BUCHANAN RECORD.

D. H. BOWER,
PUBLISHER AND PROPRIETOR.
THURSDAY, MAY 26, 1918.

R. G. Dun & Co's Weekly says Growing accustomed to war possibilities, which are mostly far from probabilities of evil, and finding the nation moving along steadily in its industries, people are grasping the idea that it is throwing away some months of active and profitable life to wait until war clouds have passed. Western prosperity has so greatly overbalanced timidity of eastern capital that actual business done increases railroad earnings promise better for May than a month ago for April, and payments through clearing houses for the week in May shows a gain of 36.0 per cent, over last year, and 7.5 per cent over 1892, while a month ago the increase over last year was 23.6, and compared with 1892 there was a decrease of 7.2 per cent. Several large contracts kept back for some weeks because of hostilities have now been placed, and instead of works closing or reducing force, returns show the starting of some works long idle and increase of force or of hours at others. Government work occupies many establishments, but it counts for little compared with other demands.

FARM AND DAIRY

Conducted by Perry G. Slaten.

Our readers are invited to send in any questions for information on this subject, and any communications will be fully discussed in this column.

Sorrel.

It has been my aim, in the preceding copies of the Record, to impress upon the farmers of this vicinity the importance of replacing, in a measure, richness of the soil. It is well-known that there are three important points to take into consideration to accomplish the rejuvenation of the land, viz: Tillage, crop-rotation and the judicious supplying of plant food.

In last week's Record corn tillage was taken up, and I hope profitably to our readers. This week it had been my intention to continue the question of tillage but, upon riding to South Bend and seeing the great fields of sorrel growing rank and crowding out the clover, has made such an impression on me that I shall skip over the rotation of crops and take up the supplying plant food, for the time.

Prof. C. D. Smith of Michigan Experiment Station, writes me that in growing thirty bushels of wheat per acre and the accompanying straw, the following quantities of chemicals are taken from the soil: Ash, 189 lbs; nitrogen, 45 lbs; potash, 27.9 lbs; phosphoric acid, 22.7 lbs, and 10.3 pounds of lime. Now, in growing wheat you see 10.3 lbs of lime is taken from the soil each year. Oats take away 11.8 lbs of lime, and you can easily see by continuing the growing of these crops for, say forty years the total amount of available lime taken away from the soil has become quite large—say, 400 lbs per acre.

Now, the appearance of sorrel in the land is an indication of "sourness," or lack of lime to properly balance the plant food already in the land, and can only be killed out by plowing up the fields before the sorrel has gone to seed, and by supplying the lime to the growing crops, either on corn fields just after planting, before the corn has come up, or on the summer fallow before seeding the wheat. This stone lime comes from the kilns in Ohio or Pennsylvania and, by getting it in car-load lots, it costs but little per acre to apply to the land. When it comes from the kilns in car-load lots it is not slacked, and must be hauled to some convenient place where water is handy and then, as it is taken from the wagon, water is thrown over the lime, causing it to crumble up and at the same time double in bulk. Thus, by buying 500 bushel of lime and slacking it you will have 1000 bushels to put on the fields.

To apply the lime, take wagon with box on, fill about half full, so weight of wagon won't out the wheels too deep in the fresh soil and, with long handle shovel, broadcast the lime evenly on the ground, trying to put on from 30 to 40 bu. per acre of the slacked lime. When the land is freed of the seed and is kept up to standard with lime every bit of the sorrel will disappear. By applying this quantity of lime to each field as it comes around to either wheat or corn, you will soon have restored the lime, and 300 bushel of lime will last a number of years, so it will not be necessary to lime any one field often than every six years.

Articles of incorporation of eight creameries in the state of Michigan, have been filed during the past six weeks, the average capital stock being \$4,000.

The low prices received by the local dairymen and their wives, certainly should make them more than willing to encourage the erection of a creamery at Buchanan. Creamery butter brings to-day as much as it has averaged for nearly five years, and there is little doubt that the present war with Spain will have the effect of advancing the price of butter as it has other food supplies. An article in *Hoard's Dairyman*, the great authority in creamery and dairy matter, states that the U. S. Government is now making shipments of butter to England and to the continent. The butter is put up in neat boxes (one foot cubes), the butter containing 84 per cent butter fat and 3 per cent salt, and not more than 10 per cent water. The salting, you see, is only one-half ounce to the pound. The color is a uniform straw color. Should this foreign shipment by the government prove successful, the future of dairymen is very bright.

War Relief Fund.

Help at Once Needed for the Sick and Wounded Soldiers and Starving Cubans.
\$1 from Every One, a Beautiful \$50 cent Return.

We appeal to our readers to join with us and thousands of other patriotic citizens throughout the country in raising within the next 30 days a relief fund of ONE MILLION DOLLARS to be placed in the hands of the American National Red Cross and of the Central Cuba Relief Committee, appointed by President McKinley.

We, with other Publishers and Merchants throughout the country, are volunteering to receive donations of \$1.00 each for the fund. It has been arranged to present every one who donates \$1.00, with a copy of a beautiful picture, "The Accolade," now on exhibition at the Record office. Call and see this picture. It is a beautiful historical souvenir of this great uprising of the American people to defend and set free outraged Cuba. Every patriotic American should subscribe at once! Your Help is Needed! Our boys and our suffering soldiers are by them! We do not reserve any commissions of any kind, and no profits is made by any persons from this fund.

MILLIONS NEEDED.

Mr. Stephen E. Barton, of the American National Red Cross, and Chairman of the Central Cuba Relief Committee, together with his colleagues, Chas. A. Schieren, ex-Mayor of Brooklyn, and Treasurer of the Relief Committee, heartily endorsing the plan of the subscription, says that the generous aid they were enabled to break the shackles of Spain's infamous yoke. Through the heroism of the Cubans and the noble courage of the Americans, Cuba has been elevated to the proud dignity of a free and sovereign nation.

and spent by the Red Cross Society in caring for the sick and wounded, and in the Russo-Turkish War, over 17 millions! Many of us remember the magnificent work done by the Sanitary Commission in our Civil War. Millions of dollars in contributions were poured into the treasury of Commission. Now the people should respond as promptly and patriotically as then.

A PLEA FOR HUMANITY.

"Let them keep their horses; they will need them for ploughing." This was Grant's great plea for humanity at the close of the Civil War. We are now in the throes of another struggle for humanity. There have been wars of conquest, wars of succession, and wars of religion, but when has there been a more righteous war than the one we are now waging? This war is for the freedom of a people that for years have struggled against violent oppression and horrible cruelty.

The Spaniard has already devastated the "Antilles." Ever since Weyler's edict of concentration, the outlying districts of the island have been laid waste. Not a dwelling remains to afford shelter to hundreds of thousands of the unfortunate concentration camp inmates. No draft animal has survived the awful devastation of this once fertile island. These people, naked and starving, few of whom can drag themselves to the place where the ruins of their homes now stand, have been stripped of even the ordinary means of self-support. Here, too, then, is a field for boundless beneficence. Tens of thousands of dollars will be needed to furnish homes and implements, and other necessities with which to prepare the soil for harvest. Months must elapse before these unfortunates, once reestablished, can reap the results of their labors, and who is to provide for them in the meantime? The need for a large fund to perfect the work of emancipation is more than apparent. We need your sympathy for our boys and your help for a starving and desolate people.

THE KISS OF LOVE.

The souvenir that is given in return for each dollar donated is a work of art fitted to adorn any parlor wall. It is a large picture, 18 by 28 inches in size. It presents Columbia, the allegorical figure of the United States, bestowing the Accolade on the wounded Cuba. In the words of Judge McFadyen, of New York, in speaking of this picture, "The Accolade is the name of the Kiss given as the final ceremony in the bestowment of Knighthood upon the worthy heroes of the Age of Chivalry. It was the token of love for noble deeds done in the cause of God and the defense of innocence and in the rescue of the humble and poor. It was therefore 'The Kiss of Love'—the tenderest and sweetest kiss when given in the cause of suffering and helplessness. It is, in fact, then, that in this hour of her awful agony, America should clasp her bosom to the wretched and unhappy Cuba and give her 'The Accolade'—the kiss of charity and love, and the token of hope and peace and the badge of honor by a mighty people in the name of God and Liberty."

THE AGE OF HEART.

In the picture the figures of Columbia and Cuba are so combined that they form a great heart, crowned with the Liberty Cap, suggesting that the Age of Force and the Age of Gold are giving way to the greatest of all the ages, the Age of Heart.

The time was when to find who was the greatest man the measuring string was placed around the muscle. That was the Age of Hercules. Then the time came when the string was placed around the head, and Shakespeare and Bacon were deemed greatest; but the time is near at hand, if not now here, when to find out who is the greatest the measuring string will be placed, not around the muscle, nor the pulse, but the brain, and around the heart, and he who has the most heart will be king among men.

In the background the starlike flame from the torch of Liberty assumes the form of a heart whose warm glow attracts the doves, themselves symbolic of love and peace, and repels the creatures of cruelty and darkness—the vampire, the owl, and the flying fox.

THE DESTRUCTION OF THE "MAINE."

The battery of the searchlight from the advancing battleships drives their far-reaching rays behind the black hulls of the *Maine*, themselves symbolic of love and peace, and repels the creatures of cruelty and darkness—the vampire, the owl, and the flying fox.

WHAT ESTRADA PALMA THINKS.

Gen. T. Estrada Palma, chief representative in the United States of the Cuban Republic says: "The beautiful picture, 'The Accolade,' faithfully portrays what Columbia's feelings toward Cuba have always been, the love which she has always experienced toward her suffering and downtrodden young sister, a longing affection she never failed to show, notwithstanding adverse circumstances over which she exercised no control. Cuba and her indomitable children will never forget that with Columbia's generous aid they were enabled to break the shackles of Spain's infamous yoke. Through the heroism of the Cubans and the noble courage of the Americans, Cuba has been elevated to the proud dignity of a free and sovereign nation."

The reception given, last Thursday evening, to Mr. and Mrs. Wm. Monro at the residence of Mr. and Mrs. C. D. Kent was largely attended, over one hundred and fifty being present. All extended hearty congratulations to the worthy bride and bridegroom, and gave them a royal welcome to Buchanan. The reception lasted from 8:20 to 10:30 o'clock.

Mrs. Glenn E. Smith claims the championship for big mushrooms. Last week she gathered a lot, and among them was one that measured 15 inches at the top, 11 inches at the bottom and 9 inches in length. Three of the largest were on exhibition at the store of G. E. Smith & Co. The Record is also prepared to state on the best of authority, that Mrs. Smith also knows how to cook mushrooms right up to the queen's taste.

Quite a party of South Bend people were in town Sunday and took dinner at the Stephens. The party called themselves the "Observation Club", and reported a very pleasant time. Those in the party: Messrs. G. W. Longman, J. A. Hartman, Sam'l Bowman, John Yant, Frank Ritter, John Zigler, Cyrus Miller, Schuyler Robinson and W. D. Shimp. Their election of officers resulted in the choice of John W. Zigler for President; John A. Hartman, treasurer; Wm. D. Shimp, secretary.

Memorial Day will be fittingly observed

Next Monday is Memorial Day and the members of Wm. Perrott Post, G. A. R. have made arrangements for the observance of the day in a fitting manner. This year invitations have been extended to the various orders and societies to march in the procession and a number have signified their intention to do so. The following is the official program and order of exercises.

PROGRAM.

The column will form on Oak St., right resting on Front, and march in following order: Martial Band, Common Council, Ladies' Relief Corps, G. A. R. Post, Newly Enlisted Men, The Schools, Fire Department, Woodmen Band, Order of Woodmen, Order of Maccabees, Order of Patriarchs, Order of Old Fellows, and Citizens.

The column will march for Cemetery at 2 o'clock sharp. On reaching the grounds will form a square around monument and proceed with dedication of same. The Mayor will surrender the Memorial to President of Monumental Association for Dedication. President Beistle will accept with appropriate remarks and continue the exercises until the close.

The Post and those who wish to assist in strewing the flowers will march in as good order as may be until all graves are decorated. When they will return to Monument and listen to address by Rev. E. L. Potter. The exercises will be interspersed with good vocal and instrumental music. At the close of Memorial address, the Post will go through the usual exercises for such occasions. At close of which the column will form and march to village and be dismissed. Parade will be in charge of Comrade John Parrott as Marshal,

MARRIAGE.

BLAKESLEE-GRAVES.

May 18, 1898, the home of Mr. and Mrs. J. B. Graves of Benton Harbor, Mich., was the scene of a pretty home wedding, the contracting parties being Senator E. A. Blakeslee of Gallien, Mich., and Miss Adeline Graves, youngest daughter of Mr. and Mrs. J. B. Graves. The bride is a most estimable and highly cultured young lady whose winsome disposition and charming manners has won for her a host of friends. The groom is a gentleman whose pleasant, thoughtful ways make for him friends wherever he goes.

The wedding ceremony was performed by the Reverend G. A. Sahlin of the Universalist church, the ring service being used, and vows of the bride and groom were said clearly and solemnly in the presence of the relatives and guests. The bride was attired in a gown of cream corded silk, tastefully draped in exquisite lace, and carried a bouquet of lilies of the valley, her only ornament being a beautiful diamond pendant, a gift of the groom. The home was handsomely decorated, the prevailing colors being white and green. The west end of the double parlors, in which the ceremony was performed, was banked with potted palms and gracefully festooned white ribbons and smilax in sunburst form.

At the appointed hour, Mrs. F. B. Christopher, sister of the bride, seated at the piano began to play the sweet strains of Mendelssohn's wedding march. At the sound of the first notes two little girls, nieces of the bride, acting as ushers, unrolled white ribbons which, stretched from the doorway, formed an aisle through which the bridal party took their positions. First came the clergyman, then the groom and his best man, Mr. Frank P. Graves, brother of the bride; then the bridesmaid, Miss Eleanor Woodruff, followed by two dainty four-year-old flower girls, Winnie Clark and Helen Smith, nieces of the groom who strewed roses in the pathway of the bride who was following them. After the ceremony, Mr. and Mrs. Blakeslee received the hearty congratulations of those present. Light refreshments were served by a caterer and her corps of assistants. Fruit punch was also served from the vantage.

Among the guests present from out of town were: Mr. and Mrs. C. A. Cary and Mrs. M. J. Clark of Utica, Ill.; Senator and Mrs. H. B. Colman, Kalamazoo, Mich.; Senator and Mrs. Geo. W. IN OUR ADVERTISING COLUMNS WILL BE FOUND ANNOUNCEMENT OF EX-SENATOR JOHN J. INGALLS' FORTHCOMING BOOK, ENTITLED "AMERICA'S WAR FOR HUMANITY".

Canvassing agents will find it a book of remarkable interest, and certainly of extraordinary salability. The history of the war is told in picture and story, and in a way that always characterizes the brilliant pen of Senator Ingalls. In narrating incidents of this war he finds grand scope for his superb descriptive and analytical powers. The theme is worthy of the author and the author is worthy of the theme. It is published by N. D. Thompson Publishing Co., of St. Louis, Mo. It will be a monumental work that will not only be everywhere read, but it will be a monument to his genius that will outlive in history his brilliant senatorial career. The subscription book trade and the canvassing agent are fortunate in the fact that an author of such rare ability has been enlisted in its interest.

The Omaha Exposition of 1898

Beats the Centennial Exposition which occurred in Philadelphia in 1876 away out of sight and is next to the World's Fair at Chicago in importance to the whole country.
