

BUCHANAN RECORD.

VOLUME XXXVII.

BUCHANAN, BERRIEN COUNTY, MICHIGAN, THURSDAY, JULY 14, 1898.

NUMBER 24.

FOR GOVERNOR. HAZEN S. PINGREE.

PLATFORM: Equal Taxation. Special Privileges to None. No Free Franchises. Uniform Railroad Rates.

BUCHANAN MARKETS.

Hay - \$7.50 per ton, new. Lard, retail - 8c. Flour, per 48-lb. - \$8.00. HONEY - 14c. Live poultry - 6c. Butter - 14c. Eggs - 15c. Wheat - \$1.10. Oats - 50c. Corn - 40c. Rice - 4c. Beans - \$6.00-\$7.00. Live Hogs - \$3.50.

NEW ADVERTISEMENTS.

Card of Thanks. See local. Notice to tax payers. See local. Special excursions on "Benton Harbor Route". See local. Morris The Fair is advertising a new departure this week. Read about it. Dr. H. C. Clements has his announcement. Montgomery Ward & Co. has an advertisement. The Boston Store is advertising a slaughter in hams. In this week's Record. Dr. Orville Curtis has his end in the Record, and will be pleased to receive your patronage. Sipe & Blake's Train and Exhibit. Exhibit has a new exhibit. Read about it and then take the children. E. S. New has a new watch, this week, and would attract your watch that he is a veritable remarkably low price of \$2.00. B. E. Doseberg & Bro. advertise a new "Santia" Watering Sate, for the Record. Read about it, and see the Record. G. M. Merrill is seriously ill. Mrs. Wm. Mead is on the sick list this week. J. P. Egan has put in a new cross in front of his undertaking shop. The Sipe & Blake dog and pony show will exhibit here next Wednesday, July 29. Johnny Butler is working at the postoffice during Miss Winifred Nett's absence. Wednesday, The C. Bishop Grain Co. paid 8c cents for a very choice lot of new wheat. Dr. F. N. Bouine of Niles, who has been dangerously ill is much improved and is rapidly convalescing. The band concert last night was listened to by large crowds of our people, as well as a number from out of town. The party of young ladies who have been camping at Clear Lake in Mr. A. J. Caruth's cottage returned to Buchanan, Tuesday. Messrs. B. R. Doseberg & Bro. report their special sale to have been a very successful one, and are now pushing their special "shirt waist sale". Frank Tucker, a well-known theatrical man who has made annual tours through Michigan, is in Ann Arbor to undergo the amputation of his left leg, which has become withered. The Supreme Assembly of the International Congress have paid another \$1,000 policy in full, that of Mr. William J. Lurvey of Battle Creek Assembly, No. 16. Mr. W. H. Ingalls who lives west of Buchanan is one of our prominent fruit shippers and has some fine fruit on his place. Last week he left us a sample box of Gregg raspberries that were extra fine. The Ladies' Aid Society of the M. E. Church gave an ice cream social at Mrs. J. M. Rouch's residence Tuesday night. The occasion was in honor of the birthday of Rev. S. L. Hamilton of Los Angeles, Cal., who is visiting here, and was a former pastor. The work of repairing the dam is progressing rapidly and by the 15th of August the water will be running through the turbines. The flooring has all been laid and the masonry began laying stone Monday. Two pile drivers have been put to work driving the piles and the whole work is getting along nicely under the supervision of Mr. Willis Weaver.

SANTIAGO SURRENDERED.

LATEST WAR NEWS.

Special Bulletin to Record. (Chicago, Ill., July 14, (3:00 P. M.) Gen'l Shafter wires the War Department that the Spaniards have appointed commissioners to arrange terms of surrender. A Washington dispatch says that Shafter has been authorized to appoint commissioners for only an immediate unconditional surrender, and the administration is momentarily expecting announcement of the full surrender of Santiago. Gen'l Shafter has been ordered to carry out instructions to bombard the city if surrender is not made at once.

CAICAGO, 2:15 o'clock.—Santiago has surrendered unconditionally on terms including all the harbor and contiguous territory and the shipment of Spanish troops to Spain.

WE desire to remind our readers that the columns of the Record are always open for any communications from anyone who has any matter of public interest to which attention is desired.

More good news: Santiago has fallen.

I. N. Bachelor's young pacer "Jim B" made a mile in the fast time of 2:23, on a dusty track at South Bend, Tuesday.

New wheat was offered to Bainton Bros, Tuesday; the first this season. The quality was fine, grain plump and the yield 38 bushel per acre.

Messrs. Bird Lister and Frank Seales have joined for Island Lake, where they will join Capt. Simpson's Company of the 35th Michigan Infantry.

Dr. H. C. Clements is at Hotel Stephens, for the balance of the week. He gave free lectures this afternoon and yesterday afternoon, at the Hotel.

Why would it not be genuine economy to replace some of the dangerous plank cross-walks about town with cement crossings, such as were put in last year in several places?

J. M. Hubbell has sent his promising young two-year-old Dr. Yale to South Bend for a month's working. This young colt is, without doubt, one the best bred animals in the state.

Mr. Willbur F. Pollock has purchased the interest of Mr. O. L. Hice in the grocery store of Pollock & Hice, and will carry on the grocery business at the same place. Mr. Hice has not decided just what line of business he will engage in, but has removed to Benton Harbor.

Extensive alterations are being made at the warehouse of the Michigan Central R'y, which will make it convenient for grain shippers. An elevator will be put in and the grain bridge removed, thus doing away with the necessity for driving up the steep incline with a heavy load of wheat.

Dr. Claude B. Roe has been busy engaged in repairing and renovating his dental office in the Redden block and has put in some fine office furniture. He opened his office the last of last week and has been more than pleased with his patronage. He has put in a fine hydraulic oak cabinet and a beautiful quartered oak cabinet.

Mr. A. J. Crandall of South Bend met with a very painful accident last Sunday and was prevented from attending the funeral of his mother-in-law, Mrs. McGowan. Mr. Crandall with some friends was walking along the tracks of the "Benton Harbor Route" and accidentally slipped, dislocating his knee.

Alert Hose will have an excursion to Benton Harbor next Sunday. At first it was proposed to charter a special train over the "Benton Harbor Route" both going and coming but at the meeting held last evening it was decided to go on the regular train which leaves Buchanan at 9:30 and return leaving Benton Harbor at 8 o'clock. The Record trusts that the "Fire Laddies" may not be a handsome profit from the excursion.

For sometime the waterworks committee have been endeavoring to solve the problem of collecting the delinquent water tax and at last determined to adopt drastic measures and on Monday some 20 consumers found that the water had been turned off from their homes. In a number of cases the occupants of the houses had nothing to do with paying the tax as the landlord or agent was the one who paid or rather neglected to pay, consequently there was a number of landlords and agents who had some hustling around to do on Tuesday to settle up matters with the water board and their irate tenants. The village officials are showing a commendable spirit in looking after the various matters in their charge.

CHURCH NOTES.

W. C. T. U. Will meet at the home of Mrs. Wm. Mead on Friday, July 15, at the usual hour.

ADVENTIST. Miss Lottie Marshall of Massachusetts will preach at the Advent Christian church, Sunday morning and evening.

PRESBYTERIAN. The pastor will speak, next Sunday morning, on the following subject, "To every man his work". In the evening, there will be a union thanksgiving service. Addresses will be delivered by Rev. E. R. Black, and Dr. Green of Chicago. Rev. F. C. Berger will speak on the topic, "The Hand of God in War."

OBITUARY.

MR. ISAAC FRAME, aged 74 years, died at his home in New Carlisle, July 7, 1898, after a long illness. He leaves a wife and six children to mourn their loss.

MR. FRANK was an uncle of Mrs. Joseph Anstiss of this place.

MISS SARAH GALBREATH was born in Wayne county, Ind., in 1897; married to Mr. Chas. Cowles, May 30, 1834 (aged 14 yrs. 7 mo), who died a number of years ago. This union was blessed with seven children, two of whom, Mrs. W. W. Graves of St. Joseph, Mich., and Mrs. A. J. Crandell of South Bend, Ind., with one sister, Mrs. Julia Pierce of Buchanan, survive her. Mrs. Cowles was married to Mr. William McGowan, Aug. 16, 1897, who also survives her. Mrs. McGowan was a great sufferer for the past year from heart failure and rheumatism, and was confined to her bed about two months, and fell asleep easily and peacefully at 2:30 p. m., July 8, 1898, at her home on River street, Buchanan. Funeral services were held on Sunday afternoon, and interment made in Oak Ridge cemetery.

Mrs. Emma A. Harding died at her home in Niles township, of paralysis of the brain, July 12, 1898, aged 37 yrs. 8 mo. 9 days. Her maiden name was Shearer; was married to Mr. Otis Harding, April 29, 1884. She was the mother of three children, two daughters and one son. The son died several years ago.

Mrs. Harding had been in poor health for several months, but was feeling better on the day before her death. On Sunday last she attended the Adventist church in Buchanan, of which she was a faithful member. She was able to do the duties of the home, and retired on Monday evening as well as usual. At about 9 o'clock her husband on hearing a strange noise, entered the bed-room and found her lying on her face, unconscious. She never recovered consciousness, but passed quietly to rest shortly before noon on Tuesday. It was a terrible blow upon the family and friends. Like a shaft of lightning from a clear sky, it came, but she was prepared, for her life was well lived. Mr. Harding and family and relatives have the sympathy of the entire community.

Funeral services were held at the late home on Thursday, at 2 o'clock p. m., E. W. Shepard, pastor of the Adventist church, officiating. Interment made in Oak Ridge cemetery. Undertaker Hahn, conductor.

The Adventist publication Our Hope contains a fine half tone cut and obituary sketch of Elder M. A. Stevens, pastor of the Silver Grove Advent Christian Church of New Albany, Ind., who died July 1st. The deceased was and every one should hear him. On Tuesday evening next he will deliver his famous lecture, "Gettysburg" (in which battle he fought) at the Christian church. Admission fee, 10 cents. The entire proceeds will go to aid the American Home Founding Association of which Mr. Green is field secretary.

Rev. J. M. Greene D. D. of Chicago, will preach at the Christian church next Sunday morning. Mr. Green is an old soldier and a minister of renown and every one should hear him. On Tuesday evening next he will deliver his famous lecture, "Gettysburg" (in which battle he fought) at the Christian church. Admission fee, 10 cents. The entire proceeds will go to aid the American Home Founding Association of which Mr. Green is field secretary.

After partaking of a good "hand out" at Mr. David Dutton's, last week, a tramp went into garden and began pulling green peas and eating them. Mr. Dutton's youngest son, David R., ordered the tramp away and, upon the tramp refusing to go, he tried to force him out into the street. In the ensuing "fight" of the road" got the better of young Dutton and threw him to the ground and bit his nose, making a very painful wound. The tramp made his escape toward Dayton.

The Sugar Beet Factory that Benton Harbor parties contemplate building at that place deserves to be a success. The promoters have begun their work in the right way and are giving the farmers and rig out belts on the opening of the product of the soil. The future of the sugar beet industry is very encouraging and the demand for raw sugar always good in the United States. Millions of tons of raw sugar have to be imported every year to supply home consumption.

Our Church Bells. Whereas: It has become an annoying practice of some of the young men and boys of our village to enter our church and ring our bells on Fourth of July morning, and Whereas: Such practice has become an intolerable nuisance, calling forth the protest of our best citizens, and Whereas: The locks to the doors and windows have been repeatedly broken and an entrance forced into said buildings, and Whereas: We consider the house too sacred a place for such rowdyism and disrespect, therefore Resolved, 1st: That we enter our emphatic protest against this reckless intrusion into our sanctuaries. Resolved, 2nd: That we seek the protection of the law to guard our churches and if this practice should be repeated such intruders will suffer the penalty of the law.

F. C. Berger, E. R. Black, James Provan, H. L. Potter, E. W. Shepard, G. S. Lottor.

Will Carry a New Line. Mr. John Morris who has been in Chicago this week buying goods returned home last night, having purchased a new line. He has decided to close out his house furnishing line and will put in a line of boots and shoes and clothing. He expects to open up his new line in a few days.

A Union Thanksgiving Service. In accordance with the request of President McKinley the churches of this town, have adopted the suggestion in last week's Record and will hold a union service in the Presbyterian church next Sabbath at 7:30 p. m. Appropriate addresses will be delivered by Rev. F. C. Berger, Rev. E. R. Black and Dr. Green of Chicago.

Prof. R. J. Blake's Dog and Pony Show. Coming Next Wednesday. The posters about town announcing the coming of this famous show have caused a thrill of excitement among the little folks, to say nothing of the bigger ones. The performance given when last here was simply fine, and this year the show is much improved both in size and in the character of the exhibition. That Messrs Sipe & Blake will be greeted with a big audience goes without saying, and the Record ventures the assertion that all present will be more than pleased with the exhibition of intelligence by the animals in the show and marvelous skill in training the animals for the parts assigned them.

Cake and ice cream will be served in the store occupied by A. Pierce, July 16th, afternoon and evening by the D. of H. ladies.

STOLE A MARCH.

Ray Lee Gives His Buchanan Friends a Next Little Surprise. A Record representative read in Wednesday's Chicago Tribune the following article:

If nineteen-year-old Mayme Vuytske, the daughter of Alphonso Vuytske of Benton Harbor, who lives humbly and is suspected of being a millionaire, and 23-year-old Ray E. Lee, cashier of the bank of Lee Bros & Co., Buchanan, Mich., carried out the intention evidenced by the marriage license taken out by them in Chicago on Monday, of which there seems to be no doubt, they did so in opposition to the wishes of the bride's father. The elopement was the sequel of a courtship under difficulties and with stubborn determination on the part of the young couple. Alphonso Vuytske opposed the marriage from the first, claiming that his daughter was too young. His wealth is reported to be numbered by the hundreds of thousands, and rumor has it that he feared the young bank cashier sought his daughter's hand because one day it would be hers. If that was his opinion, it was not shared by his daughter. She tried to become Mrs. Ray E. Lee last fall but her father thwarted her attempt then, she persevered in her intention. By the father's own statement, the love affair has had a history of two years. The elopement planned last fall came near being carried out successfully. The marriage license was issued at the county seat of Berrien county, Mich., but the father arrived on the scene in time to have the license canceled. The details of the Chicago trip are in a mystery. It is not known who performed the marriage ceremony or where Mr and Mrs. Lee went immediately after, except that they did not go to Benton Harbor. When informed of the Chicago marriage, Mr. Vuytske was surprised. "My daughter wouldn't get married without my consent, and I can't believe it," he said. "This thing has been going on for two years. I was in hopes the affair would rest until my daughter had become a Buchanan."

A call at the banking house of Lee Bros & Co. found the genial young cashier at his desk and, in response to a query as to what he had for publication, Mr. Lee responded, "Tell my friends to read the Tribune."

Replying to further questions, the young benedict stated that he and Miss Vuytske were married on Saturday at the Gt. Northern hotel in Chicago, by Justice of the Peace White. Mrs. Lee is at present on a trip east, and when she returns the young couple will decide upon their future plans. Mr. Lee states that possibly he may decide to locate in Benton Harbor, as his father-in-law wishes him to do so, in order that Mr. Lee may look after his business interests there. The friends of Mr. Lee have been busily engaged in extending congratulations to him, and the Record desires to express the wish that young couple may have a happy and prosperous journey through life.

Fred E. Lee has filed a declaration against Clarence W. Sprague and E. W. Sanders to obtain the sum of \$5,000 for damages done the plaintiff. Lee claimed the defendants owe him \$9,500 for goods sold them and work done in Buchanan.

Girls, when the boys make fun of you for chewing gum and claim that "only girls" chew gum, tell them that figures don't lie. In the first two days that the two gum machines were placed in the two waiting rooms of the M. C. depot thirty pennies were dropped in the one in the men's room and six in the ladies' waiting room.

Atty. A. A. Worthington was in St. Joseph Tuesday on legal business.

Messrs Frank Sanders and Harrison Merrill were Niles visitors, Thursday night.

Mrs. Mary Essick of Berrien Springs visited friends in town over Sunday.

Mr. and Mrs. I. W. Hayes of Kingsbury, Ind., visited Buchanan relatives last week.

Messrs. Ross Layton and John Wollerton of South Bend were in Buchanan Sunday.

Mr. J. F. Greenwald of Three Oaks was the guest of Mr. Frank Whitman, over Sunday.

County Clerk and Mrs. J. W. Needham spent Sunday with Buchanan relatives and friends.

Mrs. John Graham returned Tuesday from a visit of several weeks with Chicago relatives.

Mrs. G. E. Howe and two children of Kalamazoo are visiting relatives in Buchanan and vicinity.

BINNS,

NEXT TO POST-OFFICE, BUCHANAN

Orville Curtis M. D., PHYSICIAN & SURGEON, Office, Main St. Tel. 17, Haddon. Residence at C. D. Kent's

BERRIEN CENTRE.

From our Regular Correspondent. July 13, 1898.

Last Sunday, at Smith Lake, while Angus Murphy and some friends were pulling a buggy down to the water he fell and broke his leg just below the knee.

Tuesday Clyde Clarke got his hand mashed in a threshing machine.

Mr. and Mrs. Clarke and Pearl from Niles are here.

Threshing is the order of the day, also huckleberry picking.

Will Robinson is visiting in Pipestone.

Died—Hiff Pelter, infant son of C. D. and Jennie Pelter, aged 1 year 1 month and 21 days. The funeral was held at the South Berrien Center church, Saturday, July 9th. Services conducted by Rev. J. F. Barmess. He took his text from Job 14:2.

BARODA.

From our Regular Correspondent. July 12.

At school meeting last Monday night was voted not to finish the school house this year. And now there is a complaint. Why did you not go and vote for it, not wait until it is too late, for well we know it ought to have been finished.

The Ladies' Aid Society cleared \$18 the 4th of July selling ice cream, and the other side \$13, quite a sum for ice cream in our town.

Miss Stella Martin and Miss Addie Morrill of Chicago is visiting Mrs. Bartlett.

Mr. Chas. Spear of St. Joseph who has been working for Chas. Lemon, returned to his home Monday. He thinks he likes clerking better than farming.

Our new bakery is doing fine here, just what we have needed in the berry season.

Mr. W. O. Sleight and Frank Martier Jr. spent a few days in Chicago last week.

There was a circus Monday night in town. Not very many there.

BERRIEN SPRINGS.

From our Regular Correspondent. July 13, 1898.

Mrs. R. D. Dix and daughter Kittie are home from Lansing for the summer.

Mr. and Mrs. A. Kephart have gone to their summer home in Petoskey.

Mrs. Wm. Stahl was down from Buchanan last week.

Mrs. John Wilkinson of Lansing is visiting her parents, Dr. and Mrs. Reiber.

Mrs. Gifford was up from St. Joseph one day last week.

The quarterly Union Gospel Temperance meeting was held in the United Brethren church last Sunday evening.

Mrs. Howard, of Nebraska, is visiting relatives here.

Thanksgiving services were held in the Baptist church last Sunday morning.

Mr. and Mrs. D. G. W. Gaugler very pleasantly entertained their friends last Thursday evening upon the fortieth anniversary of their marriage.

The school house has been newly painted and is greatly improved in appearance.

THREE OAKS.

From our Regular Correspondent. July 13, 1898.

**FAMILY TIES.**

Shoes for the whole family. The ideal shoe for gentlemen this summer for street wear is the *Vici Kid* or *Russia* calf. The popular colors for the "russet" shoes are mahogany—brown and dark tan; soft, light, cool and easy to keep clean.

For ladies, Oxford ties—black and colors—in new shapes, and the same variety for the little ones. The day is past when any shoe is good enough for the children. We make up our stock as carefully for the juvenile trade as for the parents. We want to train the little ones in the way they should go—and they will continue to go to our store.

Yes—we have a good line of bicycle shoes.

**CARMER & CARMER,**  
BUCHANAN, MICH.

**PATENTS** THOS. S. SPRAGUE & SONS, Attorneys and Solicitors in Law, 1111 Broadway, New York, N. Y.

PUBLISHER AND PROPRIETOR.

THURSDAY, JULY 14, 1898.

In 1857, after the placers of California had yielded \$600,000,000, there was but \$27,000,000 left in the United States, every warehouse in the United States was stuffed with English goods and wares, and our own skilled workmen, for the first time, were forced to accept the charity of free soup in our Eastern cities.—Salt Lake Tribune.

Merely publishing your name, address and business will do some good, but there's a better way. Find some point in which you excel and harp on that. Give prices and specialties. Try to make advertisements interesting and readable. Make them characteristic of your store, and above all things make them true in letter and in spirit.

A comparison after the first eight months of the Wilson Tariff law and the eight months of the Dingley law showed that in Oregon there were employed in manufacturing industries 125 per cent more hands under the latter law than the former, the gross amount of wages paid was 141 per cent more, and the rate of wages 7 per cent higher. No wonder the State went overwhelmingly Republican at the late election.—Boulder, Col. News.

Internal Revenue Collector Lemon clears up a question which has been in doubt, as to the use of revenue stamps upon school district, village and township orders and similar papers. Mr. Lemon says:

"The interpretation which this office places upon Section 17 of the new law is that no stamp is required upon orders on the trees or issued by township clerk, or city, village or county clerk, so long as it relates to functions strictly pertaining to said town's governmental, taxing, or municipal capacity. Tax receipts are therefore not taxable."

**Hammond's Slug Shot**

Destroys potatoe bugs, cut worms and all kinds of insects that infests the garden, trees and bushes. It will rid sheep of ticks, hens and cattle of lice, etc.

**STATE HORTICULTURAL SOCIETY.**

Annual Report for 1895 and 1896.

We have a number of copies of the annual reports of the State Horticultural Society for 1895 and 1896, sent to the Kalamazoo office for distribution among our readers who are interested in horticultural matters. Call and get a copy of these valuable reports. They will cost you nothing.

Michigan Crop Report.

The acreage of wheat grown in Michigan this year is, approximately, 1,710,000 acres.

This total is the footing of the column "acres now on the ground" as returned by supervisors in the Farm Statistics last spring, though for the townships not yet received or footed the acreage has been carefully estimated.

The average yield per acre in the State is estimated at 16.74 bushels. This estimate is based on nearly 1,150 reports covering all parts of the State. More than 600 are from the southern counties and more than 400 from the central counties. The estimate, however, must be understood to represent simply the best judgment of our correspondents while the grain was standing uncut or in shock, as the loss in threshing had been done. The estimate points to a crop of about 28,600,000 bushels.

Harvest is full two weeks earlier than in 1897. With good weather it will be completed by the 10th to 15th, or about the time begun last year.

The number of bushels of wheat reported marketed in June, 1897, and the amount marketed in the seven months, August-June, is 16,623,661 bushels, as compared with 9,465,582 bushels in the same months last year.

The area planted to corn is about the same as last year, in excellent condition. The yield is 22 per cent higher than one year ago.

The average condition of oats is 91. The estimated area planted to beans is 91 per cent, and to potatoes 96 per cent of area in average years. For potatoes the percentage for the southern and central counties is 95, for the northern 104, and for the upper peninsula 100. In condition this crop averages 96.

Meadows and pastures and clover sown this year average about 90. The hay crop of this year is fairly good and secured in fine condition.

Apples promise in the State 80 per cent, and peaches 74 per cent of the average crops. The figures for the southern counties are, apples 74 and peaches 71. One year ago the outlook was for less than a half crop of apples, and for less than one-fourth crop of peaches.

How "America" Was Written.

"I wrote 'America,'" said Dr. Smith in a voice somewhat highly pitched, and with a slight drawl, "when I was a theological student at Andover, during my last year there. It seemed a pleasant recollection, for a smile crept over his countenance, and he settled deeper into his chair.

"In February, 1832, I was poring over a German book of patriotic songs which Lowell Mason, of Boston, had sent me to translate, when I came upon the patriotic hymn, 'I reached my hand for a bit of waste paper, and, taking my quill pen, wrote the four verses in half an hour.

"I sent it with some translations of the German songs to Lowell Mason, and the next I knew of it was told to me by a patriotic hymn, I reached my hand for a bit of waste paper, and, taking my quill pen, wrote the four verses in half an hour.

"I sent it with some translations of the German songs to Lowell Mason, and the next I knew of it was told to me by a patriotic hymn, I reached my hand for a bit of waste paper, and, taking my quill pen, wrote the four verses in half an hour.

**AN UNRESOLVED HONOR.**

Dr. F. R. Bolknap has received a letter from secretary of the Board of Trustees of the Norwich University of Northfield, Vermont, stating that the Board had conferred on him the degree of Master of Science. The honor was entirely unsolicited and unexpected on the part of the doctor, and it is needless to say that he is highly gratified, as such degrees are seldom conferred. Dr. Bolknap is a graduate of Norwich University. The trustees recently conferred the degree of Master of Military Science on Admiral Devey, who graduated from that University.—Niles Sun.

**FARM AND DAIRY**  
Conducted by Perry G. Skirven.

Our readers are invited to send us any questions for information on this subject, and any communications bearing on dairying will be read with pleasure and will be fully discussed in this column.

The protracted dry spell has already begun to tell on the corn and pasture fields.

Put a couple of loads of straw in to the cow-yard every week. It keeps cows clean, and adds to the manure pile.

Just keep the little harrow (spike tooth) going through the corn, these hot days, and the big yield will be there when time to cut it up.

A one-horse spike tooth harrow is an excellent tool to put into the corn field now. It breaks the crust, but does not harm the roots of the corn.

Let Us Be More Than the Average.

When a man speaks of the farmers' of a state or nation he speaks of a very wide diversity of men. Although all are engaged in tilling the soil and from it raise the productions upon which they depend for revenue, yet the resemblance stops there. The men themselves are very dissimilar. We doubt if any other class can show such a wide difference in character, ability, intelligence, and the returns which comes to their hands. Merchants, lawyers, editors, mechanics, all average more nearly alike in talent and capacity than do farmers. The great stimulating purpose with every man, whether he is a farmer, merchant or mechanic, should be to rise above the average of his class. The farmer, in particular, should be filled with ambition to show the world that he is something more than an average farmer. He should strive to keep better cows, sheep and hogs than his neighbors; show a better system of farm management, better crops, etc.

Such a man will make larger profits, and win larger respect from all classes. Too many have an ambition to own a large number of acres, thinking that will bring them larger respect and profit, which, however, is not true.

It is a splendid ambition, which leads a man to be a fine skillful farmer.

One cannot help admiring such ability when it is shown in the neat, well kept house and grounds, the spacious well painted barns and out buildings, good fences, well bred farm animals and a thorough system of farm management.

Such men are true artists; they have the artistic sense and ability to construct a fine farm picture. Their neighbors can learn something from them every day. There is an unconscious tuition which goes out from their lives and example.

Such farmers are a blessing to their community and their state. "May their tribe increase." How much finer and larger in every sense is it for a young man to have the ambition to be such a farmer than to enter the over crowded professions. The towns are full of men who came from the farm, who might have been a success there. Many such a man has spoken to us bitterly of the folly of his youth in leaving the farm. Modern agriculture, with its machinery, improved live stock, its books, experiment station reports, dairy schools, colleges and strong intellectual force at work on every foot of soil, is a different thing from that of 50 years.

A young man of education and ability can find, on the modern farm, opportunity of the brain power, all skill and energy he can muster. The rewards in money, health, comfort and true independence of character, as well as the respect of his fellows are greater here than in the town.

It is a large field full of the fascinating mysteries of animal and vegetable life.

Wise is the young man who says early in life: "I propose to make of myself a first-class farmer. I will take all the advantages that wide reading and study can bring me. I will show my ability and my skill in the appearance and outcome of my farm. I will establish a neat tasty farm home that will show the passer by that a man of taste and intelligence lives here. My farm shall be my pride as well as my profit."

Such a man will make a grand good citizen as well as farmer.

A Prosperous People.

South Dakota Farmers are Out of Debt. They will be lending money to Eastern farmers within a year. Don't stop to sell your old worn out farm. Let the mortgage take it. Go to South Dakota and buy a rich black loam prairie farm for cash or on crop payment plan. No bills, no stones, no stumps. Good schools, good churches, good water, fine climate, and the best people on earth for neighbors.

For railway rates and information regarding lands along the lines of the Chicago, Milwaukee & St. Paul Railway write to H. F. Hunter, Immigration Agent for South Dakota, 291 Dearborn street, Chicago, Ill., or Geo. H. Heathford, General Passenger Agent, Old Colony Building, Chicago, Ill.

AN OLD AND SOLID HOUSE.

Peck Bros., Michigan's Leading Wholesale and Retail Druggists.

One of the oldest drug houses in the State is that of Peck Bros., Grand Rapids, whose retail drug department is among the largest in Michigan. The firm are manufacturing chemists also, and their preparations have attained widespread renown. Every family in Michigan should know of Peck Bros' remedies. Peck's Headache Powders are a guaranteed specific for every form of headache; they contain no narcotics and do not injure the nerves. Peck's Compound Carbolic Ointment is a proved remedy for ulcers, all kinds of sores, and itching piles. These remedies are not classed as patent medicines, but are physician's prescriptions. They are sold under a positive guaranty to act as represented, and prove entirely satisfactory, or money refunded; and the well known high standing of Peck Bros. in the drug world is sufficient assurance that this promise will be fully carried out.

**POULTRY COLUMN.**  
Conducted by R. F. Green.

Laying Hens.

During the summer some of the hens will lay right long and show no indication of ceasing as producers, while other hens in the flock will give no returns. In such case it will be found that the non-producers are very fat and, if so, they should be sent to market, as it will be difficult to reduce them in flesh while the weather is very warm. The laying hens will also reach the same condition if great care is not used in feeding them. The best diet in summer, if the hens are on a range, is the green food that they pick up, with a ration of lean meat, chopped, giving no grain. If the hens are confined give them chopped green clover in the morning and meat at night. Do not feed the hens at noon. It is better to underfeed them than to give too much if eggs are the object.

MALES FOR THE FUTURE.

The males should be eighteen months old if strong old vigorous chicks are desired. Those who are well-informed on that point hatch them in August, and do not use them for breeding purposes the next year. It is well-known that all chicks hatched late do not grow to as large size as those that are brought out early, hence the late-hatched males will not be as large as the average. This is an advantage, for very heavy males should not be desired, but the late hatched and medium size males will be active and serviceable when eighteen months old than the yearling male hatched in the spring, and chicks desired by the medium size males will be fully as large and, if may claimed, stronger, than when a yearling male is used. It is therefore not too late to hatch the males, if they are to be retained, but they must be over a whole year until the following spring.

SUMMER DISEASES.

The principal cause of diseases among fowls in summer is filth. If they are confined in yards (which frequently happens when a garden is cultivated), there is a great accumulation from the droppings, and if the weather is warm and dry—no rains to drench the runs—the yards soon become the abode of germs. Large portions of the soft food that are unconsumed decompose, and every grain of food uncast is contaminated to a certain extent. The remedy is to spade the yards, and then turn under the filth. If there are two yards, so as to permit of changing the fowls occasionally, green food may be grown in one while the other is occupied, thus effecting a saving of food, keeping the yards clean, and avoiding grain, the result being that the fowls will be more thrifty.

YOUNG TURKEYS.

Young turkeys should now be past the danger stage, but they must be carefully examined for lice or they will not grow. Anoint their heads every two or three weeks with a few drops of melted lard. Do not allow them to roost on the trees, but provide a place for them under an open shed. If the roost is too high they will become lame, caused by jumping to the ground. They can help themselves on the range and need no food except at night. Give an allowance of ground bone and wheat, and keep them growing rapidly.

LIGHT AND DARK EGGS.

Light eggs have the advantage in the New York market, but in Boston and Philadelphia the preference is for those that are dark. The main point is to send only fresh eggs if the object is to build up a trade. So far as the color of the shells is concerned quality is not indicated thereby. Buyers will nearly always select large and clean eggs, and where one has a reputation for selling those that are strictly fresh there is no difficulty in securing more than the regular price therefor.—P. H. Jacobs in American Gardening.

The Deadly Fire of the Navy Rifle.

The entire marine corps and enlistees of the navy have been supplied with small-arms. The new rifle is considered superior in many respects to the army rifle. It is an American invention, which we like first of all; it weighs but eight pounds, has a barrel only twenty-eight inches long, and carries a small bullet that a sailor can manage two hundred rounds of ammunition with ease. The navy rifle has a penetrating power that would send a bullet through six men lined up one behind another. And although we cannot expect the enemy to approach us with their men so arranged that we can pick them off by the even half-dozen with a single bullet, yet a rifle possessing this carrying force is bound to do considerable damage along the rear lines, even after the enemy has been driven from the field. Many varieties of new bullets have been invented within the past year, some warranted to kill at a distance of two miles, and others less deadly, but intended to shatter bones and tear flesh in the most shocking fashion, the idea in the latter case being to encounter the battle-field with wounded men who, because of the attention they require, handicap an army seriously during action.—From "Our Newest Appliances of War," by Mary Annable Dalton, in Demorest's Magazine for June.

Baptists' Anniversary.

Baptists have already accepted an invitation for their May anniversaries of next year. This invitation came from the First church of San Francisco. This will be the first time these anniversaries have been held in Rocky mountain. They bring together about 2,000 of the active workers in Baptist benevolence. The reason for going to San Francisco, apart from the stimulus given to Baptist interests on the Pacific coast, is the fact that it is justly regarded as the "Why? You Rocky mountain in California. The occasion next year is to be made a great one in Baptist circles of the Pacific coast.

A Brightened Future.

"No," he said, bitterly, "I can never hope to be paid for my work. Why? You Rocky mountain in the United States, weren't you?" "Yes, but I can't give their work as my parents won't give their consent, and before the supply of soldiers runs out I'll be too old."

**Send Help Quickly!**

Sick and Wounded Soldiers and Starving Cubans in Urgent Need of Relief.

INTENSELY GRATEFUL FOR THE DONATIONS THAT HAVE BEEN MADE THUS FAR.

A Beautiful Souvenir Picture Given for Every \$1.00 Contributed.

WILL NOT EVERY READER SEND AT LEAST \$1.00?

Over 400 Nurses will be needed in Cuba and the South Alone.

The Red Cross authorities declare that over 400 nurses will be necessary for the work in Cuba and the Southern military camps alone. Many boxes are being shipped to the camps in the South and to the army in the field and on our warships. A relief ship has been fitted out in New York harbor at great expense, and sailed June 30th. Nurses and supplies for the Philippines should be provided immediately. Also other armies will be hurried to Cuba and Porto Rico, and these must be cared for, our boys in the hospitals interested. Grateful for Donations Sent Them.

Surgeon-General Van Rypen, of the Navy, has received a number of letters from his officers on board the ship of Admiral Sampson's squadron, testifying to the gratefulness and appreciation with which the delicacies sent for the sick and wounded have been received.

The following is a sample of the many letters received. It is from Surgeon-General M. H. Simons of the battleship Iowa, off Santiago, dated June 15th. The Iowa says:

If those who sent them could see how they are appreciated by the poor fellows who have had nothing of the kind for nearly two months, during which time they have been continuously and almost in a temperature of between eighty and ninety degrees, they would understand better than I can tell them how refreshing the fruit is, and how grateful all are for the angelic thoughtfulness which prompted the sending.

Captain Evans, of the Iowa, made the following endorsement on this letter:—

Dr. Simons has stated it very mildly. Being for the moment one of the sick ones, I can testify, and do so most willingly and gratefully express my thanks and those of my ship's company for the delightful presents.

The Severe Campaign is on in Cuba. Now that the severe campaign has actually begun in Cuba, our soldiers are more than ever in need of the help given them through the Red Cross Society.

More than ever we have had the last opened the door through which we can reach the thousands of starving Cubans who have been waiting so long in despair for our promised help.

The U. S. Government relies to a large extent for relief funds upon the generous Americans who contribute to the Red Cross Society and the Central Cuban Relief Committee appointed by President McKinley. It is for these organizations that we now appeal to our readers for contributions.

All money sent to us will be promptly transmitted to the proper headquarters, and every contributor who sends at least \$1.00 will receive as a souvenir the beautiful picture, "The Acclade," which has been so highly praised and endorsed by Stephen E. Barton, Vice-President of the Red Cross Society, and also by the Central Cuban Relief Committee appointed by President McKinley, and by Hon. Chas. A. Schieren, Treasurer of the Red Cross Society and the Central Cuban Relief Committee, and by United States Senators, leading Cubans, and many other prominent persons. The superb picture will be a permanent memorial of this great struggle for the cause of liberty and humanity. Although there is great expense in producing and distributing this picture, most of this expense is contributed for the good of the cause, and over 90 cents of every dollar sent to us by contributors will go directly to the Relief Funds. No one is making any profit or commissions from the picture. We urge every one of our readers to send through us at least \$1.00 and as much more as possible to this noble cause. Subscriptions may be made through the BUCHANAN RECORD office.

Not to Be Balked.

A comparison made by an old carpenter twenty years ago may be applied to such wide range of work as had in mind. He was speaking of two boys, brothers, who had been sent to him to learn the trade. They were bright boys, and their father, in telling the carpenter of his pleasure at their progress in their work, said he would not see but one had done just as well as the other. "Um-m!" said the carpenter. "I presume to say their work looks about of a piece, but I'll tell you the difference between those two boys. You give Ed just the right tools, and he'll do a real good job; but if you don't get him the right tools, he'll make his own tools, and say nothing about it. If I was casted on a desert island and wanted a box open, I should not know there'd be no use asking Ed to do it, without I could point him out a hammer. But Ed!" added the old carpenter, with a snap of his fingers. "The lack of a hammer wouldn't stump that boy! He'd have something rigged up and the box opened, if there was any open to it! I expect Ed's going to march ahead of Ed all his life." Twenty years have proved the truth of the words, for while the boy who "made his own tools" is rich, his brother is still an ordinary workman.

A Clever Monkey.

There is a popular monkey in the zoological gardens of the prater at Vienna just now, says a correspondent there, and she is much admired. "Miss Maja" has an exquisite bicycle, which she rides to perfection, imitating to a degree all the movements of cyclists. She jumps into the saddle without touching the pedal, kisses her hand to everybody who she waits for the signal, then flies off at a splendid pace. From the wheel she jumps on a trapeze and then on the wheel again before it can fall. When she has shown all her arts and graces she claps her hands, calling upon the public to applaud. She thanks prettily for applause by bowing and putting her hand to her heart. The monkey has not been trained at all, only made to look on while men and women cycled. She has taught herself everything without any one's help. When money is given to her she runs to her nurse, takes her purse and puts it in it. It has been proposed to let her have one of the many cycling medals distributed in Vienna, but the societies refuse to give it to her.—London Daily News.

Must Have the Funds.

A board of regents has been formed to assist the proposed Trinity College, Washington. The board will, for the present at least, confine its efforts to the procuring of funds. Plans for some of the buildings of the college have been drawn by Mother Julia, the American provincial of the order of Sisters of Notre Dame, says that ground will not be broken until funds are in hand for the erection of the structure. Trinity college is to be for the higher education of American Catholic women. Its site is forty acres of land adjoining that of the Catholic university.

**A GREAT DOCTOR HERE!**

Will be at the STEPHENS HOTEL for the Benefit of the Sick. Medical Skill Brought to you, and Special talent, and Success Come to You.

Dr. Henry C. Clements, of suite 604 Stock Exchange Building, Chicago, a Specialist of renown and marked success will visit  
**BUCHANAN, JULY 12th and Balance of Week,**  
Where he can be consulted from 9 a. m. each day and evening at Stephens Hotel. Special attention will be given to the following diseases:

ECZEMAS, DROPSIES, CHRONIC ERUPTIONS, MALIGNANT BLOOD POISON, SCORFULA, TUMORS AND DISEASES OF WOMEN, DIABETES, BRIGHT'S DISEASE, GONORRHEA AND SYPHILITIC RHEUMATISM, GLANDULAR DISEASE. ALSO SO-CALLED HEART DISEASES.

And other forms of diseases usual by considered in urable. His visits should be remembered by all afflicted. Desperate cases of the above diseases especially invited, as Dr. Clements' record in these cases of incurable diseases is an enviable one.

Dr. Clements is the physician who cured E. D. Miller, formerly proprietor Hotel Bucklin of Elkhart, Indiana, after he was given up by nine leading physicians, among the number Prof. Lymann, of Chicago. Mr. Miller had dropsy, was tapped ten times, taking from him as much as seven gallons of water at one time. He was sick two years and is now at his home in Buchanan.

To Help Young Doctors.

All Souls' Episcopal church, New York, has long had a small library containing books such as ministers desire for consultation in the preparation of sermons. It is now being enlarged, and has been made a loan library. Books are to be sent upon request to ministers everywhere, and without regard to denomination. The rector of All Souls', the Rev. Dr. R. Hober Newton, says he has a very vivid recollection of his early years as rector, when his salary was barely enough to feed and clothe him, leaving him nothing for mental recreation and growth. Having been given a fund for ministerial support, he put it into books such as ministers in places where large libraries may not be available, and working for sermons not admitting of the purchase of many books, might be glad to have.

Begonia Culture.

Woman's Home Companion: Begonia of all kinds grow best in a soil that is quite rich, sandy and porous. A soil that is heavy, soggy, and apt to become sour cannot be used with good results. The matter of drainage is also an item in the culture of begonia, and to each pound allowed one such matter in the bottom of the pot. Flowering begonias can be bedded out in the summer with success, if plenty of water is given and a fairly sunny spot is selected. Those of the Rex type will be best if plunged in a partially shaded location.

Then They Put Out the Lights.

Ho—Then you think kissing is not wrong? She—the ideal WHY, I wouldn't be seen doing such a thing!

BUCHANAN RECORD. THURSDAY, JULY 14, 1898.

Arrived at the Post-Office at Buchanan, Mich., second-class matter.

Only 168 out of a possible 573 of the weekly newspapers in Michigan to accord a circulation in actual figures by the American Newspaper Directory for 1897.

RECORD ITEM BOXES. Are located at the following places: H. Binn.

Our Clubbing List. We have arrangements whereby we can save you money on your periodicals for the coming year.

Benton Harbor has decided upon a street fair, in the near future.

Miss Lou Moulton is attending summer school in Benton Harbor.

Mr. John C. Dick has just finished painting his Day's avenue residence.

Dr. W. C. Striker has moved into one the Swasey houses on Moccasin avenue.

Mrs. Alice Rose of Buchanan is expected to move to Buchanan, in the near future.

Mr. H. A. Hathaway has moved into the house on Day's avenue formerly owned by Mr. E. W. Sanders.

Kompass, Stoll & Co., furniture factory of Niles, which has been idle for several months, have started up again.

Joseph Voorhees has some of the finest blackberries seen this year. They are the variety known as the Wilson.

Mr. Hall, who has been employed in the cutlery factory of this place, moved his family to Fremont, Ohio, this week.

Mr. A. Jones, the jeweller, is quite ill at his home on N. Oak street. The disease has been pronounced diphtheria and the house has been quarantined.

The enthusiasm at the meeting held here on Friday evening, in the interests of a street fair, was so great and the attendance so large, that it was deemed unwise to make an effort in this direction at present.

Mr. Miles Sparks, son of Mr. Ira Sparks, went to Benton Harbor on Monday, to take a course of treatment in the Excelsior Mineral Water Co's new bath houses.

Mr. Henry Kolb of Atchison, Kansas, called at the Record office. Monday morning, and renewed his subscription to the Record. He is back for a short visit with relatives. Mrs. Kolb has been visiting here about six weeks.

The sound of the steam thrasher is heard in every direction. Only a few crops have been thrashed, as yet, with fair yield. Many farmers are stacking their wheat. A number of fields of oats will be ripe enough to cut, this week.

Miss Bessie, daughter of Editor J. B. Manz of the Courier, was awarded a prize of a handsome souvenir spoon, as the handsomest lady at the show, Saturday evening, and on Monday evening also, she was the possessor of the ticket that received the prize.

Next Monday Mr. Earl S. Light will start for Muskegon, where he will attend a meeting of the Michigan Press Association as a representative of the Record. He will also accompany the Press Association on their trip to the Pacific coast, over the Canadian Pacific.

Last Friday Mrs. Harry Butler, who lives about 7 1/2 miles north-west of Buchanan, was quite severely hurt by a runaway accident. While descending a steep hill, the horse she was driving started to run, throwing her out of the buggy. She was quite badly bruised, but Dr. Curtis, who attended her injuries, says she will soon be fully recovered from them.

The residence of Mr. J. R. White, the fruit grower who lives about half a mile west of town, was burned to the ground, Saturday morning, between 9 and 10 o'clock. The fire department responded promptly, as usual, and as there was no water main on that part of Front street, could do nothing but direct their efforts toward saving what household furniture they could, and keep the fire from spreading to the barns and out-buildings, which they succeeded in doing by pumping water from the well and cistern, until the intense heat from the burning building drove them from the pumps. The fire was caused by a girl striking a match in a room where gasoline had just been poured about, for the purpose of killing buffalo moth, or carpet bugs. Mr. White's loss will amount to \$1,000 with an insurance of \$450 on the dwelling and \$200 on the furniture.

Patriotic Neckwear, Handkerchiefs, Flags, FOR MEN, WOMEN, BOYS and GIRLS MORRIS THE FAIR DEALER IN ALMOST EVERYTHING. Buchanan, Mich.

Checked the Wrong Tunk. When Dr. Chas. A. Montague started back to his home at Fife Lake, Thursday, he was discussing a matter of checking with Baggage-master Koons of the Michigan Central R'y.

By 100,000 Majority. Is What Ex-Congressman Elmer Thinks The Republicans Will Get This Fall. Hon. S. O. Fisher, of Bay City, late democratic candidate for governor of this state, expressed himself freely the other day, on the nomination of Whiting last week for governor, by the democrats and populists.

Noah Michael, father-in-law of John Hamilton, had his pocket picked on the Big 4 train, coming home from Benton Harbor, July 4. The discovery was made when Mr. Michael found his pocket turned inside out.—Niles Star.

Letters unclaimed remaining in the P. O. at Buchanan, for week ending July 11. Call for advertised letters. Mrs. Mollie Bristol. Mr. Otto Porter, Mr. James O'Neil, Mr. James A. Smith, Mr. George Fox.

CARD OF THANKS. I desire to return my sincere thanks to the members of the Buchanan Fire Department, for their prompt and efficient aid at the recent fire at my place; also, to the neighbors who assisted in the endeavor to save the property. JAMES R. WHITE.

PAY YOUR TAXES. The tax roll of the Village of Buchanan is in my hands for collection and taxes are now due, and payable at the First National bank. All taxes paid on or before July 31 will be subject to one per cent fees. After that date, four per cent will be charged.

PIANO SALE. I have secured a stock of Pianos and Organs from a firm in New York City to close out and will offer the same during the next 80 days at less than manufacturer's prices. The stock includes Steinway, Newby & Evans, Fallett & Davis, Camp & Co., Ludwig & Co., Arion, Emerson, Nilson, Reed & Sons, Martins & Son, Mathushok, Joscelyn.

The Christian Sabbath. How many people in Buchanan would like to be banished to a land where there is no Sabbath or Christian influence? And yet how many there are who seem to be doing all they can to break down the Christian Sabbath.

When the first noise one hears, on the otherwise quiet and holy air of a beautiful Sabbath morning is the noise of the carpenter's saw and hammer it makes him think he has at least one heathen neighbor, and when he walks down Front street on his way to church he sees at least one man in his working clothes near a factory window, pounding away at a work bench for dear life, and sees a number of stores open and doing business he gets the impression that there are at least a few people who for the sake of a chance dollar are willing to openly defy the laws of both God and man, and exert every influence they can to turn our fair land into a heathen nation.

Dear neighbors don't you know that you are thus turning away from yourselves the sympathies and respect of all thoughtful people who care for the best interests of this fair land? Don't you know that all the best people are grieved over the sights and sounds we have mentioned, and that God himself is displeased? They don't want to offend you by speaking to you of these offenses against good taste, christianity and law. They think your own good sense ought to teach you that you ought not, thus publicly to proclaim that you have not been well raised, or else you have, for the sake of a few paltry dimes determined to go back on your good parents' early teachings. It is only a few steps further to the Spanish custom of Sunday bull fighting and the wicked Sunday carousals in the great cities. Let's be done with this Sabbath desecration, and show ourselves a christian community.

I don't believe that the few paltry dimes you pick up on Sunday will compensate you for putting yourselves even below the saloon keepers, who, whatever else they may do that you do not like, do conform to the law which prescribes Sunday closing.

All this from a new comer who desires to respect his neighbors, and to live in love and fellowship with all. Respectfully, ALFRED L. SEWELL.

Dingley Law a Success. The Washington correspondent of the Indianapolis Journal gives this good report of the workings of the republican tariff law put in operation a year ago:

"With the close of June the Dingley law will have been in operation 11 full months. With the two last days of June estimated, it will have produced \$89,000,000 a month. The entire success of the measure as a revenue producer has been fully demonstrated. The normal income of the government is now somewhat in excess of the normal expenditures. But for the war, revenues would be several millions a month larger than they are, in the opinion of tariff experts. The Dingley law is bringing in \$80,000,000 or \$80,000,000 a year, more than the Wilson law."

Could there be any better record for a revenue measure? Is there any real cause for a change back to the old free trade system? Is not the tariff in good enough shape now to be let alone?—South Bend Tribune.

CHAPTER XIII

"No word of this to anyone, Whitaker," said Graton, as they turned away. He was beginning to see through it...

There on the unrumpled bed just where she had thrown them. They knew that they had left and gone on in the row while his wife was expostulating with Fanny and Randy...

"I think I'll do with this here, sir," said McGrath, coming finally into the adjutant's office. "There's three messages here for Mr. Merriam, argst ones, too, and finally the sender asks why he don't reply."

"Say that Mr. Merriam is still away after Mexican murderers and we expect to see him any minute. Ask any other officer will do? Hello! What's that, orderly?" he broke off, at the sound of hoof beats and excited voices without.

"Lieut. Merriam's wounded, sir, an' his horse killed, and can the doctor go back with me?" thought Graton, as he spoke aloud. "Is there to be no end to the calamities of this day?"
