "I am ready to die." He was a dutiful son, a kind brother, and an agreeable companion among his fellows.

During the last five years he was a great sufferer from a disease of the blood. His severe afflictions, which he patiently bore, caused him to isolate and spend much of his time alone. In the month of January he went to Ann Arbor for medical treatment, during which time erysipelas set in and caused his death.

Beside a large circle of friends, the deceased leaves father, five brothers and five sisters to mourn his early departure, his mother having been called to her eternal reward, Nov. 11, 1871. May they now be united at God's right hand.

The funeral was held from the Evangelical church, on Wednesday afternoon. Rev. Geo. Johnson officiated.

Awarded Highest Honors—World's Fair.

Buchanan, Elmer Clark, Chikaming, Asa C. Glidden, Chikaming, Emory J. Glidden, Galien, John A. Babcock, Galien, George W. Ingles, Hagar, Abram Ross, New Buffalo, Henry C. Crosby, Niles Tp., George Hoppin, Niles, 1st and 4th wards, Henry O. Beswick, Niles, 2d and 3d wards, James Daw-

son, Stephen Harner, Gestone, Adam Michael, Royalton, Edwin O. Beach, Sodus, Nelson B. Rector, St. Joseph Tp., Lewis W. Mervin, " 1st ward, L. E. Daggett, " 2d ward, J. L. Hagar, Three Oaks, Charles H. Davis, Watervliet, J. H. Doty, Weesaw, Jacob Fyle.

What to Put Out Flowers In.

To get the best and most artistic effect from a flower, you must put it in a vessel whose shape is in harmony with its habit of growth. If you have any doubt about what to put it in, experiment a little. Try vases of various shapes. When you come to one that allows the flower to appear natural, you will see that the two seem to "take to each other," to employ a phrase in every day use. They seem made for each other. Then you know just what kind of a vessel to use for that flower and others of similar habit.

As a general thing vases are the most satisfactory when plain. Decorated ones are likely to draw attention from the flowers they hold. They should not be, for the flowers are what you want admired most, and attention should be concentrated on them; therefore a plain vase is most effective. Its beauty should be in its form and its material, rather than in its ornamentation.—From "Flowers for Cutting" in *Demorest's Magazine* for March.

LOST—A heavy wool scarf. Finder or please return to Rev. J. W. DeLong. Did you ever see Esther?

WARNING.

If the party who took the cutter belonging to Mrs. George Scott, from her premises, and returned the same in a badly damaged condition, desires to avoid further trouble and expense, he will call on Justice M. B. Gardner and pay for the damaged caused.

MRS. GEO. SCOTT.

## APRIL IN IRELAND.

She hath a woven garland all of the shining edge.  
And all her flowers are snowdrops grown on the winter's edge.  
The golden beams of 'Tis a 'n' O'g wove all the winter through  
Her gown of mist and raindrops shot with a dainty blue.  
Smilght she holds in one hand, and rain she scatters after,  
And through the rainy twilight we hear her little laughter.  
She shakes down on her flowers the snow less white than they,  
Then quivers with her knees the folded knots of 'May.'  
She seeks the summer lover that never shall be here,  
Fain for gold leaves of autumn she passes by the fire,  
Though buried gold is hideth; she passes her sunny reverie,  
And presses blindly onward she treads her snowdrops down.  
Her gifts are all a fretful of weary smiles and tears,  
Yet hope she also holdeth, this daughter of the A. H. that the blossoms faintly set upon sorrow's years.  
She hath a woven garland all of the shining edge.  
—Nora Hoppe.

## A NIGHT THIEF.

There was a large party at the Chateau de Kerdall, near Vannes. The Marquis de Kerdall and his young wife had just returned from a tour of the world on their yacht, during which they had paid flying visits to Africa, America and Oceania, and they had celebrated their home coming by gathering together all their friends and relatives at their beautiful country house.  
Among the guests was old Dr. Cornubio, an illustrious member of the Academy of Metaphysical Sciences, so original, so absent-minded, so venerable in his bland perambles and his costume of the fashion of 1830. Then there was Mme. de Lartigue, an old school friend of the marquis, a brilliant and coquette Parisienne. And there was Miss Hawthorne, an English maiden lady with youthful propensities. And there were many others, all of whom found plenty of amusement to their hearts' content at Kerdall.  
Outside of the ordinary pleasures of life there were some unusual attractions. In the hall, the marquis and his hostess had seen and experienced so much that was novel and startling that their conversation was always fascinating. Then the rooms of the chateau constituted a veritable museum, being stocked with rare and curious objects from two continents. And finally a manager had been created in one corner of the park and stocked with the various animals which M. de Kerdall had picked up during the voyage and brought back to France for the amusement of his guests.  
There were gazelles, antelopes, colobians, Tibet goats, Nilis ibex, rose flamingoes, opossums, beavers and an Asiatic ape of the mandrill species, as mild as a lamb, but as mischievous as all the rest. An iron lattice cage had been built for him close to the conservatory.  
As will be seen, the Chateau de Kerdall was a veritable Eden, but this fact did not prevent little Mme. de Lartigue from dreading the isolated position of the place among the wide expanse of woods and fields.  
"I should be afraid to live here all the year round," she said.  
"Afraid of what, my dear?" asked the marquis.  
"Of robbers. They would fairly revel here."  
Robbers! In this mansion filled to the eaves with guests and servants! Everybody looked at the young woman, and old Dr. Cornubio felt horrible shivers about his neck and arms as he thought of the marquis and his guests.  
"What is it?" asked the marquis.  
"I should be afraid to live here all the year round," she said.  
"Afraid of what, my dear?" asked the marquis.  
"Of robbers. They would fairly revel here."  
Robbers! In this mansion filled to the eaves with guests and servants! Everybody looked at the young woman, and old Dr. Cornubio felt horrible shivers about his neck and arms as he thought of the marquis and his guests.

All followed Kerdall, the men half dressed, thrown in their white night gowns, and the women in their white and black dresses. Upon the entrance of the crowd, the doctor hurriedly wrapped himself in the bedclothes, his wrinkled countenance alone being visible over the top, and this convulsed by anger into a comical grimace. The candle light reflected from his bald pate, it was as if he were looking at a mirror. "This is some ill timed joke!" he stormed. "What is going on? Is the chateau on fire? I heard a terrible outcry and was about to inquire into it. You must come and join us, doctor," said Kerdall.  
"And how shall I do it?" cried the doctor furiously. "Some rascal has run off with my clothing, and in exchange has left me this," and he savagely hurled a white object into the middle of the room.  
"My corsets!" murmured Miss Hawthorne, modestly lowering her eyes.  
"And this!" continued the doctor, wildly brandishing another article.  
"My hat!" cried Mme. de Lartigue.  
"This railway passes all bounds," howled the doctor, whose shining head, with one final grimace, ducked beneath the bedclothing, like the clown going through a trapdoor in the marionette theatre.  
They knew not what to think. The mystery was growing more complicated. It certainly looked as though a robber had entered the chateau—perhaps a whole band of burglars and assassins. In the latter part of July, but this plan is as green as the end of September as it was early in July. The root stock of this plant is sent out in all directions. The original plant has been in a dry place for many years, but in all this time it has not been killed back. It is a remarkable grower. Early in June stalks were 14 feet high. What is needed in the west is a plant that can be used in August and September when pastures are nearly always short. If the first and second crops could be used for the silo (it is said they can), the crop in August and September would be excellent for immediate use.  
This plant is a perennial, hardy and vigorous, with the reputation of bearing with great indifference extremes of heat and cold. The favorite because the quickest means of propagation is by setting the young plant, but it can be grown from seed. The illustration of polygamous scabrousness, or, as the French say, it, scabrous, is reproduced from The Irrigation Age.  
The foregoing makes it apparent that scabrous is worthy of trial in a small way—what, by the way, is the only way wise with any new thing.  
It plants quickly fill the soil, and, according to some correspondents, are as hard to eradicate as the Canada thistle, this feature ought to be taken into account.

In the latter part of July, but this plan is as green as the end of September as it was early in July. The root stock of this plant is sent out in all directions. The original plant has been in a dry place for many years, but in all this time it has not been killed back. It is a remarkable grower. Early in June stalks were 14 feet high. What is needed in the west is a plant that can be used in August and September when pastures are nearly always short. If the first and second crops could be used for the silo (it is said they can), the crop in August and September would be excellent for immediate use.  
This plant is a perennial, hardy and vigorous, with the reputation of bearing with great indifference extremes of heat and cold. The favorite because the quickest means of propagation is by setting the young plant, but it can be grown from seed. The illustration of polygamous scabrousness, or, as the French say, it, scabrous, is reproduced from The Irrigation Age.  
The foregoing makes it apparent that scabrous is worthy of trial in a small way—what, by the way, is the only way wise with any new thing.  
It plants quickly fill the soil, and, according to some correspondents, are as hard to eradicate as the Canada thistle, this feature ought to be taken into account.

They know not what to think. The mystery was growing more complicated. It certainly looked as though a robber had entered the chateau—perhaps a whole band of burglars and assassins. In the latter part of July, but this plan is as green as the end of September as it was early in July. The root stock of this plant is sent out in all directions. The original plant has been in a dry place for many years, but in all this time it has not been killed back. It is a remarkable grower. Early in June stalks were 14 feet high. # FARM GARDEN

## THE NEW FODDER PLANT.

A Consensus of the Published Opinions on the Vegetable Wonder, Scabrous.

The latest aspirant for high rank among foreign plants is scabrous. And it is impossible for anyone whose word may not be gained. Professor L. E. Bailey, the conservative botanist and horticulturist at the Cornell university experiment station, "believes that it will be a good thing for some parts of the country." Professor J. L. Budd of the Iowa agricultural college considers it as "very valuable in the dry west as a forage plant." London Garden says that "cattle are exceedingly fond of it," and that "as a forage plant it has an assured future." Its analysis compares favorably with clover and alfalfa. The various other English, French and German horticultural journals praise it highly. Professor L. E. Paunell of the Iowa Agricultural college writes as follows in Garden and Forest:

"I have seen this plant in central Iowa, as far as cold is concerned, but it stands the dry weather remarkably well. It is a perennial, hardy and vigorous, with the reputation of bearing with great indifference extremes of heat and cold. The favorite because the quickest means of propagation is by setting the young plant, but it can be grown from seed. The illustration of polygamous scabrousness, or, as the French say, it, scabrous, is reproduced from The Irrigation Age.  
The foregoing makes it apparent that scabrous is worthy of trial in a small way—what, by the way, is the only way wise with any new thing.  
It plants quickly fill the soil, and, according to some correspondents, are as hard to eradicate as the Canada thistle, this feature ought to be taken into account.

## CONVENIENT AND HANDSOME.

This Design Presents Some Novel and Rich Effects.—Costs \$3,000.

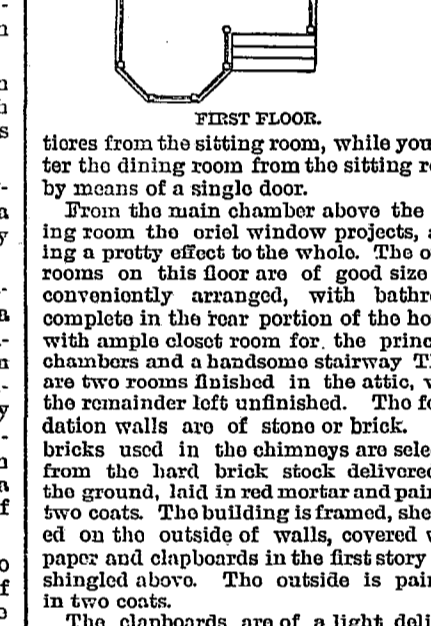

As in fashions of dress, so in those of architecture there will be a direct swing of reaction. At other changes may come gradually. A good example illustrating this in the case of the house in the fashion 20 or more years since. It came in various forms—straight and with concave and convex curves, a hideous vi-

lence to the artistic eye. Happily the fashion has changed. The architectural tendency of the day is for rich and picturesque effects in both exterior and interior construction, dependent upon the materials used. Stone, brick and terra cotta lend themselves to a great variety of novel and tempting to many varied original methods of treatment not possible to attain in constructing a wooden dwelling. Yet we may obtain a picturesque and attractive appearance in a different way, which will be both appropriate and satisfactory.  
There is a variety of outline in the exterior of the house which will certainly attract the attention of any one who likes novelty. The odd arrangement of the veranda and porch in the first story and the unique originality in the second are two of the most noticeable features in the building. The hall is 6 feet 6 inches in width, with doors opening from it into the parlor, sitting and dining rooms and kitchen. The parlor is separated by por-

stores from the sitting room, while you enter the dining room from the sitting room by means of a single door.  
From the main chamber above the dining room the roof window projects, affording a pretty effect to the whole. The other rooms on this floor are of good size and conveniently arranged, with bathroom complete in the rear portion of the house, with ample closet room for the principal chambers and a handsome staircase. There are two rooms finished in the attic, with the remainder left unfinished. The foundation walls are of stone or brick. The bricks used in the chimneys are selected from the best brick stock delivered on the ground, laid in red mortar and painted two coats. The building is framed, sheathed on the outside with horizontal siding, paper and clapboards in the first story and shingled above. The outside is painted in two coats.  
The main chamber of a light colored brown, with corner boards, cornices, etc., of a darker shade, with the sash black.

The roof is left natural color—a silver gray—which tones down the stronger shades of color. The stone work is left to correspond with the finish of the woodwork in the building. All other woodwork inside is painted in two coats. The building is heated by a furnace and is provided with a good range and boiler.  
The front yard has a picket fence. The sides and rear are fenced with ordinary board fencing. The building also has electric bells.  
The cost of the above building would be not far from \$3,000.

A COMPACT DWELLING.  
Design For a Comfortable Home at Moderate Cost.  
I heard a successful man say at one time that he believed he would sell his home that he had just built. He had built a four roomed structure and live in the rear of his days. At that time this gentleman was governor of the state. He had tested the waters of a large ambition. He is now United States minister to one of the largest European cities. He wished to get himself and his family away from the city and to a place where there is none greater or more exacting. There is nothing more relentless in its demands and nothing which brings so small a return as a large house.  
Here is a house into which the owner of a large establishment might retire and live in comparative comfort. The amount
