## QUESTIONS ANSWERED

CONFINED.

At the question, Henry Letimer sprang from his chair and ran into the house, appearing a moment later with his rifle. As he came out, the shadow darted from the bushes and glided among the trees on the lawn. Henry saw it, and would have fired if his father had not waved his gun from his hands. "Seems like you get less sense every day, Henry," gasped the colonel breathlessly. "How do you know you were going to shoot at me?"

"That's the pity of it, Tom," replied Ringbrand, quietly. "I'm afraid it's too late now. I realized two things pretty clearly last night—one was that if I had my rifle with me, I could have shot him dead where he was lying, and the other was that I'd rather die than have him find me out for what I am."

### HOUSE-TO-HOUSE VISITATION.

The value of systematic house-visitation as a means of demonstrating the power of Christian service when extended to the unchurched and unsaved; of finding where the pastoral work of churches and pastors can be most advantageously expended; and of securing facts as to number, age, church and non-church preferences of those who are visited for future use, is becoming rapidly and widely apparent. It is part of the working policy of most of the state and provincial associations. Michigan is moving along in this line, and to facilitate efforts in this direction—wherever or by whomsoever attempted—the state secretary has issued a full circular of instructions and a set of cards to correspond. These will be furnished at cost, as per list:

**Who should attend:**  
1. County officers.  
2. Township officers.  
3. Chosen Sunday school workers from local points.  
How arranged for:  
By personal work and correspondence of county officers.  
Giving definite time, place, purpose of conference.  
Having something definite to accomplish.  
Doing Christian work in a business-like manner.  
Purpose of conference:  
Knowledge of local needs of the county.  
Secure uniform Township Conference dates; practical, aggressive subjects; instructive, helpful program.  
Aggressive Sunday school helpers share the work.  
Educational spiritual results:  
1. County Sunday school officers feeling the need of better grade of township work and conventions.  
2. Therefore calling their township officers and faithful Sunday school workers together in council.  
3. Having for them some well-defined plans to consider, and act upon, to raise the standard of Sunday school work.  
4. By thoughtful questioning, draw out from your workers their needs and plans, and arrange in order on black-board, that they may be well-fixed in the mind, and copied by county president and secretary for future reference and information.  
5. Plan to raise the grade of the township convention programs, making them educational, instructive, spiritual, profitable; not aimless, childish, and repugnant to thoughtful Christian workers.  
6. Have Bible drills and Normal lessons; present modern Sunday school thought, such as: Home class departments, loyal Sunday school army plans, Normal classes, graded schools, Sunday school management, Sunday school equipment, Bible institutes, soul winning, better teaching, trained Sunday school workers, world's Sunday school work, state association work, Primary work, and other vital questions, not worn out speeches.  
7. Feed the people, instruct, build up and inspire your Sunday schools, and conventions will be an occasion of pleasure and of deep religious profit.

A. A. WILKINSON, D. E. HINKLEY, D. H. BOWER, Com.

A. J. Carothers has begun work on his residence, on South Portage street. F. L. Raymond has rented the residence of A. P. Moore.

Chas. Bishop is improving the appearance of his Day's avenue property, by setting out shade trees.

Mrs. Helen Fowler has begun the erection of her dwelling, on Fourth street.

Henry Imhoff has secured a three-year's lease on a farm near Matchet's peak and is moving, this week.

The Graham & Morton line of steamers have commenced making their daily trips between Benton Harbor and St. Joseph and Chicago.

Mrs. S. B. Minshall, who was one of the victims of the awful tragedy at Pei water, in this state, was a cousin of Mrs. Geo. Churchill of Buchanan.

John C. Wenger is out on the streets again after a seizure of the measles. His entire family were down with the same disease.

Hon. Roscoe D. Dix of Berrien Springs has been appointed as Judge Advocate upon the staff of G. A. R. department commander Shakespeare.

W. C. Edwards of Lee Bros & Co Bank has rented C. H. Baker's residence on Front street and will move down from Dowagiac at once.

Church Notes.

Rev. W. W. Divine is billed to deliver a Missionary address at Lakeside, Thursday afternoon, and at Thursday evening.

Theme for the meeting in the M. E. church for Thursday evening is, "A Mother's Influence." Friday evening will be a special service for parents. All are invited.

The special meetings conducted by Mr. Sayles for three weeks past will be continued for another week under the direction of Pastors Moore, Berger, Sickafosse and Roberts, assisted by some brethren from abroad.

Mr. Sayles closed his work on Tuesday evening with a largely attended and interesting farewell meeting. Wednesday evening he gave his illustrated lecture on "A Tour through Palestine," using 130 fine views. The lecture was exceedingly interesting and it does not speak very well for our town that the trifling admission fee of twenty five cents kept so many away.

There will be preaching this evening at the Presbyterian church by the pastor, and by Rev. Mr. Moore on Friday evening. Union services on Sabbath evening at 7:30, sermon by Rev. F. C. Berger.

The meetings at the Methodist still continue with unabated interest. Evangelist Geo. R. Jackson will preach his farewell sermon on Sunday evening.

C. H. Baker and family moved out on their farm last Thursday.

Regular meeting of Sylvia Chapter No. 74, O. E. S., will be held in Masonic Hall, Wednesday evening, Apr. 22, 1896.

Mrs. DELIA SCOTT, W. M. MISS C. R. WILLIAMS, Sec.

Mr. N. H. Culver has disposed of his interest in the lumber firm of Culver & Monro to his partner Mr. Wm. Monro, and will remove with his family next week to Pasadena, California.

Rev. W. W. Divine preached a very earnest and soul-stirring sermon in our school house (the Miller school house) last Sunday afternoon. The house was full and we all enjoyed the "season of refreshing" from the Lord. Hope he will come again, say all.

Of Interest to Local Fisherman.

Our local fishermen will be interested to know that Game Warden Osborn holds that the 1893 amendment to the game laws prohibits the spearing or catching in any other manner than by hook and line, of any kind of fish in any of the waters of Michigan, except Big and Little Claw lakes, Wexford county. Many fishermen are spearing suckers, mullet, red sides and grass picker, running risks of being arrested.

During the special meetings held in the Presbyterian church by Evangelist Sayles, cards were distributed having on these words: "do this day, as a stranger, come to Christ with repentance, trusting in his blood to save and cleanse, and in his strength to lead a Christian life." Below this was a blank space for name, age and church chosen by the person signing. Thus far there have been returned with signatures 125 cards, of which 66 are children. By church they are classified as follows: Catholic, 1; Dunkard, 2; Evangelical, 3; Methodist, 27; United Brethren, 11; Advent, 11; Disciples, 16; Presbyterian, 37; Episcopal, 2; Congregational, 1; Baptist, 1; Larger Hope, 1; no choice, 5. These cards have been given to the various pastors of the churches represented. This action of Mr Sayles and Mr. Roberts is the best possible evidence that no sectarian or selfish spirit has moved them in carrying on these meetings.

Rev. George Johnson of St. Joseph has relinquished his charge in order to accept a position as field-worker for the Northwestern college. Mr. Johnson has made hosts of friends during his year's stay, and the church has greatly prospered in his hands. The membership has trebled and an edifice has been erected whose capacity is taxed at every service. He left yesterday for a visit to the New York conference, to be followed by a trip to the Wisconsin conference. His home will remain at St. Joseph.

Cures, absolute, permanent cures have given them to Melick's drug store. The work and the first place among medicines.

U. S. Weather Bureau, Week Ending April 13, 1896. In the southern states the week has been generally very favorable for farm work which has made good progress. In the more northern districts, owing to the lateness of the season, farming operations are much delayed, but are being pushed forward as rapidly as possible.

Winter wheat is reported in excellent condition in Nebraska and eastern Kansas, and much improved and looking well in Iowa, Missouri, Arkansas, Tennessee and northern Illinois. Least favorable reports are received from Wisconsin, Michigan, Ohio, West Virginia, Virginia, Maryland, Pennsylvania and New York, in some of which states it has been badly winter killed and in a poor condition. No corn has yet been planted north of the Ohio river, but some planting has been done as far north as Kentucky and Virginia. West of the Mississippi, some corn has been planted as far north as southern Nebraska. Planting is nearly completed in Oklahoma, and is in progress in Missouri. In Illinois and Indiana plowing for corn is general. In the southern states corn planting is practically completed.

FOR AUDITOR GENERAL.

Roscoe D. Dix of Berrien Springs. The Lansing State Republican has the following:

At the Republican state convention for nominating a State ticket, Berrien county will present, for the office of Auditor General, Roscoe D. Dix of Berrien Springs. Born in New York, Mr. Dix came to Berrien county when 13 years old, and has since resided there, from the position of farmer to a farmer-boy to prominence in business circles and a state reputation.

As a Union soldier in the rebellion, he participated as private, corporal and sergeant, in every battle of the 2d Michigan Infantry from 1861 to 1864, when he was discharged, permanently disabled from a wound received at Knoxville, six months previously.

Mr. Dix has served two terms as commission of the state land office, having been elected in 1886 and re-elected in 1888, at which time he received the greatest number of votes cast for any candidate on the State ticket, and the largest plurality running ahead of the national ticket nearly 1,000 votes.

He is an old-time stalwart republican, who testifies to his faith by his works, and has been an active factor in every campaign since 1864, in local and state organizations. His name is familiar to every prominent republican in Michigan.

Mr. Dix has a most enviable record, having never been defeated for any office for which he was a candidate. His friends in southern Michigan may be expected to put up a strong contest for Mr. Dix in the state convention.

FOR SALE. Several swarms of good bees. Apply at AN. EXPRESS OFFICE.

### NOTE FROM CLEVELAND

#### Report That Spain's Premier Has It Confirmed.

OFFER WILL NOT BE ACCEPTED.

Spain Wishes No Trouble with United States but Will Fight Before She Does Cuba Through Foreign Pressure.—Newspapers Speak Favorably of Balfour's New Irish Land Bill.—Empire of Germany in Vienna.—Old World News.

MADRID, April 13.—Senator Canovales del Castillo, the Spanish premier, is ill and cannot be interviewed. His relatives, however, confirm the existence of a communication from President Cleveland, but in the present state of public feeling it will be impossible for the government to accept this offer. The latter are very complicated and the government will do everything in its power to avoid a quarrel with the United States. It will prefer to fight rather than lose Cuba through foreign pressure. The coming of Cortes will greatly aid every reasonable franchise to be employed under the Spanish flag. Great indignation is felt here over the methods employed by the government in Monday's elections, and really to defend his position.

Result Was As Expected. The result is precisely what was expected. The conservative cabinet has a complete discipline in the chamber of deputies of over 300.—Conservatives, Protectionists, and ultra-Catholics—all devoted to Premier Canovales, and really to defend his position.

There will be in the next chamber of deputies 21 Liberals, 8 Catholics, 4 Ultramontanes, 5 Protectionists, 22 Conservatives, 8 Catholics, 4 Protectionists, 22 Catholics.

BALFOUR'S LAND BILL. London Newspapers Speak of It with Warm Approval.

DUBLIN, April 13.—Commenting on the new Irish land bill introduced in the house of commons by the chief secretary for Ireland, George Balfour, the Freeman's Journal says: "It should be amended and not rejected."

The Independent says: "It is a distinct advance upon any previous proposal." The Express adds: "It shows that the government is guided by a generous and statesmanlike conception of the problems."

Help for Captain Brand. CAPE TOWN, April 13.—Re-enforcements are on the way to Matabeland. The defeat of Captain Brand's column Saturday night of two years ago, was in fact a decisive forward stroke of well-armed troops, all good marksmen, in his defense against the advance of the powerful and numerous force of the Boers.

Famous Election Case Dropped. LONDON, April 13.—The proceedings in the re-election petition brought by H. Marks, member of parliament for St. George's, division, against J. Williams, Benn, and all other proceedings in this matter have been dropped.

Knapy Will Be Set Free. CONSTANTINOPLE, April 13.—The United States charge d'affaires, John D. Biddle, has received a written assurance from the Turkish government that the American knapy expelled from Bitlis, will be delivered to the United States consul at Alexandria.

ZUELKE UNDER ARREST. The Murderer of Farmer David Captured at Crystal Lake, Ill.

CRISTAL LAKE, Ill., April 14.—Julius Zuelke, who shot and instantly killed a farmer named Ed David near Fox Lake, Wis., April 4, was captured in this place by Detective Leo E. Brown of the Chicago and Northwestern railway, who resides in this place. David had put Zuelke out of his wagon while the latter was drunk. Zuelke then secured a rifle and murdered his victim.

TERRIBLE BRIDGE ACCIDENT. Five Men Killed and Two Others Receive Fatal Injuries.

LOUISVILLE, April 13.—A special to the Times from Mitchell, says: Five men were instantly killed and two others so badly injured that they will die, in a bridge accident. It happened a half mile from Bedford Junction, on the Belt railroad, on which the stone from the Bedford quarries is transferred from one set of tracks to another.

ASSASSIN LOOSE IN MICHIGAN. Makes a Villainous Use of the Life of W. H. O'Connell.

MUSKOGEE, April 13.—Word is received here from Pentwater of a bold attempt by some unknown man on the life of William B. O'Connell, president of the Sands & Maxwell Lumber company. The assassin was seen on his way home about 9:30 when a man jumped from behind and fired at the head of O'Connell.

## GEORGE TAYLOR OUT

### ONE OF THE BROTHERS UNDER SENTENCE BREAKS JAIL.

Both Were to Have Been Hanged April 30 for the Murder of the Meeks Family.—Bloodhounds Placed on the Trail of the Fleeing Man Fiat to Find Him.

CARROLLTON, Mo., April 13.—George Taylor, who escaped Saturday night, nineteen days before the day set for his execution for the brutal murder of the Meeks family, is still at large, with little chance of being recaptured. His brother William is still in jail, which is heavily guarded. Fifteen armed stragglers have been following him in a vain effort to recapture him.

Some people in the country are jumping at the passing of George Taylor. An unknown man was seen to emerge from the jail on Saturday night. A man with a gun and a woman were seen to leave the jail at the same time. It is believed that these are the brothers Taylor.

Before and After Transplanting. New York, April 13.—A photograph showing the results of a tree transplanting operation is published in the Garden.

The system of close root and stem pruning at time of transplanting is attracting much attention, especially in the south, where it appears to have been introduced with successful results. Mr. H. M. Stringfellow, an extensive fruit grower near Galveston, is credited with bringing this method to this country.

George Taylor has two cousins living on the river south of Carrollton and he would attempt to cross at that point. The people of this town are not at all surprised at the escape.

Light Seeding of Kaffir Corn. An Oklahoma correspondent of the Orange Journal writes: "The best seeding of kaffir corn is done by using a 3/4 inch drill, sowing the seed at a depth of 6 inches, and using a 3/4 inch drill to cut the corn at the top of the row, leaving the stubble standing."

To Measure Land Quickly. To measure land quickly and easily, take a rear light buggy wheel and fit it to a light frame work, such as is shown in the cut.

FOR MARKING LAND, wheel tire excels. Measure a point on the rim and count the number of revolutions in crossing the land. If you can drive a horse and buggy over the land to be measured, leave the wheel on the buggy and count the revolutions as you drive across the land. In the same way one can measure miles upon the highway, says The Farm Journal.

Experiments with Oats. A summary of results obtained at the Kansas State Agricultural College Station. These experiments covered in some instances a period of five years and are of great value to the farmer.

Republicans Split at Louisville. Louisville, April 13.—The Republican division split into two factions here today. The result of the election will be decided in the next few days.

Captain Punishment by Electricity. COLUMBUS, O., April 9.—The state of Ohio on and after July 1 will inflict capital punishments by electricity, the bill passing Thursday.

Leighton's Generosity. The following story is characteristic of Lord Leighton's kindness to poor students: A young fellow, without friends or money, came to London to make his fortune with his brush. Orders for pictures were not forthcoming, however, and the young painter found himself reduced to dining on sunset effects. In despair he wrote to the president of the academy at his private address in Holland Park, stating his case, and forwarding with the same some sketches of his work.

Bishop Was Not an Embezzler. CLEVELAND, April 13.—Justice Hart has decided that Bishop William B. Campbell is not guilty of embezzlement.

Makes a Villainous Use of the Life of W. H. O'Connell. MUSKOGEE, April 13.—Word is received here from Pentwater of a bold attempt by some unknown man on the life of William B. O'Connell, president of the Sands & Maxwell Lumber company.

How a Young Man Was Saved. A young man was saved from death by a woman who had been told that she was the only one who could save him. She had been told that she was the only one who could save him.

Assassin Loose in Michigan. Makes a Villainous Use of the Life of W. H. O'Connell.

Muskogee, April 13.—Word is received here from Pentwater of a bold attempt by some unknown man on the life of William B. O'Connell, president of the Sands & Maxwell Lumber company.

though as compared to cutting when fully ripe.

As a comparison of varieties, an average of five acres of the following six varieties at the head of the list in the order named: Northwestern White, Belgian, Pedigree Red Rust Proof, Board of Trade, Golden Sheaf and Brown Inters.

At the Michigan station potatoes not sprouted yielded more than those which had sprouted before planting, tubers planted in the ordinary way more than those from which the seed had been sown, and selected seed more than ordinary seed potatoes. The use of 30 bushels of seed potatoes per acre afforded a larger yield than 100 bushels of seed.

One hundred and fifteen varieties were tested. The following varieties are recommended for Michigan, more particularly the lower part of the state: June Earling and Early Northern for the upper part of the state; Early Ohio, Leo Favorita, Early Harvest and Early Pearl for early; main crop, Freeman, Nott Victor, Thornburn, Rural Bliss, for medium; American Wonder, President Lincoln, Rural New Yorker No. 2, Rochester Favorite, O. K. Mammoth, Summit, White Elephant and White Prize for late.

Oregon Fodder Plants. Clover can be successfully and profitably produced on the soils of the Willamette valley and in most parts of the state. Farmers should give more attention to this most excellent forage plant. Timothy is not so valuable a fodder plant as is popularly supposed. It is inferior to the orchard grass and timothy. Cheate, clover, alfalfa and lucerne are better plants and should give way to orchard grass, tall oat grass, or these mixed with clover. Oat straw may be made a greater source of revenue to the farmer by feeding it more than is now done and using a greater quantity of hay, thereby securing a greater material value than by burning. It can well be fed when compounded with more concentrated foods.—Bulletin Oregon Station.

A Low Down Wagon. The accompanying cut from The Farm and Fireside shows one of the many practical uses of a low down wagon of the farm. Being only 10 inches high, it is a most useful and labor saving in loading it. Its 6 inch tire wheels roll over the ground, do not cut ruts, make roads instead of destroy them.

Good Roads Millennium. When Perfect Highways Are the Rule, Then the Day Approaches. Good thoroughfares like charity, should be as universal as the air. Each commonwealth, after careful investigation and satisfactory tests, unbiased by bribery, preferment or political affinity and reward, compels by act of law the laying of whatever form of paving has been demonstrated as best for the use of the country. Highway millage is not the millennium may be described as approaching. Then the American tally coach will exist with reason because and not despite the lack of fitting roads along which to roll its picturesque expense.

Parties planning pedestrian tours will not have to cross the seas to find a starting point for their itinerary, country homes will be more sought for and more enjoyed, and the native American citizen need no longer be ignorant of the modern uses of his own soil.

A Master's Conception. Froide has admirably described the spirit in which Carlyle views the revolution, the spirit of a flabrous prophet, discerning divine retribution on ill doing, and Carlyle himself styles it, in itself a kind of French savagery. It has been said that the French revolution was a kind of French savagery, born in luckless, whirlwind and sorrow. He thought it had "probably no chance of being liked by any existing class of British men," but it speedily achieved popularity.

The Lono Juryman Not Dismissed. In the trial of a case in Downland county, the Lono juryman, who was summoned to attend the trial, was not dismissed because he was not a juror. The Lono juryman was summoned to attend the trial, but he was not a juror.

Beware of Ointments for Catarrh That Contain Mercury. Mercury will surely destroy the sense of smell and completely derange the whole system when entering the circulation. It is a most common cause of deafness, and the danger of it should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them.
