Hon. Daniel Striker, who was secretary of state under Gov. Bagley in 1871-72, died at his home in Hastings, Tuesday night. He was president of the Hastings National bank, treasurer of the masonic supreme lodge and trustee of Albion college. In 1880 he refused the nomination for congress. He was county clerk for six years. He came to Hastings in 1850 and was 63 years old.

The Buchanan subscribers of the W. T. Hedden Telephone Co. were treated to a photographic concert, Sunday afternoon. Mr. W. T. Hedden has a photograph at his Dowagiac office, and he connected the same with the Buchanan central by telephone, Manager Brodick connecting on the subscribers at Buchanan. The music was thoroughly enjoyed by the auditors.

P. G. Berger has been reappointed to the Buchanan Evangelical Church by the unanimous request of the society which he has served for the past three years. Rev. W. A. Koehler has been appointed presiding elder of Detroit District and will preach his final sermon next Sunday morning. P. G. Berger will preach his introductory sermon for the new year Sunday evening.

Messrs. J. G. Corey & Son are busily engaged in packing up the stock of their grocery store. Mr. Corey owns the Hotel Manitou property at Rochester, Ind., and will conduct the same this summer pending the lease or sale of the same. Mr. Corey and his family have no intention of leaving Buchanan, but will return in the fall after the season is ended at Manitou. An auction sale of groceries will be held at the store, on Saturday of this week, as Messrs. Corey desire to dispose of as much stock as possible before leaving.

The last regular meeting of the "30 Club" was held Wednesday afternoon at the home of Mrs. Fred Eaton. Two excellent papers were read, one on Chaucer by Mrs. L. Peck, and the other a synopsis of the French Kings after which Mrs. Dr. Wheelock gave us a very instructive talk on hygiene. A short time was spent in conversation on current events after which the club adjourned to meet next Wednesday at Mrs. Nellie Peck's to hold the annual election of officers at which meeting all members are expected to be present.

The Bay View Circle had a very pleasant meeting at the home of Mrs. W. W. Treat, Monday evening. Mrs. Runner read an interesting article on German Poetry and Prose, and Mr. Brorson gave a paper on Longfellow's German Translations. Mrs. Cunningham reported current German events. The next meeting will be at the home of Mrs. Kent with the following program: Roll call, quotations from Schiller; paper—Schiller, Miss Holliday; paper—Heine, Miss Dumbolt; paper—Wagner, Mrs. Chas. Treat; paper—Don Humboldt, Mrs. Croster. Life among the Germans, chapters 15, 16 and 17.

Messrs. Henry Adams and Percy G. Skirven went to Gallen on Tuesday to inspect the creamery plant at that place. They report the creamery there to be the best object lesson any one could have to convince them of the benefit this industry has upon a neighborhood. The success of this particular creamery is largely due to the splendid management of Mr. Swartz, the secretary and butter maker. Mr. Swartz is evidently posted on every detail, and is thoroughly in love with his particular line of business, and without these attributes, no manager can successfully conduct a creamery. The Gallen company is to be congratulated on having so great a manager.

Quite a large number of the members of Buchanan Lodge No. 68 F. & A. M. attended the school of instruction at Niles Tuesday held by Grand Lecturer Arthur M. Clark of Ludington. The Buchanan lodge conferred the E. A. degree in the afternoon and St. Joseph Valley No. 4, of Niles exemplified the M. M. degree in the evening. The members present were W. M. F. A. Stryker, J. W. Claude Moulton, S. D. Herbert Roe, J. D. H. Bower, Tyler O. Hamilton, Stewards Will Miller, O. Curtis, Treasurer Aaron Miller, Secretary B. D. Harper, Messrs. E. L. Harper, Geo. Churchill, Alvin Morley, A. C. Weaver, Chas. Snyder, Chas. East, R. E. Metzger, W. W. Montross, G. W. Rough, G. F. Dressler, Al. Bachman, Stephen Scott, Chas. Ingles. After the school was closed, a banquet was served by St. Joseph Valley Lodge, to the visitors, and all thoroughly enjoying the occasion.

Come, prove your faith by your works.

OBITUARY.

Mrs. SALLIE, wife of Mr. Wm. Copp, residing a mile south of the village of Bertrand, died on Friday afternoon, at 1 o'clock, after a short illness of the grippe.

Mrs. Copp was a pioneer resident of Bertrand township, having lived there for over half a century. She was 71 years of age, and was well and favorably known. She leaves a husband and four boys—Frank of Ulster, Iowa; Edgar, of Benton Harbor; Charles of Bertrand, and John of Niles. The only daughter, Miss Carrie, makes her home with her parents.

The funeral services were held on Sunday afternoon, at 2 o'clock, at her late residence.

JOSEPH MARLIN KRAH was born on a farm in Crawford county, Pa., 40 years ago, of Christian parents. His mother was a sister to Hon. David Preston, who was a well-known banker of Detroit for many years.

Marlin, as he was generally called, was converted and joined the Methodist church, when a child, about 10 years of age. He came, with his widowed mother, to Evanston, Ill., and, here, nearly all his life, been engaged in the real estate business. He was married in Chicago, Sept. 1, 1873, to Miss Florence E. Scholer, and, during their nearly twenty-five happy years of married life, they have been blessed with four children, as follows: Frank P., who is married and lives on a farm near New Buffalo; Richard M., George E., and Edna, who are at home.

Mr. Krah and his family have lived in Evanston, Roger Park and Wheaton, Ill., and Bensenville, Ind. Two years ago his health failed and, last October, hoping that the climate of Michigan would be beneficial to him, he purchased the Dr. Swazey home, with five acres, in Buchanan, where he died, April 13, 1898, at 4:40 a. m. Besides his sorrowing wife and children, he leaves one brother, S. A. W., in Evanston; another brother, David W., in Weesaw, and a widowed sister, Mrs. Mary Higgins in New Troy, and a large circle of friends to mourn their loss. He has led an exemplary life; known everywhere he resided as a consistent Christian gentleman and business man.

The funeral services will be held at the family residence this (Thursday) afternoon, at 2:30 o'clock, under the care of his pastor, Rev. H. L. Potter. The burial will be in Rosehill cemetery, Chicago, tomorrow (Friday), April 15.

Plan of Enrollment of Able Bodied Men Available for Emergency Service.

Adjutant G. F. Richmond, of Wm. Perrott & Co., is in receipt of a circular and copies of enrollment blanks addressed to all Grand Army Posts, outlining a plan of enrolling the National Volunteer Reserves, composed of able bodied men between the ages of 18 and 45, who will constitute a land reserve force holding themselves ready to be called on at any time for active service in defense of the Government. The members are to receive no pay until called into service, and no member of the state or national troops or naval reserve of the army is eligible. The names as fast as enrolled are to be forwarded to the headquarters of the National Volunteer Reserves in New York city. The plan has the sanction and cooperation of Gen. Gobin, commander-in-chief of the Grand Army of the Republic. It will be considered at the next meeting of Wm. Perrott Post.

EASTER IN OUR CHURCHES.

Easter services were held in several of our churches, last Sunday, and the day being pleasant the attendance was very large at all of the churches. Many of the churches were elaborately trimmed, no time or labor being spared for the work of commemorating the glad Easter tide.

CHRISTIAN CHURCH.

A large audience listened attentively to an exposition of 1 Cor. 15, on "the subject of the Resurrection," and many favorable comments on the service have been heard.

In the evening, the Sunday school rendered the cantata, "The Birthday of Hope," to a crowded house, and every one was pleased. The three maidens, Joy, Hope and Grief, acted by the Misses Bessie Thomas, Mary Miller and Alice Hieno, presented the story of Christ in a new and attractive way.

PRESBYTERIAN CHURCH.

The services both morning and evening were appropriate to the Easter season. The church was beautifully decorated with lilies, palms, and ferns, and on the pulpit platform stood a cross over which was entwined flowers and vines.

The morning was marked by a special program by the choir, a feature being a pleasing solo by Mr. Will W. East. Rev. Jas. Provan preached a very appropriate sermon.

In the evening, the services consisted of exercises in which the children participated. The program was as follows:

Organ voluntary—Mrs. Ivy H. Flowers.
Chorus—"Ring Ye Bells Bells."
Chorus—"He is Risen."
Recitation—"Spring is Here."
Duet and Chorus—"Hallelujahs."
Duet and Chorus—"What say the Lilies."
Duet and Chorus—"Christ is Risen."

Mrs. John Tichenor's class recitation—"We are all represented in various parts of this country and abroad. We have young women at work in Atlanta, Washington city, Austin, Santa Fe and Oakland, Cal. They are in schools and colleges in those places. They work under the home mission board."

Chorus—"Life in the Morning."
Recitation—"Miss Lena Brown."
Solo—"Miss L. R. Brown."
Chorus—"He is Risen."

Misses Bronson, Hubbell and Moulton recitation—"Joyfully Sing."
Benediction.

Mr. Provan gave an interesting talk on the observance of Easter in different countries. The music by the choir was excellent, and Mrs. D. D. Bower's solo, "The Palms," gave much pleasure to her hearers. The church was crowded to the utmost capacity.

ADVENT CHURCH.

The day was observed by floral decorations about the church and with an Easter sermon by the pastor, Rev. E. W. Shepard.

EVANGELICAL CHURCH.

Owing to the absence of the pastor, Rev. F. C. Berger, who was in attendance at the Michigan Conference, no special Easter services were held.

METHODIST CHURCH.

The services were observed by a very pleasing and appropriate musical program on the part of the choir, at both morning and evening services. Rev. H. L. Potter, preached sermon on "The

FAMILY TIES.

Shoes for the whole family. The ideal shoe for gentlemen this summer for street wear is Patent Leather or Russia Calf. The popular colors for the "russet" shoes are mahogany—brown and dark tan; soft, light, cool and easy to keep clean.

For ladies, Oxford ties—black and colors—in new shapes, and the same variety for the little ones. The day is past when any shoe is good enough for the children. We make up our stock as carefully for the juvenile trade as for the parents. We want to train the little ones up in the way they should go—and they will continue to go to our store.

Yes—we have a good line of bicycle shoes; and they are grand shoes to wear.

PUBLISHER AND PROPRIETOR.

THURSDAY, APRIL 14, 1898.

The creamery project seems to be assuming definite shape. It's a good thing, let's push it along.

The *Dowagiac Republican* has changed its day of publication to Saturday, instead of Thursday as heretofore.

The *Dowagiac Standard* says that four-fifths of the people of Cass county are in favor of the re-nomination of Gov. H. S. Pingree.

The *Owosso Evening Argus* got out a handsome Easter edition with a four-page cover printed in colors. Editor Campbell keeps the *Argus* right at the head of the line.

A NEW DEPARTMENT.

We are pleased to announce to our readers that we have made arrangements for the conducting of a "Dairy Department." Mr. Percy G. Skirven, who for sometime past was proprietor of the Moccasin Mound Dairy, and who is an excellent dairyman, and thoroughly posted, has kindly undertaken the management of this department, and it is his purpose as well as the purpose of the Record to spare no pains in having this department as interesting as any portion of the Record.

Mr. Skirven will be pleased to answer in the Dairy column any requests for information that may be received. Address all communications to "DAIRY DEPARTMENT," Record, Buchanan, Mich.

WASHINGTON LETTER.

From our Regular Correspondent.

WASHINGTON, D. C., April 4, '98.

While every man and woman is interested in the exciting subjects which have been prominently before the public mind in Washington during the past month, it may be interesting to turn aside for a moment to consider that subject which, at this time last year, was engrossing public attention, the new tariff.

It is a subject which will especially interest the farmers just now, for the new law, having been in operation for more than a half-year, it is practicable to begin to measure its effects upon all classes and especially upon the great industries of agriculture and manufacturing.

The Treasury Department has just issued a statement covering in detail the operations of the new law during the first half-year of its work, also showing the importations and exportations for January of the present year. It is especially interesting to the farmers because it gives him an insight into the work of the new tariff law compared with that which preceded it and particularly as to its effects upon his own industry.

Some facts relative to the first six months of the work of the law have been already alluded to, but it is well enough in this connection to point out the fact that the total importations of articles of food and live animals in the first half-year of the new law fell nearly \$20,000,000 as compared with the corresponding six months of the preceding year under the Wilson law.

It is proper to assume that the new law had come into a fair working order by the time it reached its sixth month, and as the Treasury report just issued covers the sixth month of its operation in detail, we will consider that alone, comparing it with the corresponding month of the preceding year under the Wilson law. The sixth month under the new tariff law is January, 1898.

The articles of food and live animals imported in January, 1898, under the Dingley law amounted to \$12,103,448 in value against \$13,409,205 in value in the January of the preceding year under the Wilson law.

Now for details: The importation of horses in January, 1898, under the Dingley law amounted to only \$10,978 in value against \$21,394 in January of the preceding year under the Wilson law. Meantime the exports of horses in January, 1898, amounted to \$502,140 as against \$338,592 in the preceding January, thus showing a reduction of 50 per cent in the importation of horses under the new law and an increase of 50 per cent in the exportation of horses.

The importations of sheep in January of the present year were \$10,265 against \$31,910 in the corresponding months of last year. Of barley the importations in January were only 10,030 bushels against 101,625 bushels in the preceding January under the Wilson law.

Of oatmeal the January, 1898, importations were only 8,470 lbs. against 58,332 lbs. in the corresponding month of the preceding year, while the exportation of oatmeal increased from 6,777 788 lbs. in January, 1897, to 7,149,302 lbs. in 1898. Of chicory, the January, 1898, imports were only 9,035 lbs. against 944,035 in January of the preceding year. There was a slight falling off in the importation of eggs, the number being, in January last, 30,297 dozen against 31,072 dozen in the preceding January, while the exports in January, 1898, were 163,068 dozen against 69,875 dozen in the preceding January. Of flax, the January, 1898, importations were 288 tons against

410 tons in January, 1897. Of hay, the importations last January were 86 tons against 9,934 tons in the preceding January, while the exportations of hay increased from \$74,922 in value in January, 1897, to \$94,210 in value in January, 1898. The importations of dairy products last January were \$137,753 in value against 188,928 in the preceding January; those of wool 11,070,126 lbs. against 30,684,829 in January of the preceding year, and sugar 131,403,628 lbs. in January, 1897. The importations of fruits in January, 1898, amounted to \$51,292 against \$22,524 in the preceding January, while the exports of fruits amounted, in January, 1898, to \$836,780 against \$425,239 in the preceding January, showing a gain in exports and a reduction in imports.

The following table shows the January importations of articles of farm production under the Dingley law compared with those of the preceding January under the Wilson law.

	Jan., 1898.	Jan., 1897.
Horses (value)	\$10,978	\$21,394
Sheep (value)	10,265	31,910

Articles of food and live animals (all)	\$12,103,448	\$13,409,205

In speaking of Governor Pingree and his war message, the *Detroit Journal* says:

Again we wish to commend the governor, as one of his sincerest friends, on the magnificent and magnanimous manner in which he has met the emergency to place Michigan in line with the other states which have placed their militia on a war footing. His action is unselfishly patriotic.

R. G. Dun & Co's Weekly says: Where everybody is asking whether it is to be war or peace, the state of business is not easy to judge. Property is not the function of a business journal, and there are times when even the most careful study of facts gives no clear indication of the future. It is not possible to judge how far buying for distribution or buying for consumption may be affected for a time by chances of war. Every consumer may imagine that he is going to wear fewer clothes and use fewer tools and eat less food than in the time of peace. But it is likely that the producing force is likely to be diminished, nor is any such symptom to be seen in business reports.

STATE OF MICHIGAN.

AUDITOR GENERAL'S DEPARTMENT,
LANSING, April 4, 1898.

Notice is hereby given that certain lands situated in the county of Berrien bid of to the state for taxes of 1894, and previous years, and described in statements which will be forwarded to the office of the Treasurer of said county, and may be seen at said office previous to the day of sale, will be sold at public auction by said Treasurer at the County Seat, on the first Tuesday of May next, at the time designated for the Annual Tax Sale, if not previously redeemed or canceled according to law. Said statements contain a full description of each parcel of said lands.

ROSCOE D. DRX,
Auditor General.

SCHOOL DEPARTMENT.

A round-up institute will be held at Stevensville April 16, and one at Bridgman April 23.

We notice a fine flag pole and window and wall decorations at the German brick works of the enterprising Mr. G. E. Miles.

Teachers in applying for schools should deal honorably with one another. No teacher should have the charge of dishonesty or trickery placed against his name.

Miss Hattie Gano's work is satisfactory to the patrons of No. 9, Pipestone. Misses Gracie Ely, Mamie Horton, and Juanita Robinson are excellent pupils of the eighth grade.

Mr. Gaylord Marsh has completed his year at Lakeside and is teaching the spring term at Lakeside; Miss Anna Knisley is teaching at the National; Mr. Fred Tuttle completes the year at the Burke; Miss Bessie Light at the Shawnee; Mr. Bird Bishop at the German brick.

Mr. George Otwell, of Three Oaks, will act as principal at Stevensville next year; Mr. Weaver will stay at Baroda a fourth year, Mr. Cross remains at New Buffalo, and Mr. Milham will continue at the head of the Three Oaks school. All Berrien principalships seem to be filled.

Promotion exercises in all grades on the last day of the spring term will do much to make the pupils interested in the graduation of the schools. But do not promote pupils unless they merit promotion. Don't allow your sympathy, or desire for popularity, to get the better of your judgment. There is a duty teachers owe not only to the pupils as an individual, but to the school as a whole, that they should ever keep in mind. Promotion certificates will be furnished on application.

The spring term is the most trying one of the year, and at the same time great opportunities are offered for nature study. I would suggest that teachers have boxes of growing grain, jars with twigs of different kinds in them opening in the sun. Plant in small boxes corn, beans, peas, beets, wheat, etc., and show how they germinate and grow. Teach pupils to see things intelligently. Send to the secretary of the Agricultural college for free science bulletins. They will be of great assistance to you. Plan for Arbor day, Apr. 15. Plant one or more trees or shrubs and do all you can to beautify school ground and to make the school room attractive.

School boards should turn a cold shoulder to agents of high priced, highly colored arithmetical and combination charts. These charts possess very little educational value and teachers will not use them, preferring to use the blackboard instead of number charts for arithmetic work. Don't be induced to buy these charts although an oily tongued agent, who has his little piece well learned, may make the article seem a useful one. His commissions are large and he can afford to be eloquent. If districts can spare a few dollars from their treasuries the money could be profitably invested in library books and supplementary reading that would prove of lasting value to their school children.

Sixty-eighth grade pupils passed the February examination. This is the most significant announcement that we have had the pleasure of making. The pupils that were in the third grade when the systematic work of grading was begun took the examination in February or will take it in May. The pupils that were in the advanced grades then have dropped out, but the lower grades were started right and have been kept in line and have taken all the studies named in the course and a large number are now graduating. Nothing succeeds like success, and this year's graduating class proves that the grading of the district schools has compelled pupils to follow a definite course of study and induced them to remain in school until this course of study had been completed; in other words, until pupils had received a common school education. Eighty-five per cent. of these eighth grade graduates signify their intention of taking a higher course of instruction. The success of grading in Berrien county is exceedingly gratifying.

THEORY AND ART.

The following questions on Theory and Art of Teaching used at the recent examination would prove good topics for discussion at our institutes, QUESTIONS

1. Name five influences which shape the character of a child. Discuss the one you regard as most important, giving reasons for your belief.
2. Is knowledge and mental discipline the highest aim of education? Justify your answer.
3. How can the instruction of the school be made to contribute to the work of character building? Illustrate with reference to United States history.
4. Name five ways in which the State Manual and Course of Study may be helpful in the work of teaching.
5. An author says: "We should not eliminate the disagreeable and irksome from school tasks." Why?

Michigan Crop Report for April, 1898.

March was an unusually warm month, the average or mean temperature in the southern part of Michigan being about 7 degrees above the normal. The fields were bare of snow in this section after the 9th of the month, and excepting the extreme northern part, throughout the southern peninsula after the 14th. Rains were frequent and heavy, and the total excessive at many points, as 6.68 inches at Howell Junction, 6.16 inches at Olivet, 5.51 inches at Coldwater, and in excess of four inches at a number of stations.

Since April 1 the weather has been less favorable. There was sufficient snow fell on the first of the month to cover the ground, but it soon melted away and by the night of the second had mostly disappeared. From the second to this date (April 6), the temperature has ranged low, with heavy, cold winds from the north. At Lansing the maximum temperature the first five days of the month ranged from 28 to 37 degrees, and the minimum from 16 to 26 degrees.

This continued cold weather, with high winds is surely injuring wheat, but it is yet too early to estimate percentage of damage.

The percentages that follow indicate condition April 1, or before the severe weather set in.

The average condition in the State, April 1, was 96; in the southern counties, 95; in the central, 98; in the northern, 90, comparison being with average years. These percentages are higher than reported at the same date in any previous year since 1891, when the average for the State was 96, and for the southern counties 97. One year ago the average condition in the State was 87, in 1896, 86; in 1895, 85; and in 1894, 90.

The amount of wheat reported marketed in March is 1,567,932 bushels, and in eight months, August-March, 12,927,332 bushels, which is 5,392,461 bushels more than reported marketed in the same months last year.

The average conditions of clover meadows and pastures is, in the State and southern and central counties, 95, and northern counties 96 per cent. Live stock has wintered well and is reported in good condition. The average condition in the State is 96 for horses, sheep and swine, and 95 for cattle.

The notes of correspondents indicate that the outlook for apples and peaches is favorable. Previous to April 1, the date of the reports, no perceptible damage had occurred.

TAX BILL KILLED.

SENATE VOTE, 16 TO 15.

Sixteen Senators put Gov. Pingree's extraordinary session to naught, last Friday. First, they talked the Atkinson bill to death, and then they jumped upon it and stamped it into the earth. At no time during the day was the result in doubt. Senator Flood's vote was the only one that was not checked off on the many roll call slips that were circulated about the Senate. On no other Senator was so great pressure brought to bear to influence his vote in favor of the measure. Scores of petitions signed by taxpayers of the District he represents were carried to his desk, and many telegrams urging him to vote for the bill were showered upon him. But he stood his ground and voted with the opposition. The vote of 15 to 16 by which the bill failed to pass was east by the following members:

Yeas, Senators Barnard, Blakeslee, Bostwick, Bolman, Hadsall, Holmes, Hughes, Loomis, Moore, Mudge, Prescott, Robinson, Wagner, and Westcott, 15.

Nays, Senators Barnum, Campbell, Flood, Forsyth, Jibb, Latimer, Lawrence, Maitland, Mason, Merriman, Preston, Savidge, Teeple, Thompson, Westcott, Youmans—16.

At the opening of the afternoon session, Senator Preston spoke in opposition of the bill. He said the method of taxation must not be changed on such short notice, and that the sentiment in favor of the bill was manufactured, not spontaneous. Senator Loomis advocated the bill's passage, and Senator Thompson opposed it. He said that the extra session would not have been called but for the fact that two political state conventions were to be held soon. Most of the petitions were manufactured in the basement of the capitol. Referring to Senator McMillan, he said that while he thought he had made a mistake in distributing the federal patronage, he regarded him as the peer and equal of any member of the United States Senate.

Senator Hadsall favored the bill because of the moral effect it would have on the state. Legislation has for several years been for the benefit of the few and not for the masses. The Republican party cannot continue in power in the state if it does not do something for the relief of the people.

Senator Blakeslee said he was going to vote for the bill, not because of the threat, that no one would be returned to the legislature who did not vote for it, but because he thought it right. He regarded any member who would permit his vote to be influenced by such a motive as too low and despicable to deserve senatorial denunciation.

Speeches in opposition to the bill were made by Teeple, Mason, Bar-

Supervisor B. D. Harper has opened an office at the Record office. Elder Black has both sweet peas and garden peas out of the ground.

Dr. L. E. Peck has been appointed Health Officer for Buchanan township.

Mr. Will Renberger of Galien has accepted a position in the grocery store of President W. H. Keller. A force of men under charge of Street Commissioner Fred W. Eldridge began work on the streets bright and early Monday.

Mrs. Wm. Pears entertained a number of friends, Friday evening, at progressive euchre, and all reported a very pleasant time.

The Street Committee have been taking measurements on Front street and are estimating the cost of paving the business blocks of the street.

We are glad to report that our esteemed friend, Carlton S. Wade, who is at Ann Arbor receiving medical treatment, is being much benefited thereby, and will soon return home.

Mr. Wm. G. Hathaway has had his sprinkling wagon thoroughly overhauled and painted at South Bend, and he has commenced his summer's work of keeping the dust laid on our streets.

Mr. Will U. Martin of South Bend was in town, Friday, and overhauled the pipe organ at the Presbyterian church and, as a consequence, the congregation on Easter Sunday could scarcely believe they were listening to the same organ.

The Healdon Telephone Co. placed another new cable in position, last Saturday, the one they already had proving insufficient to accommodate their increasing patronage. Arrangements are being made for an additional switchboard, as the one now in use is about filled to the utmost capacity.

Supt. J. L. Richards shipped one of the famous Richards Metallic Saddles, last Saturday, to Champion F. H. Scheininger, who will be remembered as the winner of the six days bicycle race last year. The fame of the Richards saddle keeps increasing.

Township Treasurer Salma Bar-more filed his bond on Friday and, upon approval of the same, took charge of the treasurer's book on Saturday of last week. He has an office at the First National bank, and has appointed Cashier Herbert Roe his deputy.

Health Officer J. A. Garland desires to suggest to our citizens through the Record, that a little care in seeing that the yards, and especially the alleys, are well cleaned up and refuse disposed of in good shape, may be the means of saving many a family from a long list of sickness, if nothing worse.

Some time ago, the Record published an account of the injury received by Mr. Mathew Uplinger, caused by the kick of a horse. Mr. Uplinger carried a policy in the Equitable Benefit Association of Kalamazoo, and last week he received a check for \$64 in full for his claim. As the proofs were received by the company less than a week previous, their prompt payment of the claim is very pleasing to Mr. Uplinger.

The adjustment of the loss by fire at the Michigan Outfitters Co.'s factory was satisfactorily completed, Friday. The Outfitters Company put in their claim at \$3100, but the loss was finally adjusted by a compromise, and the claim allowed at \$2000. Considering that the fire occurred Wednesday, the adjustment of the loss in 48 hours, speaks well for the business methods of both the Outfitters Company and the insurance companies.

NEW WAY OF CURING THE SICK.

Old Methods Give Way to Modern Scientific Discoveries.

The rapid strides that scientific men have made in the treatment of disease as well illustrated by the wonderful X-Ray machine now in Dr. Granville's office in our city in the postoffice block. This machine is well worth going to see. By its wonderful light you can see every bone and artery in your body. Its great use, however, is in curing nervous diseases. It is asserted by other well known physicians that women who suffer with those ailments peculiar to their sex can be quickly cured by this static electricity, that it cures headache in two minutes, the worst cases of rheumatism, all pains in the body and revitalizes the worn out tissues, body and brain. All you do if it is still in a comfortable chair and receive the electric static current, which is simply a delightful sensation and enjoyed by everyone. This machine and its various attachments cost Dr. Granville \$1000 and speaks for the enterprise of this celebrated and popular physician. Dr. Granville is receiving people as fast as he can attend to them and gives the treatments, which are inexpensive and enjoyed by all who have tried them. Such is a brief outline of modern science and what it will accomplish in our day, and those people who are in doubt or are skeptical as to the merits of static electricity, should go to Dr. Granville's office and see this machine that everyone is talking about.—Niles Star.

Dr. Granville now has this machine at his office in Dowagiac where he may be consulted on Fridays. He is to be seen at Hotel Stephens every Wednesday and the other days of the week at his chief office, postoffice block, Niles. The people who are sick and have failed to obtain relief should call and see Dr. Granville, the cures he is making are remarkable and are attracting the attention of the public.

The bride was a vision of girlish beauty, that bright June wedding day, and McLane was as handsome and well-preserved a fellow of 35 as even New York could show. He was tall, with deep, lustrous hair and immeasurably proud and happy. As for the lady, she looked to the full as joyous and radiant as any flower could ask, and her manner toward McLane, much "more than twice as sweet," as he said, was "all that was sweet, shy, appealing, and trusting, all in one." Many women in society, old and young, envied her, and everybody appropriately congratulated him and wished her joy. Mac's plan for the wedding was to sail for New York through the Scottish Isles and so on to North Cape, but Fan surprised him. She had seen so much of Europe, she said, and so little of their own country. Couldn't they go to Chicago for the world's fair, and then to Niagara and the Adirondacks, and on to the White mountains and the Catskills? So this they did, coming back to Gotham for a round of receptions and social gayeties in the late autumn, then going to Florida and thence to New Orleans and for the Mardi Gras at New Orleans. Then they sailed to Coronado and Monterey. She longed, she said, to see Southern California, and the "Sunset Route" bore them within three miles of old Fort Sedgewick on their westward way.

The Gratones were still at West Point. When she was only one year past whom she knew, and none who were known to her husband, it was as

with a field officer who was frequently in command, so he spoke respectfully to him, and to the senior whenever they met, but the courtesy was as cold and the meetings as rare as he could make them. But, however, "bore no malice," as he said, and was generally kind and courteous and forgave Hayne or what had transpired in the past, but when Duxton, not Hayne, had been the offender. Indeed, Duxton was a peckish man, and he was not at all sure he believed Hayne knew why Merriam had asked for his most undesirable detail, and so imparted him with eager interest.

Give the Children a Drink
Med Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee and is free from all its injurious properties. Grain-O aids digestion and strengthens the system. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about $\frac{1}{4}$ as much as coffee. 15 and 25c.
