BUCHANAN RECORD.

THURSDAY, SEPT. 22, 1898.

Entered at the Post-office at Buchanan, Mich., as second class matter.

Only 100 out of a possible 175 of the weekly newspapers in Michigan are accredited a circulation in actual figures by the American Newspaper Directory for 1898, and the publishers of the Directory will guarantee the accuracy of its rating by a review of one issue of the Bulletin to the person who successfully certifies it. Advertisers should note the fact that the Bulletin is one of the 100 that are not afraid to let their customers know just what they are buying.

RECORD ITEM BOXES

Are located at the following places: H. Binns. B. R. Desenberg & Bro. Hotel Stephens. Dr. E. S. Dodd & Son. M. C. R. depot.

MORRIS' THE FAIR, DEALER IN ALMOST EVERYTHING, Buchanan, Mich.

RENOMINATED. The Present County Officials Will Have Another Term.

The Republican county nominating convention was held at Berrien Springs, last Thursday.

The convention was called to order at 11 o'clock by Chairman A. N. Woodruff. Rev. Mr. Hess of Berrien Springs offered prayer, after which Don G. Morrison read the call of the convention. Hon. L. G. Efte of St. Joseph was unanimously made temporary chairman and Frank B. Hinemann of Three Oaks was made temporary secretary. Mr. Efte made a short address, which was received by marked attention, at the conclusion of which the business of the convention was taken up.

On motion of N. A. Hamilton, the delegates present were made the delegates of the convention, without a committee on credentials. Mr. Hamilton moved that a committee of five on permanent organization and order of business be named, but I. L. H. Dodd of Buchanan moved that the ordinary business be dispensed with and the ticket be nominated by acclamation, each name separately. This motion was carried.

The temporary officers were made permanent, and sworn in by N. A. Hamilton. Three cheers for the ticket to be nominated were then given.

Col. L. M. Ward named Edgar H. Ferguson for Sheriff, seconded by H. B. Volheim. The secretary cast the ballot for E. H. Ferguson. For County Clerk I. L. H. Dodd nominated John W. Needham, which was seconded by C. N. Sears. J. W. Needham was declared the nominee. For County Treasurer S. M. Clawson named John Clark, seconded by C. H. Farnum of Iagar. Jno. Clark was declared the nominee.

For Register of Deeds Herman Cielke nominated Alfred O. French, seconded by C. N. Van Ripper. A. O. French was declared the nominee. For Prosecuting Attorney W. L. George named George M. Valentine, The secretary cast the ballot for G. M. Valentine.

For Circuit Court Commissioners, John C. St. Clair and Nathaniel Bacon were named. Mr. Bacon declined, but both were declared nominees.

For Coroners, the names of Samuel Brown of Benton Harbor, Frank Green of St. Joseph, and Franklin Gowdy of New Buffalo, were presented. Mr. Brown by W. L. George and Mr. Green by C. M. Edick. The Benton Harbor delegates had a private ballot and decided on Frank Green as their choice. Frank Green and Franklin Gowdy were declared nominees.

C. Byron Pratt of Watervliet was named for County Surveyor, and the secretary cast the ballot for him. The Fish Inspector was left out, and the convention adjourned till 1 o'clock.

It was generally understood in the convention that the reason for the failure to renominate Samuel Brown, the colored politician of Benton Harbor, for Coroner, was because of his position in the city campaign last spring when he helped elect Edward Brant mayor.

After the adjournment for dinner, the convention was again called to order and Hon. E. L. Hamilton, who will represent this District in Congress next term as faithfully as the last term, delivered a rousing campaign speech which was loudly applauded. He was followed by Col. L. M. Ward of Benton Harbor. After three rousing cheers for all hands, the convention was adjourned.

Frank Phisicator. Returned Gold-Miner Gives some interesting Items About Alaska. Mr. Frank Phisicator, who returned this week from his second trip to Alaska, says he reached the gold fields with much less hardship on the voyage of February last than the voyage of 1897. He says the health of the gold-seekers in and about Dawson was excellent when he left, and that starvation was unknown among the natives, as well as gold seekers, as food had become quite plentiful in the last year. The fever from which many gold seekers, as well as natives, were suffering in 1897, is greatly reduced, as the water which collected poison while passing through the moss on the mountains is not being used.

Mr. Phisicator's present plans are to remain here this winter and return to the gold fields in the spring—Benton Harbor Palladium.

Burned to the Ground. The residence of Hon. Levi Sparks, consumed by fire yesterday afternoon.

Mr. Sparks came to Niles in the morning and his wife went to the home of their son, Edward, which is about forty rods east, for dinner. All were at dinner when Mr. Sparks' Jr., heard a dog barking and left the table to investigate the cause. Arriving at the door he saw flames coming from the door and roof of the wood-house of his parents' home. Mr. Sparks and wife, John Rogers and Walter Webster and wife were at hand and hastened to the scene of conflagration. They were successful in saving most of the furnishings of the house, but could do nothing to save the building, which was put up forty-one years ago by Leonard Simmons. Partially insured in the Berrien County Mutual Fire Insurance Co.—Thursday's Niles Star.

LEARNS SOME FACTS

Secretary Alger's Tour Brings Out Some Charges.

Some of the things complained of... Incompetency and neglect are charged against the medical and general staff departments.

Gen. Waites told Secretary Alger that the neglect of some quartermasters to furnish supplies was criminal.

Washington, Sept. 22.—The quartermaster's department of the army states that the claim made by certain officers that boilers were not furnished for boiling water at Chickamauga is not true.

Gen. Waites said that the boilers were not furnished for boiling water at Chickamauga is not true.

KEEPING PRISONERS.

The Novel Way in Which the Germans Prevented Their Captives from Running Away.

"It has been suggested that when Santiago falls we should have from 10,000 to 20,000 Spanish prisoners to look after," said a well-known German citizen to the New York Tribune, before the surrender.

"It recalls to my mind an incident of the German revolution of 1848. We were short of men and had a large number of prisoners to look after. That did not worry us as long as we were not moving, but one day we had to make a forced march. The country through which we were to pass was hostile, and extreme watchfulness was necessary. We had few enough men as it was, and we knew that those prisoners were ready to make a dash for it at the first opening.

"Finally a young officer made a brilliant suggestion and it was promptly carried out. The prisoners' trousers, taken away from them and knew what they had done, and fast running was out of the question. We made the march safely, and I do not believe that even Yankee ingenuity could have invented a simpler solution."

TOUGHEST HORSES

Buffalo Bill Says That the Dan Color Is a Good Shade to Stand Long Marches.

"Dan colored horses are not the prettiest by any means, but my experience has been," said Col. William F. Cody, when in Washington recently, says the Washington Star, "that they are the toughest of the horse kingdom. An ordinary dan horse will run out three other horses. Put as much work on him as you may, he never looks as well or as tired in appearance as a bay, a chestnut, black, gray or white, but as far as service is concerned he will run the others to a standstill. This is my experience on the plains, in the cavalry service, and is my experience in the show business, where I have nearly 500 horses.

"Dan horses are somewhat rare, but when they can be picked up I would advise that they be bought, especially when the question of wear and tear is considered. They are, as I said before, not strong as far as looks are involved, but for ordinary work they are the best back seat alongside of wear. The cavalrymen who are soon, I hope, to ride over Cuba, will find that my indorsement of dan horses is of some value."

HOTEL CLOCKS ALWAYS TRUE

But the Most of the Family Mantel Timepieces Are Conscienceless Pretentors.

When I am traveling I never put the slightest confidence in a household clock, writes Robert J. Burdette, of the "Chicago Daily News."

"I have a great preference this day of accumulating small luxuries is not quite clear, because those who follow this scheme are in a position to buy, or have bought for them in their own families, the same articles they take from men.

"WHITE TRAIN" FOR LOURDES

Some of the Touching Sights That Are Seen En Route to the Shrine.

What is called the "white train" left Paris the other afternoon from the Orleans railway terminus, says a foreign exchange. This conveys annually numbers of cripples and invalids on their way to Lourdes.

Herodism of the Doctors. Heroic work was done by the surgeons at every engagement. A doctor was one of the first to fall in the campaign at Santiago.

Inhalation of Microbes. At the seaside or in the country, where the air is clear, 1,500 microbes would be inhaled in the nose every day. In the city of London the air reaches 14,000. The organisms are caught by the nose and passed to the digestive organs, which, when in health, destroy them.

Extraordinary Kleptomaniac. One of the strangest cases of kleptomaniac ever brought to light was heard of in Paris. A certain lady had such a passion for smoking and for collecting mechanical toys that she had been for a long time stealing pipes of this description from shops. In the flat which she occupied there were found no fewer than 2,800 pipes, not one of which, it is believed, she had paid for. They were neatly arranged on racks, and 30 were well colored. The court before which she was indicted for some of the thefts would listen to no excuse, but sent her to prison for eight months.

Flour Bricks. Flour is now being pressed into bricks for use on the march and in camp. The British government is testing it for its army.

British Mercantile Tonnage. In the period from 1871 to 1890 the capacity of the mercantile navy of Great Britain increased from 7,000,000 to 21,600,000 tons.

Gold for Import. New York, Sept. 22.—Wednesday's gold engagements comprised \$1,000,000 for the United States Mortgage and Trust company, and \$500,000 for Morton, Bliss & Co. There was also announced an engagement of \$300,000 to the Manhattan Trust company, made Tuesday. Total engaged in or received from Europe since the beginning of the movement, \$10,600,000.

Shows an Improvement. Washington, Sept. 22.—Gen. Lawton's report of the health condition of the American troops at Santiago indicates a distinct improvement. The number of deaths during the past two days, killed both in camp and child and then shot himself.

A STARTLING SPEECH

Col. Picquart Hints That He May Be Murdered.

Col. Picquart Hints That He May Be Murdered.

EXPECTS TO DIE IN A PRISON CELL

Declares If He Does It Will Be by the Hand of an Assassin, for He Will Not Kill Himself Like

Paris, Sept. 22.—The trial of Col. Picquart, who was at the head of the secret intelligence department at the time of the arrest and conviction of Dreyfus, and Maître Le Blois, his lawyer, upon charges of having revealed documents relating to the national defense, was called in the eighth correctional tribunal Wednesday. An effort to secure an adjournment, but this was opposed by counsel for Col. Picquart. Col. Picquart addressed the court in opposition to adjournment and in conclusion said:

"I will not commit suicide. Perhaps this may be the last time I shall speak in this court. I have lived the night in the military prison of Cherchidi. I wish, therefore, to declare that if I am to die, it will be by the hand of a murderer or the razor of a man like Picard or the razor of a man like Picard. This utterance evoked cries of 'Vive Picquart.' The court then adjourned the trial indefinitely. Col. Picquart declined to ask for bail, and was taken back to prison by detectives receiving an ovation from the crowd as he was led away.

Gen. Chanoin, minister of war, declares having ordered the institution of proceedings against Col. Picquart for forgery in the case of the Dreyfus case, he said, to order such proceedings.

President Faure will return to Paris to reside at the cabinet council on Monday. The president of the revision commission in the Dreyfus case is expected.

The Dreyfus Colonias says that it is authorized to contradict the report of the early removal of Dreyfus from the Dreyfus case to France. The ministers, the president of the court considered the question and will announce the decision of the court of cassation, to which the question of revision must go for final decision in the event of a revision commission deciding favorably as to reopening the case.

BASEBALL

Progress of the Contest for the National League Championship—Results of Recent Games.

Following is the standing of the clubs in the National league:

Table with columns: Club, Won, Lost, Per cent. Includes teams like Chicago, St. Louis, Cincinnati, etc.

National league games on Wednesday: At Baltimore—Baltimore, 3; Chicago, 1. At Brooklyn—St. Louis, 7; New York, 10. At Philadelphia—Philadelphia, 6; Pittsburgh, 10. At New York—New York, 15; Boston, 7. At Boston—Boston, 7; St. Louis, 15.

Paris, Sept. 22.—The Boho de Paris says M. Cambon, the French ambassador at Washington, is to be transferred to Vienna.

West Superior, Wis., Sept. 22.—Two thousand visitors took the city by storm Wednesday night. They arrived from the two Dakotas in direct route to the head of the lakes. Great preparations for entertaining the visitors had been made, and when they arrived they were met by two bands and almost a million of music.

Col. Russell never tires of landing his regiment of rough riders, the basis of which, he says, is the cow puncher. There are ex-police-men, Harvard men, country doctors, dudes and heirs to millions in his regiment, but the framework of the organization is cowboys, bronzed, dardévil, loud and unwearyed.

"The scrapper by nature," says Russell, is also the scrapper for the language, while sticking to the assertion. They were not amused. They knew where the Spaniards were and hit them because they wanted to. They had not had any excitement. Life at the fort was a little more than anything would do to live things up a bit. The cow punchers had not had a good yell since they left Arizona and Oklahoma. The fight in the tropical undergrowth was just like a day off in town to most of them, except, of course, every one made of heroic stuff.

The rough riders will go into history along with other immortal fighters—the Light Brigade, Napoleon's imperial guard, the legionnaires, the legionnaires, the legionnaires, and they will be by and get into fiction as successors to the White company of Conan Doyle and the Zulu grays of Rider Haggard. And their names will be on the lips of the young men, magnified and glorified, will thrill many a bedside circle in the golden days that are to come. It is worth something to be one of Teddy's Troops.

At Rest in Arlington. Washington, Sept. 22.—The remains of Capt. Allyn Capron, one of the notable figures of the Santiago campaign, and father of Capt. Allyn K. Capron, of the rough riders, who fell in the first battle of the war, were buried at Arlington national cemetery Wednesday, with military honors. The funeral was attended by a large number of prominent army officers.

Successes of the South. St. Louis, Sept. 22.—A deal was consummated in this city Wednesday whereby the Brown tobacco plant became the property of the American Tobacco company. The price paid was \$1,250,000. Paul Brown, president of the Brown Tobacco company, will become manager of the business here for the American Tobacco company.

Montejo Suspended. Madrid, Sept. 22.—The queen regent has signed the decree suspending Admiral Montejo and granting pardon to the officers and crew of the steamers in the war with the United States.

Two Killed. Findlay, O., Sept. 22.—A fatal freight wreck occurred Wednesday evening at eight o'clock at the junction of the Cincinnati, Hamilton & Dayton and Detroit & Lima Northern railroads at Leipsic. Train No. 92 on the Cincinnati, Hamilton & Dayton disregarded a stop sign and ran into the rear of the engine and 14 cars were derailed. Engineer Popp and brakeman Moritz were killed. Both lived at Lima.

SCHOOLGIRL MURDERED.

Terrible Fate of Jennie Hickey in Chicago—Arrest of Her Suspected Murderer.

Chicago, Sept. 22.—The dead body of Jennie Hickey, a 13-year-old schoolgirl, was found at the breakfast table of Thirty-sixth street Wednesday morning. She had been murdered, her skull having been beaten in. Although the body was found early in the day, it was not until late in the evening that the police discovered the girl found her body in the morgue. Thomas Rutledge, an expressionist 19 years of age, has been arrested and although he denies having killed her, or being in any way concerned in the crime, there is an exceedingly strong case of circumstantial evidence against him.

Odd Fellows Parade. Boston, Sept. 22.—Ten divisions of subordinate lodges of odd fellows, representing all the divisions of the order, together with brilliantly uniformed brigades of the Patriarch Militant, comprised the annual parade which was held in the city of Boston at the gathering of the sovereign lodge, I. O. O. F. and its auxiliaries.

New York's Dead. It Takes Over Seventeen Acres of Ground Every Year to Bury Them.

The dead of London require an annual waste of 23 acres of valuable ground, says Louis Windmiller, in the North American Review. If 4,000 are buried into the space of one acre, the limit in the case of the most populated graveyard, and if we accept the present rate of mortality, 20 per 1,000 inhabitants, as the standard, New York, with a population of 3,000,000, would require ground for 70,000 corpses, and would require annually 17½ acres to bury them. Unless the custom is changed, the available room in the vicinity of all large cities will gradually be absorbed by remains of the dead.

In considering the welfare of individuals the expenditure of one may benefit another, but citizens should be treated on equal terms. With the exception of Greenwich, almost all cemeteries within the neighborhood of New York are either poorly managed by churches or administered for the benefit of a few fortunate shareholders. The rural cemetery law as amended in 1870, allows them to divide among themselves the proceeds of the sale of plots. Realizing about \$20,000, their investments bring large revenues and are esteemed valuable. By assuming the guise of benevolent societies, they are able to secure payment of taxes which their less fortunate neighbors are obliged to pay. The trustees are never called upon to make reports to the state, and they give but scanty information to their stockholders.

Information Wanted. Willie—Say, pa? Pa—Well, Willie, what is it? Willie—Is a cannon a pistol's grandpa? Pa—Oh, yes, I suppose so. Willie—That means a pistol a little son-of-a-gun, don't it, pa?

SETTLEMENTS FOR WOMEN.

English Women Try a Scheme to Add to Their Income by Selling Eggs, Milk.

An important experiment will shortly be made in England, with the object of forming settlements of women in different parts of the country for the cultivation of the land, and thus enabling them to add to their incomes by the sale of fruits, flowers, vegetables, poultry, eggs, honey, etc. The idea was first suggested by the countess of Warwick, and an institution will be opened in connection with Reading college in October, where they will be trained specially for the work.
